AGRICULTURE AND LAND ADMINISTRATION VOTE 5

DEPARTMENT OF AGRICULTURE AND LAND ADMINISTRATION:

VOTE 05

| To be appropriated by Vote in 2006/07 | R 631, 736, 000. |
|---------------------------------------|---|
| Statutory amount | R 695,000 |
| Responsible MEC | MEC for Agriculture and Land Administration |
| Administrating Department | Department of Agriculture and Land Administration |
| Accounting Officer | DDG: Agriculture & Land Administration |

1. OVERVIEW

The mandate of the Department is to provide services in the important sector of the province, which are served by agriculture, land administration, conservation and environment.

The agricultural sector remains a key important strategic sector for poverty reduction, employment creation, economic growth and rural development in the Province. It is still the largest employer of labour and provider for livelihood. It remains central and key to the fight against poverty and underdevelopment. Environment and conservation are important for sustainable development and remain key to the growth of tourism in the Province. Mpumalanga Province is naturally endowed with a rich biodiversity that should be protected for present and future generation.

The key result areas of the Department are as follows:

- Ensuring access to sufficient, safe and nutritious food through the Masibuyele Emasimini programme, Rural Development programme, and IFSNP.
- Eliminating skewed participations and equity in the agricultural and land ownership through the programme of LRAD and AgriBEE.
- Optimising growth, remunerative jobs opportunities and income in the agricultural, and lands ownership using the CASP programme and other extension services.
- Enhancing the sustainable management of natural resources and ecological systems through the Land Care and Engineering Services programmes.
- Ensure knowledge and information management through the research and development programmes.
- Providing environmental management and awareness
- Manage bio-diversity and eco-systems throughout the province through the Mpumalanga Parks Board
- Provision of quality provincial land management services for the benefit of the citizen of the province

VISION

- A united and prosperous Agricultural sector
- Well conserved Biological sphere and Eco-systems
- A healthy and sustainable environment and
- Effective land development in Mpumalanga

MISSION

The mission of the Department is to contribute to poverty eradication and a better life of the people of the province by;

- Building an efficient, internationally competitive and sustainable agricultural sector
- Protecting, conserving and enhancing the quality of the environment for future generations
- Conserving the provincial Bio-diversity and eco-systems

LEGISLATIVE AND OTHER MANDATES

- Agricultural Product standard Act, 1990(Act No.119 of 1990), which sets standards for all export fruit and agricultural products.
- Animal diseases Act, 1984 (Act No.35 of 1984) which obliges the country and empower the vets to act against animal diseases
- Meat Safety Act, 2000 (Act No.40 of 2000) that obliges all meat to be inspected and declared safe for human consumption, before it is made accessible to the public
- Mpumalanga Agricultural Development Corporation Act, 2000 (Act no 5 of 2000), empowers the Mpumalanga Agricultural development Corporation to facilitate the development of farmers with HDI status through provision of support in the form of knowledge, exposure and access to finance.
- Minerals Act, 1991 (Act no 50 of 1991) provides for the submission of Environmental Management Programme Reports.
- National Environmental Management Act, 1998 (Act no 107 of 19998), (NEMA) sets out procedures for co-operative governance with regards to environmental management.
- Environment Conservation Act, 1989), the Act has been amended several times to ensure that provinces are able to exercise their constitutional powers to safeguard the environment
- The Mpumalanga Parks Board Act (Act No.6 of 1995) as amended with the mandate of effective nature conservation management in the province,
- Development Facilitation Act, 1995 (Act 67 of 1995)
- Upgrading of land Tenure Act, 1991 (Act 112 of 1991)

2. REVIEW OF THE CURRENT FINANCIAL YEAR (2005/06)

General Performance of the Department

Progress on the implementation of the CASP and Land Care has improved substantially. Having gone through a steep learning curve, the staff is now geared to implement faster. Administrative procedures have been streamlined as well. More human resources are channelled to the CASP and Land Care programmes so as targets should be reached at the end of the fourth quarter. Programme managers will continue to monitor and evaluate progress more diligently and in a hands-on way.

The numbers of clients reached with regards to Land Reform processes that include Land Redistribution for Agricultural Development (LRAD), Settlement Land Acquisition Grant (SLAG), Land Tenure Reform and Land Restitution have again exceeded the projected target. The Department continued giving pre-settlement support to new LRAD projects. The Department has seconded staff members to the regional office of the Land Claims Commissioner to fast track the processing of land claims.

The demand for various services (extension, training, food security etc) increased significantly leading to the Department exceeding its projected targets. The facilitation of the District Land Summits and the awareness on the CASP programme increased the contact sessions with beneficiaries.

The Department managed to secure six different markets for vegetables, poultry, milk and dry beans. A further five new market opportunities has been identified in the province in order to link the farmers to the markets. The markets are making a positive impact to the lives of farmers particularly emerging farmers whom such opportunities were not accessible in the past.

As a another means of farmer support, training courses were offered in all the districts and this is yielding results as there is a general improvement in farming activities, especially small and middle scale farming. With regards to food security, farmers and communities are showing a great interest in vegetable production and the numbers of vegetables gardens in all the districts have increased. The department is gradually winning the battle against hunger and poverty.

In veterinary services, the Department continued to monitor the spread of diseases and as a result no major disease outbreaks were encountered and there were no disruptions to service delivery except for routine assistance to the DOA at Lebombo border post.

Due to the good performance of the college, The Lowveld Agricultural College has been nominated to receive funding for capacity building from the Netherlands Organisation for international co-operation in Higher education.

