1. Overview

Core functions and responsibilities of the department

- Coordinate and facilitate rural development programmes that contribute to vibrant, equitable and sustainable rural communities;
- Provision of comprehensive post settlement support to land reform beneficiaries;
- Ensure food security for all by increasing agricultural production;
- Providing technical support for development of farmers and communities;
- Establishing markets in rural areas;
- Establish agricultural cooperatives throughout the value-chain;
- Development and implementation of the sector job creation plan;
- Promoting sustainable use and management of natural resources;
- To provide veterinary services which promote sustainable economic growth through export and import and ensure the health and welfare of people and animals in the Northern Cape;
- To ensure the competitive capacity of its clients, through the timely provision of progressive technologies and information with regard to crop production, animal production and resource utilisation; and
- To provide economic support to internal and external clients with regard to marketing, statistical information including financial feasibility and economic viability studies.

Vision

A transformed, vibrant agricultural sector for food security and sustainable rural development.

Mission

The department as a lead agent in the sector, will champion land and agrarian transformation, promote and facilitate increased production and provide expertise for improved livelihoods, sustainable rural development and food security for all.

Acts, Rules and Regulations

The Department of Agriculture, Land Reform and Rural Development is governed by and functions under several legislative mandates in addition to that governing service delivery in the public sector.

These include among others the following:

- Agricultural Development Fund Act, 1993 (Act No 175 of 1993)
- Agricultural Product Standards Act, 1990 (Act No 119 of 1990)
- Agricultural Research Act, 1990 (Act No 86 of 1990)
- Animal Diseases Amendment Act, 1991 (Act No 18 of 1984)
- Animal Identification Act, 2002 (Act No 6 of 2002)
- Animal Improvement Act, 1998 (Act No 62 of 1998)
- Codex Alimentarius of the World Health Organization (WHO) and Food and Agricultural Organization (FAO) (International Code on Food Safety)
- Communal Land Rights Act, 2004
- Conservation of Agricultural Resources Act, 1983 (Act No 43 of 1983)
- Disaster Management Act, 2002 (Act No 57 of 2002)
- Fencing Act, 1963 (Act No 31 of 1963)
- Fertilizers, Farm feeds, Agricultural Remedies and Stock Remedies Act, 1947 (Act No 36 of 1947)
- Genetically Modified Organisms Act, 1997 (Act No 15 of 1997)
- Proactive Land Acquisition Strategy (PLAS)
- Recapitalization and Development policy (RECAP)
- Guideline for commonage management
- Comprehensive Rural Development Program Framework
- Land Reform Act, 1997 (Act No 3 of 1997)
- Marketing of Agricultural Produce Act, 1996 (Act No 47 of 1996)
- Meat Safety Act, 2000 (Act No 40 of 2000)
- Northern Cape Land Administration Act, 2003
- Perishable Product Export Control Act, 1983 (Act No 9 of 1983)
- Plant Improvement Act, 1976 (Act No 53 of 1976)
- Public Finance Management Act (Act No 1 of 1999) as amended by Act No 27 of 1999
- South African Abattoir Corporation Act, 2005 Repeal (Act No 17 of 2005)
- Subdivision of Agricultural Land Act, 1970 (Act No 70 of 1970) (pending repeal)
- The International Animal Health Code of the World Organization for Animal Health (OIE Office International des Epizooties)
- The International Code for Laboratory Diagnostic Procedure for Animal Diseases of the World Organization for Animal Health
- The Sanitary and Phyto-Sanitary Agreement of the World Trade Organization (WTO)
- Veterinary and Para-Veterinary Professions Act, 1982 (Act No 19 of 1982)
- Water Act, 1998

1.1 Aligning departmental budgets to achieve government's prescribed outcomes

The guiding principle remains alignment with the National Development Plan 2030 through explicit linkages to the MTSF 2014-2019. While minimal changes can be expected, there has been a substantial change to some of the service delivery areas. In addition, the Agricultural Policy Action Plan (APAP) was a key document that guided the planning of services in the department and thus the policy trajectory remains largely unchanged.

