

Department of Public Works**Vote 9**

To be appropriated by Vote in 2009/10	R785 915 000
Responsible MEC	MEC for Public Works
Administrating Department	Department of Public Works
Accounting Officer	Superintendent General: Public Works

1. Overview

The current Department of Public Works was formed after the Roads, Traffic and Transport Management functions were transferred from the previous Department of Public Works, Roads and Transport to the previous Department of Public Safety, Security and Liaison. The part of the budget and expenditure relating to the Roads branch and the concomitant administration functions were taken out of this chapter of the budget statement. The administration functions were first split by identifying the functions unique to Roads and Works thereafter the remaining parts were split proportionally with the number of staff in the Roads branch and the Works branch. Although new strategies and policies will guide the new Department of Public Works, this submission use the same policy guidelines as confirmed in the previous Department of Public Works, Roads and Transport.

1.1 Vision

A prosperous Free State through the facilitation of sustainable infrastructure.

1.2 Mission

Public Works is a department committed to the provision, promotion and sound management of assets, transportation and infrastructure systems that are safe, affordable, reliable, accessible and sustainable.

1.3 Core functions and responsibilities of the department

- Public works maintenance and construction as well as property management including the provision of office accommodation;
- Coordination and monitoring the implementation of Expanded Public Works Programmes; and
- Security management for interdepartmental buildings.

1.4 Departmental Structure

Cabinet Minute 8.4 of April 2008 announced the transfer of Traffic and Law Enforcement to the Department of Public Safety, Security and Liaison. This was effected from 1 September 2008 with the budget and expenditure functions implemented in the Adjustment Budget on 25 November 2008. In addition to the above, the departmental structure is continuously revised to reduce unfunded vacant posts.

1.5 Strategic Policy Directions

The Free State Provincial Growth and Development Strategy is still used as the key guide to achieve growth and development through further enhancement of National Youth Service Programme, Contractor Development Strategy, Broad Based Black Economic Empowerment and development of Small, Medium and Micro Enterprises.

1.6 Legislation

Amongst the generic provincial and national Acts and policies, the following legislation and directives are key to the functioning of the department:

- Constitution of the Republic of South Africa (Act 108 of 1996)
- Public Finance Management Act, 1999 (Act No. 1 of 1999) as amended by Public Finance Management Amendment Act, 1999 (Act No. 29 of 1999) and the related Treasury Regulations
- Public Service Regulations 2001 (as amended)
- Division of Revenue Act, 2005 (Act No. 4 of 2005)
- Promotion of Access to Information Act, 2000 (Act No. 2 of 2000)
- Promotion of Administrative Justice Act, 2000 (Act No. 3 of 2000)
- Skills Development Act, 2003 (Act No. 31 of 2003)
- Local Government Demarcation Act, 1998 (Act No. 27 of 1998)
- Local Government Municipal Structures Act, 1998 (Act No. 117 of 1998)
- Occupational Health and Safety Act, 1993 (Act No. 85 of 1983)
- Free State Land Administration Act, 1998 (Act No. 1 of 1998)
- Construction Industry Development Board (CIDB) Act, 2000 (Act No. 38 of 2000)
- Compensation for Occupational Injuries and Disease Act, 1993 (Act No. 130 of 1993)
- Preferential Procurement Policy Framework Act (PPPFA), 2000 (Act No. 5 of 2000)
- Broad Based Black Economic Empowerment Act 2003, (Act No. 53 of 2003)
- State Information Technology Agency (Act 88 of 1998)
- The Expropriation Act, 1975 (Act No. 63 of 1975)
- The Mineral Act, 1991 (Act No. 50 of 1991)
- The National Veld and Forest Fire Act, 1998 (Act No. of 1998)
- Policy document on the Statutory Regulation of the Built Environment Professionals, 1999
- White Paper: Public Works towards the 21st Century, 1997
- Control of Access to Public Premises and Vehicles Act, 1985 (Act No. 53 of 1985)
- Government Immovable Asset Management Act, 2007 (Act No. 19 of 2007)

1.7 Public Works as an agent for other provincial departments

The Department of Public Works remains the implementing agent of the other provincial departments with regard to construction and maintenance of provincial infrastructure. The infrastructure budgets of all client departments are shown at the relevant departmental votes and therefore their budgets and projects are not included in the further discussion of this department's budget.

