Statutory Amount	1 492	1 586	1 676
Responsible MEC	MEC for Health		
Administrating Department	Department of Health		
Accounting Officer	Head of Department		

1. Overview

1.1 Vision

A quality health service to the people of the Eastern Cape Province, promoting a better life for all.

1.2 Mission

To provide and ensure accessible comprehensive integrated health services in the Eastern Cape, emphasising the primary health care approach, optimally utilizing all resources to enable all its present and future generations to enjoy health and quality of life.

1.3 Core Function and Responsibilities

The core business of the department is to provide quality health care through a range of services, from primary, secondary and tertiary levels, in facilities such as clinics, community health centres and hospitals and through these services the department contributes towards wellness in the community and thus impacting on the burden of disease within the province.

The policy direction set by the National Department of Health and the Provincial EXCO Resolutions on Service Delivery Improvements are the guiding pillars for the next five years.

The National Health Council has adopted a set of Ten Point Plan Priorities for Health. The implementation of some of these will commence during the 2010/11 financial year.

1.4 Core Values

The department's activities are anchored on the following values:

- Equity of both distribution and quality of services
- Service excellence including customer and patient satisfaction
- Fair labour practices
- Performance driven organisation
- High degree of accountability
- Transparency

1.5 Strategic Goals of the Department

- To facilitate a functional quality driven Public Health System that provides an integrated and seamless package of health services and is responsive to customer needs.
- To combat and reduce the impact of TB and HIV/AIDS with a special focus on preventing the emergence of drug – resistant strains.
- To improve and strengthen the mother and child health services.
- To combat and reduce non-communicable diseases and mental conditions.
- To enhance institutional capacity through effective leadership, governance, accountability and efficient and effective utilisation of resources.

1.6 Demands for and expected changes in services

Life expectancy at birth is expected to decline to pre 1955 levels by 2015 if we do not intervene. Death notifications among young adults in the 25-39 age groups have almost trebled between 1997 and 2006.

This is largely due to HIV and TB which constitute almost half (46%) of disability-adjusted life years lost in SA. When compared to other nations, our health system performs poorly relative to the per capita spend on health. Strategic, systematic and quantifiable interventions are required to address the challenges. The need exists to enhance the performance of the health system and improve health outcomes.

The Programme of Action (2010/11) focuses on 4 key areas: increasing life expectancy; combating HIV and AIDS; decreasing the burden of disease from Tuberculosis and improving the effectiveness of the health system. The proposed outputs are discussed in section 3 (outlook for the coming financial year).

2. Review of the current financial year (2009/10)

2.1 Programme 1: Health Administration

Human Resources

The department has identified a range of cost pressures experienced in the area of compensation of employees (COE). These relate to HROPT; a significant shortfall in Occupation Specific Dispensation (OSD) for nurses and accruals that have arisen out of a shortfall in funding for the implementation of Resolution 1 of 2007.

Project 5000 Implementation

The analysis for the three year cycle of the project 5000 is as follows:

- In the first year of the project (2007/2008), the department filled 863 posts at a cost of R108 million.
- In the second year of the project (2008/2009), the department filled 1,484 posts at a cost of R232 million.
- In the third year of the project (2009/2010) the department planned to fill 511 critical posts at a total cost of R120 million.

In the coming financial year (2010/11), four stages of appointments are provided for:

- Those posts that were advertised in the previous financial year and first quarter of the current year

- The absorption of enrolled nurses and Nursing Assistants enrolled on 1 September 2009
- The posts to be advertised during August 2010 for commencement on 1 October 2009

The absorption of community service health professionals in January, February and March 2010

Implementation of Occupational Specific Dispensations for Health Professional Categories

In terms of Resolution 1 of 2007 of the PSCBC, the following categories were due for inclusion in the OSD as of July 2008:

- Medical, Dental and Specialists
- Pharmacists and Pharmacist Assistants
- Emergency Medical Services Personnel

(a) Phase I: Nurses' OSD

The department has, to date, translated 15,751 nurses to the OSD in respect of both specialty and general nursing streams in accordance to the PHSDSBC Resolution 3 of 2007.

The dispute pertaining to the ‘interpretation and application of the OSD Agreement (PHSDSBC Resolution 3 of 2007)’ was resolved during August 2009. In terms of that arbitration award, the interpretation of Resolution 3 of 2007 was broadened. This has an impact on the budget in two ways:

- More categories of nurses qualifying for the OSD. The outcome in summary is that certain categories in psychiatry; midwifery; infection control and quality assurance previously not recognized during implementation of the Phase 1, have now been approved for processing.
- An estimated additional 1,006 nurses will qualify at a projected cost of R229.5 million in the next financial year.

(b) Phase 2: Medical Cluster and Social Workers' OSD

Medical Cluster

- A total of 98 Dentists were translated to the OSD at a cost of R12.1million.
- A total of 933 Doctors were translated to the OSD at a cost of R127 million.
- A total of 1151EMS personnel were translated to the OSD at a cost of R1.2 million.
- A total of 221 Pharmacists were translated to the OSD at a cost of R21.1 million.
- A total of 113 Medical Specialists were translated to the OSD at a cost of R12.6 million.

Social Workers

A total of 112 social workers were translated to the OSD at a cost of R766,000.

Strengthening of Corporate Services and Financial Management through Corporate / Shared Services Centres

The department has continued to grapple with the implementation of basic fundamental principles of financial accounting. Financial management is in many instances performed by officials who lack the necessary qualifications, technical training and proficiency. Lack of capacity (skills and competence, numbers) and scarce resources qualified to perform financial management functions has contributed to the poor audit outcomes obtained by the department in the past years.

The department has developed a turnaround plan for the improvement of financial management activities and processes in the department. The need to develop the turnaround plan came as a direct result of the poor audit outcomes of the last five years.

The approach to the development of the turnaround strategy was twofold:

- The first part of the strategy deals with short term interventions and focuses on quick wins to improve audit outcomes, and the development of action plans to address the issues raised by the auditor-general
- The second part of the strategy deals with the long term view which looks at re-engineering processes and improving the control environment and internal controls, reviewing and developing an appropriate financial management structure; the development of reporting, monitoring and evaluation systems and building capacity at all levels where financial activities occur.