Each district managed to establish environmentally related projects like the Lindokuhle Women's Recycling Group, the development of a flyer on Environmental Rights in English and Zulu, and the launch of the enviro booths, a joint venture between Thaba Chweu municipality and Lydenburg Environmental centre were highlights for the quarter. The youth day celebration in Ermelo resulted in the distribution of 1500 trees and 3000 seeds to residents of the RDP houses as part of the Green Lungs Project in Ermelo and provided a positive link between youth and the environment. Provincial highlights were the provincial World Environment Week celebration at Rekwele Primary in Dingwale village. The completion of the Cleanest Town Competition (CTC) 2004/5 resulted in the development of the CTC video and prize giving.

The delivery of the department in some areas was somehow limited due to a lack of capacity. That problem is being addressed as posts have been advertised.

In the programme Land Administration, there has been a delay with regards to appointments of all service providers for the implementation of the new capital projects for the quarter. The Department has since appointed service providers and the situation will improve soon.

Challenges

The demand for infrastructure projects escalated due to the increase in Land Redistribution of Agricultural Development (LRAD) beneficiaries

Capacity of officers to effectively respond to the demands of the farmers and the communities in general. Extension and Environmental education remains the most crucial elements of the agricultural and economic development process.

The land reform process has to be fast tracked to settle land reform beneficiaries in within 5 years. Different factors influenced the fast tracking of the land reform process; one of which is the limited budget for additional finance for the implementation of the agricultural activities.

On Sustainable Resources Management

Projects planned for the last financial were not completed due to limited resources. The programme has thus put more emphasises on bringing these projects to completion. A significant progress has been made in accelerating the implementation of these infrastructure projects with most of them at nine months at about 80% completion stage (e.g. Bongani, Malekutu, Agriset B, Boskop 1 irrigation schemes).

The component performance has comparatively picked up compared to the last quarter. Ordinary work of technicians in sustaining natural resources has improved with most of the projects picking up in speed. Monitoring of infrastructure projects 2004/2005 has been going on.

The Department have received yellow fleet that amounted to R25 million. The fleet will address issues that has long been outstanding in terms of providing agricultural engineering support to mainly the subsistence and emerging farmers.

Farmer Support and Development

During the period under review, the Department lead the 1st phase of the Provincial Land Summit. The three districts offices took the lead at the district levels to facilitate the preliminary preparations toward the Provincial Land Summit, by hosting the District Land Summit. The districts were able to achieve their goals of mobilising communities and facilitating the summit meetings. Each district was able to draw a list of issues on land reforms that need attention at the district level and those that would need further consideration at the Provincial and /or National levels. Follow-ups with stakeholders from these meetings were made, preliminary agreements were made on some of the issues raised. Through these consultative processes, there was an increase in the intended farmers to be advised.

In terms of the support to LRAD projects, the Ehlanzeni District managed to service all SLAG projects and covered 41 LRAD projects. In Gert Sibande, for the LRAD and SLAG projects, 2 Potential evaluation reports were compiled for Blesbokspruit. In Nkangala District

the target for the land reform projects (LRAD) was exceeded. SLAG and Restitution/ESTA targets were not met and more attention will be made in future.

Comprehensive Agricultural Programme (CASP)

The programme was allocated a total budget of R23,629 million that is made up of a conditional grant and has delivered agriculture infrastructure such as fencing, live stock handling facilities and water provisioning.

In the Following areas:

Gert Sibande: An amount of R7,479 million was allocated for establishing 27 pre-approved projects

Nkangala: An amount of R 7,150 million was allocated for establishing 17 pre-approved projects

Ehlanzeni: An amount of R9,000 million was for establishing 19 pre-approved projects

Food Security

The Ehlanzeni District managed to establish 16 food gardens at schools and other community centres in support to the Integrated Food Support programme. The support to the HIV/AIDS programme was exactly as planned for the mid term. In Nkangala District, Under Food Security, the targets for the food gardens maintained and established, food preservation projects, gardens upgraded and school gardens established, were all exceeded.

Masibuyele Emasimini

The programme is the Mpumalanga Province's Premier's special project of assisting the peasant farmers to till the land productively. The focus on the survivalist farmers who owns some land for subsistence farming. The programme provides farmers with support in the form of resuscitating and strengthening the agricultural corporative, providing the subsistence farmers with tiling the land machinery, ploughing and providing seeds, weeding chemicals and fertilizers. For the year under review the Department was allocated R15 million for this purpose.

Veterinary Services

The prevention campaign at Lebombo border post following foot-and-mouth disease outbreaks in Mozambique was continued the reporting period to enforce the importation ban of animals and products. There was no spread that was detected in the country through the implementation of these measures.

New Castle disease surveillance on backyard chickens was conducted in the SV areas of kwaMhlanga and Siyabuswa, in collaboration with the National Department of Agriculture. In this campaign cases of illegal movements of animals and products were investigated.

To further strengthen control of diseases diptanks and handling, the Department has facilitated repairs in Ehlanzeni district at Sidlamafa, Sikwahlane 3, Masibekela, Jeppesreef, Thambokhulu, Goba, Malekutu 1, Makoko, Nyongane and Gutshwa. Construction of three new diptanks in Ehlanzeni district at Sidlamafa, Mabundzeni and Swalala continues, while 7 diptanks in Nkangala district that was commenced in the last financial year ensued. A new diptank is planned at Jerusalem.

Technology Research and Development

The department continued to provide research and development in order to adapt appropriate technologies and management strategies for improved agricultural productivity. Animal Science has exceeded their trials with one, because conditions were favourable at that time to proceed with the trial. Information dissemination under Crop Science and Animal Science were exceeded due to the many enquiries for alternative crops or farm systems due to the maize fiasco. Range and Forage under performed due to the resignation of staff.

The 6 trials under Crop Science were on demand from tobacco farmers for alternative crops. The Aquaculture Unit is in the process of being established.