2. Review of the current financial year (2008/09)

2.1 Implemented Policy priorities

• Reduction of employment

After considering the new pressures and demands in this department it was established that the current establishment was designed to meet all existing and future needs. At that stage the Original department had a departmental structure of 9 200 posts. During 2007 the departmental structure was reviewed thereafter 2 050 vacant, unfunded posts were abolished. The 2 050 posts were abolished due to reduced funding as well as changes in emphasis brought about by the National Youth Services and Contractor Development programmes. Furthermore, in line with the Executive Council Directive and Human Resources Management strategy dated 6 December 2006, the department reduced the number of vacancies on the establishment by at least 5 per cent per annum. The Transfer of the Roads Branch including Roads, Traffic, Transport, Fleet Management and concomitant support staff to the Department of Community Safety and Transport resulted in the abolishing of Programmes 3, 4 and 5 as well as the Fleet Management agency and 190 posts of support staff throughout the various disciplines.

• Acceleration of infrastructure delivery

The department strived to reduce the overall contract period for implementation of social and economic infrastructure. Through this process not only does the government save on time related expenses but infrastructure is opened for use much quicker.

- **Coordinating and massification of Expanded Public Works Programme (EPWP)**

All projects were utilized to include EPWP principles or full EPWP programmes. Labour intensiveness and employment were massified as far as economically viable.

2.2 Challenges

- **Budget constraints**

During 2008/09 the steep rise through escalating contract and material prices had a negative impact on the funding levels and capacity to deliver in the department. Because funding levels remained fixed and no additional funds were awarded in the adjustment budget, while cost of contracts increased, the contracts had to be delayed in an attempt to limit the monthly spending and eventual total expenditure to the allocated budgets.

- **Training and retention of certain technical & engineering skills**

The department's core function is the delivery of social infrastructure, the upgrading and maintenance of existing provincial infrastructure. Professional and technical skills are required to meet the growing need for infrastructure including guiding developing and training of participants on the contractor development programme, various learnerships and National Youth Service.

Furthermore, the development and training to meet the requirements for professional registration with the professional bodies within the built environment is a prerequisite. Mentorship and training of these bursary holders is a necessity. Also, the artisan training programmes to meet the objectives of skills within the construction industry as outlined in the Joint Initiative Priority Skills Acquisition, (JIPSA), are extended to also include the requirements of the private security regulatory authority training of security staff to meet these norms and standards as necessity to ensure protection of state assets and property.

2.3 Bursaries to scarce skills

To address the current and future staffing needs of the department awarded to both full time and part time bursaries. A significant aspect of the bursary project is to assist the department in meeting skills needs required to accelerate infrastructure delivery and to address the skills gap departmentally.

2.4 Property services, rentals, water & electricity

The collection of office rental, water and electricity expenses from all client departments is still not fully implemented. The allocated budget is not sufficient for the full payment of all other department's services fees and if expenses are not recovered, this department will have a shortfall in 2008/09. The income from rental for office space and water and electricity forms part of this department's budget. An estimated R102.678 million will be paid and recovered from departments for rentals in the 2008/09 financial year.

2.5 First charge

The department's expenditure at the end of December of the 2008/09 financial year was 75 per cent in line with the norm of 75 per cent. Following the PROPAC resolution, the department did repay the full amount of the over expenditure of the 2006/07 financial year. However, the department projects a shortfall or an over expenditure of R24.781 million for the current financial year.

2.6 Under performing programmes

There are currently no underperforming programs. Delayed expenditure occurred in the Public Works and EPWP programmes due to external factors such as claims from the municipalities that were received late. The spending on rates and taxes grant depends on the claims received from municipalities, as the municipal financial year only begins in August, claims were only received after August and September 2008. Thereafter this department had to confirm the accuracy and validity of these claims before payment could be made. In several cases the land parcels claimed for were not yet

registered in the name of the Provincial Government. That excluded these payments from the departmental responsibilities. For this reason, the bulk of the R125 million rates and taxes payment was only made in the last quarter of the 2008/09 financial year

2.7 Inflation and other related expenditure

Normal escalation in fuel, materials (cement, steel, bituminous materials) construction cost, hiring of road building equipment and labour indexes was budgeted for at 6 per cent. However, the current inflation is higher than 9.5 per cent on these items. The department is contractually bound to pay escalation claims as calculated in the rise and fall percentages stipulated in all contracts. To be able to address these additional costs the department had to delay the projects and postpone the start date of new projects.

The appeal court decision against the Department in a accident case multiplied the likelihood and magnitude of similar or other claims against the state. All maintenance but more so on roads, has to be attended to immediately to ensure that the department does not reach a point where the total departmental budget goes towards payment of claims from individuals and no funds remain for repair of the priorities that give rise to the claims.

2.8 Capital Expenditure

The capital budget in the 2008/09 financial year is R89.553 million, which is 13 per cent of the total departmental budget. The rise in construction cost is due to the Cost Price Adjustment (CPA) and will have a negative impact on the delivery from this budget.