The budget is linked to a number of key policies that apply to the sector. Efforts have been taken to ensure that the programmes of the department respond expressly to these policy priorities noting the constraints of the economic environment.

Further details on these policy matters may be found in the Annual Performance Plan 2019/20.

2. Review of the current financial year (2018/19)

Programme 2: Sustainable Resource Management

The programme continued to give engineering support to developmental projects including the areas affected by the 2011 floods. The biggest support was conditional grants projects throughout the province. The programme finalised the designs as well as the procurement processes for the Bulk water infrastructure in Onseepkans. Implementation started in the 3rd quarter and will go well into the 2019/20 financial year.

The province had been declared a drought disaster area and the allocation of R127 million was finalized in 2017/18 but for implementation in 2018/19 for drought relief (livestock feed). More than 3280 farmers were assisted with fodder over a period of 3 months. A further R35 million related to drought disaster was allocated to the department to implement projects to mitigate against future drought.

Six LandCare projects were implemented which focused on rehabilitating degraded rangelands, natural water sources and capacity building in Natural Resource Management.

Programme 3: Farmer Support and Development

The Fetsa Tlala Food Production Programme was successfully implemented with an increase of production to 703 hectares despite drought in the Province. Grain production was the main commodity produced especially maize, wheat and vegetables from the three districts; Frances Baard, Pixley Ka Seme and Namakwa. Farmers received production inputs in the form of wheat and maize seed, fertilizer and diesel and were also supported with machinery to increase and improve yield.

The Vineyard Development continued in the western region of the province in Namakwa and ZF Mgcawu. Taking advantage of the Orange River and conducive environment for vineyard production, the main commodities produced were wine grapes, table grapes and raisin grapes.

The provincial Female Entrepreneur Awards was celebrated at Warrenton, Magareng Local Municipality. All winners received prize monies which are invested back into their farming enterprises. The "*Best Subsistence Producer*" in the province was awarded the "*Best Producer in the Sector*" at the national Awards. World Food Day commemoration was held at Postmasburg on 16th October 2018.

Drought remained a challenge and livestock farmers in Namakwa District were badly affected. This resulted in many farmers withdrawing from farming due to high mortality rates experienced.

Programme 4: Veterinary Services

There has been general improvement in the health status of both pets and production animals in remote areas through the intervention of the Compulsory Community Service programmes. Surveillance of high-risk diseases as mandated by Department of Agriculture Forestry and Fishery (DAFF) was fully executed and no risk was found for transboundary diseases except reactors for contagious Bovine Pleuropneumonia.

The veterinary laboratory continued to receive more samples from neighbouring provinces giving a major strain available resources. Technical personnel received training in preparation for the 18 months SANAS surveillance audits to maintain the accreditation status.

No major incidents of illegal slaughtering were reported due to proactive inspections and awareness programmes. Independent meat inspection was fully implemented in all red meat abattoirs in the province while implementation at the poultry abattoirs is in progress in line with the Meat Inspection Scheme as approved by the Minister.

Programme 5: Research and Technology Development Services

A systems analysis was conducted on the current Northern Cape Agricultural Information System (NCAIS) to evaluate its functionality against similar systems in South Africa. This entailed a needs analysis, a SWOT analysis as well as a scope to upgrade the system to integrate the information with other systems.

No new incidences of Fall Army Worm (FAW) has been reported in any crops planted in the Province. Monitoring is on a continuous basis and we remain in contact with all the relevant stakeholders. In respect of the Oriental Fruitfly (Bactrocera invadens) in the table grape producing areas along the Orange River, a total area of $\pm 22~000$ ha of citrus, table-, wine- and dry grapes were placed under quarantine. Delimiting traps were deployed in an area covering $\pm 15~000$ ha. Subsequently, the quarantine measurements were lifted and table grape exports could proceed.

The monitoring of climate change is continuing at the Carnarvon Research Station. The Fodder Bank has delivered assistance to drought stricken farmers in the Namakwa district as well as farmers affected by severe veldt fires in Frances Baard District.

