Public Works as an agent for other provincial Departments

The Department of Public Works remains the implementing agent of the other provincial Departments with regard to construction and maintenance of provincial infrastructure. The infrastructure budgets of all client Departments are shown at the relevant Departmental votes and therefore their budgets and projects are not included in the further discussion of this Department's budget.

Aligning Departmental budgets to achieve government's prescribed outcomes

Public Works budget has been aligned to enhance linkage with 12 outcomes derived by National Government as well as provincial priorities. To this end, Departmental allocations have been aligned with outcomes 1, 4, 5, 6 and 11 respectively, furthermore aligned with provincial priorities 1, 5 and 9.

2. Review of the current financial year (2012/13)

2.1 Implemented Policy priorities

• *Budget constraints*

The funds available for planned maintenance of Provincial buildings is limited as the budget did increase with less than inflation. Newly identified properties such as schools and clinics are transferred by municipalities to the Department on an ongoing basis. Municipal services such as water & electricity, sanitation, refuse removal and rates and taxes must now be paid on these new properties which were historically not part of the portfolio.

• *Property services, rentals, water & electricity*

The function of the payment for property rentals for client Departments is centralized with the Department as from the beginning of the 2010/11 financial year. The budget addresses current contracts and does not make provision for new needs of client Departments. The escalation of the operating lease budget is lower than the norm 10 per cent growth in rental leases. The Department projects a shortage of R1.6 million for rentals paid on the current 142 lease contracts. The increase implemented by municipalities on municipal services, especially electricity, is also much higher than the growth of the Department's budget. The Department is in the process of verifying ownership of a list of 1 142 properties that was identified as possible properties of the Department. The Department project a shortfall of R20 million on utility payments and R36.165 million on rates and taxes based on the devolved list of properties. The general escalation for lease contracts are 10 per cent and approved electricity tariff increase was +/- 19.6 per cent. The Department therefore foresee a shortfall on utility, rates & taxes and lease payments in the current financial year.

- ***Inflation and other related costs***

The Department is contractually bound to pay escalation in rental contracts and increases claimed by municipalities. However with the 19.6 per cent increases in electricity and 10 per cent in rental amounts, the Department cannot afford the full basket of services that is currently required.

3. Outlook for the coming financial year (2013/14)

3.1 New policy priorities

The Department of Public Works will continue to focus on the following national, provincial and Departmental priorities:

- Promoting economic growth and development through national youth services and contractor development programmes as well as infrastructure programmes;
- Accelerating delivery of infrastructure through fast tracking projects in an attempt to save on the total cost of delivery;
- Coordinating and massification of EPWP in the province amongst all Departments and spheres;
- Support and active utilization of National Youth Services programme; and

3.2 Challenges

- A shortage for Rates & Taxes backlogs is registered with National Public Works
- Funding for increasing fees for services
- Deterioration in conditions of buildings which will eventually pass the point where it will not be viable or safe to repair and these buildings will have to be demolished.
- Funding of normal and planned maintenance activities and the large backlogs in maintenance of buildings;
- Recruitment and retention of certain technical and engineering skills in the Department and in the Free State remains a concern; and
- Extending employment opportunities to all sectors through implementation of EPWP projects and National Youth Service.
- This Department will continue to design and deliver infrastructure projects for all client Departments.

3.3 Personnel

Personnel development is still a priority. Accredited external training as well as in service training, new bursaries to deserving students and development through the National Youth Services programme will be used.

3.4 Property services, rentals, water and electricity

The Department estimates to pay R282.9 million on rates & taxes and R231.861 million on municipal services. The budget for these services is centralized with the Department of Public Works.

3.5 Information technology

The Department installed Columbus software to ensure that all computer equipment is replaced within the prescribed policy and manage all software licences to avoid unauthorised users.

3.6 Grant allocation

The EPWP Integrated Grant to Provinces for infrastructure of R7.102 million will be utilized for infrastructure projects in line with EPWP principles. The Infrastructure Enhancement Allocation (which is the Free State Own Infrastructure Grant and actually also voted funds) of R187.151 million will be utilized for infrastructure upgrading. The Nationally allocated Devolution of Properties Rate Funds will be replaced with a provincial Property Rates and Taxes Allocation and the R282.9 million will be utilized for the payment of rates and taxes. The Department did receive a Revenue Enhancement Allocation of R6.607 million for the upgrade of properties to increase the revenue on rented out properties.

5. Payment summary

5.1 Key assumptions

The following key assumptions underlay the current proposals for the budget of 2012/13:

- An anticipated inflation rate of 5.3 per cent;
- Salary adjustments of 6.3 per cent, inclusive of 1.5 per cent pay progression; and
- Emphasis is placed on the rehabilitation of infrastructure, which has deteriorated to the extent that it became unserviceable. The day to day maintenance is still done by Departmental staff.