3. Outlook for the coming financial year (2009/10)

3.1 New policy priorities

The Public Works Department will continue to focus on the following national, provincial and departmental priorities:

- Promoting economic growth and development through national youth services and contractor development programmes as well as infrastructure programmes;
- Accelerating delivery of infrastructure through fast tracking projects in an attempt to save on the total cost of delivery;
- Coordinating and massification of EPWP in the province amongst all departments and spheres;
- Support and active utilization of National Youth Services programme; and
- Reduction of unemployment in line with the EXCO decision to reduce the establishment by 5 per cent per year.

3.2 Challenges

- Funding of normal and planned maintenance activities and the large backlogs in maintenance of buildings;
- Recruitment and retention of certain technical and engineering skills in the department and in the Free State remains a concern; and
- Extending employment opportunities to all sectors through implementation of EPWP projects and National Youth Service.

3.3 Personnel

Personnel development is still a priority. Accredited external training as well as in service training, new bursaries to deserving students and development through the National Youth Services programme will be used.

3.4 Property services, rentals, water and electricity

In the budget allocation provision is only made for this department's increases in services and other fees. While the department estimates to pay R300 million on behalf of all departments and has to continue with the full cost recovery of rentals, municipal services and taxes in line with floor space occupied by those departments.

Department R'000	Electricity	Water	Refuse	Sanitation	Rent	Total 2009-2010
Agriculture	731	392	17	104	6 648	7 892

Total	108 000	52 000	2 200	18 000	120 000	300 200

3.5 Infrastructure projects

All infrastructure grant funds will be used on infrastructure for maintenance, rehabilitation and new projects. Grant funds will be allocated to roads infrastructure, works infrastructure as well as EPWP allocations which could be used for roads or works projects.

This department will continue to design and deliver infrastructure projects for all client departments.

3.6 Grant allocation

The Infrastructure Enhancement Allocation (which is the Free State Own Infrastructure Grant and actually also voted funds) of R22.118 million will be utilized for infrastructure maintenance, upgrading and rehabilitation. Current expenditure on infrastructure will also be paid from these grant funds. The Nationally allocated Devolution of Properties Rate Funds R140.144 million will be utilized for the payment of rates and taxes. The Expanded Public Works Programme Incentive Grant will be utilized for infrastructure maintenance projects mainly through Contractor Development Programmes.

4. Receipts and financing

5. Payment Summary

5.1 Key assumptions

The following key assumptions underlay the current proposals for the budget of 2009/10:

- An anticipated inflation rate of 5.2 per cent;
- Salary adjustments of 6.0 per cent, inclusive of 1 per cent pay progression; and
- Emphasis is placed on the rehabilitation of infrastructure, which has deteriorated to the extent that it became unserviceable. The day to day maintenance is still done by departmental staff.

6. Programme description

6.1 Programme 1: Administration

Description and Objectives strategic objectives

The aim of this programme is to provide the Department with administrative, strategic, financial and corporate support services in order to ensure that it delivers on its mandate in an integrated, efficient, effective and sustainable manner. This includes publicly funded goods and services utilized for governance, management, research and administration, as well as general office services. Included in Administration are services such as information technology, organizational development, communication, internal audit, legal services and research development.

Table 9.8: Summary of payments and estimates: Programme 1 - Administration

Sub-programmes

Description and objectives

Office of the MEC:

To render advisory, secretarial, administrative and office support services as well as secretarial support. The office also deals with the rendering of administrative support, public relations/communication support and parliamentary support services.

Management / Head of Department:

The sub-programme deals with the overall management of the department and overall project monitoring.

Corporate support:

The functions of this sub-programme are to manage personnel, supply chain management, finance, administration and related support services. The section also deals with operational support in terms of strategic management, research and development, financial management, logistics, transport, procurement, human resource, legal issues, information technology, communication as well as auxiliary services.

Service delivery plans

These services are continuous by nature.

- Implementation and adherence to policies;
- Retraining and development of personnel where utilization can be improved;
- Introduction of Accrual Accounting Systems;
- Allocation of bursaries to address shortage of critical occupations;
- Develop learnerships that would meet the needs of the department;
- Refinement of retention strategy for critical occupations;

- Address shortcomings as identified by Internal Audit and Auditor- General;
- Customize Information technology to meet departmental needs;
- Improve internal and external communication;
- Research and develop strategies;
- Financial management and control;
- Shortening of the payment cycle;
- Proper supply chain management; and
- Develop and implement audit plans.

