1. Overview

1.1 Vision

Leading development with excellence and integrity.

1.2 Mission

Lead and coordinate the provincial administration in inclusive, transparent and accountable governance and evidence based decision making for integrated policy formulation, planning, monitoring, reporting, evaluation and review of government programmes towards the achievement of efficient and effective service delivery that supports integrated socio-economic transformation aligned to constitutional and legislated prescripts.

1.3 Core functions and responsibilities

- Leading the provincial development agenda for a shared vision institutionalising evidence-based decision making and integrated planning over medium term;
- Leading socio-economic transformation by accelerating implementation of government programmes to ensure access to quality services;
- Enhancing inclusive governance through meaningful implementation of citizen empowerment and stakeholder participatory programmes in the current term;
- Strengthening accountability in corporate governance through enforcing the implementation of public sector reforms throughout the province on an on-going basis; and
- Transforming the department over the medium term to a high performance organisation by creating an enabling environment, building internal capacity and empowering employees.

1.4 Main Services

- To coordinate the development of long term plans in support of the implementation of the Provincial Strategic Framework and ensure integration of provincial and sector plans;
- Monitor implementation of government programmes to ensure priorities of the Provincial government are achieved;

- Conducting performance mid-term and end-term evaluations in prioritised areas and provide recommendations based on the findings;
- Facilitate service delivery interventions to unblock service delivery blockages in prioritised areas as needed;
- Monitoring and providing technical advisory support on the implementation of transformation programmes in all departments;
- Cabinet Secretariat functions including communicating all resolutions of Executive Council (EXCO) Cabinet Committees, Cluster and Provincial Management;
- Facilitating the resolution of all public enquiries as registered and tracked on the Presidential Hotline;
- Providing policy and legal advice to the Executive Authorities and departments;
- Communicating government message and portray government effort continuously, promptly, in a coherent and coordinated manner; and
- Facilitating intergovernmental and stakeholder engagements geared towards achievement of provincial objectives in line with the governmental programme.

1.5 Demands for and expected changes in the services

The department is committed to continue to play a central role in managing the implementation of the government programs. As the centre of governance and leadership in the province, the department will continue to coordinate efforts of government with a firm focus on the triple challenges of inequality, poverty and unemployment. With this, the department implements Youth Projects in line with the National Youth Policy and the Provincial Youth Development Strategy.

The department is continuing with the rollout of the Broadband Initiative as approved in the Eastern Cape Position Paper on Telecommunication for the province. The department is well on course with the intervention of the Small Revitalisation Project and is expected to be completed in the 2020/21 financial year.

1.6 The Acts, rules and regulations

The constitutional mandate of the Premier is derived from section 125 of the Constitution of the Republic of South Africa (Act No. 108 of 1996). This section provides the Premier and the executive council the authority over a province. In addition to the Constitution and the Public Service Act (No. 103 of 1994), other important legislative guidelines include the following: Labour Relations Act (No. 66 of 1995); Basic Conditions of Employment Act, (No. 75 of 1997) Skills Development Act, (No 97 of 1998); State Information Technology Agency Act, (No. 88 of 1998); Promotion of Administrative Justice Act, (No 3 of 2000); Promotion of Access to Information Act, (No 2 of 2000); Preferential Procurement Policy Framework Act, (No. 5 of 2000), Electronic Communications and Transactions Act, (No. 25 of 2002).

1.7 Budget decisions

The department continues to implement cost containment measures especially in non-core items taking cognisance of the decline in the budget baseline, baseline reduction of the provincial allocation and that of the vote.

1.8 Aligning departmental budgets to achieve government's prescribed outcomes

The departmental budget continues to be supported by clear Strategic Plan (SP), Annual Performance Plan (APP) that has been aligned to the Medium Term Strategic Framework (MTSF) and the Provincial

Development Plan (PDP). Through pursuing National Outcome 12 “an efficient, effective and development oriented public service and empowered, fair and inclusive citizenship” the department’s budget has been allocated to support its achievement. Key to this includes institutionalising long-term planning; forging a disciplined, people-centred and professional public service through public sector transformation programmes; empowering citizens to play a greater role in development through stakeholder and community engagement programmes; and intensifying the fight against corruption.

2. Review of the current financial year (2018/19)

2.1 Key achievements

The Programme of Action (PoA) for the 2019/20 financial year was developed in line with the directive from the Department of Planning, Monitoring and Evaluation (DPME). The PoA is an extension of the current Provincial Medium Term Strategic Framework (MTSF) and seeks to accelerate delivery in areas of underperformance for the term. In addition, during the period under review, the department facilitated performance reporting projects in line with the demands from DPME which included the following: End of the government term (fifth term) report to be handed over to the next administration; 25 Year Review (additional twelve questions) which provided an analysis of progress made since the inception of democracy as well as inputs to the State of the Nation Address on policy priorities and the progress made to date.

The department provided hands-on technical support to provincial departments in order to improve compliance and implementation of Human Resource Management (HRM) and Organization Development (OD) as well as OD and Change Management plans. In addition the department validated service delivery models and organograms for Office of the Premier (OTP), Department of Health (DoH), Department of environment and economic affairs (DEDEAT), Department of Human Settlement (DHS), Provincial Treasury (PT) and Department of Sports and Recreational, Arts and Culture (DSRAC).

To facilitate the implementation of the Provincial Skills Development Strategy, the department coordinated the Provincial Skills Development Fora (PSDF) and other platforms such as Skills Education Training Authorities (SETA) forum as planned.

The department continued with the coordination and facilitation of the youth projects in the following areas: infrastructure maintenance, agriculture and maritime. In respect to youth maintenance infrastructure projects, the training continued in collaboration with the Department of Defence (DoD) and Department of Higher Education and Training (DHET), of which 400 young people were enrolled in the programme. However, 395 successfully completed the programme and have since been contracted by the Department of Education (DoE) and placed in various schools across the province. The 2nd intake will commence in April 2019. In respect to youth in agriculture, the Phase 3 was launched and this comprised of 33 projects adding to the 19 projects completed as part of Phase 1 and 2. The projects in the first 2 phases were provided with various resources depending on their needs and these included farming implements, farming inputs and vouchers for redemption whenever urgent needs arose. All the successful 97 candidates in the Maritime programme were placed in various international cruise liners. The 180 candidates in the second phase has since completed their training and the placement started in November 2018 and will be concluded in February 2019.

With regards to Information and Communication Technology (ICT), the department developed three systems during the period and these were e-Records Management system for the department, ICT Governance Performance Reporting Portal as well as Provincial e-Recruitment system. The design and

development of Phase 1 of the Provincial Business Intelligence tool have been established that is the Province-Wide Monitoring and Evaluation Reporting Portal. The continuous monitoring of the Implementation of the Corporate Governance of ICT Policy Framework (CGICTPF) was done with departments in order to ensure the functioning of their ICT Steering Committee structures.

Though there has been delays in the implementation of the broadband, there is now an accelerated effort to improve on the implementation by OTP working with partners. The department planned to connect 1 400 sites in 2018/19 and to date, 49 sites have been connected at 10Mb, mainly in the Nelson Mandela Metro. However, these sites have not yet been handed over to the Broadband Unified Communications (BBUC). The handover process entails testing these links and recording the tests results.

The facilitation, monitoring and reporting on the implementation of Integrated Service Delivery Model (Operation Masiphathisane) was conducted during the period under review. Upon assessment, it was established that war rooms in Blue Crane Route Local Municipality, Sundays River Valley; Joe Gqabi District were not functional. The report was forwarded to the different municipalities for action to improve functionality.

The department continued with the implementation of Small Town Revitalization projects in the identified municipalities, namely: Nyandeni, Port St Johns, Ingquza Hill, Ndlambe LM, Sundays River Valley LM (Kirkwood), Dr Beyers Naude LM (Willowmore), Raymond Mhlaba LM (Alice), Elundini LM (Mount Fletcher). The implementation of the Small Town Revitalization Programme has resulted in over 300 jobs created across all the municipalities.

2.2 Key challenges

Despite these achievements, the department faces a number of challenges that limits its effectiveness in discharging its obligations. The general lack of critical skills for policy implementation in the province being one of the major challenge. This is reflected in the recurring underachievement of the current MTSF targets as outlined in the PoA.

3. Outlook for the coming financial year (2019/20)

In moving forward it is important to note that the 2019/20 financial year marks the first year of the new MTSF and it is therefore vital that the Provincial Administration spare no effort to ensure that the objectives of this term are achieved.

Public Sector Transformation where the focus will be on the implementation of a revised sector strategy which is imperative to build a capable, development – orientated and accountable government. This also includes efforts to ensure that all departments have service delivery models that are aligned to their mandates.

Municipal functionality and viability will receive attention with increased efforts to monitor the Back-to-Basics programmes. A total of 16 local municipalities, mainly composed of those that have recently been amalgamated were identified and prioritised. The Provincial Treasury, the Department of Cooperative Governance and Traditional Affairs, and the South African Local Government Association have developed financial systems in these municipalities. There is now the need to tackle municipal debt and assist these municipalities with revenue collection strategies as indicated in the P-MTSF.

Strengthening of the Planning, Monitoring and Evaluation through the implementation of the revised Provincial Spatial Development Framework, development of Multi-year human settlement development

plan and the implementation of the Provincial Infrastructure Plan will continue in 2019/20. The department also identified a need to improve on integrated planning and facilitation of strategic economic development programmes and projects as indicated in the PDP. In addition, the department has entered into agreements with Eastern Cape based Universities to conduct applied research to improve integrated planning.

The development of a business intelligence capacity and capability at OTP to track and monitor development patterns and trends in the province will therefore be vital to ensure that this is realised. The department will be fast tracking the implementation of an integrated planning framework and guidelines to support and promote community-based planning through the Integrated Service Delivery Model (ISDM).

The department will continue with the programme of creating an enabling environment to facilitate connectivity through the Broadband project in order to drive cost efficiency, improved service delivery and serve as a catalyst for economic and social development.

In partnership with various stakeholders, the OTP will intensify the implementation of Provincial Youth Strategy through various programmes which include youth in agriculture, maritime, skills development and infrastructure.

In addition, the Small Town Revitalization programme is continuing and this is aimed at accelerating the provision of basic services in the targeted local municipalities.

4. Reprioritisation

The budget for the department has been reprioritised from non-core items to accommodate identified projects in the 2019/20 financial year such as Youth Projects, service delivery verifications, Research, planning coordination monitoring and evaluation, end of term report, Human Resources interventions and profiling of Government through use of communication platforms. The department has further reduced funds on non-essential items in order to prioritise front line services.

5. Procurement

The department has allocated funds for the procurement of Broadband and transversal mainframe access. The department will further acquire other necessary Goods and Services that will ensure that the department achieves its objectives in line with the Local Economic Development (LED) provincial framework.

6. Receipts and financing

6.1 Summary of receipts

Table 2 above reflects the summary of receipts from 2015/16 to 2021/22. The main source of funding for the department is the equitable share whilst own revenue take a minimal share. Departmental receipts significantly increased from R644.886 million in 2015/16 to a revised estimate of R962.827 million in 2018/19 due to allocations made for intervention projects which include Broadband and Small Town Revitalization. In 2019/20, the budget shows a minimal increase of 1.1 per cent to R973.083 million mainly due to national and provincial cuts implemented. In addition, the reduction in the allocation for the Small Town Revitalisation project also contributed to the minimal increase as these projects are in progress and will be completed in 2020/21.

6.2 Departmental receipts collection

Table 3 above reflects the summary of departmental receipts collection from 2015/16 to 2021/22. In 2015/16 the receipts increased from R638 thousand to a revised estimate of R753 thousand in 2018/19, due to once-off debt recoveries. In 2019/20, the collection is estimated to decrease by 51.8 per cent due to once-off debt recoveries. The revenue is projected to increase moderately in the two outer years.

6.3 Official development assistance (donor funding)

None.

7. Payment summary

7.1 Key assumptions

The following assumptions were taken into consideration when formulating the departmental budget:

- Additional funding exclusively allocated for the new special projects;
- The implementation of budget ceilings mostly on non-core service delivery activities;
- Estimated inflationary related increases (both on personnel and non-personnel); and
- Strict adherence to the implementation of cost control measures (circular 1 of 2013/14) as issued by the National Treasury (NT)

Table 4 and 5 above provide a summary of payments and estimates by programme and economic classification from 2015/16 to 2021/22. In 2015/16, the expenditure significantly increased from R644.886 million to a revised estimate of R962.827 million in 2018/19. This was mainly due to allocations made for intervention projects which included Broadband, Small Town Revitalization and Youth projects. In 2019/20, the budget shows a minimal increase of 1.1 per cent to R 973.083 million mainly due national and provincial baseline cuts implemented. In addition, the decline in the budget provided for the Small Town Revitalisation project also contributed as these projects will be completed in 2020/21.

Compensation of Employees increased moderately over the years from R223.056 million in 2015/16 to a revised estimate of R276.990 million in 2018/19. In 2019/20, the budget increases by 7.6 per cent to R298.054 million mainly to cater for salary adjustments, filling of vacant posts as part of the implementation of the recently approved organisational structure. The budget increases moderately in the two outer years.

Goods and Services significantly increased from R149.026 million in 2015/16 to a revised estimate of R410.969 million in 2018/19 amongst other things due to additional allocation made for rollout of the Broadband project. In 2019/20 the budget increases by 7.1 per cent to R440.119 million mainly due to reclassification of funds from Transfers and Subsidies to Goods and Services in line with the Circular 21

of Standard Chart of Accounts (SCOA) such as Youth projects, Premier's discretionary funds as well as bursaries. National Treasury Clarification Circular 21 of 2018 introduces the principle of determining the immediate use of the funds, "what is being bought" with the funds. It also introduces the test that must be applied to determine whether a transaction meets the requirements to be classified as Transfers and Subsidies or Goods and Services.

Transfers and Subsidies increased from R263.810 million in 2015/16 to a revised estimate of R264.586 million in 2018/19. In 2019/20, the budget decreased by 17.8 per cent to R217.484 million mainly due to the reduction in the allocation for the Small Town Revitalisation Project as well as the impact of the implementation of Circular 21 as indicated above under Goods and Services.

Payments for Capital Assets increased from R8.992 million in 2015/16 to a revised estimate of R10.282 million in 2018/19. In 2019/20, the budget increases by 69.5 per cent to R17.426 million due to reclassification of Broadband funds from Computer Services for the lease of software, hardware and consulting services to be utilized in the project.

Table 6 above provide a summary of payments and estimates by benefitting municipalities from 2015/16 to 2021/22. In 2015/16, the expenditure significantly increased from R644.886 million to a revised estimate of R962.827 million in 2018/19. In 2019/20, the budget reflect a minimal increase of 1.1 per cent to R973.083 million mainly due to the implementation of the national and provincial cuts as well as the reduction in the allocation for the Small Town Revitalization Project.

7.5 Infrastructure payment

1. Total provincial infrastructure is the sum of "Capital" plus "Recurrent maintenance". This includes non infrastructure items.

Table 7 above shows a summary of the provincial infrastructure payments and estimate by category from 2015/16 to 2021/22. Infrastructure expenditure significantly increased from R1.500 million in 2015/16 to a revised estimate of R212.829 million in 2018/19 due to provision made for the Small Town Revitalization project. The budget further shows a decrease of 18.4 per cent in 2019/20 to R173.726 million mainly due to decline in the allocation for Small Town Revitalization project.

7.5.2 Maintenance

None.

7.5.3 Non-infrastructure items

In 2019/20 the budget for non-infrastructure items reflect a minimal increase due to reprioritization undertaken to fund shortfall on amongst other things Provincial ICT for SITA mandatory service, provincial litigations services as well as forensic investigations.

7.6 Departmental Public –Private Partnership (PPP) projects

Table 10 shows the summary of transfers to local government by category. Transfers increased from R96.898 million in 2017/18 to a revised estimate of R209.934 million in 2018/19 due to provision, which was made in order to deal with infrastructural backlogs on identified small towns in the province such as Port St Johns, Kirkwood, Willowmore, Alice and Mount Fletcher. In 2019/20, a decline of 18.7 per cent was mainly due to the reduction in the funds provided for the Small Town Revitalisation Project as these projects will be completed in 2020/21.

8. Programme description

8.1 Programme 1: Administration

Provide strategic leadership, management and support services to the Premier, Director-General and the department; effective and efficient secretarial services to the Executive Council and provincial management structures; reliable legal services and a comprehensive communication service on behalf of government; as well as manage strategic priority interventions. The programme consists of the following 5 sub-Programmes:

- **Programme Management:** Corporate Services: The purpose of this sub-programme is to provide strategic leadership to the Programme;
- **Premier Support:** The purpose of this sub-programme is to ensure effective governance and service delivery to citizens of the Eastern Cape through provision of executive leadership and oversight;
- **Director General Support:** The purpose of this sub-programme is to render strategic leadership; coordination and intervention support services to the department and the Provincial Administration; and render secretariat support to Cabinet; Internal Audit; and Enterprise-wide Risk Management.
- **Financial Management:** The purpose of this sub-programme is to provide financial and supply chain management support services;
- **Corporate Management:** The purpose of this sub-programme is to provide strategic human resources management and office support services to Strategic Management Services; Departmental Legal Services; Departmental Communications; and Departmental ICT.

Tables 11 and 12 above provide the summary of payments and estimates for Administration per sub-programme and economic classification. Expenditure increases significantly from R145.733 million in 2015/16 to a revised estimate of R353.585 million in 2018/19 mainly due to additional allocation made over the 2017 MTEF for the rollout of the Broadband project. In 2019/20, the overall budget for Administration increases by 12.1 per cent to R396.504 million and this is mainly due to low revised estimate emanating from the under expenditure on the Broadband project. The budget over the 2019 MTEF continues to grow moderately.

Compensation of employees increased from R94.797 million in 2015/16 to a revised estimate of R111.889 million in 2018/19. In 2019/20 the budget increase by 12.4 per cent mainly due to the provision made for the anticipated implementation of the new organogram and accommodation of Improvement in Conditions of Service (ICS) adjustment. The budget continues to grow moderately over the in the 2 outer years.

Goods and services increased significantly from R39.145 million to a revised estimate of R227.562 million in 2018/19 financial year mainly due to additional funding received for the rollout project. In 2019/20, the budget increases to R250.357 million or 10.0 per cent mainly due to low revised estimate emanating from low spending on Broadband project.

Transfers and subsidies increased from R3.184 million in 2015/16 to a revised estimate of R4.747 million in 2018/19. In 2019/20, the budget decreases by 36.7 per cent to R3.006 million mainly due to reclassification of the Premier's discretionary funds to Goods and Services in response to Circular 21.

Payments for capital assets increased from R8.605 million in 2015/16 to a revised estimate of R9.387 million in the 2018/19. In 2019/20, the budget increases by 85.6 per cent to R17.426 million due to reclassification of Broadband funds from Computer Services for the lease of software, hardware and consulting services to be utilized in the project.

Service Delivery Measures

Table 13 above provides selected service delivery measures for Administration. Over the 2019 MTEF, the department will continue with its efforts to strengthen accountability of the Provincial Administration through the signing and regular review of delivery agreements. The positive trends that the department achieved in the areas of human resource compliance, women representation at Senior Management Services (SMS) level will be maintained.

8.2 Programme 2: Planning, Policy Co-ordination, Monitoring and Evaluation

Set the provincial administration's programme of action, and lead evidence-based decision-making for integrated developmental policy formulation, planning, monitoring, reporting, evaluation and review of government programmes, including through intergovernmental, stakeholder and international relations management. The programme consists of the following 5 sub-programmes:

- **Programme Management:** Research, Policy Coordination, Monitoring & Evaluation: The purpose of this sub-programme is to provide strategic leadership to the Programme;
- **Research Coordination & Policy Development Support:** The purpose of this sub-programme is to lead the coordination of policy, planning and research in the province;
- **Performance Monitoring and Evaluation:** The purpose of this sub-programme is to lead and coordinate effective oversight on governance and service delivery in the province.
- **Intergovernmental, Stakeholder and International Relations:** The purpose of this sub programme is to facilitate intergovernmental relations, international relations and stakeholder engagement; and
- **Transformation Programmes:** The purpose of this sub-programme is to ensure the mainstreaming and social inclusion of children, youth, women, older persons and persons with disabilities;

Tables 14 and 15 above provide the summary of payments and estimates for the Planning, Policy Co-ordination, Monitoring and Evaluation programme per sub-programme and economic classification. Overall, the expenditure increased from R293.835 million in 2015/16 to a revised estimate of R408.035 million in 2018/19. In 2019/20, expenditure decreases by 7 per cent to R379.439 million, mainly due to reduced funds for Small Town Revitalisation as these projects will be completed in 2020/21.

Compensation of Employees increases from R58.093 million in 2015/16 to a revised estimate of R84.527 million in 2018/19 mainly resulting from two new sub-programmes being allocated to the programme in the new structure which led to an increase in personnel. In 2019/20 the budget increases by 6 per cent to R89.606 million due to provision made for ICS adjustment and continues to increase moderately over the 2019 MTEF.

Goods and Services significant increased from R17.444 million in 2015/16 to a revised estimate of R65.987 million in 2018/19 financial year. In 2019/20, the budget increases by 14.2 per cent to R75.355 million mainly resulting from the reclassification of funds from Transfers and Subsidies to Goods and Services for the Youth projects (infrastructure maintenance, maritime and agriculture).

Transfers and Subsidies increased from R218.298 million in 2015/16 to a revised estimate of R257.521 million in 2018/19. In 2019/20, the budget decreases by 16.7 per cent to R214.478 million mainly due to the reduction in allocation for the Small Town Revitalisation Project as well as reclassification of Youth projects funds as indicated above.

Table 16 above provides selected service delivery measures for Planning, Policy Co-ordination, Monitoring and Evaluation. The department will develop a Programme of Action and subsequently facilitate the alignment of departmental plans to the provincial priorities. As means to ensure stakeholder and citizens participate in government programme the Executive Committee (EXCO) outreach programme will continue to be implemented while the integrated Service Delivery Model (ISDM) will also be rolled out in district and metros in pursuit of this objective. The department will also be monitoring the mainstreaming of issues relating to vulnerable groups in the province.

8.3 Programme 3: Institutional Development & Organisational Support

Managing the administration of the public service system and promote accountable governance by providing institutional development and organisational support services to ensure that the Provincial Government has sufficient skills capacity to effectively and efficiently deliver on its mandate. The programme consists of the following 6 sub-programmes:

- **Programme Management: Institutional Development Support & Integrity Management:** The purpose of this sub-programme is to provide strategic leadership to the Programme;
- **Human Resource Development Support Services:** The purpose of this sub-programme is to coordinate the development and implementation of strategic human resource development interventions;
- **Provincial Communications Services:** The purpose of this sub-programme is to provide communication services to the province;
- **Information Technology Management:** The purpose of this sub-programme is to provide and coordinate the provision of an integrated information and communications technology service;
- **Provincial State Law Advisory Services:** The purpose of this sub-programme is to provide legal services to the province;
- **Provincial Integrity Management:** The purpose of this sub-programme is to coordinate the implementation of the Provincial anti-corruption programme of action and security management policies.

Table 17 and 18 above provides the summary of payments and estimates for the Institutional Development and Organisational Support programme per sub-programme and economic classification.

The overall expenditure decreased from R205.318 million in 2015/16 to a revised estimate of R201.207 million in 2018/19 mainly due to once off funding that was allocated that was provided for the enhancement of transversal services. In 2019/20, the budget is envisaged to decrease by 2 per cent to R197.140 million mainly due to the implementation of the national and provincial baseline cuts.

Compensation of Employees increased from R70.166 million in 2015/16 to a revised estimate of R80.574 million in 2018/19. In 2019/20 the budget increase by 2.7 per cent to R82.733 million and grows moderately in the 2 outer years.

Goods and Services increased from R92.437 million in 2015/16 to a revised estimate of R117.420 million in 2018/19 financial year. In 2019/20, the budget decreased by 2.6 per cent to R114.407 million and grows moderately in the 2 outer years.

Transfers and Subsidies decreased from R42.328 million in 2015/16 to a revised estimate of R2.318 million in 2018/19. In 2019/20, the budget has been moved to Goods and Services due to the impact of the implementation of Circular 21 and this affected bursaries for benefitting (NSFAS).

Infrastructure transfers - capital														
1	Many of the Alice streets need upgrading of the carriageways, sidewalks and storm water drainage systems. This is a costly programme which will run for at least five years.	Alice Streets	Stage 7 - Works	Raymond Mhlaba	11/01/2016	30/03/2019	Equitable share	Planning, Policy Coordination, Monitoring and Evaluation - IGR	Packaged Programme	68 100	26 163	6 666	3 837	-
2	Some streets lack adequate lighting which results in criminal action after dark. This is to be addressed with this project.	Alice Electricity	Stage 7 - Works	Raymond Mhlaba	11/01/2016	30/03/2019	Equitable share	Planning, Policy Coordination, Monitoring and Evaluation - IGR	Packaged Programme	7 000	5 190	1 512	-	-
3	The main sewage pump station serving Alice is spilling regularly resulting in pollution. The augmentation of this and the outfall and rising mains are to be undertaken. We will also plan for the upgrading of the existing WWTW (On Font Hare Property). This project seeks to replace water mains that are bursting frequently and to augment the sizes within road reserves where construction is occurring.	Alice Sanitation	Stage 7 - Works	Raymond Mhlaba	11/01/2016	30/03/2020	Equitable share	Planning, Policy Coordination, Monitoring and Evaluation - IGR	Packaged Programme	16 667	21 572	3 100	4 712	-
4	Aqua Park Full road and storm water construction. This suburb does not have many formal streets and storm drainage. This project will bring streets up to all weather standards with adequate storm water drainage.	Alice Water	Stage 5 - Works	Raymond Mhlaba	11/01/2016	30/03/2020	Equitable share	Planning, Policy Coordination, Monitoring and Evaluation - IGR	Packaged Programme	20 000	11 970	3 720	435	-
5	Bergsig Full road and storm water construction. Streets in this suburb have been neglected and inadequate storm water drainage results in flooding and damage to properties which has lead to litigation. This project will address these issues. Department: Provincial Legislature

Table 1: Summary of departmental allocation

R'000	
To be appropriated by Vote in 2019/20	R 541 734
Direct Charge	R 61 632
Responsible Executive Authority	Speaker of the Provincial Legislature
Administrating Department	Eastern Cape Provincial Legislature
Accounting Officer	Secretary to the Legislature

1. Overview

1.1 Vision

A people's assembly for good governance to achieve service excellence.

1.2 Mission

- To conduct oversight that will ensure accountability of the provincial government to the people of the Province;
- To pass laws that will ensure that citizen's rights are upheld;
- To conduct public outreach and education programmes that will ensure meaningful participation of the public in government programs; and
- To foster relations with local and international oversight bodies that will ensure sharing of knowledge and best practises.

1.3 Core functions and responsibilities

Facilitates law making; public participation in the legislative processes; and exercise oversight over the Executive and other organs of the state. Eastern Cape Provincial Legislature (ECPL) is also responsible for furthering cooperative governance between provincial and local legislative institutions.

The oversight function and the opening of the doors of the Legislature to the public continue to be important areas of the Legislature's activities. Bills brought before the Legislature by departments are scrutinized before they are tabled in the House for debate.

1.4 Main Services

- Enhance the public's knowledge of legislation;
- Ensure effective law-making;
- Pursue vigorous oversight and accountability by the Executive Authority in the province;
- Ensure meaningful public participation;

- Strengthen the capacity of members to effectively fulfil their responsibilities;
- Ensure that there is a strong administration that supports the delivery of services; and
- Ensure compliance with legislation, policies and procedures.

1.5 Demands for and expected changes in the services

The Financial Management of Parliament and Provincial Legislatures Act of 2009 (FMPLA) requires the institution to report on accrual basis of accounting. The full implementation of accrual accounting commenced from 1 April 2017.

1.6 The Acts, rules and regulations

The ECPL's legislative mandate originates from section 114 of the Constitution of the Republic of South Africa, 1996. This charges it with the responsibility to pass, amend and reject any bill before it. It may even initiate or prepare legislative bills. Some of the key legislative mandates are embedded in the following legislations: Remuneration of Public Office Bearers Act, 1997; Public Finance Management Act, 1999; The Promotion of Access to Information Act, 2000; Preferential Procurement Framework Act, 2000; Financial Management of Parliament and Provincial Legislatures Act, 2009; Standing Rules of the Eastern Cape Provincial Legislature, and adopted Legislature policies and procedures.

1.7 Budget decisions

Budget decisions taken on allocations were based on the institution's Annual Performance Plan that was drawn from the adopted Strategic Plan. The allocations are aimed at ensuring that the core business of the institution is appropriately funded and that there is continuity on vigorous oversight over the Executive as well as the promotion of public education and participation.

1.8 Aligning departmental budgets to achieve government's prescribed outcomes

ECPL will continue to ensure vigorous oversight and monitoring over the executive in ensuring the achievement of the set government's outcomes and achievement of electoral mandate. The Legislature will continue to ensure meaningful public participation by conducting sectoral parliaments.

2. Review of the current financial year (2018/19)

2.1 Key achievements

The 5th Term of the ECPL has entered its fifth financial year in 2018/19. As the term is nearing the end, the Legislature has focused on accelerating the implementation of the key projects as identified at the beginning of the term.

Oversight over the executive and the organs of the state

Portfolio Committees considered the 2017/18 annual reports and the 2018/19 half year financial oversight reports which culminated in the tabling and adoption of house resolutions.

These reports by Portfolio Committees were preceded by the consideration of the annual financial statements and the Auditor-General's report by the Standing Committee on Public Accounts. This is in line with the strategic objective of the Legislature to fully implement the Sector Oversight Model.

The Legislature undertook and intensified the Schools Visits Programme in July 2018 and in January 2019.

Law Making

The Eastern Cape Provincial Legislature continued to process national and provincial bills. During the third quarter of the 2018/19 financial year, 12 bills were considered by the Legislature of which: -

8 were National Council of Provinces (NCOP) bills:

- Plant Health (Phytosanitary) Bill [B7-2017] referral memorandum;
- National Gambling Amendment Bill – [B27-2018] referral memorandum;
- Final Mandate on the National Health Laboratory Services Amendment Bill;
- Final Mandate on the Traditional & Khoisan Amendment Bill;
- Final Mandate on the Administrative Adjudication of Road Traffic Offences Amendment Bill;
- Division of Revenue Amendment Bill [B34-2018];
- National Health Amendment Bill B29-2018 referral memo; and
- Powers, Privileges and Immunities of Parliaments and Provincial Legislatures Amendment Bill B18-2018 referral memo.

4 were provincial bills:

- 2018/19 Appropriation Bill;
- 2018/19 Adjustments Appropriation Bill;
- EC Consumer Protection Bill; and
- EC Liquor Authority Bill.

Public Education and participation

ECPL considered petitions and the Standing Committee on Public Participation. Petitions and Education conducted site visits from 9 to 12 October 2018 to follow up on the responses to petitions.

Oversight Committees conducted pre-visits in preparation for the Taking Legislature to the People programme. The Programme took place at Mqhele Village in the Amathole District Municipality from 16 to 19 October 2018 during which the reports of the Committee on the pre-visits were tabled.

The Legislature partnered with the Independent Electoral Commission (IEC) to conduct voter education in preparation of the upcoming 2019 national and provincial elections, and also to raise awareness about the voters' role and encourage the public to exercise the right to vote.

Sectoral Parliaments

In celebrating the worker's month, the ECPL hosted a Worker's Parliament on the 18th May 2018 at Raymond Mhlaba Chamber with the representatives from the federations of COSATU, FEDUSA and SAFTU who gave inputs on issues affecting the labour market.

The Legislature hosted the third Raymond Mhlaba Memorial Lecture to reflect on the contribution of past leaders on the 15th June 2018.

International agenda

ECPL hosted a Common Wealth Parliamentary dialogue on women representation in leadership on the 19 to 20 June 2018 under the theme “Women at the Centre of radical Economic Transformation” at Alfred Nzo District Municipality. Similarly, the dialogue celebrated the 100 centenary births of Dr Nelson Rolihlahla Mandela and Mrs Albertina Sisulu.

Established economic links between Germany and South Africa had paved for the second courtesy visit by the German delegation to the ECPL. The Eastern Cape government had twinning agreements with the Federal Republic of Germany.

3. Outlook for the coming financial year (2019/20)

In the 2019/20 financial year, ECPL will continue to focus on key projects and programmes that contribute to the execution of the institution’s constitutional mandate. This will be done through maximizing public participation, public education and optimizing the citizen’s right to petition departments and also customisation Sectoral Public Participation Framework.

In the coming year the Legislature will focus on the following priorities and significant events:

Planning for the sixth term

The Legislature will prepare for the exit of the current Members of the Provincial Legislature (MPLs) and the entrance of new ones. The planning is scheduled to take place after the elections which will be preceded by the induction of new members.

Oversight over the executive and the organs of the state

The ECPL will continue to strengthen its oversight role over provincial departments and public entities with a focus on ensuring alignment with government policy priorities such as the Provincial Development Plan (PDP) in particular.

An increase in the physical monitoring of work and projects of departments is proving to yield some results as part of delivery verification. Follow up visits especially to schools will continue in the upcoming year.

Public education and participation

Budget has been set aside for petitions and public participation. It is critical that the Legislature plays a meaningful role in the awareness to the citizenry on public education and participation. Public education is a catalyst to public participation and therefore Members will continuously educate the communities to ensure effective participation in various programmes of government.

The 2019/20 financial year is the last financial year before the next provincial and national elections and the programs will be geared towards preparing for the elections. Specific budget has been allocated for Political Parties in the Legislature to conduct voter education in preparation of the upcoming government elections.

Information and Communication Technology upgrade

The ECPL Information Communication Technology (ICT) strategy will focus on continuation with upgrade of the ICT infrastructure in order to ensure efficiency in the operations. This includes the installation of an Enterprise Resource Plan (ERP) system which will be implemented in phases over the 2019/20 MTEF period.

4. Reprioritisation

The institution engaged in a reprioritisation process when developing the 2019/20 budget by shifting funds from non-core activities to core service delivery areas and that resulted in changes in other sub-programmes' indicative figures.

5. Procurement

ECPL manages its current contracts for travelling, catering, internal audit and the procurement of tools of trade for members and staff. The major procurement in 2019/20 will be the continuance of ERP system.

6. Receipts and financing

ECPL's main source of revenue is the equitable share allocated by the Provincial Treasury. The budget allocation for the institution increases from R472.137 million in 2015/16 to a revised estimate of R567.084 million in 2018/19. In 2019/20 the budget is decreasing by 4.5 per cent when compared to the revised estimates. ECPL budget is showing a steady growth in the outer years.

ECPL collects most of the revenue from interest, sales of capital assets, tender documents, catering and commissions. Own revenue increased from R148 thousand in 2015/16 to a revised estimate of R853 thousand in 2018/19 as a result of interest earned on retained earnings. In 2019/20, own revenue collection is projected to decrease by 47.0 per cent as a result of once of disposal of capital assets.

6.2 Official development assistance (donor funding)

None.

7. Payment summary

7.1 Key assumptions

The following assumptions were taken into consideration when the budget was formulated:

- Costs associated with the fulfilment of public participation in the legislative process through public hearings, petitions and the holding of institutionalised days;
- Costs associated with the oversight role of the Legislature through various portfolio committees of the Legislature by the Executive;
- Costs associated with administration and management of the Legislature and financial support for the Legislature's political structures;
- Financial support to political parties with representation in the Legislature by paying constituency allowances and caucus funding (approved by the Rules Committee);
- Remuneration and benefits of Members of Provincial Legislature (MPL's);
- Costs associated with improvement of security;
- Costs for the upkeep and maintenance of Legislature buildings; and
- Maintenance, insurance and repairs to Legislature's fleet.

Expenditure increased from R472.137 million in 2015/16 to a revised estimate of R567.084 million in 2018/19. The increase was due to the hosting of the Common Wealth Parliamentary Association as well as the “taking parliament to the people” programmes across the province.

In the 2019/20 financial year, the budget decreases by 4.5 per cent when compared to the revised estimate in 2018/19.

Compensation of employees (CoE) increased from R263.552 million in 2015/16 to a revised estimate of R319.192 million in the 2018/19 due to implementation of the organogram review, job evaluations, the filling of vacant position and annual salary increment. In 2019/20 financial year, CoE is projected to increase by 0.7 per cent.

Goods and services increased from R100.990 million in 2015/16 to a revised estimate of R101.829 million in 2018/19. The increase has mainly been influenced by restoration of baseline. In the 2019/20 financial year, goods and services decrease by 0.6 per cent.

Transfers and subsidies budget includes caucus and constituency allowances as well as funds for political parties represented at Legislature. Expenditure increased from R101.076 million in 2015/16 to a revised estimate of R126.724 million in the 2018/19. In 2019/20, transfers and subsidies decrease by 14.6 per cent due to once off allocation for voter education that could not carry over.

Payments for capital assets increased from R6.044 million in 2015/16 to a revised estimate of R19.339 million in 2018/19 due to provision for procurement of capital assets for chamber upgrades. In the 2019/20 financial year, budget for the capital assets decreases by 44.2 per cent.

8.3 Programme 3: Parliamentary Services

Objectives: To strengthen strategic management for the division's effectiveness, improve management, access and sharing of information, improve parliamentary support for an effective oversight function of the Legislature; and improve parliamentary support for effective public education. The programme has seven sub-programmes, namely:

- **Research Services** support committees in exercising the oversight function, conducts impact assessments on socio-economic laws passed, secures information in the Legislature, and provides registry services and research services;
- **House Proceedings** provide procedural and administrative services, assists the Legislature to conduct oversight effectively; ensures effective facilitation of sittings; and accommodates language representativity, protocol and international relations;
- **Committee Services** facilitate law-making and provide oversight and professional, procedural and administrative support to parliamentary committees;
- **Legal Services** provide effective, efficient and professional legal services in law-making, oversight and administration;
- **National Council of Provinces (NCOP)** facilitates the NCOP liaison services;
- **Public Participation and Awareness** profiles the institution, coordinates public participation and promotes public involvement as well as communication; and
- **Hansard and Language Services** provide verbatim reports and language services.

1. Overview

1.1 Vision

A quality health service to the people of the Eastern Cape Province; promoting a better life for all.

1.2 Mission

To provide and ensure accessible comprehensive integrated services in the Eastern Cape, emphasizing the primary health care approach, optimally utilising all resources to enable all its present and future generations to enjoy health and quality of life.

1.3 Core functions and responsibilities

The strategic objectives are in line with the implementation of the National Development Plan (NDP), the Medium Term Strategic Framework (2014-2019), the Minister's Negotiated Service Delivery Agreement (NSDA) and National Health Council Priorities.

The core functions and responsibilities of the department are aligned to the national and provincial priorities including overhauling the provincial healthcare system by implementing and sustaining an evidence and result-based provincial health system. These are also aligned to the National Health System (NHS), 10-point plan, national and provincial legislative requirements and disease profiles; building the required capacity to oversee and manage health services in the province through:

- Improving the quality and continuum of primary healthcare (including community-based and hospital services) by implementing a resourced package of services and improving clinical governance systems and processes; and
- Reducing morbidity and mortality due to communicable diseases and non-communicable illnesses and conditions by implementing high impact strategies to address prevention, detection, management and support at all levels of care.

1.4 Main Services

The main services provided by the Department of Health are as follows:

- **Primary Health Care** for the prevention of illnesses and provision of basic curative health services, including HIV, AIDS, STI and TB (HAST), Maternal Child and Women's Health and Nutrition, and communicable disease control. These services are provided through the District Health Services programme, which also includes coroner and other community health services;
- **Hospital Services** – district, regional and provincial hospitals cater for patients who require admission for treatment at general practitioner and / or specialist level. There are also specialized hospitals that cater for patients suffering from TB, mental illnesses, and patients who require long-term nursing care. Tertiary hospitals provide facilities and expertise needed for sophisticated medical procedures;
- **Emergency Medical Services (EMS)** provides emergency care and transport for victims of trauma, road traffic accidents, and emergency medical and obstetric conditions. Planned patient transport is provided for inter-hospital transfer, while indigent patients are transported between clinics and hospitals;
- **Forensic pathology services** renders forensic pathology and medico-legal services;
- **Health Sciences and Training** develops a capable health workforce for the EC health system;
- **Health Facilities Management** upgrading and revitalization as well as maintenance of existing facilities including provision of appropriate health care equipment. The budget for minor maintenance has been decentralised to the district hospitals; and
- **Other services** Health Care Support services ensures efficient health services as well as overall management and administration of public healthcare within the province. Also included are transversal health services (orthopaedic and prosthetic, rehabilitation, laboratory, social work and radiological services).

1.5 Demands for and expected changes in the services

The demand for Public Health Care in the province has continued to increase due to the increasing burden of disease. TB is the leading cause of mortality accounting for 7.9 per cent while the HIV prevalence rate is at 6.8 per cent. Non-communicable diseases account for 21.8 per cent of all mortality. Out of the 6.7 million Eastern Cape (EC) population, 89 percent are uninsured and depend on the public health services. This demand is set to increase with increasing unemployment and both national and global economic challenges.

Alfred Nzo District as the Provincial NHI pilot will continue to receive priority for the re-engineering of Primary Health Care programme, in particular the number of Ward-Based Outreach Teams (WBOT) with Community Health Workers providing outreach preventive healthcare. This programme will be further strengthened by the integration with other departments through Operation Masiphathisane whose goal is to improve integrated service delivery and pooling of resources at the community level.

1.6 The Acts, rules and regulations

The legislative mandate of the department is derived from the Constitution and several pieces of legislation passed by Parliament. In carrying out its functions, the department is governed mainly by the following Acts and regulations: Allied Health Professions Act (of 1982), Births and Death Registration Act (of 1992), Chiropractors, Homeopaths and Allied Health Service Professions Act (of 1982), Choice of Termination of Pregnancy Act (of 1996, as amended), Dental Technicians Act (of 1979), Foodstuffs, Cosmetics and Disinfectants Act (of 1972), Health Act (of 1977), Health Professions Act (of 1974), Human Tissue Act (of

1983), International Health Regulations Act (of 1974), Medical Schemes Act (of 1997) Medicines and Related Substances Act (of 1965, as amended), Mental Health Care Act (of 2002), National Health Act (of 2003), National Health Laboratories Services Act (of 2000), Nursing Act (of 2005), Pharmacy Act (of 1974, as amended), Prevention and Treatment of Drug Dependency Act (of 1992), and South African Medical Research Council Act (of 1991) and the National Roads Traffic Act, (of 1996).

1.7 Budget decisions

Budget decisions in the department are largely impacted by the increasing burden of diseases; the increasing demand for services and the growing uninsured population that are dependent on public health services.

Added to this, the department has implemented stringent austerity measures and strict control over financial resources in order to realize some efficiency gains. In an effort to reduce the high medico legal claims, the department has prioritised the personnel budget to ensure the filling of critical vacant posts in line with the Human Resource Capacitation Grant business plan. In addition, the department has set aside budget for the procurement of medical equipment to ensure adequate provision of medical equipment in highly litigated hospital.

1.8 Aligning departmental budgets to achieve government's prescribed outcomes

The departmental budget is aligned directly to the achievement of the output targets related to Outcome 2 of the National Development Plan (NDP): “a long and healthy life for all South Africans” and indirectly to Outcomes 1, 8 and 12. The four specific Output targets linked to Outcome 2 are: increasing life expectancy; decreasing maternal and child mortality; combating HIV/AIDS and decreasing the burden of disease from tuberculosis; and strengthening health system effectiveness.

The budget is also aligned with the Provincial Development Plan (PDP) of the Province, which is rooted in the NDP and has five goals that are inter-related. Good health is important for effective learning and productive economic activity. Achieving the first three goals will inevitably create more vibrant communities. The fifth goal, capable and accountable institutions, is an enabler to the first four goals.

- The department has the following eight strategic goals:
- Prevent and reduce the disease burden and promote health;
- Health facility planning;
- Improved financial management in the health sector;
- Efficient health management information system for improved decision making;
- Improved quality of care;
- Implement re-engineering of primary health care (PHC);
- Universal health coverage; and
- Improve human resources for health.

The department will reform the public health system by focusing on the following:

- Improved management especially at institutional level; and
- Improved patient administration through the implementation of the Health Patient Registration Systems (HPRS) which will identify patients accessing services, assist with planning for provision of services based on catchment area population needs, and track patients across facilities and different levels of care.

Implementing the national eHealth strategy which will involve the development of better patient information systems supporting more de-centralized and home-based care models, including the following key eHealth components:

- Improved management of community-based outreach data including profiling and registration of community members at the household level using m-Health;
- Focus on maternal and infant health care in order to reduce maternal and infant mortality; and
- More and better trained health professionals.

2. Review of the current financial year (2018/19)

2.1 Key achievements

Primary Health Care (PHC)

- PHC facilities were visited by 16 418 041 patients through the re-engineering of PHC against an annual target of 17 991 126. The department contracted 538 outreach nurses (comprised of 201 and 385 professional and enrolled nurses respectively) to increase the number of Ward Based Teams (WBOTs) in the Province;
- Through the Integrated School Health Program (ISHP) the department screened 15 549 grade 1 learners and 10 164 grade 8 learners against an annual target of 39 441 and 25 615 respectively;
- Clients 30 years and older screened for cervical cancer were 92 782 (63 per cent) against a target of 96 375 (65 per cent);
- HIV & AIDS is the second leading cause of death to Tuberculosis accounting for approximately 6 per cent of the total death in the EC province. Through the 90-90-90 strategy, the department tested 1 726 702 clients against an annual target of 1 588 892. In addition, 61 974 050 male condoms were distributed against an annual target of 103 074 048;
- There were on average 437 576 clients that remained on Anti-Retroviral Treatment (ART) per month against an annual target of 500 317. Diabetes mellitus is the third leading cause of death in the EC province, and the leading cause of death in Nelson Mandela Bay Metro. There were 2 140 599 clients were screened for diabetes against an annual target of 1 484 812. Hypertension is the sixth leading cause of death and 1 915 398 clients were screened for hypertension against an annual target of 1 476 740. A total of 819 342 were screened for mental disorders against an annual target of 1 784 834; and
- A total of 188 PHC facilities achieved an Ideal Clinic Status against a target of 75. Performance exceeded due to training of facility managers, supervisors and programme managers on facility management and integrated clinical service management.

E-Health Implementation

The following achievements were made in relation to eHealth, a requirement of the NHI aimed at improving health services management and evidence-based decision making.

- All EC districts are implementing Health Patient Registration System (HPRS). Through national DOH, desktop computers were delivered to all facilities in the EC province during 2018/19;
- In OR Tambo, all facilities are implementing the HPRS;
- EC DOH procured stationary and mobile bulk filers and stationery for 125 PHC facilities;
- The department registered 3 532 802 patients on the HPRS;

- All eight health districts have migrated all their facilities to the web-based District Health Information Systems (DHIS) system; and
- Related to Information, Communication Technology (ICT) infrastructure, the Department of Telecommunication and Postal Services through the SA Connect project has rolled out broadband in all clinics in the OR Tambo district.

Infrastructure Delivery

The following facilities have been completed in the current financial year:

- St Barnabas Psychiatrist Unit;
- Upgrade of Frontier Hospital (Accident and Emergency, Out Patient Department, Paediatrics and Gynaecology units);
- Newly built Clinics
 - OR Tambo Region (11)
 - Chris Hani Region (6)
 - Amathole Region (2)
- Upgrade of Neonate Intensive Care and High Care Units in Nelson Mandela Academic Hospital;
- A new Emergency Medical Services (EMS) Base Building in Dora Nginza hospital; and
- Fencing and guardhouses to 83 facilities.

Medico Legal Strategies

A total of approximately 1 554 additional appointments were made by the department in 2018/19, specifically in maternity services and productive health service, and in addition procured essential life-saving equipment and modern technology to monitor and easily identify high risk pregnancies and provide best support for new-born babies to prevent birth related harm and defects. A large number of facilities that provide caesarean care were provided with C-PAP breathing support services.

2.2 Key challenges

Medico Legal Claims

The scourge of medico legal claims continued to place enormous financial pressure on the health resources in the province wherein for the year under review, a total of R630.103 million was paid towards medico legal settlements and R37.923 million paid to the State Attorney by the end the third quarter. The inability to attract and retain professionals especially in rural areas also continues to confront the department.

To mitigate this risk, the department has developed a medico legal strategy which focuses on procurement of requisite equipment to monitor foetal distress; designation and resourcing of hospitals to conduct caesarean sections; archiving of patient records; improving maternal and child patient care; improved clinical governance; aggressive defence of medico legal cases as well as mediation. Furthermore, a panel of medico legal experts has now been appointed and have already commenced. The department has also engaged the services of the Special Investigative Unit (SIU) to follow up on allegations of corruption, theft of patient records and collusion of departmental officials with unscrupulous attorneys.

Emergency Medical Services

The availability and response time of ambulances continues to be problematic. EMS remains a challenge in the province.

IT infrastructure

Connectivity in the PHC facilities is weak with frequent downtimes and affect the timeliness and submission of data to the next level negatively.

3. Outlook for the coming financial year (2019/20)

Primary Health Care

The department will continue to provide comprehensive and integrated health services that are based on the Primary Health Care model driven through the District Health System. The Integrated School Health Program (ISHP), as one of the three streams RPHC, is a Ministerial priority program.

The department will provide three of the nine Care and Support for Teaching Learning (CSTL) priorities within the school health service package framework to the Department of Education namely: learner screening to identify and manage health barriers to learning, on-site services including the provision of Human Papilloma Virus (HPV) vaccinations, Health Education and referral services. The department is instrumental in the establishment of the Healthy School Environment through the “Health Promoting School initiative. Integrated School Health Program (ISHP) will screen just over 40 178 and 30 820 grade 1 and grade 8 learners respectively. The HPV vaccination campaign will benefit over 50 000 grade 4 girl learners.

