1. Overview

Vision

Towards Excellence in Education.

Mission

We provide quality basic education for high learner achievement through educator excellence.

Strategic goals

The strategic goal of the Department of Education is to support the national and provincial policy priorities as outlined in the National Development Plan of the country, which are as follows:

- Effective and efficient governance and management support systems; and
- Improved learner attainment in Grades (R to 12), mainly Grades 3, 6, 9 and 12.

Core functions and responsibilities

The core responsibility of the department is to provide quality education and training for all learners of school going age from Grade R to Grade 12, assisting them through proper guidance to achieve their full potential so that they can play a meaningful role in building the economy of the North West Province and the country at large.

The main core functions of the department are summarised below:

- To provide education in public ordinary schools. This is the core function of the department which ensures that all children of school going age from ages of 7 to 17 have access to basic education and attain the highest possible educational outcomes. Learners and educators are provided with basic Learning and Teaching Support Materials (LTSM) in accordance with the curriculum needs;
- The function also provides professional support to all educators in schools, and basic physical infrastructure in public ordinary schools, which includes the school building programme, sanitation and effective maintenance of existing structures. Learners are also provided with nutrition through the implementation of the School Nutrition Programme at all no-fee schools;

- To support independent schools. This programme provides subsidies to learners in Independent schools in accordance with their needs as stipulated in the South African Schools Act;
- To provide education in public special schools. The aim of this function is to provide public education in special schools in accordance with the South African Schools Act and White Paper 6 on Inclusive Education;
- To provide early childhood education (ECD) in Grade R. This programme caters for pre-school education, for pre-Grade R and for Grade R in public schools and community centres which focus on Early Childhood Development. To improve the quality of education provided to all Grade R learners by gradually placing them in primary schools where they can be thoroughly prepared for the physical and academic demands of learning;
- To provide human resource development for educators and non-educators. The purpose is to ensure well-managed and monitored continuous assessment (CASS) at school level to enhance teaching and learning; and
- Impact on social problems by extending HIV/AIDS awareness; and promoting a safe school environment. To implement life skills and HIV and AIDS programs and structures in schools in order to deal with the impact of HIV and AIDS in the school system;

Main services intended to be delivered

Key service delivery priorities of the department for 2020/21 have been informed by national education policies as well as provincial policies as pronounced by the Executive Council of the North West Provincial Administration.

In summary the main focus for services that are going to be delivered by the department in 2020/21 will be amongst others the following areas:

Early childhood development

To improve the quality of early childhood development to all Grade R learners, the department will gradually continue to place Grade R learners in primary schools where they can be thoroughly prepared for the physical and academic demands of formal schooling by ensuring that educators in the programme are comprehensively trained to offer quality service.

Improve quality of teaching

The department plans to continue with the implementation of Teacher Development programmes in the 2020/21 financial year and further into the future in order to strengthen capacity on content and professionalism in the classroom. The training of mathematics and science educators is of critical importance as this remains an area that has not been performing well across all grades, including Grade 12.

Through the Workplace Skills Plan, school management teams and support staff will be given opportunities to attend accredited courses as part of development and support to improve the overall capacity of the workforce.

Teacher development continues to be a key priority for the department in order to improve the quality of teaching with special attention given to the gateway subjects such as mathematics; science; accounting; technology; and more. Training sessions took place during school holidays to ensure protection of teaching time. The main focus of our training intervention has been on assisting educators with content. Training programmes' targeted areas were subject knowledge for educators. To improve knowledge of the subject they teach. These programmes are also intended to empower educators with better ways of delivering the curriculum using textbooks and learner workbooks.

School management and governance

The department will continue to ensure well-functioning district offices to assist the provincial government in addressing educational challenges. District offices are to ensure communication and information sharing between the education authorities and schools. More importantly, schools should be accountable to the school community for the performance of the schooling adherence to the annual school plan. Finally, parents should be accountable for the behavior, attitude, attendance and work ethic of their children.

Besides regular visits by district officials, it is mandatory for a cohort of mentors who have been appointed to support poor performing schools to undertake regular visits in order to track progress on curriculum coverage. There are indicators that also measure how often schools are monitored hence the numbers of students qualifying for a Bachelor's programme has increased very well.

Infrastructure and the elimination of backlogs

For 2020/21 financial year the department is planning to fast track the implementation of school infrastructure with the main focus being in the following areas:

Improve sanitation at schools by building toilets that provide learners with acceptable levels of hygiene especially those that attend rural schools. Provision of clean and safe water will also receive attention in the new financial year through drilling and equipping of boreholes to ensure that learners do not travel long distances to access clean water during their school hours.

e-Education

The 2004 draft White Paper on e-Education refers to the potential role of digital information and communication technologies (ICTs) in education. Evidence from around the world points towards the ability of ICT to enrich teaching and learning and to take educational outcomes to a new level. Not

only is e-Education considered a means towards improving teaching and learning, it is also viewed as a tool that can improve education management in a variety of ways.

The North West Department of Education identified SA-SAMS as a major focus area and component of an e-Education strategy. The focus area in the 2020/21 will be on the implementation of an integrated approach to ensure that SA-SAMS is fully functional and produce reliable and accurate data. This plan consists of three major components namely SA-SAMS training, the development of an integrated dashboard and learner data quality reviews.

The Acts, Rules and Regulations applicable to the Department.

- Education White Paper 5, 2001; Systemic Evaluation Policy Framework, 2001 and
- North West Sport and Educational Aid Trust Act, 1986 (as amended).

1.1 Aligning departmental budgets to achieve government's prescribed outcomes

The department has aligned its strategic goals and objectives to the 14 identified Presidential Outcomes and it is mainly responsible for Outcome 1 which is "Improved Quality of Basic Education" and Outcome 5, "A skilled and capable workforce to support an inclusive growth path".

