A self-reliant society.

#### Mission

To ensure the provision of a comprehensive network of social development services that enables and empowers the poor, the vulnerable and those with special needs.

#### Main Services

#### Line functions

Working in partnership with communities, stakeholders and civil society organisations to provide the following:

Child care and protection services to approximately 100 000 children in terms of the Children's Act and Child Justice Act (including children in foster care, adoptions, temporary safe care, child and youth care centres, early childhood development and after-school care services) as well as family and parenting support services to approximately 25 000 families;

Implementation of programmes for the prevention of and treatment for substance abuse to approximately 12 500 people (which includes awareness about foetal alcohol syndrome; early intervention programmes; services that are regulated by legislation as well as after care programmes);

Services to support approximately 20 000 victims of violence and trauma (including shelters services, psycho social support, and support to victims of human trafficking);

Social crime prevention services to approximately 17 000 people (including probation and diversion services);

Emergency social relief and poverty alleviation services, sustainable development and research programmes which facilitate empowerment of communities, based on empirical research and demographic information (including youth development programmes, expansion of youth cafes from three to eight over the MTEF and targeted community nutrition programmes).

## **Support functions**

These functions provide for the strategic direction and the overall management and administration of the Department. The Human Resource Management, Internal Audit and Enterprise Risk Management responsibilities have been corporatised and revised at the Department of the Premier.

It also provides for the decentralisation, management and administration of services at regional and local level within the Department.

## **Brief analysis of demand for and expected changes in services**

Child Care and Protection services are among the Department's key statutory/legislative mandates. According to the Community Survey 2016, (CS 2016) the Western Cape has approximately 570 370 children aged 0 to 4 years. Despite negligible projected growth in this population cohort over the next five years, issues of safety, cognitive development, and nutrition will increasingly become the focus of ECD interventions. Recent research indicates that quality ECD services impact positively on school outcomes and a transversal provincial strategic priority to establish a special ECD programme to improve English language acquisition and cognitive development at 100 sites where school readiness in literacy and numeracy is poor, is in the process of being implemented in collaboration with other provincial departments. The purpose of the intervention is to enable children to better cope at school. The focus of the ECD programme is therefore shifting from the intake of children, to improving the quality of ECD programmes in the Province.

CS 2016 reports a total of 1 929 700 children between the ages of 0 and 17 years in the Western Cape. Research indicates a high incidence of child maltreatment, and it is evident that child protection strategies should be intensified. To this end, the care and protection services to children represent the major focus of the Department's work and its single biggest goal over the next five years will be to bring these services up to the standards required by the Children's Act, and coordinate them with other provincial departments, municipalities, NPOs and private sector partners in order to contribute towards the realisation of PSGs 2 and 3.

According to Census 2011, 1 041 553 persons are reported to be living with various forms of disability in the Western Cape, excluding self-care. Of these, 190 929 persons have reported that they are unable to care for themselves. The Department will continue with its redress interventions through its leadership of PSG 3 project the purpose of which is mainstreaming opportunities, support and promoting the rights, well-being and socio-economic empowerment of Persons with Disabilities, their families and caregivers.

The ageing of the Western Cape population is reflected in the 48 per cent growth in the number of persons in the category 60 years and older. Recent population projections indicate that the population of persons older than 60 will grow by a further 35 per cent between 2011 and 2020. To this end care for older persons, especially the expansion of independent and assisted living, frail care and appropriate community based interventions remains a priority for the Department. This is effected through the funding of service centres, assisted living facilities and residential care facilities.

The Western Cape is home to 2.1 million youth between the ages of 15 and 34 years. Using the Census 2011 data, it has been calculated that 13 per cent of these youth (approximately 277 160) can be classified as 'not in employment, education or training' (NEETs). Key findings of the research regarding NEETs in the Province highlight the negative impact of violent crime, substance abuse and gangsterism on the socialisation of young people. This coupled with the weak South African economy and the lack of employment opportunities has led to high demand for services to youth but also little in the way of exit strategies for youth in skills programmes. Therefore, the key priorities of the Department over the MTEF are to ensure that all Departmental youth-focussed programmes are aligned with the long-term outcomes of the Provincial Youth Development Strategy (PYDS) and that there is a strategic focus on NEETs.