The aquaculture & fishery industries were supported through different initiatives with the main achievements being the experimental small scale fishery on Van der Kloof Dam, participation in the coastal audit on the southern portion of the coastline and one scientist completing a post graduate diploma on Aquaculture. Implementation of the Van der Kloof Trout Cage culture was delayed due to withdrawal of the pilot project implementer.

Programme 6: Agricultural Economics

The support provided to smallholder farmers to enable them to participate in the value chains of the commodities they produce was getting them registered for SA GAP and audited by the Perishable Products Export Control Board (PPECB). The raisin drying facilities of producers along the Lower Orange River in Eksteenskuil for example were audited and support provided for those aspects that were found to be lacking to ensure certification.

Economic reports and studies were compiled to give analysis of the performance of the sector and quarterly analyses on movements of inflation, employment and the gross domestic product and their impact on the Province's economy.

Programme 7: Rural Development Coordination

In the 2018/19 financial year, programme managed to support emerging farming on state land and coordinated support for land holding institution. Farmworkers and farm dwellers were assisted to access government services e.g. ID documents, birth certificates for children, voter registration, health packs, school uniforms and in some instances farm evictions were stopped. The department successfully implemented the bush control project funded through the EPWP incentive grant at Schmidsdrift.

3. Outlook for the coming financial year (2019/20)

Programme 2: Sustainable Resource Management

As mentioned above, the programme will be implementing the bulk water infrastructure worth R68 million at Onseepkans. This will dominate the programme's time in 2019/20. Engineering support will continue in all projects related to conditional grants. The drought in the Namakwa district is persisting and a new application will be made for further assistance.

LandCare will be implementing five projects focusing on Junior LandCare, conservation agriculture, protection and rehabilitation of wetlands and rehabilitation of degraded rangelands.

Programme 3: Farmer Support and Development

Food security, job creation and eradication of poverty remain the key priority in the sector. This will be achieved primarily through the conditional grants for improved infrastructure both on and off farm to produce optimally and increase production. Through the Fetsa Tlala Food production programme farmers will be provided with production inputs in the form of seed, fertilizer and diesel.

The current drought situation, increased food prices and low income on agricultural products make the environment challenging. Farmers will continually receive training to adapt to the changing climatic conditions and new technologies.

Support of mega projects remains priority for department for creation of jobs especially in rural communities. The department will continue to support and recognize contribution of women in the sector through Female Entrepreneur Awards and commemoration of World Food Day to promote food production at household level.

Programme 4: Veterinary Services

The focus this year will be on the prevention and control of zoonotic disease through awareness and vaccination campaigns culminating in events on World Rabies Day. In the wake of the recent Foot and Mouth Disease (FMD) outbreaks in the Free Zone of the country, the province will increase its vigilance at high-risk areas and augment DAFF initiated surveillance programmes.

Proactive illegal slaughtering surveillance through the profiling of meat handling establishment will continue as part of initiative to combat illegal slaughtering. The department will oversee the implementation of the Meat Inspection Scheme at Poultry abattoirs once the regulations are enacted.

The priority for the laboratory in addition to the maintenance of the SANAS accreditation will be to extend the scope of accreditation to include Brucella Ovis and Brucella melitensis. The major challenge is the diagnostic capacity to achieve these objectives. The laboratory also plans to expand research on Epizootic Ulcerative Syndrome (EUS), also known as Red Spot Disease (RSD) in the Vaal River system as well as the epidemiological study to establish the potential role of vectors in the transmission of African Swine Fever.

The benefit of having community service veterinarians in the province has resulted in improved clinical service. To ensure that communities benefit more from this service, the department plans to increase the number of outreach clinics in the rural areas targeting production animals.

Programme 5: Research and Technology Development Services

The programme will continue with the monitoring of climate change together with stocking density on animal performance and vegetation change in the Upper Karoo of the Northern Cape. The monitoring and sharing of information where positive outbreaks are recorded for pests not naturally occurring in the province (e.g. Fall Army Worm, Bactrocera invadens, Phytophagous) will also continue. The project footprint will be refined and updated and merging of the Northern Cape Agricultural Information System with SPICYS will be explored further.