The department has further aligned its strategies with the Education Action Plan 2014 Goals. This is an effort to make sure that resources are targeted at processes that will give impetus to the attainment of the set targets.

The department's strategic goals are also in line with the objectives of the national development plan on basic education to improve learner outcomes. The interventions that the department plan to implement in the medium term and beyond are intended to achieve quality education for all learners who enroll at our schools.

2. Review of the 2019/20 financial year

Review of the 2019/20 financial year summarises progress made by the department in respect of deliverables on key focus areas of service delivery as outlined in the Annual Performance Plan. The budget for the financial year 2019/20 was therefore allocated through seven programmes which were aligned to the two Presidential Outcomes.

Curriculum Management and Implementation

The department has implemented key curriculum related deliverables towards improving the learning outcomes for all grades. This includes intensifying the implementation of English Across the Curriculum (EAC). Newly appointed curriculum support officials have attended induction programmes to ensure that schools receive support from our districts.

The Department has provided training of all Foundation Phase and Intermediate Phase teachers to teach reading in English First Additional Language and African languages. Specifically, as part of the Primary School Reading Improvement Plan, 429 Foundation Phase (Grades 1-3) teachers were trained.

The department has collaborated with the department of Sport, Recreation, Arts and Culture to ensure optimal utilisation of community libraries by learners.

Nine Hundred and Sixty Six (966) schools received the Early Grade Reading Strategy (EGRS) tool as part of phase 1-4 implementation. As part of this reading programme, a provincial training team has been trained on how to administer the tests on:

- Letter Sound recognition;
- Word recognition; and
- Paragraph reading.

Learner Attainment Improvement Programme (LAIP)

The Learner Attainment Improvement Programme is intended to ensure performance for all the grades in the system and improves the quality of learning through focused interventions. The plan draws its activities from the National strategy for Learner Attainment (NSLA) and addresses the nine pillars of curriculum support.

Performance accountability sessions that took place in all districts identified grade challenges and provided interventions per subject for improvement.

The department was able to respond to challenges faced by learners in areas that were experiencing sporadic incidents of intimidation and violence as a result of community unrests by providing a conducive environment for learners to prepare for their end-of-year examinations. . The 2019 NSC performance improved from 81.1per cent to 86.8per cent given all the intervention taken with the Grade 12 class that included vacation camps and revision programmes.

National School Nutrition Programme (NSNP)

The programme continues to benefit learners in schools. In the year under review the programme is feeding on average 736 284 (Seven Hundred and Thirty Six Thousand, Two Hundred and Eighty Four) learners and created 4 387 jobs for volunteers as Food handlers in 1335 primary, secondary and selected special schools earning R1 188 excluding 1per cent UIF. The contract was valid for 2 years, 2017-2019. The province uses school based procurement model to implement the programme. Funds are directly transferred into NSNP accounts. Schools purchase food and fuel from local suppliers and are also responsible for food handler stipend.

No Fee Schools

The purpose of the policy is to ensure that learners from poor communities have access to education. The national norm for no fee schools is 68.7per cent and the province is at 88per cent of the total learner population. All schools in quintile 1-3 benefitted from the no-fee policy. For 2019/20 financial year, a total of 719 495 (Seven Hundred and Nineteen Thousand, Four Hundred and Ninety Five) learners benefited from the programme.

Maths, Science, Technology Service

The department, through the MST grant allocation, ensures provisioning of the necessary machinery, equipment, tools and consumables for improved teaching through practical experimentation. 100 schools (70 Secondary, 19 of which are Technical and 30 primary) have benefited from the grant provisioning and received the following according to focus:

Care and Support for Teaching and Learning (CSTL)

The Life Skills HIV and AIDS Programme implement programmes in schools as a means to alleviate the burden of poverty, HIV and AIDS, TB, Teenage pregnancy and drug and substance abuse which are a barrier to teaching and learning. Every society experiences these barriers in different levels and learners are the recipient of the raw deal of having to deal with these issues that lead to learner dropout. Child vulnerability hinders National Development Plan goals that require the Education

Sector to provide access to education and training of the highest quality that will yield significant improved learning outcomes by 2030.

Care and Support for Teaching and Learning is a comprehensive, multi- sectoral response to address barriers to teaching and learning for learners.

3. Outlook for the 2020/21 financial year

The department is allocated a total budget of R18.380 billion on the first year of the Medium Term Expenditure Framework, of which the greater portion is allocated for Compensation of Employees which is the main cost driver given the nature of service delivery mandate of the department. The main focus areas for 2020/21 is informed by sector deliverables from the National Development Plan; Towards the realisation of Schooling 2025; Delivery Agreement for North West as well as plans and pronouncements of the provincial executive.

The following key programs areas as outlined in the Annual Performance Plan of the department continue to be our key focus areas of service delivery in 2020/21:

Skills Development: Training of office-based employees

The Workplace Skills Plan of the Department will use the needs identified in the PMDS (Performance Management and Development System) documents and from other analysis carried out in the previous financial year (e.g. skills audit) to provide training for different officials in the Department. The training plan will also cater for senior managers who will be trained on management and leadership programmes to enhance their management skills. Learnerships for the youth and Bursaries are also catered for.

Teacher Development

For 2020/21 financial year, Teacher Development programs will progressively target content and methodology training mainly in subjects where educators are having difficulties with certain topics in the syllabus. These interventions will include Accounting, Physical Science and Mathematics.

Quality Promotion: Evaluation of schools

Following the reintroduction of the programme during the 2019/20 financial year, the focus for the coming year will be to monitor and assist underperforming schools the objective being to ensure quality outputs throughout the system.