The incidence of social crime in the Western Cape remains of concern due to its harmful effects on the province's social and economic well-being. The most significant increase in reported crime in the Province occurred in the drug related crime category, with an increase of 156.3 per cent in the period between 2005 and 2015. Departmental research on reported cases of domestic violence indicates an 18 per cent increase between 2007 and 2010. In line with its mandate, the Department has continued to focus on interventions such as its victim support services; shelters for homeless adults especially women and children; special accommodation for victims of human trafficking; probation services and diversion programmes. CS 2016 reports that there are 1 933 876 households in the Western Cape with an average household size of 3.25 members. Many of these families and households are experiencing significant socio-economic challenges in providing for the needs of its members. Risk factors such as unemployment, crime and substance abuse, threaten the wellbeing of families in the Province. The Care and Services to Families programme consequently focuses on the development of resilience through the provision of family preservation and strengthening services.

## **Acts, Rules and Regulations**

There is a range of legislation that guides and impacts on work done by the department. The following list provides the most important of these acts, conventions and accords:

- Constitution of the Republic of South Africa, No. 108 of 1996
- Older Persons Act, 2006 (Act No. 13 of 2006)

## Aligning departmental budgets to achieve departmental outcomes

DSD has aligned its priorities with the national outcomes and the PSGs, with funding allocations to service delivery in the priority areas of Child Care and Protection, Older Persons, Disabilities, Substance Abuse services and Youth Development. Our focus is on meeting our increased statutory obligations arising from the promulgation and implementation of the Prevention of and Treatment for Substance Abuse Act, Children's Act, Child Justice Act, and Older Persons Act, amongst others.

## Key service delivery highlights towards achieving NDP outcomes

In order to realise the implementation of NDP outcomes the following can be reported on the service delivery front:

Reprioritisation of transfer funding has enabled the Department to increase the subsidy for the salaries of social workers, social work supervisors and social work managers in the NPO sector in order to promote improved parity and better retention of social workers.

Child Care and Protection services represented the major part of the work done within the Department, and the Department spent a significant portion of its budget on services to children and in fulfilling its statutory obligations in line with the Children's Act specifically placement and monitoring of children in foster care, temporary safe care, child and youth care centres and accommodation of youth awaiting trial or sentenced in terms of the Child Justice Act.

ECD provision focused on the need to increase the quality of education, through providing safe environments, nutrition as well as stimulation and exposure to language development ahead of primary school enrolment. The review of the Provincial Early Childhood Development Strategy saw the prioritisation of projects focussing on the quality of services provision, nutrition and specific programmes. The Department contributes to the Provincial After School Game Changer through its funding of After School Partial Care Facilities and seeks to improve the quality of after school programmes, creating a safe and enabling environment and unlocking resources through collaborative efforts.

Engagements with the WCED, Department of Health (DoH) and various NPOs led to the initiation of referral pathways for children and youth with disabilities that will improve the efficiency of services to these vulnerable children, thereby contributing towards school retention by assisting them to complete their education. This has been complemented by appropriate psychosocial support programmes including family strengthening, parenting education, cognitive behavioural programmes and treatment for substance abuse where necessary. The Department has continued maintaining and providing support to existing social welfare infrastructure for the provision of integrated programmes and services aimed at promoting the rights, well-being and socio-economic empowerment of people with disabilities and their families.

Care for older persons, especially the expansion of independent and assisted living and frail care to meet the demands of the ageing population remains a priority for the Department. Research for enhanced evaluation of service centres was concluded and presented valuable insight for the development of an integrated community based care model for older persons.

A joint Department of Social Development (DSD) and South African Social Security Agency (SASSA) Western Cape drive in improving relations with rural districts and municipalities relating to social relief of distress has been concluded with positive results. DSD has provided nutritious food to 5 000 needy households and 1 425 work opportunities have been created in 2016/17 through the EPWP programme, using the combination of the national incentive grant and DSD's own contribution. Interventions in the youth development programme included skill training services and the incentivising of various organisations for their contributions to the sector through the Ministerial Youth Awards programme. Six youth cafes (Nyanga, Oudtshoorn, Vrygrond, Rocklands, Vangate Mall and George) are operational that provides training in life skills, mentoring, coaching, leadership, entrepreneurship, job preparedness opportunities and support to young people not in education, employment or training (NEETS).