The following are the key principles that have underlined the development of the proposed organisational structures:

- Maximum decentralisation of the rendering of financial shared services.
- Continuation of the separation of the rendering of Clinical, Financial Shared and Corporate Services at all levels of the department.
- Sharing of scarce professional financial service skills and expertise.
- Creation of synergy through the shared rendering of financial services at Complex, District and Local Service Area level.
- The consolidation of the finance support services function into one entity whilst providing front line finance service units located at institutions.
- Reporting lines aligned to functional mandates making provision for sufficient professional guidance and support from key policy components at the Head Office.
- Focus on efficiency, eliminating duplication and minimising turnaround times.

2.2 Clinical Cluster

This cluster consists of:

- Programme 2: District Health Services;
- Programme 3: Emergency Medical Services;
- Programme 4: Provincial Hospital Services;
- Programme 5: Central Hospital Services: Provincial Tertiary Services;
- Programme 7: Health Care and Support Services

Implementation of Priority Health Programmes within the context of the Provincial High Impact Priorities and the Apex Projects

The department has continued to focus on the priority health programmes with specific reference to achieving the Millennium Development Goals with respect to:

Reduce child mortality by two thirds

The department has:

- ***Increased the*** percentage of infants acquiring dual therapy for PMTCT to 10 percent of infants;
- Increased the percentage of mothers and babies who receive post-natal care within 3 days of delivery to more than 5 percent;
- Increased the percentage of maternity care facilities which review maternal and perinatal deaths and address identified deficiencies to 45 per cent;

- Ensured that children under one year of age are vaccinated with pneumococcal and rotavirus vaccines;
- Increased the percentage of districts in which 90% of children are fully immunized at one year of age to 37 percent;
- Increased the percentage of Nurses Training institutions who teach IMCI in pre-service curriculum to 70 percent;
- Increased the proportion of schools which are visited by a School Health Nurse at least once a year
- Conducted health screening of learners in Grade 1 in Quintile 1 schools for eyes, ears and teeth; and
- Increased the percentage of children under the age of one who are fully immunized against measles, to 80 percent in 82 percent of the districts.

(a) *Reduce maternal mortality by three quarters*

The department has:

- Increased the percentage of pregnant women who book for antenatal care before 20 weeks gestation to 27 percent
- Increased the percentage of mothers and babies who receive post-natal care within 3 days of delivery to more than 5 percent; and
- Increased the percentage of maternity care facilities which review maternal and perinatal deaths and address identified deficiencies to 45 per cent.

(b) *Halt the spread of HIV & Aids*

Reducing HIV Incidence

The department has implemented a provider-initiated HIV Counselling in all health care facilities, with a special focus on STI, TB, antenatal, IMCI, family planning and general curative services and provided life skills education to the youth.

Expanded PMTCT Programme

The department has a well co-ordinated roll-out of ARVs, and more effective roll-out of preventative measures for HIV mother to child transmission and increased proportion of pregnant women tested for HIV during pregnancy.

Managing HIV Prevalence

The department has well implemented provider-initiated Voluntary Counselling and Testing (VCT) in 95 percent of health facilities, with a special focus on STI, TB, antenatal, Integrated Management of Childhood Illnesses (IMCI), family planning and general curative services.

The department has also increased the proportion of pregnant women tested through the implementation of a provider-initiated VCT for all pregnant women. The department also continues to provide life skills education to the youth.

Halt the spread of Tuberculosis

Improving TB notification, the success rate of TB Treatment and Improved Access to Anti-retroviral Treatment for HIV-TB Co-infected Patients and decreasing the prevalence of MDR-TB

The department has increased the number of Community Health Workers trained as Directly Observed Treatment (DOT) Supporters, trained health professionals in TB management, reduced the TB defaulter rate and improved integrated TB and HIV services.

Programme 6: Health Science and Training

The aim of this programme is to provide sustainable healthcare service delivery by creating opportunities for recruiting, developing and retaining competent, highly skilled health workers that are able to meet the needs of all people in the Eastern Cape Province.

The production and training of health professionals through the Lilitha College of Nursing, the EMS College, and Universities and Technikons in the province and beyond has been enhanced to ensure the retention and management of their performance.

Programme 8: Health Facilities Development and Maintenance

The department has, in support and preparation for the 2010 FIFA World Cup, engaged in the building of the Accident and Emergency unit at Livingstone Hospital in Port Elizabeth. This is in line with FIFA requirements and is also meant to improve healthcare delivery after the 2010 World Cup. The construction progress is currently on target and is envisaged to be completed on time.

The department is also engaged in the upgrading of Cecilia Makiwane Hospital where the Services Buildings are presently under construction and the contracts for the construction of StudentNurses' Training College and accommodation, together with the construction of Nurses' accommodation have been awarded.

Additional facilities (upgrading and revitalisation)

Three clinics and one community health centre have been completed. Eight hospitals and four clinics are currently under construction.

Facilities under construction

Three hospitals have been completed and seven are under construction. Twenty one clinics / Community Health Centres (CHC) have been completed and eight are currently under construction.

Six water and sanitation plant upgrades are presently at procurement phase.

Medical equipment has been procured for eleven new clinics.

Inspection and licensing

Inspection and licensing has been concluded at two facilities in the province.

3. Outlook for the Coming Financial Year (2010/11)

The core business of the department is to provide quality health care through a range of services, from primary, secondary and tertiary levels, in facilities such as clinics, community health centres and hospitals and through these services the department contributes towards wellness in the community and thus addressing the burden of disease within the province.

The 2010/11 budget has been developed and aligned to the core business of the department as outlined above, especially focusing on the implementation of Primary Health Care. In addition, the policy direction set by the National Department of Health, the Millennium Development Goals and Provincial

Growth and Development Plan and the Provincial EXCO Resolutions on Service Delivery Improvements are the guiding pillars.