Quality Learning and Teaching Campaign

The implementation of QLTC in the coming financial year will focus on strengthening the structure that are spearheading the implementation of the campaign in the province. This includes, among others, District Forums; Cluster Forums; and SGB sub-committees dealing with QLTC.

Reading

Reading for meaning is number one of the sector priorities and programmes (2019-2024). The Department accepts early grade reading skills as the basic foundation that determines a child's educational progress through school, through higher education institutions and into the work place.

In 2020/21 the department will continue to provide training of all Foundation Phase and Intermediate Phase teachers to teach reading in English First Additional Language and African languages as part of the Primary School Reading Improvement Plan.

The department will also continue to implement the Early Grade Reading Study (EGRS I) interventions which are aimed at improving early grade reading, namely (i) a teacher training course focused specifically on the teaching of reading; (ii) an on-site support programme to teachers consisting of reading coaches, lesson plans and graded readers; (iii) and a package designed to improve parental involvement (and monitoring) for children learning to read. This will be conducted through the evaluation method of a Randomised Control Trial (RCT) in primary schools.

Three Stream Model of Basic Education

The Three-Stream Model. The Three-Stream Model will place learners from grades 10 to 12 into three different streams of education summarised as follows:

- Academic: The current and traditional general stream which prepares learners for further studies in higher education institutions.
- Technical vocational: This stream seeks to prepare learners for technical colleges. It includes subjects focusing on electrical, mechanical, and civil engineering.
- Technical occupational: This stream focuses on preparing learners for work immediately after completing secondary school education. In the main, it concentrates on the development of skills like hairdressing, boiler making, welding, panel-beating, spray-painting, upholstery, visual arts, woodwork, glasswork, glazing, farming, et cetera.

The Department is currently on a drive to increase the number of schools of specialisation in the province, which includes Technical Schools, Agricultural, Arts Schools, etc through the implementation of school rationalisation. This focus will continue in the 2020/21 financial year.

Curriculum

The Department will continue to focus on improving the quality of Early Childhood Development (ECD), which includes the urgent implementation of a compulsory two-year of ECD before Grade 1, and preparations for the migration of 0-4 year-olds from the Department of Social Development to Department of Basic Education.

Grade R will be prioritised to ensure that all learners in the province have access to Grade R. Furthermore Grade R and pre-Grade R practitioners will receive training to improve their qualification levels. Grade R will also be prioritized in respect of access to learner support material.

School Infrastructure

The reduction of school infrastructure backlogs remains one of the main priorities of government. For the financial year 2020/21 the department will continue with plans to ensure that sanitation backlogs, including inappropriate sanitation facilities are addressed across the length and breadth of this province. A rigorous plan will be implemented to improve spending of the budget allocated for construction and maintenance of school infrastructure in the province.

Learning and Teaching Support Material

Provision of stationary, textbooks top-ups and workbooks remain central is ensuring that all learners in the province have access to quality learning materials. For 2020/21 the department will ensure that delivery of LTSM is finalized before reopening of schools for the new academic year. Priority for 2020/21 will be given to special and full service schools so that all learners in the province have access to quality education with provision of all the necessary support and resources.

School funding and No Fee schools

The majority of learners in the province are enrolled in no-fee schools. For 2020/21 nearly Seven Hundred and Twenty Thousand (720 000) learners will benefit from the no-fee policy across the province.

Improvement of Administration

To improve audit outcomes the department is planning to focus is planning to prioritise and focus on the following key areas in 2020/21:

- Enhance the performance management and reporting mechanisms that are applied consistently and in alignment with the Annual Performance Plan;
- Resolve root causes of recurring audit findings by the Auditor General;
- To provide a framework of rules and practices in order to accountability across the system; and

- Implement documented business processes to define structured activities or tasks to produce specific service to mitigate the absence or misaligned job descriptions and irrelevant or non-existent performance management contracts and standards.

4. Reprioritisation

The department has re-aligned the budget allocation in the medium term to accelerate implementation of programs in key focus areas of service delivery.

Accelerating the eradication of pit-toilets in the province will be one of the key focus areas for 2019/20. A substantial portion of the 2019/20 budget is reprioritized to address all sanitation backlogs. Reprioritisation of the baseline budget will also see a substantial increase of funds allocated for provision of school furniture.

The department will continue to implement cost containment measures in the new financial year in order to redirect funding to focus areas of service delivery.

5. Procurement

The department will continue to review supply chain processes, improve capacity of practitioners and strengthen internal controls with the aim of eliminating wastage. A procurement plan has been developed and will be monitored throughout the financial year to ensure that procurement of Goods and Services are in line with planned activities.

6. Receipts and financing

The greater part of the department's budget is funded from the equitable share allocation which is R16.667 billion in the 2020/21 financial year. Other forms of financing is also made through conditional grants as outlined in the Division of Revenue Act (DORA).

Own revenue generated by the department amounting to R22.735 million, accounts for a smaller portion to the overall budget due to the nature of services that the department provides in terms of its mandate.

6.1 Summary of receipts

Table 8.1 below shows a summary of expenditure incurred during the three year period of 2016/17 to 2018/19 as well as estimates for the medium term 2020/21 to 2022/23 measured against the 2019/20 revised estimates.

Total allocation for the department is increasing from R17.110 billion of the 2019/20 main appropriation to R18.380 billion in 2020/21, R19.389 billion and R20.530 billion in the two outer years of MTEF. The bulk of increase on the baseline go towards the annual cost of living adjustment (i.e. Improvement on Conditions of Service) and Education Infrastructure grant.

Equitable Share Allocation

The equitable share represents 90.7 per cent of the total budget of the department. The largest portion of the equitable share budget is allocated towards payment of Educator salaries which is the main cost driver in the public education sector. The overall equitable share allocation of R16.667 billion in 2020/21 is increasing by 6.7 per cent from the main appropriation of R15.624 billion in 2019/20 financial year.

