(MEC FOR FINANCE AND ECONOMIC AFFAIRS)

# BILL

To provide for the appropriation of money from the Provincial Revenue Fund for the requirements of the Province in the 2006/07 financial year; and to provide for subordinate matters incidental thereto.

### **PREAMBLE**

**WHEREAS** section 226(2) of the Constitution provides that money may be withdrawn from the Provincial Revenue Fund only in terms of an appropriation by a provincial Act;

**AND WHEREAS** section 26 of the Public Finance Management Act, 1999 (Act 1 of 1999) provides that the Provincial Legislature must appropriate money for each financial year for the requirements of the Province;

**BE IT ENACTED** by the Provincial Legislature of the Gauteng Province, as follows:—

# **Definitions**

1. In this Act, unless the context indicates otherwise, any word or expression to which a meaning has been assigned in the Public Finance Management Act has the meaning assigned to it in that  $\operatorname{Act}$  and  $\operatorname{---}$ 

"Act" includes the Schedule and its annexures;

"current payments" means any payments made by a provincial department in respect of the operational requirements of that department, and includes, amongst others, payments for the compensation of employees, goods and services, interest, rental of immovable property and financial transactions relating to assets and liabilities, but exclude transfers and subsidies, payments for capital assets and payments made under section 73 of the Public Finance Management Act;

"transfers and subsidies" means any payments made by a provincial department to another organ of state or any other person in respect of which the national department does not receive anything of similar value directly in return, and includes the payment of conditional grants;

"payments for capital assets" means any payments made by a provincial department –

- (a) for assets that can be used continuously or repeatedly in production for more than one year, and from which future economic benefits or service potential is expected to flow directly to the provincial department making the payment; and
- (b) that must be classified as or deemed to be payments for capital assets in accordance with the "Reference Guide to the new Economic Format" (November 2003, Version 2) and the "Asset Management Framework" (April 2004, Version 3.3), issued by the National Treasury under section 76 of the Public Finance Management Act;

"Public Finance Management Act" means the Public Finance Management Act, 1999 (Act No. 1 of 1999); and

"conditional grants" means allocations to provinces, local government or municipalities from the national government's share of revenue raised nationally, provided for in section 214(1)(c) of the Constitution.

# Appropriation of money for the requirements of the Province

- **2**(1) Appropriation by the Provincial Legislature of money from the Provincial Revenue Fund for the requirements of the Province in the 2006/07 financial year, to votes and main divisions within a vote, and for the specific listed purposes, is set out in the Schedule and Annexure A, B and C.
- (2) Subject to section 3, spending of appropriations is subject to the Public Finance Management Act.

# Appropriation listed as specifically and exclusively

3. Despite the provisions of any law, appropriations to a vote or main divisions within a vote that are listed as specifically and exclusively may only be utilised for the purpose indicated and may not be used for any other purpose, unless an Act of the Provincial Legislature amends or changes the purpose for which it was allocated.

### **Short title**

**4.** This Act is called the Provincial Appropriation Act, 2006.

# EXPLANATORY MEMORANDUM ON THE OBJECTS OF THE PROVINCIAL APPROPRIATION BILL, 2006

# ESTIMATES OF REVENUE AND EXPENDITURE FOR THE FINANCIAL YEAR ENDING 31 MARCH 2006

# 1. Purpose of the Bill

The memorandum seeks to highlight all estimates of revenue expected to be raised for each year of the 2006/07 MTEF and the expenditures to be incurred by the Province. The 2006/07 Medium Term Expenditure Framework budget updates the fiscal policy framework for the Province and makes further progress toward the Provincial goals of sustainable economic development and poverty alleviation in key targeted areas and improved management of public finances as defined in the Provincial 5 year plan and in the 2005 Medium Term Budget Policy Statement.