Accordingly, the Programme of Action for 2010/11 focuses on 4 key areas:

- Increasing life expectancy
- Combating HIV and AIDS
- Decreasing the burden of disease from Tuberculosis
- Improving health systems effectiveness

Nineteen outputs arise from the above and include inter alia:

- Increased Life Expectancy
- Reducing Child Mortality
- Decreasing the Maternal Mortality Ratio
- Managing HIV Prevalence
- Reducing HIV Incidence
- Expanded PMTCT Programme
- Improving TB Notification
- Improving the Success Rate of TB Treatment
- Improved Access to Antiretroviral Treatment for HIV-TB Co-Infected Patients
- Decreasing Prevalence of MDR-TB
- Improved Physical Infra-Structure for Healthcare Delivery
- Improved Patient Care and Satisfaction
- Accreditation of Health Facilities for Quality
- Enhanced Operational Management of Health Facilities
- Improve Access to Human Resources for Health
- Improved Health Financing
- Strengthening Health Information Systems (HIS)
- Improving Health Services for the Youth
- Expanded Home Based Care and Community Health Workers

4. Receipts and financing

Table 3.1(a) below shows the summary of receipts and budgeted payments for the department for the 2010 MTEF. The sources of funding for the department are transfers from national government comprising of equitable share and conditional grant allocations as well as departmental receipts.

4.1 Departmental receipts

Table 3.1(a): Summary of departmental receipts

R' 000	2006/07			2007/08			2008/09			2009/10			2010/11			2011/12			2012/13			% change from 2009/10
	Audited			Main budget	Adjusted budget	Revised estimate	Medium-term estimates															
Equitable share	6 238 633	6 700 990	9 094 084	9 521 741	9 809 302	11 794 82	11 060 031	11 745 469	12 387 880	(107)												
Conditional grants	940 225	1 242 225	13 139 995	1 739 321	1 897 341	2 038 957	2 206 828	2 504 811	2 743 263	8.23												
Departmental receipts	78 260	69 793	90 102	67 284	67 284	122 241	74 013	77 714	81 600	(39.45)												
Total receipts	7 257 118	8 013 008	10 498 181	11 328 346	11 773 927	13 340 680	13 340 872	14 327 994	15 212 743	0.00												

Total receipts increased strongly from 2006/07 to 2009/10 due to the implementation of a number of national sector priorities such as the introduction of OSD, ART, strengthening the fight against MDR and XDR TB, and upgrades of hospitals and clinics through the Hospital Revitalisation Grant. Payments in the 2009/10 year also increased due to the payment of HROPT claims.

Although the department's 2010/11 budget does not show an increase from the revised estimate for 2009/10, the extent of additional funding for the health sector is clearly evident when comparing the 2009/10 main and adjusted budgets to the medium term, with an average increase of 15.5 percent over these two years. With an average increase of 21.6 percent, conditional grants show the biggest increase. This increase is mainly due to an additional R193,3 million provided for the Comprehensive HIV/Aids grant. An additional R215,3 million is made available in the departments equitable share for 2010/11 to compensate for ICS adjustments and OSD, while a further R793,4 million is provided for goods and services accruals and carry though costs from the 2009/10 financial year.

Table 3.2(b): Departmental receipts

R' 000	2006/07			2007/08			2008/09			2009/10			2010/11			2011/12			2012/13			% change from 2009/10

4.2 Donor Funding

Table 3.2 below summarises donor funding received by the department. These funds fall outside the voted fund allocation and are used to address service delivery needs and technical support to enhance service delivery. The European Union fund is mainly used for Primary Health Care programmes whereas the Global, CDC and Belgium funds all support HIV/AIDS and TB programmes

Table 3.2: Summary of departmental donor funding

R' 000	2006/07			2007/08			2008/09			2009/10			2010/11			2011/12			2012/13			% change from 2009/10
	Audited			Main budget	Adjusted budget	Revised estimate	Medium-term estimates

Total donor funding receipts	10 300	8 236	12 510		19 300	19 300	13 391															(100.00)

5. Payment summary

5.1 Programme summary

The department operates through eight programmes of which five are directly linked to its core function. District Health Services, Provincial Hospital Services and Health Facilities Development and Maintenance account for 45.2, 25.6 and 11.0 percent of the estimates for the 2010/11 financial year respectively. Most of the policy priorities aligned to the mandate of the department are implemented under these Programmes.

Table 3.3: Summary of departmental payments and estimates by programme

R' 000	2006/07			2007/08			2008/09			2009/10			2010/11			2011/12			2012/13			% change from 2009/10

Total payments and estimates	7 257 118	8 013 008	10 498 181	11 328 346	11 773 927	13 340 680	13 340 872	14 327 994	15 212 743	13 340 872	14 327 994	15 212 743	13 340 872	14 327 994	15 212 743	13 340 872	14 327 994	15 212 743	0.00			

Table 3.3 above depicts the summary of payments and estimates for the 2010 MTEF. Total payments by the department grew strongly from R7.2 billion in the 2006/07 financial year to a revised estimate of R13.3 billion in the 2009/10 financial year. The steep increase in expenditure, especially in 2009/10 is attributed to the implementation of OSD for nurses, medics, EMS personnel, the payment of HROPT and its carry through costs, the intensification of the fight against HIV/AIDS and MDR and XDR TB, accelerated delivery on infrastructure and up scaling of Emergency Medical Services in preparation for the 2010 FIFA World Cup.

Table 3.3.1: Summary of departmental payments and estimates by economic classification

Table 3.3.1 above shows the summary of payments and estimates according to economic classification for the 2010 MTEF period. By the very nature of its core functions, the department is extremely labour intensive with a resultant high demand for Goods and Services. Compensation of employees' expenditure increased strongly from 2006/07 - 2009/10 by an average of 25.3 percent in nominal terms as a result of the implementation of a number of policy priorities as mentioned above.

Total expenditure on Goods and services grew by an average of 14.2 percent from 2006/07 – 2009/10 as a result of the need to meet the increased demand for drugs and other medical supplies required to mitigate the incidence of diseases like HIV/AIDS, MDR/XDR TB and occasional outbreaks of other communicable diseases.