Conditional Grants

The allocation for conditional grants reflects a significant increase of 15.4 per cent from 2019/20 to 2020/21 due to substantial increase in the allocation for the Education Infrastructure grant in order to provide for general school infrastructure requirements. The department's budget includes allocations from the following conditional grants:

HIV and Aids (Life Skills Education) Grant: To support South Africa's HIV prevention strategy by increasing sexual and reproductive knowledge, skills and appropriate decision making among learners and educators; to mitigate the impact of HIV by providing a caring, supportive and enabling environment for learners and educators; and to ensure the provision of a safe, rights-based environment in schools that is free of discrimination, stigma and any form of sexual harassment.

The grant allocated for 2020/21 decline to R16.791 million from R18.849 million in 2019/20 financial year and recorded a steady growth in the last two years of the MTEF with allocation of R17.505 million and R17.911 million respectively.

National School Nutrition Programme Grant: To enhance learning capacity and to improve access to education by providing nutritious meals to targeted learners. The coverage of the grant has been expanded to include Quintile 3 secondary schools. This grant has seen significant growth from R481.859 million in 2019/20 to R516.114 million in 2020/21, and further grows to R536.321 million and R563.137 million in 2021/22 and 2022/23 respectively.

Education Infrastructure Grant: To help accelerate construction, maintenance, upgrading and rehabilitation of new and existing infrastructure in education; and to enhance capacity to deliver infrastructure in education. The total grant allocation increase by 20.8 per cent or R187.526 million from R902.484 million in 2019/20 to main appropriation of R1.090 billion in 2020/21, continues to increase in the two outer years at R1.081 billion and R1.132 billion in 2021/22 and 2022/23 respectively. The 2019/20 allocation will be reduced by R225.621 million due to non-performance of the grant, following the reduction of R125.373 million in the 2018/19 second adjustment budget for the same purpose.

Mathematics, Science and Technology Grant: The grant will support schools across the province, which is based on the previous allocation of the then Dinaledi and Technical Schools grants plus an additional list of primary schools. The grant allocation increases marginally from R38.3391 million in 2019/20 to R39.453 million in 2020/21 and then to R41.649 million and R43.134 million in the two outer years respectively.

Learner with Profound intellectual Disabilities Grant: The main aim of the grant is to improve access to quality basic education for children with severe to profound intellectual disability in conditions that ensure dignity, promote self-reliance and facilitate active participation in the community. The amount allocated for the grant in 2017/18 was R2.3 million in order to support a total of 9 centres and 21 schools as identified by the province for delivery of the programme. In 2018/19 MTEF funding grows significantly as 10 more centres were identified to increase the total to 19 across the provinces. The amount allocated for this grant grows from R16.267 million in 2019/20 to R18.414 million in 2020/21, R 19.327 million in 2021/22 and R20.372 million in 2022/23.

Social Sector EPWP Incentive Grant for Provinces: To incentivize provincial social sector departments to increase job creation by focusing on the strengthening and expansion of social service programmes that have employment potential. The social sector incentives grant allocation fluctuates over a period. The grant increases from R3.557 million in 2017/18 to R8.315 million in 2018/19 MTEF. The allocation increases from R4.598 million in 2019/20 to R7.505 million in 2020/21.

EPWP Integrated Grant for Provinces: Allocations in respect of the Expanded Public Works Programme (EPWP) Integrated Grant for Provinces are made available upfront, based on meeting job targets in the preceding financial year, rather than using in-year performance measures. The EPWP integrated grant amounts to R2 million for 2016/17 and the amount remain the same until it reached R2.008 to 2018/19 and R2.228 million in 2019/20. The allocation for 2020/21 is R2.035 million.

6.2 Departmental receipts collection

Table 8.2 below provides summary of revenue collection projected for the medium term.

The major source of own revenue for the department comes from Sale of Goods and Services other than capital goods which include commission earned on payroll deductions such as insurance and garnishees, examination and remarking fees, as well as fees for the viewing of scripts. Also sale of matric certificate duplicates, receipt books and registers account for a significant portion of own revenue generated by the department. Projected own revenue from 2020/21 increases by 5.6 per cent year-on-year over the MTEF.

7. Payment summary

7.1 Key assumptions

The following key assumptions were applied by the department in formulating the 2020/21 MTEF budget:

- Provision is made for improvement in conditions of service (ICS) of 5.8 per cent in 2020/21, 5.8 per cent in 2021/22 and 5.7 per cent in the outer year;
- Pay progression across the public service is 1.5 per cent per annum, these will include support staff employed in terms of the Public Service Act and Educators Employment Act;
- Price increase for non-personnel expenditure are based on CPI projections of 4.8 per cent in 2020/21, 4.8 per cent and 4.7 per cent in the two outer years.

Additional main assumptions underpinning the department's budget in the medium term are as follows:

- The greater portion of the budget goes to Compensation of Employees;
- Funding of schools is in line with National Norms and Standards for School Funding.

7.2 Programme summary

The services rendered by the department are categorised under seven programmes, which are aligned to the uniform budget and programme structure developed by National Treasury. Table 8.3 below provides a summary of payments and estimates of expenditure according to programmes over the seven year period from 2016/17 to 2022/23.

The department's recorded increased expenditure of R13.972 billion in 2016/17 to R15.703 billion in 2018/19 which represents an increase of 13.3 per cent over a period of three years. All programmes reflect increased spending from 2016/17 to 2018/19, except Programme 6 with low expenditure of R691.4 million in 2018/19 compared to 2016/17 and 2017/18.

From 2019/20 budget increasing from the main appropriation of R17.110 billion to R18.380 billion in 2020/21 representing an increase of 7.4 per cent. The allocation for programme 6 Infrastructure development increase by 20.7 per cent as result of Education Infrastructure grant allocation.