More than 80 000 women 40 years and older will be screened for cervical cancer.

The department will implement the 90-90-90 strategy for HIV and TB through the following initiatives:

- Prevention initiatives that work collaboratively with all sectors, through coordination of the Eastern Cape AIDS Council (ECAC), targeting the high-risk population, youth and young women to prevent both TB and HIV new infections, focusing on behaviour change initiatives, and availing of HIV prevention commodities such as condoms, HIV Testing services, implementation of PMTCT and Safe Male Circumcision. Over 1.5 million HIV tests done, and over 1 million condoms will be distributed across the province;
- Case finding initiatives that entails, amongst others, intense TB screening (Find Actively, Separate Temporarily and Treat Effectively (FAST), Lateral Flow Lipoarabinomannan (LF-LAM) and HIV testing in build-up activities towards and during events such as First Things First Campaign, Rotary Family Health Days, World AIDS Day and TB Day, in collaboration with other sectors such as supporting partners, ECAC; and
- Treatment initiation initiatives such as Universal Test and Treat (UTT) to scale up initiation of patients on being treatment as well as the shortened regimen (nine months) for the management of Multi-Drug Resistant TB (MDR TB) patients. Over half a million (687 346) patients will remain on ART of which 187 000 will be new patients.

The strategy is already expanded to other chronic conditions such as diabetes and hypertension. The burden of Non-Communicable Diseases will be decreased by screening at least 1 425 631 clients for hypertension and 1 542 304 for diabetes in 2019/20. In addition, 1 784 834 clients will be screened for mental disorders which are often overlooked.

Maternal Child and Woman’s Health deaths: Special attention has been given to this area through the Service Delivery Plan (SDIP) which over the next three years will focus on reducing Maternal and Infant deaths through targeted interventions. Focus will be at improving immunisation coverage in children under the age of one year as well as preventing pregnancies among youth younger than age of 19 years.

The department will target 120 clinics and 16 Community Health Centres for upgrading and providing medical equipment and staffing to ensure it scores and maintains 70 per cent on Ideal Clinic Realization and Maintenance (ICRM) Programme dashboard. The department will also place a lot of emphasis on the extreme measures of the National Core Standards (NCS).

Related to EMS, the department aims to improve EMS call taking and dispatching ability by rolling out the computerized call-taking and dispatching system initially to the Alfred Nzo, OR Tambo and the Chris Hani EMS Centres. The EMS fleet will also be increased to include a dedicated fleet for inter Hospital, XDR/MDR and Maternity transfers.

E-Health initiatives, HPRS, will be fast-tracked and rolled out to all the remaining five districts. M-Health will also be introduced in pilot sites in wards in at least four districts, before being rolled out in the next financial year.

Infrastructure delivery

The following infrastructure delivery areas are now key drivers of infrastructure space in the department and the available budget has been allocated accordingly:

- Provision of 72 hours Observation Psychiatric Units, particularly in District Hospitals;
- Upgrade of the 4 Psychiatric Hospitals;
- Renovations of Clinics and Community Health Centres;
- Renovations of District hospitals;
- Procurement and maintenance of medical equipment, particularly for primary health care facilities and facilities with High Medico-legal challenges;
- Upgrade of water treatment plants and sewerage system for rural facilities;
- Electricity and water connection, especially for clinics;
- Lift maintenance and upgrade;
- Repairs and renovations of accommodation units for health professionals in order to retain scarce clinical professionals;
- Eradication of mud and inappropriate structures;
- Maintenance of health facilities plant, equipment and machinery for continuity of services;
- Continued capacitation of the Infrastructure Unit;
- Decentralisation of budget to facilities (for purpose day to day to maintenance); and
- Construction of the Radiation Oncology in Nelson Mandela Academic Hospital.

Medico legal strategies

The Department’s medico legal strategy focuses on the following critical pillars:

- Provide relevant training to all clinical staff to ensure that they are well capacitated to perform their duties optimally;
- Prioritise appointment of critical staff and replacement;
- Provide essential medical equipment;
- Strengthen the management of patient records; and

- Prioritise the finalisation of the State Liability Bill.

4. Reprioritisation

The department continued to protect the non-negotiables (medicine, medical supplies, laboratory services and blood services, etc.) as determined by the National Minister of Health. To this end, the department reprioritised from non-core items to ensure that sufficient funding is available for these non-negotiable items. This reprioritization took place across all programmes and consequently, 85 per cent of the department's budget for Goods and Services will be spent on the following main SCoA items: inventory, medicine and medical supplies, food and food supplies, other consumables, communication, consultants/professional services for laboratory services, contractors etc.

5. Procurement

In 2019/20, Goods and Services required as per the procurement plans will be sourced from the national contracts in respect of Inventories (for medicine and medical supplies) and the provincial Transport Trading Entity (for fleet services). National agreements are already in place with the National Health Laboratory Services (NHLs), South African National Blood Services (SANBS) and Telkom.

The department will continue to improve the Local Economic Development (LED strategy) focusing on local procurement for services.

Table 2 above shows a summary of receipts from 2015/16 to 2018/19 and over the 2019 MTEF. Total receipts grew substantially from R18.943 billion in 2015/16 to a revised estimate of R24.553 billion in 2018/19. Total receipts are expected to grow by 2.6 per cent from R24.553 billion to R25.189 billion due to additional funding received for conditional grants.

Table 3 depicts the summary of departmental own receipts. It shows that receipts increased from R147.494 million in 2015/16 to a revised estimate of R239.343 million in 2018/19. Departmental revenue is projected to increase by a minimal 1.3 per cent from R239.343 million to R242.451 million in 2019/20 due to revenue strategy implemented by the department for provincial revenue enhancement.

The main contributor of the department's collection of own revenue is patient fees which relates to the recovery of the cost of services provided to patients. The tariffs for patient fees are reviewed annually. Further focus will be on medical aid schemes, Road Accident Fund (RAF) and the rolling out of an efficient revenue system to all health institutions.

7. Payment summary

7.1 Key assumptions

The following assumptions were taken into consideration when this budget was formulated:

- Assumptions for salary increases were considered, amongst others, adjustments contained in the wage agreement;
- Assumptions for inflation related items were based on CPI projections as provided in the budget guidelines issued by Provincial Treasury; and
- Austerity measures, as issued by National Treasury instruction note 3 of 2017/18 and Provincial Treasury instruction note 4 of 2017/28 will be adhered to over the 2019 MTEF.

Table 6 and 7 above show the summary of payments and estimates per programme and economic classification. The total payments grew from R18.943 billion in 2015/16 to a revised estimate of R24.553 billion in 2018/19. In 2019/20, the budget is projected to grow by 2.6 per cent from R24.553 billion to R25.189 billion when compared to the 2018/19 revised estimate as a result of increase in conditional grants.

Compensation of employees shows a growth of 4.8 per cent from R16.181 billion to R16.962 billion when compared to the 2018/19 revised estimate as a result of the payment of backlog overtime for EMS officials, pay progression, Improvement of Condition of Service (ICS), and the introduction of the Human Resource Capacitation Grant.

Goods and services show a positive growth of 2.9 per cent from R6.113 billion to R6.292 billion when compared to the 2018/19 revised estimate due to the national adjustments on Provincial Equitable Share (PES) formula.

Transfers and subsidies show a negative growth of 66.2 per cent from R877.738 million to R296.705 million when compared to the 2018/19 revised estimate due to payment of medico legal claims.

Payments for capital assets show a positive growth of 19.3 per cent from R1.372 billion to R1.637 billion when compared to the 2018/19 revised estimate due to additional funding on infrastructure.

7.5.1 Departmental infrastructure payments

Table 9 above shows summary of infrastructure expenditure per category from 2015/16 to 2019 MTEF. Infrastructure spending increased from R1.199 billion in 2015/16 to a revised estimate of R1.440 billion in 2018/19 and the spending has been focusing on maintenance of existing infrastructure and procurement of equipment as opposed to the building new structures.

The infrastructure budget shows a positive growth of 15 per cent from R1.440 billion in 2018/19 to R1.656 billion in 2019/20 when compared to the revised estimate due to the low revised estimate and additional allocation on the infrastructure grant.

The budget over the 2019 MTEF will focus on the commissioning of existing hospitals and clinics, medical equipment maintenance and renovation of Community Health Centres and Clinics, refurbishments, alterations and additions.

7.5.2 Maintenance

In terms of the norms of infrastructure maintenance, a minimum of 2.5 per cent of the replacement value of assets should be allocated for maintenance or 20 per cent of the total Infrastructure Allocation, of which, the department has allocated 29 per cent for maintenance for 2019/20. Over and above, in an effort to address all challenges of setting realistic funding percentages, the National Department of Health has put the maintenance category on its list of non-negotiable items.

7.5.3 Non-infrastructure items

A total budget of R276.898 million is allocated in 2019/20 for the maintenance of medical equipment under Goods and services.

Tables 11 and 12 above show the summary of payments and estimates of conditional grants per grant and per economic classification from 2015/16 to 2021/22. Spending on conditional grants increased from R3.224 billion in 2015/16 to R3.978 billion in 2018/19. In 2019/20, conditional grant show a positive growth of 14.1 per cent from R3.978 billion to R4.540 billion when compared to the 2018/19 revised estimate due to the additional allocation received for conditional grants (Human Resource Capacitation, Comprehensive HIV/AIDS and TB, Health Revitalisation and EPWP). The Comprehensive HIV/AIDS and TB grant also includes the Community Outreach Services component.

Of all the grants, those contributing significantly to Compensation of Employees and Goods and Services are Comprehensive HIV, AIDS and TB (HIV, AIDS and TB), National Tertiary Services (NTSG), Health Professions Training and Development and Human Resource Capacitation grant.

Tables 14 and 15 above show the summary of payments and estimates from 2015/16 to 2018/19 and over the 2019 MTEF period per sub-programme and economic classification. The programme's total expenditure increased from R668.261 million in 2015/16 to a revised estimate of R776.315 million in 2018/19. In 2019/20, the budget decreases by 8 per cent from R776.315 million to R714.361 million when compared to the 2018/19 revised estimate.

Compensation of employees and goods and services, which make up current payments, are the major cost drivers of the programme. Compensation of employees shows a positive growth of 8.2 per cent from R438.406 million to R474.224 million when compared to the 2018/19 revised estimate due provision of ICS, pay progression and critical vacant funded posts.

Goods and services show a negative growth 18.6 per cent from R284.795 million to R231.783 million when compared to the 2018/19 revised estimate due to reprioritisation efforts for cost containment measures and national adjustments as a result of revision of PES formula.

Transfers and subsidies show a negative growth of 43.6 per cent from R3.022 million to R1.703 million when compared to the 2018/19 revised estimate due to reduction in the payment of leave gratuities.

Payments for capital assets show a negative growth of 86.6 per cent from R49.785 million to R6.651 million when compared to the 2018/19 revised estimate due to payment of ICT accounts in relation to maintenance of computer equipment, SITA data lines, desktops and computers, network for BAS, LOGIS and PERSAL.

Service Delivery Measures

None.

Tables 16 and 17 above show the summary of payments and estimates for District Health Services per sub-programme and economic classification. The programme's total expenditure increased from R9.516 billion in 2015/16 to a revised estimate of R12.683 billion in 2018/19. In 2019/20, the budget increases by 1.4 per cent from R12.683 billion to R12.862 billion when compared to the 2018/19 revised estimate.

Compensation of employees and goods and services, which make up current payments, are the major cost drivers of the programme. Compensation of employees shows a positive growth of 6.4 per cent from R8.701 billion to R9.255 billion when compared to the 2018/19 revised estimate due to the additional funds received for the Human Resource Capacitation Grant (HRCG). Goods and services show a negative growth 1.4 per cent from R3.433 billion to R3.386 billion when compared to the 2018/19 revised estimate due to a high revised estimate resulting from the payment of accruals for Medicine and Property payments.

Transfers and subsidies show a negative growth of 80.9 per cent from R451.622 million to R86.185 million when compared to the 2018/19 revised estimate due to high revised estimates in 2018/19 as a result of payment of medico legal claims.

Payments for capital assets show a positive growth of 46.4 per cent from R92.399 million to R135.276 million when compared to the 2018/19 revised estimate due to additional funding on infrastructure.

Service Delivery Measures

Table 18: Selected service delivery measures for the programme: P2 - District Health Services

Programme performance measures	Estimated performance	Medium-term estimates		
		2018/19	2019/20	2020/21
Ideal clinic status obtained rate	731 (10.8%)	727 (16.5%)	727 (20.6%)	727 (29.5%)
ART client remain on ART end of month -total	486 368	556 778	600 294	673 516
Immunisation under 1 year coverage	162773 (73%)	162370 (87%)	162370 (87%)	162370 (87%)
Cervical cancer screening coverage 30 years and older	81%	65%	65%	65%
PHC utilisation rate - Total	2.4	2.5	2.5	2.5
TB/HIV co-infected client on ART rate	93%	95%	95%	95%

Table 18 above shows selected service delivery measures for District Health Services, which is the main service delivery programme of the department. Due to the nature of services provided, various performance criteria, such as the utilisation rate of facilities and provincial expenditure per uninsured persons are used. To assess progress made in the reduction of HIV/AIDS, total patients on ART are monitored. The performance of district hospitals is measured by expenditure per day equivalent (PDE), average length of stay and bed utilisation rates.

8.3 Programme 3: Emergency Medical Services

Objectives: The rendering of pre-hospital Emergency Medical Services including Inter-hospital Transfers and Planned Patient Transport. The programme comprises of two sub-programmes with the following objectives:

- **Emergency Transport:** Rendering Emergency Medical Services including ambulance services, special operations, communications, and air ambulance services; and
- **Planned Patient Transport:** Rendering Planned Patient Transport including local outpatient transport (within the boundaries of a given town or local area) and inter-city/town outpatient transport (into referral centres).

Tables 19 and 20 above show the summary of payments and estimates for Emergency Medical Services per sub-programme and economic classification. The programme's total expenditure increased from R946.270 million in 2015/16 to a revised estimate of R1.296 billion in 2018/19. In 2019/20, the budget increases by 7.4 per cent from R1.296 billion to R1.393 billion when compared to the 2018/19 revised estimate.

Compensation of employees shows a negative growth of 11.8 per cent from R998.781 million to R881.223 million when compared to the 2018/19 revised estimate due to the high revised estimate as a result of the once off backlog overtime payments.

Goods and services show a positive growth 83.3 per cent from R190.585 million to R349.250 million when compared to the 2018/19 revised estimate due to the reprioritisation of funds to fleet management from finance lease under payments of capital assets.

Transfers and subsidies show a negative growth of 9.4 per cent from R3.759 million to R3.407 million when compared to the 2018/19 revised estimate due to payment of leave gratuities.

Payments for capital assets show a positive growth of 53.4 per cent from R103.778 million to R159.177 million when compared to the 2018/19 revised estimate due reprioritisation of funds to fleet management from finance lease under payments of capital assets.

Table 21 above shows the selected service delivery measures for the Emergency Medical Services programme. Performance is measured by the number of emergency vehicles in operation as well as response rates in both urban and rural areas.

8.4 Programme 4: Provincial Hospital Services

Objectives: Delivery of hospital services, which are accessible, appropriate, effective and provide general specialist services, including a specialized rehabilitation service, as well as a platform for training health professionals and research. The programme has 3 sub-programmes with the following objectives:

- **General (Regional) Hospitals:** Rendering of hospital services at a general specialist level and a platform for training of health workers and research;
- **Tuberculosis (TB) Hospitals:** To convert present TB hospitals into strategically placed centres of excellence in which a small percentage of patients may undergo hospitalisation under conditions which allow for isolation during the intensive phase of treatment, as well as the application of the standardized multi-drug resistant (MDR) and extreme drug resistant (XDR) protocols; and
- **Psychiatric / Mental Hospitals:** Rendering a specialist psychiatric hospital service for people with and intellectual disability and providing a platform for the training of health workers and research.

Tables 22 and 23 above shows the summary of payments and estimates for Provincial Hospital Services per sub-programme and economic classification. The programme's total expenditure decreased from R4.927 billion in 2015/16 to a revised estimate of R3.571 billion in 2018/19. In 2019/20, the budget

increases by 14.5 per cent from R3.571 billion to R4.090 billion when compared to the 2018/19 revised estimate.

Compensation of employees shows a positive growth of 32.2 per cent from R2.484 billion to R3.285 billion when compared to the 2018/19 revised estimate due to the low revised estimates resulting from the process of de-complexing of facilities for employees that were paid under this programme and being allocated to the Programme 5: Central Hospital Services.

Goods and services show a negative growth of 6.5 per cent from R832.770 million to R778.245 million when compared to the 2018/19 revised estimate due to reprioritisation of non-core items for the implementation of cost containment measures.

Transfers and subsidies show a negative growth of 94.6 per cent from R219.811 million to R11.817 million when compared to the 2018/19 revised estimate due to a high revised estimate as a result of payment of Medico Legal Claims.

Payments for capital assets show a negative growth of 51.4 per cent from R31.622 million to R15.384 million when compared to the 2018/19 revised estimate, due reprioritised budget to core items such as Inventory: Medical supplies and Property payments under Goods and services.

Service Delivery Measures

Table 24: Selected service delivery measures for the programme: P4 - Provincial Hospital Services

Programme performance measures	Estimated performance	Medium-term estimates			
		2018/19	2019/20	2020/21	2021/22
Bed Utilisation rate for Regional hospitals		1	1	1	1
Average length of stay for Regional Hospitals		5.9 days	5.5 days	5 days	5 days
Cataract surgery rate (Uninsured Population)		705/1000000	1300/1000000	1300/1000000	1300/1000000
Average length of stay in TB Hospitals		68.6 days	80 days	70 days	60 days
Bed Utilisation rate for TB hospitals		0	1	1	1

Table 24 shows the selected service delivery measures for Provincial Hospital Services. Performance in General Hospitals is measured by the patient day equivalent, bed utilisation and average length of stay rates. TB hospitals' performance is measured by the number of hospitals implementing National Core Standards and the number of hospitals conducting clinical audits. The aim is to reduce the rate of patients infecting one another. Average length of stay for TB Hospitals and Psychiatric Hospitals is not used as an indicator as, by their nature, these diseases entail patients staying for protracted periods whilst under treatment.

8.5 Programme 5: Central Hospital Services

Objectives: To provide tertiary health services and create a platform for the training of health workers. The programme only has 2 sub-programmes with the following objectives:

- **Central Hospital Services:** Rendering of a highly specialised medical health and quaternary services on a national basis and a platform for the training of health workers and research; and
- **Provincial Tertiary Hospital Services:** Rendering of general specialist and tertiary health services on a national basis and maintaining a platform for the training of health workers and research.

Tables 25 and 26 above show the summary of payments and estimates for Central Hospital Services per sub-programme and economic classification. The programme's total expenditure increased from R823.221 million in 2015/16 to a revised estimate of R4.044 billion in 2018/19. In 2019/20, the budget decreases by 10.3 per cent from R4.044 billion to R3.626 billion when compared to the 2018/19 revised estimate.

Compensation of employees shows a negative growth of 19.3 per cent from R2.957 billion to R2.386 billion when compared to the 2018/19 revised estimate due to the high revised estimates resulting from the process of de-complexing of facilities for employees that were paid under Programme 4: Provincial Hospital Services and being allocated to the Programme 5: Central Hospital Services.

Goods and services show a positive growth 18.6 per cent from R951.797 million to R1.129 billion when compared to the 2018/19 revised estimate due reprioritisation and national adjustments of PES formula.

Transfers and subsidies show a negative growth of 100 per cent from R40.757 million to zero budget on households.

Payments for capital assets show a positive growth of 18.2 per cent from R93.691 million to R110.753 million when compared to the 2018/19 revised estimate due additional funding for medical equipment.

Service Delivery Measures

Table 27 shows the selected service delivery measures for Central Hospital Services. Services provided are of a specialised nature, measures such as patient satisfaction are important. Over and above that, the client satisfaction rate and average length of stay are all measures on how well the institutions are performing.

8.6 Programme 6: Health Sciences and Training

Objectives: Rendering of training and development opportunities for actual and potential employees of the department. The programme has 4 sub-programmes with the following objectives:

- **Nursing Training Colleges:** Training of nurses at undergraduate and post-basic level. The target group includes actual and potential employees;
- **EMS Training College:** Training of rescue and ambulance personnel;
- **Bursaries:** Provision of bursaries for health science training programmes at undergraduate and postgraduate levels; and
- **Other Training:** Provision of skills development interventions for all occupational categories in the department.

Tables 28 and 29 above show the summary of payments and estimates for Health Sciences and Training per sub-programme and economic classification. The programme's total expenditure decreased from R769.372 million in 2015/16 to a revised estimate of R762.491 million in 2018/19. In 2019/20, the budget increases by 21.9 per cent from R762.491 million to R929.809 billion when compared to the 2018/19 revised estimate.

Compensation of employees shows a positive growth of 12.9 per cent from R511.582 million to R577.680 million when compared to the 2018/19 revised estimate due to the ICS adjustment, pay progression and filling of critical vacant posts.

Goods and services show a positive growth 62.6 per cent from R82.638 million to R134.392 million when compared to the 2018/19 revised estimate due reprioritisation and national adjustment of PES formula.

Transfers and subsidies show a positive growth of 21.8 per cent from R158.743 million to R193.393 million when compared to the 2018/19 revised estimate due reprioritisation of funds to cater for Cuban Program.

Payments for capital assets show a positive growth of 155.5 per cent from R9.528 million to R24.344 million when compared to the 2018/19 revised estimate due to additional funding for medical equipment.

8.7 Programme 7: Health Care Support Services

Objectives: To render support services required by the department to realise its objectives. The programme has 2 sub-programmes with the following objectives:

- **Orthotic and prosthetic services:** Rendering specialised orthotic and prosthetic services; and
- **Medicine Trading Account (Pharmaceuticals Depot Management):** Managing the supply of pharmaceuticals and medical sundries to hospitals, clinics and community health centres.

Tables 31 and 32 above show a summary of payments and estimates for Health Care Support Services per sub-programme and economic classification. The programme's total expenditure increased from R93.129 million in 2015/16 to a revised estimate of R108.118 million in 2018/19. In 2019/20, the budget increases by 16.4 per cent from R108.118 million to R125.835 million when compared to the 2018/19 revised estimate.

Compensation of employees shows a positive growth of 14.9 per cent from R59.212 million to R68.045 million when compared to the 2018/19 revised estimate due to ICS adjustments, pay progression and filling of critical vacant post.

Goods and services show a positive growth 16.5 per cent from R48.407 million to R56.411 million when compared to the 2018/19 revised estimate due the low revised estimate resulting from reprioritisation to fund critical core-items.

Service Delivery Measures

Table 33: Selected service delivery measures for the programme: P7 - Health Care Support Services

Programme performance measures	Estimated performance	Medium-term estimates			
		2018/19	2019/20	2020/21	2021/22
Percentage of eligible applicants supplied with wheelchairs	1378 (34%)	5015 (29.9%)	5015 (29.9%)	5015 (29.9%)

Percentage of eligible applicants supplied with orthoses	2320 (100%)	9000 (79%)	9000 (79%)	9000 (79%)	

Table 33 shows the selected service delivery measures for Health Care and Support Services. Performance is measured by the efficiency of healthcare and support services offered, such as the supply of wheelchairs, hearing aids, prosthetic and orthotic to patients needing aids. The performance of the Pharmaceutical Depots is measured by the fulfilment of essential drug orders and the tracer drug stock out rates.

8.8 Programme 8: Health Facilities Management

Objectives: Provides new health facilities, upgrades and maintains existing facilities. The programme has 5 sub-programmes with the following objectives:

- **Community Health Facilities:** Focuses on the construction of new clinics and community health centres (CHC) and the upgrade of existing clinics and CHCs;
- **Emergency Medical Rescue Services:** Focuses on improving emergency medical rescue services infrastructure;
- **District Hospital Services:** Focuses on the upgrade and maintenance of district hospitals;
- **Provincial Hospital Services:** Focuses on the upgrade of provincial hospitals; and
- **Other facilities:** Focuses on the upgrade of all other facilities, including nursing training colleges and mortuaries.

Tables 34 and 35 above show the summary of payments and estimates for Health Facilities Management per sub-programme and economic classification. The programme's total expenditure increased from R1.199 billion in 2015/16 to a revised estimate of R1.310 billion in 2018/19. In 2019/20, the budget increases by 10.4 per cent from R1.310 billion to R1.446 billion when compared to the 2018/19 revised estimate.

Compensation of employees shows a positive growth of 16 per cent from R29.393 million to R34.108 million when compared to the 2018/19 revised estimate in order to improve capacitation within the programme.

Goods and services show a negative growth 21.5 per cent from R289.786 million to R227.360 million when compared to the 2018/19 revised estimate due to the low revised estimate as a result of delays of payments to contracts relating to the maintenance of infrastructure and machinery and equipment.

Payments for capital assets show a positive growth of 19.5 per cent from R991.502 million to R1.185 billion when compared to the 2018/19 revised estimate due to the additional funding on Health Revitalisation Facilities Grant.

Table 36 shows the selected service delivery measures for Health Facilities Management. Due to the fact that this programme relates primarily to infrastructure, performance is measured by the number of institutions upgraded, refurbished, commissioned and completed.

Table 37 above shows personnel numbers per programme and total costs for the department. The department's personnel numbers decreased from 49 408 in 2015/16 to a revised estimate of 47 993 in 2018/19. In 2019/20, the personnel numbers increases by 0.6 per cent from 47 993 to 48 988 when compared to the 2018/19 revised estimate. The reason for the increase in personnel numbers in the 2019 sMTEF is due to the appointment of additional doctors and clinical staff, including the absorption of nurses, Cuban student doctors and other locally trained clinical personnel.

1. Overview

1.1 Vision

A caring society for the protection and development of the poor and vulnerable towards a sustainable society.

1.2 Mission

To transform our society by building conscious and capable citizens through the provision of integrated social development services with families at the core of social change.

1.3 Core functions and responsibilities

To provide developmental social welfare services to individuals, families, groups and communities through the following social protection measures:

- **Protective** – Measures are introduced to save lives and reduce levels of deprivation;
- **Preventive** – Acts as an economic stabilizer that seeks to help people avoid falling into deeper poverty and reduce vulnerability to natural disasters, crop failure, accidents and illness;
- **Promotive** – Aims to enhance the capabilities of individuals, communities and institutions to participate in all spheres of activity;
- **Transformative** – Tackles inequities and vulnerabilities through changes in policies, laws, budgetary allocations and redistributive measures; and
- **Developmental and generative** – Increases consumption patterns of the poor, promoting local economic development and enabling poor people to access economic and social opportunities.

1.4 Main Services

- The department offers programmes dealing with substance abuse prevention and rehabilitation, care and services to older persons, crime prevention and support, services to people with disabilities, child care and protection services, victim empowerment, home community based care services to HIV/AIDS infected and affected communities, social relief of distress, and care and support services to families;
- In ensuring community development, focus is given to community mobilisation, institutional capacity building and support for Non - Profit Institutions (NPIs), poverty alleviation and sustainable livelihoods, community based research and planning, youth development, women development and population policy promotion; and

- Vulnerable groups (poor, marginalized and disadvantaged) are targeted. Furthermore, the department has identified children, women, youth, old age and people with disabilities as focus groups targeted for service delivery.

1.5 Demands for and expected changes in the services

The department has identified a new outcome and was introduced in the social transformation cluster, which is aimed at addressing social distress by strengthening families with special focus to children and other vulnerable groups. In addressing challenges of social distress, the department will be building conscious and capable communities in the Eastern Cape as stable, healthy families are at the heart of strong societies. It has become evident that the Eastern Cape province is faced with new social ills such as violence against women and children; brutal killings of older persons accused of witchcraft; excessive abuse of drugs leading to vampires ‘amavhondo’; bluetooth-sharing of drugs through blood transfusion; and human and organ trafficking which emanate from families that have become dysfunctional.

The greatest challenge hindering the socio-economic growth of vulnerable and marginalised groups is high level of social distress experienced by families within our communities on a daily basis. It is against this background that the department has realised that collaboration with other stakeholders is central in delivering this outcome.

The department, as coordinators of the Provincial Integrated Anti-Poverty Programme is in the process of preparing for an incremental roll out of the anti-poverty strategy from 16 to 62 sites. Programme expansion will focus on the poorest wards, anti – poverty sites wards and poverty pockets across the province.

The department will continue with the expansion of the Early Childhood Development (ECD) services and assist them with minor maintenance utilising the conditional grant received.

1.6 The Acts, rules and regulations

The mandate of the department is derived from the Constitution of the country. The functional responsibilities are further articulated in policies and legislative frameworks that facilitate the execution of the mandate of the department namely: Probation Services Act 116, 1991; Social Assistance Act 59, 1992; NPO Act, 1997; White Paper for Social Welfare,1997; Domestic Violence Act 116,1998; National Development Agency Act, 1998; White Paper Population Policy for South Africa,1998; Public Finance Management Act,1999; Probation Services Amendment Act 35, 2002; Mental Health Act 17, 2002; Children’s Act 38, 2005; Older Persons Act 13, 2006; Child Justice Act, 75 of 2008, Child Justice Act 75, 2008; Prevention and Treatment of Drug Dependency Act 70, 2008; Women Empowerment and Gender Equality Bill of 2012; National Skills Development Strategy III (2011-2016); National and Provincial Strategic Plan for HIV and AIDS, STI’s and TB; and Policy on Financial Awards to Service Providers, South African Policy for Older Persons, and National Youth Policy 2014-2019.

1.7 Budget decisions

The department will be increasing the tariff for residential facilities for persons with disabilities from R1 764 to R2 000 per person per month and from R2 678 to R4 000 per child per month respectively. The number of funded days for ECD Centres will be increased from 237 days to 264 days. Qualified Child and Youth Care Workers will receive a minimum wage of R3 500 per month within the funded NGO’s. The stipend for workers within the NGO’s will be increased across the sectors to comply with ministerial determination. The department increased the budget for operating institutions managed by the department. The community initiatives, youth development programme and Women Development Centres were prioritised.

1.8 Aligning departmental budgets to achieve government's prescribed outcomes

To enhance the change agenda in government, the Presidency has identified 14 outcomes in the MTSF to address the main strategic priorities for government. The department's budget seeks to contribute to the attainment of output targets aligned to outcomes 1, 2, 3, 7, 12, 13 and 14 and is mainly driven through the provision of social welfare services by social workers and NPOs. The department will focus on meeting statutory obligations arising from the announcement and implementation of Children's Act, Child Justice Act, Older person Act, and Treatment of Drug Dependency Act, amongst others. The department has direct responsibility of ensuring that Outcome 13 (an inclusive and responsive social protection system) is being delivered in a manner that will benefit the communities in the province through the provision of:

- Implementation of the Children's Act through establishing ECD centres, Child and Youth Care (CYC) centres and Victim Empowerment programmes;
- Provision of social welfare services by social workers and NPO's;
- Provision of comprehensive social security services;
- Community development facilitation and support;
- Poverty and inequality eradication; and
- HIV/AIDS (prevent and mitigate effects on vulnerable groups).

2. Review of the current financial year (2018/19)

2.1 Key achievements

To prevent abuse of older persons and ensure the provision of care support and protection of older persons, the department funded 48 residential facilities benefitting 1 868 older persons, 441 community based care and support services funded benefiting 15 729 older persons and 4 social welfare organisations. Community based rehabilitation programmes were implemented in partnership with 24 funded community based rehabilitation projects benefiting 21 578 people. The social and structural barriers to curb new HIV infections, STIs and TB, 59 555 beneficiaries were reached through social and behaviour change programmes. These beneficiaries included Orphaned, Vulnerable, Children and Youth (OVCY) aged between 15 - 24 years, which were reached through "You Only Live Once" (YOLO) Programmes, which is a strategy that is central to prevention of HIV and AIDS. The department created 140 job opportunities through the Extended Public Works Programme (EPWP) conditional grant.

To strengthen the family unit as a basic centre of service delivery implementation, the department subsidized 4 Welfare Organisations (Family and Married of South Africa), 15 Family Resource Centres, and 16 Family preservation programmes. For children in need of care and protection, 38 Designated Child Protection Organizations (DCPOs) were funded. The department subsidized 1 715 ECD centres benefiting 53 734 children aged from 0-5 years as well as 7 non-centre based ECD programmes which include Mobile ECD benefiting 373 children. There were five government owned Child and Youth Care Centres (CYCC) and 28 registered CYCCs funded.

The department implemented integrated social crime prevention programmes reaching 60 478 beneficiaries inclusive of children and their families at risk. The department has rendered life skills, therapeutic, educational, and vocational programmes to 1 146 children awaiting trial in CYCC's. Programmes such as prevention and early intervention on substance abuse targeting in and out of school youth children (18 years and below) and people (19 years and above). This programme reached 80 784 children (younger than 18 years) and 37 975 people (18 years and above) were implemented.

Prevention Programmes were rendered through TADA (Teenage Against Drug Abuse) and educational talks (awareness campaigns) in line with Ke Moja Strategy.

Youth development programmes implemented by the department include support to 167 youth development structures with capacity building and start-up capital for their own sustainable livelihoods initiatives through economic empowerment. The department implements skills development programmes aimed at providing skills enhancement as a response to youth unemployment and 1 712 young people have been reached through these programmes. Youth mobilisation programmes such as outreach programmes and awareness campaigns, youth dialogues, youth camps and inter-generational dialogues (Imbadu) is a continuous engagement of young people to empower them with tools to own their development and has reached 14 953 young people.

Women development supports disadvantaged women through empowerment programmes, which are done through various stakeholders and the provincial resource centre, which equip women with soft skills. Women mobilisation programmes such as awareness campaigns were held through women dialogues in order to empower women for active citizenry and social cohesion and 19 571 women were reached. The department has provided financial support to 35 women initiatives and households in which 6 496 women benefited. The department trained 139 NPI's through partnerships with stakeholders.

2.2 Key challenges

The department has a challenge of absorbing Social Work Graduates who were granted bursaries by the sector. The department is also faced with the inescapable reality that the poor, the vulnerable and the marginalised groups of people in the Eastern Cape continue to exert pressure and demand for the provision of comprehensive and quality developmental social welfare services.

3. Outlook for the coming financial year (2019/20)

Provision of care support and protection of older persons, will continue, 1 769 older persons will benefit. Community-Based Care and Support Services will also be funded, benefiting 15 707 older persons and Community-Based Rehabilitation programmes will benefit 23 583 people with disabilities.

As part of strengthening prevention programmes that have been developed to address social and structural barriers to curb new HIV infections, STIs and TB, the department will continue to enhance and implement social and behaviour change programmes as a strategy that is central to prevention of HIV. YOLO programmes will continue to focus on target group age 15 - 24 years age cohort.

Furthermore, the department will embark on capacity development of social service practitioners and other stakeholders on psychosocial support to harmonise interventions for orphaned, vulnerable children and youth and adults infected and affected by HIV and AIDS. The home community based care projects will continue to be funded to improve access to services by the communities.

To strengthen the family unit as a basic centre of service delivery implementation, the department will continue to subsidise NGO's, family resource centres and family preservation programmes. A total of 22 489 family members will participate in family preservation services and 421 members will be reunited with their families.

In ensuring that quality and comprehensive ECD services are accessible to all vulnerable children from 0 – 5 years, the department will fully register 54 ECD centres and conditionally register 652 ECD centres. A total of 19 058 children will access registered ECD programmes and 19 366 children will be

subsidised through the ECD conditional grant. The department will ensure access to registered ECD programmes of 64 children with disabilities.

The department will continue to implement integrated social crime prevention programme in hot spot areas targeting children and families at risk. A total of 75 198 people will be reached through social crime prevention programmes, and 691 persons in conflict with the law referred to diversion programmes. In fighting the scourge of crime and violence, which continues to pose a threat to the social stability of the province the department, will continue to support and strengthen victim empowerment programme centres that aim to provide integrated services and programmes to victims of crime and violence and their families. About 26 564 victims of crime and violence will access services from funded victim empowerment programme service centres and 39 362 persons will be reached through integrated gender based violence prevention programmes.

Institutional capacity building and support is an empowerment programme aimed at capacitating and providing support to community based organisations, NPOs and Cooperatives towards improved community services. A total 552 NPOs will be capacitated and 53 cooperatives will be linked to economic opportunities.

Youth development programmes will focus on supporting youth development structures and entrepreneurship development initiatives through capacity building. The department will implement skills development by providing a foundation for youth to enter a range of qualification based training on community development methodologies and technical scarce skills as a response to youth unemployment through theory and practice, where 1 506 young people will participate in skills development programmes.

4. Reprioritisation

The department has made provision for budget increase for operations of all institutions managed by the department; training of NYS under youth development; operationalisation of the Eastern Cape Women Development Centre; and Community Nutrition Development Centres (CNDCs) under sustainable livelihoods. The budget for the skills levy has been increased to meet one per cent of the compensation of employees budget in line with the directive and is centralised under Administration.

5. Procurement

The department will continue to strengthen the Supply Chain Management (SCM) through continuous training on new policies, guidelines and new frameworks. Some of the major procurement to be undertaken in 2019 MTEF are:

- The provision of security; cleaning; outsourced catering for institutions; gardening and laundry services at the provincial office, districts and the two metros;
- Information and Communications Technology (ICT) equipment;
- Procurement of Frail Care Services;
- Provision for renting of the office space to ensure that office accommodation is provided for staff in both the provincial office and district;
- Implementation of Infrastructure related services; and
- Procurement of training services for NGOs and community based organisations and staff in the department.

Tables 4 and 5 reflect a summary of payments and budgeted estimates per programme and per economic classification. The department expenditure increased from R2.253 billion in the 2015/16 to a revised estimate of R2.799 billion in 2018/19. In 2019/20, the budget increases by 7.9 per cent from R2.799 billion to R3.020 billion due to provision for ICS, additional funding received which relates to the NAWONGO court judgement, Sanitary Dignity Project and conditional grants received for expansion of ECD services and EPWP.

Expenditure on compensation of employees increased from R1.306 billion in 2015/16 to a revised estimate of R1.683 billion in the 2018/19. In 2019/20, the budget increases by 7.3 per cent from R1.683 billion to R1.807 billion due to provision for ICS, pay progression, and filling of critical vacant funded posts.

Expenditure on goods and services increased from R300.491 million in 2015/16 to a revised estimate of R414.188 million in 2018/19. In 2019/20, the budget decreases by 7.9 per cent from R414.188 million to R381.207 million, due to national adjustments to baseline as a result of Provincial Equitable Share (PES) formula.

Expenditure on transfers and subsidies increased from R516.160 million in 2015/16 to a revised estimate of R581.470 million in the 2018/19. In 2019/20, the budget increases by 22.3 per cent from R581.470 million to R711.030 million due to additional funding received which relates to the NAWONGO Court Judgement, Sanitary Dignity Project, conditional grants received for expansion of ECD services and EPWP programme.

Expenditure on payments for capital assets decreased from R130.468 million in the 2015/16 to a revised estimate of R120.624 million in 2018/19. In 2019/20, the budget increases by 0.5 per cent from R120.624 million to R121.247 million due to the revision of the Provincial Equitable Share (PES) formula which resulted in an allocation decrease for the province.

Table 6 above shows the summary of departmental payments and estimates by benefiting municipal boundaries. The allocation to districts is based on the population figures per district, poverty levels, unemployment rate, staff establishment, the distance as one factor, and residential centres that are located within the six municipalities and two metros as well as the extent of social ills are used in the allocation of resources. In 2019/20, the budget for districts is increasing due to decentralisation of functions to the districts which includes the establishment of the NPO Management unit within the districts.

Table 7 above provides a summary of payments and estimates for infrastructure. The total expenditure decreased from R67.431 million in the 2015/16 to a revised estimate of R64.105 million in 2018/19. In 2019/20, the budget increases by 3.6 per cent from R64.105 million to R66.423 million due to provision made for upgrades of the following offices, Molteno; Emalahleni; Adelaide and Humansdorp Services offices.

7.5.2 Maintenance

The budget for maintenance increased from R3.113 million in 2015/16 to revised estimate of R13.338 million in 2018/19. In 2019/20, the budget increases by 15.4 per cent from R13.338 million to R15.389 million for the maintenance of departmental offices, ECD centres, state owned institutions and to conduct a technical assessment on departmental buildings.

7.5.3 Non Infrastructure

The budget for non infrastructure increased from R2 million in 2015/16 to a revised estimate of R2.006 million in 2018/19. In 2019/20, the budget increases by 40.6 per cent.

Table 10 above shows the summary of departmental transfers to other entities. Expenditure for transfers to NPIs, departmental agencies and households increases from R508.127 million in the 2015/16 to a revised estimate of R573.365 million in 2018/19. In 2019/20, budget for transfers to NPIs and households increases by 22.3 per cent from R573.365 million to R701.231 million due to additional

conditional grants received for Early Childhood Development and EPWP programme as well as additional funding received which relates to NAWONGO Court Judgement and Sanitary Dignity Project.

The majority of the budget is allocated under programme 3: Children and Families to focus on the issues of children. The department has increased the tariffs for the residential facilities as follows, the tariff for residential facilities of persons with disabilities increased from R1 764 to R2 000 per person per month and the tariff for residential facilities for children has been increased from R2 678 to R4 000 per child per month. Stipends for care workers and other workers receiving stipends within the NPO's has been increased from R2 046 to R2 169 per month. An amount of R87.906 million accounts for conditional grant under transfers.

8. Programme description

8.1 Programme 1: Administration

Objectives: Captures the strategic management and support services at all levels of the department. It consists of three sub-programmes, namely:

- **Office of the MEC:** Provides political and legislative interface between government, civil society and all other relevant stakeholders;
- **Corporate Management Services:** Provides for the strategic direction and the overall management and administration of the department; and
- **District Management:** Provides for the decentralisation, management and administration of services at district level within the department.

Tables 11 and 12 reflect a summary of payments estimates for programme 1 per sub programme and per economic classification respectively. Expenditure increased from R420.393 million in 2015/16 to a revised estimate of R483.269 million in 2018/19. In 2019/20, the budget for this programme increases by 9.7 per cent from R483.269 million to R529.939 million. The budget increases due to the introduction of a new NPO management unit; upscaling of the skills levy fund under this programme; the centralisation of photocopier machines budget from programme 2 to programme 1.

Expenditure on compensation of employees increased from R264.585 million in 2015/16 to a revised estimate of R343.943 million in 2018/19. In 2019/20, compensation of employees increases by 9.8 per cent from R343.943 million to R377.669 million due to provision for ICS, pay progression and filling of vacant funded posts.

Expenditure on goods and services decreased from R93.404 million in 2015/16 to a revised estimate of R67.583 million in 2018/19. In 2019/20, goods and services increases by 7.4 per cent from R67.583 million to R72.601 million due to prioritisation of the skills levy fund to meet the threshold of 1 per cent of total compensation of employees budget.

Expenditure on transfers and subsidies increased from R8.033 million in 2015/16 to a revised estimate of R8.105 million in 2018/19. In 2019/20, the budget increases by 20.9 per cent from R8.105 million to R9.799 million to pay for leave gratuities, injury on duty and health risk management services.

Expenditure on payments for capital assets increased from R54.371 million in 2015/16 to a revised estimate of R63.638 million in the 2018/19. In 2019/20, the budget increases by 9.8 per cent from R63.638 million to R69.870 million due to the centralisation of photocopier machines budget from programme 2 to programme 1.

Service Delivery Measure

None.

8.2 Programme 2: Social Welfare Services

Objectives: Provide integrated developmental social welfare services to the poor and vulnerable in partnership with stakeholders and civil society organisations. It consists of five sub-programmes, namely:

- **Management and Support:** Provide the payment of salaries and administration cost of the management and support staff providing services across all sub-programmes of this programme;
- **Services to Older Persons:** Design and implement integrated services for the care, support and protection of older persons;
- **Services to Persons with Disabilities:** Design and implement integrated programmes and provide services that facilitate the promotion of the well-being and the socio economic empowerment of persons with disabilities;
- **HIV and AIDS:** Design and implement integrated community based care programmes and services aimed at mitigating the social and economic impact of HIV and Aids; and
- **Social Relief:** To respond to emergency needs identified in communities affected by disasters not declared, and or any other social condition resulting in undue hardship.

Tables 13 and 14 above reflect the summary of payments and budget estimates for programme 2 per sub programme and per economic classification. Expenditure increased from R549.985 million in 2015/16 to a revised estimate of R792.460 million in 2018/19. In 2019/20, the budget increases by 3.8 per cent from R792.460 million to R822.515 million due to provision for ICS, performance bonus, pay progression, and increase on tariffs for beneficiaries within residential facilities for people with disabilities from R1 764 to R2 000 per month.

Expenditure on compensation of employees increased from R214.073 million in 2015/16 to a revised estimate of R351.229 million in 2018/19. In 2019/20, the budget increases by 5.2 per cent from R351.229 million to R369.661 million for provision of ICS, performance bonus and pay progression.

Expenditure on goods and services increased from R124.084 million in the 2015/16 financial year to a revised estimate of R248.813 million in 2018/19. In 2019/20, the budget decreases by 7.0 per cent from R248.813 million to R231.482 million because adjustments to baseline were effected under goods and services.

Expenditure of transfers and subsidies decreased from R158.404 million in 2015/16 to a revised estimate of R137.231 million in 2018/19. In 2019/20, the budget increases by 25.8 per cent from R137.231 million to R172.632 million due to reprioritisation done by the department to increase tariffs for residential facilities of persons with disabilities from R1 764 to R2 000 per person per month and additional funding received for Sanitary Dignity Project and the EPWP conditional grant.

Expenditure on payments for capital assets has increased from R53.424 million in 2015/16 to a revised estimate of R55.187 million in 2018/19. In 2019/20, the budget decreases by 11.7 per cent from

R55.187 million to R48.740 million due to the centralisation of photocopier machines budget from programme 2 to programme 1 and adjustment to the baseline.

Table 15 above shows the selected service delivery measures for Social Welfare Services over the 2019 MTEF. Performance in older persons is measured by the number of communities accessing funded residential facilities and community based care and support services. Services to persons with disabilities' performance is measured by the number of persons with disabilities accessing services in community based services and residential facilities. Performance in HIV and AIDS is measured by the number of beneficiaries reached through social and behaviour change programmes as well as the number of beneficiaries who receive Psychosocial Support Services.

8.3 Programme 3: Children and Families

Objectives: Provides comprehensive child and family care and support services to communities in partnership with stakeholders and civil society organisations. The programme consists of six sub-programmes, namely:

- **Management and Support:** Provide the payment of salaries and administration cost of the management and support staff providing services across all sub-programmes of this programme;
- **Care and Services to Families:** Programmes and services to promote functional families and to prevent vulnerability in families;
- **Child Care and Protection:** Design and implement integrated programmes and services that provide for the development, care and protection of the rights of children;
- **ECD and Partial Care:** Provide comprehensive early childhood development services;
- **Child and Youth Care Centres:** Provide alternative care and support to vulnerable children; and
- **Community-Based Care Services for Children:** Provide protection, care and support to vulnerable children in communities.

Tables 16 and 17 above show the summary of payments and budget estimates for programme 3 per sub programme and per economic classification. Expenditure increased from R621.795 million in 2015/16 to a revised estimate of R826.659 million in the 2018/19 financial year. In 2019/20, the budget increases by 13.6 per cent from R826.659 million to R938.960 million due to provision for ICS, pay progression, increase in the number of days funded for ECD centres from 237 to 264, increase in tariffs for residential care facilities from R2 678 to R4 000 per child per month, and implementation of minimum wage for qualified Child and Youth Care Workers and an increase in the EPWP conditional grant.

Expenditure on compensation of employees increased from R375.729 million in 2015/16 to a revised estimate of R440.548 million in 2018/19. In 2019/20, the budget increases by 6.8 per cent from R440.548 million to R470.574 million due provision for ICS, pay progression.

Expenditure on goods and services increased from R14.882 million in 2015/16 financial year to a revised estimate of R21.369 million in 2018/19. In 2019/20, the budget decreases by 19.7 per cent from R21.369 million to R17.164 million due to national adjustment of Equitable Share formula. The adjustment was effected on goods and services.

Expenditure on transfers and subsidies increased from R227.922 million in 2015/16 to a revised estimate of R364.714 million in 2018/19. In 2019/20, the budget increases by 23.7 per cent from R364.714 million due to increase on tariff for children's residential care facilities from R2 678 to R4 000 per child per month; implementation of minimum wage for qualified Child and Youth Care Workers; increase in the EPWP conditional grant and the increase in the number of funded days from 237 to 264 for ECD programmes.

Expenditure on payments for capital assets has decreased from R3.262 million in 2015/16 to a revised estimate of R28 thousand in 2018/19. In 2019/20, the budget increases by 296.4 per cent from R28 thousand to R111 thousand for procurement of laundry equipment for Child and Youth Care centres.

Table 18 above shows the selected service delivery measures for Children and Families over the 2019 MTEF. Performance in Care and Services to Families is measured by the number of families participating in Family Preservation Services. Child Care and Protection performance is measured by the number of orphans and vulnerable children placed in foster care placement. ECD and Partial Care performance is measured by the number of children accessing ECD Programmes.

8.4 Programme 4: Restorative Services

Objectives: To provide integrated developmental social crime prevention and anti-substance abuse services to the most vulnerable in partnership with stakeholders and civil society organisations. The programme consists of four sub-programmes, namely:

- **Management and Support:** Provide for the payment of salaries and administration cost of the management and support staff providing services across all sub-programmes of this programme;
- **Crime Prevention and Support:** Develop and implement social crime prevention programmes and provide probation services targeting children, youth and adult offenders and victims within the criminal justice process;
- **Victim Empowerment:** Design and implement integrated programmes and services to support, care and empower victims of violence and crime in particular women and children; and
- **Substance Abuse, Prevention and Rehabilitation:** Design and implement integrated services for substance abuse, prevention, treatment and rehabilitation.