Animal Production will focus on evaluation of beef cattle genotypes and the implementation of the Genome Resource Conservation Framework for the Tankwa Feral goats.

Programme 6: Agricultural Economics

Support to smallholder farmers will continue in terms of economic advice, training on financial management and marketing as well as export readiness through the SA GAP certification. Studies on macro-economic indicators and their influence on the sector will continue to be undertaken.

Programme 7: Rural Development Coordination

For the 2019/20 financial year, the programme intends to finalise the equity scheme challenges. Farmworkers and farm dwellers will be provided with training focusing on basic skills and first aid. We will continue to coordinate provision of government and basic municipal services for farmworkers and farm dwellers and lessen human rights abuses in farming areas. The Department will continue to coordinate activities of all delivery partners in the rural space. 800 youths will be trained in various skills pathways in the Province. Through the EPWP ± 4000 ha of Senegalia Mellifera (Black thorn) will be controlled in Schmidtsdrift.

4. Reprioritisation

The department has tried to reprioritise funds from non-core items to important service delivery components. There has been very limited movement of funds between goods and service and compensation of employees.

5. Procurement

Most of the department's procurement will be sourced from the Comprehensive Agricultural Support Programme Grant (CASP) and Illima / Letsema Conditional Grants funding, mostly for infrastructure related activities. The total procurement for infrastructure related projects under the CASP conditional grant amounts to R42.523 million, while the Illima / Letsema Grant amounts to R17.150 million in the 2019/20 financial year.

6. Receipts and financing

6.1. Summary of receipts

Table 2.1 provides a summary of total receipts of the department, which indicate two (2) sources of funding, namely, equitable share and conditional grants.

Table 2.1 : Summary of receipts

The 2019/20 financial year's overall budget of R538.960 million indicates a decline of 16.9 per cent when compared to the 2018/19 main appropriation. This is mainly as a result of the reduction in the allocation of CASP due to the conclusion of the Flood disaster funding. The equitable share allocation for the 2019/20 financial year constitutes 64 per cent of the total allocation of the department, and grows at an average of 6 per cent over the MTEF period.

The department continues to manage four (4) conditional grants with a total value of R194.284 million in the 2019/20 financial year:

- Comprehensive Agricultural Support Programme Grant;
- Ilima/Letsema Projects Grant;
- Land Care Programme Grant: Poverty Relief and Infrastructure Development; and
- Expanded Public Works Programme Incentive Grant.

CASP has an allocation of R119.458 million in the 2019/20 financial year and includes funding for the Extension Recovery Plan (ERP) of R26 million. The Land Care amounts to R8.166 million while the Illima/Letsema Projects Grant has an allocation of R64.169 million for the 2019/20 financial year. The CASP allocation to the province has been reduced due to the top slicing of the grant nationally to establish the blended financing model.

The department has identified some high impact value chain projects that will be funded through CASP and Illima/Letsema grants. These mega projects are geared to unlock the economic potential of the province and contribute to the Gross Domestic Product (GDP), and these include:

- Namakwa Irrigation Development;
- Vaalharts Revitalization Scheme;
- Rooibos Development;
- Vineyards Development Scheme; and
- Livestock Production and Development programme

Table 2.2 : Summary of departmental receipts collection

The department anticipates to collect revenue amounting to R2.818 million in the 2019/20 financial year, which is an increase of 11.6 per cent when compared to the R2.420 million in 2018/19. The revenue estimate grows from R2.818 million in 2019/20 to R3.134 million in the 2021/22 financial year.

Sales of goods and services other than capital assets is the major source of revenue for the department. This category comprises of fees from export permits, abattoir licensing and veterinary analytical services offered at the department's laboratories as well as incidental revenue from the sale of animals from research farms.

The collection of interest, dividends and rent on land is limited and is projected to remain relatively constant over the 2019 MTEF. Transactions in financial assets and liabilities include collections from recovery of previous year's expenditure and internal debts owed to the department.