The spending focus over the medium term will continue to go towards service delivery outputs as captured in the Annual Performance Plan of the department. A significant amount of the budget is allocated to Compensation of Employees as the main cost driver in the sector, provision of learner and teacher support material, infrastructure development and interventions.

7.3 Summary of economic classification

The table 8.4 below provides a summary of payments and estimates of expenditure according to economic classification over the seven year period from 2016/17 to 2022/23.

Compensation of Employees: Expenditure incurred by the department on Compensation of Employees grew from R10.585 billion in 2016/17 to a budget of R12.543 billion in 2018/19. Compensation of Employees' budget grows by 6.7 per cent in 2020/21 when compared to the 2019/20 main appropriation largely due to the additional funding for the carry-through effects of the 2018 wage agreement.

Goods and Services: Spending on Goods and Services is largely influenced by various priorities in the education sector such as learner and teacher support materials; skills and teacher development; learner attainment improvement strategies; subject advisory and curriculum implementation support; ICT related costs for monitoring and reporting as well as fixed costs on security and municipality services. Goods and Services reflects a steady increase between 2016/17 and 2018/19, largely influenced by the learner and teacher support materials spending. The budget increases at an average of 7.4 per cent over the 2020/21 MTEF, mainly due to reprioritisation in 2020/21.

A larger portion of the Goods and Services budget will be spent on procurement of textbooks and stationery for learners. Training and LAIP budget also accounts for a significant amount of the Goods and Services budget. Also, included under Goods and Services is the allocation for Sanitary Dignity Project at R16.427 million, R17.075 million and R17.729 million over the 2020/21 MTEF.

The department will have to implement stringent measures to contain spending on discretionary items such a catering to realize any savings that can be utilized to counter the effect of price increase in some of the cost driver that fall under this economic classification.

Transfers and subsidies: Transfer payments budget grows substantially over the 2020/21 MTEF. The increase caters mainly for norms and standard; section 21 schools including grade R in Public schools; Special schools and NSNP.

The greater portion of the budget under Transfer Payments goes towards funding of school operations as all public schools in the province are Section 21. These allocations are based on the national school funding norms and standards. Schools receive two tranches per annum, i.e. by 15 May and 15 November respectively. Subsidies to independent schools are also expended through transfer payments.

A significant amount is also transferred to schools implementing the National School Nutrition Programme (NSNP) as procurement of groceries and related foodstuffs is done at school level. Stringent measures have been put in place to ensure that these funds are not utilized for any other activities other than NSNP related.

Funding of schools (i.e. Section 21) in the province is done in line with National Norms and Standards for School Funding. It is also important to indicate that the department complies with the national norms and standard in funding section 21 public schools. For 2020/21, learners in quintile 1 to 3 schools will receive R1.466 thousand, which ensures that all no-fee schools in the province will receive the same per learner allocation and learners in quintile 4 and 5 schools which are regarded as fee paying school received R735 thousand for and R254 thousand respectively.

Apart from these, there are transfers in respect of Households which reflect payments in respect of staff exit costs.

Capital assets – Machinery and equipment: The budget for machinery and equipment goes towards procurement of ICT equipment for schools and to purchase Maths and Science kits. The growth in Machinery and Equipment over the 2020/21 MTEF will assist the department in the acquisition of the tools of trade that are lacking.

Capital assets - Buildings and other fixed structures: The allocation of buildings and other fixed structures grew from R814.956 million in 2019/20 to R1.002 billion in 2020/21, representing an increase of 23.0 per cent as result of increase in allocation on Education Infrastructure Grant. Total budget for buildings and fixed structures mainly focuses on the upgrading and rehabilitation of existing school infrastructure, including construction of additional classrooms to ensure that all school facilities provide a conducive environment for effective teaching and learning to take place.

1. Total provincial infrastructure is the sum of "Capital" plus "Recurrent maintenance". This includes non infrastructure items.

The department's budget for infrastructure development is funded mainly from the Education Infrastructure Grant. Total infrastructure budget increases from main appropriation of R904.712 million in 2019/20 to R1.092 billion in 2020/21, representing an increase decline of 20.7 per cent.

7.4.2 Maintenance

The greater portion of the maintenance budget is shared among the four District Offices to assist schools with day-to-day maintenance requests in cases where schools have exhausted their earmarked maintenance budgets to carry out minor repairs. A portion of the budget is managed from Corporate Centre and it is used to respond to emergencies reported by the districts.

7.5 Departmental Public-Private (PPP) projects

There are no projects funded through Private Public Partnership in the department for the MTEF period.

9. Programme Description

9.1 Description and outputs

Programme 1: Administration

Description and objectives: The programme deals with functions that are supportive to the management of the education system such as human resource functions; financial management and procurement functions; information systems and quality assurance functions. The objective of the programme is to provide overall management of the education system in accordance with the National Education Policies and Acts, the Public Finance Management Act, and other policies. The programme has six sub-programmes with the following objectives:

- Office of the MEC: To provide for the functioning of the office of the Member of the Executive Council (MEC) for Education.
- Corporate services: To provide management services that are not education specific for the education system.
- Education management: To provide education management services for the education system.
- Human Resource development: To provide human resource development for office-based staff. Human Resources Development's budget is inclusive of the employees' bursary budget, as well as the funds for skills development.
- Conditional Grants: To provide for projects under Administration specified by the department of Basic Education and funded by conditional grants.
- Education Management Information System: To provide an Education Management information System (EMIS) in accordance with the National Education Information Policy.

Tables 8.7 and 8.8 below provide allocations per sub-programme as well as economic classification for Programme 1.