The Department has prioritised the upgrade of security at shelters for victims of crime and violence, and has expanded services in areas where gang violence occurs. Support services to victims of crime in the LGBTI community have expanded, educational workshops for men were conducted in areas with high prevalence of domestic violence, and therapeutic and psycho-social victim support services were expanded to victims of gang violence. A referral protocol has been developed to ensure that services to victims are coordinated. Shelter space for male victims of violence and crime was piloted to develop a baseline for the need for male shelters in Cape Town. The Department piloted the first shelter in South Africa, specifically for adult victims of human trafficking and their children.

In response to the province's escalating youth substance abuse challenge, drug treatment services have been implemented in all DSD secure child and youth care centres and school-based drug treatment programmes implemented in ten high risk areas. Participating in the Alcohol Harms Reduction (AHR) Game Changer, the Department is responsible for Lever 3: Enhancing the quality of governmental and non-governmental alcohol and social services. This lever will ensure that alcohol abuse is addressed in the life orientation sessions within the school curriculum and during after-school programmes.

The Department conducted Institutional Capacity Building training with internal staff with regard to NPO sustainability that included mentoring on Good Governance for NPOs, the NPO Act, NPO Fundraising Basics and Tax Exemption. In its efforts to deliver a stable network of contracted social welfare services and to improve its ability to accurately account to the public, the Department has assisted NPOs with registration.

## 2. Review of the current financial year (2016/17)

For the year under review the Department can report on the following performance:

The Department is in the process of implementing the DSD Strategy for Improvement of Child Care and Protection Services (2015) developed to mitigate the risks associated with the implementation of statutory requirements, norms and standards. This included the development of a Draft Provincial Foster Care Management Plan, draft Standard Operating Procedures (SOPs) for the implementation of statutory social work services, training and capacity programmes.

The First 1000 Days was launched by the MEC in collaboration with the Department of Health, with a focus on early childhood development. A further campaign was launched highlighting the importance of partial care facility registration and the benefits for children and parents/care givers. The establishment of a special ECD programme for English language and cognitive development at 100 sites where school readiness is poor was launched in April 2016. A mobile messaging, parenting and practitioner support programme was implemented at these sites.

The Department had contracted 24 Shelters for homeless adults to rehabilitate and integrate them back into their families and communities and 40 NPOs to provide services to families, very young mothers, boys and fathers, as well as at risk parents. One Provincial Regional Family Services Forum has been established and a consultative workshop on a Fatherhood Strategy was conducted with funded NPOs.

Parental support structures for parents/caregivers of children with disabilities have been established and strengthened; a Peer Support Programme for Persons with Disabilities was strengthened in four regions in collaboration with Disability Service Organisations (DSOs) and a residential care facility for children and adults with multiple disabilities has been transferred from the Department of Health as of 1 April 2016.

Registration of residential facilities and service centres is ongoing to ensure that quality services are rendered to Older Persons. The establishment of a database for unfunded Community based Care and Support Services (service centres) will enable a holistic view of services and assist in identifying gaps in the service delivery areas as well as addressing priority areas for future funding allocation.

A Review of the Diversion Accreditation Policy Framework commenced, whilst the system for tracking and monitoring all children in conflict with the law who are in detention was implemented enabling the Department to identify and address systemic and procedural blockages. Projects were piloted focusing on crime prevention and reintegration programmes which targeted children, youth and adults in high-risk communities. Accreditation of level two diversion programmes for girls at Vredelus Child and Youth Care Centre (CYCC) is in process in order to provide for this need/gap.

The Department has released 139 residents in CYCCs in terms of the early release policy which was developed during the previous year. A Crisis Communication and Reportable Incident Protocol has been rolled out to funded NPO CYCCs that has assisted to identify trends, training needs and to pro-actively manage protection of children through special investigations and corrective/development plans. The structured interventions within DSD Western Cape CYCCs for awaiting trial and sentenced youth are now used as a benchmark for a Draft National Policy on gang-management within secure care centres.