Tables 19 and 20 show the summary of payments and budget estimates for programme 4 per sub programme and per economic classification. Expenditure increased from R360.890 million in 2015/16 to a revised estimate of R416.307 million in 2018/19. In 2019/20, the budget increases by 4.5 per cent from R416.307 million to R435.121 million due to provision for ICS, pay progression, additional funding received for Violence Against Women and Children and EPWP conditional grant.

Expenditure on compensation of employees increased from R276.802 million in 2015/16 to a revised estimate of R324.385 million in 2018/19. In 2019/20, the budget increases by 6.8 per cent from R324.385 million to R346.578 million due to provision for ICS, pay progression and filling of vacant funded posts.

Expenditure on goods and services increased from R18.836 million in 2015/16 to a revised estimate of R37.138 million in 2018/19. In 2019/20, the budget decreases by 6.7 per cent from R37.138 million to R34.653 million due to the revision of the Provincial Equitable Share (PES) formula which resulted in adjustment in the provincial allocation.

Expenditure on transfers and subsidies decreased from R63.111 million in 2015/16 to a revised estimate of R54.266 million in 2018/19. In 2019/20, the budget decreases by 2.8 per cent from R54.266 million to R52.758 million due to high revised estimate as a result of emergency payments of community based projects.

Expenditure on payments for capital assets decreased from R2.141 million in 2015/16 to a revised estimate of R518 thousand in 2018/19. In 2019/20, the budget increases by 118.5 per cent from R518 thousand to R1.132 million for the procurement of equipment for state owned Child and Youth Care Centres and treatment centre.

Service Delivery Measures

Table 21: Selected service delivery measures for the programme: P4: Restorative Services

Programme performance measures	Estimated performance	Medium-term estimates			
		2018/19	2019/20	2020/21	2021/22
Number of children in conflict who access secure care centres	-		1 535	1 611	1 691
Number of persons reached through Social Crime Prevention programmes	54 733		75 198	83 957	88 154
Number of human trafficking victims who accessed social services	28		51	54	57
Number of work opportunities created through VEP in line with EPWP	915		906	916	940
Number of people reached through Substance Abuse Prevention programmes	-		122 608	128 738	135 164
Number of service users who accessed Substance Use Disorder treatment services	-		1 589	1 668	1 751
Number of work opportunities created through Substance abuse programme.	220		204	220	230

Table 21 above shows the selected service delivery measures for the Programme: Restorative Services over the 2019 MTEF. Performance in Victim empowerment is measured by the number of victims of crime in funded service centres. Substance Abuse, Prevention and Rehabilitation are measured by the number of service users who accessed substance use disorder treatment services. Crime Prevention and support performance is measured by the number of children in conflict with the law who accessed secure care centres.

8.5 Programme 5: Development and Research

Objectives: To provide sustainable development programmes which facilitate empowerment of communities based on empirical research and demographic information. The programme consists of eight sub-programmes, namely:

- **Management and Support:** Provide for the payment of salaries and administration cost of the management and support staff providing services across all sub-programmes of this programme;
- **Community Mobilisation:** Building safe and sustainable communities through the creation of strong community networks, based on principles of trust and respect for local diversity, and nurturing a sense of belonging and confidence in local people;
- **Institutional Capacity Building and Support for NPOs:** To support NPO registration and compliance monitoring, NPO stakeholder liaison and communication, provide institutional capacity, manage NPO funding and monitoring and create and conducive environment for all NPO to flourish;
- **Poverty Alleviation and Sustainable Livelihoods:** Manage social facilitation and poverty for sustainable livelihood programmes including EPWP;
- **Community Based Research and Planning:** Provide communities an opportunity to learn about the life and conditions of their locality and uplift the challenges and concerns facing their communities, as well as their strengths and assets to be leveraged to address their challenges;
- **Youth Development:** Create an environment to help young people to develop constructive, affirmative and sustainable relationships while concurrently providing opportunities for them to build their competencies and needed skills to engage as partners in their own development and that of their communities;
- **Women Development:** Create an environment to help women to develop constructive, affirmative and sustainable relationships while concurrently providing opportunities for them to build their competencies and needed skills to engage as partners in their own development and that of their communities; and
- **Population Policy Promotion:** To promote the implementation of the population policy within all spheres of government and civil society through population research, advocacy, capacity building and by monitoring and evaluating the implementation of the policy.

Table 24 above shows the selected service delivery measures for the Programme: Development and Research over the 2019 MTEF. Performance in Institutional Capacity Building and support for NPO's is measured by the number of NPO's assisted with registration. Capacitated Poverty Alleviation and Sustainable Livelihoods are measured by the number of people accessing food security and nutrition initiatives. The performance for Women Development is measured by number of women participating in mobilisation programmes. Youth Development performance is measured by the number of youth participating in mobilisation programmes.

1. Personnel numbers includes all filled posts together with those posts additional to the approved establishment

Tables 25 shows personnel numbers and cost by programme and component. The increase in the compensation of employee's budget over the 2019 MTEF period cover inflationary increase on the current number of employees approved through staff establishment.

In 2018/19 there are 4 582 warm bodies which is inclusive of 81 NYS. The increase in personnel numbers is due to provision made for an increase in employment of Social Service Practitioners

Responsible Executive Authority	MEC of Public Works
Administrating Department	Department of Public Works
Accounting Officer	Head of Department

1. Overview

1.1 Vision

Leader in the provision of high quality services in infrastructure delivery.

1.2 Mission

A custodian of provincial government immovable assets and a provider of sustainable infrastructure resulting in socio-economic reforms, sector transformation and development.

1.3 Core functions and responsibilities

- Provide and manage government's building infrastructure, including small town revitalisation, provision of accommodation, leadership to and regulation of the construction and property industries and related professions;
- Regulate and manage the implementation of the Government Immovable Asset Management Act, 2007 (GIAMA);
- Manage and lead the implementation of the Expanded Public Works Programme (EPWP); and
- Implement the skills development initiatives such as the Accelerated Professional and Trade Competencies Development (APTCoD) programme, aimed at developing artisan and professional skills within the province.

1.4 Main Services

- Provision of technical support and technical advisory support, project and contract management services to and on behalf of the provincial government;
- Give assistance to the provincial government in respect of infrastructure routine and planned maintenance;
- Provision of up-to-date, reliable information relating to immovable assets in the province;
- Provision of accommodation to support efficient service delivery objectives of provincial government departments including education and health facilities;

- Management of provincial immovable assets to ensure optimal and efficient utilisation throughout their lifecycle from acquisition to disposition by:
 - Performing condition and performance assessment of the immovable asset to determine the effect of the condition of it on service delivery ability and provide information thereof;
 - Determining the maintenance and costs required to return the immovable asset to the state in which it would provide the most effective service;
 - Maintenance of the province's immovable assets in good working condition that meets any change in service delivery objectives of the provincial government;
 - Payment of rates and taxes for provincial assets; and
 - Provision of facilities management services for provincial assets.
- Ensuring use and disposal of immovable assets in line with the government's socio-economic objectives, including land reform, black economic empowerment, alleviation of poverty, job creation and the redistribution of wealth;
- Provision of job opportunities for the unemployed, empowerment and economic opportunities for the emerging contractors in the construction and property development sector; and
- Co-ordinate and implement the EPWP in the province.

1.5 Demands for and expected changes in the services

The department's mandate continues to be informed by the need to address public works and office accommodation needs for client departments and ensuring that infrastructure expenditure is resulting in socio-economic reforms, sector transformation and development of livelihoods of poor communities of the province and the economy at large. In this regard, the department continues to face pressure to deliver on these services due to increasing demand, threats, opportunities and constraints that continue to emerge from the environment in which it operates.

It also includes growing expectations for improved infrastructure coordination and delivery that came with the Executive Council (EXCO) resolution of 26 April 2017, adopting the Eastern Cape Infrastructure Plan (ECIP) 2030. The Eastern Cape Infrastructure Plan 2030 emphasises effective and efficient infrastructure planning, delivery, operation and maintenance as crucial enablers to derive the socio-economic benefits envisaged from infrastructure investment. The department has to play a crucial and bigger role to support improved infrastructure delivery by departments, in line with the Infrastructure Delivery Management System (IDMS) and the subsequent Standard for Infrastructure Procurement and Delivery Management (SIPDM).

The department continues to solicit inputs from its clients to determine their needs using different modus operandi such as stakeholder engagement sessions and Client Satisfaction Surveys. The overall analysis reveal that client satisfaction is an issue and that there is a huge demand for change and improvement in the quality and turnaround times of services provided. The issues raised compel the department to respond by focusing its attention in the 2019/20 financial year on mostly capacitating itself and allocating financial resources to fulfil the mandate and expectations of its client. The focus will be on innovating and developing systems to gain efficiencies to improve the quality of services it provides.

1.6 The Acts, rules and regulations

The department derives its mandate from the Constitution. In carrying out its core function and responsibilities, the department is governed by the following Acts, rules and regulations: Government Immovable Asset Management Act, (Act 19 of 2007) (GIAMA); Eastern Cape State Land Disposal Act, (Act 7 of 2007); Expanded Public Works Programme Framework and Guidelines, 2015; Construction Industry Development Board Act (Act 38 of 2000); Public Finance Management Act and Regulation, (Act

1 of 1999); Public Service Act (Act 103 of 1994) and Regulations, 2001 as amended; Employment Equity Act (Act 55 of 1998); Labour Relations Act (Act 66 of 1995); and the Supply Chain Management Framework(s).

1.7 Budget decisions

Notwithstanding the continued tight and shrinking fiscal envelope resulting from an unfavourable economic environment facing the country, the department continues to execute its mandate of being a custodian of provincial government immovable assets and a provider of sustainable infrastructure resulting in socio-economic reforms, sector transformation and development.

As a result of the above, the infrastructure historical backlogs on building maintenance remain a cause for concern in terms of resource allocation in the province. Furthermore, the ever-increasing property portfolio, above inflation increases by municipalities in respect of payment of services as well as of rates and taxes also exert more strain in terms of the resource reprioritisation and allocation.

1.8 Aligning departmental budgets to achieve government's prescribed outcomes

In fulfilling its mandate, the department has identified outcomes in the National Development Plan (NDP) and Vision 2030, which are aligned to departmental plans around which the work of the department is organised.

These outcomes are Outcome 4, NDP Chapter 3: Decent employment through inclusive economic growth; Outcome 6, NDP Chapter 4: Support an efficient, competitive and responsive economic infrastructure network; and Outcome 8, NDP Chapter 8: Create sustainable human settlements and improved quality of household life.

To improve on administrative and delivery capacity, the department has aligned its plans to Outcome 12, NDP Chapter 13: Generate an efficient, effective and development oriented public service and an empowered, fair and inclusive citizenship; and Outcome 5, NDP Chapter 9: Develop a skilled and capable workforce to support an inclusive growth path.

In order to respond to these outcomes and NDP priorities, the department has identified three Strategic Outcome Oriented goals around which the work of the department is performed, these include:

- Effective and efficient administrative capacity that is fully responsive to the department's mandate by 2020;
- Immovable assets management regime fully responsive to the needs of the provincial government and its socio economic transformational agenda by 2020; and
- Empowered communities through developing emerging contractors resulting in sustainable livelihoods, employment and economic growth by 2020.

2. Review of the current financial year (2018/19)

2.1 Key achievements

The department has recorded a number of achievements in the year under review against the plans. These achievements are categorised in terms of the agreed provincial priorities of priorities (PoPs) adopted by all three clusters in 2018/19 budget reviews.

Economic Development Cluster

In support of the cluster priorities, under Oceans Economy the department commissioned and completed a land ownership analysis on all state owned land along the coast of the Province that belong to the provincial government within three kilometres strip from the high water mark. The vacant state land along the coast will further be explored to determine its development potential. The process of verifying the planned 4 595 immovable assets in the immovable asset register is ongoing and to be finalised by the end of March 2019.

As a contribution to Tourism, 20 properties were identified and approved for leasing to potential investors. These were advertised but all the bidders were non-responsive, which is to be re-advertised.

The department originally identified 71 provincial owned farms (i.e. agricultural land) which will be investigated through farm audit jointly with the Department of Rural Development and Agrarian Reform (DRDAR) where possible to establish current tenure arrangements and farm potential for commercial farming. From preliminary investigations, 53 farms will be further investigated. Work is also underway in respect of planned 200 condition assessments on properties owned by the province and to be finalised by end of March 2019.

The department continues to implement the approved Revenue Generation Strategy. Approval for 16 properties for revenue generation was done. The department specification to invite proposals for installation of vending machines on state owned buildings have been developed and ready to be presented to the Bid specification committee for subsequent advertising. Implementation of the approved Parking Policy is being fully rolled-out at Head Office. Furthermore, the department is finalising a strategy on the utilisation of closed schools.

Governance and Administration cluster

The payment of property rates and taxes remain one of the key priorities of the department. To this end, the department undertook 10 outreach programmes of which some was aimed at engaging municipalities to find better ways of improving management and payment of rates and taxes, which also seeks to address the billing challenges within municipalities. The department continued to improve its efficiency in coordinating the payment of property rates and taxes on provincial state owned properties to assist municipalities to improve their performance by processing all claims relating to rates and taxes.

Informed by amongst others, the departure of Roads function, the need to respond to the ECIP and the Infrastructure Delivery Management System (IDMS) 2018, the department convened several consultation session with various structures (G&A cluster, Infrastructure Planning Coordination Office etc.). Departments were approached to review the current approved Service Delivery Model (SDM). The department is currently finalising the SDM, which will inform the costing of post structure that would align with available budget. Furthermore, the department continues to capacitate the core programmes using its current approved structure and the 2018/19 Annual Recruitment Plan (ARP).

In its endeavour to improve interdepartmental coordination and institutionalisation of long term planning, the department convened 10 outreach programmes to engage different stakeholders across all regions through the office of the MEC. This was to ensure amongst others, intergovernmental relations, accountability and service delivery is improved. Furthermore, the department continues to implement efficient and effective management and operations systems through a business process-mapping project. Mapping "As Is" process has been completed and signed-off by the entire department.

With regard to attainment of service delivery targets, for the Public Works Infrastructure (Buildings Infrastructure), 17 infrastructure designs were ready for tender against the annual target of 17. These designs include the repairs and renovations of department depot in Queenstown; renovations to Peddie Service Office; renovations to Grahamstown Service Office as well as the upgrading and renovations of the Madwaleni Hospital.

The department continued to implement other capital projects aimed at supporting easy access to government services. These projects are multi-year projects that will continue into the next financial year. Mount Frere Social Cluster Offices, renovations to Qhasana Buildings as well as upgrades to Cape College of education are all at practical completion.

In respect of Maintenance, two (2) planned maintenance projects were awarded against the annual target of three (3), and this included Straundale Security (phase 2) as well as the replacement of lifts at KD Matanzima in Mthatha. Similarly, two (2) maintenance projects were completed within agreed time and budget and these includes Qhasana courtyard heating and ventilation installation in Bhisho as well as the "Old Ford House: Replacement of existing installation" in Sarah Baartman.

To date, only one capital infrastructure project has been completed within agreed time / budget, which was the Sokhululeka SSS in Amathole region, as it was a carry-through from the previous year.

There have been delays in the planned implementation of the proposed Bhisho Office Precinct development. The department received approval on the 29 January 2018 from National Treasury wherein the limited bidding application had been approved in respect of Public Investment Corporation (PIC), Development Bank of Southern Africa (DBSA) and Independent Development Trust (IDT). The request for proposal was issued on the 14 August 2018 and the tender briefing being held on the 17 August 2018 in Bhisho. This tender has been extended to close on 01 March 2019.

Social Transformation cluster

The department identified three (3) initiatives in implementing ICT strategy that support the digital transformation and these include Invoice tracking, Amathuba Job Portal and Logica module for rates and taxes. A service provider has been appointed for Amathuba Job Portal, the order for facilities, rates and taxes has been issued to SITA for Logica module and the project has commenced. The office of the Chief Financial Officer will be implementing manual Standard Operating Procedures instead of an electronic invoice tracking system. The department continues to implement the provincial school building programme.

2.2 Key challenges

The department faces a number of challenges and these include:

- The underachievement on capital infrastructure projects is mainly due to the failure of client departments to pay suppliers on time. Therefore, the department must resolve this issue in order to be an implementer of choice for infrastructure within the province.
- The shrinking fiscus continues to put pressure on the departmental activities.
- The OSD stringent requirements on appointment of professionals as well as professional registration of the candidates with professional bodies continue to hamper the capacitation process in the department.
- The department continues to experience demands for office space from client departments. This is caused amongst other factors by exorbitant amounts of money that is required by service providers.

- The department has adopted the principle of optimally utilising available resources, however this has not yielded the much desired results as the skills that are available are mostly administrative support and not technical.
- Under collection on own revenue due to amongst others delay in implementation of parking policy by user departments as they are either lagging behind or not commenced the implementation.

3. Outlook for the coming financial year (2019/20)

For the financial year ahead, the department will prioritise and focus more on improving provision of its core services in an efficient, economical and effective manner to meaningfully contribute to grow the provincial economy. Informed by the latter, the department has taken a conscious decision to focus on the following:

- In line with the revised SDM, the urgent task for the department to be undertaken encompasses:
 - Empowering and capacitating Public Works to be efficient in performing its mandated functions; and
 - Working towards taking up the full responsibility of facilities management function for the entire government office accommodation currently managed by various provincial departments.
- Capacitation efforts in areas such as Investment and Urban Planning, Construction Procurement and other Built Environment and Real Estate Professionals, Project and Programme Management as well as Infrastructure delivery and coordination of intergovernmental structures as envisaged in the ECIP will also be prioritised.
- Focusing on maintenance of the existing infrastructure rather than constructing new assets by making maintenance more viable, providing more capacity to, especially the in-house maintenance teams to optimise social returns. In this regard, the department targets to award two (2) maintenance projects and complete six (6) within the agreed contract period / budget.
- Putting in place enablers and systems to enforce revenue collection in line with revenue generation strategy. Furthermore, there is an increased demand for the department, as a custodian of immovable assets to engage more in investment planning and revenue generation for the economic growth of the Province. The department will utilise state-owned properties and land parcels in order to generate revenue, through utilisation of various revenue-generation strategies. The department plans to award 25 revenue generation projects.
- Provision of office accommodation through ‘office parks’ such as Bhisho Office Precinct; district cluster offices to house various government departments in single premises for facilitation of easy access to government services will continue to receive priority. The department will embark on the development of the provincial office accommodation plan. This plan has 3 phases, Head Office, District and local and the focus will be on Head Office in the 2019/20.
- Improving the provision of prestige services as well as branding of office buildings in line with the 100 years and ‘Home of Legends’ theme including ensuring accessibility to all citizens.
- Continue implementing the payment of property rates and taxes as well as municipal services.
- Increase EPWP job opportunities, by increasing employment of youth in construction and women in construction by aligning to equity targets for designated groups. In this regard, 2 940 EPWP work opportunities is planned to be created by the department and 2 672 will be full-time equivalent. Four (4) beneficiary interventions will be undertaken, which includes Contractor development programme, APTCoD and NYS programmes as well as training. The department will implement seven (7) intervention to help 50 public bodies create job opportunities.
- Improve efficiency of operations through implementation of various systems such as a Call Centre, Online Leave system, PMDS system, Online Recruitment process and a system to pay supplier

- invoices within 30 days' in order to avoid service delivery challenges like delays in completing projects and /or termination of projects before completion;
- Implementing Socio-economic Transformation agenda through adherence to the Local Economic Development Framework.
 - Ensuring compliance to the government's objectives of ensuring that all public buildings are user-friendly and thus accessible to people with disabilities by, amongst other:
 - Conversion of non-compliant Government Buildings already identified by Regions;
 - Ensuring that all new buildings are compliant (NBR);
 - Procurement of stand-by generators to high rise buildings; and
 - Procurement of evacuator chairs for the physically challenged.

4. Reprioritisation

In budgeting for non-core items, all relevant cost-cutting circulars / practice notes will continue to inform how the department allocates its budget. Furthermore, the department has effected reprioritisation in order to release funds for other priorities such as EPWP programmes.

5. Procurement

The department will procure a number of projects through the bidding process (90/10 thresholds). A number of projects will also be procured through the quotation process (80/20 thresholds). The method of procurement will be determined through discussions with the project leaders and will be in line with current supply chain management regulations including the Standard for Infrastructure Procurement and Delivery Management (SIPDM), which covers the supply chain management for infrastructure delivery. The procurement processes will be aligned according to the implementation date of the project as listed on the department's procurement plan.

6. Receipts and financing

Table 2 shows the source of funding for the department from 2015/16 to 2021/22. For the 2019 MTEF, the main source of funding is equitable share and conditional grant. In 2019/20, the equitable share allocation decreases by 3 per cent to R2.358 billion from the revised estimate of R2.431 billion of 2019/20. The decrease is attributable to once off allocation for rates and taxes allocated during the 2018 Adjustments Estimates as well as implementation of baseline reduction. Expanded Public Works Programme Integrated

Grant for Provinces increases by 36.1 per cent in 2019/20 due to increased allocation from the National Department of Public Works, as this grant is performance based.

6.2 Departmental receipts collection

Table 3 above shows that the department collected R25.817 million in 2015/16, which decreased to a revised estimate of R14.424 million in 2018/19. The 2015/16 revenue collection includes a significant once off sale of capital assets, which explains the noted decrease. Furthermore, in 2018/19, the department experienced challenges in the implementation of the revenue enhancement strategy, which includes amongst others, the parking policy. In 2019/20, own receipts increase by 160.4 per cent to R37.556 million from the 2018/19 revised estimate. The significant increase is due to the implementation of the revenue enhancement strategy, which includes, full implementation of the parking tariffs, advertising on state-owned buildings, installation of vending machines in government departments, leasing of communication towers (e.g. cellular masts) as well as leasing out of closed and unutilised schools at market related rates.

7. Payment summary

7.1 Key assumptions

The following assumptions were taken into consideration when this budget was formulated:

- National and Provincial Treasury Instructions on cost containment measures;
- Personnel related adjustments have been taken into account in line with adjustments contained in the Budget Guidelines; and
- The CPI inflation projections have been taken into account for non-personnel budgets.

Tables 4 and 5 show the summary of payments and estimates for the department per programme and economic classification. Actual expenditure increased from R1.828 billion in 2015/16 to a revised estimate of R2.436 billion in 2018/19. The increase is attributable in the main to normal inflationary adjustments as well as the additional funding for the property management portfolio, construction, facilities management as well as community development. In 2019/20, the budget decreases by 2.9 per cent to R2.365 billion mainly due to the implementation of the baseline reduction.

Compensation of employees expenditure increased from R696.236 million in 2015/16 to a revised estimate of R820.711 million in 2018/19. The increase is due to the carry-through costs as well the capacitation, mainly the core service delivery areas such as the property management portfolio, buildings infrastructure as well as in financial management directorates. In 2019/20, the budget increases by 8.1 per cent to R887.102 million. This is attributable to the improvement in conditions of service as well as the provision for filling of vacant critical positions in the department.

Expenditure on Goods and services increased from R631.566 million in 2015/16 to a revised estimate of R797.785 million in 2018/19. The increase is due to the escalating demand for office space and the improvement in the property management portfolio. In 2019/20, the budget marginally increases by 2.8 per cent to R819.973 million, which is attributable to baseline reductions.

Transfers and subsidies increased from R251.012 million in 2015/16 to a revised estimate of R569.406 million in 2018/19. This increase is attributable to the broadening of the property portfolio owned by the province as well as the impact of higher municipal valuations that increases the property rates and taxes. In 2019/20, the budget decreases by 29.2 per cent to R403.349 million. This is due to once off allocation of R92 million in the main budget for 2018/19 for settlement of old municipal debt and the court case for the King Williams Town Housing Association (KWTHA) as well as a further allocation of R61.623 million (arrear debt and higher municipal valuations) in the adjustment budget.

Payments for capital assets marginally increased from R244.623 million in 2015/16 to a revised estimate of R248.220 million in 2018/19. The marginal increase is attributable to the department's decision to focus

and direct its resources to maintain existing infrastructure rather than to build new stock as well as slower implementation of some of the capital infrastructure projects in the current year. In 2019/20, the budget increases marginally by 2.7 per cent to R254.841 million as the department continues with the capital infrastructure projects.

Table 6 above provides the summary of expenditure by the department in each of the benefiting municipalities.

Expenditure in the municipalities accommodates key projects (i.e. office accommodation, payment of rates and taxes, district development and maintenance etc.) as well as empowerment of communities through interventions such as EPWP programmes. Over the 2019 MTEF, the bulk of the department's service delivery spending is concentrated in district municipalities with OR Tambo receiving the most, followed by Alfred Nzo, Joe Gqabi, Chris Hani, Cacadu and Amathole receives the least.

1. Total provincial infrastructure is the sum of "Capital" plus "Recurrent maintenance". This includes non infrastructure items.

Table 7 above presents a summary of infrastructure payments and its estimates by category. A more detailed listing of infrastructure projects to be undertaken by the department can be found under Annexure B5 of this chapter.

The aggregate total departmental infrastructure spending decreased from R272.278 million in 2015/16 to a revised estimate of R254.787 million in 2018/19 due to once off allocations and/ or completed projects. In 2019/20, the budget increases by 1 per cent to R257.302 million and this can be attributable to the department's reprioritisation within Programme 2: Public Works Infrastructure to fund the Project Management Office (PMO) in 2019/20 as an effort to strengthen its infrastructure management capacity.

Upgrades and additions increased from R134.990 million to a revised estimate of R155.232 million in 2018/19. In 2019/20, the budget decrease by 2.3 per cent to R151.664 million. The new infrastructure assets decrease from R84.368 million in 2015/16 to a revised estimate of R65.536 million in 2018/19. The decline on both categories is due to department's focusing on maintenance. In 2019/20, it decreases further by 2.6 per cent to R63.824 million.

Detailed breakdown of infrastructure is provided in the attached Annexure B5 project list.

7.5.2 Maintenance

Maintenance and repairs decreased from R42.617 million in 2015/16 to a revised estimate of R34.019 million in 2018/19. In 2019/20, the budget increase by 22.9 per cent to R41.814 million as the department continues to put more focus on maintaining existing infrastructure.

7.5.3 Non Infrastructure

None.

This conditional grant increases by 36.1 per cent from the revised estimate of R5.008 million in 2018/19 to R6.814 million in 2019/20. The grant is the department's share of the Expanded Public Works Incentive grant to provinces based on the Full Time Equivalent (FTEs) job opportunities created by the department.

Table 10 above shows the summary of transfers in respect of payment of property rates and taxes for provincial owned properties. Transfers increased from R226.957 million in 2015/16 to a revised estimate of R544.390 million. This increase is attributable to the broadening of the property portfolio owned by the province as well as the impact of higher municipal valuations that increases the property rates and taxes.

In 2019/20, the budget decreases by 30.5 per cent to R378.104 million. This is due to once off allocation of R92 million in the main budget for 2018/19 for settlement of old municipal debt and the court case for the King Williams Town Housing Association (KWTHA) as well as a further allocation of R61.623 million (arrear debt and higher municipal valuations) in the adjustment budget.

8. Programme Description

8.1 Programme 1: Administration

Objectives: Provides administrative, strategic, financial and corporate support services in order to ensure that it delivers on its mandate in an integrated, efficient, effective and sustainable manner. The programme is divided into 3 sub-programmes as follows:

- **Office of the MEC:** To render advisory, secretarial, administrative and office support service;
- **Management of the Department:** Overall management and support of the department; and
- **Corporate Support:** Manages personnel, procurement, finance, administration and related support services.

Tables 11 and 12 above summarise the expenditure and budgeted estimates relating to Programme 1: Administration over the period 2015/16 to 2021/22 per sub-programme and economic classification. Expenditure increased from R496.251 million in 2015/16 to a revised estimate of R569.937 million. In

2019/20, the budget marginally increases by 1.6 per cent to R578.813 million mainly due to the baseline reductions.

Compensation of employees expenditure increased from R300.537 million in 2015/16 to a revised estimate of R356.699 million. This increase is attributable to building capacity for financial management branch as well as providing for improvements to conditions of service. In 2019/20, the budget increases by 6.9 per cent to R381.388 million due to inflationary adjustments as well as provision for filling of critical posts in the programme

Goods and services increased from R152.232 million in 2015/16 to a revised estimate of R155.600 million. In 2019/20, the budget decreases by 13.9 per cent to R133.968 million due to cost saving measures implemented by the department on non-core items as well as baseline reductions.

Transfers and subsidies increased from R23.992 million in 2015/16 to a revised estimate of R25.016 million. In 2019/20, the budget increases marginally by 0.9 per cent to R25.245 million. This is mainly to cater for employees exiting the system as well as external bursaries.

Payment for capital assets increased from R18.679 million in 2015/16 to a revised estimate of R32.622 million. The increase is largely attributable to the provision of office equipment for newly appointed staff and replacement of computers that have reached useful lifespan and upgrade of Storage Area Network (SAN) for Amathole and Head Office. In 2019/20 the budget increases by 17.1 per cent to R38.212 million due to provision of furniture and computer equipment for the staff.

8.2 Programme 2: Public Works Infrastructure

Objectives: To provide a balanced and equitable provincial government building infrastructure by promoting accessibility that is sustainable, integrated and environmentally sensitive which supports economic development and social empowerment. The programme is divided into 7 sub-programmes as follows:

- **Programme support:** To manage the activities of the professional components strategically as well as to render an administrative support services to the professional components with regard to finance matters and supply chain management;
- **Planning:** Manages the demand for infrastructure, development, monitoring and enforcement of the built sector as well as property management norms and standards;
- **Design:** Designs new and upgrade building infrastructure with the intention to ensure that plans are ready for funding and will include only 4 of the 6 procab stages (namely, project inception, concept design, design development and projects documentation);
- **Construction:** Responsible for new construction, upgrading and refurbishment and it entail 2 of the procab stages (namely, stage 5: construction period and contract administration and stage 6: project close out and debriefing);
- **Maintenance:** Responsible mainly for four maintenance activities, namely: routine maintenance, scheduled maintenance, alterations and conditions assessment of all buildings;
- **Immovable Asset Management:** Manages the property portfolio of the province by establishing and managing the provincial strategic and infrastructure plan, to provide accommodation for all provincial

departments and other institutions as well as acquire and dispose of accommodation in terms of the plans; and

- **Facility Operations:** Manages the operations of buildings (including facilities management, cleaning, greening, beautification, interior decoration and designs and day to day preventative maintenance of electronic, electrical and mechanical equipment) and all services related to managing a building.

Tables 13 and 14 above show that expenditure increased from R1.254 billion in 2015/16 to a revised estimate of R1.767 billion. This is attributable to the increase in the property management portfolio and the settlement of old municipal debt. In 2019/20, the budget decreases by 5.8 per cent to R1.665 billion due once off allocation in 2018/19 for the settlement of old municipal debts as well as baseline reductions.

Compensation of employees increased from R337.973 million in 2015/16 to a revised estimate of R395.675 million in 2018/19. The increase is attributable to the building of capacity within the property portfolio and buildings infrastructure. In 2019/20, the budget increases by 9 per cent to R431.113 million due to the ICS adjustment as well as provision for recruitment of critical posts in the programme.

Goods and services spending increased from R459.667 million in 2015/16 to a revised estimate of R613.696 million in 2018/19. This increase is due to the ever-increasing demand for office space by client departments and increasing property management portfolio. In 2019/20, the budget increases by 4.4 per cent to R640.989 million due to provision made for normal inflationary adjustments.

Transfers and subsidies increased from R227.008 million in 2015/16 to a revised estimate of R544.390 million in 2018/19. This increase is attributable to the broadening of the property portfolio owned by the province as well as the impact of higher municipal valuations that increases the property rates and taxes. In 2019/20, the budget decreases by 30.5 per cent to R378.104 million. This is due to once off allocation of R92 million in the main budget for 2018/19 for settlement of old municipal debt and the court case for the King Williams Town Housing Association (KWTHA) as well as a further allocation of R61.623 million (arrear debt and higher municipal valuations) in the adjustment budget.

Payment for capital assets decreased from R225.386 million in 2015/16 to the revised estimate of R214.038 million in 2018/19. In 2019/20, the budget marginally increases by 0.7 per cent to R215.488 million due to the department's reprioritisation to fund the Project Management Office (PMO) as an effort to strengthen its infrastructure management capacity.

8.3 Programme 3: Expanded Public Works Programme

Objectives: To manage the implementation of programmes and strategies that lead to the development and empowerment of communities and contractors. This includes the provincial management and coordination of the Expanded Public Works Programme. The programme is divided into 4 sub-programmes:

- **Programme Support:** Overall management and support of the branch, including provision of back office technical administration, provision of built sector knowledge management services, finance, built sector supply chain management and management of stores, telecommunications as well as serving as the coordinating division of the branch;
- **Community Development:** Programmes to bring about the development and empowerment of impoverished communities.
- **Innovation and Empowerment:** To facilitate contractor development, empowerment and training including Learnerships; and

- **Co-ordination and monitoring:** To manage and coordinate the implementation of EPWP projects and programmes and monitor compliance to EPWP guidelines by all sectors.

Tables 16 and 17 show that expenditure increased from R77.963 million in 2015/16 to a revised estimate of R98.386 million in 2018/19. In 2019/20, the programme's budget increases by 22.7 per cent to R120.758 million. This increase is attributable to provision for the protective clothing, working tools, training and transportation for the in-house teams which includes National Youth Service (NYS) as well as Accelerated Professional and Trade Competency Development (APTCoD) programmes.

Compensation of employees increased from R57.726 million in 2015/16 to a revised estimate of R68.337 million in 2018/19 due to the normal inflationary adjustment. In 2019/20, the budget increases by 9.2 per cent to R74.601 million due to the ICS adjustment as well as provision for recruitment on critical posts in the programme.

Goods and services increased from R19.667 million in 2015/16 to a revised estimate of R28.489 million. In 2019/20, the budget increases by 58 per cent to R45.016 million. This is attributable to provision for the protective clothing, working tools, training as well as transportation for the in-house teams which includes NYS as well as APTCoD programmes.

Payments for capital assets increased from R558 thousand in 2015/16 to a revised estimate of R1.560 million. In 2019/20, the budget decreases by 26.9 per cent to R1.141 million, which is attributable to the reduced funding for purchasing of office furniture and equipment for staff in the programme.

1. Personnel numbers includes all filled posts together with those posts additional to the approved establishment

Table 19 above shows that personnel number decreased from 3 724 at a cost of R696.236 million in 2015/16 to a revised estimate of 3 027 at cost of R820.711 million in 2018/19. In 2019/20 the personnel number increases to 3 258 with a corresponding cost of R887.102 million. The increase in the personnel numbers is as a result of the department's efforts to continue improving the internal capacity, mainly in core service delivery programmes.

Responsible Executive Authority	MEC for Education
Administrating Department	Department of Education
Accounting Officer	Head of Department

1. Overview

1.1 Vision

Provide learners with opportunities to become productive and responsible citizens through quality basic education.

1.2 Mission

To implement appropriate and relevant educational programmes through quality teaching and learning, and at the same time mobilizing community and stakeholder support through participation and to institutionalize a culture of accountability at all levels of the department.

1.3 Core functions and responsibilities

To provide quality education and training from Grade-R to Grade 12, the managing of teacher supply, demand and utilisation and provisioning of high quality school infrastructure in the Eastern Cape.

1.4 Main Services

- Resourcing and delivering of quality education by empowering all learners to become responsible citizens through equipping them with skills, knowledge and values to contribute positively to the development of both the individual and society;
- Universalisation of Early Childhood Development (ECD) by, in particular, focusing on learners accessing Grade R;
- Continuous improvement in pass rates for Languages and Mathematics in the General Education and Training (GET) Band – Grades 1 to 9 to achieve 90 per cent by 2030;
- Improvement not only in the number of National Senior Certificate (NSC) passes, but also in the quality thereof as demonstrated by the increased pass rates in Mathematics and Science and eligibility for Bachelor degrees;
- Support quality education through the timely provisioning of qualified teachers, adequate Learner-Teacher Support Material (LTSM), school furniture and school infrastructure, including innovatively addressing backlogs on an ongoing basis;

- Continued focus on Mathematics and Science in all schools;
- Facilitating access to education for learners from poor households through the National School Nutrition Programme (NSNP) and focussing on learner well-being through Physical Education, the Integrated School Health Programme and school sports and culture;
- Continued rationalisation of small schools and realignment of Combined and Junior Secondary Schools;
- Improving the capacity of educators, school managers and school governing bodies; and
- Enhancing support to schools through an appropriate Service Delivery Model and the establishment of functional circuits that are realigned to Districts and Head Office.

1.5 Demands for and expected changes in the services

In line with the implementation of the new Service Delivery Model (SDM), the department has reduced its number of districts from 23 to 12. The effect of the new SDM is an integrated education system that is responsive to the education needs of the province.

The department will continue to strengthen the Provincial Teacher Development Institute through the establishment of 11 district teacher development centre models to synergise the introduction of Professional Learning Communities (PLCs) for best practice sharing, enhancing content mastery teaching skills and mentoring in terms of the Integrated Teacher Education.

1.6 The Acts, rules and regulations

The department derives its mandate from:

- The Constitution of the Republic of South Africa, 1996 (Act No. 108 of 1996); National Education Policy Act, 1996 (Act No. 27 of 1996); South African Schools Act, 1996 (Act No. 84 of 1996); Employment of Educators Act, 1998 (Act No. 76 of 1998); South African Qualifications Authority Act, 1995 (Act No. 58 of 1995); Curriculum 2005 (C2005); Eastern Cape Schools Education Act, 1999 (Act No. 1 of 1999); Education Laws Amendment (Conduct of Matriculation Examinations) Act, 1995 (Act No. 4 of 1995); Education White Paper 5 on Early Childhood Education (May 2001); Education White Paper 6 Building an Inclusive Education & Training System (July 2001); and Draft White Paper on e-Education, August 2003.

1.7 Budget decisions

In constructing the budget allocations for the department, external activities and events related to budget decisions were taken into consideration. This includes, amongst other things:

- A downward adjustment to the provincial fiscal framework for both the equitable share and conditional grants, which resulted in the department's baseline being reduced by a total amount of R3.425 billion over the 2019 MTEF period;
- In order to adapt to the reduced envelop, whilst at the same time striving towards maintaining high quality levels of service delivery, the department reprioritised funds from non-core items in favour of core service delivery programmes;
- Any cost of living adjustments over and above what is budgeted for, will increase expenditure and put strain on the budget; and
- Key sector policy priorities have been considered in the resource allocation activities and funds have been reprioritised in support of the new SDM and the implementation of the new organogram structure.

1.8 Aligning departmental budgets to achieve government's prescribed outcomes

Government has adopted the National Development Plan (NDP) 2030 as its vision, which is to be implemented over three electoral cycles of government. The Medium Term Strategic Framework (MTSF) 2014 to 2019 finds its mandate from the NDP 2030. The NDP and the MTSF 2014 to 2019, forms the umbrella goals for the education sector.

The departmental budget and the work of the department are both aligned to the achievement of National Outcome 1 of the NDP, which advocates for "Improved Quality of Basic Education". Thus, the budget of the department has been prioritised to ensure that there is an ongoing improvement in this regard.

The indicative baseline has been reviewed and key cost drivers that contribute to the achievement of the sector outcome have been identified and adequately funded over the 2019 MTEF period.

2. Review of the current financial year (2018/19)

2.1 Key achievements

The departmental budget allocation goes towards personnel, educators in particular, the department has been able to fill 52 612 school based educator posts against the Post Provisioning Norm (PPN) declaration of 54 026 posts, both in Public Ordinary Schools and Public Special Schools. The PPN makes provision for the appointment of Grade R educators at qualifying schools, posts for substitutes, special intervention, curriculum and growth, remedial educators, language teaching and critical posts such as Therapists.

Targeted support to districts and schools through the rollout of a variety of learner support programmes, coupled with a focus on improving the quality of teaching and learning has resulted in improved learning outcomes for all Grades over the past three years. The consolidated results for Grades 1 to 11 are on a positive trend, having increased from 84 per cent in 2016 to 86 percent in 2018. The department's targeted interventions for Grade 11 resulted in improvements in the overall pass rate, which improved from 66 per cent in 2016 to 70.4 percent in 2018.

The 2018 academic year's matric pass rate (National Senior Certificate) for the province has improved for the third year in a row. The province achieved an overall pass rate of 70.4 per cent, which is a 5.6 percent improvement from 2017 outcomes. The positive learning outcomes for the 2018 school year provide a solid foundation for further improvements.

The implementation of the SDM continued, with emphasis placed on ensuring that the efforts of all officials are principally aimed at supporting learners. During the period under review, the department appointed two Cluster Chief Directors and eight District Directors in support of this initiative.

Teacher Development, in collaboration with General Education and Training (GET) curriculum, focussed on the utilisation of isiXhosa readers in the Foundation Phase. This training initiative reached 192 subject advisors and lead teachers and was conducted in partnership with Funda Wande. Further Education and Training (FET) curriculum engaged in Language Literature training for Grade 10-12 teachers. As such, a total of 127 teachers were trained in isiXhosa, Sesotho and English, collectively.

The department recruited 20 additional therapists and psychologists at special schools and advertised Director posts for Inclusive Education and identified 5 Special Schools to function as Resource Centres.

The department delivered a total of 16 mobile classrooms in various schools whilst one special school was completed and the refurbished hostels were occupied. Furthermore, three (3) ECD centres were completed while most projects allocated in this category remained under construction.

A total of 1 611 245 learners in Public Ordinary Schools benefited from the “No fee” school policy, whilst 1 594 621 learners benefitted from the National School Nutrition Programme (NSNP). This includes coverage of the attached Grade R classes and targeted special schools.

In collaboration with the Department of Basic Education (DBE), the province conducted two workshops for Deaf learners, which focused on Sign Language that was written for the first time at Grade 12, in the 2018 National Senior Certificate Examinations. Support to teachers was provided through workshops for English Home Language and first additional languages: isiXhosa and Sesotho, Life Sciences, Information Technology (coding) and Geography.

The E-Learning programme has made considerable progress with 515 schools having been connected to Telematics for broadcasting of critical subjects, 987 smart classrooms deployed in 293 schools and all schools being provided with laptops to support the operationalisation of SASAMS, Data Driven Districts (DDD) and other systems including email system.

2.2 Key Challenges

The challenges listed below have been identified for improvement over the 2019 MTEF:

- The prolonged finalisation of the department’s organisational structure, thus decelerating its process of implementation;
- The rationalisation of schools resulted in an unanticipated increased demand for scholar transport and related resources; and
- The department remains confronted with a shortage of qualified Mathematics and Science teachers, as well as budgetary constraints in the context of professionalisation of Early Childhood Development (ECD).

3. Outlook for the coming financial year (2019/20)

As part of the needs-based education provision, the department will continue, as part of its key strategic focus, to provide resources needed for effective teaching and learning. This includes the resourcing of schools with staffing, teaching and learning material, provision of quality infrastructure, equipment, educational facilities and access to Information and Communications Technology (ICT) and prioritising professional teacher development.

The department will endeavour to reshape and re-organise the education system in the province, through the school rationalisation programme in order to provide quality education for each learner and a better teaching environment for teachers. The focus will be on building a number of large, viable schools with hostels in rural areas, revitalisation of township schools and building day schools in new urban settlements thus decreasing the need to transport learners. The outcome of the school rationalization programme is expected to result in a net decrease in the number of primary and combined schools, and a slight increase in the number of secondary schools. Plans are underway with a focus on improving the institutional capacity of circuits, and district Offices to discharge their responsibilities in respect of the rationalization programme.

The department declared a 3 year-agreement in terms of the Post Provisioning Norms (PPN) for Public Ordinary and Special Schools, with a total allocation of 54 026 educator posts. These numbers will be

sustained until 2020. The department made provision to appoint a number of Funza Lushaka bursary holders and continues to promote the use of mother tongue education in schools.

One of the priority areas in data management will be the continued implementation of SASAMS with special focus on the improvement of data quality and the availability of data at regular intervals. The automation processes, related to the collection and processing of data, will further be enhanced to allow data to be uploaded directly from schools and approved by the relevant officials online.

The school nutrition programme, fee exemption relief and safe schools project aim to provide a stable learning environment that will keep learners healthy and focused for as long as possible. Thus 1 691 807 learners are set to benefit from the “No fee” school policy, whilst over 1.6 million learners in quintiles 1-3 and qualifying quintiles 4 and 5, including ECD learners and targeted Special Schools, are expected to benefit from the NSNP. The department will continue to maintain and resource hostels for cluster schools to support access to education.

Independent schools that enrol learners from poor communities will continue to be supported through government subsidies and school visits.

4. Reprioritisation

In light of limited financial resources, the department has identified a number of non-core items and ensured that the budget allocated to these items is minimal, whilst ensuring that core-spending activities are adequately funded. Furthermore, the department will strictly implement and monitor the implementation of the Treasury Instruction Notice of 2017/18.

The majority of funds have been reprioritised from non-core items, e.g. communication towards core service areas where funding is required the most.

5. Procurement

The department will continue to develop and implement policies and procurement plans for 2019/20 to ensure that the needs of the department are in line with the pillars underpinning the department’s strategy as well as its allocated budget.

The department is targeting certain high volume commodities for Local Economic Development (LED), which requires a review of its policies to ensure the successful implementation of LED and adherence to the Preferential Procurement Regulations (PPR). The department promotes LED procurement by awarding contracts to local suppliers. The major procurement to be undertaken continues to include, school furniture, repairs and/or refurbishment of school furniture, Learner Teacher Support Material, office furniture, hostel catering, travel and accommodation etc.

Table 2 above shows the summary of departmental receipts. The main sources of receipts are the equitable share allocation and conditional grants. The equitable share allocation increased from R26.270 billion in 2015/16 to a revised estimate of R32.529 billion in 2018/19, whilst the conditional grants allocation increased from R2.155 billion to a revised estimate of R2.830 billion in the same period. For 2019/20, the equitable share allocation grows minimally by 2.4 per cent from the 2018/19 revised estimate largely due to the reduction in the department's baseline. For 2019/20, the conditional grant receipts show growth of 6.5 per cent from 2018/19 mainly due to increased Education Infrastructure Grant allocation.

Table 3 above depicts the summary of departmental own receipts and estimates. Departmental receipts decreased from R110.816 million in 2015/16 to a revised estimate of R80.580 million in 2018/19. However, the total estimated receipts increase by 1.4 per cent between 2018/19 and 2019/20. The slight increase is due to the revised revenue estimates due to higher than anticipated recovery of staff debt. The outer years of the 2019 MTEF are expected to increase in line with projected Consumer Price Index (CPIX).

6.3 Official development assistance (donor funding)

None.

7. Payment summary

7.1 Key assumptions

The following assumptions were considered in formulating the departmental budget over the period:

- Provision for salary increases based on the average costs per employee. This provision is inclusive of other personnel related costs such as incentives, pay progression and carry through effect of the adjustments contained in the wage agreements;
- Inflationary provision(CPI) for non-personnel expenditure where considered appropriate except in specific areas, which are in line with departmental targets;
- Funding of non-negotiables to a limited level of affordability and Norms and standards funding;
- Funding of the SDM, Implementation of Learner Attainment Improvement Strategy; and
- Contractual obligations.

Tables 4 and 5 above show the total departmental payments and estimates per programme and economic classification. The department's expenditure increased from R28.425 billion in 2015/16 to a revised estimate of R35.359 billion in 2018/19. The majority of departmental programmes reflect positive growth in their respective budgets, except those programmes which have suffered major cuts in their respective budget allocations, coupled with the effect of revised budget baselines.

Expenditure on Compensation of Employees (CoE) grew from R22.632 billion in 2015/16 to a revised estimate of R27.445 billion in 2018/19, whilst the 2019/20 estimated budget grows by 5.6 per cent mainly to cater for personnel related expenditure increase. The outer years of the MTEF period show a stabilised growing pattern.

Goods and Services expenditure grew from R2.143 billion in 2015/16 to a revised estimate of R3.496 billion in 2018/19 mainly due to the centralisation of Norms and Standards (LTSM and property payments) budget for Quintiles 1-3 schools. However, the estimated budget decreases by 18 per cent from R3.496 billion in 2018/19 revised estimates to R2.867 billion due to the effect of the current over expenditure.

Transfers and Subsidies increased from R2.574 billion in 2015/16 to a revised estimate of R2.868 billion in 2018/19. The budget for 2019/20 continues to show growth of 5.8 per cent from 2018/19 revised estimates mainly to provide for transfers to schools. The "per learner funding" amounts to be paid to schools is budgeted in line with prescribed national norm for all school quintiles.

Capital expenditure has increased from R1.015 billion in 2015/16 to a revised estimate of R1.549 billion in 2018/19, whilst the estimated budget for 2019/20 shows a decline of 6.7 per cent from the current revised baseline. This reduction is due to the effect of the once off capital budget provided during the adjustment estimates to complete the ongoing projects, as well as pressures related to capital infrastructure delivery projects under Education Infrastructure Grant, which were not originally provided in the budget planning process (B5).

1. Total provincial infrastructure is the sum of "Capital" plus "Recurrent maintenance". This includes non infrastructure items.

Table 7 above shows the summary of payments and estimates on infrastructure per category. Expenditure on infrastructure increased from R1.450 billion in 2015/16 to a revised estimate of R1.661 billion in

2018/19. Between 2018/19 and 2019/20, the budget decreases by 4.3 per cent from the current revised baseline to R1.589 billion in 2019/20. The decline in the budget results from the effect of the high revised estimates, which stems from the disbursement of infrastructural projects, which were not original catered for during the budget planning.

Expenditure on existing infrastructure decreased from R1.447 billion in 2015/16 to a revised estimate of R1.428 billion in 2018/19, and continues to show a declining trend over the MTEF period, given the emphasis to maintain and repair existing infrastructure over the period.