Natural Resource Information reports were exceeded due to requests for subdivision of agricultural land. Satellite dishes were installed at Siyabuswa, Dundonald, Eerstehoek, Ermelo and Maleoskop to link them with the Internet.

Agriculture Economics

During the reporting period, farmers were linked to 8 markets for vegetables, poultry, and dry beans. The Department continued to improve the establishment of agricultural –businesses, to improve agricultural production economic advisory services, to facilitate access to finances and to collate, analyse agricultural statistics. Business plans for agricultural development were compiled; farmers were trained in marketing, business management, financial and risk management. 6 value-adding projects were funded through the agricultural rural development fund. A domestic support- (WTO trade agreement) compliance report was prepared and submitted to the national department of agriculture (NDA).

Structured Agricultural Training

The academic programme at the Lowveld Agricultural College was continued with a total enrolment of 220 students. Further education and training offerings were made to practising and aspiring farmers.

The college was evaluated by the Higher Education Quality Committee and received full accreditation. Community outreach activities were conducted with the local communities to market the college as well as part of social responsibility initiative. Screening processes for financial assistance and placement for experiential training were conducted.

Environmental Services:

Environmental Impact Assessment

The environmental management capacity building of local municipalities in the Province that was made possible through the core-funding by the Department and the Development Bank of Southern Africa (DBSA) has continued. Two training modules were offered in workshops held in Witbank and Nelspruit attended by 45 participants representing various municipalities. As part of ensuring sustainable development, 281 Environmental Impact Assessment applications were authorised for development.

The Department conducted district workshops on Air Quality and the Air Quality Act, Sustainable Consumption, Cleaner Production etc. Approximately 5000 community members and individuals clients were reached, through presentations, on the sustainable use of water as a natural resource during this reporting period. A total of 24 presentations, 2 workshops, 1 exhibition and 2 displays were done on the environmental challenge of Air Quality and Climate Change.

Pollution and Waste Management

The DALA – DBSA core-funded Gert Sibande District Municipality Integrated Waste Management Plan (IWMP) development process commenced in February 2005 and will finish in August 2006. Phase 1: Information Gathering & Gap Analysis was completed by December 2005. The Status Quo Analysis phase of the Provincial Hazardous Waste Management Plan (HWMP) was carried out in 2005/6. A Service Provider will be contracted in 2006/7 to develop the remaining phases of the HWMP.

The National Waste Management Strategy Implementation (NWMSI) project is piloting the Recycling and Waste Information System (WIS) in Mbombela Local Municipality (MLM) from September 2005 until December 2006. This is co-funded and jointly executed by the Department of Environmental Affairs & Tourism (DEAT), the Danish International Development Agency (DANIDA), DALA, MLM and several industries in Mpumalanga. The pilot project results will be used to develop a national roll-out plan for the NWMS in 2007.

Environmental Education

The Department continued to rollout programmes for public awareness on environmental education to communities and schools throughout the Province. The Department collaborated with the private sector in programmes such as the BMW SEED programme of the BMW motor company that supported schools to establish food gardens.

The major activities that took place in the programme were conducted to be in line with the theme on the Decade of Education for Sustainable Development (DESD), which promotes sustainable environment for environmental awareness and capacity building both formal, on-formal and informal from early childhood to adulthood. The Department has played a major role in the Delmas Waterborne Diseases Outbreak during September 2005 in conducting inspections on the possible source of pathogens that caused the outbreak. Currently the Department is engaged in providing both the short and long term solutions to the Delmas water management programme.

Land Administration

This Programme contributed to the provision of quality land management services in the entire province thereby promoting sustainable communities. During the year under review a number of strategies were implemented towards the attainment of the following service delivery priorities:

- 3. Increased title deeds to beneficiaries of R293 towns
- 4. Formalisation of existing R188 rural settlements under tribal jurisdiction
- 5. Increased availability of suitable land for housing development
- 6. Decrease in land use appeals and in illegal land use

The appointments of all service providers for the implementation of the new projects were finalised by the end June 2005. The Directorate spend R 4 357 611.68 on project payments during the first six months of the financial year, which unfortunately resulted in an under

expenditure. This is because only the existing Phase 2 projects (Tenure Upgrading & Township Establishment) had expenditure during the first quarter, while the new approved projects only commenced with expenditure during the second quarter. Project managers are aware of this, and cash flow projection patterns were adjusted accordingly.

3. OUTLOOK FOR THE COMING FINANCIAL YEAR (2006/07)

Skills Development and Training:

The Department will address the critical skill shortages by awarding bursaries to deserving students from under-privileged backgrounds for studies in scarce fields such as veterinary science and agricultural economics among others. A total of 34 students are benefiting from our bursary scheme. Serving employees will be given opportunities to enhance their skills through formal training and other forms of training.

Comprehensive Agricultural Programme (CASP):

The programme has a total allocation of R28, 355 million that is made up of a national conditional grant and a portion of equitable share. The programme will see the Department-delivering infrastructure such as fencing, stock handling facilities, and water provisioning.

Masibuyele Emasimini:

To fight poverty in rural areas Masibuyele Emasimini program was introduced to assist peasant farmers and poor households with agricultural inputs and mechanisation services. The programme will be expanded in the next financial year.

Agri-development Projects:

An amount of R10,2 million will be spent on agri-business projects for beneficiaries coming from all three-district municipalities of the Province.

Agricultural Engineering Projects:

An amount of R80 million has been earmarked for planning and construction of Gutshwa Dam phase 1. This is going to be a major Capital project that will extend over a period of three years which started from the fiscal year 2005/06 to 2007/8. Upon completion, the dam will cost in the region of R200 million.