The fluctuation over the seven-year period is largely driven by demand in services provided by the department as well as incidental revenue from the sale of animals, which is difficult to predict.

6.3. Donor Funding

The department does not receive any foreign aid assistance.

7. Payment Summary

7.1. Key Assumptions

- Inter-departmental co-funding for rural development projects.
- Inflation is projected to be at 5.4 per cent for 2019/20, 5.6 per cent for 2020/21 and 5.4 per cent for 2021/22.
- General salary adjustments will be approximately 1 per cent above the projected CPI.
- Shortfall on Improvement in Condition of Service is funded from the national fiscus.
- Recruitment and retention of certain expertise to assist the department to deliver critical services.
- Funding for disasters will be sourced through interventions at national level.

Expenditure trends for the period 2015/16 - 2018/19 showed average nominal growth of around 12.8 per cent. This is due to funding of the flood assistance scheme in 2017/18 and 2018/19 as well drought funding in 2018/19. The department was allocated R127 million for drought relief interventions (livestock feed procurement) and R35 million for drought mitigation projects in 2018/19. The total budget allocation of 2019/20 decline by R109.948 million or 16.3 per cent compared to 2018/19 financial year. The allocations increases to R574.960 million in 2020/21 and R609.888 million in 2021/22 at an average of 6 per cent.

Generally, all the programmes budget allocations grow consistently with an average of 5.3 per cent over the 2019 MTEF except for Farmer Support and Development, which shows a decline of 35.8 per cent in the 2019/20 financial year as a result of the conclusion of flood disaster funding and Rural Development programme which fluctuates due to the EPWP Incentive grant.

For the period 2015/16 to 2018/19 the average annual nominal growth of compensation of employees grew by 9.6 per cent while goods and services by 31.9 per cent. The increase in the goods and services expenditure, as stated earlier, is attributed to disaster funding of floods and drought.

Compensation of employees grows to R268.022 million in the 2019/20 financial year from R253.878 million in the 2018/19 financial year. This is a 5.6 per cent increase which makes provision for improvement in conditions of service. This growth is stable and consistent at 6.1 per cent over the 2019 MTEF. The allocation for salaries and related costs of employees in the department accounts for 48 per cent of the total allocation of the department in the 2019/20 financial year.

The allocation for goods and services decreases to R148.173 million in the 2019/20 financial year, which is 50 per cent decrease from R297.090 million in the 2018/19 financial year. This is mainly as a result of the reduced allocation of CASP due to the conclusion of the flood disaster and the top slicing of the grant nationally to establish the blended financing model.

The department intends transferring funds to various projects as well as Kalahari Kid Corporation. Details thereof are under section 7.6.

Table 2.4.1 : Summary of provincial infrastructure payments and estimates by category

1. Total provincial infrastructure is the sum of "Capital" plus "Recurrent maintenance". This includes non infrastructure items.

Funding for infrastructure projects is mainly from conditional grants allocations with the exception of some maintenance work carried out at research stations funded from equitable share. The two conditional grants (CASP and Ilima/Letsema) continue to be the basis of the department's infrastructure spending estimates for the 2019 MTEF. The infrastructure budget decreases by 58 per cent to R60.190 million in 2019/20 financial year when compared to R142.873 million in the 2018/19 financial year. This significant reduction in 2019/20 relates to Flood Assistance that concludes in 2018/19. It should be noted that an amount of R124.9 million was available in 2018/19 for infrastructure development from the flood disaster allocation.

7.5. Departmental Public Private Partnership (PPP) projects

The department does not have any implemented or proposed PPP projects.

7.6. Transfers

7.6.1. Transfers to public entities

Table 2.6 below shows the total amount of transfers to public entities under the control of the department.

		Outcome		Main appropriation	Medium-term estimates

Table 2.6 : Summary of departmental transfers to public entities

A 3-year strategy was tabled to the portfolio committee in 2017 to ensure long-term sustainability of the entity. The department has budgeted an amount of R3.350 million for both operational expenses and recapitalisation in 2019/20 financial year as transfer payments to Kalahari Kid Corporation, which has the following main objectives:

- Management of the production farms;
- Marketing of live animals and animal products processing through the abattoir and selling of products; and

• Marketing of animals from the cooperatives as well as procurement of goods from emerging farmers.