7.5.2 Maintenance

Expenditure on maintenance increased from R10.347 million in 2015/16 to a revised estimate of R39.735 million in 2018/19. In 2019/20, the maintenance budget increased by 74.2 per cent.

7.5.3 Non Infrastructure

The non-infrastructure budget shows a healthy growth rate of 17.4 per cent in 2019/20 due to reprioritisation of funds to resource facilities and capacitation of the programme.

7.6 Departmental Public-Private Partnership (PPP) projects

None.

Tables 8 and 9 above depict the summary of departmental conditional grants by grant name and economic classification. Overall, conditional grants spending increased from R2.223 billion in 2015/16 to a revised estimate of R2.977 billion in 2018/19. However, the grant allocation increases by 1.2 per cent below the projected inflation between 2018/19 and 2019/20 mainly due to the impact of current year's revised estimates, emanating from higher than anticipated the EIG.

8. Programme description

8.1 Programme 1: Administration

Objectives: Provide overall management of the education system in accordance with the National Education Policy Act and other policies/legislation. The programme has 6 sub-programmes:

- **Office of the MEC:** Provides for the functioning of the office of the MEC for education in line with the ministerial handbook;
- **Corporate Services:** Provides management services such as Human Resource Management, Information Technology and Systems, Supply Chain Management, Finance and Strategic Management Monitoring and Evaluation;
- **Education Management:** Provides education management services for the education system, such as educational planning and curriculum development through District Coordination and Management Clusters;
- **Human Resource Development:** Provides human resource development for office-based staff;
- **Conditional Grants:** Responsible for projects specified by Department of Basic Education (DBE) and funded with conditional grants; and
- **Education Management Information:** Provides an Education Management Information System (EMIS) in accordance with the National Education Information Policy.

Tables 10 and 11 above show the summary of payments and estimates of expenditure per sub-programme and economic classification. Total expenditure increased from R2.244 billion in 2015/16 to a revised estimate of R2.883 billion in 2018/19. The estimated budget grows by 6.2 per cent from 2018/19 to 2019/20 due to inflationary adjustments.

Expenditure on Compensation of Employees increased from R1.855 billion in 2015/16 to a revised estimate of R2.183 billion in 2018/19. The estimated budget also grows by 9.7 per cent between 2018/19 and 2019/20 to make provision for the Improvements in Conditions of Service (ICS) emanating from the 2017 Public Sector wage agreement as well as the implementation of the new organogram.

Expenditure on Goods and Services increased from R334.446 million in 2015/16 to a revised estimate of R618.630 million in 2018/19, whilst the estimated budget for 2019/20 will decrease by 4.3 per cent from the revised estimates. This decrease in the allocated budget is attributed to the once off expenditure costs incurred during the year.

Transfers and Subsidies increased from R19.937 million in 2015/16 to a revised estimate of R39.320 million in 2018/19. The estimated budget decreases by 35.3 per cent between 2018/19 and 2019/20 from R39.320 to R25.446 million, mainly due to a significant decrease in the revised estimates, emanating from a delayed payment of leave gratuities for employees who opted to leave the system.

Capital expenditure increased from R35.149 million in 2015/16 to a revised estimate of R42.140 million in 2018/19. The estimated budget will increase by 19.3 per cent between 2018/19 and 2019/20. This significant growth in budget results from the planned procurement of computer equipment, hardware servers and other ICT gadgets that are capital in nature.

8.2 Programme 2: Public Ordinary Schools Education

Objectives: Provides for public ordinary schools from grades 1 to 12, in accordance with current legislation. This programme has 5 sub-programmes:

- **Public Primary Level:** Provides specific public primary ordinary schools (inclusive education) with resources required for grades 1 to 7 levels;

- **Public Secondary Level:** Provides specific public secondary ordinary schools with resources required for the grades 8 to 12 levels;
- **Human Resource Development:** Provides departmental services for the professional and other development of educators and non-educators in public ordinary schools;
- **School Sport, Culture and Media services:** Provides additional and departmentally-managed sporting, cultural and reading activities in public ordinary schools; and
- **Conditional Grants:** Provides for the projects under programme 2 specified by the DBE and funded by conditional grants.

Tables 13 and 14 above depicts a summary of payments and estimates of expenditure per sub-programme and economic classification. Expenditure increased from R23.090 billion in 2015/16 to a revised estimate of R28.879 billion in 2018/19. The estimated budget increases minimally by 2.9 per cent between 2018/19 and 2019/20 mainly due to the impact of baseline reduction.

Expenditure on Compensation of Employees increased from R19.746 billion in 2015/16 to a revised estimate of R24.010 billion in 2018/19. The estimated budget increases by 5.9 per cent in 2019/20 mainly to provide for the cost of living adjustments and the Post Provision Norms for educators.

Expenditure on Goods and Services increase from R1.037 billion in 2015/16 to a revised estimate of R2.350 billion in 2018/19. On the contrary, the estimated budget shows a decrease of 32.2 per cent from the revised estimate of R2.350 billion to R1.592 billion between 2018/19 and 2019/20, mainly due to the impact of baseline reduction coupled with effect of the current high revised estimate.

Transfers and Subsidies increased from R2.246 billion in 2015/16 to a revised estimate of R2.512 billion in 2018/19. The estimated budget increases by 6.1 percent between 2018/19 and 2019/20 mainly to provide for inflationary adjustments. The budget allocation for this item consists mainly of transfers to schools i.e. school nutrition and norms and standards transfers, which takes into account the projected number of learners enrolled at schools.

Capital expenditure decreased from R7.990 million in 2015/16 to a revised estimate of R5.485 million in 2018/19 mainly due to once off acquisitions made between these financial periods. The estimated budget will increase by 471.3 per cent between 2018/19 and 2019/20 primarily due to planned procurement of additional laptops for educators at schools.

PPM 223 Percentage of learners in schools that are funded at a minimum level	–	–	100%	100%

The performance indicators in the programme show an increasing trend from the estimated performance for 2018/19. Moreover, the bulk of the indicators for the outer years of the MTEF period have been kept constant.

8.3 Programme 3: Independent School Subsidies

Objectives: Supports independent schools in accordance with the South African Schools Act.

- **Primary Level:** Supports independent schools in Grade 1 to 7 level; and
- **Secondary Level:** Supports independent schools in Grade 8 to 12.

Tables 16 and 17 above show the summary of payments and estimates of expenditure per sub-programme and economic classification. Independent school's expenditure increased from R115.587 million in 2015/16 to a revised estimate of R130.772 million in 2018/19. The estimated budget increases by 3.6 per cent to R135.534 million in 2019/20 mainly to cover the inflationary related increases and enrolment of new learners. The entire budget allocation for this programme is accounted for under Transfers and Subsidies, primarily for transfers to schools.

The targets for the “percentage of registered independent schools receiving subsidies” and the “number of learners at subsidised registered independent schools” will percentage of registered independent schools visited for monitoring and support remains constant over the MTEF, whilst a target for the number of learners at subsidised registered independent school shows a continued growth trend.

8.4 Programme 4: Public Special School Education

Objectives: To provide compulsory public education in special schools in accordance with the South Africans Schools Act and White Paper 6 on inclusive education, including e-learning and inclusive education. The programme has 4 sub-programmes:

- **Special Schools:** Provides specific public special schools with resources;
- **Human Resource Development:** Provides departmental services for the professional and other development of educators and non-educators in public special schools;
- **School sport, culture and media services:** Provides additional and departmentally managed sporting, cultural and reading activities in public special schools; and
- **Conditional Grants:** Is responsible for projects specified by the DBE and funded through conditional grants.

Tables 19 and 20 above depict the summary of payments and estimates of expenditure per sub-programme and economic classification. Total expenditure increased from R596.817 million in 2015/16 to a revised estimate of R812.474 million in 2018/19. On the contrary, the estimated budget for 2019/20 declines by 9.2 per cent from the 2018/19 revised estimate mainly due to the impact of baseline reductions.

Expenditure on Compensation of Employees grew from R500.521 million in 2015/16 to a revised estimate of R674.110 million in 2018/19. However, the estimated budget for 2019/20 shows a decline of 11.5 per cent to R596.699 million largely due to reduction in Learners with Severe to Profound Intellectual Disability (LSPID) grant.

Expenditure on Goods and Services increased from R22.021 million in 2015/16 to a revised estimate R44.092 million in 2018/19. For 2019/20, the budget is estimated to decrease by 18.8 per cent from the

2018/19 revised estimate partly due to baseline reduction and reclassification hostels budget portion to transfers.

Transfers and Subsidies increased from R74.223 million in 2015/16 to a revised estimate of R76.856 million in 2018/19. For 2019/20, the budget for transfers and subsidies grows by 20.8 per cent from 2018/19 revised baseline due to reclassification of hostels budget portion, which will now be paid as part of transfers to schools.

Payments for Capital Assets increased from R52 thousand in 2015/16 to a revised estimate of R17.416 million in 2018/19 mainly due to acquisition of equipment and vehicles for special schools. Contrary, the estimated budget for 2019/20 shows a decreases of 31.1 per cent due to the impact of once off capital acquisition made in respect of special schools.

Service Delivery Measures

Table 21: Selected service delivery measures for the programme: P4: Public Special School Education

Programme performance measures	Estimated performance 2018/19	Medium-term estimates		
		2019/20	2020/21	2021/22
PPM 401 Percentage of special schools serving as Resource Centres.	63% (29)	71% (33)	71% (33)	80% (37)

PPM 403 Number of therapists/specialist staff in special schools.	37	85	85	85

The targets for the “percentage of special schools serving as Resource Centres” and the “number of learners in public special school” are estimated to increase over the medium term in line with the anticipated increase in funding allocations for this programme. The target for the “number of therapists/specialist staff in special schools” is expected to remain constant over the medium term.

8.5 Programme 5: Early Childhood Development

Objectives: Provides ECD at grade R and pre-grade R levels in accordance with White Paper 5

The programme has 5 sub-programmes:

- **Grade R in Public schools:** Provides specific public ordinary schools with resources required for Grade R and encourage more schools to establish Grade R classes where space exists;
- **Grade R in Community Centres:** Supports particular community centres at the Grade R level;
- **Pre-grade R:** Provides training and payment of stipends of Pre-grade R Practitioners;
- **Human Resource Development:** Provides HR services to the programme; and
- **Conditional grants:** Is responsible for projects specified by the DBE and funded with conditional grants.

Tables 22 and 23 above depict the summary of payments and estimates of expenditure per sub-programme and economic classification. Total expenditure for the programme increased from R460.484 million in 2015/16 to a revised estimate of R468.093 million in 2018/19. The estimated budget for the programme increases by 28.6 per cent to R602.070 million in 2019/20 mainly and continues to show a growing pattern over the outer years.

Expenditure on Compensation of Employees grew from R353.076 million in 2015/16 to a revised estimate of R360.868 million in 2018/19. The budget shows a decline of 2.5 per cent to R351.730 million between 2018/19 and 2019/20 mainly to provide for the conversion of qualified ECD practitioners.

Expenditure on Goods and Services decreased from R107.408 million in 2015/16 to a revised estimate of R89.609 million in 2018/19, whilst the estimated budget shows a significant growth of 144.4 per cent to R218.972 million 2019/20 mainly due to a low revised baseline emanating from slow movement of training for ECDs.

Transfers and Subsidies expenditure increased from R13.273 million in 2016/17 to a revised estimate of R17.616 million in 2018/19. The estimated budget on transfers increases by 21.3 per cent to R21.368 million between 2018/19 and 2019/20 due to centralisation of the LTSM for Quintiles 1 - 3 schools.

There is no historic expenditure on Capital Assets under this programme. Nonetheless, the department made a once off allocation of R10 million in 2019/20 for the procurement of vehicles that will be utilised by district offices to monitor service delivery at schools.

All targets in this programme will be kept constant over the medium term in line with the department's 2019 annual performance plan.

8.6 Programme 6: Infrastructure Development

Objectives: Provides and maintains infrastructure facilities for schools and non-schools.

The programme has 4 sub-programmes:

- **Administration:** Provides and maintain infrastructure facilities for the administration programme;
- **Public Ordinary Schools:** Provides and maintain infrastructure facilities for Public Ordinary Schools programme;
- **Special Schools:** Provides and maintain infrastructure facilities for public special schools; and
- **Early Childhood Development:** Provides and maintain infrastructure facilities for ECD centres.

Tables 25 and 26 above show the summary of payments and estimates of expenditure per sub-programme and economic classification. Total expenditure in this programme increased from R1.448 billion in 2015/16 to a revised estimate of R1.658 billion in 2018/19. The estimated budget for the programme decreases by 4.4 per cent 2018/19 revised estimate to R1.585 billion in 2019/20 due to high revised estimate, which stem from the disbursement of infrastructure projects that were not fully provided.

Expenditure on Compensation of Employees increased from R6.581 million in 2015/16 to a revised estimate of R14.623 million in 2018/19. The estimated budget grows by 9.4 per cent to R16 million between 2018/19 and 2019/20 mainly to provide for cost of living adjustments and an increase in the number of staff.

Expenditure on Goods and Services decreased from R465.318 million to a revised estimate of R163.941 million in 2018/19. For 2019/20, the budget increases by 41.3 per cent to R231.696 million mainly to additional funding provided for the maintenance of pit latrines at various affected schools in the province.

Capital expenditure increased from R969.880 million in 2015/16 to a revised estimate of R1.480 billion in 2018/19. However, the estimated budget for this items shows a decline of 9.6 per cent from the 2018/19 revised estimate to R1.337 billion in 2019/20 due to the impact of once off additional funding provided in the adjustment estimate as well as the disbursement of infrastructural projects, which were not original provided for during the budget planning.

The majority of targets set for the programme in 2019/20 show a continued growth when compared to 2018/19 revised estimate, whilst few targets either are showing a decline or remain constant in the outer years of the medium term period.

8.7 Programme 7: Examination and Education Related Services

Objectives: Provides education institutions as a whole with examination related services.

The programme has 5 sub-programmes:

- **Payments to SETA:** Provides employees HRD in accordance with the Skills Development Act;
- **Professional Services:** Provides educators and learners in schools with departmentally managed support services in terms of Goods and Services which are not specifically attached to the school;
- **Special Projects:** Provides for special departmentally managed intervention projects in the education system as a whole;
- **External Examination:** Provides for departmentally managed examination services in terms of goods and services required for the grade 12 or any other examinations in the education system where resources are managed centrally by the department; and
- **Conditional Grants:** Is responsible for projects specified by the DBE and funded with conditional grants.

Tables 28 and 29 above show the summary of payments and estimates of expenditure per sub-programme and economic classification. Total expenditure for the programme increased from R469.447 million in 2015/16 to a revised estimate of R527.060 million in 2018/19. However, the estimated budget for the programme decreases by 5.2 per cent from 2018/19 revised estimate to R499.787 million in 2019/20 mainly due to baseline reductions and the effect of internal reprioritisation.

Expenditure on Compensation of Employees increased from R170.682 million in 2015/16 to a revised estimate of R201.597 million in 2018/19. For 2019/20, the budget is estimated to increase by 1.2 per cent to R203.942 million. The slight growth emanates from a huge payment made in respect of exam markers, which gave rise to high revised estimate in 2018/19 from which the growth is based.

Expenditure on Goods and Services increased from R177.218 million in 2015/16 to a revised estimate of R229.271 million in 2018/19. For 2019/20, the budget is estimated to decrease by 14.4 per cent from 2018/19 revised estimate due to the implementation of cost containment measures and other efficiency gains achieved from this programme.

Transfers and Subsidies expenditure decrease from R118.902 million in 2015/16 to a revised estimate of R91.505 million in 2018/19. The budget for 2019/20 is estimated to increase by 3.5 per cent to R94.667 million mainly to accommodate inflationary related adjustments.

Capital expenditure increased from R2.645 million in 2015/16 to a revised estimate of R4.687 million in 2018/19. For 2019/20, the estimated budget on capital assets increases by 6.4 per cent from 2018/19 revised estimate to R4.988 million mainly to provide for inflation related increases.

1. Personnel numbers includes all filled posts together with those posts additional to the approved establishment

Tables 31 above reflect the personnel numbers and costs per programme and employee dispensation classification.

Programme 1: The personnel numbers for this programme consists of the ‘warm bodies’. It also includes the vacancies as reflected in the departmental Annual Recruitment Plan (ARP) and approved through the Provincial Coordination and Monitoring Team (PCMT).

Programmes 2 and 4: These numbers are based on the Post Provisioning Norm (PPN) as declared by the Executing Authority for 2019 academic year. These numbers are based on budget affordability, which resulted in 2019 PPN numbers being kept the same as 2018 PPN.

Programme 5: The number of practitioners employed are mainly based on the budget allocation at a monthly stipend with an anticipated increase in cost of living or salary adjustments with effect from 1 April 2019.

Programme 6: The personnel numbers have been pre-determined by National Treasury in the allocation of the Grant funding.

Programme 7: The only ‘Heads’ in this programme is for the HIV/AIDS grant allocation. The External Examination funding is meant for Marking Fees, which is paid to current personnel employed in Programmes 2 and 4 who avail their services.

1. Overview

1.1 Vision

An integrated, capable, responsive and accountable local government and traditional institution system focusing on the needs of the community.

1.2 Mission

To promote a developmental local state and traditional institutions that are accountable, focused on citizen's priorities, capable of delivering high-quality services consistently and sustainably through cooperative governance and participatory democracy.

1.3 Core functions and responsibilities

- Facilitate the transformation of developmental local government in line with all relevant developmental legislation;
- Facilitate transformation in the institutions of traditional leadership and democratic structures of governance;
- Provide extensive-measurable support to municipalities to improve their administrative, governance and financial capabilities in order to realise their constitutional mandate;
- Improve the provision of support (technical and administrative) to municipalities in order to fast-track the delivery of basic services and access improvement thereof;
- Strengthen interventions that are supportive of the human settlement outcomes;
- Promote and support the implementation of the Community Work Programme (CWP);
- Promote the deepening of democracy through the implementation of the Ward Committee Model and Ward Base Planning (Operation Masiphathisane) at municipal level through Community Development Work (CDW) programme;

- Integrate municipal interventions support through a single window of coordination that enables communities to experience cohesion, predictability, excellence in service delivery and control over the environment they find themselves in;
- Facilitate the operationalized implementation of the Back to Basic (B2B) service delivery model by all municipalities;
- Provide administrative and infrastructural development support to traditional leadership institutions in order to meet their legislative requirements of their communities; and
- Promote and support the participation of traditional communities in developmental programmes.

1.4 Main Services

- Assess performance and capacity of municipalities;
- Facilitate turn-around initiatives for improved audit outcomes in municipalities;
- Promote accountability and good governance in municipalities;
- Support municipalities to engage with their communities through public participation;
- Support municipalities on co-operative governance and the development of credible Integrated Development Plans (IDPs);
- Strengthen and improve the Spatial Development Framework (SDF);
- Support strategies and capacity for Local Economic Development (LED), Spatial Planning and Land Use Management Act (SPLUMA), Urban and Rural development to create decent work and sustainable livelihoods;
- Support the acceleration of service delivery to support the poor and vulnerable;
- Improve municipal capacity for infrastructure development programmes;
- Improve disaster, fire and emergency services;
- Coordinate, monitor, report and evaluate municipal support programmes;
- Improve and strengthen indigent strategies; and
- Facilitate and support the transformation and development of effective traditional institutions.

1.5 Demands for and expected changes in the services

The department has begun with the actual decentralisation, which is a unique aspect for a dualistic and systemic approach to service delivery. With this approach, the department projects to respond to the service delivery demands that continuously manifest at local municipal level. Furthermore, with the Integrated Service Delivery Model, the department is aimed at strengthening, focusing and coordinating all service delivery interventions to municipalities in full partnership with other coordinating departments to ensure maximum impact. Secondly, the implementation of the B2B approach, which is, also a tool aimed at refocusing the qualitative approach to servicing of municipalities and Traditional Leaders in order to deliver services promptly and based on the Batho Pele principles. In the same context, the latter approaches are meant to respond to the municipal infrastructure development requirements, which serve as a basis to alleviate poverty, unemployment and under-development.

The service delivery environment within which CoGTA operates is dynamic in nature, linked with community service delivery needs that continue to rise on high level despite the diminishing fiscal envelope

of government. This imposes a need for improved shared service approach with other key stakeholders whose interests are to benefit the communities at large.

1.6 The Acts, rules and regulations

The department derives its mandate from the Constitution of the Republic of South Africa, 1996. In carrying out its core functions and responsibilities, the department is governed by various Acts, rules and regulations: Constitution of the Republic of South Africa (1996); and these include Land Survey Act (1997); Municipal Structures Act (1998); Municipal Systems Act (2000, as amended); Fire Brigade Services Amendment Act (2000); Disaster Management Act (2002); Municipal Property Rates Act (2004); Inter-Governmental Relations Framework Act (2005); Spatial Planning and Land Use Management Act (2013); EC Traditional Leadership Governance Act (2017); National LED Framework; Municipal Infrastructure Grant Policy Framework; and the Indigent Policy Framework.

1.7 Budget decisions

The department takes cognisance of the national electoral cycle and thus the need to enhance its footprint in the local government space towards intensifying the support to deliver the much-needed services to our people. The downward economic growth forecast presents further challenges in government's ability to generate revenue to meet the ever-increasing services delivery targets. Internal departmental trade-offs and re-prioritization within Programs and Sub-Programs to accommodate the budget cuts without severely affecting service delivery budget mean that in attaining our goals, cost effective strategies must be implemented in 2019/20, to achieve the provincial fiscal consolidation efforts. Consequently, funds have been reprioritised from Compensation of Employees (CoE) to achieve the mandate of the department, including effecting of the budget cuts. However, this did not compromise the provision for the warm bodies and the critical positions to be filled in the planned Annual Recruitment Plan. The baseline reprioritisation exercise was necessary to re-direct funds to enhance the assistance to municipalities, set-aside funding for anticipated municipal interventions in ensuring that households gain access to sustainable and reliable basic services, municipalities demonstrate good financial governance and support to the Traditional Leadership.

1.8 Aligning departmental budgets to achieve government's prescribed outcomes

A key priority for the department is to improve the developmental capacity of the Institution of Traditional Leadership through the stabilisation of Traditional Leadership Institutions. Support of traditional councils to perform their functions, implementation of the Traditional Council Infrastructure development strategy, implementation of the long-term strategy for Traditional Leadership capacity building, initiation programme, and the implementation of a Provincial Strategy on disputes and claims.

Furthermore, with the Integrated Service Delivery Model, the department is aimed at strengthening, focusing and coordinating of all service delivery interventions to municipalities in full partnership with other coordination departments to ensure maximum impact, secondly the implementation of the B2B approach, which is, also a tool aimed at refocusing the qualitative approach to servicing of municipalities.

2. Review of the current financial year (2018/19)

2.1 Key achievements

The department has managed to give effect to some key priorities of the province for the period under review.

The department targeted and achieved to support 34 municipalities to assess compliance to relevant legislation and B2B action plan. These municipalities were supported on the functionality of its municipal structures such as Council, Municipal Public Accounts Committees (MPAC), and others, with the main aim of having them improve on its administration, leadership and governance. Furthermore, these municipalities required intensive support on all the B2B key performance areas, which are Basic Services, Good Governance, Public Participation, Financial Management and Institutional Capacity.

With regards to Operation Masiphathisane, the department planned to support 28 municipalities to respond promptly to community concerns, and 34 was achieved. The department focused on giving effect to its core function to coordinate both horizontally and vertically across the three spheres of government, and managed to facilitate the first levels of coordination focusing on the key community based structures mandated with facilitating community based planning and mobilization of communities for development. Sessions were held in all districts with Traditional Leaders, CDWs and secretaries of Traditional Councils.

On the fight against corruption intervention, six municipalities as targeted were monitored on the extent to which anti-corruption measures were implemented, these are, Buffalo City, Port St Johns, Nelson Mandela Bay, Sarah Baartman, Matatiele and Great Kei Municipalities.

Twenty-five out of 29 targeted municipalities were supported through collaborations with provincial departments to engage on arrear debt on a quarterly basis to resolve disputes on billings and non-payment to improve revenue management and debt collection.

Seven municipalities, which are Makana, Ngqushwa, Inxuba Yethemba, Ndlambe, Sundays River Valley, Dr. Beyers Naude and Port St Johns Local Municipalities were supported to align their reviewed organisational structures with the Integrated Development Plan (IDP), against 3 that was targeted. This was to ensure proper performance management and ultimate service delivery to the communities.

In terms of SPLUMA implementation, the department supported six district municipalities as targeted, in by-laws preparation, establishment of municipal planning tribunals, development of the Service Level Agreements and in the operation of the Geographical Information System (GIS). Technical support on GIS operation was also provided to all six district municipalities who lack capacity. The Provincial Spatial Planning Development Framework (PSDF) is being developed.

Thirty-three out of 36 targeted municipalities were supported to implement indigent policies in a motive of ensuring that the poor communities are not deprived of much needed government services such as water, electricity, sanitation, refuse removal, etc.

The department also supported ten municipalities, which were targeted to develop and implement Local Economic Development (LED) strategies. Capacity building programmes were conducted in collaboration with Statistics South Africa (STATSSA) on data analysis in 6 district municipalities in the province for them to be able to understand the economic situation of their communities. Though the target for work opportunities was 43 100, 45 243 were actually created through the CWP where people are employed to do community work such as cleaning, maintenance and beautification of towns in their selected municipal areas. 7 towns which were targeted, were supported to promote the small towns' revitalisation programme to ensure town development and beautification.

Amathole, Alfred Nzo, and O.R. Tambo District Municipalities were supported to conduct cadastral surveys for access to land rights in Joe Gqabi and Alfred Nzo District municipalities to settlement surveys for ensuring that the location and extent of rights in land are properly described in legal documents and demarcated on the ground. Furthermore, identification of boundary beacons of properties for construction of houses, roads and installation of basic services is also conducted. This support was provided with an intention of ensuring the transformation of agriculture as a game changer for the country through accelerating the cadastral surveys for access to land rights.

Two hundred and thirty nine Traditional Councils out of 241 targeted, were supported to perform their functions to ensure that rural households are not neglected in terms of their needs. In addition, six local houses that were targeted were supported to formulate development plans that will guide developments within the areas of their jurisdiction to perform their functions.

Hala and Teko Traditional Councils were constructed and have been completed, AmaNguzela Traditional Council construction is at completion stage, whilst Ngqika and Mchwebeni Traditional Councils' Construction is at an initiation stage.

With regards to Disaster Management, the department has reviewed its policy framework in line with the Disaster Management legislation and will be gazetted for public to comment for the province. This, in order to provide a strategic direction on the disaster response mechanisms, and also the processes of declaration of a state of disaster, policies have been developed and the stakeholders will be afforded an opportunity to comment on these policies. Furthermore, the Disaster Management Integrated Information System (DMIIS) continues to be configured throughout the province and all Districts and Metropolitan Municipalities being configured.

2.2 Key challenges

The amalgamated municipalities continue to need special attention to deal with financial, legal, human, technical, operational and communication challenges and the department will continue to support them until they are operational in terms of functionality of structures such as Council, Municipal Public Accounts Committees (MPAC). This is done with the main aim of having them improve on its administration, leadership and governance. These municipalities inherited ESKOM debt from old financially struggling municipalities.

The municipalities' inability to collect revenue remains a challenge and continue to contribute to the lack of service delivery at the local sphere.

The delayed engagements with all District and Metropolitan municipalities negatively affected the finalisation of the PSDF, as some of the scheduled meetings had to be rescheduled and hence postponing the projected completion dates. In an effort to finalise the process, a task team to finalise the remaining process towards the approval has been established.

3. Outlook for the coming financial year (2019/20)

Consistent with the department's mandate, commitment of decentralisation on a full-scale roll-out which primarily aims at providing support to municipalities and Traditional Leadership institutions continues. This is to ensure that support provided is at a closer radar in order to measure the impact of service delivery coordination support. Decentralisation of functions by the department will also lead to the adoption of dual planning, where the top-down and bottom-up approaches will be strategically aligned in order to balance sectoral priorities and evidence-based planning; where the needs and aspirations of primary and secondary stakeholders will be dealt with.

Equally so, the continued implementation of B2B at municipal level will serve a great deal for the support provided by the department in creating self-sustained municipalities that are able to deliver on their municipal service delivery mandates. This process will be guided by the municipal IDP phased in situational analysis approaches, which will serve as a guide for planning, implementation, monitoring and reporting on municipal performance. This implementation process will go parallel with the impact evaluation of the support provided to municipalities by the department for them to deliver on their mandates and the House of Traditional Leadership to also take their full developmental role.

The approach to support municipalities will be coupled with clear constant evaluation, implementation and maintenance of infrastructure development projects and all service delivery interventions towards sustainable socio-economic development. This will be made possible by focusing on departmental priorities to create vibrant rural economies in order for them to increase their capacity for economic development and revitalisation thereof. Equally so, the department in line with its mandate is focused on extensive support of all municipalities in developing service standards for each service and establish monitoring systems to ensure compliance to the set standards. The primary purpose of the latter is to improve the quality and the manner in which the municipalities provide these services to the community.

The municipalities will be supported in order to resolve any billing disputes particularly with government departments to improve their revenue collection for self-reliance and be able to maintain its operations. Furthermore, municipalities will be supported to fast-track the fundamental enablers towards rural social and economic development, namely, to develop fundable consolidated infrastructure plans; ensure infrastructure maintenance and repairs to reduce losses and ensure the provision of free basic services and maintenance of indigent register.

The department will develop the PSDF implementation plan for the benefit of municipalities and traditional leadership at a local level. This will be successful through a coordinated stakeholder consultation and involvement.

Despite a continued challenge of LED, the department with the B2B approach and integrated planning implementation approach is committed in making progress concerning improved access to government development information, services and local socio-economic development opportunities for the communities of the province. Sustainability of municipalities is very important and the department will support LED as it is the core of the solution to assist with revenue generation.

Furthermore, the department will ensure that measures are taken to ensure that municipalities engage with their communities through public participation and ward based planning, as it is a huge challenge for municipalities to fulfil. The department continues to be committed to working with residents and stakeholders within communities to find sustainable ways to meet their socio-economic needs and improve the quality of their lives. In this regard, CDWs are a direct link to communities. This programme will continue to bring government closer to the people and enable it to respond to community needs.

The department will continue working with the Traditional Leaders and provincial initiation monitoring group in ensuring that the deaths of initiates is alleviated, and also community involvement is crucial to have all those people who exercise this custom unlawfully, prosecuted. The department will create a conducive service and administrative environment for the rural communities by providing the necessary infrastructure and tools of trade to the Traditional Leadership Institutions.

The department continues to support municipalities to enhance their education and awareness strategies on Disaster Management. Relations with Stakeholders and the Private Sector will be strengthened to join in ensuring that the department manages the disaster risks effectively.

4. Reprioritisation

The department conducted a baseline assessment and reprioritisation exercise aimed at the re-aligning of the limited available resources geared at the rollout of the decentralisation model. Funds were therefore reprioritised from historically underspending areas to enhance our capacity to respond promptly and effectively to the mandate as enshrined in the constitution.

5. Procurement

The department will continue to resource the newly established District Offices and Traditional Councils by upgrading the ICT infrastructure, procure office equipment and acquire more vehicles. Budget reprioritisation exercise was conducted to make funds available for the development of SPLUMA White Paper and the procurement of survey equipment. Funds have also been set aside to capacitate Traditional Leaders.

6. Receipts and financing

Table 2 above show the summary of departmental receipts from 2015/16 to 2021/22 financial years. Sources of revenue for the department are equitable share and conditional grant. The department's allocation increased from R968.519 million in 2015/16 to a revised estimate of R981.184 million in 2018/19. The receipts increase by 2.9 per cent to R1.009 billion in 2019/20 following the implementation of national and provincial baseline reductions.

Table 3 depicts a summary of receipts for the department from 2015/16 to 2021/22. The department is not a major provincial revenue contributor and all collection are attributed to the sale of tender documents as

well as commissions earned from insurance deductions from employees for various schemes on behalf of financial institutions for their contributions to their products. Own revenue shows an increase from R1.557 million in 2015/16 to R1.833 million in 2018/19. It is projected to decline by 14.1 per cent to R1.575 million in 2019/20 due to once-off collection in respect of previous expenditure recoveries which is not budgeted for, whilst increases steadily in the 2 outer years.

6.3 Official development assistance (donor funding)

None.

7. Payment summary

7.1 Key assumptions

The following key factors provide the framework for the development of the departmental 2019 MTEF budget proposal:

- Growth in personnel wage bill as per the wage agreement and zero based costing of personnel which has led to savings;
- Non personnel inflationary projections informed by the CPI estimates in the budget circular;
- Commitment to the implementation of the cost containment measures;
- The roll-out of the department's new service delivery model; and
- Implementation of National and Provincial baseline budget cuts.

Tables 4 and 5 above reflect the departmental expenditure summary per programme and economic classification for 2015/16 to 2021/22. Expenditure increased from R968.519 million in 2015/16 to a revised estimate of R981.184 million in 2018/19 mainly due to additional funding for municipal intervention. In 2019/20, the budget increases by only 2.9 per cent to R1.009 billion as a result of the implementation of National and Provincial baseline budget cuts, and moderately increases in the 2 outer years.

Compensation of Employees increased from R706.999 million in 2015/16 to a revised estimate of R814.680 million in 2018/19 due to on-going massive recruitment drive in the department including critical posts, such as the appointment of senior management officials. In 2019/20, the budget increases by only 4.5 per cent to R851.615 million due to the zero based costing effected by the department. However, all the warm bodies and planned recruitments have been provided for in the allocation.

Goods and Services increased from R97.109 million in 2015/16 to a revised estimate of R102.298 million in 2018/19 due to the implementation of S139 invoked to municipalities. The budget allocation increases substantially in 2019/20 by 13.5 per cent to R116.077 million due to reprioritisation of funds towards the operationalization of the District Support Centres, the development of SPLUMA White Paper, procurement of survey equipment, and the Capacitation of Traditional Leaders. Furthermore, the reclassification of funds from transfers and subsidies to goods and services for municipal interventions has contributed to this increase.

Transfers and Subsidies decreased from R141.110 million in 2015/16 to a revised estimate of R33.235 million in 2018/19 due to discontinuation of funding for Chris Hani Water Intervention project and Electrification of Households. In 2019/20, the budget decreases significantly by 60 per cent to R13.280 million due to the discontinuation of the above-mentioned projects not carried through into the 2019 MTEF. The budget moderately increases in the 2 outer years.

Payments for Capital Assets increased from R22.836 million in 2015/16 to a revised estimate of R30.972 million in 2018/19 due to on-going upgrades of Information and Communication Technology (ICT), sourcing of vehicles for the District Support Centres, construction of Traditional Councils, and the

on-going procurement of the Provincial Disaster Management ICT infrastructure. In 2019/20, the budget allocation decreases by 7.2 per cent to R28.740 million due to finalisation of the Disaster Management ICT infrastructure, and increases moderately in the 2 outer years.

Table 6 above reflects the departmental expenditure per municipal boundary from 2015/16 to 2021/22. The departmental expenditure increased from R968.519 million in 2015/16 to a revised estimate of R981.184 million in 2018/19 mainly due to additional funding received for the electrification of households in identified hotspots areas, provincial disaster relief funding and rescheduling of funding for the continuation of the Chris Hani water intervention project. In 2019/20, the total departmental budget only increases by 2.9 per cent to R1.009 billion due to National and Provincial budget cuts, and the 2 outer years increase moderately.

1. Total provincial infrastructure is the sum of "Capital" plus "Recurrent maintenance". This includes non infrastructure items.

Table 7 above shows the departmental expenditure on infrastructure from 2015/16 to 2021/22. Expenditure decreased from R33.467 million in 2015/16 to a revised estimate of R10.387 million in 2018/19 due to the discontinuation of additional funding received for the construction of Traditional Councils, Electrification of Households in identified hotspots areas and the funding for Chris Hani Water Intervention project. In 2019/20, the budget decreases significantly by 26.1 per cent to R7.681 million due to the fall away of these allocations. The outer years increase significantly, due to funds allocated for the construction of Traditional Councils.

7.5.2 Maintenance

Infrastructure maintenance increased from R1.987 million in 2015/16 to a revised estimate of R2.124 million. In 2019/20, the budget decreased by 2 per cent.

Tables 11 and 12 above show the departmental transfer payments to municipalities by category and by grant name from 2015/16 to 2021/22. Total transfers to municipalities decreased from R130.586 million in 2015/16 to a revised estimate of R20.148 million in 2018/19 due to the discontinuation of funding for the electrification of households in identified hotspots areas, Chris Hani Water Intervention project, and Financial Support to Municipalities. There will be no further transfer of funds to municipalities in the 2019 MTEF, hence the 100 per cent decrease, after a decision was taken to capacitate municipal financial management officials through training needs to be identified by the department.

8. Programme description

8.1 Programme 1: Administration

Objectives: Provide effective strategic leadership and proficient administration support services to the Department of Cooperative Governance and Traditional Affairs. The programme has 2 sub-programmes:

- **Office of the MEC:** To provide political direction and set policy priorities for intervention and play an oversight over the department to ensure alignment to its mandate and mainstreaming the needs of vulnerable groups; and
- **Corporate Services:** To provide efficient and effective corporate support services to the department.

Tables 13 and 14 above reflect the programme expenditure summary per sub-programme and economic classification for the 2015/16 to 2021/22. The total expenditure increased from R207.341 million in 2015/16 to a revised estimate of R258.530 million in 2018/19 mainly due to reprioritisation of funds for telecommunication system and upgrade of ICT infrastructure, office furniture and procurement of acquisition of more vehicles for the district offices. In 2019/20, the budget increases slightly by 2.5 per cent to R265.069 million due to the effect of the baseline reductions, whilst the 2 outer years increase moderately.

Compensation of Employees increased from R137.580 million in 2015/16 to a revised estimate of R170.101 million in 2018/19 due to the on-going recruitment drive, including senior management officials and top management. In 2019/20, the budget allocation increases by 5 per cent to R178.526 million, with the 2 outer years increasing moderately.

Goods and Services increased from R55.502 million in 2015/16 to a revised estimate of R56.952 million in 2018/19. In 2019/20, the budget increases by 9.3 per cent to R62.223 million due to reprioritisation of funds to align resources to the rollout of the district decentralisation of functions, whilst the 2 outer years increase moderately.

Transfers and subsidies increased from R4.263 million in 2015/16 to a revised estimate of R8.335 million in 2018/19 due to reprioritisation of funds to leave gratuities to cater for the adverse attrition. In 2019/20, the budget decreases significantly by 19.3 per cent to R6.730 million due to these funds not being carried through, and the 2 outer years increase moderately.

Payments for capital assets increased significantly from R9.533 million in 2015/16 to a revised estimate of R23.143 million in 2018/19 due to the funding of the procurement of the telecommunication system and upgrade of ICT Infrastructure as well as procurement of working equipment and furniture as part of resourcing the decentralisation of districts. In 2019/20, the budget decreases significantly by 24 per cent to R17.590 million due to finalisation of the telephone system, laptops and desktop computers and the procurement of Districts and Traditional Councils' vehicles, with the outer year showing a decreasing trend.

8.2 Programme 2: Local Governance

Objectives: To ensure the transformation of developmental local government by strengthening municipal institutions that will be responsive to the needs of the communities. The Programme has 5 sub-programmes:

- **Municipal Administration:** To provide support services and monitor the effective municipal administration matters within the regulatory framework;
- **Municipal Finance:** To provide support services and monitor the implementation of efficient and effective financial management systems in municipalities in accordance with applicable Acts;
- **Public Participation:** To deepens democracy for better service delivery;
- **Capacity Development:** To provide support and management services to municipalities in respect of capacity building; and
- **Municipal Performance Monitoring, Reporting and Evaluation:** To provide effective, coordinated and hands-on support to municipalities, to improve performance, monitoring, reporting and evaluation services

Tables 16 and 17 above reflect the programme expenditure summary per-sub programme and economic classification from the 2015/16 to 2021/22. The total programme expenditure decreased from R321.142 million in 2015/16 to a revised estimate of R244.593 million in 2018/19 due to the discontinuation of funding

received to assist municipalities struggling to meet their debt repayment to Eskom and the completion of the section 139 intervention in identified municipalities. In 2019/20, the budget allocation decreases by 0.5 per cent to R243.280 million mainly due the discontinuation of this funding and the impact of the baseline adjustment, and the 2 outer years increase moderately.

Compensation of Employees increased from R196.135 million in 2015/16 to a revised estimate of R213.168 million in 2018/19 due to additional funding for the appointment of 81 CDWs as part of the Operation Masiphathisane programme. In 2019/20, the budget allocation increases by 7.3 per cent to R228.721 million due to the anticipated replacement of personnel.

Goods and Services increased slightly from R12.494 million in 2015/16 to a revised estimate of R15.277 million in 2018/19 due to funding of interventions in Walter Sisulu Local Municipality for ESKOM debt. In 2019/20, the budget decreases by 4.7 per cent to R14.559 million due to the budget cuts, and increases moderately in the 2 outer years.

Transfers and subsidies decreased from R112.503 million in 2015/16 to a revised estimate of R16.148 million in 2018/19 due to a discontinuation of funding to assist municipalities struggling to meet their debt repayment to Eskom. There is no allocation in 2019/20 due to change in municipal support strategy which has been insourced, hence the 100 per cent decrease. Support to capacitate municipalities will now be facilitated by the department for the municipal financial management officials.

This programme drives one of the core mandates of the department. Consistent with its mandate, programme two performance measures development and setting progresses from the MTEF period and the recent departmental integrated strategic and budget consultative sessions. The nature and frequent of municipal need for intervention is not a rigid environment as that is where policy meets people in terms of implementation. Therefore, programme two's performance measures and targets respond to the needs of the municipalities to ensure access to basic services. The department developed support packages (support plans) for the amalgamating municipalities and other identified municipalities to be able to serve our communities better. Intensive support, according to the B2B principles on public participation, good governance, institutional capacity, sound financial management and basic services, creating decent living conditions will be the key performance areas for the department.

8.3 Programme 3: Development and Planning

Objectives: To render support services regarding integrated planning development in municipalities. The programme has 6 sub-programmes:

- **Spatial Planning:** To supports municipalities with spatial planning;

- **Land Use Management:** To support municipalities with effective and efficient land use management and administration;
- **Local Economic Development:** To provide seamless and integrated local economic development facilitation;
- **Municipal Infrastructure:** To build efficient social infrastructure to support service delivery;
- **Disaster Management:** To improve disaster prevention; mitigation and responses; and
- **IDP Coordination:** To provide support for effective and efficient municipal integrated development planning.

Tables 19 and 20 above reflect the programme expenditure per sub-programme and economic classification from 2015/16 to 2021/22. The total expenditure decreased from R122.258 million in 2015/16 to a revised estimate of R110.047 million in 2018/19 due to decreases in transfers made in interventions to municipalities on Chris Hani Water Intervention and Electrification of Households. In 2019/20, the budget significantly increases by 16.8 per cent to R128.547 million due to reprioritisation on implementation of SPLUMA and district centralisation, and the 2 outer years increase moderately.

Compensation of Employees increased from R87.755 million in 2015/16 to a revised estimate of R93.927 million in 2018/19 due to the on-going recruitment drive to fill critical vacant posts. In 2019/20, the budget increases by 15.4 per cent to R108.423 million due to the projected recruitment campaign to

fill critical vacant posts to enhance the implementation of SPLUMA, whilst the 2 outer years grow moderately.

Goods and Services decreases from R8.680 million in 2015/16 to a revised estimate of R8.554 million in 2018/19 due to the implementation of baseline reductions over the years. In 2019/20, the budget increases significantly by 71 per cent to R14.624 million due to reprioritisation of funds for the development of the white paper on SPLUMA and resourcing of the district decentralisation model, whilst the 2 outer year show a decreasing trend.

Transfers and subsidies decrease from R18.083 million in 2015/16 to a revised estimate of R4 million in 2018/19 due to the discontinuation of funding for Chris Hani water intervention project, and Electrification of Households. In 2019/20, the budget allocation decreases by 100 per cent due to the discontinuation of the above funding received.

Payments for Capital Assets decrease from R7.740 million in 2015/16 to a revised estimate of R3.566 million in 2018/19 due to the finalisation of the construction of the Provincial Disaster Management Centre (PDMC). In 2019/20, the budget increases significantly by 54.2 per cent due to reprioritisation of funds for the finalisation of Disaster Management ICT Infrastructure.

Municipal development indicators in terms of Statistics South Africa indicate a high demand for the creation of vibrant economies that are able to contribute to job creation through Local Economic development, Small Town revitalisation and spatial planning towards the provision of sustainable infrastructure development. Equally so, public participation is at the centre for any development to avoid unnecessary service delivery protest at a local level. The programme continues to empower the communities through a priority programme called Community Development Workers to bridge the gap between government and citizens in response to community needs. The department will continue to support the transformation of agriculture as a game changer for the country through accelerating the cadastral surveys for access to land rights in the district municipalities.

8.4 Programme 4: Traditional Institutional Management

Objectives: To support and capacitate institutions of traditional leadership to effectively perform their statutory and customary obligations. The programme has 3 sub-programmes:

- **Traditional Resource Administration:** To conduct traditional leadership research and policy development, and provide administrative support, capacity building and financial management support to traditional leadership institutions;
- **Rural Development Facilitation:** To facilitate traditional community development initiatives; and
- **Traditional Institutional Administration:** To provide administrative and infrastructure support to traditional leadership institutions.

Tables 22 and 23 above reflect the programme's expenditure summary per sub-programme and economic classification for 2015/16 to 2021/22. The expenditure increased from R291.128 million in 2015/16 to a revised estimate of R338.680 million in 2018/19 due to funding received for the appointment of 25 secretaries of the Traditional councils. In 2019/20, the budget increases only by 1.1 per cent to R342.309 million, whilst the 2 outer years increase moderately.

Compensation of Employees increased from R268.502 million in 2015/16 to a revised estimate of R314.393 million in 2018/19 due to the on-going recruitment drive for the support staff for the Traditional Local Councils. In 2019/20, the budget increases only by 0.5 per cent to R315.890 million based on zero based costing, whilst the 2 outer years increase moderately.

Goods and Services increased from R11.133 million in 2015/16 to a revised estimate of R15.271 million in 2018/19 due to reprioritisation of funds to resource the established Local Houses. In 2019/20, the budget

decreases by 6.6 per cent to R14.269 million due to budget cuts, and the 2 outer years increase moderately.

Transfers and subsidies decreased from R6.261 million in 2015/16 to a revised estimate of R4.753 million in 2018/19 due to the implementation of baseline reductions over the years. In 2019/20, the budget increases by 37.8 per cent to R6.550 million due to the reprioritisation of funds to augment the anticipated increase in leave gratuities for Traditional Leaders, the 2 outer years moderately increase.

Payment for Capital Assets decreased from R5.230 million in 2015/16 to a revised estimate of R4.263 million in 2018/19 due to the implementation of baseline reductions over the years. In 2019/20, the budget increases by 31.4 cent to R5.6 million due to the reprioritisation of funds for the construction of Amampondomise Asempumalanga and finalisation of Hala Traditional Councils.

The purpose of this programme is to create a conducive service and administrative environment for the implementation of the developmental objectives to improve the functionality of the Traditional Leadership Institutions and socio-economic growth. Furthermore, it has to promote traditional, cultural and customary programmes of the traditional communities.

8.5 Programme 5: House of Traditional Leaders

Objective: To promote and improve the effective and efficient functioning of the Eastern Cape House of Traditional Leaders as well as the Local Houses. The programme has 2 sub-programmes:

- **Administration of Houses of Traditional Leaders:** To provide overall administration and support services to the provincial house of traditional leaders; and to play an oversight role to provincial and local spheres of government on matters of service delivery; proposed legislation affecting traditional communities; management of communal land; conflict resolution and socio-economic development within traditional communities.
- **Committees and Local Houses of Traditional Leaders:** To play the oversight role and advice the provincial and local spheres of government on matters of service delivery, proposed legislation affecting traditional communities, management of communal land, conflict resolution and socio-economic development within traditional communities.

Tables 25 and 26 above reflect the programme's expenditure summary per sub-programme and economic classification for 2015/16 to 2021/22. Expenditure increased from R26.650 million in 2015/16 to a revised estimate of R29.335 million in 2018/19 due to the newly established 6 Local Houses. In 2019/20, the expenditure increases by 4 per cent to R30.507 million, and moderately increases in the 2 outer years.

Compensation of Employees increased from R17.027 million in 2015/16 to a revised estimate of R23.091 million in 2018/19 due to reprioritisation of funds to fill critical posts in the newly established Local Houses. In 2019/20, the budget decreases by 13.1 per cent to R20.055 million due to re-directing of funding for the established Local Houses to Programme 4, and the 2 outer years have a slight increase.

Goods and Services decreased from R9.3 million in 2015/16 to a revised estimate of R6.244 million in 2018/19 due to budget cuts. In 2019/20, the budget increases by 66.6 per cent to R10.402 million due to reprioritisation of funds to enhance the anticipated shortfall in the Provincial House activities and programmes, with a moderate increase in the 2 outer years.

Payment for Capital Assets decreased from R323 thousand in 2015/16 to having no revised estimate in 2018/19. In 2019/20, the budget is R50 thousand for audio visual equipment with no allocation in the 2 outer years.

The roles and functions of the Eastern Cape Traditional Leaders are premised on the preservation of the traditional, cultural and customary practices of the Eastern Cape rural communities. The election of new office bearers in the House of Traditional Leaders will require orientation and induction for the newly elected members and all other Traditional Leaders to understand their mandate and what is expected of them as they execute their customary duties within the confines of the constitution and other relevant prescripts of the institution to enhance their effectiveness and efficiency. In ensuring proper functioning of

traditional institutions, funds have been made available for infrastructure renovation and to construct two new traditional councils.

