Affairs and Tourism

Head of Department

1 OVERVIEW

1.1 Vision

By 2030, the Province will have a growing, transformed, diversified and inclusive green economy in a sustainable environment.

1.2 Mission

A provincial catalyst for sustainable and inclusive economic development that promotes sound environmental management.

1.3 Core functions and responsibilities

The core functions of the department are summarised as follows:

- To drive economic growth and development in the Eastern Cape;
- To develop key sectors of the economy through the provincial economic development strategy;
- To develop and promote the provincial tourism sector;
- To provide consumer protection services, gambling and betting regulations, trade inspection and regulate the liquor industry; and
- To develop regulatory frameworks and monitor the implementation of policies for the protection of biodiversity and environment in the province.

1.4 Main Services

The department's core services are centred around economic and tourism development as well as environmental management. These services include but not limited to:

- Coordinate all strategic initiatives relating to the creation of decent work through inclusive economic
 growth; including the implementation of the relevant components of the National Development Plan,
 Vision 2030 and a number of sector strategies.
- Develop and utilise strategic frameworks and partnerships for the support and promotion of sustainable Small Medium and Micro Enterprises (SMME) and Cooperatives as well as support local procurement in the province.
- Promote economic development through the Provincial Economic Stimulus Fund (PESF).

- Promote economic growth and development of local economies in partnership with key stakeholders by aligning Local Economic Development (LED) initiatives with government programmes as well as creating and facilitating an enabling environment for implementation. This includes small town revitalisation and the development of township economies.
- Increase the number of jobs created through sector and cluster development as well as support sustainable initiatives, agro-processing, manufacturing and the revitalisation of old industrial parks.
- Facilitate the development of strategic infrastructure projects that will stimulate the competitiveness
 of priority sectors in the provincial economy. Focus is placed on socio-economic infrastructure,
 Operation Phakisa, the Black Industrialisation Programme and support of Strategic Infrastructure
 Programmes (SIPs).
- Support manufacturing and service industries through the promotion of special economic zones.
- Promote consumer rights, develop systems for effective regulation of the liquor, gambling and betting industries in the province.
- Provide credible information and databank that informs economic policy and planning processes.
- Support the development of tourism in the province for competitive product offerings.
- Establish, implement and maintain effective systems to manage the sustainable utilisation of biological resources and conservation of ecosystems.
- Establish, implement and maintain effective systems using environmental legislation to protect the environment and implement environmental awareness programmes to empower communities.
- Facilitate informed environmental decision-making through the implementation of comprehensive environmental planning and coordination mechanisms.

1.5 Demands for and expected changes in the services

DEDEAT is the centre for improving economic growth and sustainable development through collaboration, co-ordination, facilitation, integration and support provided to all the Economic Development (ED) cluster departments. The province is faced with high unemployment rate as well as high level of inequality and distribution of income. Furthermore, de-industrialisation and the poor investor climate create a challenging environment for the department to create economic opportunities for investment and associated job creation. The Provincial Economic Development Strategy (PEDS) and the Jobs Strategy require a new set of industrial skills in areas such as petrochemicals, green technology manufacturing, agro-processing and auto-manufacturing. The COVID-19 pandemic and subsequent lockdowns has impacted negatively all facets of social and economic activity. At the same time the budgets have been severely cut. This requires a different approach to how work is delivered together with other partners and stakeholders.

Over the 2021 MTEF, the focus will be on the coordination and implementation of key economic projects to stimulate economic growth and development in the province. DEDEAT will actively support all applicable infrastructure projects. The LRED programme will continue while the stimulus fund will focus on supported projects that were identified for funding. The Isiqalo fund will be shifted to the Office of the Premier for 2021/22. There is also a huge demand for SMME assistance with financing through the ECDC, which is unable to meet demand. However, funding challenges are impacting the advancement of loans to SMMEs. In 2021/22, the target is to support 70 SMME through non-financial support.