The average increase for the 2010/11 – 2012/13 is 6.4 percent, despite an expected further increase in the burden of disease and increased expenditure in providing ART treatment for patients with a CD4 count of 350. This cost pressure is evident from the projected over expenditure of conditional grants in the revised estimate for 2009/10.

Transfers and subsidies decrease by 0.71 percent in 2010/11, while expenditure on capital assets will experience a decrease of 0.35 percent, as a result of additional funds being made for personnel-related cost pressures.

Table 3.4: Summary of departmental transfers to other entities

R' 000	2006/07			2007/08			2008/09			2009/10			2010/11			2011/12			2012/13			% change from 2009/10

Total transfers to public	8 640	190 781	260 098	335 890	210 650	210 650	195 962	221 327	239 227	(6.97)												

Table 3.4 above shows the summary of departmental transfers to agencies and accounts for the 2010 MTEF. The scourge of HIV/AIDS and MDR/XDR TB has compelled the department to solicit the involvement of communities, through NGOs, in educational and outreach programmes. Hence, since 2007/08, there has been a steady increase in the expenditure relating to these transfers.

The reduction of 6.97 percent in 2010/11 is due to the correction of a misclassification of this economic classification and the planned “provincialisation” of three Provincially Aided Hospitals.

Table 3.5: Summary of departmental transfers to local government

R' 000	2006/07			2007/08			2008/09			2009/10			2010/11			2011/12			2012/13			% change from 2009/10

Total departmental infrastructu	695 439	807 864	962 928	1241 016	1285 383	1241 016	1481 303	1640 648	1726 425	19.36												

Table 3.6 above shows the summary of departmental payments on infrastructure for the 2010 MTEF. Infrastructure spending by the department increased significantly between the 2006/07 and 2009/10 financial years. The increases in infrastructure spending in the period under review is due to the urgent need to upgrade, rehabilitate and maintain existing facilities as well as the building of new clinics, community health centres, new district and provincial hospital projects, the replacement of obsolete

equipment and the purchasing of new and modern equipments, such as Linear Accelerators at the PE and EL Hospital Complexes. Nearly 50 percent of infrastructure expenditure is funded through the Hospital Revitalisation and Infrastructure grants. In line with departmental policy priorities, the strong increase in infrastructure spending is maintained over the medium term.

Project team costs										
Site acquisition costs										
Other project costs				59 776	59 776	59 776	50 000			(16.35)
Total PPP projects	1 333	11 727	17 708	97 011	97 011	97 011	103 331	56 650	59 483	6.51

The unitary charges allocated in ‘projects under implementation’ are represented by the Humansdorp Hospital Co-Location PPP (approx R6 million) and the upgrading and refurbishment of the Port Alfred and Settlers Hospitals in Port Alfred and Grahamstown and the establishment of co-located private hospital facilities (approx R44,4 million)

The unitary charges allocated in ‘proposed projects’ are represented by the Pharmaceutical Supply Chain Management Services and the Finance, Design, Construction and/or Rehabilitation and Operation and Maintenance of Pharmaceutical Depots and Management Support to the Department.

6. Programme summary

6.1 Programme 1: Health Administration

Objective

This programme comprises two sub-programmes namely, the *Office of the MEC* and *Management*. The objectives of these sub-programmes are detailed below:

Office of the MEC: The objective of this sub-programme is to provide political and strategic direction to the department by focusing on transformation and change management. This sub-programme is responsible for assisting the MEC to:

- Give political and strategic direction to the department through an efficiently and effectively managed office;
- Liaise between the offices of the Political Head and Head of Department in particular and branches in general on major policy and administration matters;
- Circulate cabinet resolutions to the HOD for implementation by the department ensuring that the MEC attends departmental strategic sessions and other functions of the department; and
- Respond to parliamentary questions and ensure that resolutions of the legislature are implemented.

This sub-programme is responsible for the management of human, financial, information and infrastructure resources. It is made up of the Office of the Superintendent General and the policy, strategic planning, co-ordination and regulatory functions of the head office located in the different clusters i.e. Clinical, Corporate and Financial Services and Corporate Strategy & Organisational Performance.

Table 3.8.1(a): Summary of departmental payments and estimates - Programme 1: Health Administration

R' 000	2006/07	2007/08	2008/09	2009/10			2010/11	2011/12	2012/13	% change from 2009/10
	Audited			Main budget	Adjusted budget	Revised estimate	Medium-term estimates

Table 3.8.1(a) shows the summary of payments and estimates for Programme 1 per sub-programme. The main sub-programme under this programme is *Management*, which accounts for more than 95 percent of the total spending by the Programme. Total expenditure by the Programme more than doubled from 2006/07 to the revised estimate in the 2009/10 financial year due to expansion in the organogram, introduction of allocations to projects and once off funding for accruals.

In the 2010/11 financial year, total expenditure by the programme will decrease significantly by 17.4 percent, as a result of the reprioritisation of funding to the clinical cluster programmes.

Table 3.8.1(b): Summary of departmental payments and estimates by economic classification - Programme 1: Health Administration

Table 3.8.1(b) above shows the summary of payments and estimates for Programme 1 according to economic classification. The major cost drivers of the programme are compensation of employees and goods and services, which together accounted for 98.4 percent of projected expenditure for the 2009/10 financial year.

In the 2010/11 financial year, spending on compensation of employees will increase slightly by 2.9 percent, while goods and services will decrease significantly by 45 percent. This reduction is the result of reprioritization of funding to the clinical cluster programmes.