1. Personnel numbers includes all filled posts together with those posts additional to the approved establishment

Tables 28 depicts personnel numbers and cost by salary levels and employee dispensation per programme. The personnel numbers declined from 2928 in 2015/16 to a revised figure of 2 906 in 2018/19 which is expected to rise to 2926 due to the on-going recruitment drive in 2019/20.

In 2018/19, the department embarked on a process to decentralise the core service delivery mandate. Taking into account various factors, a phased-in approach was adopted to establish District Support Centres (DSC). The DSCs function is to support the district municipalities and traditional leadership institutions within close proximity. The initial phase planned to relocate 55 officials by the end of March 2019. To date, 40 officials have been relocated to the districts in the core service delivery branch.

The department plans to embark on a consolidation mode of decentralisation, where 40 per cent of staff will be based in Head Office and operate with 60 per cent officials at district level. Consequently, the department plans to conduct skills audit and build capacity, connect ICT support systems in districts to increase administrative and management efficiencies. This phase plans to relocate 161 officials to the districts by March 2020. The consolidation phase takes into account a need to prioritise filling of core mandate vacant posts earmarked for decentralisation.

Tables 29 above reflects the number of personnel trained and planned to be trained from 2015/16 to 2017/18 audited years, current year, and over the 2019 MTEF. The number of personnel decreased from 2928 in 2015/16 to 2906 in 2018/19 due to disbandment of Operation Clean Audit (OCA) and natural attrition. In 2019/20, the numbers increase to 2926 due to training of Traditional Leaders.

Department: of Rural Development and Agrarian Reform

Table 1: Summary of departmental allocation

R'000	
To be appropriated in 2019/20	R2 340 324
Responsible MEC	MEC for Rural Development and Agrarian Reform
Administrating Department	Department of Rural Development and Agrarian Reform
Accounting Officer	Acting Head of Department

1. Overview

1.1 Vision

Vibrant, equitable, sustainable rural communities and food security for all.

1.2 Mission

Promote, support and coordinate Rural Development and Agrarian Reform interventions to reduce poverty and underdevelopment through job creation, integrated food security programmes, and equitable participation in development by all rural communities.

1.3 Core functions and responsibilities

The core functions of the department are derived from its support and promotion of Agriculture and Rural Development in the province. These functions include the following:

- Facilitation and coordination of Rural Development interventions in order to improve rural livelihoods;
- Facilitation, planning and promotion of the Rural Development Strategy in order to ensure that the vision, mission and the pillars of the strategy are achieved;
- Agrarian Transformation and Food Security, supported by effective training, skills development and extension services;
- Provide and support the development of infrastructure to achieve sustainable agriculture;
- Invest in High Impact Projects which add value in agriculture as a business; and
- Ensure that agricultural production is supported by the latest technology development and research.

1.4 Main Services

Supporting and promoting enterprise development in rural areas using Eastern Cape Rural Development Agency (ECRDA) as the implementing agent for High Impact Projects (HIPs) which provide high returns on investment;

- Rural Development facilitation and coordination which is planning and alignment of rural development activities, promotion of social facilitation, initiating capacity building programmes, support of rural business and non-farm rural activities, increased rural participation and social mobilisation and attracting rural investments and partnerships, referrals, monitoring, evaluation and reporting;
- Creating short term jobs (agricultural infrastructure) through the Expanded Public Works Programme (EPWP) and the Comprehensive Agricultural Support Programme (CASP) conditional grant;
- Increasing crop production and improving production;
- Applying technologically advanced diagnostic procedures for diagnosis and research on animal diseases of economic importance to the province and zoonotic diseases that may pose a risk to human health;
- Supporting human capital development initiatives in order to boost skills in the agricultural sector in the province through the implementation of the Agriculture Education and Training Sector Strategy;
- Expanding on the research support to commercial and emerging farmers to boost productivity and enhance access to marketing services; and
- Providing agricultural training to commercial farmers, emerging farmers, agricultural students and people residing in rural areas.

1.5 Demands for and expected changes in the services

The province continues with its focus of being the primary producer of agricultural products in order to make the Province of the Eastern Cape a food basket of the country given its agricultural potential. Therefore, the implementation of the Agricultural Economic Transformation (AET) strategy remains critical in assisting the provincial farmers to operate and trade at a commercial level, and thus improve the agricultural contribution to the regional Gross Domestic Product (GDP).

The department continues to engage and work with the private sector within the agricultural sector and other stakeholders in order to assist farmers to access more funding, skills and ensure that their needs are met for them to thrive in the sector. Furthermore, RED hubs/ Agri-parks are also targeted for improved and increased production of white maize and agro-processing to create enough feedstock and diversify products to include livestock feed.

1.6 The Acts, rules and regulations

The key mandate of the department is derived from Schedules 4 and Section 25 of the Constitution. There are a number of Acts that have been promulgated to further support the department's constitutional mandate. Agricultural Development Act (of 1999); Implementation of Conservation of Agricultural Resources Act (of 1983); Eastern Cape Rural Finance Corporation Act (of 1999); Animal Health Act (of 2002); and Meat Safety Act (of 2001). Other constitutional issues affecting rural development include the

allocation of powers and responsibilities to national departments and provincial governments to administer land and promote and/or support agrarian reform.

1.7 Budget decisions

The department implemented baseline reduction to both Equitable share and Conditional Grants, due to overall national reductions in national transfers to the province. The department implemented the baseline cuts mainly under Transfers and Subsidies, as well as Goods and Services. Austerity measures continue to be observed.

In addition the department has made a decision to reclassify the allocation for commodity partners from Transfers and Subsidies to Goods and services in order to comply with National Treasury Clarification Circular 21 of 2018 introduces the principle of determining the immediate use of the funds, “what is being bought” with the funds. It also introduces the test that must be applied to determine whether a transaction meets the requirements to be classified as Transfers and Subsidies or Goods and Services.

The amount of R7.638 million is completing the R116 million commitment of government to Magwa Business Rescue, which should have met the conditions set by the Provincial Treasury, such as the availability of an equity partner and social compact.

Funds have been reprioritised from attritions and non-core items to fund critical posts and core service delivery programmes such as veterinary services, crop and livestock production and agricultural infrastructure.

1.8 Aligning departmental budgets to achieve government’s prescribed outcomes

The department has aligned its programmes and budget to achieve the National Development Plan (NDP) vision of making rural areas spatially, socially and economically well integrated across municipal, district and regional boundaries – where residents have economic growth, food security and jobs and as a result agrarian transformation and infrastructure development programmes, and have improved access to basic services, health care and quality education. By 2030 agriculture is expected to create close to 1 million jobs contributing significantly to reducing overall unemployment.

In line with the NDP, the provincial development plan has developed five goals to guide its implementation of the NDP; they are as follows: an inclusive equitable growing economy for the province; An educated, innovative and empowered citizenry; a healthy population; vibrant equitable enabled communities; capable agency across government and other institutional partners committed to the development of the province. These goals will be pursued with the focus on the rural development with specific emphasis in Ilima Labantu as an agricultural development initiative that aims to revive rural economy and encourage other areas of development in the province.

The policy approach of the department is guided by the priorities of outcome 7 (vibrant, equitable, sustainable rural communities contributing towards food security for all).

2. Review of the current financial year (2018/19)

2.1 Key achievements

The department continued with the implementation of its strategy as per the three identified flagship programmes namely, grain, livestock, and horticultural production.

With regards to grain production, hectares planted increased to 55 000 in 2018/19 from 47 800 hectares in the previous year and most of these hectares are in the maize belt which is in the east side of the province. The expected yield for the current planting season is 4 tons per hectare. However, in respect of the 2017/18 production season the department registered 2.3 tons/ha from the target of 47 800 hectares. In addition, RED hubs remain central in the agro-processing space, and the produce (maize meal, samp, livestock feed), was sold to certain Spar outlets.

The commercialisation of livestock remains one of the priority of the department and during the 2018/19 financial year, 5 bulls have been distributed in Amathole (1 Beefmaster, 1 Brahaman), Sarah Baartman (2 Brahaman) and Joe Gqabi districts (1 Brahaman). Furthermore, livestock identification and traceability system has been piloted in 7 villages in four districts namely; Amathole, Chris Hani, OR Tambo and Alfred Nzo. These bulls assist farmers to produce the breeds that are marketable so that they can be able to penetrate the formal market as this has been a challenge for the small-holder farmers in the province.

In addition, to improve the quality of the livestock mainly in rural communities and land reform farms, the department implemented the Redmeat Development Programme to support 13 custom feeding facilities. These have managed to have new intake of 579 animals and sold 424 finished cattle through various marketing channels of livestock.

The Animal Fiber Value Chain program was supported with 30 FiberLux Diffusion machines through partnership with Technology Innovation Agency (TIA), as the result of this partnership, 30 unemployed youth will be employed to work with 300 shearing sheds during the shearing periods.

To enhance the livestock productivity, the department applied 349 872 treatments to control sheep scab and 1,5 million treatments were applied to animals for external parasite control. Also 276 251 pets were vaccinated against rabies, to conduct education and awareness on rabies, a World Rabies Day was held at Mketengeni location in Ingquza Hill local municipality.

With respect to high value crops, the department completed the Ripplemead Citrus pack-house Phase 2, that supports three groups of smallholder farmers (19 beneficiaries) that were already exporting citrus. The pineapple industry is mainly concentrated in the coastal areas of the Eastern Cape, from East London to Bathurst. A total of 324 tons of pineapple were harvested at Ngqushwa (Tainton and Bingqala) and were sold to Summepride Canneries in East London.

The infrastructure development programme is designed to support prioritised commodities (grain, livestock and horticultural production) for increasing production, marketing and value chain information. In 2018/19, a total of 141 smallholder producers received support in the form of infrastructure development, and a total of 22 agricultural infrastructure development initiatives were completed; namely phase 2 of the Ripplemead Pack-house in Amathole district (Ngqushwa municipality), Walter Sisulu Feedlot, large stock handling facility, boundary and internal fencing in Joe Gqabi district, destiling of stock water dams in O.R Tambo district, storage, multi-purpose sheds, and animal handling Facilities with spray race in Sarah Baartman, as well as

During the period under review, a total of 667 beneficiaries were capacitated through non-accredited trainings, 31 were capacitated through accredited beneficiaries such as Learnerships; 18 learners on Plant Production NQF level 3 at Ncerha Macademia (Amathole District), 13 learners on Animal Production NQF level 3 at Masimanyane (Chris Hani District). One hundred and fifteen 115 farm workers were also trained from two districts i.e. Amathole and Joe Gqabi.

Career guidance and school visits were held at Tsolo Agricultural Rural Development Institute (TARDI), benefitting 1 016 students. The schools were from Mount Fletcher, Mthatha, Mount Frere, Tsolo, Qumbu and Lusikisiki.

The department has during the 2018/19 production season provided 1 794 jobs, of which 422 jobs created are permanent mainly in grain, horticulture and livestock production .

2.2 Key challenges

Protest by the local service providers in the Alfred Nzo district brought about six months delay in the delivery of services, however, the matter was resolved with all stakeholders' involvement. In addition, the Qamata irrigation scheme, a project put on hold owing to social challenges. To resolve the situation, the department through Chris Hani Development Agency appointed a social facilitator.

Furthermore, the implementation of infrastructure projects was sluggish across the province, mainly the construction of shearing sheds around the Chris Hani, OR Tambo and Joe Gqabi districts where warning letters for poor performance were issued, penalties imposed were contracts have expired and cancellation of contracts done to the non-performing service providers.

3. Outlook for the coming financial year (2019/20)

In 2019/20, the department will continue with the implementation of its strategy to enable black smallholder and communal farmers access be commercially viable participants throughout the agricultural value chain.

The department has targeted to plant 60 000 ha with an estimated yield of 4 tons per ha. This will benefit 6 980 clustered grain producers and create 1100 jobs. The increase in production will be focussed in and around the four RED Hubs in Mqanduli, Ncora, Emalahleni and Mbizana) to promote the local maize value chain i.e. processing, packaging and marketing of grain within the smallholder and communal farmers. These initiatives will afford a total of 24 327 local grain producers to be trained and capacitated in commercial grain production.

To improve yield estimates of smallholder farmers the department will continue to work with the commodity partner, who will provide farmers with technical support, funding, liming, crop insurance, skills development and organise markets.

The Eastern Cape has a potential to produce Citrus for commercial purposes and 85% of the fruit is exported, the department has taken initiative to partner with the private sector so as to transform the industry, expand production and improve quality that will meet the export requirements. The department is continuing with the provision of appropriate support to Citrus farmers in terms of infrastructure development and production input.

In 2019/20 the department has allocated a budget to establish new citrus orchards (50 ha) in the Sarah Baartman district, and 20 ha around the Ripplemead region in the Amatole district, this will ensure that the recently completed state of the art facility for grading and packaging is fully utilised. The department will continue to provide support for maintenance of the 567 ha of established orchard. In addition the

department will enable future expansion and entry of new producers into the industry through support of Environmental Impact Assessment processes for 70 ha, and will benefit 40 farming entities.

The department in partnership with the Deciduous Fruit Development Chamber (HortGro), will invest towards the establishment of a new orchard covering an extent of 40ha. The support will include the installation of the irrigation system benefitting 14 farmers, creating 8 permanent and 40 seasonal jobs. The expansion in Langkloof is projected over 5 years on account of it involving some upgrading of existing orchards while the greenfields expansion at Gubenxa is projected over 7 years.

The department identified Pineapple Growers Association as a strategic partner to do business with the black farmers. In 2019/20 financial year, the department allocated funds for erecting 16 kilometers of fencing for new farms and maintenance of 180ha of existing orchards.

In respect of Macadamia Nut the department will continue with the orchard establishment expanding the existing area by 100 ha at Amajingqi village. The installation of the bulk water supply to Amajingqi Macadamia that is required for the establishment of 20 ha of macadamia nut orchard, continues. A provision received through DAFF augments funding from the Land Bank . The funding will enable maintenance of the existing 200 ha orchard, as well as land preparation, irrigation development, production inputs and management of the additional 100 ha to be planted during the 2019/20 financial year.

In addition, the department will support 850ha on vegetable production, support will be provided for production of tomatoes, cucumbers, and peppers to be grown in tunnels. Furthermore, in order for farmers to access formal markets, the department will provide infrastructure support to ensure SA GAP and Hazard Analysis and Critical Control Points (HACCP) compliance.

To drive the commercialisation of livestock, the province will support livestock producers with animal health and veterinary services by vaccinating 1,5 million animals against anthrax, black quarter (cattle) and rabies in pets (dogs and cats). In addition, inoculate 4 million sheep with ivermectin for sheep scab control and apply 4,02 million treatments to cattle for external parasite control (cattle dipping). With respect to the communal cattle-farming sector the department in partnership with the strategic partners in the sector aims at assisting 200 black smallholder farmers over a period of five years.

Furthermore, the department will support oyster production in Hamburg Aquaculture Farm with infrastructure and environmental authorisation for the expansion of the production in areas close to the catfish processing factory in Graaf-Reinet.

In the apex of the strategy of the department is sustainable agriculture production through climate smart agriculture production technologies. The research priorities are to develop smallholder farmers suitable production technologies and develop data that inform policy formulation in the Department. The research will support the development aquaculture sector in the Province through research activities in the revitalised hatchery in Mthatha Dam. The high growth potential of horticultural production would be explored through research in the new glasshouse in Dohne ADI.

The infrastructure development programme is designed to support prioritised commodities for increasing production, marketing and value addition. The department will prioritise critical infrastructure in various commodities such as irrigation and fencing to expand production in the Ripplemead area for citrus, fencing and trellising for orchard establishment with regards to deciduous fruit, fencing, storage facilities with for maize, fencing, feedlots, diptanks, stock handling facilities, stock water facilities, shearing sheds, piggery and poultry structures with regards to livestock, as well as maintenance and development of basic facilities and building infrastructure for agricultural colleges.

The Department will enrol 578 full-time students at TARDI and Fort Cox ATI for a two year diploma in various specialisations in Animal Health, Crop and Animal Production. It is anticipated that 130 of these enrolled students will complete their training during the 2019/2020 financial year and will be available to pursue entrepreneurship within the sector.

Furthermore, to resuscitate the aging college infrastructure the department will utilise the phased-in approach in order to meet the accreditation requirements that are linked to curricular offerings. In 2019/20, a portion of CASP funding will be used to fund two infrastructure projects relating to sanitation and water-works on two sites namely; TARDI and Fort Cox.

The Rural Wealth Creation Centre, will train 200 youth and unemployed graduates to start their own agricultural businesses; 50 agricultural science educators will be exposed to the offerings of the sector to capacitate them on how to approach practical for the school syllabus and encourage green skills for in-school youth.

In addition, 120 unemployed graduates will be placed in commercial farms for a period of two years to empower them to become commercially viable prospective farmers. This initiative aims to introduce new, youthful participants to the sector whose training / education background ensures sound understanding and a passion for agricultural entrepreneurship, rather than office jobs.

4. Reprioritisation

Given the reduction of the department's budget baseline over the 2019 MTEF period through national and provincial budget cuts, include reduction of CASP. The department has reprioritised its budget from non-core to core items in order to fund shortfalls in the key service delivery areas.

5. Procurement

The department continues with the multi-year cropping contracts that were awarded in 2017/18 for supply and delivery of chemicals, fertilizers and seeds. In support of Local Economic Development (LED), 30 per cent of the cropping awards have been sub-contracted to SMMEs and Co-operatives from within the province.

In sourcing mechanization services, the department developed a database of mechanization contractors that is updated annually, the department will on annual basis analyse performance of the mechanization contractors, both financial and non-financial capacity will also be assessed annually. In addition the department will then limit bidding to procure mechanization to service providers proven to perform.

Furthermore, in support of the LED the department will utilize the services of the local suppliers and cooperatives up to a ward/ municipal level. Procurement for infrastructure is done through open competitive bidding and service providers are encouraged to sub-contract to designated groups for all bids above R3 million.

Table 2 above shows the summary of departmental receipts from 2015/16 to 2021/22. There are two main sources of revenue for the department: equitable share and conditional grants. Total receipts increased from R1.968 billion in 2015/16 to a revised estimate of R2.386 billion in 2018/19, mainly due to the seed funding in support of the implementation of the AET strategy. It is also due to the allocation for Magwa Business Rescue project.

In 2019/20, total receipts decreases by 1.9 per cent to R2.340 billion, mainly due to the reduction of the departments Equitable Share baseline resulting from the declining allocation of the Magwa Business Rescue programme. Furthermore, conditional grants decreases by 17.2 per cent owing to reduction of the CASP grant in 2019/20 and 2020/21.

Table 3 above shows the summary of department receipts from 2015/16 to 2021/22. The department's primary source of own receipts is from the sale of goods and services other than capital assets, which relates mainly to the sale of livestock, agricultural products and veterinarian services. Own receipts have increased from R9.749 million in 2015/16 to a revised estimate of R13.041 million in 2018/19 due to once-off surrender from ECRDA and decreases to R6.833 million in 2019/20.

6.3 Official development assistance (donor funding)

None.

7. Payment summary

7.1 Key assumptions

The assumptions that were considered in the crafting of this budget include:

- Salary increases of 5.4 per cent plus 1 per cent have been considered as well as the adjustments contained in the wage agreement, as well as funding all personnel costs within the existing baseline;
- Inflation related items were based on CPI projections as provided in the National Treasury guidelines; and
- Implementing the AET strategy through Goods and Services in line with National Treasury Circular 21.
- Effecting the budget cuts for the national and provincial priorities.

Tables 4 and 5 above show the summary of payments and budget estimates per programme and economic classification from 2015/16 to 2020/21. Total expenditure increased from R1.968 billion in 2015/16 to a

revised estimate of R2.386 billion in 2018/19 mainly attributed to an additional funding allocated for the implementation of the AET strategy and Magwa Business Rescue project. In 2019/20, the budget decreased to R2.340 billion, reflecting a negative growth of 1.9 per cent mainly attributed to additional funding for Magwa Majola business rescue that was allocated at a sliding scale in 2018/19, as well as reduction of Equitable share and Conditional grants. It increases moderately over the 2 outer years.

Compensation of Employees increased from R1.055 billion in 2015/16 to a revised estimate of R1.237 billion in 2018/19. The increase was mainly to cover the payment of Improvement on Conditions of Services (ICS). In 2019/20, the budget is estimated to grow by 6.6 per cent to R1.319 billion mainly due to provision made for ICS adjustment as well as planned recruitments.

Goods and Services increased from R508.571 million in 2015/16 to a revised estimate of R550.943 million in 2018/19 due to an additional funding allocated for the implementation of the AET strategy. In 2019/20, the budget decreases by 3.6 per cent to R531.087 million mainly attributed to additional funding allocated at a sliding scale for implementation of the AET strategy, as well as reduction of the departments Equitable Share baseline.

Transfers and Subsidies increases from R221.232 million in 2015/16 to a revised estimate of R398.530 million in 2018/19, owing to reprioritisation of funds from Goods and Services, and Payments for Capital Assets for the implementation of the AET strategy, as well as additional funding made available in the 2018 MTEF financial year to assist in the Magwa Business Rescue Process. In 2019/20, the budget decreases by 33.5 per cent to R309.715 million attributed to funds allocated at a sliding scale for the Magwa Business Rescue project. In addition the department reclassified funds that were allocated under this item to Goods and Services for commodity partners in order to align to the National Treasury circular 21.

Payments for Capital Assets increased from R154.342 million in 2015/16 to a revised estimate of R195.677 million in 2018/19, attributed to reclassification/reprioritisation of funding from Goods and Services to this item for implementation of infrastructure projects. In 2019/20, the budget increases by 15.2 per cent to R225.370 million due to reprioritisation of funding orchard establishment at Amajinqa Macademia Nut, and for the new development of deciduous orchard development at Gubenxa Valley to support 13 landreforms farms, and expansion and development of citrus orchards in the Amatole district.

Table 6 above depicts the summary of departmental payments and budget estimates by benefiting municipal boundary from 2015/16 to 2021/22. Total expenditure increased from R1.968 billion in 2015/16 to a revised estimate of R2.386 billion in 2018/19 due to an increase in equitable share resulting from additional funding for the implementation of the AET strategy, as well as additional funding for the establishment Magwa Business Rescue. In 2019/20, the budget decreases by 1.9 per cent due to equitable and conditional grants baseline cuts. It increases moderately over the 2 outer years.

1. Total provincial infrastructure is the sum of "Capital" plus "Recurrent maintenance". This includes non infrastructure items.

Table 7 above shows the summary of infrastructure payments and budget estimates from 2015/16 to 2021/22. Infrastructure expenditure increased from R124.820 million in 2015/16 to a revised estimate of R180.611 million in 2018/19. The increase was mainly attributed to the additional funding for the implementation of infrastructure projects linked to the farmers partnered with commodity partners for the implementation of the AET strategy. In 2019/20 the budget increases by 5.4 per cent owing to reprioritisation of funding of the new deciduous orchard development at Gubenxa Valley to support 13 land reforms farms, as well as expansion and development of citrus orchards at Ngqushwa municipality (Amatole District). It is also due to the allocation of the orchard establishment at Amajinqa Macademia Nut in Willowavale. The budget for infrastructure declines over the 2 outer years due to the reprioritisation of Red meat budget from infrastructure development to weaners production stock and marketing.

Infrastructure current transfers, increases from R7.000 million in 2015/16 to a revised estimates of R58.690 million in 2018/19, mainly due to a transfer to the Chris Hani Development Agency for the revitalisation and expansion of irrigation schemes, Blue Karoo Trust to build fish grow-out tunnels to promote the aquaculture and fisheries developent in the province, as well as provision made for the Amajingqi Macadamia nut and infrastructure to support livestock commercialization.

7.5.2 Maintenance

In 2019/20, the department discontinued the maintenance provision for irrigation schemes and the reprioritisation on the CASP funding for colleges. The department has no routine maintenance plan in operation for infrastructure but it advises the beneficiaries on the maintenance requirements.

7.5.3 Non Infrastructure

Non infrastructure allocation has decreased from R33.370 million in 2018/19 to R22.861 million in 2019/20 mainly due to the reprioritisation of the budget to weaners production stock. The budget increases over the MTEF due to the aqua-culture projects.

7.6 Departmental Public Private Partnership (PPP) Projects

Table 8 above shows the summary of transfers to public entities. The department transfers funds to ECRDA as its implementing agency. Transfers to ECRDA have increased from R153.573 million in 2015/16 to a revised estimate of R263.928 million due to additional funding to assist in the Magwa Business Rescue Process. In 2019/20 transfers to ECRDA decreased by 31.3 per cent to R192.584 million owing to a decrease in the allocation for the Magwa Business Rescue Process, Amajinqa Macadamia Nut, and allocation for RED Hubs ending in the 2018/19 financial year.

Table 9 above shows the summary of transfers to other entities from 2015/16 to 2021/22. Transfers increased from R43.875 million in 2015/16 to a revised estimate of R104.624 million in 2018/19 due to reprioritization of funds from Goods and Services, and Payments for Capital Assets to Transfers and subsidies for the implementation of the AET strategy. The department used commodity groups as strategic partners in implementing its new strategy that is aimed at supporting farmers, especially the smallholder farmers to be commercial farmers. In 2019/20, the transfers decreased by 47.1 per cent to R55.304 million due to the introduction of Circular 21 National Treasury. In complying with this circular, the department allocated the budget back to Goods and Services and Capital Payments given that the funds to the strategic partners is not meeting the criteria of being a transfer as stipulated in Circular 21. The budget increases moderately over the 2 outer years.

Tables 10 and 11 above show the conditional grants expenditure and economic classification from 2015/16 to 2021/22. Conditional grants increased from R311.690 million in 2015/16 to a revised estimate of R398.801 million in 2018/19. In 2019/20, conditional grants decrease by 16.6 per cent to R332.746 million mainly due reduction in baseline allocation for CASP. It increases sharply in 2021/22.

The Comprehensive Agricultural Support Programme (CASP) grant continues with its focus in the following areas: revitalisation of the Tsolo and Fort Cox Agricultural Colleges, Extension Recovery Plan (ERP), Farmer training and farm infrastructure projects (crop and livestock infrastructure), cropping projects. The Ilima/Letsema grant funding will continue to assist developing farmers' access to crop production inputs and materials. The Land Care conditional grant funding continues to be channelled towards increasing awareness on sustainable use of natural resource. In addition, the Expanded Public Work Programme (EPWP) grant continues to compensate beneficiaries employed in infrastructure projects.

8. Programme description

8.1 Programme 1: Administration

Objectives: To manage and formulate policy directives and priorities and, to ensure there is appropriate support service to all other programmes with regard to finance, personnel, information, communication and procurement. This programme is divided into 5 sub-programmes:

- **Office of the MEC:** To set priorities and political directives in order to meet the needs of clients. (For the efficient running of the MECs office).
- **Senior Management:** To translate policies and priorities into strategies for effective service delivery and, to manage, monitor and control performance;
- **Corporate Services:** To provide support service to the other programmes with regard to human resources management and development, Information Technology and Communication service;
- **Financial Management:** To provide effective support service (including monitoring and control) with regard to Budgeting, Provisioning and Procurement; and

Communication Services: This sub-programme proposes to focus on internal and external communications of the department through written, verbal, visual and electronic media as well as marketing and advertising of the departmental services

Tables 12 and 13 above show the expenditure and estimates for Administration per sub-programme and economic classification from 2015/16 to 2020/21. Expenditure for the programme increased moderately from R434.411 million in 2015/16 to a revised estimate of R480.481 million in 2018/19 million mainly attributed to provision made for payment of leave gratuities, and to cover ICS adjustments. In 2019/20, the

allocation increase by 1.1 per cent to R485.580 million mainly attributed to provision made for payment of leave gratuities, and to cover ICS adjustments. It increases moderately over the 2 outer years.

Compensation of Employees increased from R267.500 million in 2015/16 to a revised estimate of R319.193 million in 2018/19. In 2019/20, it increases by 5 per cent to R335.152 million mainly to cover ICS adjustment.

Goods and Services increased from R96.846 million in 2015/16 to a revised estimate of R123.302 million in 2018/19 mainly due to inflationary adjustment. In 2019/20, the budget decreases by 5.7 per cent to R116.321 million mainly due implementation of baseline cuts.

Transfers and Subsidies decreases from R23.784 million in 2015/16 to a revised estimate of R14.506 million in 2018/19 due to decrease in the number of personnel leaving the service as well as unexpected early retirements. In 2019/20, it increases by 17.1 per cent to R 16.988 million due to a provision made for leave gratuities for the anticipated retirements.

Payments for Capital Assets increases from R18.230 million in 2015/16 to a revised estimate of R19.504 million in 2018/19. In 2019/20, it decreases by 12.2 per cent to R17.119 million mainly due to implementation of budget cuts.

8.2 Programme 2: Sustainable Resource Management

Objectives: To provide agricultural support services to farmers in order to ensure sustainable development and management of agricultural resources. It has 4 sub-programmes:

- **Engineering Services:** Provides engineering support (planning, development, monitoring and evaluation) with regards to irrigation technology, on-farm mechanization, value adding, farm structures, resource conservation management, operation and maintenance of farm equipment and machinery, tools and implements solutions;
- **Land Care:** Promotes the sustainable use and management of natural agricultural resources;
- **Land Use Management:** To promote the implementation of sustainable use and management of natural agricultural resources through regulated Land Use (Act 43 of 1983, Act 70 of 1970, and related legislation); and
- **Disaster Risk Management:** To provide agricultural disaster risk management support services to clients / farmers.

Tables 14 and 15 above show the summary of payments and estimates for Sustainable Resource Management per sub-programme and economic classification from 2015/16 to 2021/22. Expenditure of the programme increased from R124.663 million in 2015/16 to a revised estimate of R167.661 million in 2018/19 due to once off allocation under Land care grant for drought relief received during the Adjustment estimates period. The funding was mainly allocated for repairing and scooping of dams, and boreholes, construction of fire belts, implementation of conservation agriculture, as well as eradication of alien and invasive vegetation. It then decreases by 17 per cent to R139.190 million in 2019/20. It increases moderately in the 2 outer years.

Compensation of Employees increases from R81.110 million in 2015/16 to a revised estimate of R97.082 million in 2018/19 to the filling of critical posts and payment of ICS adjustments. In 2019/20, it increases by 8.4 per cent to R105.284 million mainly to cover ICS adjustment, and planned recruitments.

Goods and Services increased from R31.928 million in 2015/16 to a revised estimate of R64.224 million in 2018/19 due to once-off additional funding under Land care grant for drought relief, and therefore decreases by 55.6 per cent to R28.533 million in 2019/20.

Payments for Capital Assets decreased from R11.625 million in 2015/16 to a revised estimate of R6.345 million in 2018/19 due to reprioritisation of funds. In 2019/20, the budget further decreases by 15.3 per cent to R5.373 million owing to reprioritisation of funds to Goods and Services.

Service Delivery Measures

Table 16: Selected service delivery measures for the programme: P2: Sustainable Resource Management

Programme performance measures	Estimated performance	Medium-term estimates		
		2018/19	2019/20	2020/21
Number of agricultural infrastructure established	121	88	91	91
Number of hectares of agricultural land rehabilitated	5 389	1 843	1 800	1 800
Number of green jobs created through Land Care	296	535	540	540
Number of agro-ecosystem management plans developed.	6	6	6	6
Number of farm management plans developed	230	235	247	247
Number of disaster risk reduction services managed	1	1	1	1
Number of disaster relief schemes managed	1	1	1	1

The programme supports the strategy with technical support in the agricultural infrastructure designs, project supervision, soil conservation measures, rehabilitation of land. Ensure that regular disaster risk surveillances are conducted to support the farmers in times of eminent disasters such as the current drought.

8.3 Programme 3: Farmer Support and Development

Objectives: To provide support to farmers through agricultural development programmes. The programme has the following 3 sub-programmes:

- **Farmer Settlement:** To facilitate, coordinate and provide support to smallholder and commercial farmers through sustainable agricultural development within agrarian reform initiatives;
- **Extension and Advisory Services:** To provide extension and advisory services to farmers; and
- **Food Security:** To support, advise and coordinate the implementation of pillar one of the Integrated Food Security Strategy of South Africa (IFSS).

Tables 17 and 18 above show the summary of departmental payments and estimates for the Farmer Support and Development programme per sub-programme and economic classification from 2015/16 to 2020/21. Expenditure increased from R654.964 million in 2015/16 to a revised estimate of R830.808 million in 2018/19 due to the additional allocation to enhance agricultural production through the implementation of the AET strategy. In 2019/20, the budget for the programme slightly decreases by 1.0 per cent to R822.245 million mainly attributed to a decline in the allocation for additional funding for the implementation of the strategy and the reduction of baselines for both Equitable and Conditional Grant (CASP). The budget increases in the 2 outer years.

Compensation of Employees increased from R311.963 million in 2015/16 to a revised estimate of R361.702 million in 2018/19, mainly due to the filling of critical posts and payment of ICS adjustments. In 2019/20, the budget increases by 8.7 per cent to R393.262 million mainly due to provision made for ICS adjustment as well as planned recruitments.

Goods and Services decreased from R265.147 million in 2015/16 to a revised estimate of R235.307 million in 2018/19 due to funds allocated in a sliding scale for crop production in the 2016 MTEF and the reprioritisation of funds from Goods and Services (Farming supplies) to Transfers and Subsidies for the implementation of the strategy. In 2019/20, the increase of 5 per cent to R246.959 million is attributed to reclassification of funds from Transfers and Subsidies to Goods and Services and Payments for Payments of Capital Assets in line with National Treasury Circular 21.

Transfers and Subsidies increased from R7.000 million in 2015/16 to a revised estimate of R108.873 million in 2018/19, owing to additional funding for the implementation of the AET strategy, funding for Amajinqa macadamia nut, livestock production (i.e. feedlots livestock infrastructure). In 2019/20, the budget decreases by 85 per cent to R16.360 million due to the implementation of Circular 21.

Payments for Capital Assets increased from R70.854 million in 2015/16 to a revised estimate of R124.926 million in 2018/19. In 2019/20, the budget increases by 32.6 per cent to R165.664 million mainly attributed to reclassification of from Goods and Services to Payments Capital Payments in line with Circular 21.

Service Delivery Measures

Table 19: Selected service delivery measures for the programme: P3: Farmer Support and Development

Programme performance measures	Estimated performance 2018/19	Medium-term estimates		
		2019/20	2020/21	2021/22
1. Number of smallholder producers supported	3 326	2 110	2 931	2 931
2. Number of smallholder producers supported with agricultural advice	1 600	1 635	1 670	1 670
3. Number of households supported with agricultural food production initiatives	30 000	35 000	40 000	40 000
4. Number of hectares planted for food production.	55 000	65 000	75 000	75 000

This programme will mainly support the AET Strategy which is based on the commodity and cluster models that seeks to enable rural communities. The focus will be increasing grain, horticulture production, and livestock production.

8.4 Programme 4: Veterinary Services

Objectives: To provide veterinary services to clients in order to ensure healthy animals, safe animal products and welfare of people of South Africa. The programme has 4 sub-programmes namely:

- **Animal Health:** To facilitate and provide animal disease control services in order to protect the animal and human population against identified infectious, zoonotic and / or economic diseases, through the implementation of the Animal Diseases Act (Act 35 of 1984), and primary animal health programme/projects;
- **Export Control:** To provide control measures including risk assessment and health certification in order to facilitate the exportation of animals and animal products;
- **Veterinary Public Health:** To ensure the safety of meat and meat products through the implementation of the Meat Safety Act (Act 40 of 2000), the Animal Diseases Act (Act 35 of 1984), and other relevant legislation.; and
- **Veterinary Laboratory Services:** To render veterinary diagnostic, laboratory and investigative services that will back the control of animal diseases for adherence to hygienic standards and to generate data.

Tables 20 and 21 above show the summary of departmental payments and estimates for Veterinary Services per sub-programme and economic classification from 2015/16 to 2021. Expenditure increased from R271.347 million in 2015/16 to a revised estimate of R327.904 million in 2018/19, due to the reprioritization of funds from other programmes to cover cost pressures on operational costs for Veterinary Services. In 2019/20, the budget increases by 3.6 per cent to R339.670 million mainly to cover inflationary adjustment. In addition the department made a provision for the procurement of syringes to test Tuberculosis in animals.

Compensation of employees increased from R209.338 million in 2015/16 to a revised estimate of R246.341 million in 2018/19. In 2019/20, the budget grows by 5.7 per cent to R260.322 million to fund the ICS adjustments.

Goods and services increased from R54.412 million in 2015/16 to a revised estimate of R67.383 million in 2018/19. In 2019/20, the budget increases by 6.6 per cent to R71.843 million mainly to cover cost pressures on operational costs for Veterinary Services, and provision for the procurement of animal medical supplies.

The Payments for capital assets increased from R7.597 million in 2015/16 to a revised estimate of R14.180 million in 2018/19, mainly due to reprioritisation of funds for medicine storage facilities for safe keeping of dipping material. In 2019/20, the budget decreases by 47.1 per cent to R7.505 million owing to budget cuts.

Service Delivery Measures

Number of treatments applied to sheep for the control of sheep scab to improve the quality and quantity of the wool	7 512 380	7 656 986	7 628 826	7 628 826
Number of treatments applied to animals for external parasites control	3 929 276	4 574 914	4 671 995	4 671 995
Number of export control certificates issued	3 390	4 000	4 100	4 100
Percentage level of abattoir compliance to meat safety legislation	1	1	1	1
Number of laboratory tests performed according to prescribed standards	56 624	59 418	65 359	65 359

The programme is a crucial component of livestock programmes, providing animal health services such as the vaccination of 1.5 million animals against controlled diseases, certification of experts (animals & animal products), control of sheep scab and treatment of animals to control external parasites.

8.5 Programme 5 Research and Technology Development Services

Objectives : To render expert and needs based research, development and technology transfer services impacting on development objectives. The programme has the following 3 sub-programmes, namely:

- **Research:** To conduct, facilitate and co-ordinate research and to participate in multi-disciplinary development projects;
- **Technology Transfer Services:** To disseminate information on research and technology developed to clients; and
- **Infrastructure support services:** To provide and maintain infrastructure facilities for the line function to perform their research and other functions (i.e. experiment farms).

Tables 23 and 24 above show the summary of departmental payments and estimates per sub-programme and economic classification from 2015/16 to 2021/22. Expenditure decreased from R142.316 million in 2015/16 to a revised estimate of R134.933 million in 2018/19 mainly due to an allocation to NAMC due for the roll-out of Agricultural Information Management System (AIMS) and its maintenance thereof. In 2019/20, the budget increases by 4.2 per cent to R140.533 million and continues to grow moderately over the 2 outer years.

Compensation of employees increased from R92.705 million in 2015/16 to a revised estimate of R109.406 million in 2018/19, mainly due to the payment of ICS adjustments. In 2019/20, the budget increases to R114.986 million by 5.1 per cent mainly to cover ICS adjustment.

Goods and services decreased from R20.695 million in 2015/16 to a revised estimate of R20.419 million in 2018/19, mainly due to reprioritisation of funds for livestock production to Farmers Support and Development programme. In 2019/20, the budget increases by 7.2 per cent to R21.898 million owing to renovations of the departments satellite power stations as well as fencing.

Transfers and subsidies decreased from R20.700 million in 2016/17 to a revised estimates of R1.645 million in 2018/19 due to decrease in the allocation to NAMC as the department had made its full contribution for the establishment of AIMS. It was also due to the reprioritisation of funding to Farmer Support and Development programme in order to augment the budget for the Red Meat Programme (feedlots). In 2019/20, the budget decreases by 100 per cent mainly due to no provision made for the AIMS system over the 2019 MTEF.

Payments for capital assets decreased from R28.916 million in 2015/16 to a revised estimate of estimate of R3.463 million in 2018/19, due to the reclassification of the funding for biological assets to Famer Support and Development. In 2019/20, the budget increases by 5.4 per cent to R3.649 million due to a provision made for the purchase of research equipment.

Research and development will provide market intelligence within the broader sector. It is envisaged that all partners will share their market information in a network of government, industry, academia farmer organisations and the NGO sector with the view of promoting innovation. Adaptive research conducted will strengthen knowledge capacity in the farming community.

8.6 Programme 6: Agricultural Economics Services

Objectives: To provide timely and relevant agricultural economic services to the sector in support of sustainable agricultural and agri-business development to increase economic growth. The programme has 3 sub-programmes, namely:

- **Production Economics and Marketing Support:** To provide production economics and marketing services to agri-businesses

- **Agro-Processing Support:** To facilitate agro-processing initiatives to ensure participation in the value chain.
- **Macro-Economics and Support:** To provide economic and statistical information on the performance of the agricultural sector in order to inform planning and decision making.

Tables 26 and 27 above show the summary of the departmental payments and estimates per sub-programme and economic classification from 2015/16 to 2021/22. Total expenditure increased from R45.456 million in 2015/16 to a revised estimate of R84.898 million in 2018/19, mainly due to additional funding for the Magwa Business Rescue process. In 2019/20, the budget decreases by 51 per cent to R41.596 million due to funds allocated at a sliding scale for the Magwa Business Rescue. It increases moderately over the 2 outer years.

Compensation of Employees increased moderately from R24.134 million in 2015/16 to a revised estimate of R27.562 million in 2018/19. In 2019/20, the budget increases by 9.2 per cent to R30.102 mainly to cater for planned recruitment and to cover ICS adjustments.

Goods and Services decreased from R12.279 million in 2015/16 to a revised estimate of R3.492 million in 2018/19 due to reprioritization to fund cost pressures in other programmes. In 2019/20, the budget decreases by 5.9 per cent to R3.285 million due to reprioritization of funds.

Transfers and Subsidies increased from R6.572 million in 2015/16 to a revised estimate of R53.313 million in 2018/19 mainly due to additional funding for Magwa Business Rescue Process. In 2019/20 the budget decreases by 85.7 per cent to R7.638 million due to funds allocated at sliding scale for the Magwa Business Rescue.

Payments for Capital Assets decreased from R2.471 million in 2015/16 to revised estimates of R531 thousand in 2018/19. In 2019/20, the budget increases by 7.5 per cent to R571 thousand mainly to cater for inflationary adjustments .

This programme will interact with commodity organisation and business strategic partners to support the smallholder farmers thereby ensuring the achievement of the objectives of the Agriculture Economic Transformation Strategy. The objective is to ensure that farmers earn income from their businesses. Agribusiness support packages will be provided to farmers through this programme. The programme will monitor market access, increasing number of productive and viable smallholders, increase farm Net Income, and value addition throughout the value chain.

8.7 Programme 7: Structured Agricultural Education and Training

Objectives: To facilitate and provide structured agricultural education and training in line with the Agricultural Education and Training Strategy to all participants in the agricultural sector in order to establish a knowledgeable, prosperous and competitive sector. The programme has 2 sub-programmes, namely:

- **Higher Education and Training:** To provide accredited higher education and training from NQF levels 5 and above to anybody who desires to study in agriculture and related fields; and
- **Further Education and Training (FET) :** To provide formal and non-formal training on NQF levels 1 to 4 through FET structured education and training programmes to all interested agricultural role players

Tables 28 and 29 above show the summary of departmental payments and estimates for Structured Agricultural Training per sub-programme and economic classification from 2015/16 to 2021/22. Expenditure increased from R132.743 million in 2015/16 to a revised estimate of R168.426 million in 2018/19, due to the reprioritization to mainly fund the infrastructural development of Agricultural Colleges. In 2019/20, the budget grows by 1.2 per cent to R170.499 million due to reprioritisation to fund catering services for students at the Tsolo Agricultural Rural Development Institute (TARDI). Currently students in the agricultural colleges are not receiving the Financial Aid or Assistance as other students in the institutions of higher learning in the country. The budget increases moderately over the 2 outer years.

Compensation of Employees increased from R53.908 million in 2015/16 to a revised estimate of R59.342 million in 2018/19. In 2019/20 the budget increases by 5 per cent to R62.310 million mainly due to a provision made for ICS adjustment.

Goods and Services increases from R21.059 million in 2015/16 to a revised estimate of R25.804 million in 2018/19 owing to low revised estimates due to delays in the implementation of the training programme. In 2019/20, the budget increases by 8.7 per cent to R28.046 million, mainly attributed to fund provision for catering services for TARDI students.

Transfers and Subsidies increased from R43.875 million in 2015/16 to a revised estimate of R57.218 million in 2018/19. The increase is mainly due to the inflationary adjustment on provision made for the transfer to Fort Cox college. In 2019/20, the budget decreases by 3.3 per cent to R55.304 million, mainly to due to reprioritisation.

Payments for Capital Assets increased from R13.901 million in 2015/16 to a revised estimate of R26.062 million in 2018/19, due to reprioritization/reclassification of CASP budget from Goods and Services for the Agricultural Colleges and revitalization. In 2019/20, the budget decreases by 4.7 per cent to R24.839 million mainly due low revised estimates.

Service Delivery Measures

Number of Farm-Workers completing accredited and/ or non-accredited training to develop skilled Farm-Workers	200	210	210	210	

The programme will ensure that the strategic partners and other role-players provide quality farmer training and other identified capabilities necessary to improve farming as a business. The strategy has identified farmers training as one of the agreed upon indicators in the service level agreement which must be closely monitored.

8.8 Programme 8: Rural Development Coordination

Objectives: To coordinate the development programmes by stakeholders in rural areas. It has 2 sub programmes:

- **Development Planning and Monitoring:** To initiate, plan and monitor development in specific rural areas (CRDP sites) across the three spheres of government in order to address needs that have been identified; and
- **Social facilitation:** To engage communities on priorities and to institutionalise and support community organisational structures (NGOs etc.)

Tables 31 and 32 above show the summary of the departmental payments and estimates for the Rural Development Co-ordination programme from 2015/16 to 2021/22. In 2015/16, the programme increased from R162.165 million to a revised estimate of R191.406 million in 2018/19, mainly due to reprioritization

for the research study on renewable energy with Fort Hare University. In 2019/20, the budget increases by 5.0 per cent to R201.011 million attributed to inflationary adjustment for the transfer to ECRDA.

Compensation of Employees increased from R15.211 million in 2015/16 to a revised estimate of R16.752 million in 2018/19. In 2019/20, the budget increased by 5 per cent to R17.593 million in order to fund ICS adjustment.

Goods and Services increased from R6.205 million in 2015/16 to a revised estimate of R11.012 million in 2018/19 mainly due to reprioritization to fund Industrial Hubs. In 2019/20, the budget increases by 29 per cent to R14.202 million mainly due to the current under expenditure.

Transfers and Subsidies increased from R140.001 million in 2015/16 to a revised estimate of R162.975 million in 2018/19. In 2019/20, the budget increases by 3.4 per cent to R168.566 million.

Payments for Capital Assets decreased from R748 thousand in 2015/16 to a revised estimate of R667 thousand in 2018/19. In 2019/20, the budget decreases by 2.5 per cent to R650 thousand.

Number of Outcome 7 reports consolidated and submitted	4	4	4	4
Number of basic infrastructure projects implemented using innovations and appropriate technologies.	8	10	12	12

The rural development coordination will be strengthened, the IGR processes will require more focused improving the planning and reporting on Outcome 7. This process is characterised by integrating all government resources towards achievement of improved land administration; improved food security, increase access to quality infrastructure, small holders' development and support, growth of sustainable rural agricultural enterprise and industries, and improved research and development.

1. Personnel numbers includes all filled posts together with those posts additional to the approved establishment

Table 34 above show the summary of personnel numbers and cost per component from 2015/16 to 2021/22. The headcounts decreased from 2 939 in 2015/16 to 2 595 in 2018/19. In 2019/20 the personnel decreases to 2 898 or 3.7 per cent. The department has reviewed its Organisational Structure supported by Human Resource Plan which is aligned to the AET Strategy.

Officials will be trained in technical, business skills and reporting according to the milestones embedded in each commodity group that has signed Service Level Agreements (SLAs) with the department. This step will ensure that a paradigm is taken to increase the capacity of farmers as well as officials in various aspects of the agriculture sector industry.

The department will continue in prioritising the filling of critical posts that will add value in the implementation of the strategy and continue maintaining the acceptable vacancy rate of 5 per cent.

Tables 35 show the departments' information on training from 2015/16 to 2021/22. The training budget increased from R1.007 million in 2015/16 to a revised estimate of R6.949 million in 2018/19. In 2019/20 the budget increases by 31 per cent to R9.105 million due to the provision made to capacitate and improve both hard and soft competency skills of departmental personnel as per Skills Development Act and Department Public Service and Administration (DPSA) directives.

The department is amongst organisations that have created a training and experiential space for youth and unemployed graduates in the past financial years. The intention of the programme is to equip the interns with knowledge, skills, and practical work experience preparing them for the labour market, cooperatives and entrepreneurial space. In 2018/19, the department appointed 140 interns were offered practical work experience in fields such as animal health, analytical chemistry, plant pathology, soil science, financial management, Human Resource Management and Development.

In 2019/20, department will offer opportunity to develop agriculture industry related knowledge that will enhance skills of 145 interns in a professional work setting.

The department in 2018/19 provided financial assistance to 33 students from designated groups benefiting in the form of bursary scheme in the fields of Veterinary Science, Plant Pathology, Agricultural Engineering, Soil Science and other Agricultural related qualifications to deal with the scarcity of skills in these fields in the province. Out of the 33 external bursary holders, 17 are females and 16 are males. Out of 6 internal employees who are getting financial support, 3 are females and 3 are males a commitment by the department in addressing employment equity targets. For 19-29 the department will provide financial assistance in the form of a bursary to 50 employees .

To be appropriated by Vote in 2019/20	R 1 481 960
Responsible MEC	MEC of Finance, Economic Development, Environmental Affairs and Tourism
Administrating Department	Department of Economic Development, Environmental Affairs and Tourism
Accounting Officer	Head of Department

1. Overview

1.1 Vision

Sustainable development underpinned by economic growth and sound environmental management.