The department foresees an increased demand on skills development programmes and applications for financial and non-financial support from SMME and cooperatives. The department still aims to support about 120 cooperatives despite the challenges posed by COVID-19 restrictions. The expectation is that COVID-19 will be manageable with the roll out of the vaccines, which will result in greater interactions with prospective communities taking place. Although the skills development programmes at Eastern Cape Development Corporation (ECDC) and Coega Development Corporation (CDC) should be able to meet the demand for skills, the department may not have sufficient financial resources to meet the needs for

support to the SMMEs and cooperative sectors. The fourth industrial revolution requires new types of skills, which cannot be implemented by the department alone but supported in large part by the private sector.

1.6 The Acts, rules and regulations

The department operates in a highly regulated environment, with more than 100 Acts and Regulations that serve as operational boundaries of the DEDEAT Group (department and its six public entities). The following key acts, rules and regulations are applicable to the core functions of the department: Business Act, 1991 (Act No. 71 of 1991); Consumer Protection Act, 2008; Broad Based Black Economic Empowerment Amended Act, 2013; Co-operatives Bank Act, 2005; Amended Co-operatives Act, 2013; National Gambling and Betting Act, 2008; National Small Business Act, 1996; National Liquor Act, 2003; Eastern Cape Liquor Act, 2003; Unfair Business Act, 1998; National Credit Act, 2006; Eastern Cape Development Corporation Act, 1997; Eastern Cape Parks and Tourism Agency Act, 2010; Nature Conservation Ordinance, 1974; Environmental Management Act, 1998; Environmental Conservation Act, 1998; National Environmental Management Air Quality Act, 2004; National Environmental Management Biodiversity Act, 2004; National Environmental Management Integrated Coastal Management Act, 2008; National Environmental Management Waste Act, 2008; National Environmental Management Protected Areas Act, 2009; and Special Economic Zones Act, 2014.

The Eastern Cape Gambling Amendment Act, 2015 (Act No. 1 of 2015) amended the Eastern Cape Gambling Act, 1997 (Act No. 5 of 1997) and came into operation on 1 August 2016. The Eastern Cape Liquor Authority Act, 2018 (Act No. 4 of 2018); and the Eastern Cape Consumer Protection Act, 2018 (Act No. 3 of 2018).

1.7 Budget decisions

There has been tightening of the fiscal envelope caused by the weak economic environment. The downward economic growth forecast presents further challenges in government's ability to generate revenue to meet the ever-increasing service delivery targets. The current economic climate and the fiscal constraints placed on the limited provincial financial resources has directed the department to reprioritise its budget allocation within the programmes. The department continues to ensure that the budget decisions are aligned with provincial priorities pertaining to the need for intensified support and oversight of the public entities.

The departmental service delivery model has largely been impacted by the increasing burden caused by COVID-19 pandemic, and thus increasing the demand for support to SMMEs. Reprioritisation was undertaken within the programmes and sub-programmes to accommodate the budget cuts of 2021 MTEF without severely affecting the service delivery. Consequently, funds have been reprioritised from compensation of employees to achieve the government programme of action. However, this did not compromise the provision for warm bodies. The baseline reprioritisation exercise was necessary to redirect funds to enhance the assistance to SMMEs. Furthermore, the department set-aside funding for economic stimulus projects to implement COVID-19 recovery plan as pronounced by the President of the Republic of South Africa.

Budget decisions in the department are largely influenced by various factors that are prioritised in order to promote economic development, tourism and taking into consideration environmental affairs. The department will continue with its untiring efforts of donor mobilisation and working with private sector in order to leverage on their resources in projects where there are common goals. Cost containment measures will continue to be applied by the department over the 2021 MTEF and value for money spending.