7.6.2. Transfers to other entities

The department will be transferring funds to the various entities as listed in table 2.7 above. A total of R35 million will be transferred in the 2019/20 financial year for these projects to acquire capital assets and production inputs for themselves. These funds are sourced from the conditional grants, of which R7 million for Niewoudtsville Rooibos (Pty) Ltd being allocated from CASP and the remaining projects amounting to R28 million from the Ilima/Letsema grant.

7.6.3. Transfers to other local government

The department does not transfer to any municipality in the province.

8. Receipts and Retentions

Not applicable to the department.

9. Programme description

9.1. Description and objectives

Programme 1: Administration

The purpose of this programme is to manage and formulate policy directives and priorities, to ensure there is appropriate support service to all other programmes with regard to finance, personnel, information, communication and procurement.

This programme has an internal focus. Activities under this programme are directed by national and provincial policies, legislations and directives. The programme is structured into five (5) sub programmes and renders support functions to all other programmes. Planning, Performance Monitoring and Evaluation sub programme in the tabled Strategic Plan has been placed under senior management in order to align with the national budget and programme structure.

Sub programme core strategic objectives

Senior Management

• To provide strategic leadership and support throughout the organization.

Corporate Services

• To ensure effective human resource management.

Financial Management

• To provide sound financial and risk management support services to the department.

Communication Services

• To provide communication services and information technology support.

Table 2.10.1 provides a summary of payment by sub programme.

Table 2.12.1 : Summary of payments and estimation	nates by economic classification: Progr	amme 1: Administration

Compensation of employees grows with 4.4 per cent from R79.587 million in 2018/19 to R83.053 million in 2019/20. This growth makes provision for the recommended improvement in conditions of service and the filling of critical vacant posts in management.

The goods and services allocation grows by 3.3 per cent to R38.421 million in the 2019/20 financial year compared to R37.209 million in 2018/19 and further grows by 4.8 per cent on average over the MTEF.

Transfers and subsidies budget grows by 5.5 per cent to R1.807 million in 2019/20 financial year compared to R1.712 million in 2018/19 and continues to grow on average by 5.5 per cent over the MTEF. This primarily funds the bursary programme for external candidates in scarce skill areas that the department requires.

Payments for capital assets grows by 56.4 per cent to R3.524 million in 2019/20 compared to R2.253 million in the 2018/19 financial year. This makes provision for the correct classification of finance leases and the acquisition of an official vehicle.

9.2. Service Delivery Measures

The programme does not have service delivery measures.

Programme 2: Sustainable Resource Management

The purpose of the programme is to provide agricultural engineering support services to farmers in order to ensure sustainable development and management of agricultural resources.

Sub programme core strategic objectives

Engineering Services

• To provide engineering support (planning, development, monitoring and evaluation) with regards to irrigation technology, on-farm mechanisation, value adding, farm structures, resource conservation management, operation and maintenance of farm equipment, machinery, tools, and implements solutions

Land Care

• Plan and coordinate the implementation of LandCare projects

Land Use Management

• To promote sustainable use of natural resources through the implementation of regulated land use (Act 43 of 1983, Act 70 of 1970 and related legislation).

Disaster Risk Management

• To provide agricultural disaster risk management support services to clients/farmers by implementing programmes on disaster plans for droughts, veld fires and floods.

Table 2.10.2 provides a summary of payment by sub programme.

Table 2.10.2 : Summary of payments and estimates by sub-programme: Programme 2: Sustainable Resource Management

The budget of the programme increases by 5.2 per cent to R35.578 million in the 2019/20 financial year from R33.828 million in the 2018/19 financial year. The programme's budget includes the allocated funding for Land Care conditional grant amounting to R8.166 million in the 2019/20 financial year and further grows to R9.089 million in the 2021/22 financial year.