The overall programme increase marginally by 4.2 per cent from 2019/20 main appropriation to 2020/21. The great part of the budget on the programme is allocated to fund Compensation of Employees under Corporate and Education Management services. The budget of the Office of the MEC is increasing modestly in the medium term in line with the current operational needs of the office.

The budget for Corporate Services is inclusive of the entire department's support services, inclusive of financial management, legal services, supply chain management, security services, human resource management, communication and infrastructure management. With the budget allocated under this sub-programme the department is planning to continue with implementation of interventions to improve the overall performance of the department's support services with special attention to issues raised by the Auditor General on operational efficiency, compliance with laws and regulations as well monitoring and evaluation of performance information.

The main functions of the sub-programme Education Management is to provide education planning, implementation of curriculum related interventions and programs and general support to all schools in the province through the district and circuit offices. The programme is also responsible for professional and subject advisory services and provision of curriculum related resources to improve learner outcomes in subjects such as mathematics and science.

The Human Resources Development funding provide funding for learnerships to school leavers and graduates, as well as the employees' bursary budget.

Education Management Information System (EMIS) allocation remains consistent over 2020/21 MTEF in order to maintain and ensure the smooth roll-out and implementation of the South African Schools Administration and Management System (SA-SAMS).

Cost containment measures that the department implemented in the past financial years will continue in 2020/21. These measures are intended to reduce spending on day-to-day discretionary expenditure items such as subsistence and travelling, catering, etc. Any efficiency gains and savings realized from cost containment will be redirected to ensure adequate funding for fixed costs such as municipal and security services as they are expected to increase considerably in the medium term. Initiatives that were previously implemented to strengthen financial, human resources, supply chain management and accountability will also continue in the new financial year

Programme 2: Public Ordinary School Education

Description and objectives: To support and monitor the implementation of the Curriculum Assessment Policy Statement in all schools from Grade 1 to Grade 12 and to improve learner performance in literacy and numeracy through quality curriculum implementation. The programme deals with public ordinary schools which largely comprise of no-fee public ordinary schools.

The Public Ordinary School Education programme represents the core function of the department and its aim is to provide public ordinary education from Grades 1 to 12 in accordance with the South African Schools Act. The programme has six sub-programmes with the following objectives:

- Public primary schools: To provide specific public ordinary primary schools with resources required for grades 1 to 7;
- Public secondary schools: To provide specific public ordinary secondary schools with resources required for grades 8 to 12;
- Human Resource Development: To provide departmental services for the professionals and other development of educators and non-educators in public ordinary schools;
- In-school Sport and Culture: To provide additional and departmentally managed sporting and cultural activities in public ordinary schools;
- Conditional Grant - School Nutrition Programme: To provide nutrition in public primary schools as specified by the Department of Education and Sport Development;
- Conditional Grant - Maths, Science and Technology Grant: To provide support and resources to schools, teachers and learners for the improvement of math, science and technology teaching and learning at selected public schools.

Tables 8.10 and 8.11 below provide allocations per sub-programme as well as economic classification for this programme.

Programme 2: Is the largest budget programme in the department and accounts for 76 per cent of the total budget allocated to this department. The largest portion of the budget under this programme is allocated to the sub-programme: Public Primary Schools and Public secondary schools. The spending focus over the medium term will be on sustaining the provision of quality education in public ordinary schools to ensure that learner outcomes continue to improve in the medium term.

To achieve these objectives, the greater portion of the budget allocated to this programme will be directed towards payment of salaries to educators and support staff at schools. Compensation of Employees constitutes 90 per cent of funds allocated to this programme. The overall budget grows by 6.9 per cent in 2020/21, 6.1 per cent and 6.1 per cent in 2021/22 and 2022/23 respectively.

Compensation of Employees' allocation for 2019/20 reflects a 6.9 per cent growth from the 2019/20 main appropriation, largely due to the carry-through effect of the salary adjustments.

Given the current pressure on the fiscus, the department will continue to ensure that the implementation of the Post Provision Norms responds adequately and effectively to the teaching needs of every school in the province. Measures to eliminate inefficiencies in the system will also continue in the new financial year as this will assist to redirect gains or savings realized from this exercise to deal with other critical areas that require funding thus ensuring that all schools in the province have adequate number of educators for effective teaching and learning.

Budget for Goods and Services increases by 7.0 per cent in 2020/21 and by 5.7 per cent and 4.7 per cent in 2021/22 and 2022/23 respectively. Adequate budget is allocated for provision of textbooks and stationery to all public schools in the province. Processes for procurement of textbooks and stationery will start early in the financial year to ensure that schools receive their learner materials before the commencement of the school calendar. Additional resources will also be provided to schools for curriculum delivery. These will include among others kits for learners who are enrolled in mathematics and science and consumables for practical work.

Transfers and subsidies to: Non-profit institutions reflect a steady increase of 6.3 per cent for the 2020/21 financial year and continue to enjoy the same growth in the two outer years. Programme 2 houses the larger portion of the transfers to schools: Non-profit institutions that reflect payments made in respect of section 21 norms and standards and the NSNP allocation.

Funding of schools (i.e. Section 21) in the province is done in line with National Norms and Standards for School Funding. It is also important to indicate that the department complies with the national norms and standard in funding section 21 public schools. For 2020/21, learners in quintile 1 to 3 schools received R1.466 thousand, which ensures that all no-fee schools in the province will receive the same per learner allocation and learners in quintile 4 and 5 schools which are regarded as fee paying school received R735 thousand for and R254 thousand respectively

The budget under Human Resource Development sub-programme is allocated for teacher development. The sub-programme fluctuates over the period under review, with low spending in 2016/17 and 2018/19. The 2019/20 main appropriation reflects a substantially higher allocation. The allocation over the 2020/21 MTEF is based on a similar premise.