1.8 Aligning departmental budgets to achieve government's prescribed outcomes

The departmental budget is supported by a Strategic Plan (SP), Annual Performance Plan (APP) that have been aligned to the Medium-Term Strategic Framework (MSTF) and Provincial Development Plan (PDP), Vision 2030. The department's work is influenced by a combination of economic and environmental

imperatives in the Eastern Cape; being a key alignment instrument for the international, national, provincial and local levels; and ensuring the structural organisation of the DEDEAT Group. These are all done within the available human and financial resource envelope.

The budget is aligned to Priority 1 (Transform the Economy to Serve the People; Priority 6 (South Africa, Africa and the World) and Priority 7 (Preconditions for Success: Electricity, Water, Rail & Ports and Climate Change). The DEDEAT strategy is strictly aligned to the MTSF priorities (Priorities 1, 4 and 6).

It is further aligned to the goals of the PDP, which are aligned to the work of the department and have been factored in the strategy development. These are Goal 1 (Innovative and inclusive growing economy); Goal 2 (An enabling infrastructure network); Goal 3 (Rural development and an innovative and high-value agriculture sector); Goal 4 (Human development) and Goal 5 (Environmental sustainability).

The department will continue to make use of policies and strategies that enhance economic, environmental management and tourism development. These include the Eastern Cape Biodiversity Strategy and Action Plan (ECBSAP), Climate Change Response Strategy, Provincial Sustainable Energy Strategy, National Biodiversity Economy Strategy, Integrated Waste Management Plans, Eastern Cape Youth Development Strategy, Provincial National Protected Area Expansion Strategy, Industry Action Plan, Agricultural Policy Action Plan, Tourism Master Implementation Plan, BBBEE policy, ECAIF Automotive Strategy 2024, AIDC Automotive Strategy 2024, EC Tooling sector strategy 2024, Provincial EC Integrated SMME Strategy 2015-2020, Co-operative development strategy 2019-2024, Business Incubation Strategy and EC Policy Speeches.

2 REVIEW OF THE CURRENT FINANCIAL YEAR (2020/21)

2.1 Key achievements

The department attract 2 investments in the automotive industry and logistic sectors with a value of R257 million and creating 190 jobs opportunities for the East London Industrial Zone against the annual target of 20 investors with a value of R2 billion investments in 2020/21. The department further attracted 4 new investors with a value of R49.8 million against the annual target of 7 new investors with a rand value of R360 million in 2020/21. Subsequently 13 041 job opportunities has been created mainly in the construction industry through Coega Development Corporation (CDC). The department further created 811 job opportunities by facilitating 7 development projects in the agricultural sector with a rand value of R1 billion for Eastern Cape Development Corporation against the annual target of 600 jobs with a rand value of R300 million. In contributing to skills and development, 2 531 people were trained against the annual target of 6 800 on prioritised sectors.

To rejuvenate the economic growth 12 projects were supported through PESF against the annual target of 16 projects.

Local and Regional Economic Development (LRED) processed 11 projects by the end of quarter 3. Agro-processing, manufacturing, and sustainable energy projects will also be reported at the end of the year since these are annual targets.

In respect of tourism development and transformation as well as heritage tourism, R1.8 million revenue was generated thorough accommodation establishment and activities in the reserves by ECPTA against the annual target of R8.8 million. The revenue was affected by the COVID-19 pandemic and lockdown restrictions.

In respect of the Integrated Economic Development Services, the department did not provide SMMEs with non-financial support in the form of business management training, development of business plans, and marketing against the annual target of 150 due to COVID-19 pandemic and lockdown restrictions.

In an effort to improve liquor regulation in the province, the department through the ECLB approved 95 per cent liquor license applications within the legislated 60 working days against the annual target of 100 per cent.

In order to improve compliance to environmental legislation, the department processed 100 per cent of the Environmental Impact Assessments (EIA) within legislated timeframes against the annual target of 100 per cent. In support of conservation efforts and creating awareness, 16 environmental awareness activities and 14 environmental capacity building were held throughout the province against the revised annual target of 10 and 9, respectively. Out of revised annual target of 700, 417 were achieved on number of biodiversity permits issued within legislated timeframes.