6.2 Programme 2: Public Works

Description and Objectives

To provide accommodation for all provincial departments, manage the provincial property and asset portfolio for the optimum benefit of government and render professional and technical services to client departments in respect of buildings and related infrastructure and to ensure that physical and electronic security are in place. The budgets of client departments for delivery of infrastructure are not included in this programme.

Sub-programmes

Description and Objectives

Programme support:

The sub-programme is responsible for the overall management and support of the programme.

Design:

Design of new public infrastructure – the intention is that plans should be ready for funding.

Construction:

New construction and refurbishment.

Maintenance:

Sub-sub-programmes:

6.2.1. Routine maintenance

6.2.2. Alterations

Alterations refer to changes that are required for reasons other than maintaining the asset, e.g. changes to interior walls.

Property management:

To manage the property portfolio of the province with the fixed asset register and disposal plan for fixed assets; provide accommodation for all provincial departments and other institutions as well as acquisition and disposal of accommodation. To provide for the buying, selling, asset and property control as well as technical support to client departments. The section is also responsible for the rental of accommodation to client departments. This sub programme also provides physical and electronic security at buildings which are occupied by more than one department. This sub-programme also provides for the protection of political office bearers and securing their houses. It manages the in-house and contract security as needed for buildings and houses, monitoring and operation of the security systems.

Service delivery measures

Measurable Objectives	Performance Measures	Estimated Annual Targets		
		2009/10	2010/2011	2011/2012
Upgrading and installation of electronic security system at Lebohang, Medfontein, PG Buildings & MPL Complex.	Operational Electronic security system.	X-ray machines installed at Lebohang, PG Building, Medfontein & MPL Complex	Alignment of the Control Room to receive Audio / Visual signals Lebohang, PG Building, Medfontein & MPL Complex	Install DVR's and Monitors at the Control room Lebohang, PG Building, Medfontein & MPL Complex
Ensure compliance to safety and security standards	Security appraisals conducted	20	20	20
	Threat risk assessments conducted	60	100	100
Contribute to the attainment of government's broad socio economic objectives	Lease expenditure to HDI's (30% of Total Lease)	R25.1m	R27.7m	R30.4m
	Disposals to HDI	20	30	40
Utilise office space maximally	Spaces allocated in line with norms and standards	70	80	100

Measurable Objectives	Performance Measures	Estimated Annual Targets		
		2009/10	2010/2011	2011/2012
Improve cleanliness and maintenance of gardens on government properties	Compliance with the housekeeping norms and standards monitored	90	132	132
Complete projects in accordance to project management guidelines	Projects completed	95% of all projects	95% of all projects	95% of all projects
Develop and champion programmes and strategies towards improved construction	EPWP : Job opportunities created	500	1 000	1 050
	Contractor Development Programme	100	100	100
	National Youth Service Programme: No of youth provided artisans skills	200	200	200
	Construction Charter: BBEE participation	100	100	100

6.3 Programme 3: Expanded Public Works Programme

Description and Objective

The Expanded Public Works Programme (EPWP) is a nationwide initiative by government, which aims to draw significant numbers of the unemployed into productive work so that workers gain skills while they work and increase their capacity to earn an income.

The Expanded Public Works Programme has been identified as a strategic intervention designed to make a significant contribution to reducing unemployment and providing livelihoods for the poor, women, youth and people with disabilities in the Free State Province. The EPWP involves interventions in four sectors, namely: Infrastructure; Economic; Social, Environmental and Cultural sectors.

The EPWP Chief Directorate has been established and it consists of the three main Directorates, namely: EPWP Project Implementation, EPWP Sector Coordination and the EPWP Learnerships and SMME Development.

Programme support:

Overall management and support of the programme.

Innovation and empowerment:

The section deals with the provision of opportunities to tertiary students to undertake their compulsory in-service-training of their career programme, as well as unemployed persons of underdeveloped communities to undergo education and training programmes. The section also deals EPWP learnerships throughout the province.

EPWP Co-ordination and Monitoring:

Implementing EPWP projects.

Service delivery measures

Measurable Objective	Performance Indicators	Estimated Annual Targets		
		2009/10	2010/2011	2011/2012
Monitor compliance with EPWP principles by all provincial departments and municipalities within the Province	Number of EPWP projects implemented by sectors	420	450	
	Number of municipalities implementing EPWP projects	6	5	
Co-ordinate the implementation of the EPWP in the Province	Number of jobs and training opportunities created in four sectors	20 000	25 000

6.7.2 Training

The department will use 90 per cent of the skills development levy plus additional funds for bursaries on training and learnerships. Officials also attend seminars and workshops as needed. These are paid for from the travel and subsistence and attendance budget. All training is coordinated in Programme 1 after performance and development needs are considered.