Service Delivery Measures

Programme 1: Administration	Estimated Annual Targets			
	2009/10	2010/11	2011/12	2012/13
• Vacancy rate for professional nurses	38%	35%	33%	31%

• Vacancy rate for medical specialists	53%	50%	48%	46%
• Vacancy rate for pharmacists	59%	45%	43%	41%

6.2 Programme 2: District Health Services

Objective

To ensure delivery of Primary Health Care Services through the implementation of the District Health System. This Programme has nine sub-programmes with the following objectives:

- *District Management* manages the effectiveness and functionality of seven districts and municipalities within the social needs cluster, especially in ISRDP, URP nodes and the identified twelve poorest municipalities; co-ordination of health services, referrals, supervision, evaluation and reporting as per Provincial and National policies.
- The *Community Health Clinics* sup-programme manages the provision of preventive and curative care and priority health programme implementation through accessible clinics and mobile services in twenty four sub-districts.
- The *Community Health Centres* sub-programme renders twenty-four hour health services, maternal health at midwifery units and the provision of trauma services as well as the integration of community based mental health services within the down referral system.
- The *Community Based Services* sub-programme manages the implementation of the community based health services framework.
- The *Other Community Services* sub-programme manages the devolution of MHS to the municipalities and implements a ‘port health’ strategy to control the spread of communicable diseases through ports of entry in the Eastern Cape Province; provides oral health services at a community level (including schools and old age homes); strengthens the traditional health services through health education campaigns for roleplayers; prevention of substance, drug, and alcohol abuse to reduce unnatural deaths and geriatric services as a supportive and rehabilitation service.
- The *HIV/Aids* sub-programme renders primary health care services in respect of the prevention of HIV and Aids infections through campaigns, continuous care, management and treatment (CCMT) and strengthening the accreditation process of ART sites for accessibility.
- The *Nutrition* sub-programme renders nutrition services as a poverty alleviation program, providing nutrition supplements including inter alia Vitamin A, Iodine, Zinc aimed at specific target groups (children, pregnant mothers, & the aged) to address malnutrition; provision of formula feeds for health facilities; establishment of food gardens at clinics, CHCs & hospital gardens and assisting communities to start the community gardens in consultation with the Department of Agriculture to fight poverty.
- The *Coroner Services* sub-programme renders forensic pathology services in order to establish the circumstances and causes surrounding un-natural deaths.
- The *District Hospitals* sub-programme is to provide a comprehensive and quality district hospital service to the people of the Eastern Cape Province.

The Province has prioritised TB and HIV/AIDS management and infection control in 47 district hospitals and 18 Provincially Aided hospitals with implementation of the full district hospital services core package and victim empowerment.

The department will be implementing individualised management of the district hospitals (organisational design) to improve management efficiency and at the same time optimise the utilisation of scarce resources (pooling of the scarce skills like medical and pharmaceutical personnel).

Total payments and estimates	3 237 762	3 712 566	4 915 707		4 935 518	5 162 602	5 981 921			6 031 872	6 508 811	6 937 031	0.84							

As mentioned earlier, this is one of the most important programmes of the department. Table 3.8.2(a) depicts the summary of payments and estimates for Programme 2 per sub-programme. It shows that it has witnessed significant growth from R3.2 billion in the 2006/07 financial year to a revised estimate of R5.98 billion in the 2009/10 financial year. In the 2010/11 financial year, the budget increases to R6.03 billion, an increase of 0.8 percent.

The sub-programmes with the strongest positive growth rates are sub-programmes 5, 6 and 7. These programmes relate to key priorities like HIV/AIDS, nutrition programmes and community-based services and contribute significantly to reducing morbidity and mortality associated with tuberculosis and HIV and AIDS.

The increase in the 2009/10 financial year's revised estimate for the programme is in the main due to the once-off and carrying costs for HROPT and OSD.

Table 3.8.2(b): Summary of departmental payments and estimates by economic classification - Programme 2: District Health Services

Total economic classification																				

Table 3.8.2(b) above shows the summary of payments and estimates for Programme 2 according to economic classification. Due to the nature of core services rendered by this programme, its main cost drivers are compensation of employees and goods and services which together account for 90.9 percent of the total estimates for the Programme in the 2010/11 financial year.

Most economic classification items show a decrease between the 2009/10 revised estimates and 2010/11 estimate, with compensation of employees, transfers to universities and technikons, households and payments for machinery and equipment showing positive increases.

The decline in buildings and other fixed structures is because such expenditure will now take place in Programme 8.

Service Delivery Measures

Programme 2: District Health Services	Estimated Annual Targets			
	2009/10	2010/11	2011/12	2012/13
• Professional Nurse clinical workload (PHC)		30	35	40
• Doctor clinical workload (PHC)		30	35	40
• PHC Total Headcount	17 million	18 million	18.3 million	18.5 million
• Utilisation rate _ PHC	3	2.9	3	3.2
• Utilisation rate under 5 years - PHC	4.6	4.7	4.9	5.2
District Hospitals				
• Average length of stay in district hospitals	4.5	4.5	4.2	4.2
• Bed utilisation rate in district hospitals	75%	72%	72%	71%
• Total separations in district hospitals	275,135	303,846	332,553	361,260
• Patient day equivalents in district hospitals	3,655,380	5,362,007	7,068,634	7,068,634
• Total OPD headcounts in district hospitals	1,026,007	1,157,994	1,289,981	1,260,735

• Cost per Patient Day Equivalent (PDE)	R 1,128	R 1,150	R 1,200	R 1,250
HIV and AIDS, TB and STI control				
• Newborn Baby NVP uptake	70%	75%	80%	85%
• Newborn Baby AZT uptake	50%	55%	60%	65%
• Antenatal client initiated on AZT during antenatal care rate	26,000	28,000	28,500	29,000
• Antenatal client Nevirapine uptake	75%	80%	85%	90%
• Number of clients tested for HIV to those counseled	500,000	630,000	720,000	810,000
• TB sputa turn-around time under 48 hours rate	70%	72%	75%	80%
• TB two month smear conversion rate	65%	68%	70%	75%
• PTB treatment interruption (defaulter) rate				
• Male condom distribution rate	12	12	12	12
• Total number of registered ART clients (on treatment)	110,000	135,000	165,000	190,000

6.3 Programme 3: Emergency Medical Services

Objective

The purpose of this programme is to render an equitable efficient, effective, professional and sustainable emergency medical service. The programme comprises two sub-programmes with the following objectives:

- Rendering emergency medical services including ambulance services, special operations, communications and air ambulance services.
- Rendering planned patient transport including local outpatient transport (with the boundaries of a given town or local area) and inter-city/town outpatient transport (into referral centres).