2.2 Key challenges

The key challenges over the past 9 months are as follows for DEDEAT group:

- The ELIDZ is experiencing non-commitment from Department of Trade and Industry (DTI) to fund
 capital projects in the future as well as lack of funding for Eastern Cape Information Technology
 Initiative (ECITI) to provide training to upskill people in the science and technology centre in the zone
 and to some projects not funded under SEZ guideline, which are non-infrastructure related.
- COEGA development did not attract much investors due to COVID-19 pandemic and dwindling economic growth forecast, lack of differentiated tariffs as well as further uncertainty with regard to re-application for Budget Facility for Infrastructure (BFI) funding for approval.
- The COVID-19 pandemic has severely impact the ability of SMMEs to be more sustainable, competitive and survival as some of them closed, which adversely impact the creation of jobs for the province.
- ECDC has been experiencing financial constraints due to reduction of allocation for small businesses and this affects the provision of development finance to SMMEs, renovation of properties and provision of certain staff benefits due to liquidity challenges.
- In respect of ECDC, the escalating of rental debts as a result of delays in legal processes, securing eviction court orders and enabling eviction on defaulting tenants, remains a serious challenge.
- Existing tenants' inadequacy and unaffordability coupled with them not willing to pay market related prices for the sale of houses they have been occupying for many years, resulted in delays in disposal of standalone houses.
- Backlogs in infrastructure development, securing medium to long term funding resulted in stop-start
 projects and delayed investor decisions and difficulties in attracting future investment into the
 province.

3 OUTLOOK FOR THE COMING FINANCIAL YEAR (2021/22)

The department aims to attract 7 investors with an approximate value of more than R1 billion in 2021/22 for East London Industrial Development Zone. The department further aims to grow the external service portfolio by R2.5 billion to attract 8 local and foreign direct investment with a value of R420 million in 2021/22 and creating 10 382 new job opportunities through Coega Development Corporation (CDC). The department also aims to facilitate 5 development projects with a rand value of R450 million and creating 1 050 job opportunities in 2021/22 through Eastern Cape Development Corporation (ECDC). These are less than the projected figures for 2020/21 due to the depressed economic climate. Work will continue to support 4 sustainable energy, 5 manufacturing and 3 agro-processing initiatives. Work will also continue to support at least 16 projects that were previously funded through the PESF. In contributing to skills and development, 3 227 people will be trained in 2021/22.

The department will support 250 SMMEs with non-financial support such as business training, development of plans and marketing and support 150 SMME's and 20 co-operatives with developmental finance. Furthermore, the department will donate resources in terms of Treasury Regulation 21.2.1 to informal traders and SMMEs that will have an impact on the economic development in the province. The department will accommodate these within the departmental budget through Programme 2. The number

of LRED projects funded will remain at 10 given the size of the allocation and previous experience with projects of this nature. Work on the oceans economy will continue with various streams although no additional resources have been allocated for this function. Due to deficiencies in data, the department will partner with Statistics South Africa in order to develop credible business intelligence. Five thematic areas have been identified for collaboration with Statistics South Africa, which will be implemented on a cost recovery basis on behalf of the department.

The department will continue to focus on tourism development and transformation as well as heritage tourism and aims to generate revenue. More efforts will be made to market the province through digital platforms. Through the ECLB the department will process all fully compliant liquor license applications, as well as undertake social responsibility programmes and reach thousands of people through liquor awareness interventions in the Province. The number of gambling licences has reached current legislative thresholds and 6 gambling licenses is targeted for 2021/22, to be issued through the ECGB. This will further enhance revenue collection going forward. A target of R215 million has been set for revenue collection through the ECGB. The ECGB will implement 5 Gambling Economic Opportunities Awareness Sessions throughout the province. Through the Consumer awareness programme, the department plans to do 6 consumer education programmes and other consumer protection initiatives.

In support of sustainable environmental management and sustainable economic development the department will strive to process all environmental-related applications within legislated timeframes. The department under biodiversity programme intends to issue more than 700 Threatened or Protected Species (TOPS) permits in 2021/22.

Environmental awareness and capacity building activities will continue to play an important role in educating the public on environmental issues. As such, the department will conduct a total of 24 environmental awareness and 24 capacity building activities throughout the province. There are also plans to create approximately 970 work opportunities through environmental programmes.

4 REPRIORITISATION

In budgeting, the cost containment measures and other cost cutting practice notes and circulars were implemented in particular to the non-core items. Furthermore, the department has effected reprioritisation in order to fund the departmental priorities. Base line reductions were implemented across the group by 6.6 per cent in 2021/22, by 6.2 per cent in 2022/23 and by 6.8 per cent in 2023/24. The cuts necessitated that the department conducts an in-depth reprioritisation process in order to ensure that key service delivery areas are protected whilst that has been difficult on the imposed cut, in particular to compensation of employees. Financial Management with the assistance of the Accounting Officer will continue to play an active role in ensuring that programmes are spending as projected and that the budget pressures are addressed, through the monitoring and oversight that will continue over the 2021 MTEF. The departmental budget is skewed towards the core business to meet the departmental objectives and mandate through core programmes and public entities.

5 PROCUREMENT

The department's procurement will be aligned to the departmental procurement plans and the SCM policy will be implemented in due course. The department will continue to liaise with Provincial Treasury for all matters relating to SCM for guidance. The department has taken a decision to capacitate the SCM staff on new policies, guidelines and new frameworks. The department will continue to improve the LED Strategy focusing on local procurement for almost all services. The department will further strengthen the wider participation by all target groups in various categories of procurement. The department has a plan to start the procurement process earlier in the financial year to accelerate service delivery. The department will procure a number of projects through the bidding and quotation procurements processes. The department will continue to outsource some functions due to the limited capacity within the department

however there will be an effort to transfer of skills to departmental staff taking into consideration the gap analysis.

6 RECEIPTS AND FINANCING

6.1 Summary of receipts

Table 2 above reflects the summary of departmental receipts which consist of equitable share, conditional grants and own revenue from 2017/18 to 2023/24. The receipts increased from R1.077 billion in 2017/18 to a revised estimate of R1.369 billion in 2020/21. This was due to the allocation for the PESF and COVID-19 economic recovery plan funding. In 2021/22, it increases by 23.4 per cent to R1.689 billion due to rescheduled funds from 2020/21 for PESF.

Table 3 above, Departmental own receipts decreased from R206.562 million in 2017/18 to a revised estimate of R116.824 million in the 2020/21 due to lock down restriction caused by COVID-19 pandemic. In 2021/22, the budget increases by 98.3 per cent to R227.714 million, which is due to an anticipated ease of lockdown restriction that will positively impact on the economic recovery in the short to long term growth forecast. The revenue drivers are casino taxes, liquor licences, sale of permit for environmental affairs and the implementation of gambling activities (e.g. bingo). The department is currently reviewing the Public Entities Acts and regulations that might have a positive revenue increase over time.

6.3 Official development assistance (donor funding)

Table 4: Summary of departmental donor funding receipts

Tables 4 and 5 above shows that the department estimates to spend donor funding of R14.240 million in 2020/21. This is mainly for managing school toilets waste in order to generate fertiliser and cooking gas for school garden and feeding schemes, which will be implemented by the ECDC at Amathole District Municipality. Not all funds received in 2019/20 from donors were spent. The remaining funds will be spent in 2020/21 despite no additional donor funds received in 2020/21.

7 PAYMENT SUMMARY

7.1 Key assumptions

The expectations for crafting this budget were to provide a framework to the departmental officials for setting priorities, determining service levels and allocating financial resources efficiently.