In 2018/19 an amount of R127 million was allocated to this programme for drought relief interventions while a further R35 million was allocated within the LandCare grant for drought mitigation interventions. Only R85.339 million was appropriated during the Adjusted Appropriation of 2018/19 while a further R42.339 was appropriated with a second adjustment bill which is not reflected in the figures above.

Table 2.12.2 : Summary of payments and estimates by economic classification: Programme 2: Sustainable Resource Management

The programme's budget on compensation of employees grows by 5.4 per cent to R22.145 million in 2019/20 financial year compared to R21.347 million in the 2018/19 financial year. The increase is mainly to make provision for improvement in conditions of service. The compensation budget will continue to grow on average by 5.4 per cent over the MTEF.

Goods and service budget shows a slight growth of 2.7 per cent in the 2019/20 financial year compared to the 2018/19 financial year.

In 2018/19 the department procured GPS equipment for R2.7 million. An amount of R0.350 million is set aside for computer equipment in the 2019/20 financial year.

Programme 3: Farmer Support and Development

To provide support to farmers and rural communities through agricultural development programmes.

Sub programme core strategic objectives

Farmer Settlement and Development

• To provide support to smallholder and commercial producers for sustainable agricultural development.

Extension and Advisory Services

• To provide extension and advisory services to farmers.

Food Security

• To provide support to food insecure households.

The budget of the programme declines by 34.9 per cent to R234.401 million in the 2019/20 financial year compared to R360.601 million in 2018/19 financial year. Ilima/Letsema conditional grant accounts for R64.169 million and the CASP conditional grant amounts to R119.458 million within the budget of the programme in the 2019/20 financial year. These funds are located within the sub programme of Extension and Advisory Services.

Compensation of employees budget grows by 7 per cent to R55.578 million in the 2019/20 financial year compared to R51.952 million in the 2018/19 financial year. Compensation of employees will grow on average by 6.1 per cent over the MTEF to make provision for annual improvement in conditions of service.

Good and services decline by 68 per cent to R69.876 million in 2019/20 financial year compared to R218.932 million in 2018/19 financial year. This is mainly as a result of the conclusion of the flood disaster funding and the downward revision in the allocation of the CASP grant.

A total of R35 million will be transferred in the 2019/20 financial year for some projects to acquire capital assets and production inputs for themselves. These funds are sourced from the conditional grants with R7 million for Niewoudtsville Rooibos (Pty) Ltd being allocated from the CASP grant and the

remaining projects amounting to R28 million sourced from the Ilima/Letsema grant. The details are listed in table 2.7.

Programme 4: Veterinary Services

The purpose of the programme is to provide veterinary services to clients in order to ensure healthy animals, safe animal products and welfare of people of South Africa.

Sub programme core strategic objectives

Animal Health

• To prevent, control and eradicate animal diseases through surveillance programmes, vaccination, inspections and training.

Export Control

• To provide health certification for import and export of animals and animal products.

Veterinary Public Health

• To promote the safety of meat and meat products at harvesting level through the registration and monitoring of abattoirs.

Veterinary Laboratory Services

• To provide diagnostic services to veterinary personnel, farmers, food processing plants and private veterinarians.

Programme 5: Research and Technology Development Services

The objective of the programme is to render expert and needs based research, development and technology transfer services impacting on development objectives.

Sub programme core strategic objectives

Research

• To improve the agricultural production through conducting, facilitating and coordinating medium to long term research and technology development projects.

Technology Transfer Services

• Disseminate information on research and technology developments.

Infrastructure Support Services

• To provide and maintain infrastructure facilities for the line function to perform their research and other functions.

Programme 7: Rural Development

To coordinate the intervention programmes of all departments and institutions in rural areas to ensure that the land and agrarian reform and rural development mandate is achieved. To coordinate joint planning, identify specific areas for targeted interventions, and monitor progress with CRDP implementation plans in the province.

Sub programme core strategic objectives

Rural Development Coordination

- To ensure comprehensive rural development; and
- To support development structures at CRDP Sites.

Social Facilitation

• Facilitate provision of services to people living and working on farms.