Agriculture Starter Pack:

R6.5 million has been allocated for the roll out of agriculture starter pack in support of poor households. The agriculture starter pack is made up of the seed and garden tools. Food security projects, income-generating projects, communal garden will receive a share of this allocation to ensure production efficiency.

Land Care:

To promote technically sound and economically viable land rehabilitation and conservation of good farming practices through sustainable natural resource use. This will also help to

increase agricultural production and income of farmers, food security and a better quality of life for the people of Mpumalanga. An amount of 4 million Rand is allocated for Land Care projects.

Challenge

The challenge is that the funding for Land Care is being phased out in the MTEF, reducing by R1,5 million beginning from the next financial year. The challenge is that the Department will be expected to top up with the same amount from its equitable share so as to maintain/enhance the existing projects.

Land Reform:

The Department is putting in place plans and measures to fast track land and agrarian reform to meet the challenges of providing post-settlement support to beneficiaries of land reform, land restitution and tenure reform. The staffing and capacity of the Department to meet the needs of the new entrance to commercial farming is being revisited. A new component is envisaged to deal directly with land and agrarian reform in preparation to the coming to an end of the land restitution commission.

Environmental Services:

The programme will be initiating the programme on Waste Management Modelling that will be piloted in the three municipalities.

Plans are afoot for the rigorous implementation of the eminent environmental legislation in all municipalities of the province. The monitoring of environmental compliance at all municipalities will continue to receive priority in terms of allocation of resources since this is a legislative requirement.

Waste Management initiatives will be intensified in this financial year towards meeting the goal of the Polokwane Declaration, which aims to reduce waste generation. The Department is preparing to implement the law reforms that have devolved some functions that were previously resident with national departments, such as the air quality management, licensing of land fill sites.

4. RECEIPTS AND FINANCING

4.1 Summary of receipts

The following sources of funding are used for the Vote 5:

6. PROGRAMME DESCRIPTION

6.1 PROGRAMME 1: ADMINISTRATION

STRATEGIC GOAL 1: To manage and administer for improved service delivery

STRATEGIC OBJECTIVES:

- 1. Provision of strategic political leadership at all times
- 2. To provide strategic leadership
- 3. Strategy and policy implementation
- 4. To provide internal auditing
- 5. To provide communication services
- 6. To provide effective project co-ordination
- 7. Implementation of PFMA requirements
- 8. Human resource management & Development

The programme is composed of the Office of the MEC, HOD, Financial Management and Corporate Services. It deals with governance and administration matters to provide strategic leadership, overall management and financial and corporate services.

Analysis of constraints and measures planned to overcome them

Constrains facing the Department include the non-availability of strategies for recruitment and retention of personnel for the scarce skills such as required in veterinary services, environmental management, agricultural scientist research, agricultural engineers and land administration. These components experience the highest labour turnover, where experienced personnel leave the Department for better paying jobs in the private sector. The issues of capacity and skills development remain key challenges facing service delivery that the programme is confronted with. Corporate communication is another area that needs to be addressed in terms of staffing and capacity.

The Department is refocusing Human Resource Development to bring it closer to Performance Management and Development for better alignment. Work-study has been approached to investigate an appropriate structure for communication that would meet the needs of a Department that have diverse programmes and projects.

Table 2.9 provides a summary of Departmental expense by sub-programme where Table 2.10 provides for the breakdown of payments by economic classification.

6.2 PROGRAMME 2: SUSTAINABLE RESOURCE MANAGEMENT

The programme promotes sustainable resource use of land and water resources in agriculture. It implements projects that are aimed at addressing natural resource degradation by promoting sound land and natural resource management, sustainable agricultural practices and ecosystem conservation. On Land Care, a conditional grant to the tune of R4, 0 million has been allocated for Land Care projects

Measurable Objective

- 1. To support development and sustaining of agricultural infrastructure
- 2. To maintain government buildings
- 3. To promote the practising of water scheduling
- 4. To advise on appropriate farm mechanisation practices

| Measurable Objective | Performance Measure or Indicator | 2005/06 estimate | 2006/7 target |
|--|--|---------------------|------------------|
| 1. Promotion of Engineering technology practices | Conduct visibility studies and assessment for farm projects implementation. | 30 | 35 |
| | Conduct training on water efficiency through Irrigation scheduling. | 100 | 61 |
| | Presentations to farmer on techniques in engineering practices | 3 | 4 |
| Infrastructure development | Designing and Installation of Irrigation systems | 15 | 24 |
| | Building of the agricultural dams for irrigation and livestock water supply | 5 | 7 |
| | Construction of the Conservation structures | 5 | 15 |
| Maintenance of departmental assets and | Maintenance of construction machinery | 13 | 14 |
| structures | The number of departmental buildings maintained | 22 | 10 |
| | The length of road in kilometres to be maintained | 1 | 1 |
| | Maintenance Dams (dam safety inspections | - | 10 |
| Gusthwa Dam : Facilitate the construction of Gutshwa Dam. | Gutshwa dam constructed in phases | Phase1 | Phase 2 |

| Measurable Objective | Performance Measure or Indicator | Year 2005/06 (estimate) | Year 2006/07 (target) |
|--|--|-------------------------------|-----------------------------|
| Promotion of sound soil conservation practices | Demonstrations of construction of soil conservation structures | 1 | 5 |
| Catchment planning | Catchment planning in anchor projects | 1 | 6 |
| | Farm Planning | 25 | 39 |
| Infrastructure | Planning of Waterways (km) on farms | 30 | 28 |
| planning | Planning of Contours (km) on farms | 150 | 358 |
| | Planning on Gabion structures on farms | 5 | 28 |
| | Planning Stock water supply systems | 8 | 12 |
| | Planning of Drainage systems | 8 | 5 |
| | Planning of Resource investigations | 6 | 86 |
| | Planning of Irrigation systems | 15 | 28 |
| | Planning of Farm buildings and structures | 22 | 15 |

6.3 PROGRAMME 3: FARMER SUPPORT AND DEVELOPMENT

The programme provides support to farmers and people who have access to land for farming. The support aims to ensure that an enabling environment is created for agriculture to contribute significantly to poverty reduction, food security, sustainable job opportunities and economic growth. The programme is comprised of farmer settlement, extension services, home economics and food security.