# 2. SUMMARY OF THE 2006/07 PROVINCIAL MAIN BUDGET

The Gauteng Provincial Government's (GPG) projected revenue of R33,828 billion, comprises of equitable share transfers of R23,362 billion and conditional grants of R8,744 billion from national government. Provincial own revenue amounts to R1, 758 billion after taking into account agency fees for the collection of revenue. However, it is important to point out that the remuneration of Public Office Bearers is a further deduction directly from

the Provincial Revenue Fund, as required by the law. Total expenditure amounts to R34,460 billion; however additional allocations for the Government Employees Medical Scheme (GEMS) and the Social Development Strategy have been set aside to be allocated pending further planning.

The Province is anticipating that allocated budgets will exceed revenue by R783,8 million or 2,3 per cent of total revenue in the 2006/07 financial year. It should be noted that this difference will be financed by the surplus in the Provincial Revenue Fund. The rationalisation and increased efficiency of budgetary expenditure will be a key element in eliminating a potential government deficit.

# 2.1. THE PROVINCIAL FISCAL ENVELOPE

A summary of the total receipts or revenue envelope is contained in the table below and reflects the total revenue of R33,824 billion, R36,314 billion and R39,819 billion for the financial years 2006/07, 2007/08 and 2008/09 respectively.

**Table 2: Provincial Revenue Envelope** 

R thousand	2006/07	2007/08	2008/09
Equitable Share	23,361,686	26,071,807	29,189,980
Conditional Grants	8,744,257	8,378,292	8,625,002
Total Transfers from National Government	32,105,943	34,450,099	37,814,982

Total Revenue: GPG	33,823,789	36,314,200	39,818,596
Less Direct Charges: Public Office Bearers	40,417	42,438	44,560
Provincial Own Revenue	1,758,263	1,906,539	2,048,174

The total revenue of Provincial Revenue Fund is derived from transfers from national and provincial own revenue. Provincial revenue is projected to increase by a total of R5,995 billion (or 17,7 percent) from 2006/07 to 2008/09; these increases are driven by substantial additions to transfers from national (R5,709 billion) and by increased provincial own revenue (R289,911 million).

As a result of the strong performance of the Gauteng economy over the past year, it is expected that provincial revenue for the MTEF will increase. It is estimated that provincial own revenue will increase by an average of 10 percent in nominal terms over the MTEF period. Tax receipts (gambling taxes and motor vehicle licences) contribute about 80 percent of revenue, non-tax receipts (mainly patient fees) about 19 percent of total provincial revenue with other revenue accounting for the remaining 1 percent.

# 2.1.1. Transfers from national

Transfers from national in the form of equitable share and conditional grants take into account the latest fiscal framework and sector pressures identified after the tabling of the 2005 Provincial Medium Term Budget Policy Statement e.g. additional teachers to accommodate the increase in learner numbers, the implementation of an improved pay progression system for teachers and social workers and the recruitment of health professionals, expansion of the HIV/AIDS programme rollout, the maintenance and rehabilitation of health facilities, rehabilitation of the provincial road network and the upgrading of informal settlements.

# 2.1.2. Conditional grants

A review of conditional grants has resulted in the emergence of new grants, reconfiguration of existing grants and the phasing out of existing grants. It is evident from table 2 below which sets out the conditional grants per department for the MTEF years that the largest portion of the grants constitute:

- The Gautrain Grant amounts to 39 percent of the total conditional grants in 2006/07, but decreases to 22 percent by 2008/09;
- Grants for the improvement of Health care facilities, management and services, approximates 36 percent in 2006/07 but grows to 44 percent by 2008/09;
- Housing subsidies approximates 20 percent in 2006/07 and grows to 28 percent of the total conditional grant allocations by 2008/09.

# 2.1.3. Phasing of conditional grants into the provincial equitable share

The grant for the Integrated Nutrition Programme will be phased into the provincial equitable share; the Province will ensure that the funding stream is sustained through the provincial equitable share as this programme continues as part of the Province's responsibility. This grant is phased into the provincial equitable share with effect from 1 April 2006.