1.2 Mission

To lead economic development and environmental management in the Eastern Cape.

1.3 Core functions and responsibilities

The core functions of the department are summarised as follows:

- To drive economic growth and development in the Eastern Cape;
- To develop and promote the provincial tourism sector;
- To provide consumer protection services, gambling and betting regulations, trade inspection and regulate the liquor industry; and
- To develop regulatory frameworks and monitor the implementation of policies for the protection of biodiversity and environment in the province.

1.4 Main Services

- Coordinate all strategic initiatives relating to the creation of decent work through inclusive economic growth; including the implementation of the New Growth Path (NGP) and the aligned provincial growth strategies;
- Develop and utilise strategic frameworks and partnerships for the support and promotion of sustainable Small Medium and Micro Enterprises (SMMEs) and Cooperatives as well as support local procurement in the province;
- Promote economic growth and development of local economies in partnership with key stakeholders by aligning Local Economic Development (LED) initiatives with government programmes as well as creating and facilitating an enabling environment for implementation. This includes small town revitalisation and the development of township economies;
- Increase the number of jobs created through sector and cluster development and support sustainable initiatives in agro-processing, manufacturing and the revitalisation of old industrial parks.

- Facilitate the development of strategic infrastructure projects that will stimulate the competitiveness of priority sectors in the provincial economy. Focus is placed on socio-economic infrastructure, Operation Phakisa, the Black Industrialisation Programme and support of Strategic Infrastructure Programmes (SIPs);
- Promote consumer rights, develop systems for effective regulation of the liquor, gambling and betting industries in the province;
- Provide credible information and databank that informs economic policy and planning processes.
- Establish, implement and maintain effective systems to manage the sustainable utilisation of biological resources and conservation of ecosystems;
- Establish, implement and maintain effective systems using environmental legislation to protect the environment and implement environmental awareness programmes to empower communities; and
- Facilitate informed environmental decision-making through the implementation of comprehensive environmental planning and coordination mechanisms.

1.5 Demands for and expected changes in the services

DEDEAT is the centre for economic growth and sustainable development through collaboration, co-ordination, facilitation, integration and support provided to all Economic Development (ED) cluster departments in order to improve economic growth and sustainable development. The province is faced with high unemployment rate as well as high level of inequality and distribution of income. Furthermore, de-industrialisation and the poor investor climate create a challenging environment for the department to create economic opportunities for investment and associated job creation. The Provincial Economic Development Strategy (PEDS) and the Jobs Strategy require a new set of industrial skills in areas such as petrochemicals, green technology manufacturing, agro-processing and auto-manufacturing.

An additional mandate to the departmental is the interventions for Integrated Social Infrastructure Development programme (ISIDP) for the ongoing housing project at Nelson Mandela Bay Metropolitan. Over the 2019 MTEF, the focus will be on the coordination and implementation of key economic projects to stimulate economic growth and development in the province.

The department foresees an increased demand on skills development programmes and applications for financial and non-financial support from SMME's and cooperatives. Although the skills development programmes at Easter Cape Development Corporation (ECDC) and Coega Development Corporation (CDC) should be able to meet the demand for skills, the department may not have sufficient financial resources to meet the needs for support to the SMME and cooperative sectors.

1.6 The Acts, rules and regulations

The department operates in a highly regulated environment, with more than 100 Acts and Regulations that serve as operational boundaries of the DEDEAT Group (department and its six public entities). The following key acts, rules and regulations are applicable to the core functions of the department: Consumer Protection Act, 2008; Broad Based Black Economic Empowerment Amended Act, 2013; Co-operatives Bank Act, 2005; Amended Co-operatives Act, 2013; National Gambling and Betting Act, 2008; National Small Business Act, 1996; National Liquor Act, 2003; Eastern Cape Liquor Act, 2003; Unfair Business Act, 1998; National Credit Act, 2006; Eastern Cape Eastern Cape Gambling Amendment Act, 1 of 2015; Eastern Cape Development Corporation Act, 1997; Eastern Cape Parks and Tourism Agency Act, 2010; Nature Conservation Ordinance, 1974; Environmental Management Act, 1998; Environmental Conservation Act, 1998; National Environmental Management Air Quality Act, 2004; National Environmental Management Biodiversity Act, 2004; National Environmental Management Integrated Coastal Management Act, 2008; National Environmental Management Waste Act, 2008; National Environmental Management Protected Areas Act, 2009, and Special Economic Zones Act, 2014.

1.7 Budget decisions

The current economic climate and the constraints placed on the provincial financial resources has directed the department to prioritise its budget allocation within its programmes within the limited resources. The department will continue with its untiring efforts of donor mobilisation and working with private sector in order to leverage on their resources in projects where there are common goals.

The department aims to ensure that resources are allocated to meet provincial priorities and to improve the quality and effectiveness of spending within the sustainable fiscal limits. The departmental budget process guaranteed that existing budget are more closely aligned with policy priorities and objectives that are funded within the current aggregate expenditure ceiling.

Cost containment measures will continue to be applied by the department over the 2019 MTEF and value for money spending.

1.8 Aligning departmental budgets to achieve government's prescribed outcomes

The departmental budget is supported by a Strategic Plan (SP), Annual Performance Plan (APP) that has been aligned to the Medium Term Strategic Framework (MSTF) and Provincial Development Plan (PDP). Decent employment through inclusive economic growth and sustainable livelihoods are the cornerstone objectives of Outcome 4. The department has aligned it plans to this national outcome by promoting the Green Economy through extensive collaboration with communities and local municipalities in creating EPWP-led initiatives and investing in research, skills and capacity development. In addition, the department will further align its budget with market development and promote the manufacturing of solar, bio-energy and wind energy generation capabilities and applications and supporting the creation of Green Jobs in the Tourism and Environmental Management sectors. The department will also further support Local and Regional Economic Development projects, SMMEs and co-operatives to stimulate the sustainable economic growth and development in the province.

In support of Outcome 5 (a skilled and capable workforce to support an inclusive growth path), the department will contribute to enhancing the skills-base of the province through various capacity and skills development initiatives.

Although the mandate of the department does not include building social and economic infrastructure, it supports Outcome 6 through the existing infrastructure build programme being implemented by the ECDC and CDC.

Outcome 7 (rural development, land and agrarian reform, and food security) is supported through collaboration with DRDAR. The Trade and Sector Development unit needs to undertake market development and export promotion which links farmers to markets, supporting sustainable economic development initiatives in agriculture and influencing collaborating departments to improve road networks linking farm and non-farm activities in strategic rural locations.

Economic growth must be balanced against sustainable resource management and use (Outcome 10). In doing so, the department develops guidelines for the protection and promotion of bio-cultural diversity; promotes the use of cleaner technologies to enhance environmental quality and supports initiatives to identify and commercialise alternate energy production.

2. Review of the current financial year (2018/19)

2.1 Key achievements

Trade and sector development created 15 490 jobs opportunities through the attraction of 11 investments into the SEZ's at a value of approximately R1.720 billion. ECDC facilitated a further 2 570 youth jobs by contributing to eradicate unemployment in the province. The contribution to skills development has seen over 4 532 people trained in prioritised sectors against the annual target of 6 154 people. The department supported the implementation of three (3) socio-economic infrastructure projects against the annual target of four (4).

In respect of Local and Regional Economic Development (LRED), four (4) projects were funded against the revised annual target of eight (8). The department met the target of 17 projects supported on agro-processing, manufacturing, and sustainable energy sectors in response to Provincial Economic Development Strategy (PEDS) to improve skills development, infrastructure development and youth empowerment. In addition, working with Eastern Cape Parks and Tourism Agency (ECPTA), the department increased hospitality revenue by R3.9 million against the annual target of R5.5 million through accommodation establishment in the reserves owned by the ECPTA.

In respect of the Integrated economic development services, the department provided 177 SMMEs and 49 co-operatives with non-financial support in the form of business management training, development of business plans, and marketing against the revised annual target of 150 SMME's and 98 co-operatives.

Furthermore, 136 SMME's and 17 co-operatives were provided with development finance against the annual target of 200 SMME's and 20 co-operatives. Three (3) incubation programmes were supported against the annual target of six (6).

In an effort to improve liquor regulation in the province, the department through the ECLB processed 69.3 per cent of liquor license applications within the legislated 60 working days against the annual target of 100 per cent. The ECLB has undertaken 10 social responsibility programmes on alcohol abuse against the annual target of five (5), whilst the ECGBB implemented 11 responsible gambling programmes against the annual target of 16.

In order to improve compliance to environmental legislation, the department processed 99.1 per cent of the Environmental Impact Assessments (EIA) within legislated timeframes against the annual target of 100 per cent. In support of conservation efforts and creating awareness 28 environmental awareness activities and 25 environmental capacity building were held throughout the province against the annual target of 25 and 27, respectively. Furthermore, 362 work opportunities have been created through environmental programmes against the annual target of 839.

2.2 Key challenges

- The quality of applications for Local and Regional Economic Development (LRED) project funding remains a challenge.
- The province did not have its own legislation governing the SEZs apart from the Special Economic Zones Act as a result of the co-funding model that is not yet finalised.
- The online application and management of biodiversity permits that was being developed and supported by SITA was not completed as planned. As a result, the department continues to make use of manual permitting system.

3. Outlook for the coming financial year (2019/20)

The department aims to attract 15 investors worth approximately R2.790 billion in 2019/20 and continue work on the realisation of the SEZ transitioning in 2019/20. The department intends to create 27 890 jobs while simultaneously contributing to skills and development by training approximately 5 373 people. Through the ECDC, the department intends to support four (4) socio-economic infrastructure projects to be implemented throughout the Province.

An amount of R339.402 million is being ring-fenced in 2019/20 to the department for the provincial economic stimulus to fund economic development projects that will contribute to the GDP of the province. Expenditure is contingent on the successful submission of credible business plans by Provincial Departments and Entities.

The department will support 150 SMMEs with non-financial support such as business training, development of plans and marketing. The ECDC will disburse approximately R95 million as SMME loans. In line with the Department of Small Business Development support programme for incubators, the department intends to support three (3) incubation programmes such as the Chemistry Incubation (CHEMIN), Cortex hub, as well as Eastern Cape Information Technology Initiative (ECITI), which are housed at the ELIDZ.

Local and Regional Economic Development (LRED) projects funded will be 10 at local and regional levels. Furthermore, 17 projects in the agro-processing, manufacturing and sustainable energy sectors will be supported in line with the Provincial Economic Development Strategy (PEDS) in order to improve skills development, infrastructure development and youth empowerment. Tourism development and transformation is prominent on the policy agenda and will receive focus through the implementation of the Provincial Tourism Master Plan, which is ending soon. In addition, working with the ECPTA, the Department aims to increase hospitality revenue but at least R7.3 million through accommodation establishments in the reserves owned by the ECPTA.

Through the ECLB the department will process all (100 per cent) fully compliant liquor license applications, as well as undertake eight (8) social responsibility programmes. Only one (1) gambling license is targeted for 2019/20, to be issued through the ECGBB. This will further enhance revenue collection going forward. A target of R200 million has been set for revenue collection through the ECGBB. The ECGBB will implement 14 responsible gambling programmes throughout the province. Through the Consumer awareness programme, the department plans to reach 9 050 participants through six (6) consumer education programmes and other consumer protection initiatives.

In support of sustainable environmental management and sustainable economic development the department will strive to process all environmental-related applications within legislated timeframes. The department under biodiversity programme intends to issue 1 700 Threatened or Protected Species (TOPS) permits in 2019/20.

Environmental awareness and capacity building activities will continue to play an important role in educating the public on environmental issues. As such, the department will conduct a total of 28 environmental awareness and 25 capacity building activities throughout the province. There are also plans to create approximately 600 work opportunities through environmental programmes.

4. Reprioritisation

Cost containment measures are currently in place and will continue over the MTEF. The drive to intensify cost containment measures has been monitored while introducing efforts that have reduced travelling costs for departmental meetings (regions and head office) through the introduction of video conferencing and catering is procured when necessary in line with the cost containment directives.

Non-core goods and services budget provisions were adjusted below the inflationary rate in the 2019 MTEF. The budget committee will continue to play an active role in ensuring that the programmes are spending as projected and the budget pressures are addressed through reprioritisation. The department's has made a concerted effort to be visible to communities within the regions. This has increased the budget allocation for travelling and subsistence baseline.

The departmental budget is more skewed towards the core business to meet the departmental objectives and mandate through core programmes and Public entities.

5. Procurement

The department has a plan to start the procurement process earlier in the financial year to accelerate service delivery. That is to submit the business cases and terms of reference for assessment, by the departmental committees. The department will procure a number of projects through the bidding and quotation procurements processes. The department will further ensure efficient and cost effective procurement through bulk purchasing agreements. The department will continue to outsource some functions due to the limited capacity within the department. However, there will be an effort to transfer skills to departmental staff taking into consideration the gap analysis. The procurement processes will be aligned according to the implementation date of the projects as listed in the departments' procurement plan.

6. Receipts and financing

Table 2 above reflects the summary of departmental receipts which consist of equitable share, conditional grants and own revenue from 2015/16 to 2021/22. The actual receipts decreased from R1.246 billion in 2015/16 to R1.161 billion in the 2018/19 revised estimate. This was due to the reduction of allocation to CDC and ECDC for the provincial social infrastructure programme. In 2019/20, the total receipts increases by 27.6 per cent to R1.481 billion, which is driven largely by the funds allocated for the provincial economic stimulus package for the province.

6.2 Departmental receipts collection

Departmental own receipts decreased from R230.282 million in the 2015/16 to a revised estimate of R219.070 million in 2018/19 due to surrender of unspent funds from Eastern Cape Development Corporation (ECDC). In 2019/20, the revenue increases to R230.560 million due to targeted revision of tariffs to be implemented from the operation of Zone 4 Casino in the Mthatha region. The revenue drivers are casino taxes, liquor licences, sale of permits for environmental affairs and the implementation of gambling activities (e.g. bingo).

6.3 Official development assistance (donor funding)

Total payments	-	-	8 915	17 806	17 806	17 806	13 679	-	-	(23.18)

Tables 4 and 5 above shows that the department estimates to receive and spend donor funding of R17.806 million in 2018/19. The donor allocations in 2019/20 of R13.679 million and R13.680 million in 2018/19 is mainly for managing school toilets waste in order to generate fertiliser and cooking gas for school garden and feeding schemes, which will be implemented by the ECDC. Included is the funding for the sustainable rural village project for the Chris Hani District Municipality expansion programme amounting to R4.126 million in 2018/19.

7. Payment summary

7.1 Key assumptions

The expectations for crafting this budget were to provide a framework to the departmental officials for setting priorities, determining service levels and allocating financial resources efficiently.

The following key assumptions were taken into consideration when this budget was formulated:

- Salary increases were taken into account as per the guidelines of CPI plus 1 per cent;
- Inflationary increases in other expenditure items are based on the following CPI rates: 5.4 per cent in 2019/20, 5.6. per cent in 2020/21 and 5.4 per cent in 2021/22; and
- Cost containment measures to be implemented as much as possible in order to ensure an efficient use of fiscal resources.

Tables 6 and 7 show the summary of payments and estimates per programme and economic classification. The actual expenditure decreased from R1.246 billion in 2015/16 to a revised estimate of R1.161 billion in 2018/19 due to reduction of allocation to CDC for the provincial social infrastructure programme. The budget further increases by 27.6 per cent to R1.481 billion in 2019/20 due to funds allocated and ring-fenced for provincial economic stimulus package.

Compensation of employees increased from R216.292 million in 2015/16 to a revised estimate of R258.058 million in 2018/19 and further increased to R269.962 million in 2019/20 due to the annual

improvement in conditions of services (ICS adjustment) throughout the years. The 2019/20 budget includes funds to create human resource capacity in critical areas in the core programmes.

Expenditure on Goods and services decreased from R177.563 million to a revised estimate of R146.953 million in 2018/19 as a result of reduction in the allocation to the CDC for social infrastructure projects. In 2019/20, the budget decreases by 1.6 per cent to R144.559 million due to the baseline reduction for the province.

Transfers to public entities are the main cost driver of expenditure. Transfers and subsidies decreased from R756.996 million in 2015/16 to a revised estimate of R736.671 million in 2018/19. This was due to the reduction of allocation to CDC and ECDC for the provincial social and economic infrastructure programme. In 2019/20, the budget increases by 39 per cent to R1.028 billion due to funds provided for economic stimulus package for the provincial growth and development.

Payments for capital assets decreased from R95.500 million in 2015/16 to a revised estimate of R16.739 million in 2018/19. Funds for CDC social infrastructure capital projects could not be spent in 2018/19 and were thus rescheduled to 2019/20 resulting in an increase of 134.7 per cent to R39.292 million.

Table 8 above show the departmental payments and estimates by benefiting municipal boundary. The budget decreases from R1.246 billion in 2014/15 to a revised estimate of R1.161 billion in 2018/19. In 2019/20, budget increases to R1.481 billion. The Buffalo City Metropolitan Municipality reflects the highest budget share as compared to other district and local municipalities due to funds allocated to public entities and head office.

1. Total provincial infrastructure is the sum of "Capital" plus "Recurrent maintenance". This includes non infrastructure items.

Table 9 above shows the summary of infrastructure payment per category from 2015/16 to 2021/22. The budget increases from R1.370 million in 2015/16 to a revised estimate of R59.261 million in 2018/19 due to planning of economic infrastructure projects. In 2019/20, the decrease to R31.624 million is mainly to complete the social infrastructure projects implemented by Coega.

7.5.2 Maintenance

None.

7.5.3 Non Infrastructure

In 2015/16 the non infrastructure increased from R1.370 million to a revised estimate of R3.196 million in 2018/19 and decreased to R2.670 million in 2019/20.

Table 12 show the summary of transfers to public entities. The relationship between the department and its entities is formalised through shareholder compacts and service level agreements (SLAs). The transfers to public entities comprise 66.1 per cent of the departmental budget for 2019/20.

Expenditure by public entities increased from R649.828 million in 2015/16 to a revised estimate of R703.267 million in 2018/19 due to funds provided for financial support for Local and Regional Economic Development projects (LRED) and Small, Medium and Micro Enterprises to stimulate economic growth in the province. In 2019/20, budget increases to R980.675 million or 39.4 per cent due to the ring-fenced funds for the provincial economic stimulus package.

7.7.2 Transfers to other entities

Table 13 above provides for all departmental transfers to other entities other than Public Corporations and Private Enterprises. Transfers to other entities decreased from R30.007 million in 2015/16 to a revised estimate of R24.595 million in 2018/19 and further decreases to R23.325 million in 2019/20 due to the baseline reductions.

The Local and Regional Economic Development (LRED) funds are transferred to businesses and industries from different sectors such as agriculture, manufacturing, tourism, agro-processing, aquaculture, renewable energy, services, mining and construction. The transfer to the Chemin Incubator is for training and support materials for the SMME training in the chemistry sector incubation programme.

The transfers to municipalities decreases from R76.132 million in 2015/16 to a revised estimate of R12.789 million in the 2018/19 revised estimate, due to the once off payment to the Nelson Mandela Metropolitan Municipality for storm water ponds as well as providing electricity to RDP houses. In 2019/20, an amount of R18.956 million has been allocated. The department, in partnership with local municipalities has been utilising these grants to create jobs on environmental sector projects and will continue to do so over the 2019 MTEF.

8. Programme description

8.1 Programme 1: Administration

Objectives: To provide leadership, strategic management, direction, financial and human capital management in accordance with legislation, regulations and policies of the department and its public entities. The Programme is divided into 4 sub-programmes:

- **Office of the MEC:** To effectively and efficiently manage and direct the activities of the MEC;
- **Office of the HOD:** To manage and direct the departmental transversal administrative programmes that give leadership to the department and effectively maintain an oversight function of the whole department's mandate and function;
- **Financial Management:** To provide an effective financial management function and ensure implementation of the PFMA and other related financial regulations and policies; and
- **Corporate Services:** To ensure adequate provision of institutional capacity through effective human capital management and organisational development interventions.

Tables 15 and 16 above, shows that actual expenditure increased from R196.745 million in 2015/16 to a revised estimate of R240.776 million in 2018/19 due to the centralisation of expenditure to this programme. In 2019/20, the budget increases by 0.4 per cent to R241.697 million.

Compensation of employees increased from R103.037 million in 2015/16 to a revised estimate of R117.922 million in 2018/19 due to annual ICS adjustments. In 2019/20, the budget increase to R124.254 million or 5.4 per cent due to ICS inflationary adjustments.

Goods and services increased from R76.262 million in 2015/16 to a revised estimate of R109.665 million in 2018/19 due to the re-alignment of the available funds towards the support of core services like legal cost, consultancy services as well as operating leases under this programme. In 2019/20, the budget decreased by 7.1 per cent to R101.915 million due to the baseline reductions.

Transfers and subsidies decreased from R2.829 million in 2015/16 to a revised estimate of R1.473 million in 2018/19 due to decline in the natural attrition rate and the payment of leave gratuities. In 2019/20, the budget increases by 252.3 per cent to R5.190 million due to provision for leave gratuities for departmental employees.

Payments for capital assets decreased from R14.617 million in 2015/16 to a revised estimate of R11.716 million in 2018/19 due to reduction of funds for finance leases and departmental fleet. In 2019/20, budget decreases to R10.338 million or 11.8 per cent due to internal reprioritisation.

8.2 Programme 2: Economic Development and Tourism

Objectives: Promoting and administering sustainable economic development and job creation. The programme is divided into 5 sub-programmes:

- **Integrated Economic Development Services:** Promotes and supports economic development through shared partnership;
- **Trade and Sector Development:** Stimulates economic growth through industry development, trade and investment promotion;

- **Business Regulation and Governance:** Ensures an enabling socially responsible business environment that allows for predictability;
- **Economic Planning:** Develops provincial economic policies and strategies to achieve and measure sustainable economic development; and
- **Tourism:** Creates an enabling tourism environment through legislation, policy and strategy development. Creates demand and supply for tourism.

Tables 17 and 18 above show expenditure and the budget allocation for Programme 2. The transfers to the entities include the ECDC, CDC, ELIDZ, ECLB and ECGBB and account for 66.1 per cent of the department's budget. The expenditure declines from R760.022 million in 2015/16 to a revised estimate of R608.613 million in 2018/19 due to the reduction in the social and economic infrastructure programme implemented by CDC and ECDC. In 2019/20, the budget increases to R904.203 million due to provision made for the implementation of economic stimulus package for the province.

Compensation of employees increased from R41.370 million in 2015/16 to a revised estimate of R60.689 million in 2018/19 due to the filling of vacant posts to strengthen the functional programme performance and ICS inflationary adjustments. The budget decreases by 0.5 per cent to R60.406 million in 2019/20.

Goods and services decreased from R88.493 million in 2015/16 to a revised estimate of R20.634 million in 2018/19 as result of the funds for social infrastructure projects being allocated under capital assets. In 2019/20, the budget increases by 1 per cent to R20.838 million.

Transfers and subsidies decreased from R549.276 million in 2015/16 to a revised estimate of R522.267 million in 2018/19 due to the once off payment to the Nelson Mandela Metropolitan Municipality for storm water ponds as well as providing electricity to RDP houses. In 2019/20, the budget increases by 52 per cent to R794.005 million due to allocation of funds for the implementation of provincial economic stimulus package.

Payment for capital assets expenditure decreased from R80.883 million in 2015/16 to a revised estimate of R5.023 million in 2018/19 due to completion of some CDC Social Infrastructure projects. In 2019/20, budget increases to R28.954 million or 476.4 per cent to finalise the completion of CDC Social infrastructure projects.

Service delivery measures

The department's plans to increase the number of cooperatives funded in 2019/20, and to maintain support to different sectors (sustainable energy, manufacturing, agro-processing) in the economy. The number of jobs created are expected to increase over the 2019 MTEF as a means to address unemployment. The department also focuses on consumer education programmes.

8.3 Programme 3: Environmental Affairs

Objectives: Administers environmental policies that are cascaded from national level in line with the mandate of the department. It regulates environmental management through instruments such as the environmental impact assessments, compliance and enforcement, air quality, waste and biodiversity management tools. The programme is divided into 5 sub-programmes:

- **Environmental Policy, Planning and Coordination:** Ensure the integration of environment objectives in national, provincial and local government planning, including provincial growth and development strategies, and local economic developments plans and integrated plans;
- **Compliance and Enforcement:** Ensure that environmental compliance monitoring systems are established and implemented and ensure the enforcement of legislation and environment authorisations;
- **Environmental Quality Management:** Establish legislation, policies, norms, standards and guidelines for environmental impact management, air quality management and management of waste and pollution at provincial and local sphere of government;
- **Biodiversity Management:** Promote equitable and sustainable use of ecosystem goods and services to contribute to economic development, by managing biodiversity, and its components, processes, habitats and functions. Effectively mitigate threats to biodiversity; and
- **Environmental Empowerment Services:** Empower and capacitate external stakeholders of the department to meaningfully participate in and contribute to effective environmental management.

Tables 20 and 21 above reflect a stable expenditure increased from R289.584 million in 2015/16 to a revised estimate of R312.032 million in 2018/19 due to internal reprioritisation for the payments of leave gratuities and the posts that was not filled in 2018/19. In 2019/20, the budget increased to R336.060 million or 7.7 per cent due to ICS adjustment.

Compensation of employees increased from R71.885 million in 2015/16 to a revised estimate of R79.447 million in 2018/19 due to the filling of posts for environmental and law enforcement officers. In 2019/20, the budget increases by 7.4 per cent to R85.302 million for the filling of posts of the environmental officers and provision for ICS adjustment.

Goods and services increased from R12.808 million in 2015/16 to a revised estimate of R16.654 million in 2018/19 due to the implementation of environmental management programmes such as Biodiversity day, Wetlands programmes and Environmental implementation of the Biodiversity Conservation Strategy Action Plan and ICS inflationary adjustment. In 2019/20, the budget further increases by 30.9 per cent to R21.806 million due to funding of Biodiversity day, Wetlands programmes and Environmental implementation of the Biodiversity Conservation Strategy Action Plan, the development of a Species Management Plan, implementation of the provincial Integrated Waste Management Programmes (IWMPs) research and provincial recycling strategy.

Transfers and subsidies increased from R204.891 million in 2015/16 to a revised estimate of R215.931 million in 2018/19 due to the implementation of environmental awareness sessions and EPWP job creation programmes for the province. The budget increases by 6 per cent to R228.952 million in 2019/20 due to inflationary adjustment.

Payment for capital assets expenditure decrease from R632 thousand in 2016/17 to zero in the 2018/19 revised estimates and in 2019/20 due to the centralisation of capex funds to the Administration.

Table 23 shows personnel numbers and cost by programme and component for 2019 MTEF period. Personnel numbers increase slightly from 555 in 2015/16 to a revised estimates of 566 in 2018/19. The department is focussing on increasing the numbers on core programmes to improve service delivery in 2019/20.

Payments on training are centralised in Programme 1. Table 24 above reflects a decreasing trend from R6.554 million in 2015/16 to a revised estimate of R2.708 million in 2018/19. There is a further decrease to R1.673 million in 2019/20. It is evident that the number of people trained decreases from 260 in 2015/16 to 200 in 2019/20. The department has taken a decision to be strategic in the implementation of training and therefore the budget reduces to reprioritise core training and bursaries to departmental employees.

1. Overview

1.1 Vision

An efficient, safe, sustainable, affordable and accessible transport system.

1.2 Mission

Provide, facilitate, develop, regulate, and enhance safe, affordable and reliable multi-modal transport system which is integrated with land uses to ensure improving levels of accessibility and optimal mobility of people and goods in support of socio-economic growth and development in the province of the Eastern Cape.

1.3 Core functions and responsibilities

- To plan, regulate and facilitate the provision of affordable public transport services in the province;
- To regulate the registration and licencing of all privately and government owned vehicles in the province;
- To regulate and enforce road traffic laws in the province;
- To provide fleet services to provincial departments; and
- To provide specialist services and internal construction capacity in terms of road infrastructure planning, design, construction, management and maintenance.

1.4 Main Services

- Promotion of good governance in transport and transportation excellence;
- Maximising mobility and accessibility through public transport;
- Leading in integrated traffic management;
- Creating economic empowerment opportunities in the transportation sector and alleviating poverty;
- Providing an efficient and effective fleet service to the provincial government;
- Reducing road accident fatalities in the province by 5 per cent per annum;

- Implementation of the approved Rural Transport Strategy for the province; and
- Provide, maintain and manage the provincial roads network.

1.5 Demands for and expected changes in the services

Due to the extensive apartheid homeland legacy, the Eastern Cape has the lowest per capita investment in infrastructure (fixed capital stock) in the country. This is particularly evident in the provincial road network where only 14 per cent of provincial roads (excluding minor roads) are surfaced compared to the average of 26 per cent for the entire country. This amounts to a backlog of over 3 000 kilometres of provincial surfaced roads in order to bring the Eastern Cape on par with the country's average. Similarly, the Eastern Cape has a backlog of several hundred major culverts and bridges to replace severely undersized and dangerous drifts, low-level causeways and undersized culverts and bridges.

The total current demand for scholar transport is 101 000 learners. In terms of the National scholar transport policy, scholars who travel a distance of more than 5 kilometres to the nearest public school qualify for scholar transport services. Currently 80 911 learners are benefitting from this service. The department prioritises scholars from deep rural areas where the public transport system is neither as reliable nor accessible as is in the urban areas. However, with the ongoing schools rationalisation and building of hostels, the total demand is expected to fall and therefore reduce the dependency on and demand for scholar transport.

1.6 The Acts, rules and regulations

The department derives its mandate from the following key legislation and policies: National Road Traffic Act, 1996; National Land Transport Transition Act, 2000; National Land Transport Act, 2009; Public Transport Strategy for South Africa; Urban Transport Act, 1977; White Paper on National Transport Policy; Eastern Cape White Paper on Transport for Sustainable Development; Passenger Transportation Act, 1999; Eastern Cape Rural Transport Plan Strategic Framework; Rural Transport Strategy for South Africa; Provincial Land Transport Framework; Moving South Africa Action Agenda; Civil Aviation Act, 2012; Expanded Public Works Programme Framework and Guidelines; Construction Industry Development Board Act 2000; Supply Chain Management Policy.

1.7 Budget decisions

Due to the tight fiscal environment, the department has adopted an approach to resource allocation, which takes into consideration the prescripts around austerity measures and allocative efficiency while ensuring that key strategic priorities are met. Therefore, the consideration of provincial priorities played a crucial role in the development of this budget.

The budget for the 2019 MTEF has been informed by the above principles coupled with major programmes of the department, namely to support the implementation of the Integrated Provincial Transport System (IPTS), the roll out of the Scholar Transport System and the maintenance of the Mthatha and Bhisho airports and rural roads infrastructure maintenance. Furthermore, the functionality of the Traffic Infringement Centre is being strengthened to increase its effectiveness in order to contribute to revenue generation.

The department will further enhance road safety awareness and contribute towards poverty alleviation through community based programmes. Increasing the number of traffic officers has been prioritised to promote traffic control and compliance on the roads to reduce road fatalities.

Due to the economic challenges that are facing government in general, focus has been directed towards infrastructure development and maintenance of the existing infrastructure utilising the limited equitable share and conditional grant allocations

The department will in 2019/20 initiate monitoring and evaluation strategies especially on the EPWP programme, Scholar Transport and other key programmes of the department in order to improve their effectiveness and impact.

1.8 Aligning departmental budgets to achieve government's prescribed outcomes

The delivery of public transport services in the department can be linked to National Outcome no. 6: "An efficient, competitive and responsive infrastructure network" and to National Outcome no. 3: "Ensure the maintenance and strategic expansion of our road and rail network and the operational efficiency, capacity and competitiveness of our sea ports." This relates to Priority no. 2 of the Provincial Strategic Framework: "Building social and economic infrastructure", which in turn translates into the provincial Programme of Action Goal: "Implementing the Integrated Public Transport Network (IPTN) Programme in the province." The department also provides scholar transport services in line with the Scholar Transport Policy.

2. Review of the current financial year (2018/19)

2.1 Key achievements

As envisaged in the White Paper on Sustainable Transport, the department continued to provide safe, affordable and accessible public transport services in the province. These subsidised bus passenger services continued to be implemented through the services of Africa's Best 350 Ltd (AB350), a public company with private ownership operating mostly in areas of the former Transkei; Algoa Bus Company, a private company contracted in terms of Division of Revenue Act (DORA) operating in the Nelson Mandela Bay Metropolitan area; and Mayibuye Transport Corporation (MTC), a parastatal bus passenger transport provider operating in the former Border/Ciskei area.

The designs for the Mt Frere multi-modal facility were compiled and are currently being reviewed with the municipality .The Ntabankulu Public Transport Facility designs were completed in 2018.

In terms of the strategy for Oceans Economy, three different sites have been identified as possibilities near Port St. Johns for the development of the Maritime Resource Centre. These sites now need to be properly evaluated for suitability which will inform the development of a business plan.

In respect of the Middelburg Traffic Control Centre (TCC), the department is in the process of developing the designs for the centre. This is a multipurpose centre that will be housed in Middleburg, and will incorporate磅ing, weighbridge and traffic station facilities.

Subsequent to the provincial Transport MEC Coordinating Structure (TRANSMEC) engagements that are in line with section 9(2)(b) and (c) of the National Land Transport Act No 5 of 2009 and with regards to Stray Animal pound at OR Tambo district, land has been confirmed with the traditional council. Furthermore, a Memorandum of Agreement (MoA) was drafted and sent to the King Sabata Dalindyebo (KSD) municipality for comments and for signing by the municipal manager. The department has made budget provision towards the establishment of the vehicle pound for 2019/20.

Concerning the Mthatha Airport, the department continues to maintain the airport through minor upgrades with additions to the fire station and the construction of a fire simulator to increase the category of the aerodrome from CAT3 to CAT6. Site inspections have been conducted and a process of construction has been initiated.

In respect to the Bhisho Airport, engagements with the South African Air Force are ongoing and a draft Memorandum of Understanding (MOU) has been prepared and sent to the South African National Defence Force (SANDF) for consideration. The utilisation of this facility by SANDF is expected to bring economic injection and youth development in the area.

The envisaged 24/7 shift system has not yet been implemented, however, 21 interns have been appointed at Aliwal North and Phakade traffic stations. In addition, the Phakade traffic station has been upgraded to prepare for implementation of the system. The implementation of the 24/7 shift system is still at consultation phase with the process headed by the Roads Traffic Management Corporation (RTMC) and the National Bargaining Council. The department is assisting with the facilitation of interaction with the Provincial Bargaining council to implement the 24/7 shift system. Law Enforcement continues with the going “back to basics” theme of law enforcement, which includes point-to-point patrol to increase visibility through sixteen hour per day operations, including weekends. Traffic officers are deployed in line with a determined shift system in the duty roaster (06h00-14h00; 14h00-22h00; 22h00 standby shift, which includes weekends), and the focus being more on critical routes. The department has procured 12 new vehicles to enhance visibility on identified critical routes.

Concerning the road network that falls under the jurisdiction of the department which consists of 41 249km; only nine percent (9.2% or 3 807km) of the road network is paved and these roads are predominantly asphalt roads. Most (90.8%, or 37 441km) of the roads in the Eastern Cape are unpaved roads that can be classified as either gravel roads (57.2% or 23 600km), earth roads (6.1% or 2 497km) or tracks (6.2% or 2 560km). As at the end of December 2018, 343 gravel roads were regravelled against the annual target of 405; 31 216 square metres of blacktop patching were done against the annual target of 44 000 and 36 927 kilometres of gravel roads were bladed against the annual target of 30 000 kilometres. The department invested in the recapitalisation of plant in order to further improve the state of gravel roads in the province.

In its effort to build capacity, the department’s partnership with SANRAL School of Excellence has resulted in the placement of 12 civil engineering graduates that were funded by the Department. All 12 candidates have completed an 18 months training programme and are currently placed within various units under the Transport Infrastructure programme. Eight (8) more graduates are expected to start their 18 months programme. This partnership is also aimed at assisting black engineers to register with the Engineering Council of South Africa as candidate technicians and later as technicians.

During the reporting period, the department exceeded the annual target of 48 675 by creating 50 333 work opportunities of which 10 340 are full time equivalents. Of these work opportunities, 46 000 are for the roads related projects, which focus on minor routine road maintenance

2.2 Key challenges

The department continues to face challenges of lack of skilled personnel (technical staff) in line with the Occupation Specific Dispensation (OSD) requirements to monitor transport infrastructure projects in all districts. This is being addressed through the partnership with SANRAL’s School of Excellence.

The process of conducting a feasibility study to assess the possibility of establishing a Provincial Transport Entity in an effort to integrate all public transport operations in the province has not yet started. This entity will focus on passenger services, rail, maritime and aviation.

The department continues to experience challenges with the rollout of the Provincial Public Transport Master Plan (PIPMTMP) caused by the public transport industry’s unpredictability. The review of the PIPTMP is still under consideration, as the department does not have the internal capacity to undertake a project of this magnitude. However, the empowerment of public transport operators will continue.

The dilapidating Information and Communication Technology (ICT) infrastructure in the department continues to delay the improvement of efficiencies especially in district offices. This challenge has worsened with the shifting of the roads function. In this regard, the department has installed Local Area Network (LAN) in all 8 traffic stations and data centre infrastructure inclusive of 5 new servers procured for the refurbishment of the server room. Implementation and configuration services will be procured in the next financial year followed by the migration of services from the old servers to the new.

3. Outlook for the coming financial year (2019/20)

The department is currently busy with a model of implementing some of the infrastructure projects in-house by strengthening stakeholder and community engagements. With the shrinking fiscus and exorbitant construction and maintenance costs, the model is aimed at maximising infrastructure delivery, whilst minimising costs. The department will embark on a process of ensuring that plant and machinery are available in-house and ensuring adequate capacitation of the in-house personnel with a special focus on acquiring the required skills. This will increase the construction and rollout of roads by 20 kilometres in 2019/20.

In addition, the existing partnership with the Council of Scientific and Industrial Research (CSIR) also aims at focusing on exploring alternative methods in the construction and maintenance of roads, which will assist in curbing infrastructure costs.

The department will focus on improving the conditions of both paved and unpaved roads through the upgrading and maintenance of a number of strategic roads leading to social amenities such as hospitals and tourist attractions. Through the in-house team, the department is targeting to upgrade 20 kilometres of gravel roads to paved roads.

The department will continue with the renovations of Traffic Stations with a view to ensure visibility. In 2019/20, 3 traffic stations will be refurbished, 2 road side checkpoints will be refurbished, and 2 vehicle pounds in the province.

The department will continue with the scholar transport services by transporting 81 000 learners in 2019/20 to 742 schools. This happens in the midst of a rationalisation and realignment of schools programme driven by the Department of Education.

The department will continue to provide subsidised bus passenger services through the services of Africa's Best 350 (AB50), Algoa Bus Company and Mayibuye Transport Corporation (MTC). A total number of 11 620 200 kilometres which translates to 601 173 trips are planned to be subsidised in 2019/20.

The Extended Public Works Programme (EPWP) continues to research and implement programmes that are youth orientated, labour intensive and beneficial to persons living with disabilities, which also aids in the implementation of the Provincial Transformation Agenda. A key focus area for the function is the monitoring and coordination of SMME development within the infrastructure projects through the Contractor Development Programmes. In 2019/20, the department will create 50 370 work opportunities, of these 21 351 will be full time equivalents, 26 900 will be youths, and 978 will be persons with disabilities. Included is the recruitment of 742 scholar transport monitors as a means to monitor each of the scholar transport routes benefiting from the Scholar Transport Programme. In addition, 500 National Youth Services (NYS) beneficiaries will be employed mainly as traffic officers and under artisan development.

The departmental revenue is mainly derived from tax revenue in the form of motor vehicle license fees. In an effort to maximise revenue collection, the department has entered into Service Level Agreements with some municipalities and the Post Office in order to assist with the registration of motor vehicle licenses.

Furthermore, the department will be embarking on a process of adequately capacitating the Traffic Infringement Management Centre with a view to improve efficiencies in the management of all traffic fines.

4. Reprioritisation

The department has taken a decision to reprioritise its budget to cater for the recapitalisation of the construction plant equipment/yellow fleet in 2018/19, which will be utilised for roads projects done in-house. Furthermore, funds have been reprioritised for the further maintenance of Mthatha Airport. Funds have been reprioritised to enhance the scholar transport programme.

5. Procurement

The department maintains standard annual contracts, such as; Telkom, MTC, Algoa Bus Company, AB350, scholar transport, Road Rangers, SITA data lines and the leasing of government vehicles through the Government Fleet Management Services trading entity. With regards to infrastructure, the procurement processes will be aligned to the implementation date of the project as listed on the department's procurement plan in line with the Standard for Infrastructure Procurement Delivery Model (SIPDM). Furthermore, contracts to be maintained during the MTEF are the following:

- Mthatha airport management with ACSA;
- Purchase of equipment and maintenance requirements of the airports;
- Cleaning, security contracts and property contracts;
- Upgrade of the existing Information Communication Technology (ICT) infrastructure;
- Training and development;
- Implement communication strategies through sourcing services from media companies;
- Appoint consultants to assist in projects related to design and plans for TCCs, including weighbridges and pounds;
- Construction, upgrades and maintenance of roads infrastructure; and
- EPWP projects initiatives to support the community based programmes and promotion of job opportunities.

Table 2 above shows a summary of receipts comprising of equitable share, conditional grants and own revenue from 2015/16 to 2021/22. The total departmental allocation increased from R4.231 billion in 2015/16 to R4.916 billion in the 2018/19 revised estimate due to additional allocations for the upgrading of the terminal building and the installation of runway lights for the Mthatha airport as well as additional allocations for roads. From the 2018/19 revised estimates the budget increases moderately by 1.2 per cent in 2019/20 mainly due to baseline reductions.

The department receives 3 conditional grant allocations: The Provincial Roads Maintenance Grant (PRMG), the Public Transport Operations Grant (PTOG) and the EPWP Incentive grant. The grant receipts increased from R1.505 billion in 2015/16 to R1.784 billion in the 2018/19 revised estimate. From the 2018/19 revised estimate the budget increase by 4.2 per cent to R1.817 billion due to national baseline reductions on both the Provincial Transport Operations Grant (PTOG) and the Provincial Roads Maintenance Grant (PRMG).

Table 3 above shows the summary of departmental receipts and collections from 2015/16 to 2021/22. Over the medium term, R2.272 billion is projected to be collected due to the tariff review for certain categories of vehicles that have scope for an increase (i.e. trailers, breakdowns and miscellaneous fees in respect of issue of the motor trade number and application of motor vehicle testing) Revenue collection is done on an agency basis by the municipalities and the South African Post Office (SAPO).

The revenue increases by 10.4 per cent from the 2018/19 revised estimates of R667.873 million to R737.048 million in 2019/20 due to consistent motor vehicle licence tariff increase over the past financial years.

The bulk of the department's own revenue is generated from tax receipts. This item is mainly made up of the collection of motor vehicle registration and license fees as per the requirements of the National Road Traffic Act, 1996. The department also generates revenue from the sale of goods other than capital assets which is mainly from abnormal loads, landing fees, personalised and specific number plates as well as traffic fines.

Table 4 above gives a summary of agency funding from various institutions. Funding is received from the Transport Education and Training Authority (TETA), Public Service Sector Education and Training Authority (PSETA) and Road Traffic Management Corporation (RTMC). TETA funds were used for the Mathematics and Science project to assist pupils who want to pursue careers in the transportation sector. The TETA Flagship project funds were for apprenticeship for diesel mechanics training and RTMC funds were used for purchase of patrol vehicles, cattle trucks, speed equipment and road safety education. In 2015/16, R1.917 million and R881 thousand were received from TETA and PSETA, respectively. In 2016/17, R1.184 million, R28 thousand, R560 thousand and R6.462 million were received from TETA, TETA Flagship, PSETA and RTMC, respectively. In 2017/18, R1.278 million was received from TETA and R559 thousand in the 2018/19 revised estimate, while RTMC received R405 thousand in the 2018/19 revised estimate.

TETA funds of R1.001 million in 2015/16, R142 thousand in 2016/17, R332 thousand in 2017/18 million were spent and R399 thousand in the 2018/19 revised estimate. In terms of TETA Flagship R342 thousand in 2015/16 and R27 thousand in 2016/17 were spent. In terms of PSETA, R677 thousand in 2015/16 and R482 thousand in 2016/17 were spent.

In terms of RTMC R10.296 million in 2015/16, R385 thousand in 2016/17, R4.620 million in 2017/18 were spent and R405 thousand in the 2018/19 revised estimate for the establishment of the back office and the purchasing of speed cameras. TETA and RTMC funds were used for learnerships, bursaries and the launch of the learner driver project.

7. Payment summary

7.1 Key assumptions

Assumptions have been determined which establish the basic foundation for crafting this budget. These assumptions provided a framework to the departmental officials for setting priorities, determining service levels and allocating limited financial resources.

The following assumptions were taken into consideration when this budget was formulated:

- Inflation will average 5.5 per cent over the 2019 MTEF (5.4 per cent in 2019/20, 5.6 per cent in 2020/21 and 5.4 per cent in 2021/22)
- Reprioritisation of funds was done to ensure that core service delivery areas are adequately provided for;
- Provincial austerity measures were taken into account; and
- Own revenue budget has taken into account the growth in the Eastern Cape's motor vehicle population and tariffs.

Tables 6 and 7 above show a summary of actual and projected estimates from 2015/16 to 2021/22 by programme and per economic classification. Expenditure increases from R4.231 billion in 2015/16 to R4.916 billion in the 2018/19 revised estimate due to additional allocations for the upgrading of the terminal

building and the installation of runway lights to make the Mthatha airport operational and for the recapitalisation of MTC's ageing fleet as well as for roads projects. From the 2018/19 revised estimate the budget increases by 1.2 per cent to R4.974 billion in 2019/20.

Compensation of employees (CoE) increased from R872.639 million in 2015/16 to a revised estimate of R970.830 million in 2018/19. This is due to provisions made for Improvements of Conditions of Service (ICS) and the filling of vacant posts. The 13.1 per cent increase in 2019/20 to R1.098 billion is mainly due to the slow filling of planned vacant funded posts in 2018/19, which will be filled in 2019/20.

Goods and services budget is driven by the contractors, scholar transport, community development project beneficiaries and fuel for government fleet services mainly in respect patrol vehicles for traffic officers. The budget increased from R2.063 billion in 2015/16 to a revised estimate of R2.418 billion in 2018/19. This is followed by a 0.1 per cent decrease in 2019/20 to R2.415 billion, which is mainly caused by baseline reductions.

Transfers and subsidies budget is driven by the payment of subsidised bus passenger services and the budget increased from R450.146 million in 2015/16 to a revised estimate of R581.668 million in 2018/19. This is followed by a 0.4 per cent budget decrease in 2019/20 to R579.242 million.

Payments for capital assets increases from R844.387 million in 2015/16 to a revised estimate of R944.768 million in 2018/19 followed by a decrease of 6.7 per cent to R881.464 million in 2019/20 due to the purchasing of construction plant in 2018/19. This construction plant will be utilise to undertake roads projects that will be done in-house.

Expenditure in the municipalities accommodates priority roads construction and maintenance projects as well as subsidies to Algoa Bus Company, AB350, MTC and Scholar Transport. Over the 2019 MTEF, the bulk of the department's service delivery spending is concentrated in district municipalities with Cacadu receiving the most, followed by OR Tambo, Alfred Nzo, Amatole, and Chris Hani while Joe Gqabi receives the least.

7.5 Infrastructure payments

1. Total provincial infrastructure is the sum of "Capital" plus "Recurrent maintenance". This includes non infrastructure items.

The department has from 2015/16 to 2018/19 focused on the maintenance and construction of roads as well as upgrades of the Mthatha airport terminal building including the installation of runway lights. From 2015/16, the expenditure decreased from R2.007 billion to a revised estimate of R1.992 billion in the 2018/19 revised estimate. The 11.4 per cent increase to R2.220 billion in 2019/20 is due to the additional funding allocated for the development of rural roads, as well as flood damages.

7.5.2 Maintenance

An amount of R1.409 billion in 2019/20 is allocated for the maintenance of roads infrastructure asset that is funded through the PRMG. Included in the maintenance budget is an amount of R2 million from 2017/18 to 2019/20, for the maintenance of the Mthatha and Bhisho airports.

7.5.3 Non Infrastructure

None.

Tables 10 and 11 above show conditional grants received by the department from 2015/16 to 2021/22. The PTOG funds are used for subsidised bus services provided through Algoa Bus Company. The PTOG under Transfers and subsidies increases from R199.595 million in 2015/16 to the revised estimate of R238.745 million in 2018/19. In 2019/20, it increases by 5.6 per cent to R252.115 million.

The PRMG funds are used for maintenance, upgrade and additions of the provincial roads network and increases from R1.366 billion in 2015/16 to the revised estimate of R1.482 billion in 2018/19. In 2019/20, it increases by 0.1 per cent to R1.483 billion due to additional funding allocated for flood damages.

The EPWP incentive grant shows a steady increase from R57.689 million in 2015/16 to a revised estimate of R62.941 million in 2018/19. In 2019/20 it increases by 30 per cent to R81.821 million. This grant is used for the payment of job creation projects which include Scholar transport monitors, Road Rangers, Car wash, the maintenance of both airports, grid gates and household contractors.

7.8 Transfers

7.8.1 Transfers to public entities

MTC exists as a parastatal bus operator whose main purpose is to provide affordable bus services to the predominantly rural communities of the former Ciskei and border areas of the province.

Expenditure increases from R108.990 million in 2015/16 to a revised estimate of R129.581 million in 2018/19. This is followed by a 6.6 per cent decrease to R120.997 million in 2019/20 as the department reprioritised R15 million during the 2018/19 adjustment estimates for MTC operations.