The programme provides pre-and post-settlement support to empower farmers who benefit from land reform's restitution, redistribution and tenure reform. The Comprehensive Agricultural Support Programme that provides infrastructure development to assist poor farmers has strengthened the farmer support and development programme of the Department. A total of R 28,355 million of conditional grant for CASP is allocated to complement the programme. A total of 63-infrastructure projects will be supported through CASP.

Measurable Objectives

To render pre-settlement and post settlement support services

To manage and administer agricultural state land

- To determine land potential
- To advise on the subdivision of agricultural land and land use change
- To advise farmers on land access options

EHLANZENI

Measurable Objectives

- Farmer advice on crop and plant production
- To increase the number of extension projects and study groups
- To increase number of farm demonstrations
- To develop and facilitate the formation of institutional structures
- To increase the number on non formal training events
- To form partnerships with extension and training service providers
- To evaluate the effectiveness of the extension services
- To investigate and pilot new extension strategies and approaches
- To facilitate the provision of farm infrastructure

EHLANZENI:

| Measurable Objective | Performance measure/indicator | 2005/06 (estimate) | 2006/07 (target) |
|---|---|-----------------------|---------------------|
| 1. Farmer advice on | Individual farmer contacts done | 10000 | 10000 |

| To facilitate the establishment of food gardens at schools (including schools for the disabled), clinics, old age homes, day care centres. | Gardens established in primary schools, clinics, Day Care Centers and orphanages. | 12 | 12 |

SUB-PROGRAMME 3.3: FOOD SECURITY

Measurable Objective

1.To strengthen the capacity of households to respond to agricultural opportunities as a safety net

- 2.To facilitate the strengthening of local organisation capacity
- 3. To facilitate the provision of basic infrastructure to all community gardens
- 4. To facilitate the adoption of improved environmentally friendly agricultural technologies
- 5. Facilitate the establishment of food gardens at primary Schools

| Measurable Objective | Performance Measure or Indicator | 2005/06 (estimate) | 2006/07 (target) |
|--|---|--|--|
| 1. Co-ordinate the implementation of the Integrated Food Security and Nutrition Programme | Provincial and District IFSNP committees and Local Food Security Action Groups established and maintained | 1 Provin-cial & 3 District IFNP | |
| | Food security and poverty alleviation advocacy initiatives conducted | 2 | 9 |
| | Develop and distribute publish food security promotional material | - | 1 |
| | Food security monitoring and evaluation reports of the agricultural development projects | - | 4 quarterly monitoring reports and 1 evaluation report |
| 2. Compile and update provincial food security | Poverty and Food in-security status report compiled, presented and published. | Feasibility study Feasibility study | 1 Status report compiled |
| information | Food security project database compiled | - | 1 project database compiled |
| 3. Develop and implement the Special Food Security Programme | Household Food Production Programme (HFPP) concept models i.e. of start-up support packages for food production and economic development and testing | 3 | 4 |
| | Distribution of Agricultural starter packs for food gardens | 1941 Agric Starter Packs | 2200 Agric Starter Packs |

SUB-PROGRAMME 3.4: NKOMAZI INFRASTRUCTURE (LOAN REDEMPTION)

The item is for a transfer of loan servicing for irrigation infrastructure development that was secured to empower emerging farmer in Nkomazi. The irrigation infrastructure has helped black farmers who were previously denied opportunities to farm commercially and to create job opportunities.

SUB-PROGRAMME 3.5: GRANT TO MADC

Mpumalanga Agricultural Development Corporation (MADC) is a public entity established to empower farmers, particularly the previously disadvantaged through agricultural activities. MADC provides loans to farmers that have potential to farm productively including those that would not qualify for loans from the commercial banks due to lack of collateral. MADC has assets such as the citrus farm, Loopspruit winery and floriculture project in the Moloto roses. These assets are used to facilitate the broad-based black economic empowerment (Agri-BEE) initiatives.

6.4 PROGRAMME 4: VETERINARY SERVICES

The programme provides animal health, veterinary public health, export and import control, and veterinary laboratory services. It promotes animal health, animal disease prevention, control and eradication to ensure human health and supply quality and safe animal and animal products to the local and international market. An amount of R4, 001 million is

allocated for the construction of three animal health centres in indigent communities that have no private veterinary service. The availability of animal health centres will pave a way for Mpumalanga Provincial Government to provide the much-needed veterinary nursing services in rural areas.

SUB-PROGRAMME 4.1 ANIMAL HEALTH

STRATEGIC GOAL 1: To improve the performance of the agricultural sector.

STRATEGIC OBJECTIVES:

- 1. To render animal health services.
- 2. To monitor imports and facilitate exports

Measurable Objective

- 1. Control & prevent animal diseases
- 2. Promote sound animal health practices
- 3. Facilitate development of farming infrastructure

| Measurable Objective | Performance Measure or Indicator | 2005/06 (estimate | Year 1 2006/07 (target) | | |
|---|--|----------------------|-------------------------------|--|--|
| Control & prevent animal diseases e.g. FMD, CA, | Controlled diseases managed e.g. FMD, TB, Rabies | 17 | *18 | | |
| TB, ASF, Rabies, Anthrax, Sheep scab, Corridor disease, NCD, BSE etc. | Auctions attended to inspect livestock | 328 | 355 | | |
| | Tests done (Serology, TB, Skin scrapings etc.) | 243 274 | 210 000 | | |
| | Vaccinations administered (controlled diseases) Anthrax, Rabies, FMD | 180 250 | 199 000 | | |

SUB-PROGRAMME 4.2 VETERINARY PUBLIC HEALTH

STRATEGIC GOAL 2: To enhance the quality and safety of the environment.