Table 3.8.3(a): Summary of departmental payments and estimates - Programme 3: Emergency Medical Services

R' 000	2006/07	2007/08	2008/09	2009/10			2010/11	2011/12	2012/13	% change from 2009/10
	Audited			Main budget	Adjusted budget	Revised estimate	Medium-term estimates			
1. Emergency Medical Services	293 796	300 580	449 690	468 303	479 959	543 896	556 203	585 021	626 123	2.26
2. Planned Patient Transport	27 790	18 213	8 054	16 338	16 338	21634	18 587	19 933	20 760	(14.08)
Total payments and estimates	321 586	318 793	457 744	484 641	496 297	565 530	574 790	604 954	646 883	1.64

Table 3.8.3(a) above portrays the summary of payments and estimates for Programme 3 according to sub-programmes. The only two sub-programmes of this Programme are Emergency Medical Services and Planned Patient Transport with the former being the most important accounting for 96.6 percent of the projected expenditure for the 2010/11 financial year.

Total expenditure by the programme experienced an average annual nominal growth rate of 20.7 percent from 2006/07 to 2009/10 financial years. The increase in expenditure is primarily attributable to the increased costs of the Fleet contract, while the increase in the 2010/11 financial year is largely due to increased funding being made available for emergency medical equipment and in-sourcing of the ambulance fleet.

Table 3.8.3(b): Summary of departmental payments and estimates by economic classification - Programme 3: Emergency Medical Services

R' 000	2006/07	2007/08	2008/09	2009/10			2010/11	2011/12	2012/13	% change from 2009/10

Biological assets										
Land and sub-soil assets										
Software and other intangible assets										
<i>Of which: Capitalised compensation</i>										
<i>Of which: Capitalised goods and services</i>										
Payments for capital assets										
Total economic classification	321 586	318 793	457 744	484 641	496 297	565 530	574 790	604 954	646 883	1.64

Table 3.8.3(b) above shows the summary of payments and estimates for Programme 3 according to economic classification. Expenditure by the programme is concentrated mainly in two categories of expenditure, namely: current payments (wherein payments for fleet services are concentrated) and payments for capital assets. In order to reduce the chronic shortage of ambulances in the province, the department will be ‘topping up’ the ambulance fleet from the 2010/11 financial year, in addition to those provided through the Fleet Africa contract.

Although there appears to be a reduction in payments for buildings and other fixed structures, the budget for infrastructure projects has been shifted to Programme 8 (Health Facilities Development and Maintenance).

Service Delivery Measures

Programme 3: Emergency Medical Services	Estimated Annual Targets			
	2009/10	2010/11	2011/12	2012/13
• Percentage of P1 calls with a response time of <15 minutes in a urban area	65%	75%	85%	90%
• Percentage of P1 calls with a response time of <40 minutes in a rural area	45%	50%	60%	80%
• Percentage of all calls with response time within 60 minutes	60%	65%	70%	75%

6.4 Programme 4: Provincial Hospital Services

Objective

The objective of this programme is to provide cost effective, good quality effective and efficient secondary hospital services. The programme has three sub-programmes with the following objectives:

- *General (Regional) Hospitals:* Rendering of hospital services at general specialist level and providing a platform for research and the training of health workers

- *TB Hospitals:* To convert current tuberculosis hospitals into strategically placed centres of excellence in which a small percentage of patients may undergo hospitalisation under conditions which allow for isolation during the intensive phase of treatment, as well as the application of the standard multi-drug resistant (MDR) protocols.
- *Psychiatric Mental Hospitals:* Rendering a specialist psychiatric hospital service for people with mental illness and intellectual disability and providing a platform for training of health workers and research.

Table 3.8.4(a): Summary of departmental payments and estimates - Programme 4: Provincial Hospital Services

R' 000	2006/07	2007/08	2008/09	2009/10			2010/11	2011/12	2012/13	% change from 2009/10
	Audited			Main budget	Adjusted budget	Revised estimate	Medium-term estimates			
1. General (Regional) Hospitals	1920 461	2 253 136	2 093 112	2 141 794	2 189 514	2 560 242	2 661 428	2 778 986	2 876 746	3.95
2. TB Hospitals	89 975	146 482	234 894	282 325	294 693	331 772	342 237	367 772	369 209	3.15
3. Psychiatric Mental Hospitals	276 901	237 800	346 442	407 608	414 231	464 254	410 724	443 057	460 685	(1153)
Total payments and estimates	2 287 337	2 637 418	2 674 448	2 831 727	2 898 438	3 356 268	3 414 389	3 529 815	3 706 640	1.73

The summary of payments and estimates for Programme 4, per sub-programme, is illustrated in Table 3.8.4(a). Expenditure by the Programme increased moderately from R2.3 billion in 2006/07 to a revised estimate of R3.4 billion in the 2009/10 financial year. This increases slightly by 1.7% to R3.7 billion in 2012/13.

The increase in the 2009/10 financial year's revised spending is in the main due to the once off and carrying costs of HROPT and OSD as well as extra funding allocated to provide proper facilities within which TB patients can be treated without infecting other patients. The most important cost centre of the Programme is sub-programme 4.1: Regional Hospitals, accounting for R2.7 billion of the total estimates of R3.4 billion for the 2010/11 financial year.

The apparent reduction in allocation to Psychiatric Hospitals is due to the fact that the budget for buildings and other fixed structures now reside in Programme 8 (Health Facilities Development and Maintenance).

Table 3.8.4(b): Summary of departmental payments and estimates by economic classification - Programme 4: Provincial Hospital Services

R' 000	2006/07	2007/08	2008/09	2009/10			2010/11	2011/12	2012/13	% change from 2009/10

<i>Of which: Capitalised compensation</i>			27							
<i>Of which: Capitalised goods and services</i>										
Payments for capital assets										
Total economic classification	2 287 337	2 637 418	2 674 448	2 831 727	2 898 438	3 356 268	3 414 389	3 529 815	3 706 640	1.73

Table 3.8.4(b) depicts the summary of payments and estimates for Programme 4 according to economic classification. In line with the service delivery mandate of the Programme, the major cost drivers are current payments comprising of compensation of employees and goods and services. A major portion (97.7%) of the total expenditure of the programme in the 2010/11 financial year is accounted for by these payments.