7.8.2 Transfers to other entities

Table 13 above shows transfers to the South African National Taxi Council (SANTACO) for assisting in the running of a professional taxi transport services. Furthermore, transfers to the Eastern Cape Small Bus Council (ECSBC) for assisting in the smooth operation of small buses will be made from 2019/20 onwards. This results in the allocations increasing from the revised estimate of R1.992 million in 2018/19 to R4.752 million in 2019/20.

7.9 Transfers to local government

Table 14 above shows that funds are transferred to Nelson Mandela Bay Municipality which is category A. The allocations increased from R4.410 million in 2015/16 to R4.557 million in 2017/18 as these were funds were transferred by Public Works to municipalities for the licencing of fleet. Since the function shift in 2018/19, these funds have been reclassified to Transfers to Provinces for the payment of these licences to the department.

8. Programme description

8.1 Programme 1: Administration

Objectives: The Administration programme provides the department with the overall management, administrative, strategic, financial and corporate support services in order to ensure that it delivers on its mandate in an integrated, efficient, effective and sustainable manner. The programme is divided into 4 sub-programmes:

- **Office of the MEC** renders advisory, parliamentary, secretarial, administrative and office support services;
- **Management** implements overall management and support of the department;
- **Corporate Support** manages personnel, procurement, finance, administration and related support services; and
- **Departmental Strategy** provides operational support in terms of strategic management, strategic planning, monitoring and evaluation, integrated planning and coordination across spheres of government including policy development and coordination.

Tables 15 and 16 above show the summary of payments and estimates per sub-programme and per economic classification from 2015/16 to 2021/22. Expenditure for the programme steadily increased from R308.806 million in 2015/16 to a revised estimate of R348.695 million in 2018/19 due to the filling of critical posts. Due to the planned filling of posts in Finance, Human Resources and Procurement Planning in 2019/20, the budget increases by 11.3 per cent to R387.940 million.

Compensation of employees increased from R226.399 million in 2015/16 to a revised estimate of R239.219 million in 2018/19 due to filling of vacant funded posts. However, some of the planned posts for 2018/19 will only be filled in 2019/20 hence the 17.6 per cent increase to R281.207 million in 2019/20.

Goods and services increased from R69.676 million in 2015/16 to a revised estimate of R91.690 million in 2018/19 due to the once off allocation for the upgrading of information technology. The decrease of 1.7 per cent to R90.111 million in 2019/20 is due to baseline reduction.

Transfers and subsidies relates to households mainly for the payment of leave gratuities. The budget increased from R4.173 million in 2015/16 to a revised estimate of R4.951 million in 2018/19 followed by a 76.4 per cent increase to R8.735 million in 2019/20, which is due to higher provision for leave gratuities.

Payment for capital assets increased from R8.047 million in 2015/16 to a revised estimate of R12.835 million in 2018/19 due to the reprioritisation of funds for the Mthatha airport terminal building and IT infrastructure. This is followed by a decrease of 38.6 per cent to R7.887 million in 2019/20 due to a once off reprioritisation of funds to procure internal audit software in 2018/19.

8.2 Programme 2: Transport Infrastructure

Objectives: The objective of the programme is to plan for the provision of transport services, facilities and infrastructure including provision of support and co-ordination of the Integrated Transport Planning at the local sphere. The programme is divided into 6 sub-programmes:

- **Programme Support** facilitates the governance of the programme and the attainment of the programme objectives;
- **Infrastructure Planning** provides management of integrated land transport to provide mobility to the commuters;
- **Infrastructure Design** manages/co-ordinates and facilitates transport safety and compliance in all related legislation and policies through pro-active and reactive tactics and strategies;
- **Construction** develops new, re-construct, upgrade and rehabilitate road and transport infrastructure;
- **Maintenance** effectively maintains road and transport infrastructure; and
- **Mechanical** provides an efficient plant fleet in support of in-house construction and maintenance unit.

Tables 17 and 18 above show the summary of payments and estimates per sub-programme and per economic classification from 2015/16 to 2021/22. The expenditure for the programme increases from R2.020 billion in 2015/16 to the revised estimate of R2.294 billion in the 2018/19 revised estimate due to provision made for the designs of the start-up routes for the implementation of the PIPTMP as well as additional allocation for specific roads. This is followed by a 1.3 per cent decrease to R2.265 billion in 2019/20 due to the baseline reduction.

Compensation of employees increased from R305.823 million in 2015/16 to a revised estimate of R325.093 million in 2018/19, due to the implementation of OSD for engineering professionals and the filling of critical vacant funded posts. However, some of the planned posts for 2018/19 will only be filled in 2019/20 hence the 11.5 per cent increase in 2019/20 to R362.492 million.

Goods and services budget increased from R982.322 million in 2015/16 to a revised estimate of R1.080 billion in the 2018/19 revised estimate due to provision made for the implementation of the PIPTMP and the Civil Aviation strategy as well as additional funds allocated during the 2018/19 adjustments estimates for the development of rural roads. In 2019/20, the 0.3 per cent budget decrease to R1.077 billion is due to the baseline reduction.

Transfers and subsidies relates to the payment of gratuities to employees due to attrition as well as the payment for post-retirement benefits for road workers who were transferred to Amathole and Cacadu district municipalities. This budget increased from R10.115 million in 2015/16 to R27.578 million in the 2018/19 revised estimate before decreasing by 42.1 per cent to R15.961 million in 2019/20 as provision is made for fewer people leaving.

The Payment for capital assets increased from R722.323 million in 2015/16 to R861.041 million in the 2018/19 revised estimate and decreases by 60.3 per cent to R809.313 million in 2019/20 due to the purchasing of construction plant in 2018/19.

The programme performance is measured by the number of kilometres of roads, transport facilities, taxi ranks and bus termini maintained and constructed as envisaged in the Provincial Integrated PIPTMP and empowerment of the transport industry. From 2018/19 and over the 2019 MTEF, more focus will be given to the maintenance and construction of roads.

8.3 Programme 3: Transport Operations

Objectives: main objective of this programme is to plan, regulate and facilitate the provision of public transport services and infrastructure through own provincial resources and through cooperation with local authorities, as well as the private sector in order to enhance the mobility of all communities. The programme has 5 sub-programmes:

Programme Support facilitates the governance of the programme and the attainment of the programme objectives;

Public Transport Services provides management of integrated land transport in order to provide mobility to the commuters;

Transport Safety and Compliance manages/co-ordinates and facilitates transport safety and compliance for all modes of transport through pro-active and re-active tactics and strategies;

Infrastructure Operations improves the management of provincial airports and provides the management of freight and rail transport and provides infrastructure other than roads in collaboration with the municipalities and relevant stakeholders; and

Scholar Transport to transport learners who travel a distance of more than 5 kilometres to the nearest public school.

Tables 20 and 21 above show the summary of payments and estimates per sub-programme and per economic classification from 2015/16 to 2021/22. The increase from R1.062 billion in 2015/16 to R1.246 billion in the 2018/19 revised estimate is attributed to additional allocation for the recapitalisation

of MTC, scholar transport increase in numbers and the Mthatha airport upgrade. This is followed by an increase of 3.1 per cent to R1.284 billion in 2019/20.

Compensation of employees increased from R95.175 million in 2015/16 to R96.052 million in the 2018/19 revised estimate due to filling of some critical posts. However, some of the planned posts for 2018/19 will only be filled in 2019/20 hence the 19.7 per cent increase to R114.972 million in 2019/20 is due to delayed filling of posts in 2018/19, which are planned to be filled in 2019/20.

Goods and services increased from R471.240 million in 2015/16 to R597.863 million in the 2018/19 revised estimate due to additional allocation for scholar transport for the increased number of learners, provision made for the management and maintenance of airports, increased number of beneficiaries for job creation projects. This is followed by a 3.7 per cent increase to R619.818 million in 2019/20 is mainly due to reprioritisation of funds to critical areas. Provided for in the funding for 2019/20 are increases in costs relating to the transportation of learners through scholar transport.

Transfers and subsidies increased from R430.706 million in 2015/16 and to R535.033 million in the 2018/19 revised estimate due to additional allocations for the recapitalisation of MTC ageing fleet. This is followed by a 0.7 per cent increase to R538.546 million in 2019/20 due to additional allocation through reprioritisation of funds to MTC and AB350 during the 2018/19 adjustments estimates.

The Payment for capital assets decreased from R64.943 million in 2015/16 to R17.109 million in the 2018/19 revised estimate due to completion of the Mthatha airport terminal building and the procurement of a fire engine for the airport. This is followed by a decrease of 33.2 per cent to R11.436 million in 2019/20.

The programme performance is measured by the provision of public transport services to the public of the Eastern Cape through subsidised buses, qualifying learners transported to school as well as road safety awareness programmes conducted.

8.4 Programme 4: Transport Regulation

Objectives: The objective of the programme is to ensure adequate road safety engineering on provincial roads and ensure that all vehicles registered in the province are licensed each year and that all drivers are appropriately authorised to drive their vehicles while also promoting road safety awareness. The programme has 4 sub-programmes:

Programme Support facilitates the governance of the programme and the attainment of the programme objectives. The project management office provides support to the entire programme in terms of project governance and the operational reporting of all functionalities regarding the strategic objectives of the department;

Transport Administration and Licensing monitors and controls all aspects related to the collection of motor vehicle licence and registration fees and renders services regarding the administration of applications in terms of the National Road Traffic Act, 1996;

Operator Permits and Licensing manages the approval and control of registering of transport operations and issuing of all licenses and permits required in terms of legislation; and

Law Enforcement maintains law and order on the roads and provides quality traffic policing (law enforcement) services and maximises the traffic control and law enforcement.

Tables 23 and 24 above show the summary of payments and estimates per sub-programme and economic classification from 2015/16 to 2021/22. Expenditure increased from R297.094 million in 2015/16 to R384.341 million in the 2018/19 revised estimate. In 2019/20, the budget increases by 1.0 per cent to R388.099 million due to once of procurement of protective clothing for traffic officers in 2018/19.

Compensation of employees increases from R207.752 million in 2015/16 to R274.049 million in the 2018/19 revised estimate as a result of an additional allocation for the carry through costs of salaries for traffic law enforcement officers, the filling of station commander's posts and the absorption of traffic officer trainees. In 2019/20, it increases by 4.5 per cent to R286.328 million.

Goods and services increases from R47.457 million in 2015/16 to R63.414 million in the 2018/119 revised estimate due to the allocations for weighbridges, extensive maintenance of traffic stations and for traffic

officer uniforms and protective clothing. In 2019/20, the estimated decrease by 9.2 per cent to R57.608 million is due to the once of procurement of protective clothing for traffic officers in 2018/19.

Transfers and subsidies decreases from R5.152 million in 2015/16 to a revised estimate of R3.379 million in 2018/19 followed by 48.0 per cent increase to R5.000 million in 2019/20. The increase is due to the leave gratuity payments that are informed by fluctuations in the attrition rate.

Payment for capital assets increases from R36.733 million in 2015/16 to R43.499 million in the 2018/19 revised estimates due to a once-off allocation for push-to-talk phones for traffic officers for permanent traffic check points. The estimated 10 per cent decrease to R39.163 million in 2019/20 is due to the reprioritisation of funding for the refurbishment and rehabilitation of traffic station and traffic check points from the Transport Regulation programme to the Transport Infrastructure programme.

The programme performance is measured by the number of law enforcement operations conducted to maintain law and order on provincial roads. The programme also ensures compliance with the National Road Traffic Act through compliance inspections conducted. The programme also controls the registration of transport operators and the issuing of operating licenses in terms of the National Land Transport Act.

8.5 Programme 5: Community Based Programme

Objectives: The objective of the programme is to ensure delivery of accessible services through integrated, socially just, developmental and empowering processes in order to improve the quality of life of communities within the province by way of community development programmes. The programme has 4 sub-programmes:

Programme Support facilitates the governance of the programme and the attainment of the programme objectives;

Community Development provides training to EPWP job creation beneficiaries, road rangers and emerging contractors for rail management;

Innovation and Empowerment provides opportunities to tertiary students to undertake their compulsory in-service training of their career programme, as well as unemployed persons of underdeveloped communities to undergo education and training programmes within the infrastructure of the province. It provides for sustainable contractor development and opportunities for access to construction related procurement contracts; and

EPWP Coordination and Monitoring provides a quantitative and qualitative tool to evaluate the empowerment impact of specific projects, to inform the design and construction process, as well as to record the actual impact with respect to historically disadvantaged individual economic empowerment.

Tables 26 and 27 above shows a summary of payments and estimates per sub-programme and economic classification from 2015/16 to 2021/22. Expenditure increases from R542.488 million in 2015/16 to R642.219 million in the 2018/19 revised estimate due to additional appointments for job creation projects and the allocation of the EPWP incentive grant. The projects included the 10 SMME's that were supported and the extension of the Walking Bus project to other regions. The project was piloted in the Mbizana area in 2014/15 and was extended to Chris Hani, Amathole, Joe Gqabi and OR Tambo in 2016/17. There is a 0.9 per cent increase in 2019/20 to R648.081 million due to the marginal increase of the Provincial Road Maintenance Grant (PRMG).

Compensation of employees decreased from R37.490 million in 2015/16 to R36.416 million in the 2018/19 revised estimates. Some of the planned posts for 2018/19 will only be filled in 2019/20 hence the increase of 45.6 per cent to R53.024 million in 2019/20.

Goods and services increased from R492.657 million in 2015/16 to R584.793 million in the 2018/19 revised estimate due to an increase in the number of job creation beneficiaries and the extension of the Walking Bus project. In 2019/20, there is a decrease of 2.5 per cent to R570.392 million as the increase of the PRMG allocation is minimal.

Transfers and subsidies increased from R2.294 million in 2016/17 to a revised estimate of R10.726 million in 2018/19 while in 2019/20 there is an increase of 2.6 per cent to R11 million. The reason for the increases is the provision made for the payment of UIF for EPWP beneficiaries.

Payment for capital assets decreases from R12.341 million in 2015/16 to R10.284 million in the 2018/19 revised estimate due to reprioritisation of budget for the greening/beautification of small town projects, which is followed by a 32.9 per cent increase to R13.665 million in 2019/20 for the same project.

1. Personnel numbers includes all filled posts together with those posts additional to the approved establishment

As illustrated by table 29 above, in 2015/16, the personnel numbers decreased from 3 155 to 3 131 in 2018/19 due to attrition. There is a 377 increase in 2019/20 to 3 508 and this is due to the proposed filling

of critical posts. Overall, personnel is expected to grow by 3.9 per cent over the 2019 MTEF with the implementation of the approved organogram.

The number of Occupational Specific Dispensation posts (OSD) increased from 150 in 2015/16 to 387 in 2018/19 due to appointment of roads personnel. These numbers are constant from 2018/19 to 2021/22 at 387.

As required by the Skills Development Act, 2009; the department budgets at least 1 per cent of its salary expense for staff training, the expenditure illustrated in Table 30 above relates to the payments on training of emerging contractors (community-based projects), law enforcement officers and all other departmental officials.

In the 2018/19 revised estimate, 650 people were trained through 40 training opportunities that increases in 2019/20 to 1 211 and 55, respectively. The training is targeting employees in the core function of the department such as tertiary training, traffic officers for mandatory refresher trainings and Roads personnel especially artisans. The ongoing capacity building programmes for Districts are strengthened by formal structured programmes such as bursaries and professional development.

For each year, the number of bursaries awarded is informed by the number of students existing in the bursary programme and the affordability. This has led to an increase from 165 in 2018/19 to 185 in 2019/20 due to the extended scope of fields of study, which encompasses all transport related fields especially the scarce and critical skills to support the socio economic growth of the Province. The targeted skills for the bursary are studies towards maritime, aviation, transportation studies and transport economics.

To be appropriated by Vote in 2019/20	R 2 443 382
Responsible MEC	MEC of Human Settlements
Administrating Department	Department of Human Settlements
Accounting Officer	Head of Department

1. Overview

1.1 Vision

A department at the centre of creating integrated sustainable human settlements in the Eastern Cape.

1.2 Mission

Facilitate and co-ordinate provision of quality, integrated and sustainable human settlement that offer our communities a better living environment.

1.3 Core functions and responsibilities

- Rural settlement development;
- Informal settlement development and upgrading;
- Provision of rental and social housing;
- Provision of title deeds to beneficiaries; and
- Installation of services that include other amenities.

1.4 Main Services

- Housing facilitation and emerging contractors' empowerment;
- Housing project management and quality assurance services;
- Housing policy, planning and research services;
- Consumer education, capacitation and accreditation of municipalities services; and
- Housing subsidy administration services.

1.5 Demands for and expected changes in the services

The influx of people in the urban areas leaving rural areas is a major problem that is facing the department. This problem has a negative impact in the demands for social housing units in the urban areas. This relocation increases the number of backlogs and informal settlements.

1.6 The Acts, rules and regulations

Section 26 of the Constitution form the primary basis of the mandate of the department and the following Acts: 1994 White Paper on Housing; Housing Act 107 of 1997 and the 2004 Comprehensive Plan for the Development of Sustainable Human Settlements. There are a number of Acts that have been promulgated to further support the department's constitutional mandate and these include, among others, the Prevention of Illegal Eviction from Unlawful Occupation of Land Act 19 of 1998; the Housing Consumer Protection Measures Act 95 of 1998; the Rental Housing Act 50 of 1999, (as amended); Home Loans and Mortgage Disclosure Act 63 of 2000 and Social Housing Act 16 of 2008. Other legislative issues affecting the creation of integrated human settlement include the allocation of powers and responsibilities to national departments, provincial and local governments to promote an environment conducive for sustainable and quality human settlements.

The revisions to legislative and other mandates have been due to the following relevant court rulings:

- Government of the Republic of South Africa v Irene Grootboom & Others: CCT 11/00 (right of access to adequate housing);
- Thubelitsha Homes, Minister of Housing and Minister of Local Government & Housing, Western Cape Various Occupants, the City of Cape Town and FirstRand Bank Limited: CCT 22/08 (eviction of 20 000 residents of Joe Slovo informal settlement); and
- Bio-watch Trust Registrar Genetic Resources & others: CCT 80/08 Dingaan Hendrik Nyathi v MEC for the Department of Health, Gauteng, and Minister of Justice & Constitutional Development: CCT 19/07.

1.7 Budget decisions

The department continues to implement cost containment measures especially in non-core items taking into cognisance the decline in the Equitable Share allocations as a result of the revised formula. Decisions taken on allocations are based on the on the departmental Annual Performance Plan and Operational Plan. The allocations are aimed at ensuring that the department continues to deliver good quality houses.

Budget decisions in the department are largely influenced by the increasing demand of houses and migration patterns to the urban areas. In addition, the department is expected to adapt to these changes and demands, whilst the conditional grant allocation continues to shrink.

1.8 Aligning departmental budgets to achieve government's prescribed outcomes

The department's budget is aligned to the national priority number 8, whose objective is "Sustainable Human Settlements and Improved Quality of Household Life", with the aim to develop quality human settlements for dignified social and economic livelihoods and human development by focussing on the following:

- Develop human settlements within the identified regions in a sustainable manner and support urban spatial restructuring through well located human settlements;
- Develop and strengthen mechanisms and instruments for integrated physical planning through a long-term credible human settlement project pipeline;
- Improve access to social rental housing in cities and towns;
- Explore innovative applications of existing funding instruments and subsidy schemes;
- Ensuring tenure security and promoting ownership through speedy issuing of title deeds;
- Explore alternatives to contractor driven RDP housing development such as Housing Cooperatives Method, expanding the People's Housing Process and voucher schemes; and
- Rural housing.

2. Review of the current financial year (2018/19)

2.1 Key achievements

As at end December 2018, the department completed 8 476 units of the planned 8 567 housing units for the year. The department had an annual plan of 828 defective houses to be rectified and 979 defective units were rectified; sites serviced had an annual target of 6 786 and 5 608 sites were serviced. The department approved 96 of the planned 200 units for Finance Linked Individual Subsidy Programme (FLISP) and approved 46 of the planned 179 housing units for Military Veterans.

In the Social Rental programme, 235 units against a target of 200 units were completed. The intervention of Rental Housing Tribunal between the tenants and the landlords resulted into 104 disputes being resolved.

The departments Job Creation Strategy is pursued through implementation of the Expanded Public Works Programme (EPWP) with a particular focus on job creation through housing construction. A total of 11 815 jobs were created against a target of 10 783 in the various categories of Women; Youth; Male and people with disabilities. The Job Strategy further expanded the Emerging Contractor Support Programme whereby SMMEs are supported through formal training programmes and the provision of sub-contracting opportunities.

The construction process has translated in the creation of 11 815 jobs. The department has an active Youth Brigade established in line with the National Youth Development Strategy. 100 youth were empowered against a target of 200, and have been working on projects within Alfred Nzo region. The department will continue to roll out youth building programs in Sarah Baartman and Amathole region during the remaining months of the financial year in an effort to skill young people.

The department is in partnership with National Home Builders Registration Council (NHBRC), National Youth Development Agency (NYDA), National Rural Youth Service Corps (NRYSC), Eastern Cape Training Centre (ECTC) and Border Training Centre (BTC) to facilitate the Artisan development program that will benefit youth.

The department constructed 437 new housing units for the destitute, military veterans and beneficiaries affected by disasters as per the departmental policy speech of 2018/19 financial year.

2.2 Key challenges

The human and financial resource constraints are continuing to be hindrance in the service delivery within the core programmes of the department. However, the department has adopted a principle of optimally utilising available resources. The continuous decline on goods and services over the 2019 MTEF will have a negative effect on service delivery. However, the department continues to reprioritise funds to cater for service delivery related activities.

The baseline reduction for both Equitable Share and Human Settlements Development Grant has negatively affected the departmental plans due increased demand for houses. The shrinking fiscus will result to inadequate monitoring of constructed houses in the regions. The department has been underspending on Title Deeds Restoration Grant due to delays in the procurement of relevant professional teams to deliver Township Establishment, General Plans, Opening of Township Register and Beneficiary Verifications. However, service providers have been contracted to render the services.

The departmental ICT infrastructure is not compatible with current technology and the declining baseline allocation is negatively affecting departmental plans of upgrading the infrastructure. However, the department continues to reprioritise the limited resources to cater for service delivery related activities.

3. Outlook for the coming financial year (2019/20)

In pursuit of the National Development Plan's vision of sustainable decent living in human settlements and better-quality of household life the service delivery strategy of the department remains focused on delivering outputs that are aligned to Outcome 8.

With the HSDG the department will build 9 395 new housing units across the province and 4 699 sites will be serviced. The target for the new housing units have increased from 8 567 in 2018/19 to 9 395 in 2019/20 financial year.

The department plans to deliver 120 units for Finance Linked Individual Subsidy Programme (FLISP) and 55 housing units for Military Veterans. The department will rectify 747 defective houses for both Pre and Post 1994. A total of 708 new sites will be connected with basic water and sanitation whereas 487 households will be connected with basic services. The department aims at continuing supporting 103 for Small Micro and Medium Enterprises towards sustainable businesses. In the 2019/20 financial year, the department plans to transfer 3 255 new title deeds; and transfer 32 336 title deeds post 1994 in 2019/20 through Title Deeds Restoration grant.

Number of Job Opportunities targeted through EPWP compliant projects is 10 783. Number of empowerment opportunities created for youth through youth brigade programme will be 200. The department is committed in cleaning all the old commitments on the Housing Subsidy System (HSS). Youth and Women initiatives are paramount and 50 projects are targeted to be implemented for them to benefit.

4. Reprioritisation

Reprioritisation done by department focused on funding its budget in an attempt to fund its cost pressures. Funds have been committed to fixed operational expenditure of the department's core activities. Departmental cost containment measures are currently in place and will continue over the 2019 MTEF. Non-core goods and services budget provisions were reprioritized accordingly.

5. Procurement

The department will procure projects and other services through the bidding process (90/10 thresholds) and the quotation process (80/20 thresholds). The procurement processes will be aligned to the department's procurement plan. SCM processes will be adhered to at all times to avoid irregular expenditure.

6. Receipts and financing

Table 3 above shows departmental receipts and collection per item. Departmental own receipts have decreased from R12.437 million in 2015/16 to a revised estimate of R2.164 million in 2018/19. The department generates its revenue from sales of goods and service and from interest earned on balances on trust accounts managed by municipalities.

6.3 Official development assistance (donor funding)

None.

7. Payment summary

7.1 7.1 Key assumptions

The following assumptions were taken into consideration when the budget was formulated.

- Provision for all critical vacant funded posts in the approved structure and warm bodies;
- Inflation related items such as goods and services are based on CPI projections; and
- The departmental cost-cutting measures, in conjunction with National Treasury Instruction notes, will continue to be adhered to over the 2019 MTEF.

The expenditure will be based on the government financial prescripts and sector legislation.

Tables 4 and 5 above provide a summary of payments and estimates by programme and economic classification over the 2019 MTEF. Expenditure decreases from R2.799 billion in 2015/16 to a revised estimate of R2.409 billion in 2018/19. Expenditure comprises mainly of the HSDG, which accounts for about 83 per cent of the department's budget. Overall, the budget increased by 1.4 per cent from a revised estimate of R2.409 billion in 2018/19 to R2.443 billion in 2019/20.

Compensation of Employees increases by 6.9 per cent in 2019/20 which caters for improved conditions of service, vacant funded posts and pay progression.

Goods and Services decreases by 17.6 per cent from a revised estimate of R44.871 million in 2018/19 to R36.961million in 2019/20.

The main cost driver of the department's budget is the transfers and subsidies that increased by 0.9 per cent from a revised estimate of R2.007 billion to R2.025 billion in 2019/20 financial year. This cost driver is mainly driven through the delivery of houses, Rental and Social Housing and the Upgrading of Informal Settlements.

Payments for Capital Assets decreased by 9.2 per cent from a revised estimate of R 7.698 million in 2018/19 to R6.992 million in 2019/20.

1. Total provincial infrastructure is the sum of "Capital" plus "Recurrent maintenance". This includes non infrastructure items.

Table 7 above shows the departmental expenditure on infrastructure for the 2015/16 to 2017/18, current year and the 2019 MTEF. Infrastructure payments for the delivery of housing units through various housing instruments which include Integrated Rural Development, Informal Settlements Upgrading, Peoples Housing Process, Project Linked Subsidies and EPWP. Expenditure decreased from R2.460 billion in 2015/16 financial year to a revised estimate of R1.926 billion in the 2018/19 financial year. In 2019/20 there is a positive growth of 5 per cent due to slight increase in the HSDG grant.

7.5.2 Maintenance

None.

7.5.3 Non Infrastructure

Expenditure decreased from R2.571 million in 2015/16 to a revised estimate of R2.351 million in 2018/19. In 2019/20 there is a positive growth of 6.3 per cent.

Tables 10 and 11 above show the departmental payments and estimates by sub-programme and by economic classification. Expenditure increases from R135.266 million in 2015/16 to a revised estimate of R154.749 million in 2018/19. Expenditure increases by 1.7 per cent from revised estimate to R157.394 million in 2019/20.

Compensation of Employees is the main cost driver of the programme's budget and it is projected to increase by 6.4 per cent from a revised estimate of R114.836 million in 2018/19 to R122.141 million in 2019/20. The decrease of 12.9 per cent is noted under Goods and Services and is due to baseline reductions. Payments for Capital Assets decreased from a revised estimate of R7.520 million in 2018/19 to R6.992 million in 2019/20 financial year.

Service Delivery Measures

None.

8.2 Programme 2: Housing Needs, Research and Planning

Objectives: The purpose of this programme is to facilitate and undertake housing delivery planning.

- **Administration:** to provide administrative and / or transversal project management service;
- **Policy:** to provide a regulatory framework for housing delivery, develop policy guidelines, Proclamation of Acts and Amendments;

- **Planning:** to develop provincial multi – year housing delivery plans; to properly plan provincial multi – year strategic housing plans by October each year; and
- **Research:** to conduct research on demand for housing.

Performance in this programme is measured by the number of guidelines approved, research papers completed and the number of municipalities capacitated. A target of 7 municipalities is set for the 2019/20 financial year.

8.3 Programme 3: Housing Development

Objectives: To provide individual subsidies and housing opportunities to beneficiaries in accordance with the housing policy

- **Administration:** provides administrative support funded from equitable share;

- **Financial Interventions:** Facilitating immediate access to Housing Goods and Services creating enabling environments and providing implementation support
- **Incremental Interventions:** facilitates access to housing opportunities through a levelled process;
- **Social and Rental Intervention:** facilitates access to Rental Housing opportunities, supporting Urban Restructuring and Integration; and
- **Rural Interventions:** facilitating access to housing opportunities in rural areas.

Tables 15 and 16 above shows departmental payments and estimates by sub-programme and economic classification. The expenditure recorded in the 2015/16 financial year decreased from R2.635 billion to a revised estimate of R2.220 billion in the 2018/19 financial year due to reduction on the HSDG grant. The budget for the programme has increased by 1.3 per cent from a revised estimate of R2.220 billion in 2018/19 to R2.250 billion in the 2019/20 financial year.

Compensation of Employees budget increased by 7.1 per cent from a revised estimate of R203.014 million in 2018/19 to R217.356 million in 2019/20 for ICS, pay progression and critical vacant funded posts. Goods and Services decreased by 26.6 per cent from a revised estimate of R10.946 million in 2018/19 to R8.029 million in 2019/20 due to baseline reductions.

Service Delivery Measures

Number of historical projects closed	32	30	30	30
Number of beneficiaries subsidies approved	5 000	4 000	3 000	3 000

The department intends to deliver 9 395 new housing units, and to install 4 699 service sites in the 2019/20 financial year. Programme 3 is the core for the department. The HSGD is allocated in this programme and targets are measured by the number of houses delivered, sites serviced and beneficiaries approved.

8.4 Programme 4: Housing Asset Management

Objectives: To provide for the effective management of housing.

- **Administration:** provides administration and management support to sub-programmes;
- **Sale and Transfer of Housing Properties:** to provide for the sale and transfer of rental stock;
- **Devolution of Housing Properties:** is responsible for the devolution of housing assets; and
- **Housing Properties Maintenance:** is responsible for housing property maintenance.

Tables 22 above is the information on training by programme and category. Over the 2019 MTEF period, training figures are mainly guided by needs analysis, which is a process that is linked to Employment Performance Management Development Systems (EPMDS). The EPMDS has identified training needs in project management for line function staff as well as finance and Supply Chain management (SCM) skills for corporate services staff. Training for the department is centralised in Programme 1.

1. Overview

1.1 Vision

A prosperous province supported by sound financial and resource management.

1.2 Mission

To provide strategic and technical leadership in the allocation, management and utilisation of financial resources in order to improve the quality of life in the province.

1.3 Core functions and responsibilities

The oversight role of the department requires it to ensure the stability and soundness of the financial system and financial services, coordinate intergovernmental financial and fiscal relations, manage the budget preparation process and enforce transparency and effective management in respect of revenue and expenditure, assets and liabilities, public entities and constitutional institutions.

1.4 Main Services

- Preparation of the provincial budget;
- Exercising control over the implementation of the provincial budget;
- Promoting and enforce transparency and effective management in respect of revenue, expenditure, assets and liabilities of provincial departments and provincial public entities;
- Ensuring that its fiscal policies do not materially and unreasonably prejudice national economic policies;
- Enforcing the PFMA and any prescribed national and provincial norms and standards, including any prescribed standards of generally recognised accounting practices and uniform classification systems, in provincial departments;
- Ensure compliance with the annual Division of Revenue Act (DoRA), and monitor and assess the implementation of DoRA in provincial public entities;

- Monitor and assess the implementation in provincial public entities of national and provincial norms and standards;
- Assist provincial departments and provincial public entities in building their capacity for efficient, effective and transparent financial management;
- Investigate any system of financial management and internal control applied by a provincial department or a provincial public entity; and
- Municipal support and enforce Municipal Finance Management.

1.5 Demands for and expected changes in the services

The constrained fiscus necessitated the province to research on new streams of generating the provincial own revenue over and above the current sources of revenue from departments. A final research report on the newly identified sources of revenue was approved and processes are underway to facilitate the implementation of the proposed revenue strategies. Furthermore, this tight environment prompted the department to implement a sustainable fiscal framework. In order to realise this, Provincial Treasury (PT) will continue to focus on the containment of the provincial wage bill, implementation of cost containment measures, the rationalisation of public entities, infrastructure investment and maintaining of the Provincial Revenue Fund (PRF) liquidity.

1.6 The Acts, rules and regulations

The Constitution of the Republic of South Africa informs the mandate and operations of the department as well as the following Acts: PFMA (of 1999 as amended); MFMA (of 2003); Preferential Procurement Policy Framework Act (of 2004); Appropriation Act; DoRA; as well as the National Treasury Regulations.

1.7 Budget decisions

The budget decisions are aligned with provincial priorities pertaining to the need for intensified support and oversight of departments, municipalities and public entities. The weak economic environment, has led to a tightening fiscal envelope. Therefore, cost containment and other fiscal consolidation measures will continue to be applied over the 2019 MTEF.

1.8 Aligning departmental budgets to achieve government's prescribed outcomes

Provincial Treasury responds to Outcome 4 by providing support to provincial departments in attaining the following sub-outcomes:

- Productive investment is effectively crowded in through the infrastructure build programme;
- The productive sectors account for a growing share of production and employment;
- The elimination of unnecessary regulatory burdens and lower price increases for key inputs and wage goods fosters business confidence, reduces costs for working people and producers, and sustains investment and economic growth;
- Workers' education and skills increasingly meet economic needs;
- Spatial imbalances in economic opportunities are addressed through expanded employment in agriculture, the build programme and densification in the metros;
- Macroeconomic conditions support employment-creating growth;

- Workplace conflict is reduced and collaboration between government, organised business and organised labour improves;
- Economic opportunities for historically excluded and vulnerable groups are expanded and the growth and development in small business and cooperatives is improved markedly;
- Public employment schemes provide relief for the unemployed and build community solidarity and agency;
- Investment in research, development and innovation supports inclusive growth by enhancing productivity of existing and emerging enterprises and supporting the development of new industries; and
- Create an Economic Stimulus Fund aimed at catalysing investment-ready investment projects in the province.

2. Review of the current financial year (2018/19)

2.1 Key achievements

Fiscal and Economic Review

Provincial Treasury has continued to ensure proper allocation, management and utilisation of financial resources in an efficient and sustainable manner despite the economic challenges facing the country. The department tabled the provincial 2018 Medium Term Budget Policy Statement (MTBPS) that provides context to the province's medium-term budget strategy and commitment to economic growth and development strategies. Furthermore, three quarterly policy briefs were produced on key sector policy focus areas. These briefs were on the following: importance of industrial policy and attempts to explore the scope for, and performance of industrial policies in low and lower middle income countries; evaluation of business models that are inclusive of small farmers as well as evaluation of the guidelines of the Early Childhood Development (ECD) conditional grant with a special focus on the maintenance component of the grant.

Various measures have been put in place to curb the unsustainable rise in personnel costs in the province that include the centralisation of authorisation of appointments on PERSAL and participating in the Provincial Coordinating Monitoring Team (PCMT) to optimise the utilisation of human capital and promote fiscal discipline in the province.

Measures to explore ways of enhancing and increasing provincial own revenue implemented, through the provision of support to provincial departments to implement the provincial own revenue strategy as a provincial plan for revenue enhancement. The study on the new revenue sources has been completed, and a research report was approved. The report requires departments to formulate their project plans for the implementation of the newly identified revenue sources. All departments were supported during the period under review towards the implementation of measures to ensure provincial cash liquidity.

As part of fiscal consolidation, work on the rationalisation of public entities continued to refocus on provincial public entities in order to strengthen and improve financial management and governance to maximise economic benefits to the province.

Supply Chain Management (SCM) Reforms

Provincial Treasury continued to support departments to implement the Local Economic Development Procurement Framework (LEDPF) in order to ensure maximum retention of provincial funds spent in the province thereby expanding the productive capacity of Small, Medium and Micro-Enterprises (SMMEs)

and Cooperatives. To date, the province has achieved 55 per cent expenditure on Goods, Works and Services on local suppliers since the implementation of LEDPF. The department managed to conduct creditor management forums that deals with the issue of non-payment to service providers by provincial departments and to share best practices with departments to ensure the payment of creditors within 30 days as required by National Treasury Regulations (NTR) 8.2.3.

The drive to improve procurement efficiencies through transversal contracts, capacitation of suppliers on opportunities available to enable SMMEs to do business with government is continuing. SMME development with a special focus on local procurement including women, persons with disabilities and youth continued to be prioritised.

Governance and Accountability

Provincial departments were supported on the implementation of the Financial Management Accountability Framework (FMAF). The framework provides a platform to assess the performance of the provincial departments based on agreed standards and make decisions on the appropriate consequences for non-adherence to the standards. The implementation of audit improvement strategies is continuing, and PT continues to assess the risk across all departments (and Public Entities) and deploy the necessary interventions to ensure that there is no regression.

The department ensured that financial systems are optimally implemented, utilised, and monitored and that users are supported to achieve credible financial information. In supporting departments for LOGIS utilisation, the department is in its second year of implementing a three-year strategic LOGIS rollout and support plan with list of sites per department. The emphasis on this phase is on the roll out of movable asset registers using LOGIS Asset Management Module.

Municipal Financial Governance

All municipal budgets were assessed and engagements held with municipalities across the province and the recommendations were provided to all municipalities including unfunded budgets for implementation. As per Section 71 of MFMA, PT compiled a consolidated IYM for the province and continued with financial management support to municipalities.

Progress is being made on the implementation of social infrastructure projects and these projects are at various stages. Social infrastructure site visits were also undertaken on the Rural Access Roads Programme: Phase 1 projects to validate the alignment of infrastructure expenditure incurred to value created on the ground. In addition, during the period under review, a decision was taken to shift the funds allocated over the 2018 MTEF for the implementation of the Phase 2 of the Rural Access Roads Programme to the Department of Transport (DoT).

2.2 Key challenges

The late payment of suppliers by provincial departments continues to be a challenge due to changing of banking details by suppliers without notifying departments and weak internal departmental processes in monitoring invoices.

Another identified challenge was the lack of consequence management at provincial departments, public entities and municipalities due to poor governance and oversight. With regards to the Social Infrastructure Projects, the main challenges which hindered the performance in the current financial year included the lack of technical capacity of some of the appointed service providers and cash-flow issues to manage the project implementation at municipal level.

3. Outlook for the coming financial year (2019/20)

Fiscal and Economic Outlook

Economic output both at the national and provincial level has been constrained by the slow and uncertain recovery of the global economy. In responding to the current environment of weak economic recovery and high levels of joblessness, the Provincial Cabinet have resolved to top-slice the 2019 MTEF provincial budget in order to raise funds for an Economic Stimulus Package aimed at catalysing investment-ready projects in the province. The investment plan to be managed through DEDEAT will target agriculture value chains, ocean economy, energy, and manufacturing, tourism, and infrastructure development projects. The intention is not to fully fund all investment proposals, but rather to use the limited funding available to leverage funding from third parties (especially the private sector and DFI's).

The department will continue to implement the fiscal consolidation strategy with a particular focus on cost containment measures and management of the wage bill. Strict implementation of cost containment measures continue to be prioritised through enforcing budget ceilings on the non-core items with the intention to ensure that service delivery commitments are implemented.

The department will continue to monitor the implementation of the provincial revenue generation strategy. PT will be assisting departments in the development of the implementation plans for new sources of revenue over the 2019 MTEF. Revenue sources will be quantified per project consisting of dates of implementation, required resources, knowledge, skills, tools, and techniques needed for the revenue improvement.

The process of rationalising public entities will continue as one of the measures to improve efficiencies and effectiveness of public entities in the province.

Supply Chain Management Reforms

The department will continue to support provincial departments to improve procurement efficiencies through transversal contracts and capacitation of suppliers on opportunities available. The department will continue to prioritise the SMME development with a special focus on local procurement including women, persons with disabilities and youth. Furthermore, the department will continue to ensure financial sustainability of the provincial SMME's through continuous improvement in payment of creditors within a 30-day period.

PT together with Department of Economic Development Environmental Affairs and Tourism (DEDEAT) will continue to monitor the implementation of the Local Economic Development Procurement Framework (LEDPF). PT will continue to identify commodities that are manufactured in the province and advise departments before they engage on procurement.

Governance and Accountability

The implementation of the Provincial Audit Intervention Plan (PAIP) will continue to be monitored to improve audit outcomes. PAIP encompasses requesting commitments on the improvement of the audit from departments (through departmental Audit Improvement Plans), informed by lessons learnt in each audit cycle, where measures on improvement target the causes of the audit findings (rather than symptoms) over the whole population of transactions. The intention is to have an unqualified audit opinions in all departments and public entities. Municipalities will also be supported to improve financial performance and governance which may result in improvement in the number of municipalities obtaining unqualified audit opinions.

To improve financial management and governance, the department continue to offer an efficient and effective hands-on support e.g. CFO support on financial management to all 36 municipalities. In addition, the department will be finalizing the Joe Gqabi Drought Relief Programme in 2019.

4. Reprioritization

The department has reprioritised funds from non-core items to key service delivery areas. The projects that were discontinued were removed from the 2019 MTEF indicatives. The budget committee will continue to play an active role in ensuring that programmes are spending as projected and that budget pressures are addressed through reprioritisation. This monitoring exercise will continue over the 2019 MTEF.

5. Procurement

The department has a standard lease agreement for equipment and finance lease contracts. Furthermore, it also has other on-going contracts such as commercial banking services; departmental printing services; 24-hour wellness services; competency assessments; provision of security services; cleaning services; ICT services and a panel of Forensic Investigators. The department will continue with ICT audits and forensic investigations in provincial departments. These services were procured through the appointment of consultants. The SCM Unit will continue to consider LED, Women, Youth and people with disability in the procurement process, over the 2019 MTEF including price negotiations.

6. Receipts and financing

6.1 Summary of receipts

Table 2 above shows departmental receipts from 2015/16 to 2021/22. The substantial decrease from R492.422 million in 2015/16 to the revised estimate of R457.694 million in 2018/19 is mainly due to a decline in the social infrastructure allocations as most of these projects are nearing completion, hence the decline of 3.7 per cent to R440.930 million in 2019/20.

6.2 Departmental receipts collection

Table 3 above shows the summary of departmental receipts and collections from 2015/16 to 2021/22. Own revenue decreased from R568.914 million in 2015/16 to an estimated R428.522 million in 2018/19. The decrease to R108.987 million in 2019/20 is due to expected lower cash balances in the provincial revenue fund owing to allocation of surplus funds for provincial priorities. It is estimated that receipts will increase gradually in the two outer years.

6.3 Official development assistance (donor funding)

None.

7. Payment summary

7.1 Key assumptions

Assumptions and factors contained in the 2018 Medium-Term Budget Policy Statement (MTBPS), such as revised inflationary projections were taken into consideration. The budget for personnel was formulated using the 2019 MTEF personnel inflation issued by National Treasury. Provisions were also made for the carry-through costs of the 2018 wage agreement. Provincial budget reductions and cost containment measures have been taken into account for the entire 2019 MTEF.

Tables 4 and 5 above show the summary of payments and estimates per programme and economic classification from 2015/16 to 2021/22. Actual expenditure decreased from R492.422 million in 2015/16 to a revised estimate of R457.694 million in 2018/19 due to most of the social infrastructure projects nearing completion in 2018/19. In 2019/20, the budget decreases by 3.7 per cent to R440.930 million due to a decline in Municipal Social Infrastructure allocations.

Compensation of employees increased from R252.873 million in 2015/16 to a revised estimate of R306.957 million in 2018/19 due to the appointment of interns for experiential training; contractual personnel for LOGIS implementation in provincial departments as well as Technical Support Unit (TSU). In 2019/20 the budget increases by 13.8 per cent to R349.435 million due to additional allocations received to increase technical capacity in provincial infrastructure management and provisions made for the funding of critical vacant posts.

Goods and Services increased from R60.835 million in 2015/16 to a revised estimate of R65.567 million in 2018/19 mainly due to provisions made for ongoing forensic investigations, ICT Audits, rate increase in regulatory audits, provincial SCM capacitation training, provincial internal audit and risk management training. In 2019/20, the budget increases by 8.2 per cent to R70.967 million mainly due to additional allocation received for support interventions to municipalities.

Transfers and Subsidies decreased from R175.360 million in 2015/16 to a revised estimate of R75.682 million in 2018/19 due to most of the social infrastructure projects that has been completed. In 2019/20, the budget decreases by 79.1 per cent to R15.830 million due to a decline in the allocation for Social Infrastructure projects as only Joe Gqabi will be completed in 2019/20.

Payments for Capital Assets increased from R3.340 million in 2015/16 to a revised estimate of R9.488 million in 2018/19. The budget decreases by 50.5 per cent to R4.698 million due to once-off provisions made in 2018/19 for the upgrade of the computer server infrastructure.

Table 6 above show the summary of payments and estimates by benefitting municipality boundary from 2015/16 to 2021/22. The department is implementing social infrastructure projects such as access roads in various municipalities, drought relief in Joe Gqabi municipality and electrification in King Sabata Dalindyebo municipality. Total expenditure decreased from R492.422 million in 2015/16 to a revised estimate of R457.694 million in 2018/19 as most of the Social Infrastructure projects nearing completion in 2018/19. In 2019/20, the overall budget for the department decreases by 3.7 per cent to R440.930 million due to a decline in the allocation for Social Infrastructure projects as Joe Gqabi drought relief will be completed in 2019/20.

1. Total provincial infrastructure is the sum of "Capital" plus "Recurrent maintenance". This includes non infrastructure items.

Table 7 above shows the summary of payments and estimates on infrastructure from 2015/16 to 2021/22. Actual expenditure decreased from R169.435 million in 2015/16 to a revised estimate of R70.824 million in 2018/19 due to transfer payments due to the decrease in the budget for the Municipal Social Infrastructure interventions. In 2019/20 the budget decreases by 80.2 per cent to R14 million due to Joe Gqabi being in the completion stage.

Table 8 above shows the summary of transfer to other entities from 2015/16 to 2021/22. The expenditure decreased from R93.834 million in 2015/16 to R22.742 million in 2018/19 and some of the projects implemented by South African National Roads Agency (SANRAL) as part of Social Infrastructure projects were completed. In 2019/20, the budget decreases by 95.5 per cent to R1.030 million and this is for the provisions for television license fees and skills development fund levies over the 2019 MTEF.

7.8.3 Transfers to local government

Table 9 above shows the summary of departmental transfers to local government by category from 2015/16 to 2021/22. The transfer allocations reflected from 2015/16 to 2018/19 pertain to social infrastructure interventions. These transfers are directed to Joe Gqabi district municipality for the drought relief programme, Ntabankulu local municipality for access roads and KSD for electrification. All the projects except Joe Gqabi drought relief are anticipated to be completed in 2018/19, hence a decline in the allocations over the 2019 MTEF. The provision made in 2019/20 is for the finalization of the Joe Gqabi drought relief project.

8. Programme description

8.1 Programme 1: Administration

Objectives: To provide leadership and strategic management and appropriate support services to all other programmes. The programme consists of 5 sub-programmes, namely:

Tables 10 and 11 above shows summary of payments and estimates per sub-programme and economic classification from 2015/16 to 2021/22. The expenditure increased from R125.566 million in 2015/16 to a revised estimate of R160.929 million in 2018/19. The increase is mainly due to additional intake of interns for experiential learning, ICS adjustments, rate increase in regulatory audits and upgrade of computer server infrastructure. In 2019/20, the budget increases by 4.9 per cent to R168.789 million mainly due to provisions made for the filling of critical vacant posts and Improvement in the Conditions of Services (ICS) adjustments. This was slight offset by the implementation of the national and provincial baseline cuts.

Compensation of Employees increased from R82.444 million in 2015/16 to a revised estimate of R105.835 million in 2018/19 due to additional intake of interns for experiential learning and ICS adjustments. In 2019/20, the budget continues to increase by 12 per cent to R118.567 million. The increase is due to provisions made for the funding of critical vacant posts, ICT software developers as well as ICS adjustments.

Goods and Services increased from R37.587 million in 2015/16 to a revised estimate of R42.562 million in 2018/19 mainly due to rate increase in regulatory audits. In 2019/20, the budget increases by 2.7 per cent to R43.694 million mainly due to provisions for organisational development projects and training and development for leadership capacitation at Middle and Senior Management levels.

Transfers and Subsidies increased from R2.181 million in 2015/16 to a revised estimate of R3.044 million in 2018/19. In 2019/20, the budget decreases by 39.9 per cent to R1.830 million due to the anticipated reduction in the number of officials exiting the department.

Payments for Capital Assets increased from R3.340 million in 2015/16 to R9.488 million in 2018/19. The budget decreases by 50.5 per cent to R4.698 million due to once-off provisions made for the upgrade of the computer server infrastructure in 2018/19.

8.2 Programme 2: Sustainable Resource Management

Objectives: To ensure the effective and efficient planning, utilisation, implementation and monitoring of Provincial Fiscal Resources.

The programme consists of four sub-programmes namely:

- **Programme Support:** provides strategic leadership in implementing strategies to ensure the programme's contribution in realising departmental objectives;
- **Economic Analysis:** determines and evaluates economic parameters and socio-economic imperatives within a provincial and macro-economic context;
- **Fiscal Policy:** promotes optimal financial resource allocation and enables government to finance its service delivery obligations, and also promotes sound planning, budgeting, financial management and reporting in Public Entities;
- **Budget Management:** promotes effective optimal resource allocation; manages fiscal assets optimises liquidity requirements and returns on financial investments and maximises the latter within acceptable levels of risk.

Tables 12 and 13 above show summary of payments and estimates per sub-programme and economic classification from 2015/16 to 2021/22. The actual expenditure increased from R54.499 million in 2015/16 to a revised estimate of R68.548 million in 2018/19. The increase is mainly due to provisions made for the

funding of critical vacant posts, provincial revenue study project as well as infrastructure technical support services. In 2019/20, the budget increases by 15.8 per cent to R79.391 million mainly due to additional allocation received to increase technical capacity in provincial infrastructure management.