STRATEGIC OBJECTIVES:

1. To render veterinary public health and food safety services

Measurable Objective

1. To promote Veterinary Public Health & Food Safety

| Measurable Objective | Performance | 2005/06 | 2006/07 |
|---|---|------------|----------|
| | Measure or Indicator | (estimate) | (target) |
| To promote Veterinary Public Health & Food | Red Meat abattoir Inspections | 424 | 483 |
| Safety | Poultry abattoir Inspections | 395 | 436 |
| | Red Meat abattoirs | 133 | 140 |
| | Hygiene audits | | |
| | Poultry abattoirs | 110 | 135 |
| | Hygiene audits | | |
| Meat & food safety awareness campaigns | School visits & public participation events | 20 | 20 |

SUB-PROGRAMME 4.3 VETERINARY LABORATORY SERVICES

STRATEGIC GOAL 2: To enhance the quality and safety of the environment.

STRATEGIC OBJECTIVES:

• To provide veterinary laboratory diagnostic services.

Measurable Objective

To perform accurate laboratory tests and procedures

| Measurable Objective | Performance | 2005/06 | 2006/07 |
|------------------------------------|-----------------------|------------|----------|
| | Measure or Indicator | (estimate) | (target) |
| Perform accurate | Sample registrations: | 2 500 | 2 500 |
| laboratory tests and procedures | Samples tested: | 182 250 | 187 250 |
| | - Serology | 160 000 | 160 000 |

Table 2.9(4): Summary of provincial payments and estimates by economic classification: VETERINARY SERVICES

6.5 PROGRAMME 5: TECHNOLOGY RESEARCH AND DEVELOPMENT SERVICES

The programme is responsible for research, information services and infrastructure support (farm services). Research is crucial for agricultural development. The Nooitgedagt research station outside Ermelo carries out most of the research work in the province. Athole farm, and the Lowveld research unit also carry out research relevant to their conditions. Research is conducted in livestock production, agronomic crop such as maize, soyabeans, groundnut, drybeans, vegetable and fruit (deciduous and subtropical). Research units produce agricultural production guidelines that contain the latest and best agricultural technology. Information services utilises Geographic Information System (GIS) to develop and store data on climate, vegetation, and the soils of the province that is essential for planning and decision making. Infrastructure support (farm services) provides the logistical support in the research farm.

SUB-PROGRAMME 5.1 RESEARCH

STRATEGIC GOAL 2: Develop and transfer appropriate agricultural technology

STRATEGIC OBJECTIVES:

- To conduct adaptive research to improve agricultural productivity
- To establish and strengthen research partnerships
- To support the development of aqua-culture and game farming

Measurable Objectives

- To develop and promote adapted production guidelines and management strategies
- Establishment of Aqua-culture

| Measurable | Performance Measure or Indicator | 2005/06 | 2006/07 | |

| | Aquaculture consultations | - | 50 | |

SUB-PROGRAMME 5.2: INFORMATION SERVICES

STRATEGIC GOAL 2: Develop and update agricultural databases for improved decision making

STRATEGIC OBJECTIVES:

- To market /disseminate available information
- To enhance access to information on Agricultural Geo-Information System and other data bases

Measurable Objectives

- To expand the relevant agricultural and related data bases
- To update existing and develop new data basis for agriculture
- To provide natural resource information

| Measurable Objective | easurable Objective Performance | | | |
|--|--|------------|----------|--|
| | Measure or Indicator | (estimate) | (target) | |
| To compile and regularly update an agricultural information manual | Continually updated Information system(web page) | 4 | 4 | |

Table 2.9(5): Summary of provincial payments and estimates by economic classification: TECHNICAL RESEARCH & DEVELOPMENT

6.6 PROGRAM 6. AGRICULTURAL ECONOMICS

The programme renders agricultural economics, agricultural statistics, value adding and agricultural risk management services in support of agricultural based rural development. It provides assistance in the form of business plan development, business training, marking information and preparation of computer based budget (Combuds). The programme is allocated an amount of R10, 2 million for establishing value-adding/ benefaction projects that show potential to stimulate economic activities in rural areas.

SUB-PROGRAMME 6.1: MARKETING SERVICES

Measurable Objectives

1. To improve the facilitation of access to domestic and export markets

2. To promote economic and sustainable production in both the emerging and commercial sectors of agriculture

3. To improve the establishment of agricultural –businesses

| Measurable | Performance | 2004/05 | 2005/06 | |
|---------------------------------------|--|------------|----------|--|
| objectives | Measure or Indicator | (Estimate) | (Target) | |
| To provide mar information service | ket Information pamphlets produced and distributed to farmers. | 12 | 14 | |
| | Number of identified market opportunities for farmers | 4 | 4 | |
| | Number of commodities analysed for market trends | 4 | 8 | |
| | Number of training sessions on marketing offered to farmers | 4 | 10 | |