The following key assumptions were taken into consideration when this budget was formulated:

- Budgetary reduction on the Compensation of Employees (CoE) and other non-COE expenditure
 items are based on the cuts towards wage freeze reductions, fiscal consolidation reductions and
 adjustment to baseline for the new data in the PES formula amongst other things;
- Cost containment measures to be implemented as much as possible in order to ensure an efficient use of fiscal resources; and
- Inflation over the 2021 MTEF is 4.1 per cent in 2020/21, 4.4 per cent in 2022/23 and 4.5 per cent in 2023/24.

Tables 6 and 7 show the summary of payments and estimates per programme and economic classification. The actual expenditure increased from R1.077 billion in 2017/18 to a revised estimate of R1.369 billion in 2020/21 due to allocation of PESF and economic recovery funds post COVID-19 pandemic. The budget further increases by 23.4 per cent to R1.689 billion in 2020/21 due to the rescheduling of PESF.

Compensation of Employees increased from R240.050 million in 2017/18 to a revised estimate of R259.919 million in 2020/21 due to the annual improvement in conditions of services (ICS adjustment) throughout the years. In 2021/22, it increases by 13.4 per cent to R294.656 million in order to create human resource capacity in critical areas and the filling of critical vacant funded posts in the core programmes.

Expenditure on Goods and Services decreased from R125.059 million to a revised estimate of R109.650 million in 2020/21 mainly due to fiscal consolidation and reprioritisation. In 2021/22, the budget increases by 15.6 per cent to R126.784 million due to funds provided for purchasing of minor office furniture for the relocation to the new offices in Bhisho and computer related services.

Transfers to public entities are the main cost driver of expenditure. Transfers and Subsidies increased from R668.698 million in 2017/18 to a revised estimate of R967.473 million in 2020/21 due to the PESF allocation. In 2021/22, the budget increases by 29.7 per cent to R1.254 billion, which is due to further rescheduling of unspent funds from 2020/21 for PESF. This amount has been approved by EXCO as exclusive allocation to fund projects that will contribute to the GDP of the province.

Payments for Capital assets decreased from R43.764 million in 2017/18 to revised estimates of R32.190 million in 2020/21 due non-allocation of further funds for economic infrastructure capital projects. In 2020/21, the budget decreases by 57.8 per cent to R13.583 million due to shifting of Isiqalo Youth funds to Office of the Premier.

Tables 20 and 21 above reflect a stable expenditure increasing from R288.513 million in 2017/18 to a revised estimate of R330.627 million in 2020/21. In 2021/22, the budget increases by 13.2 per cent to R374.243 million.

Compensation of Employees increased from R71.940 million in 2017/18 to a revised estimate of R88.079 million in 2020/21 due to the filling of posts for environmental and law enforcement officers. In 2021/22, the budget increases by 5.9 per cent to R93.270 million to fill the critical post of the environmental officers.

Goods and Services decreased from R12.279 million in 2017/18 to a revised estimate of R10.148 million in 2020/21 due to lockdown restriction and COVID-19 pandemic. In 2021/22, the budget increases by 30.3 per cent to R13.226 million due the implementation and development of the Biodiversity programmes, Wetlands programmes and Environmental implementation of the Biodiversity Conservation Strategy Action Plan.

Transfers and Subsidies increased from R204.259 million in 2017/18 to R232.040 million in the 2020/21 revised estimates due to funding for environmental awareness and EPWP job creation programmes as well as the biodiversity and conservation projects along N2 Wild Coast road. In 2021/22, the budget increases by 15.4 per cent to R267.747 million due to allocation of PESF to the Eastern Cape Parks and Tourism Agency for the upgrade of game reserves and purchase of game drive motor vehicles.

Payment for Capital assets expenditure increased from R35 thousand in 2017/18 to a revised estimate of R350 thousand in 2020/21. In 2020/21, it decreases to zero due to the centralisation of funds to the Administration programme.
