Gauteng Budget 2009/10

It is with great pleasure that I present this budget booklet today, heralding the end of one election cycle and immense opportunities a new budget presents. As the last year of the 2004-09 political term draws to a close in the next month, it has become imperative for the province to reflect on the entire period. Our success in the implementation of policies and plans is attributed to a large extent to the strategic allocation of funds that directly impacts on the lives of individuals.

For the 2009 medium term period, the budget framework continues to put particular emphasis on the achievement of short and long term goals, and the delivery of quality services that will improve the lives of Gauteng's citizens.

In setting up the expenditure priorities, significant resources are allocated to socio-economic developmental services such as education, health and transport. These services are essential to all in the province, and particularly to low income earners and the unemployed. They contribute to poverty reduction and create jobs through programmes such as the Expanded Public Works Programme, through the construction and maintenance of schools and health facilities and through major initiatives such as the Gautrain. The province has also made funding available to the Global City Region Academy for skills development to enable effective and efficient service delivery.

This booklet provides a snapshot of the key highlights of spending areas for the 2009 Medium Term Expenditure Framework. Information in this booklet is presented in a simplified and easy to read way in order to create awareness, promote understanding of the budget and improve transparency and accountability by relevant institutions.

We are confident that the 2009/10 budget reflects an important plan that is aimed at addressing key challenges facing the province and trust that you will find this booklet useful in contributing to your understanding of the budget.

What is a budget?

A budget is a financial planning tool that identifies how the limited available resources will be spent. The budget provides us with an opportunity to coordinate outputs and allocate resources to the areas on which we want to focus on, in order to achieve set goals and objectives.

It is also a tool that requires management to plan ahead, to evaluate performance continuously and to make necessary adjustments in the process of achieving goals.

By tabling this budget, we are promoting access to information. We urge the public to use it in the months ahead to measure and monitor government's performance.

This booklet explains the Gauteng budget for the financial year 1 April 2009 to 31 March 2010.

Gauteng Begroting 2009/10

Dit is met trots dat ek hierdie begrotingsboekie bekendstel. Dit lei die einde van hierdie verkiesingsiklus in en omvat die belangrike geleenthede wat 'n nuwe begroting bied. Die laaste jaar van die 2004-09 politieke termyn loop volgende maand ten einde. Daaromis dit noodsaaklik dat die Provinse oor die tydperk besin. Ons inwerkingsstelling van beleidstandpunte en -planne was 'n sukses omdat fondse strategies toegewys is om 'n direkte uitwerking op mense selewens te hê.

Oor die medium termyn van 2009 sal die begrotingsraamwerk steeds op die behaling van kort- en langtermyn-doelwitte klem lê, asook op levering van gehalte dienste wat Gauteng se inwoners selewens sal verryk.

Wat die bestedingsprioriteite betref, word heelwat middele toegewys aan sosio-ekonomiese ontwikkelingsdienste soos opvoeding, gesondheid en vervoer. Sulke dienste is noodsaaklik vir almal in die Provinse, en veral ook aan mense met lae verdienste en werkloses. Hierdie dienste dra by tot werkskepping en die vermindering van armoede deur programme soos die Program oor uitgebreide openbare werke, deur die oprigting en onderhoud van skole en gesondheidsplekke en danksy groot projekte soos die Gautrain. Die Provinse het ook fondse beskikbaar gestel vir die Wêreldstadstreek Akademie, vir vaardigheidontwikkeling wat doeltreffende dienslevering sal verseker.

Hierdie boekie omvat kortliks van die bestedingshoogtepunte vir die 2009 mediumtermyn-bestedingraamwerk. Die inligting is eenvoudig vervat sodat mense van die begroting bewus kan word en kan begryp, om die proses deursigtig te maak en toerekeningsvatbaarheid van instellings te bevorder.

Ons is oortuig dat die 2009/10-begroting 'n plan omvat wat wat die Provinse se belangrikste uitdagings die hoof sal help bied. Ons vertrou dat hierdie boekie vir u sal help om die begroting beter te verstaan.

Mandla Nkomfe
LUR vir Finansies en Ekonomiese Sake

Wat is 'n begroting?

'Nbegroting is 'n finansiële beplanningshulpmiddel wat aandui waarop die beperkte middele bestee gaan word. Die begroting maak dit moontlik om uitsette te koördineer en hulpbronne op gebiede aan te wend wat dit nodig het om die vooraf bepaalde doelwitte te behaal.

Om 'n begroting op te stel, vereis dat die bestuur vooruit beplan, prestasie voortdurend dophou en die nodige aanpassings maak ten einde die doelwitte te bereik.

Deur hierdie begroting bekend te maak, bevorder ons toegang tot inligting. Ons moedig die publiek aan om dit in die komende maande te gebruik as maatstaf om die regering se prestasie te meet.

Hierdie boekie verduidelik Gauteng se begroting vir die finansiële jaar 1 April 2009 tot 31 Maart 2010.