In the 2009/10 financial year, spending on compensation of employees increased to R2.5 billion due in part to the payment of OSD to nurses, medics, specialists, dentists and pharmacists; as well as the payment of HROPT claims. Expenditure on goods and services increased to R745.9 million in that year, in line with the effects of the increased burden of disease and extra allocations to cover accruals.

In the 2010/11 financial year, payments for capital assets are projected to decrease by 42.6 percent in relation to the revised estimates. This is because estimated expenditure under buildings and other fixed structures has been moved to Programme 8 (Health Facilities Development and Maintenance). The expenditure under machinery and equipment is, amongst others, to ensure that TB hospitals meet all the required infection control protocols.

Service Delivery Measures

Programme 4: Provincial Hospital Services	Estimated Annual Targets			
	2009/10	2010/11	2011/12	2012/13
General (regional) hospitals				
• Average length of stay in regional hospital	5	5	5	5
• Bed utilisation rate in regional hospitals	75%	75%	75%	75%
• Total separations in regional hospitals	226,976	227,028	227,492	227,886
• Patient day equivalents in regional hospitals	1,616,441	1,626,046	1,626,544	1,626,875
• Total OPD headcounts in regional hospitals	861,003	861,450	861,863	862,112
• Caesarean Section rate in regional hospitals	32%	32%	32%	32%
• Cost per Patient Day Equivalent (PDE)				

6.5 Programme 5: Central Hospital Services – Provincial Tertiary Services

Objective

The purpose of this programme is to provide cost effective, good quality effective and efficient tertiary hospital Services.

Table 3.8.5(a): Summary of departmental payments and estimates - Programme 5: Central Hospital Services

R' 000	2006/07	2007/08	2008/09	2009/10			2010/11	2011/12	2012/13	% change from 2009/10

1 Provincial Tertiary Services	414 774			509 429	603 329	613 387	557 137	587 327	616 693	(9.17)
Total payments and estimates	414 774			509 429	603 329	613 387	557 137	587 327	616 693	(9.17)

Table 3.8.5(a) above depicts the summary of payments and estimates for Programme 5 per sub-programme. From a revised estimate of R613.4 million, expenditure is projected to decrease marginally to R557.1 million in 2010/11 financial year, representing a decrease of 9.2 percent. This increase is largely accounted for by the centralisation of the buildings and other fixed structures budget under Programme 8 (Health Facilities Development and Maintenance).

Table 3.8.5(b): Summary of departmental payments and estimates by economic classification - Programme 5: Central Hospital Services

Total economic classification								

Table 3.8.5(b) above shows the summary of expenditure and estimates for Programme 5 per economic classification. Like all other service delivery programmes, the major cost drivers for the programme are current payments comprising of compensation of employees and goods and services. However, unlike other programmes where compensation of employees takes up the largest proportion of expenditure; goods and services account for 74.7 percent of expenditure.

In the 2010/11 financial year, compensation of employees and goods and services increase by 18.6 and 10.6 percent respectively. There is a significant drop in expenditure for machinery and equipment in the 2010/11 financial year. This is because all the bunkers necessary to house the Linear Accelerator machines required to treat cancer patients are completed and only the last of the equipment making up the Linear Accelerators will be procured in 2010/11.

Services Delivery Measures

Programme 5: Central Hospital Services	Estimated Annual Targets			
	2009/10	2010/11	2011/12	2012/13
Tertiary Hospitals				
• Average length of stay in tertiary hospitals	4.9	5	5	5
• Bed utilisation rate in tertiary hospitals	75	75	75	75
• Total separations in tertiary hospitals	226,976	227,028	227,492	227,886
• Patient day equivalents in tertiary hospitals	1,616,441	1,626,046	1,626,544	1,626,875
• Total OPD headcounts in tertiary hospitals	861,003	861,450	861,863	862,112
• Caesarean Section rate in tertiary hospitals	32%	32%	32%	32%

6.6 Programme 6: Health Science and Training

Objective

The objective of this Programme is to provide training, development and academic support to all Health professionals and employees in the Province. The Programme has five sub-programmes with the following aims:

- *Nursing Training Colleges*: Training of nurses at undergraduate level and post-basic level.
- *EMS Training College*: Training of rescue and ambulance personnel
- *Bursaries*: Provision of bursaries for health science training programmes at undergraduate and postgraduate levels.

- *Other Training:* Provision of PHC related training for personnel provided by the Regions, as well as the provision of
- Skills development interventions for all occupational categories in the department.

Table 3.8.6(a): Summary of departmental payments and estimates - Programme 6: Health Science And Training

R' 000	2006/07	2007/08	2008/09	2009/10			2010/11	2011/12	2012/13	% change from 2009/10
	Audited			Main budget	Adjusted budget	Revised estimate	Medium-term estimates			
1 Nursing Training Colleges	183 626	208 199	246 673	263 305	274 533	281 984	289 177	301 136	312 493	2.55
2. EMS Training College	1075	181	3 748	4 588	2 632	168 881	4 863	5 082	5 336	(97.12)
3. Bursaries	42 455	41 039	86 388	72 518	72 518	72 518	70 449	73 619	77 300	(2.85)
4. Other Training	137 426	124 707	211 146	185 656	206 248	229 718	202 033	226 469	237 637	(12.05)
Total payments and estimates	364 582	375 126	547 955	526 067	555 931	753 101	566 522	606 306	632 766	(24.77)

Table 3.8.6(a) portrays the summary of payments and estimates for Programme 6 per sub-programme. Total payments by the programme doubled from R364.6 million in 2006/07 to a revised estimate of R753.1 million in 2009/10. This increase is largely accounted for by the increases in the Health Professions Training and Development Grant.