The Department has continued to focus on victim support; shelters for homeless adults especially women and children, and special accommodation for victims of human trafficking; probation services and diversion programmes. To ensure implementation of the Prevention and Combatting of Human Trafficking Act (2013) the Department established an internal Department of Social Development (DSD) Human Trafficking Task team to assist with the implementation of the Act. The Department will develop a plan for roll out of the

National Gender Based Violence Command Centre (GBVCC) - a 24 hour helpline operated by social workers to assist victims of GBV to access services.

Progress in the field of substance abuse included the expansion of an adolescent school based outpatient programme in Elsie's River; outpatient programmes in the rural areas of Beaufort West and Ceres to expand service delivery and improve accessibility; opening of an inpatient substance abuse treatment centre for 30 females in Kensington; provision of an inpatient substance abuse programme to 20 male adults and 16 males (age group: 16 – 17) at the Kraaifontein Roar and Treatment Centre; and an inpatient treatment centre for 10 boys (age group: 13 – 15) and 8 girls (age group: 13 – 17) at the Lindelani CYCC. A community-based treatment model was implemented in all CYCCs supported by an inpatient unit at Lindelani for children and De Novo youth centre. A database for unregistered and registered treatment facilities is available nationally. The Department has provided bursary opportunities to a number of students from funded NPOs for a post graduate degree in substance abuse care with the objective of strengthening the skills and expertise in the field. An internal referral pathway for case management at DSD Local offices was developed as well as a Standard Operating Procedure for Internal Case Management aligned to the Alcohol Harms Reduction Game Changer. There is access to the web-based Substance Abuse Resource Directory and the substance abuse social media campaign was launched during October 2016.

The Department is in the process of drafting a DSD specific Disaster Management Plan in collaboration with the Western Cape Disaster Centre in order to clarify roles and responsibilities regarding disasters.

As a result of the DSD performance in creating short-term EPWP work opportunities, the incentive grant was increased from the National Department of Public Works. To this end, 1 425 work opportunities have been created to date, using the combination of the national incentive grant and DSD's own contribution. The Provincial Youth Development Strategy has been implemented and six Youth Cafés are operational and designed to provide vibrant, positive spaces where young people are afforded opportunities to access skills development programmes, training workshops, seminars, and entrepreneurial opportunities. Further opportunities for youth will also be provided by the EPWP.

A total of 57 DSD regional staff members from five regions were capacitated on the utilisation of the DSD Spatial Viewer thus enabling staff to view spatial information and utilise maps for strategic planning purposes.

### **3. Outlook for the coming financial year (2017/18)**

In line with our determination to continuously improve the implementation of service delivery related statutory requirements, the Department will support and increase opportunities for children and youth. In this regard the Department will continue to roll out the Provincial Early Childhood Development (ECD) Strategy. The ECD Strategy has already seen the development of a ground-breaking pilot special ECD programme for English language and cognitive development, set to grow this financial year. The Department will also continue our involvement in the After School Game Changer which will provide the spaces children need to engage in positive developmental activities.

Through the Provincial Youth Development Strategy we will ensure that programmes for young people are sustainable, have a meaningful impact on their lives, more especially as it relates to reducing youth unemployment. In terms of the departmental mandate, the strategic focus is to ensure that the need of the most vulnerable and at risk young people in the Province are prioritised while also providing a raft of services, opportunities and support to a cross section of young people. To this end our initiatives are aimed at improving the quality of youth development outcomes, particularly by ensuring that all of our youth

targeted programmes are geared towards channelling young people into opportunities that improve their job prospects, skills levels and overall life chances.

We will seek to build on and improve the quality of all the programmes that target young people, particularly programmes such as the Youth Cafés. In this regard we will pay attention to ensuring that the Extended Public Works Programme (EPWP) is more efficiently utilised as sources of economic opportunity and skilling for young people. We will also focus on the inclusion of disabled youth, with specific emphasis on creating improved linkages to economic opportunities and better quality services for disabled youth.