In-school Sport and Culture sub-programme reflects a steady increase over the MTEF to enable the department to deliver on its social cohesion goal. The National School Nutrition Programme grant shows a marked increase over the medium term due to the progressive implementation of the program to all deserving learners across the province. The Mathematics, Science and Technology Grant will support interventions and programs that are geared to improve learner outcomes and in mathematics and science related subjects.

Programme 3: Independent School Subsidies

Description and objectives: The programme provides financial support to learners in independent schools that meet the set criteria in line with the South African Schools Act, through the following sub-programmes:

- Primary phase: To support independent schools in the Grades 1 to 7 phase.
- Secondary phase: To support independent schools in the Grades 8 to 12 phase.

The spending focus of the programme over the MTEF is to provide subsidies to qualifying independent schools in terms of the national funding norms within the current constraints on the budget. The number of independent schools which may be eligible to receive state subsidy is expected to increase in future given the trend of the new independent schools that are established throughout the country.

The larger portion of the subsidy allocation goes to the Primary Phase as a proportion of the number of learners in primary schools than in secondary schools increases. The subsidy allocation shows a marked increase over the medium term due to the progressive implementation of the programme to all learners across independent schools the province. Non-profit institutions under Programme 3 reflect payments made in respect of the subsidy given to independent schools.

The programme reflects a slight growth over the seven-year period and is facing pressures due to the number of independent schools that qualify for subsidy but cannot be funded due to budget challenges. In order to deal with this, the department has to maintain the current subsidised Independent schools over the MTEF in order for the programme to stay within budget.

Programme 4: Public Special School Education

Description and objectives: Special schools are required to cater for learners who are experiencing severe barriers to learning and who require high levels of support. The objective of the programme is to provide compulsory public education in special schools in accordance with the South African Schools Act and White paper 6 on Inclusive Education. The programme has five sub-programmes with the following objectives:

- Schools: To provide specific public special schools with resources;
- Human Resource Development: To provide departmental services to the professionals and other development of educators and non-educators in public special schools;
- Conditional Grants: To provide for projects under this programme funded by conditional grants.

The spending on special schools has increased from R518.815 million in 2016/17 to R636.960 million in 2018/19; as a result of the department's responsibility of ensuring that all learners with special educational needs are suitably accommodated in institutions that are appropriately resourced. The increase in expenditure is mainly to cater for the annual cost-of-living adjustments and projected growth in learner enrolment. The introduction of a new conditional grant, Learner with Profound intellectual Disabilities increase the allocation. The grant was allocated R2.2 million in 2017/18 and it grew to R16.367 million in 2019/20 and continues to grow on the outer two years.

The overall budget grows by 8.1 per cent in 2020/21, 6.3 per cent and 6.6 per cent in 2021/22 and 2022/23 respectively.

Compensation of Employees' expenditure grows from R389.882 million in 2016/17 to R482.783 million in 2018/19 and maintains a reasonable trend from 2019/20 to 2020/21 onwards to ensure adequate funding to employ educators and other professional and support staff for special schools in the province.

Goods and Services' budget grows significantly over the 2020 MTEF to ensure adequate funding in order to provide requisite support and that the curriculum needs of these learners are taken care of. Provisioning of assistive devices to full service schools, specialised Learner Teacher Support Material (LTSM) for special schools including large print, braille and South African Sign Language Curriculum Assessment Policy Statement (SALS CAPS).

The category Transfers and subsidies related to Non-profit institutions reflects payments made to public special schools. The allocation for 2020/21 increase by 8.2 per cent from the 2019/20 to ensure that learners in public special schools are appropriately resourced and supported.

Machinery and equipment allocation over the 2020/21 MTEF is to enable the department to purchase requisite vehicles for outreach teams, as well as procuring additional purpose-made buses.

The Sub-programme: Schools consumes the greater part of the budget on the programme and is largely allocated to fund Compensation of Employees. The significant increase from 2016/17 onward in the Schools sub-programme is due to the increased allocation to support inclusive education. From 2020/21 the sub-programme reflects an increase of 8.0 per cent, 6.4 per cent in 2021/22 and 6.7 per cent in 2022/23.

Human Resource Development sub-programme remains constant in the first two years of the MTEF, however increases on the outer year.

Programme 5: Early Childhood Development

Description and objectives: This programme caters for pre-school education, i.e. for pre-Grade R and for Grade R in Early Childhood Development centers and in primary schools. The objective of the programme is to provide Early Childhood Education (ECD) at Grade R and earlier levels in accordance with White Paper 5. The programme has six sub-programmes with the following objectives:

- Grade R in Public schools: To provide specific public ordinary schools with resources required for Grade R;
- Grade R in community centres: To support community centres at the Grade R level;
- Pre-Grade R (0 – 4): To provide particular sites with resources required for pre-grade R;
- Professional Services: To provide educators and learners in ECD sites with departmentally managed support services;
- Human Resource Development: To provide departmental services to the professionals and other development of educators and non-educators in ECD sites; and
- EPWP Grants: To provide for projects under programme 7 specified by the department of education and funded by conditional grants.

Tables 8.19 and 8.20 below provide allocations per sub-programme as well as economic classification for Programme 5.

Early Childhood Development programme expenditure increase significantly from 2016/17 to 2018/19. This increase can be attributed to the expansion of Grade R by providing adequate funding for payment of salaries and training to Grade R Educators. With the substantial increase in the allocation the programme will be able to achieve the service delivery targets as set out in the Annual Performance Plan.

The largest portion of the budget is allocated to the sub-programme Grade R in Public Schools and it is meant for payment of salaries for Grade R educators as well as procurement of learner teacher support material and other related resources such as in-door and out-doors playing equipment. Transfer payment and subsidies to ensure that schools with Grade R classes are able to run their own affairs in line with the norms and standards for Grade R.