# 2.1.4. Merging of conditional grants

It was agreed by the housing sector and Cabinet that from 1 April 2005 the Human Settlement and Redevelopment Grant (Housing) be incorporated into the Housing Subsidy Grant to form the Integrated Housing and Human Settlement Development Grant. However, given outstanding commitments at the time, it was agreed that part of the Human Settlement and Redevelopment Grant is retained for 2005/06. The grant is fully phased into the broader Integrated Housing and Human Settlement Development Grant from 1 April 2006 onwards.

The Hospital Management and Improvement Grant (Health) facilitates a range of management development initiatives, including delegations and financial management capacity. It also supports the implementation of a range of hospital quality of care interventions and compliments the

objectives of the Hospital Revitalisation Grant. Given this link, the National Department of Health agreed that the Hospital Management and Improvement Grant be merged with the Hospital Revitalisation Grant from 1 April 2006.

### 2.1.5. Introduction of New Conditional Grants

The Recapitalisation of Further Education and Training Colleges was initially envisaged for implementation in 2005/06, however the administrative aspects were still being finalized; this initiative will be financed through a conditional grant from 1 April 2006 for a period of three years. This grant is aimed at addressing infrastructure requirements to support the curriculum and to ensure that the education is in line with industry standards.

Forensic Pathology Services, currently administered by the South African Police Service (SAPS) and the National Department of Health now shifts to the Provincial Department of Health with effect from 1 April 2006. As an interim measure, the Budget Council agreed that this function be administered through a conditional grant until such time that the function is fully established at a provincial level. This grant will facilitate the transfer of the medico-legal mortuaries from SAPS to the Provincial Department of Health.

A grant for the construction of the Gautrain Rapid Rail Link has been provided in terms of the 50:50 funding agreement between national government (National Department of Transport) and the Gauteng Province; this grant is introduced in the 2006/07 MTEF and amounts to R7,128 billion over the MTEF.

# 2.2. TOTAL PROVINCIAL ALLOCATIONS FOR 2006/07 FINANCIAL YEAR

Provincial expenditure is projected to increase by a total R4,083 billion (or 11,8 percent) from 2006/07 to 2008/09. The increase is mainly due to additional funding in terms of the Gautrain project, funding allocated to the social sector, infrastructure projects as well as funding for the new Provincial Treasury.

The average combined share of the social sector (health, education and social development) is 69 percent of the provincial total expenditure for the

2006/07 financial year. The decrease of the social sector share from 80 to 69 percent has been caused by shifting of social security grants from the province to the new South African Security Agency and the introduction of a grant for Gautrain which is allocated to the economic sector (Public Transport, Roads and Works). The remaining 31 percent is for other departments. The budget of the Province grows significantly by 25 percent in 2006/07 and by an average of 12,2 percent in nominal terms from 2005/06 and over the MTEF.

The following departments received additional funding in the 2006 MTEF:

# 2.2.1. Health - R825,011 million

The Provincial Department of Health has received additional amounts of R218,321 million, R204,486 million and R402,204 million for each respective year of the MTEF. Additional resources will be used to fund the following Health care priorities:

- Enhance human resource management by recruiting health professionals and creating incentives for retaining staff in the professional health category;
- Expand emergency medical services and implement a new national ambulance services model;
- Primary health care allocations include district management, community based services, community health clinics and community health centres to expand primary health care and improve services in rural areas;
- Modernisation of tertiary services allocation will be used for digitisation and equipment in central hospitals. The amount allocated for information services will be used to deal with information technology issues in Health;

 Medical Equipment for Pretoria Academic Hospital (R130 million in 2006/07 only).

# 2.2.2. Education – R1,477 billion

Taking into account the serious challenge facing the Province with regards to the rate of population growth and its implications on service demands, the Department of Education has been given additional amounts of R133,430 million, R469,071 million and R875,088 million for each respective year of the MTEF. These funds will be used to fund the following priority areas:

- Reduce the backlog in school equipment;
- Expand early childhood development (Grade R);
- Provide for teacher development and human resource management system;
- Extend the implementation of the new curriculum statement to grades 10-12;
- Implement revised norms and standards for school funding, strengthen special schools, and expand information management systems.