Compensation of Employees increased from R50.505 million in 2015/16 to a revised estimate of R62.488 million in 2018/19 due to provisions made for the filling of critical vacant posts. In 2019/20 the budget increases by 22.7 per cent to R76.672 million mainly due to additional allocation received to increase technical capacity in provincial infrastructure management.

Goods and Services increased from R2.418 million in 2015/16 to a revised estimate of R5.555 million in 2018/19 due to provisions made for provincial revenue study and infrastructure technical support services. In 2019/20, the budget decreases by 51.1 per cent to R2.719 million due to the finalisation of the provincial revenue study in 2018/19 as well as reclassification of infrastructure technical support services to CoE.

Transfers and Subsidies decreased from R1.576 million to a revised estimate of R505 thousand in 2018/19 as this is mainly demand driven. In 2019/20 it is anticipated that no officials will be retiring and leaving the department, hence a decline in the allocations over the 2019 MTEF.

Table 14 above shows service delivery measures for Sustainable Resource Management. To ensure effective and efficient planning, implementation and monitoring of provincial fiscal resources, the programme will fund priorities in provincial departments. The programme will continuously monitor the expenditure of provincial departments and public entities to ensure effective use of resources and also monitor them on compliance to current laws and regulations.

8.3 Programme 3: Asset and Liabilities Management

Objectives: To provide policy direction promote and enforce transparency and effectiveness of Supply Chain management and Asset Management in the province. The programme consists of two sub-programmes namely:

- **Programme Support:** provides strategic leadership in implementing strategies to ensure the programme's contribution in realising departmental objectives; and
- **Asset Management:** To provide policy direction facilitates the effective and efficient management of physical assets and promotes economic development targeted government procurement.

Tables 15 and 16 above shows summary of payments and estimates per sub-programme and economic classification from 2015/16 to 2021/22. The actual expenditure increased from R20.183 million in the 2015/16 financial year to a revised estimate of R26.812 million in 2018/19 due to provisions made for provincial SCM capacitation training. In 2019/20, the budget increases by 5.3 per cent to R28.228 million due to provisions made for ICS adjustments.

Compensation of Employees increased from R19.097 million in 2015/16 to a revised estimate of R24.134 million in 2018/19. In 2019/20, the budget increases by 6.2 per cent to R25.630 million due to provisions made for ICS adjustments.

Goods and Services increased from R999 thousand in 2015/16 to a revised estimate of R2.637 million in 2018/19. The increase is mainly due to provisions made for provincial Supply Chain Management (SCM) capacitation training and establishment of the infrastructure procurement review committee. In 2019/20, the budget decreases by 1.5 per cent to R2.598 million due to reprioritisation resulting from national and provincial reductions in budget allocations.

Transfers and Subsidies decreased from R87 thousand to a revised estimate of R41 thousand in 2018/19. In 2019/20 it is anticipated that no officials will be exiting the department through retirements, hence a decline in the allocations over the 2019 MTEF.

Table 17 above shows service delivery measures for Asset and Liability Management. PT will continue with its endeavours to improve compliance with relevant legislation, to achieve value for money and to promote Local Economic Development (LED).

8.4 Programme 4: Financial Governance

Objectives: To promote accountability through comprehensive accounting practices financial information systems governance as well as compliance with financial norms and standards in PFMA compliant institutions and financial systems management.

The programme consists of six sub-programmes namely:

- **Programme Support:** Provides strategic leadership in implementing strategies to ensure programme's contribution in realising departmental objectives;
- **Accounting Services:** To ensure the effective implementation of accounting practices in line with Generally Accepted Accounting Practices (GAAP), Generally Recognised Accounting Practise (GRAP) and prepare consolidated financial statements that reflect the financial position of the province;
- **Norms and Standards:** Develops and implements financial norms and standards and ensures effective communication;
- **Risk Management:** Provides provincial risk profile, develops and monitors the implementation of the Provincial Risk Management Framework;
- **Provincial Internal Audit Services:** Coordinates the activities and provide technical support for all provincial internal audit units and audit committees.
- **Supporting and Interlinked Financial Systems:** To provide oversight and management of existing financial systems and the transition to the Integrated Financial Management Systems, enhancement of systems to support the business processes of government and provides capacity building in the usage of financial systems aimed at better provincial financial management.

Tables 18 and 19 above shows summary of payments and estimates per sub-programme and economic classification from 2015/16 to 2021/22. The decrease in expenditure from R80.086 million in 2015/16 to a revised estimate of R79.999 million in 2018/19 due to the finalisation of the Department of Education administrative intervention project in 2017/18. In 2019/20, the budget increases by 9.6 per cent to R87.678 million due to provisions made for the filling of critical vacant posts and ICS adjustments.

Compensation of Employees increased from R62.366 million in 2015/16 to a revised estimate of R68.020 million in 2018/19 due to the appointment of contract personnel for LOGIS implementation, PERSAL Centralisation, infrastructure technical support and Technical Support Unit. In 2019/20 the budget increases by 14.4 per cent to R77.816 million due to provisions made for the filling of critical vacant posts and ICS adjustments.

Goods and Services decreased from R16.160 million in 2015/16 to a revised estimate of R10.851 million in 2018/19 due to the finalisation of the DoE administrative intervention project in 2017/18. In 2019/20 the budget decreases by 9.1 per cent to R9.862 million due to reprioritisation resulting from national and provincial reductions in budget allocations.

Transfers and Subsidies decreased from R1.560 million in 2015/16 to a revised estimate of R1.128 million due to staff exit benefits. In 2019/20 it is anticipated that no officials will be retiring, hence no provision has been made over the 2019 MTEF.

Financial Management Accountability Framework will provide for the in-year determination of the standards against which provincial departments will be measured.

8.5 Programme 5: Municipal Financial Governance

Objectives: Provides support to the achievement of sound and sustainable financial management at municipal level through the provision of technical support and capacity building in the following areas: budgeting accounting practices supply chain management asset management, governance, as well as MFMA compliance. The Programme consists of three sub-programmes namely:

- **Programme Support:** Provides strategic leadership in implementing strategies to ensure the programme's contribution in realising departmental objectives;
- **Municipal Budget and Institutional Governance:** To monitor the implementation of the budgeting frameworks and coordinate monitor and report on MFMA; and
- **Municipal Accounting and Reporting:** Ensures that accounting and financial reporting of municipalities is according to the prescribed Generally Recognised Accounting Practices (GRAP) and assists municipalities in complying with Supply Chain Management and Asset Management regulations.

Tables 21 and 22 above shows summary of payments and estimates per sub-programme and economic classification from 2015/16 to 2021/22. The expenditure decreased from R212.088 million in 2015/16 to a revised estimate of R121.406 million in 2018/19 due to most of the social infrastructure projects nearing completion in 2018/19. In 2019/20, the budget continues to decreases by 36.7 per cent to R76.844 million for the completion of the drought relief programme in Joe Gqabi.

Compensation of Employees increased from R38.461 million in 2015/16 to revised estimates of R46.480 million in 2018/19 due to provisions made for planned recruitment aimed at strengthening of municipal financial management as well as ICS adjustments. In 2019/20, the budget increases by 9.2 per cent to R50.750 million due to the filling of critical vacant posts and ICS adjustments.

Goods and services increased from R3.671 million in 2015/16 to a revised estimate of R3.962 million in 2018/19 due to provisions made for mSCoA implementation. In 2019/20, the budget increases by

205.2 per cent to R12.094 million due to additional allocation received for support interventions to municipalities.

Transfers and Subsidies decreased from R169.956 million in 2015/16 to a revised estimate of R70.964 million in 2018/19 as most of the social infrastructure projects will be completed in 2018/19 such as Rural Access Roads. In 2019/20, the budget continues to decrease by 80.3 per cent to R14 million for the completion of the drought relief project in Joe Gqabi.

1. Personnel numbers includes all filled posts together with those posts additional to the approved establishment

Table 24 above show personnel numbers and costs by programme and component from 2015/16 to 2021/22. The departmental organisational structure was approved in November 2014 consisting of 538 posts such as the technical capacity in Provincial Infrastructure Management. The personnel numbers in the department has significantly increased from 470 recorded in 2015/16 to 484 in 2018/19 due to filling of critical vacant posts. In 2019/20, the headcount is anticipated to increase to 505 due to the filling of critical vacant posts. The headcount decreases in the two outer years due to expiry of contracts.

The department has 52 employees who are additional to the approved organogram and this includes 28 interns employed by the department in line with the DPSA policy; 3 Graduate Assistants who are former bursary holders; 3 SMS members who could not be placed during the person to post matching exercise; 15 officials under TSU and Municipal CFO Support employed to assist departments and municipalities that experienced challenges with financial management as well as PERSAL authorisers.

Table 25 above show information on training from 2015/16 to 2021/22. The expenditure on training increased from R2.198 million in 2015/16 to a revised estimate of R2.664 million in 2018/19 due to provisions made for programmes such as the Post Graduate Diploma in Public Sector Accounting, the Post Graduate Diploma in Public Management and Certificate in Municipal Finance Management. The training budget is centralised in Programme 1 for all employees within the department.

The focus in 2019/20, as in previous years, will be on the development and enhancement of technical and leadership skills at middle and senior management levels. This objective is to strengthen the ability of the department to respond to the demands of the environment within which it functions. The department will also continue its quest to build a leadership pipeline among women. The intention is to create women leadership cadre at middle management level that will advance to the senior management service cadre. It also intends to prepare those women that are already in the senior management service cadre for further advancement.

1.4 Main Services

- To develop, transform and promote arts, culture, museums and heritage, and language services in order to contribute to government priorities;
- To provide free, equitable and accessible libraries, archives services and proper management and preservation of public and non-public records;
- Improve the quality of life of all the people of the Eastern Cape through the development, transformation and promotion of sustainable sport and recreation programmes that will lead to increased participation and global competitiveness of sports persons; and
- Effective Service Delivery through leadership, good governance, accountability and efficient resource utilization.

1.5 Demands for and expected changes in the services

- None.

1.6 The Acts, rules and regulations

The department derives its mandate from the Constitution (Schedule 4, 5 and Chapter 2) as well as other legislations such as: Eastern Cape Provincial Arts and Culture Council Act, No. 7 of 2004; National Art Council Act, No. 57 of 1997; National Film and Video Foundation Act, No. 73 of 1997; South African Geographical Places Names Act, No. 118 of 1998; Eastern Cape Museum Act, No. 7 of 2004; National Heritage resources Act, No. 25 of 1999; South African Library Act, No. 92 of 1998; National Archives and Records Services Act, No. 43 of 1996 (as amended) and Sports and Recreation Amendment Act of 2007.

1.7 Budget decisions

Due to the dilapidating state of provincial archives, the department will continue with the process of ensuring the safety of provincial records by digitising. In the 2019/20 financial year, the department will be completing the revitalisation of Great Fish River and Queenstown Frontier Museums. Other infrastructure projects to be completed in 2019/20 financial year are the Alice Library and Mt Ayliff Museum which has experienced a number of construction delays in the past. The department will also invest in the operationalisation of the new library structures namely Ngqeleni and Karreddouw libraries by way of providing books, furniture and fittings, Information, Communication and Technology (ICT) equipment, internet connectivity and staffing.

To continue with the support to Sports federations and academies through the grant allocations, with the aim of investing in club development. Investment in Sport tourism will continue and the “Isingqi Sethu “Wild Coast Festival will be up-scaled through engaging other partners like tourism structurers with a view to building self-sustainability amongst artists of the Eastern Cape.

1.8 Aligning departmental budgets to achieve government’s prescribed outcomes

Priority 6: Integrated Human Settlement and Building Cohesive Communities. In order to realise Outcome 4, “National building and Social Cohesion” the Department will continue to implement programmes that are aimed at promoting and developing creative industries, transforming heritage landscape, promoting a culture of reading and lifelong learning, promoting multilingualism and enhancing participation and excellence in sport. Projects emanating from these programmes will include hosting of arts and culture festivals; hosting of national significant days, commemoration partnership projects like centenary celebration of Oliver Reginald Tambo, building of library infrastructure; digitisation of archives; financial support to arts, culture, heritage, sport and recreation institutions; hosting of major sport tourism events, school sport competitions, etc. with a view to contribute towards the attainment of a cohesive society.

2. Review of the current financial year (2018/19)

2.1 Key achievements

Celebrations, activities and events of all kinds were held across the Province, which included, the 100th anniversary of Dr Nelson Mandela and Mama Albertina Sisulu. The promotion of the province's and country's achievements, history and cultural heritage during 2018/19 financial year. The department undertook to implement its plans in celebrating the legacy of these stalwarts.

During the period under review, the department through its cultural and creative industry strategy, continued to benefit rural women in the area of hand-made craft which has become a flourishing business opportunity in the Province.

Through its partnership initiatives, the department has invested in a state-of-the-art computer-aided design technology in the Mthatha Craft Hub, which is aimed at assisting fashion designers to work in collaboration

with rural beaders to develop high end fashion design and accessories that meet the requirements of the mainstream markets.

Through initiatives such as a commemorative partnership programmes, exhumation, repatriation and reburial programme, geographical place name change, support of the Eastern Cape Heritage Resources Authority (ECPHRA). In pursuance of government's transformation agenda, the Department, through the Eastern Cape Provincial Geographical Names Committee (ECPGNC), submitted 57 names for approval by the Minister of Art and Culture.

Through the National Archives and Records Management Services Act, they have reviewed and approved classification systems to be utilised by various governmental bodies (municipalities, government departments and public entities). These initiatives are aimed at ensuring good governance in the Province.

The Department, through its library and information branch pursued its goals by focusing on direct service delivery, supporting and building library services across the province. As library services evolved from few and small community service points, to larger and more connected systems, the role of the branch changed from one of direct service delivery to collaborative strategic initiatives and professional consultancy.

The preparatory phase for the digitisation project has been initiated and the installation of movable shelving completed. The department has further employed nine contract workers to normalise the paper environment in preparation for digitisation.

2.2 Key Challenges

The refurbishment of Craft Hub facilities, which do not meet factory requirements, thereby investing in modern-day technology that will enhance production quality and increase volumes.

Providing access to sport and recreation facilities remain an ongoing challenge, those that include population growth, higher densities associated with urban renewal, and ageing facilities.

Despite the financial injection from the department towards the rehabilitation of museum facilities, these institutions are still confronted with the challenge of diminishing storage space for heritage assets, as well as maintaining and upgrading of existing spaces to meet world best standards.

The department is faced with dilapidating thatch-roofed arts and culture facilities such as Port St Johns Museum and seven (7) community art centres (CAC), namely, eMaxesibeni, Port St Johns, Sithembele Zokwe, Peddie, Sterkspruit, Tsitsikamma, and Coffee Bay CAC.

3. Outlook for the coming financial year (2019/20)

The department will leverage culture and heritage for economic and community benefit by supporting local and district economic development initiatives; facilitate the development of cultural facilities, institutions and programs in Eastern Cape towns and cities and to regulate and deliver successful arts and culture festivals and heritage events.

Further it will continue to conserve and promote heritage. This will be achieved through the identification of the most significant heritage sites and preparation of statements of significance as per the Province Register of historic places; develop a heritage resources management programme; raise public awareness and appreciation of Province's heritage and to promote opportunities for joint heritage activities of community groups.

The Department will pursue the implementation of e-books in libraries with a view to advance access to information and resources. To avail reliable and affordable internet connectivity that plays a vital role in helping people stay connected and participate in an increasingly digital world.

The digitisation of archive material in the three repositories will also be prioritised. This will be achieved by delivering increasing volumes of electronic records to the Eastern Cape public, online, using flexible tools and accessible resources that promote public participation. In order to achieve success in this goal, the department will digitise records it holds in analog formats, keep pace with the continuous stream of new records it receives each year, and develop new ways to help citizens find records through the online Eastern Cape Provincial Archives Catalogue.

Systematic monitoring of the growth and development of individual participants to guide their transition through to the excellence pathways. To achieve this, the department will strengthen planning and closely monitor the implementation of its programmes, such as community sport and recreation, schools sport, club development programmes and rural sport development programmes.

The Department will review and strengthen the role of the Eastern Cape Academy of Sport (ECAS) as a key centre of excellence within the national system, developing local and provincial athletes and coaches. Facilitate functional relationship between provincial/national league teams and ECAS to support their performance pathway.

Working with relevant partners, the Department will continue to strive to promote Eastern Cape as a sporting destination for major events, conferences and development tours.

4. Reprioritisation

The department has reprioritised its budget to focus on the enhanced staffing of modular libraries as these libraries are currently manned by one librarian each, something which makes them to close when that official is on leave. This hampers the delivery of services and had to be attended to. The department has also identified 13 modular libraries which need to be upgraded to include provision of water and sanitation and fencing as to enhance security. These are the ones that are not built inside school premises. The province has 17 aided museums and due to their age of existence, they all have a dilapidated infrastructure which needs immediate attention. The department will also focus on improving the ICT support, with the aim of improving on e-governance, which will reduce the expenditure on travelling, and expedite the procurement of services for the entire province.

5. Procurement

The department will continue building libraries throughout the Province, and specifically to the rural and most disadvantaged communities;

- Upgrades and addition to the modular libraries, with a special emphasis in providing water and sanitation;
- Renovation of Provincial Aided Museum institutions; and

The department will also focus on the archives services digitization programme, with the aim of:

- Revitalisation, restore and repatriate the Eastern Cape records from the South African Archives;
- Provision of space for semi-active records of the Eastern Provincial Administration;
- Rescue records from deterioration, due to in-availability of archives buildings throughout the Eastern Cape; and
- Conservation and Preservation of our heritage and make it accessible to the public when required.

The department is also providing services and awarding tenders to the prospective bidders to provide services for the following events:

- Provincial arts and culture awards;
- Commemoration of institutionalized days;
- Isingqi Sethu Wild Coast Festival;
- Sport Tourism Projects and Sports Awards;
- Sports Tournaments in Districts;
- Library Week and Book Fair; and
- Promotion of traditional music and awarding the icons of the music genre.

Table 2 above provides the summary of the department's funding from 2015/16 to 2021/22. Equitable share increased from R602.562 million in 2015/16 to a revised estimate of R743.430 million in 2018/19. In 2019/20, equitable share has decreased by 0.3 per cent, due to the reduced provincial allocation as informed by outward migration and data updates (decrease in school enrolment, age-cohort and mid-year population estimates) in respect of the revisions to the Provincial Equitable Share (PES) formula.

In the same period, conditional grants have increased from R206.552 million in 2015/16 to a revised estimate of R230.047 million in 2018/19. These grants increase by 5.1 per cent to R241.882 million in 2019/20. The increase is meant for increasing personnel in modular libraries and the construction of further new libraries in rural towns of the province, where none existed before.

Table 3 above shows the revenue the department collects through its own sources. The department collects revenue through the sale of goods and services in the form of commissions, tender documents and rentals of camp sites. The department is planning to increase its revenue collection in the 2019/20 MTEF through the leasing of the in-house canteen to a Small, Medium and Micro-sized Enterprise (SMME) to provide food services to members of staff.

7. Payment summary

7.1 Key assumptions

The following assumptions were taken into consideration when the budget was crafted:

Over the 2019 MTEF period, the department will continue to operate in a constrained fiscal environment due to the continued weakness of the economy. Staff salaries over the MTEF period will be guided by the percentage increases agreed upon in the Public Service Commission Bargaining Council (PSCBC). The department is in the process of having a new organisational structure approved by the beginning of the 2019 MTEF. The structure will be implemented on a phase-in approach depending on the fiscal position of the department where there are cost implications.

Table 4 and 5 above shows the department's summary of payments and estimates by programme. The department's expenditure increased from R809.114 million in 2015/16 to a revised estimate of R973.477 million in 2018/19, due to the increased funding for the digitisation of archives and the renovation of provincial museums. The department has increased the support to the Buffalo City Metropolitan and Nelson Mandela Metropolitan Municipalities for the purposes of subsidising the running costs of libraries. The total budget for the department increases very minimally by 1 per cent to R983.069 million in 2019/20.

Compensation of employees increased from R426.719 million in 2015/16 to a revised estimate of R517.495 million in 2018/20. This increase is due to the improvement in conditions of service of personnel as agreed upon in the PSCBC. In 2019/20, compensation of employees increase by 7.4 per cent to R555.753 million, catering for both the improvement in conditions of service and pay progression. It will also cater for the staffing of modular libraries through the EPWP Programme.

Goods and services increased from R213.664 million in 2015/16 to a revised estimate of R242.926 million in 2018/19. The increase was mainly driven by heritage projects, which include the repatriation of immortal remains of the anti-apartheid struggle who died in exile. Another reason for the increase is the provision of library books to newly opened libraries across the province. Expenditure on goods and services decreases by 11.3 per cent to R215.553 million in 2019/20, due to the reprioritisation of budget.

Transfers and subsidies increased from R110.404 million in 2015/16 to a revised estimate of R156.175 million in 2018/19. This was influenced by the increased funding to local municipalities to subsidise the functioning of libraries and also funding for the National Arts Festival. In 2019/20, the transfers will decrease by 6.3 per cent to R146.318 million.

Payments for capital assets increased from R56.316 million in 2015/16 to a revised estimate of R56.862 million in 2018/19. The increase was influenced by the higher number of libraries under construction, which include Kareedouw and Libode libraries and an additional four museums, which were under renovations. These included Albany, Amathole, Great Fish and Queenstown Frontier museums. In 2019/20, expenditure will increase by 15.1 per cent to R65.445 million to cover the costs of museums that are being renovated.

Table 7 above shows the summary of payments and estimates on infrastructure by the department. Infrastructure payments decreased from R48.426 million in 2015/16 to a revised estimate of R45.826 million in 2018/19, due to the completion of refurbishment of Amathole, Great Fish River and Komani museums. Construction of new libraries in Alice and Nyara is still in progress. Infrastructure payments increase by 31.9 per cent to R60.447 million in 2019/20 and increase further over the 2019 MTEF period. The increase is due to upgrades to modular libraries in rural areas of the province.

7.5.2 Maintenance

Infrastructure maintenance increased from R202 thousand in 2017/18 to a revised estimate of R1.862 million in 2018/19. In 2019/20 the maintenance increased by 61.1 per cent.

7.5.3 Non Infrastructure

The non infrastructure payments increased from R1.999 million in 2015/16 to a revised estimate of R2.032 million in 2018/19. In 2019/20 non infrastructure decreased by 0.5 per cent.

Table 8 and 9 above shows the summary of payments and estimates of department's conditional grants. Allocations have grown from R215.601 million in 2015/16 to a revised estimate of R243.016 million in 2018/19. The increasing trend was mainly influenced by the employment of librarians in the newly built libraries in the province and the continued construction of new library structures.

Conditional grants are decreasing by 0.5 per cent to R241.882 million in 2019/20 financial year. The decrease is minimal and is mainly driven by the general weakness in the fiscal environment in the country.

Conditional grants expenditure on compensation of employees increased from R45.792 million in 2015/16 to a revised estimate of R69.310 million in 2018/19. The increase was meant to cover staffing for newly built libraries. In 2019/20, budget for compensation of employees under the grants increases by 3.1 per cent to R71.434 million to accommodate improvements in conditions of service for staff.

Goods and services decreased from R93.104 million in 2015/16 to a revised estimate of R80.503 million in 2018/19, due to the delay of the Mass Participation Programme (MPP) Grant for the 1st tranche by the National Department of Sports and Recreation (SRSA), due to late compliance document submission. In 2019/20, Goods and services decreases by 11 per cent to R71.649 million due to reprioritisation of funds towards capital payments for the construction of new libraries in rural towns of the province where they never existed.

Transfers and subsidies increased from R30.557 million in 2015/16 to a revised estimate of R62.214 million in 2018/19, due to the increase in the transfers for library subsidies to municipalities as a result of the increasing number of libraries. In 2019/20, the decrease by 13.2 per cent to R 53.973 million, due to municipalities that had been paid earlier than projected, which resulted in an increased revised estimate.

Payments for Capital Assets decreased from R44.526 million in 2015/16 to a revised estimate of R30.989 million in 2018/19, due to the completion of Butterworth swimming Pool and Ngqeleni library. The 44.7 per cent increase to R44.826 million in 2019/20, is due to infrastructure investments for library buildings in disadvantaged areas in the province.

7.8 Transfers

Table 10 above shows the summary of transfers to public entities by entity. The department only has one entity, namely the ECPACC which is responsible for fostering developments in Arts and Culture. The total allocation for ECPACC decreased slightly from R13.591 million in 2015/16 to a revised estimate of R12.300 million in 2018/19. The decrease is due to a once-off project that the entity was funded for in 2015/16. Funding for the entity increases by 3.4 per cent in 2019/20 to R12.720 million to cover improvement in conditions of service for members of staff.

7.8.2 Transfers to other entities

Table 11 above shows the transfers to other entities increases from R37.205 million in 2015/16 financial year to a revised estimate of R56.049 million in 2018/19 financial year. The increase was mainly driven by increased allocations to the National Arts Festival to enhance the economic benefits of the festival to the province of the Eastern Cape. Transfers to other entities will decrease by 5.7 per cent to R52.847 million in 2019/20, due to the decreased funding to other entities.

7.8.3 Transfers to local government by category

Table 12: Summary of transfers to local government by category

Table 12 above shows transfers to local government. Expenditure on transfers to local government by grant category increased from R54.299 million in 2015/16 to a revised estimate of R82.888 million in 2018/19. The increase was due to the increase in library subsidies as a result of increasing number of libraries built in Eastern Cape municipalities. These include modular libraries. The decrease in 2019/20, of 10.8 per cent to R73.908 million due to 2018/19 transfers that were paid before the date in which they were projected, thereby artificially inflating the revised estimate figures.

7.8.4 Transfers to local government by grant name

None.

8. Programme description

8.1 Programme 1: Administration

Objectives: To conduct the overall management and administrative support of the department.

The programme consists of two sub-programmes.

- **Office of the MEC:** Provide administrative, client liaison and support service to the members of the Executive Council.
- **Corporate Services:** Rendering of an internal and external communication and marketing service, manage the overall administration of the Department which includes financial management, human resource management and development, registry, messenger services, legal administration and transport services.

Table 13 and 14 above shows the summary of departmental payments and estimates by economic classification for programme 1 – Administration for the 2019 MTEF period. Total expenditure increased from R257.760 million in 2015/16 financial year to a revised estimate of R299.881 million in 2018/19 financial year due to the annual revision of salary scales for employees and also the improvement of Information and Communication Technology (ICT) infrastructure in the department.

The programmes budget increases by 8.7 per cent in 2019/20 to R326.022 million and continues to increase over the 2019 MTEF period. Increments in this programme are budgeted to cover operational efficiency through information technology.

Compensation of employees increased from R200.502 million in 2015/16 to a revised estimate of R232.272 million in 2018/19 due to the improvement in conditions of service for personnel. In 2019/20, the increase of 7.4 per cent to R249.467 million is mainly driven by salary increments for administration staff both in head office and districts offices.

Goods and services increased from R46.280 million in 2015/16 to a revised estimate of R59.361 million in 2018/19, due to the replacement of the outdated and decaying Information and Communication Technology infrastructure and equipment. In 2019/20 the increase of 13.8 per cent to R67.571 million is meant to accommodate operational efficiencies in information and systems management.

Transfers and subsidies increased from R3.039 million in 2015/16 to a revised estimate of R3.692 million in 2018/19, due to the increase in the amounts of leave gratuities paid to staff who leave the department. In 2019/20 an increase of 17.4 per cent to R4.335 million is due to projected increase in the number of officials who will retire as shown through an age analysis, which shows the departments officials stages of retirement.

Payments for capital assets decreased from R7.914 million in 2015/16 to a revised estimate of R4.537 million in 2018/19 due to reduction in the number of leased vehicles as some line function officials who travel long distances were provided with subsidised vehicles. Payments for capital assets will increase by 2.5 per cent to R4.649 million in 2019/20 due to projected procurement of office furniture and equipment for the establishment of the eight district.

8.2 Programme 2: Cultural Affairs

Table 16 and Table 17 above shows the summary of departmental payments and estimates by economic classification for programme 2 – Cultural Affairs for the 2019 MTEF period.

Cultural Affairs has grown from R170.749 million in 2015/16 to a revised estimate of R228.422 million in 2018/19, due to the renovations of the provincial museums. The allocation decrease in 2019/20 by 2.4 per cent to R222.934 million, due to the projected completion of museum renovations. i.e. Amathole, Great Fish and Albany museums.

Compensation of employees increased from R106.158 million in 2015/16 to a revised estimate of R128.121 million in 2018/19. The increase is mainly attributable to improvements in conditions of service for personnel. An increase of 6.7 per cent to R136.661 million in 2019/20 is also mainly attributed to improvement in conditions of service.

Goods and services increased from R28.302 million in 2015/16 to a revised estimate of R39.152 million in 2018/19 financial year, due to increased heritage projects especially in the area of repatriation of immortal remains of fallen heroes during the apartheid struggle. In 2019/20, goods and services decreases by 28.4 per cent to R28.042 million, due to the reduced provincial allocation for equitable share as a result of negative growth in population .

Expenditure on transfers and subsidies increased from R35.433 million in 2015/16 to a revised estimate of R48.752 million in 2018/19. This is due to the increased funding to Arts and Culture institutions for arts developmental programmes like the Arts and Culture Awards. Transfers and subsidies decrease by 4.0 per cent to R46.785 million in 2019/20 due to the once-off payments in 2018/19 relating to the national arts festival.

Payment for capital assets increased from R856 thousand in 2015/16 financial year to a revised estimate of R12.397 million in 2018/19 due to the refurbishment of museums, which include Amathole, Great Fish River, Albany and Komani. Capital spending will decrease by 7.7 per cent to R11.446 million in 2019/20 due to completion of museum renovation projects and will grow over the 2019 MTEF since the province has 16 museums which all need to be refurbished over the MTEF period.

Tables 19 and 20 above shows the summary of departmental payments and estimates by economic classification for Programme: P3 – Library and Archives Services for the 2019 MTEF period.

The total budget for the programme increased from R220.817 million in 2015/16 to a revised estimate of R260.726 million in 2018/19 financial year. The increase was mainly driven by the building and the staffing of new libraries. The budget for this programme decreases slightly by 1.3 per cent in 2019/20 financial year to R257.268 million and continues to grow over the 2019 MTEF.

Compensation of employees increased from R70.125 million in 2015/16 to a revised estimate of R92.748 million in 2018/19. The increase was due to the opening of new libraries and they had to be staffed. An increase of 8 per cent in 2019/20 to R100.184 million is due to improvements in conditions of service for employees and enhanced staffing of modular libraries.

Goods and services decreased from R48.683 million in 2015/16 to a revised estimate of R44.955 million in 2018/19 financial year, due to the reprioritisation of expenditure towards library subsidies as a result of the increased number of libraries. In 2019/20, goods and services decreases by 18.4 per cent to R36.661 million due to the need for reprioritisation of funds towards construction of new libraries and provision of more staffing to modular libraries.

Transfers and subsidies increased from R56.201 million in 2015/16 financial year to a revised estimate of R84.616 million in 2018/19 financial year. The increase was due to the increased library subsidies to municipalities. These transfers will decrease by 10.3 per cent to R75.908 million in 2019/20 financial year due to the early transfers in 2018/19 than projected.

Payments for capital assets decreased from R44.243 million in 2015/16 to a revised estimate of R38.407 million in 2018/19 financial year, due to the department decision of withholding the construction of modular libraries and replacing them with unused classrooms in schools. In 2019/20 financial year, the budget for capital assets increases by 15.9 per cent to R44.515 million, since most projects are at the construction stage and require more funds. These include Alice, Cookhouse and Libode libraries.

Table 22 and 23 above shows the summary of departmental payments and estimates for programme: P4 – Sports and Recreation for the 2018 MTEF period.

The total expenditure for Sport and Recreation increased from R159.788 million in 2015/16 to a revised estimate of R184.448 million in 2018/19 due to the expansion of the Mass Participation Grant to cover a greater number of both youth and adult participants. In 2019/20 the budget decreases slightly by 4.1 per cent to R176.845 million. The decrease is due to the decreased provincial allocation as informed by the decline in population size.

Compensation of employees increased moderately from R49.934 million in 2015/16 to a revised estimate of R64.354 million in 2018/19 financial year, due to improvements in conditions of service for staff. In 2019/20, the budget increases by 7.9 per cent to R69.441 million. This is mainly to cover the ICS adjustments to staff salaries.

Goods and services increased from an expenditure of R90.399 million in 2015/16 to a revised estimate of R99.458 million in 2018/19 financial year. The increase was due to the number of participating hubs for sport participation. In 2019/20, the budget decreases by 16.3 per cent to R83.279 million due to the decreased provincial allocation.

Transfers and subsidies increased from R15.731 million in 2015/16 to a revised estimate of R19.115 million in 2018/19 financial year, due to the increased funding for the Eastern Cape Academy of Sport (ECAS), with a view to enhance excellency and produce athletes who can compete at international level. Transfers and subsidies increase by 0.9 per cent to R19.290 million in 2019/20 financial year, due to alignment of transfers with the grant framework.

Payment for capital assets decreased from R3.303 million in 2015/16 to a revised estimate of R1.521 million in 2018/19, due to the completion of construction of the Butterworth Swimming Pool. Capital spending will increase by 217.9 per cent to R4.835 million in 2019/20, due to the need to put a water supply system (borehole) in the Butterworth Swimming Pool. Capital spending will decline in the outer two years due to the completion of bore hole in Butterworth.

1. Personnel numbers includes all filled posts together with those posts additional to the approved establishment

Table 25 above shows the projected increase in Compensation of employees is contributed by the adjustment in conditions of service of staff as anticipated agreements in the Public Service Co-ordinating Bargaining Council (PSCBC) are implemented.

The increase of posts caused by new mandates such as the establishment of a new district i.e. Buffalo City Metropolitan, the separation of Corporate service and Finance, based on Department of Public Service and Administration generic structures and the National Treasury Generic Model (CFO Model), Language Act, Archives Act; the elevation of Communications, Risk and Security; IT; total restructuring of Museum structures, establishment of the Eastern Cape Provincial Geographical Names Committee (ECPGNC) and Eastern Cape Provincial Heritage Resources Agency (ECPHRA).

Table 26 above shows the department's expenditure on training increased from R8.348 million in 2015/16 to a revised estimate of R9.443 million in 2018/19 financial year. The increase was meant to cover inflationary effects. Expenditure on training will increase by 6.1 per cent in 2019/20 to R10.022 million, due to the need to train the new recruits on library services. Some of the training interventions of the department are done and paid for by the Culture, Arts, Tourism, Hospitality and Sport Sector Education and Training Authority (CATHSSETA) and Public Administration Leadership and Management Academy (PALAMA). These are institutions which specialise on training for the public service.

Programme 1: Administration

The Department strives to create an environment of diversity in the workplace and take ownership of the obligations of the Employment Equity Act, 55 of 1998. The ultimate goal is to achieve an integrated diverse workforce where gender and disability equity are placed at the paramount of the transformation process. Job access programme for the recruitment, employment and retention of people with disabilities within the Department. Continue with the gender equality and Women Empowerment programme and additionally to it, is the youth in general. General assistants that have been identified and put through a learnership programme have yield good results, where 2 per cent of them have appointed to better level of occupation.

Programme 2: Cultural Affairs

South Africa's arts and culture are as varied as one might expect from such a diverse nation. The blend of local cultures and diverse influences make for a melting pot of creativity that never disappoints. As custodians of South Africa's diverse cultural, artistic and linguistic heritage, the Directorate of Arts and Culture aims to develop and preserve Eastern Cape culture to ensure social cohesion and nation-building.

Eastern Cape's cultural and creative industry is a good revenue generator, and still has great potential to produce more and contribute to job creation. The Cultural Industries Growth Strategy capitalises on the economic potential of the craft, music, film, publishing and design industries. The Directorate of Arts and Culture provides support in the form of financing, management capacity, advocacy and networking, and by developing public-private partnerships and other initiatives that use culture as a tool for urban regeneration. To accomplish the mandate of the Directorate and of the Department, 24 officials have been trained on leadership and mentoring programmes.

Programme 3: Library and Archives Services

Library staff skills were developed through training programmes and for better, some have been sent to attend Library and Information Association of South Africa (LIASA) Conference and SITA Library Management System (SLIMS). To further good efficient accountable government practices which are the cornerstones of our democracy, records management audits were conducted, and records management staff from eight Districts in the Province were trained in current records management practices. Due to shortage of skills nationally, the Archive hosted a workshop on electronic records management to share knowledge with archivists within the province. The Library hosted yearly Library Week in the second week of the first quarter to provide opportunities for the various communities, schools, universities, and other stakeholder groupings to see the Library and Archives from “behind the scenes”; touring the strong rooms and essential back-room services such as the preservation of Library and Archival records.

Programme 4: Sport and Recreation

The Department aims to maximize access, development and excellence at all levels of participation in sport and recreation to improve social cohesion, nation-building and the quality of life of all Eastern Cape the Sport and Recreation's goals include:

- Leading the process of sport transformation, asset development and equity in sport and recreation
- Ensuring that school sport is offered in all schools in the District and Eastern Cape in general.
- Ensuring that institutional mechanisms are in place that provide equal access at all levels of participation in sport and recreation

In achieving these goals the directorate has skilled all its stakeholders and federation's by conducting workshops, coaching and mentoring. Last financial year has been an eye-opener, where a number of youth across length and breadth of the province have been actively involved in Sport and Recreation programmes.

Accounting Officer	Acting Head of Department

1. Overview

1.1 Vision

A crime free and safe Eastern Cape.

1.2 Mission

To build safer communities through civilian oversight of the police and community participation.

1.3 Core functions and responsibilities

- To monitor Police conduct;
- To oversee the effectiveness and efficiency of the police service, including receiving reports on the police service;
- To promote good relations between the Police and the community;
- To assess the effectiveness of visible policing; and
- To liaise with the Cabinet Minister responsible for policing with respect to crime and policing in the province.

1.4 Main Services

- The Civilian Secretariat for Police Services Act 2 of 2011, requires the department to enforce regular monitoring and assessment of the South African Police Service (SAPS) in terms of its policies and effectiveness for their systems;
- This legislation requires the department to provide an early warning service for problem areas to be identified for early intervention;
- The department also monitors and evaluates the compliance with the Domestic Violence Act 116 of 1988;
- Furthermore, the department renders research services to inform policy formulation and social crime prevention programmes;
- Promotes safety and security in the province through monitoring and evaluation of police performance and conduct;

- Mobilises the safety and security stakeholders towards advancing the implementation of Provincial Safety Strategy and ensures an integrated approach to social crime prevention programs focusing on substance abuse, victim empowerment, school safety, and gender based violence with a specific focus on women and children;
- The SAPS implementation of recommendations from the Independent Police Directorate is also subject to the monitoring by the department; and
- Furthermore, the department is required to assess and monitor SAPS ability to receive and deal with complaints against its members.

1.5 Demands for and expected changes in the services

The department is cognisant of the constrained fiscal environment in which it operates in and therefore, there is an increasingly need for programmes to be evidence based and responsive. Currently, the Policy and Research function that is responsible for conducting surveys and research into matters of community safety is not embedded in the work of district offices. There is an urgent need to capacitate research capacity to be fully effective in informing policy formulation and crime prevention, particularly social crime prevention. There is also a drive for the department to be recognized as a knowledge driven organisation where the knowledge and information will enable greater flexibility, agility and responsiveness to crime reduction related interventions.

Mobilisation of role-players, stakeholders and partners outside the department through engagements on crime prevention and other policing matters is critical in responding to emerging crime patterns i.e. school gangsterism, cannibalism, minor forced marriages (ukuthwala) and cults hiding under the pretext of religious belief.

Furthermore, there is a greater demand to strengthen the implementation of the department's marketing strategy in order to put the organisation in a good stead in terms of its mandate to be better known by the general public.

1.6 The Acts, rules and regulations

The department derives its mandate from the Constitution of the Republic of South Africa, 1996. In carrying out its core function and responsibilities the department is governed by the following acts, rules and regulations: Public Service Act, 1994, South African Police Service Act, 1995, National Crime Prevention Strategy, 1996, South African Police Amendment Act, 1998, White Paper on Safety and Security, 1998, Public Finance Management Act, 1999, Provincial Crime Prevention Strategy, Provincial Growth & Development Plan, 2002 and Independent Police Investigative Directorate Act, 2011.

1.7 Budget decisions

The 2019 MTEF budget allocation is consistent with the national and provincial priorities in ensuring that the department continues to conduct oversight over South African Police Service as well as ensuring that SAPS comply with the provisions and requirements of the Domestic Violence Act, research into policing needs and priorities and mobilising communities against crime. Aligning departmental budgets to achieve government's prescribed outcomes.

1.8 Aligning departmental budgets to achieve government's prescribed outcomes

The department is mandated to focus its efforts on ensuring that SAPS adheres to the outputs and activities outlined in terms of outcome 3 which states that "**All people in South Africa are and feel safe**".

In pursuance of the above, the department exercises oversight of Eastern Cape SAPS and promotes community-police relations in a bid to improve safety, security and service delivery. This is achieved through the following:

- Intensifying civilian oversight over policing;
- Intensifying safety initiatives and social mobilization in the fight against crime;
- Developing research capacity in order to inform policy formulation and crime prevention, particularly social crime prevention and creating capacity to conduct safety audits on those vulnerable sectors of the community;
- Implementation of the Provincial Safety Strategy with an emphasis on social crime prevention activities; and
- Monitoring and evaluation of the Eastern Cape SAPS service delivery improvement programme.

2. Review of the current financial year (2018/19)

2.1 Key achievements

Monitoring mechanisms were implemented to ensure effectiveness of policing within the Province. Through engagements with the Cofimvaba Cluster Community Police Board on their functionality, the department has observed an improvement in SAPS Senior Management participation on Community Police Forums and the Cluster Community Police Board. The department continued to implement the Programme of Action (POA) to support the Provincial Safety Strategy focusing on substance abuse; school safety; community mobilization; victim empowerment; oversight of SAPS and anti-gang initiatives. The Institutionalization of the Expanded Public Works Programme Safety Patroller Project through roadshows within districts was done at Chris Hani and Joe Gqabi districts. The functionality of Community Safety Forums was assessed at King Sabata Dalindyebo and O R Tambo districts.

In ensuring sound financial practices, the department has submitted its annual financial statements to Auditor General and Provincial Treasury timeously. Continuous implementation of financial management systems to ensure compliance with applicable legislative framework was prioritised.

The department was able to fulfil its mandate through engaging the SAPS and sister departments of the security cluster in order to provide interventions to improve service delivery in the province. Active participation and compliance with cluster work allowed the department to participate in the implementation of the Provincial Programme of Action. The work of the Provincial Safety Strategy and the Anti-Gang working group have been consistent with positive outcomes to contribute to the National Development Plan outlook for citizens in the Eastern Cape to feel safe. The department has conducted oversight over the implementation of Rural Safety and the Anti-Rape Strategies. The department has continuously engaged sister departments on service delivery protests to respond to early warning signs through intelligence reports. The appointment of Community Police Forum members as safety patrollers through the Expanded Public Works Programme to enhance school safety is also a key achievement for the department.

During the past two years the department conducted research/ evaluation on domestic violence, Police misconduct, Police resource allocation, School violence/ gangsterism, Demilitarisation of the SAPS-Visible Police (VISPOL) and The Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ).

In addition, the department has set up a gender based violence forum in Port Elizabeth and developed a knowledge management strategy and a resource centre implementation plan.

2.2 Key challenges

Civilian oversight

Funding the Civilian Oversight function continues to be the challenge, although it is a mechanism that is meant to enhance democratic policing through the participation of stakeholders outside of the police service in the ongoing monitoring, investigation and review of police in terms of their performance, policies and conduct.

There are new policy imperatives set by the new white papers on policing and safety and security and the department does not have sufficient resources to implement these. Furthermore, the services provided by the department are not known by the greater public due to limited marketing drive.

Office accommodation and Information and Communication Technology (ICT)

The location and the size of the department's offices at head office as well as non-existence of fixed safety and security measures at all buildings poses a major risk, thus resulting to non-compliance with Occupational Health & Safety Act and other safety and security standards. The ICT infrastructure that is beyond its lifespan continues to be a challenge. Furthermore, ICT Governance Framework could not be fully implemented particularly the infrastructure for disaster recovery solutions, automated system to enhance business processes for document management and improvement of service delivery.

3. Outlook for the coming financial year (2019/20)

The department will continue to implement Civilian Secretariat for Police Services Act 2 of 2011 despite limited resources. The provincial government has identified 16 anti-poverty sites as focus areas. On the other hand, South African Police Service has prioritized 40 high contact crime stations which include presidential priority stations, priority stations and contact crime stations in the Eastern Cape. Specific focus will be placed on these stations in the implementation of sector policing, the establishment of proactive partnerships, increasing police visibility, crime prevention actions and improving service delivery.

The department will ensure the integration of its evidence based oversight trajectory to refine policing needs and priorities in the province. Support will be provided to CPF's, street and village committees as crime can be dealt appropriately through partnership with those critical strategic partners.

4. Reprioritisation

The department reprioritised funds from goods and services and payment for capital assets to fund the budget pressures in compensation of employees. The reprioritisation will be done continuously to respond to the emerging crime patterns due to the nature of the business of the department that has to deal with crime which is a moving target.

5. Procurement

In support of Local Economic Development, the department is committed in spending 50 per cent of goods and services budget by procuring from local suppliers. Furthermore, the contract for travel management services, events management, communication services, stationery, promotional material, cleaning services and printing will be maintained through the 2019 MTEF.

Table 2 above gives a summary of departmental receipts from 2015/16 to 2021/22. The departmental receipts increased from R83.280 million in 2015/16 to a revised estimate of R101.514 million in 2018/19. The increase is due to the funding allocated to Social Sector EPWP Incentive Grant for job creation as well as poverty alleviation. In 2019/20, the departmental receipts are expected to increase by 3.9 per cent when compared to 2018/19 revised estimates.

In 2019/20, own revenue is expected to decrease by 26.9 per cent when compared to 2018/19 revised estimate. The department is not a revenue generating department, the source of receipts is commission from insurance and garnishee.

6.3 Official development assistance (donor funding)

None.

7. Payment summary

7.1 Key assumptions

The following assumptions were taken into consideration when the budget was formulated:

- The projected salary increases and Consumer Price Index (CPI) as contained in the Provincial Treasury's budget guidelines.
- Austerity measures as issued by National Treasury Instruction Note 2, 3 and 4 of 2017/18 and Provincial Treasury Instruction Note 4 of 2017/18 will be adhered to over the 2019 MTEF period.
- Adequate provision for pay progression and incentives as well as adequate funding for personnel.
- Adequate provision for contractual obligations.

Table 4 and 5 above provide a summary of payments and estimates by programme and economic classification. The department's allocation has increased from R83.280 million in 2015/16 to a revised estimate of R101.514 million in 2018/19. The increase is attributable to the increase in funding for compensation of employees as a result of Improvement in Condition of Services (ICS). In 2019/20, the overall budget is projected to grow by 3.9 per cent from 101.490 million to R105.499 million.

Compensation of employees increased from R59.732 million in 2015/16 to the revised estimate of R71.042 million in 2018/19. In 2019/20, the budget increases by 11.5 per cent as a result of provision for ICS and reprioritisation done by the department to fund cost pressure in compensation of employees.

Goods and services increased from R20.892 million in 2015/16 to the revised estimate of R28.399 million in 2018/19. In 2019/20, the budget is projected to decrease by 14.0 per cent as a result of reprioritisation done by the department to fund the budget pressures in compensation of employees.

Transfers and subsidies decreased from R325 thousand in 2015/16 to the revised estimates of R254 thousand in 2018/19. In 2019/20 there is no provision made for transfers since there are no employees due to retire.

Payments for capital assets decreased from R2.254 million in 2015/16 to the revised estimates of R1.819 million in 2018/19. In 2019/20, the budget is projected to increase by 1.6 per cent due to restoration of baseline.

8. Programme description

8.1 Programme 1: Administration

Objectives: To promote good governance and administrative support to the department. It consists of four sub-programmes, namely:

- **Office of the MEC** assists the MEC to fulfil the legislative, political and administrative mandate of the Department;
- **Office of the HOD** ensures good governance in the department;
- **Financial Management** provides effective and efficient financial management and supply chain management; and

Table 9 and 10 above provide a summary of departmental payments and estimates by sub-programme and economic classification. The overall budget for the programme increased from R41.068 million in 2015/16 to the revised estimates of R51.303 million in 2018/19. In 2019/20, the budget is estimated to increase by 6.3 per cent due to provision made for ICS and provision made for Microsoft licences.

Compensation of employees increased from R33.846 million in 2015/16 to the revised estimates of R38.718 million in 2018/19. In 2019/20, the budget increases by 7.6 per cent as a result of the provision for ICS.

Goods and services increased from R6.856 million in 2015/16 to the revised estimates of R12.339 million in 2018/19. In 2019/20, the budget increases by 3.0 per cent as a result of provision made for relocation to the new building and for Microsoft Licences.

Payments for capital assets increase from R53 thousands in 2015/16 to the revised estimates of R140 thousand in 2018/19. In 2019/20, the budget is projected to increase by 42.9 per cent to cater for fleet rental.

8.2 Programme 2: Provincial Secretariat for Police Service

Objectives: To oversee the effectiveness and efficiency of policing. It is divided into five sub-programmes, namely:

- **Programme Support** ensures overall management and support of the program;
- **Policy and Research** conducts surveys and research into safety and security matters;
- **Monitoring and Evaluation** provision of monitoring and evaluation service to police performance and conduct;
- **Safety Promotion** builds community participation in community safety; and
- **Community Police Relations** facilitate the implementation of the Provincial Safety Strategy.