In the 2010/11 financial year, total payments by the programme are projected to decline significantly by 24.8 percent from the revised estimate, however, a marginal increase of 1.9 percent is evident from the adjusted budget for 2009/10. Over spending in the 2009/10 financial year was due to once-off personnel related payments. Other Training declines by 12 percent as Internship /Learnership projects cannot be sustained at the desired levels in the outer years of the MTEF period.

Table 3.8.6(b): Summary of departmental payments and estimates by economic classification - Programme 6: Health Science And Training

Table 3.8.6(b) above shows the summary of payments and estimates for Programme 6 according to economic classification. As this is a training programme, the major cost drivers for the programme are compensation of employees and goods and services (in the form of bursaries) which accounted for 82.3 percent of the revised estimates for the 2009/10 financial year.

In the 2010/11 financial year, expenditure on compensation of employees will drop significantly by 40.3 percent as a result misallocations, while goods and services will increase by 7.7 percent. Transfers and subsidies are projected to increase marginally from a revised R92.9 million in 2009/10 to R95.6 million in 2010/11.

6.7 Programme 7: Health Care and Support Services

Objective

This Programme deals with Orthotic and Prosthetic services and in addition houses Clinical Support Management. The latter is composed of Laboratory services, Radiography services and Rehabilitation services. All the clinical support services are budgeted for under programmes dealing with hospital services i.e. Programmes 2 (District Health Services) and 4 (Provincial Health Services).

- *Orthotic and Prosthetic Services:* Renders specialised clinical orthotic and prosthetic services
- *Medicine Trading Account (Pharmaceuticals Depot Management):* Renders specialist cross functional Pharmaceutical, Supply Chain, Financial, Risk and Human Resources Management to strengthen service delivery in the two pharmaceutical depots.

Table 3.8.7(a): Summary of departmental payments and estimates - Programme 7: Health Care And Support Services

Table 3.8.7(a) above shows the summary of payments and estimates for Programme 7 according to sub-programme. Expenditure increased significantly by 64.0 percent in nominal terms in the 2006/07 to 2009/10 financial years whilst growing by 15.9 percent in 2010/11 to 2012/13.

The increase to R31.2 million in 2010/11 is inclusive of the proposed pharmaceutical PPP project that had been expected to begin operations in the course of the 2009/10 financial year but was stalled due to technicalities.

Total economic classification										

Table 3.8.7(b) above summarises the payments and estimates for Programme 7 according to economic classification. Due to the intention to resurrect the pharmaceutical PPP, total payments for the Programme show a significant increase of 100.5 percent in relation to the revised estimate of R65.1 million.

6.8 Programme 8: Health Facilities Development & Maintenance

Objective

To improve access to Health care services by providing new health facilities, upgrading and maintaining existing facilities. The objectives of the three sub-programmes of the programme are as follows:

- *Community Health Facilities*: Focuses on the construction of new clinics and Community Health Centres (CHC) and the upgrading of existing clinics and CHCs.
- *Emergency Medical Rescue Services*: Focuses on improving Emergency Medical Rescue Services infrastructure.
- *District Hospital Services*: Focuses on the upgrading of District Hospitals
- *Provincial Hospital Services*: Focuses on the upgrading of Provincial Hospitals.

Table 3.8.8(a): Summary of departmental payments and estimates - Programme 8: Health Facilities Development And Maintenance

R' 000	2006/07	2007/08	2008/09	2009/10			2010/11	2011/12	2012/13	% change from 2009/10
	Audited			Main budget	Adjusted budget	Revised estimate	Medium-term estimates			
1. Community Health Facilities	126 428	146 985	184 624	120 805	235 769	178 503	180 326	229 923	186 024	10.2
2. Emergency Medical Rescue Services	109	208			12 500	12 500	30 400	455	455	143.20
3. District Hospital Services	377 664	319 364	466 316	464 504	534 540	497 027	490 870	703 940	865 524	(124)

6. Other Facilities	77	17 156	11994				60 775	58 255	63 255	
Total payments and estimates	692 427	569 421	934 265	1 241 016	1 288 132	1 288 132	1 473 303	1 640 648	1 726 425	14.38

Table 3.8.8(a) shows the summary of payments and estimates for Programme 8, per sub-programme. Total payments by the programme almost doubled from R692.4 million in 2006/07 to a revised estimate of R1.3 billion in 2009/10, largely due to increases in the Hospital Revitalisation and Infrastructure grants.

In the 2010/11 financial year, payments are projected to increase to R1.5 billion reflecting an increase of 14.4 percent from the revised estimate for 2009/10. The increases in payments are mainly due to the up-scaled building of new health facilities, maintenance and rehabilitation of existing facilities in an effort to modernise and extend the life span of facilities. Funding being shifted from other programmes is one of the contributors to the 14.4 percent growth.

Table 3.8.8(b): Summary of departmental payments and estimates by economic classification - Programme 8: Health Facilities Development And Maintenance

R' 000	2006/07	2007/08	2008/09	2009/10			2010/11	2011/12	2012/13	% change from 2009/10

The summary of payments and estimates for Programme 8 according to economic classification is as shown in Table 3.8.8(b) above. Given the nature of outputs by the programme, the major cost drivers for the programme are goods and services and payments for capital assets. These two cost items accounted for 99.1 percent of the revised expenditure for the 2009/10 financial year.

Expenditure on goods and services showed a fluctuating trend in the past but grew strongly in the 2009/10 financial year. This included the money spent on contracts relating to maintenance of infrastructure and machinery and equipment. The increase in expenditure on buildings and other fixed structures was due to the need to provide new health facilities, maintain and rehabilitate existing infrastructure, particularly in response to demands coming from the preparedness for the 2010 FIFA World Cup and measures to stem the spread of TB.

In the 2010/11 financial year, projected spending on buildings and other fixed structures increases by 16.1 percent. Some of this funding comes from other programmes as a decision was taken that all infrastructure expenditure should be centralised in Programme 8. This is in line with one of the key 10 point plans of revitalising and increasing the spending on physical infrastructure.