Quality and upliftment programmes will focus on departmental plans to engage with the private sector and business to play a more visible role in making education more relevant and able to respond to the skill needs of the country's economy. The equitable share funds the rollout of the education management information system (EMIS) to schools over the next 3 years as part of a broader approach to improved public sector management and performance reporting. EMIS focuses on data collection and analysis for purposes, conducting systematic planning annual surveys Learner/Educator information in provincial institutions for planning and monitoring purposes. The department will concentrate on the provisioning of required Grade R resources as well as increasing the percentage of 5 year olds in publicly funded schools in Grade R.

The Curriculum Statement serves as a guide for educators in terms of the new outcomes-based education system. The implementation of revised norms and standards for school funding aims to eliminate the payment of fees in schools which are in quintile 1 (the lowest poverty quintile ranked) according to the schools poverty ranking.

# 2.2.3. Social Development – R716,737 million

Gauteng Provincial Government will continue to provide and improve on the social safety net, in the form of grants and other welfare services to deal with poverty in the Province. Additional amounts of R75,608 million, R217,908 million and R423,221 million have been allocated to social development over the MTEF years. Additional resources will be used for the following priorities:

- Implementation of the Child Justice Bill, Children's Bill and the Older Person's Bill;
- Early Childhood Development and Extended Public Works Programme;
- HIV/AIDS and Integrated Development Social Services grants;
- Expand the existing social welfare services;
- Adjustment of the social workers salaries.

The Expanded Public Works Program in Social Development is to contribute towards the creation of work through the HIV/AIDS Community Home Based Care Program and through training and development.

# 2.2.4. Public Transport, Roads and Works - R628 million

DPTRW received additional amounts of R27,907 million, R75,072 million and R225,502 million for each respective year of the MTEF. These funds will be used for the construction and maintenance of the provincial road network. However, it is important to mention that a further additional allocation of R300 million over the MTEF (from the Growth and Development Strategy fund) has been made available to the Department for the development and implementation of an Intelligent Transport System.

# 2.2.5. Housing – R6,377 billion (conditional grants)

The Department is funded primarily from a conditional grant and the total allocated amounts are R1,758 billion, R2,197 billion and R2,414 billion over the MTEF period. Increased allocations in the conditional grant will mainly be spent on the delivery of housing programmes, formalisation of informal settlements and ensuring mixed income communities on well located land.

# 2.2.6. Gauteng Provincial Treasury – R264,3 million

Amounts shown in table 2 above reflect funding for the new Provincial Treasury. The new department will focus on:

- Strengthening financial management to achieve operational efficiency and promote accountability in government;
- Attracting and retaining an appropriate technical skills base at Gauteng Provincial Treasury;
- Providing technical assistance including analysing, monitoring, evaluating and advising customers to enable good financial planning and management;
- Developing and implementing efficient internal systems and processes;

Investing in and empowering Gauteng Provincial Treasury employees.

# 2.2.7. Office of the Premier – R30,7 million

The Office of the Premier has been given an additional allocation of R13,5 million for 2006/07, R8,4 million for 2007/08 and R8,8 million for 2008/09, to fund the City Region, NEPAD and Izimbizo programmes.

#### 2.2.8. GDS Commitments

The Province has invested over R1,3 billion for funding GDS commitments and table 3 below shows the level of funding per project over the MTEF period. The following areas will receive funding over the 2006/07 MTEF:

- Making Gauteng the Home of competitive sport and hosting of major events.
- Promoting creative industries arts and culture, tourism and film industry.
- Investment promotion and economic development LED,
   GEDA, smart industries.
- Integrated intelligent transport system and public safety on our roads.
- Roll out of GPG e-governance plan (increase the capacity of the call centre industry).
- Implementation of the Agriculture strategy with a focus on Agro-processing and bio-technology.
- Additional investment in Blue IQ projects.
- SMME financial and non-financial support through Gauteng Economic Propeller.

# 2.2.9. Other Departments

Other departments have received a general baseline adjustment which takes into consideration the annual salary increase and the impact of any anticipated cost of goods and services that is consistent with the outlook for inflation. Technical adjustments to baseline also take into account the cost of all aspects of personnel, especially the carry through effects of the 2005 wage agreement.

