#### 1. Overview

#### Core functions and responsibilities

The Provincial Legislature provides both legislative and institutional support services required to fulfill its constitutional functions. The oversight function and the opening of the doors of the Legislature to the public continue to be important areas of the Legislature's activities.

#### Vision

The Legislature of the Eastern Cape is committed to good corporate governance, whilst serving the people of the Province as a dynamic People's Assembly prescribed by the Constitution of South Africa by continually striving to improve the quality of life of the people of the Eastern Cape through qualitative service delivery.

#### Mission

The Legislature of the Eastern Cape legislates, conducts vigorous oversight and facilitates public participation within the framework of cooperative governance for the people of the Province.

#### Main services

 Legislating: Bills brought before the Legislature by the various executive departments are scrutinized and improved upon before they are tabled in the House for debate. In this process the stakeholder views are taken into account - either by inviting them to the Legislature or by holding meetings in the various areas of the province. These inputs are also prepared in respect of national legislation through the National Council of Provinces. The public participation activity is an essential part of maintaining democracy in the province.

- **Oversight:** The Legislature does not only vote a budget into law; it also has to ensure that executive departments spend the voted funds in the prescribed manner. This the Legislature achieves through a set of committees specifically intended to meet these challenges. These committees work to protect the interests of civil society.
- Administration: The political work is supported by administrative machinery that ensures that there is an infrastructure. This is led by an Accounting Officer who must account for the use of the voted funds in the same manner as any institution that uses public funds to meet its objectives. The Legislature has benchmarked its activities against those of National Parliament as a sister institution at national level.

#### Demands and changes in services

The Legislature has reviewed its organizational structure in 2006/07 financial year. The Legislature also plans to introduce a document management system. The Legislature is in a process of implementing the accrual system of accounting, as well as a fraud prevention strategy.

#### Acts, rules and regulations

- Annual Division of Revenue Act
- Public Finance Management Act, (Act 1 of 1999, as amended)
- Treasury Regulations
- Constitution, (Act 108 of 1996)
- Labour Relations Act, (Act 66 of 1995)
- Basic Conditions of Employment Act, (Act 75 of 1997)
- Borrowing Powers of Provincial Government Act, (Act 48 of 1996)
- Employment Equity Act, (Act 55 of 1998)

#### Budget decisions

- Oversight of Municipalities by the Legislature
- Public Education Programmes
- Public Participation Programmes
- International links

#### 2. Review of the current financial year (2006/07)

The Legislature has continued to respond to the growing demand for oversight, public participation and national legislative process. Other issues that were addressed by the Legislature include: the formulation of institutional policies (these policies are now at the consultation stage); the development of institutional systems; the enhancement of Human Resource capacity; and the improvement of internal and external communication processes as well as service delivery.

The Legislature has been involved in a national initiative, which was an unfunded mandate, of taking Parliament to people, the "People's Assembly".

The setting up of the Legislature's own website is underway, as well as a process of linking constituency offices with a view to improving communication. Further improvements to the system are still pending.

#### Challenges of the current financial year (2006/07)

- Shortage of Personnel
- Adoption of Finance and Human Resources Policies
- Upgrading of Information Technology Systems
- Upgrading of Security Systems
- Oversight of Municipalities
- Upgrading of Parking area
- Appointment of Researchers for Political Parties
- Appointment of Support Staff to SCOPA
- Change from cash basis to accrual basis

#### 3. Outlook for the coming financial year (2007/08)

The Legislature is made up of 63 Elected Public Representatives (members) from 5 political parties resulting from the elections for the current term and floor crossing. These members are supported by an administration as well as a support complement to political parties.

The Legislature adopted new Standing Rules that will increase House sittings, public participation and Committee reports within specific time-frames to ensure a more effective and efficient execution of the Legislature's constitutional mandate. These changes will pose new challenges to the Legislature, especially regarding the provisioning of enabling facilities, equipment, housing and support. These Rules will present challenges to provide for adequate support and equipment to enable compliance with these Rules. The Legislature further wishes to revamp the Chamber.

The recent Municipal Finance Management Act provides that all Municipalities submit to the Legislature their annual reports, audited annual financial statements; Auditor-General's report and the oversight report from their respective councils for consideration by the Legislature in terms of the Legislature's constitutional mandate. This has financial implications and has not been included in the MTEF.

Furthermore, the Legislature will continue to respond to the growing demand for oversight, public participation and national legislative process. Other issues that will be addressed by the Legislature include the development of institutional systems, the enhancement of Human Resource capacity and the improvement of internal and external communication processes, change from the cash basis of accounting to accrual basis of accounting, as well as service delivery.

#### 4. Receipts and financing

#### Summary of receipts

The table below depicts the sources of funding for the vote.

#### Table 2.2 Summary of receipts: Provincial Legislature

#### 5. Payment summary

#### Key assumptions

- Cost associated with the fulfillment of public participation in the legislative process through public hearings, petitions and the holding of institutionalized days.
- Cost associated with the oversight role of the Legislature through the various standing committees of the Legislature by the Executive;
- Cost associated with administration and management of the Legislature and financial support for the political structures;
- Remuneration and benefits for members of the legislature;
- Financial support to political parties with representation in the Legislature by paying constituency allowances, as approved by the Rules Committee.
- Payment of Compensation of Employees.
- Payment for improvement of Information Technology

#### Programme summary

The table below indicates the budget or estimated expenditure per programme and Table 5.2 per economic classification (in summary). Details of the economic classification in the New Economic Reporting Format i.e. the Standard Chart of Accounts (SCOA) are attached as an annexure to this vote.

#### 6. Programme Description

#### Programme 1: Administration

**Purpose:** To provide the overall support services required by the Legislature to fulfill its legislative and oversight functions, and to ensure optimal, transparent, effective and efficient utilization of limited available resources at their disposal.

- Office of the Speaker: Supports the presiding officers in performing their functions.
- Office of the Secretary: Provides institutional strategic leadership through co-ordination, assessment, monitoring and evaluation.
- Financial Management: The services provided by Financial Management include financial management services, financial accounting services, internal control, rendering of supplier, transfer and salary payment management services for Members and Staff.
- Corporate Services: This subprogramme is comprised of the following:
  - *Communication:* Provides the institution with services such as communication, donor management, and international relations.
  - Human Resource Management: Responsible for: ensuring effective and efficient Integrated Human Resource Management including skills audit ,labour relations and development of a comprehensive human resource development strategy for both Members of the Legislature and staff
  - Information Technology: Provides Information Technology services and Information Systems within a secure environment in the Eastern Cape Provincial Legislature.
- **Safety:** Responsible for establishment of the institutional security system, allocation of car park space, electronic security of entrance and exit.