SUB-PROGRAMME 6.2: MACROECONOMICS AND STATESTICS

Measurable Objectives

- 1. To review and update the computerized budget (COMBUD)
- 2. To improve agricultural production economic advisory services
- 3. To collate, analyse and publish agricultural statistics

| Measurable objectives | Performance | 2004/05 | 2005/06 | |
|---|--|------------|----------|--|
| | Measure or Indicator | (Estimate) | (Target) | |
| Promote establishment of agribusinesses | Number of promotion workshops on cooperatives | 12 | 16 | |
| | Number of Coops established | 4 | 5 | |
| | Number of workshops on value adding | 6 | 8 | |
| | Number of agri-businesses established | 10 | 9 | |
| Render produ | Annually reviewed Combud | 1 | 1 | |
| economic advisory service | Enterprises reviewed and 2 new enterprises added annually | 57 | 59 | |
| | Number of business plans developed for farmers | 100 | 100 | |
| | Number of feasibility studies conducted for new projects for farmers | 25 | 25 | |
| | Number of training events on financial management | 12 | 24 | |
| | Number of farmers trained | 120 | 150 | |

| Measurable objectives | Performance | 2004/05 | 2005/06 |
|---|--|------------|----------|
| | Measure or Indicator | (Estimate) | (Target) |
| | Number of advices rendered on production economics | 108 | 120 |
| To Render tra support services | Number of agric and economic policies modelled and analyzed | 0 | 2 |
| | Number of WTO trade compliance reports prepared | 1 | 1 |
| To render agricultura risk and disaster management support | Number of agricultural risk outlook pamphlets produced for early warning | 4 | 4 |
| | Number of disaster prone areas assessed | 0 | 4 |
| | Number of training events in agricultural risk management conducted | 12 | 12 |
| | Number of farmers trained | 120 | 150 |
| Render agricultural statistical information services | Number of developed and maintained agricultural databases | 1 | 1 |
| To analyse the growth and contribution of agric sector to the economy | Number of analysed agricultural sectors | 3 | 6 |
| | Number of publications | 1 | 2 |

6.7 PROGRAMME 7:STRUCTURED AGRICULTURAL TRAINING

The programme aims to enhance the skills and capacity of farmers to fully exploit the potential of agriculture by providing academic and practical training. The academic training programme caters for diploma and certificate courses offered by the Lowveld Agricultural College. Training those fits the level of Further Education and Training (FET) category is continuously provided at all the three regions by dedicated training staff. This is done to educate and transfer technology to farmers.

SUB-PROGRAMME 7.1: TERTIARY TRAINING

STRATEGIC GOAL 2: To improve the performance of the agricultural sector

STRATEGIC OBJECTIVES:

To provide formal agricultural training

To maintain and develop Objective the college farm

Measurable Objectives

- 1. Develop and offer formal training programs at certificate and diploma levels
- 2. To introduce alternative cash crops for small-scale production

| Measurable Obje | ective | Performance | 2005/06 | 2006/07 |

6.8 PROGRAM 8: PLANNING, IMPACT, POLLUTION & WASTE MANAGEMENT

STRATEGIC GOAL: To enhance the quality and safety of the environment The overall aim of the Programme is to enhance the quality and safety of the environment.

STRATEGIC OBJECTIVES:

To monitor and investigate all activities that may impact negatively on the environment

To ensure enforcement and compliance to environmental statutes.

The strategic focus of this Programme is to promote pollution and waste management services and to ensure compliance to and enforcement of environmental legislation.

MEASURABLE OBJECTIVES:

- To render integrated air quality management services;
- To render waste management services;
- To promote Cleaner Production and Sustainable Consumption; and
- To monitor, control and record environmental emergency incidents

| Measurable Objective | Performance | 2005/06 | 2006/07 |
|--|--|------------|----------|
| | Measure or Indicator | (estimate) | (target) |
| To authorise applications for listed activities | All received Environmental Impact Assessment applications reviewed and authorised annually | 400 | 400 |
| To monitor records of decision | Records of Decision monitored | | 40 |
| To develop an environmental sensitivity map of the Province | Geographically sensitive areas mapped and gazetted | | 1 |
| To develop and gazette an Environmental Management framework | Environmental management frameworks developed and gazetted | | 1 |
| To ensure sustainable mining practices | All mine applications reviewed | 30 | 200 |
| Attend to environmental non-compliance | All reported non-compliances to environmental legislation investigated and litigation measures implemented where necessary. | 20 | 48 |

POLLUTION AND WASTE MANAGEMENT

| Measurable Objective | Performance | 2005/06 | 2006/07 |
|--|---|------------|----------|
| | Measure or Indicator | (estimate) | (target) |
| Render integrated air quality managements services | Provincial and Municipal Air Quality Management Plans developed and maintained | 3 | 20 |
| | Develop, implement and maintain an air quality management plan for the province | 1 | 1 |
| Render waste management services | Build provincial integrated pollution control capacity. | 1 | 1 |

6.10 PROGRAMME 10: ENVIRONMENTAL DEVELOPMENT

The focus of this Programme is on the geographically identified high risk areas for waste, water, greening and climate change as identified in the State of the Environment Report. The programme will intervene according to the environmental quarterly themes. The

intervention is at both horizontal and lateral level involving the Departments of Local Government and Housing, Water Affairs and Forestry, Health and Social Services, local municipalities, private sector and civil societies. The intervention will also focus on environmental related issues of health, water quality, sustainability, etc, and on strengthening co-operative governance for environmental management as well as reporting on the state of the environment of the province.

STRATEGIC GOAL:

To enhance the quality and safety of the environment.