# 2.3. PERSONNEL COSTS

Personnel expenditure grows by 9,5%, 6,8% and 6,2 year-on-year from the 2005/06 to the 2008/09 financial year; mainly to accommodate social sector pressures.

The carry through costs of the 2005 wage agreement (pay progression for educators and administrators, incentive scheme, recognition of prior learning and promotion of maths and science) for the Department of Education accounts for a large portion of the increase in personnel expenditure over the MTEF.

Social Development has been allocated additional amounts of R15 million, R15,750 million and R16,538 million for each of the 2006 MTEF years to adjust the salaries of the social workers.

The Provincial Department of Health has been given amounts of R16,321 million, R50 million and R100 million over MTEF period to enhance human resource management by recruiting health professionals and creating incentives for retaining staff in the professional health category.

The Gauteng Province received additional amounts of R124,135 million, R249,131 million and R374,986 million for each of the MTEF years respectively for the Government Employee Medical Scheme; these amounts remain unallocated when publishing this budget. Further planning and trends will inform the allocation to departments in the 2006/07 Adjusted Appropriation and for the MTEF.

Gauteng Provincial Treasury will receive an increased budget over the MTEF; firstly, to recruit further expertise and develop internal capacity, but also R5,6 million to undertake capacity building initiatives in financial management offices in provincial and local government.

### 2.4. INFRASTRUCTURE PROGRAMME

The Infrastructure programme for the Province includes: payments for capital assets (which is mainly departmental capital spending discussed earlier), capital transfers (mainly housing programmes and special infrastructure projects to promote economic growth and development), maintenance (routine, planned and emergency maintenance) and other capital projects. Infrastructure is re-classified from the GFS classification into: New Construction, Rehabilitation/ Upgrading, Maintenance and Other Capital projects in Table 11 below to more accurately reflect the infrastructure investment by the Province.

Infrastructure expenditure over the MTEF will approximate R25,706 billion with the larger share of the infrastructure budget accounted for by the Departments of Public Transport, Roads and Works (47,5 percent), Housing (25,6 percent), Health (12,3 percent) and Education (10 percent). The budget for 2006/07 is almost double the budget for 2005/06; which can largely be attributed to the huge investment in the implementation of the Gautrain project.

Gautrain as a major infrastructure development project received an amount of R11,5 billion over the MTEF period. Cabinet agreed that national government would contribute 50 percent towards the cost of the public sector funding share of the project during its construction phase. In this

regard, a conditional grant to Gauteng, administered by the national Department of Transport is introduced at R3,2 billion in 2006/07, R2,2 billion in 2007/08 and R1,7 billion in 2008/09 while the provincial contribution amounts to R1,4 billion in 2006/07 and R1,5 billion for 2007/08 and 2008/09 respectively.

#### 3. SOCIAL IMPACT

The additional allocation for Health will go a long way in recruiting health professionals and creating incentives for retaining staff in the professional health category. This will also assist the province in realising the objective of developing healthy, skilled and productive people.

The increased allocations for Social Development will expand the existing welfare services to the community of Gauteng and partially address the problem of poverty.

The average combined share of the social sector (Health, Education and Social Development) is 69 percent of the provincial total expenditure for the 2006/07 financial year; of which Education accounts for 52 percent to provide for quality public education and promotes a dynamic citizenship for socio-economic growth and development in Gauteng. Health approximates 44 percent of the budget and provides responsive and quality health services to the citizens. Social Development is the remaining 4 per cent of the social sector and provides social welfare services. The other 31 percent of the total provincial allocation is used by other departments whose programmes promote growth and development, sustainable communities and ensures proper governance and accountability.

# 4. FINANCIAL IMPLICATIONS

The Provincial expenditure for 2006/07 will amount to R34,460 billion; allocated budgets will exceed anticipated revenue by R783,8 million, which will be financed from the Provincial Revenue Fund reserve account.