Grade R in Community Centres reflects an increasing trend over the period under review. Training of Pre-Grade R (0-4yrs) practitioners' remains part of the programmes deliverables and the budget allocated under the sub-programme funds provided for payment of stipends to the trainees.

The Human Resource Development sub-programme's budget is allocated to counter the shortage of qualified educators in this area. The budget reflects a steady growth in the MTEF to ensure that the training programme is sustained.

Social sector EPWP incentive grant has decreased substantially from R13.637 million in 2016/17 to R3.557 million in 2017/18. The allocation increased to R7.505 million in 2020/21 from R4.598 million in 2019/20.

The 2019/20 MTEF reflects an increase allocation for Compensation of Employees to cater for the cost of living adjustment carry-through effects. Goods and Services' budget make provision of resources such as educational toys, stationary and Grade R packs.

The budget increases strongly over the 2020/21 MTEF for the implantation of Grade R due to this programme being a national priority.

The budget allocated under Transfers and subsidies to Non-profit institutions is:-

- To ensure that schools with Grade R classes are able to run their own affairs in line with the norms and standard for Grade R;
- To provide funding for Grade R in Community Sites;
- For Pre-Grade R (0-4yrs) allocation;
- For EPWP Incentive grant allocation.

Budget under Machinery and equipment caters for the indoors and outdoors equipment for Grade R in Public Schools.

Programme 6: Infrastructure Development

Description and objectives: To provide and maintain infrastructure facilities for the administration of schools. This programme consists of four sub-programmes:

- Administration: To provide office infrastructure development and maintenance for the administration;
- Public Ordinary Schools: To provide infrastructure development and maintenance in public ordinary schools (main stream and full service schools);
- Public Special Schools: To provide infrastructure development and maintenance in Public special schools;

- Early Childhood Development: To provide Infrastructure development and maintenance for early childhood development.

The budget grows significantly over the 2020/21 MTEF in line with the additional funding allocated with regard to the Education Infrastructure grant, particularly in the outer year.

These funds will go towards construction of new schools, rehabilitation and upgrading of existing facilities, provision of water and sanitation and well as procurement of mobile classrooms to address emergencies caused by sudden overcrowding experienced at some schools during re-opening.

In particular, the department is planning to attend to sanitation problems experienced by schools in village and townships and scarcity of water supply. The department is also planning to improve monitoring of infrastructure projects which are implemented by Department of Public Works and Roads in order to fast track delivery and spending.

The programme also includes EPWP Integrated Grant for payment of stipends to beneficiaries employed to provide support to the programme. This Conditional grant is allocated an amount of R2.035 million in 2020/21 financial year.

Programme 7 – Examination and Education Related services

Description and objectives: To provide the education institutions as a whole with examination and education related services. The programme has five sub-programmes with the following objectives:

- Payments to SETA: To provide employee human resource development (HRD) in accordance with the Skills Development Act;
- Professional Services: To provide in schools with departmentally managed support services;
- Special Projects: To provide for special departmentally managed intervention projects in the education system as a whole;
- External Examinations: To provide for departmentally managed examination services;
- Conditional Grant projects: To provide HIV/AIDS (Life skills) training and support to all learning institutions across the curriculum and projects specified by the National Department of Basic Education and applicable to more than one programme and funded with conditional grants.

Tables 8.25 and 8.26 below provide allocations per sub-programme as well as economic classification.

The spending focus over the MTEF is mainly to provide for departmentally managed examination services and district professional and support services to schools. Part of the budget also goes to the HIV and AIDS related programmes implemented by the department to all schools in the province through training and provision of resources and programs related to HIV Life skills.

The bulk of the budget is allocated to the sub-programme: Professional services at R658.419 million in 2019/20 to R690.839 million in 2020/21 to cater for subject advisory and other professional services rendered by the districts.

The second largest sub-programme is External Examinations which receives an allocation of R97.628 million in 2019/20 and R118.106 million in 2020/21. The programme coordinates planning, writing and monitoring of external examinations in the province and the greater part of it goes to printing, payment of examiners and other related professional and support staff.

Special Projects Sub-programme: Implementation of the Sanitary Dignity project, to be targeted at the intended population of school girls from Grade 4 upwards. The department receive the first funding for Sanitary Dignity project in 2019/20 of R14.908 million and has R16.427 million in 2020/21 and reflects healthy growth over the two outer years.

The programme also includes HIV and AIDS (Life-Skills Education) Grant. The grant declines by 10.9 per cent in the first year of the MTEF and grows modestly on the two outer years.

Goods and Services' budget grows substantially in 2020/21 financial year to cater for activities priorities such as Examination Services, Professional support services, Special Projects etc., as well as the inflationary increases over the period.

Transfers and subsidies under this programme represent payment to departmental agencies and accounts; Non-profit institutions and Households payments. Departmental agencies and accounts item reflect an increase over the 2020/21 MTEF. These transfers are made to ETDP SETA.

The budget allocated to Transfers and subsidies to Non-profit institutions is to provide educators and learners at schools with departmentally managed intervention projects. Transfers and subsidies to Households caters for staff exit costs.

The growth in Machinery and equipment in 2019/20 will assist the department in the acquisition of the tools of trade that are lacking. The portion of the budget goes towards procurement of ICT equipment for schools.

A substantial amount of the departmental budget goes towards training of staff, both office-based and school based personnel as required by the skills Development Act. The greater portion of the Human Resource Development funds is allocated under Programme 2: Public Ordinary School Education. These funds include amongst others, travelling and accommodations costs during training sessions.

The table above presents the departmental payments and estimates on training budget, it increases from R66.768 million in 2018/19 to R70.508 million in 2019/2020 financial year demonstrating the commitment of the department to develop the skills and competencies of its staff and improving service delivery.