STRATEGIC OBJECTIVE 1 : To promote and encourage environmental awareness and education

Measurable Objectives

 \bullet To develop and implement environmental awareness programmes and projects in the three districts

• Ensure awareness of and concern for environmental issues

• Develop policies regarding environmental education and promote efficient marketing strategies

Strategic Objective 2: To render strategic environmental management services

Measurable Objectives

- To develop environmental policies , standards and guidelines
- Co-ordinate environmental reporting
- Monitor environmental quality and performance
- Develop and maintain an environmental geographic information system

| Measurable Objective | Performance | 2005/06 | 2006/07 |
|---|---|-----------|----------|
| | Measure or Indicator | (estimate | (target) |
| To provide environmental awareness, information and advisory services for environmental capacity building that | Information sessions conducted o environmental rights and responsibilities, air quality, biodiversity, waste management, land, water, energy, management of local natural resources | 36 | 105 |
| ensures environmental action to achieve sustainable development | Environmental commemorative days events | 4 | 75 |
| | Environmental programmes (Adopt – a- schoolyard, Adopt – a – Spot) facilitated on sustainable development | 3 | 30 |
| | Environmental projects planned on sustainable development (JuniorCare) | - | 6 |
| | Environmental articles and columns published /radio talks conducted to raise environmental awareness | 27 | 120 |
| | Clients serviced through environmental centres | 94 000 | 200 000 |
| | Environmental resource/support material compiled | 8 | 63 |
| Environmental policy co- ordination and advocacy | Policies, standards, norms and guidelines developed and implemented | 4 | 4 |
| Co-ordinate the Municipality Environmental Management Programme | Integrated Municipal Environmental Programmes established | 0 | 1 |
| Co-ordinate the provincial environmental co-operative | Mpumalanga Environmental Implementation Plan developed, implemented and reported | 1 | 2 |
| governance programme | Environmental training developed and presented | 5 | 16 |
| Co-ordinate environmental information management and reporting | State of Environment Report compiled and Indicators developed | 1 | 0 |
| To plan, monitor and report on ecosystem, biodiversity and natural heritage resources | Provincial biodiversity conservation assessment and plan developed and maintained | 1 | 1 |

6.11 PROGRAM 11: LAND ADMINISTRATION

STRATEGIC GOAL:

To facilitate access to agricultural resources by the Previously Disadvantaged Individuals

STRATEGIC OBJECTIVE 1 : To undertake physical planning and land surveying

Measurable Objectives

- Execute physical and spatial planning
- Demarcate land for settlement and normalisation

STRATEGIC OBJECTIVE 2: To support and facilitate the National and Provincial Land reform programmes

Measurable Objectives

- Facilitate the state land release program
- Facilitate the resolution of land disputes
- Render development support to national evictions and labour tenants programmes
- Render assistance to resolution of land claims
- Render assistance in land redistribution programmes

STRATEGIC OBJECTIVE 3: To manage land development and administration services

Measurable Objectives

- Prepare deeds of grant
- Administer land use legislation
- Render secretarial support to the statutory bodies

PLANNING AND SURVEYING SERVICES

| Key Objectives | Measurable Objective | Performance Measure | 2005/06 (estimate) | 2006/07 (target) |
|---|---|---|-----------------------|---------------------|
| Increased title deeds to beneficiaries in towns/ settlements and agricultural land | Provide full ownership to beneficiaries in towns/ settlements and agricultural land. | Layout plans/ General Plans finalised (Milestone 1 to 4) | 4000 | 1 600 |
| | | Number of title deeds handed out to beneficiaries. (Milestone 5 to 8) | 8 512 | 4 000 |

| Key Objectives | Measurable Objective | Performance Measure | 2005/06 (estimate) | 2006/07 (target) |
|--|---|--|-----------------------|---------------------|
| Increased availability of land / erven for development that could be transferred to individual beneficiaries | Surveying of land to create sites/ allotments for settlement or agricultural use. | No of sites/allotments surveyed. (Milestone 1 to 4) | 1 115 | 1 500 |
| | Town establishment and formalisation projects | Layout plans/ General Plans finalised (Milestone 4 completed) | 1 700 | 2 100 |
| | | Number of sites formalised. | 3 651 | 1 700 |
| | Develop a Land Use Spatial Plan | Land Use Spatial Plan developed | - | 25% |
| | Compile database to establish land needs. | Database available | - | 25% |
| Budget for sub program 9.1: Planning & Surveying Services | | | 20,045 | 12,397 |

LAND USE ADMINISTRATION

| Key Objectives | Measurable Objective | Performance Measure | 2005/06 (estimate) | 2006/07 (target) |
|--|--|--|-----------------------|---------------------|
| Decrease in land use appeals and in illegal land use | Processing of land use application through applicable legislation a efficient administration o Statutory Bodies. | local level increase | 150 | 100 |
| | | Applications considered by Mpumalanga Development Tribunal | 13 | 12 |

| Key Objectives | Measurable Objective | Performance Measure | 2005/06 (estimate) | 2006/07 (target) |
|---|---|--|-----------------------|---------------------|
| | | Applications considered by Mpumalanga Townships Board | 12 | 12 |
| Increase land management capacity in Municipalities/ District Municipalities | Provide effective and efficient land use management planning at local municipality level. | Provide training on Tenure and Land Use Management to local municipalities (Workshops) | 4 | 4 |
| | Develop Provincial Planning Legislation in collaboration with the Office of the Premier | Implementation of Provincial Planning Legislation | - | 25% |
| Budget for sub program 9.2: Land Use Administration | | | 3,731 | 3,955 |

LAND REFORM

| Key Objectives | Measurable Objective | Performance Measure | | 2005/06 (estimate) | 2006/07 (target) |
|---|---|--|-----|-----------------------|---------------------|
| Formalisation of existing R188 rural settlements under tribal jurisdiction | Provide suitable land for housing projects a n d l a n d development by facilitating Community Resolutions. | N u m b e r Community Resolutions taken | o f | 20 | 20 |
| Provide assistance with validation and implementati o n o f restitution a n d l a n d reform projects | Number of restitution and land reform projects assisted | Number of cases facilitated | | 41 | 35 |