The transversal approach is important as the economic climate continues to place pressures on the Department's resources and ability to deliver. The Department will continue to focus on strengthening the family through the 'Family-at-Risk' project. The project will focus on essential services and families at greatest risk, and move toward services aimed at more medium risk cases as these essential cases/services are stabilised. Execution of this project is partially dependent on external stakeholders in the Child Care and Protection/Family Law system, including Family Court/Children's Court, South African Police Service (SAPS), and Office of the Family Advocate etc. The Department will work on building cooperation.

The departmental focus regarding the Alcohol Game changer will be on expanding the community-based model for substance abuse treatment and rehabilitation. Our major focus, in partnership with the Department of Health, will be to establish a Brief Motivational Intervention (BMI) at emergency centres in the targeted areas, providing high risk users that have an alcohol related injury with the necessary support and assistance. The BMI service will have a concrete referral pathway process to ensure that once high risk users are discharged from health facilities, they are able to access appropriate social services. In this regard, we will coordinate our community programmes, and streamline the referral systems amongst all our partners within all spheres of government and NPO sectors. In addition, the Department will continue the work of growing the number of rehabilitation services aimed at addressing the psycho-social effects of alcohol and drugs.

## 4. Reprioritisation

This has been discussed under the heading: *Budget Decisions*.

## 5. Procurement

Summary of major procurement initiatives planned:

- Security services for regional offices and centres

- Cleaning services for regional offices and centres (including Kensington Treatment Centre and Sivuyile Centre)

- Home-Based Care for Sivuyile Centre

- Private Catering services for Kensington Treatment Centre

The results of the introduction of strategic sourcing, which have been introduced to find a collaborative and structured approach to critically analyse the Department's spending patterns for decision-making purposes, have seen its benefits during the 2016/17 when a strategic decision was made to utilise Customer Care staff to operate switchboards.

The effects of the new Preferential Procurement Regulations that becomes effective from 1 April 2017 will affect the Department's spending adversely in that the new regulations allows for the 80/20 preference system to be applied up to values of R50 million as opposed to the R1 million before the effective date. Latter emphasises the importance of the strategic sourcing interventions to gain efficiencies in procurement.

#### Summary of receipts:

Total receipts are expected to increase by R143.110 million or 7.29 per cent from R1.964 billion in the 2016/17 (revised estimate) to R2.107 billion in 2017/18, and is expected to continue increasing over the 2017 MTEF to R2.330 billion in 2019/20.

#### Treasury funding:

Equitable share financing is the main contributor to departmental receipts. Funding from this source of revenue will increase from R1.904 billion in 2016/17 (revised estimate) to R2.057 billion in 2017/18 and is expected to continue increasing over the 2017 MTEF to R2.281 billion in 2019/20.

**Departmental receipts:**

Departmental receipts are expected to decrease by 38.28 per cent from the revised estimate of R1.638 million in 2016/17 to R1.011 million in 2017/18 with the main contributing factor being claims paid by South Africa Social Security Agency (SASSA) in respect of telephone calls. The main source of departmental receipts over the 2017 MTEF relates to administrative fees, recorded under the sale of goods and services other than capital assets.

**Donor funding (excluded from vote appropriation)**

None.

**7. Payment summary****Key assumptions**

The adjustments within the Compensation of Employees (CoE), Goods and Services (G&S), transfer and capital was based on the following factors:

- Ring fenced CoE budget:
  - The wage bill and its carry through over the MTEF
- National Conditional Grants for:
  - ECD
  - EPWP
  - Social worker employment
- A priority allocation for residential care for older persons(frail care)and persons with disabilities
- Funds allocated to DTPW for urgent maintenance at CYCCs
- Budgetary Pressure resulting from provision of statutory services:
  - Norms and standards, especially the Children's Act
  - Above inflation statutory wage increases to staff of security services and compliance with additional norms and standards for security services advocated/enforced by the Department of Community Safety.
- Increase in demand for services:
  - Limited resources slowed down the pace of delivery in the form of rental stock and maintenance given the increase in demand for services.

## National and provincial priorities

The table below reflects the alignment of the national and provincial priorities per programme:
