Vote 05

Department: Public Works and Infrastructure

Table 1: Summary of departmental allocation

To be appropriated by Vote in 2023/24 R2 503 875 000

Responsible MEC MEC of Public Works and Infrastructure

Administrating Department Department of Public Works and Infrastructure

Accounting Officer Head of Department

1. Overview

1.1 Vision

Leader in provincial infrastructure delivery, coordination and socio-economic investment.

1.2 Mission

A custodian of provincial government immovable assets and a coordinator and provider of sustainable infrastructure resulting in socio-economic transformation and development.

1.3 Core functions and responsibilities

- Provide and manage government's building infrastructure including small town revitalisation through precincts development;
- Provision of accommodation;
- Provide leadership to and regulate the construction and property industries as well as supporting the related professions;
- Regulate and manage the implementation of the Government Immovable Asset Management Act, 2007 (GIAMA);
- Manage and lead the implementation of the Expanded Public Works Programme (EPWP);
- Implement the skills development initiatives such as the Accelerated Professional and Trade Competencies Development (APTCoD) programme aimed at developing artisan and professional skills within the province; and
- Perform Transversal Infrastructure coordination.

1.4 Main Services

- Provide technical assistance and support to the provincial government in respect of public infrastructure coordination and delivery;
- Provision of up-to-date reliable information relating to immovable assets in the province;
- Provision of office accommodation to support efficient service delivery objectives of provincial government;

- Management of provincial immovable assets to ensure optimal and efficient utilisation throughout their lifecycle from acquisition to disposal by:
 - Performing condition and performance assessment of the immovable asset to determine the effect of the condition of the asset's service delivery ability;
 - Maintenance of the province's immovable assets to ensure they remain in good working condition in order to meet the service delivery objectives of the provincial government;
 - Payment of rates and taxes for provincial assets; and
 - o Provision of facilities management services for provincial assets.
- Ensuring use and disposal of immovable assets in line with the government's socio-economic objectives including land reform, black economic empowerment, alleviation of poverty, job creation and the redistribution of wealth;
- Provision of job opportunities for the unemployed through the Expanded Public Works Programme (EPWP); and
- Provide empowerment and economic opportunities for the emerging contractors in the construction and property development sector through the Integrated Contractor Development Programme (ICDP).

1.5 Demands for and expected changes in the services

The reconfiguration of government in the 6th Administration brought about a change in the policy mandate of the department, adding to its historic role of being a custodian of immovable assets and implementer of infrastructure. At National level, the Department of Public Works (DPW) was assigned the following additional roles that, henceforth, led to its renaming to be the Department of Public Works and Infrastructure (DPWI):

- Transfer the Infrastructure Development Management System (IDMS) function from National Treasury (NT) to the NDPWI;
- Transfer the Presidential Infrastructure Coordinating Commission (PICC) from the Economic Development Department to the NDPWI; and
- Assume responsibility for coordinating all public infrastructure development.

At a provincial level, the department's name was changed from DPW to DPWI with its broadened mandate proclaimed through Proclamation Notice No 11 of 2021: Amendment to Schedule 2 of the Public Service Act: 1994 and gazetted on gazette No. 44416 of 6 April 2021. These new directives strongly foreground the broadened mandate of coordinating provincial social and economic infrastructure, which henceforth implies that the department will perform the following three broad roles:

- A 'Nerve Centre for provincial social and economic infrastructure delivery, maintenance coordination and investment';
- A 'Custodian of provincial immovable assets and infrastructure delivery'; and
- A driver of 'Socio-economic transformation in infrastructure delivery and investment'.

These are the roles that the department determined to reposition itself to perform with excellence and affirm its competitive advantage on. In so doing the department continues to align to the current provincial priorities of economic transformation and job creation, an enabling infrastructure, human capital development through education and skills development and developing a capable ethical and developmental state through its institutions.

The department continues to face pressure to deliver on its mandate and services due to increasing demand, threats, constraints and opportunities that continue to emerge from the environment in which it operates. These include, amongst other:

- Slow economic growth and stubbornly increasing unemployment;
- · Growing demands for accommodation by user departments;

- Ever-increasing need to address, in a cost effective manner, the crumbling government buildings infrastructure that pose a safety threat to service delivery;
- Growing expectations for improved infrastructure coordination and delivery that comes with the new directives mentioned above;
- Need to ensure that infrastructure expenditure is resulting in socio-economic reforms, sector transformation and development of livelihoods of poor communities; and
- The need to optimally utilise the provincial immovable asset portfolio and public infrastructure to facilitate socio-economic development of the Province and grow the economy of the Eastern Cape and the country at large.

1.6 The Acts, rules and regulations

The department derives its mandate from the Constitution (Part A of Schedule 4). In carrying out its core function and responsibilities, the department is governed by the following acts, rules and regulations: Government Immovable Asset Management Act (Act 19 of 2007) (GIAMA); Eastern Cape State Land Disposal Act (Act 7 of 2007); Infrastructure Development Act (Act 23 of 2014); Spatial Planning and Land Use Management Act, 2013 (Act No. 16 of 2013); Property Sector Transformation Charter, 2007 (Charter 2007); Construction Industry Development Board Act (Act 38 of 2000); Public Finance Management Act (Act 1 of 1999) and Regulations; Public Service Act (Act 103 of 1994) and Regulations 2001 as amended; Employment Equity Act (Act 55 of 1998); Labour Relations Act (Act 66 of 1995); Construction Regulations 2014; Expanded Public Works Programme Framework and Guidelines 2015; and the Supply Chain Management Frameworks.

1.7 Budget decisions

Notwithstanding the continued tight and shrinking fiscal envelope resulting from an unfavourable economic environment facing the country, the department continues to execute its mandate of being a custodian of provincial government immovable assets, coordinator and provider of sustainable infrastructure resulting in socio-economic transformation and development. The department continues to be affected by the high municipal tariff increases which are above inflation, increased infrastructure construction and maintenance costs, increasing immovable asset register in terms of market value and volume as well as continuous increase on rate per square meter by the landlords due to office space demands. The latter requires the department to survey and do the land audits in order to determine if the asset is the province's.

1.8 Aligning departmental budgets to achieve government's prescribed outcomes

In fulfilling its mandate, the department has identified outcomes / priorities in the National Development Plan (NDP) Vision 2030, Medium Term Strategic Framework (2020 - 2025) and Provincial Priorities[5-Year Implementation Plan of the Provincial Development Plan (PDP 2020 - 2025), which are aligned to the work the department will be undertaking in the 6^{th} administration.

With a budget allocation of R1.884 billion for **Programme 2** in 2023/24, the department contributes towards a poverty free, enterprising, economically growing and connected Eastern Cape Province, utilising the immovable assets and the enabling infrastructure entrusted into its custody. Key priorities are P-MTSF Priority 2: Economic Transformation and Job Creation, P-MTSF Priority 7: A better Africa and World; PDP Goal 1: Innovative and inclusive growing economy, PDP Goal 2: An enabling infrastructure network, PDP Goal 4: Human development, PDP Goal 5: Environmental sustainability and the EC 5-Point Recovery Plan for Infrastructure Development, Public Finances and Industrialisation. These are contributing towards SDG 8: Decent Work and Economic growth and SDG 9: Industry, Innovation and Infrastructure. The following are sector-aligned departmental outcomes through which these priorities are implemented under this programme:

Productive Assets

Productive use and management of State-Owned Assets (Land and Buildings) to create value through:

- Provision of fit for purpose facilities, which facilitates the improvement and attainment of service delivery objectives of client government departments and the delivery of frontline services that are suited to the requirements of the public;
- · Optimal utilisation in terms of their rate of occupancy; and
- Conducting condition assessments of the state facilities to ensure that they are properly maintained and kept fit for purpose.

Sustainable Infrastructure Investment

South Africa and the Eastern Cape has a huge stock of public infrastructure assets. However, one of the major concerns is that government has failed to derive the economic benefits from such a portfolio and that infrastructure investment has not been adequately addressed in a sustained manner. Various provincial policies and plans, acknowledge the critical role of infrastructure investment as being at the heart of economic recovery, advancing sustainable economic growth, reducing poverty and progressively changing the disparate spatial outcomes of the province. Even the post COVID-19 Economic Recovery Plan puts Infrastructure as being at the centre of economic recovery.

To this effect, the department will optimally utilise the provincial immovable asset portfolio and public infrastructure to facilitate socio-economic development of the Province and grow its economy and the country at large. This entails mobilising or increasing direct domestic and / or foreign investment as a lever for economic growth, enabling rapid development of high-potential economic sectors, enabling spatially balanced economy, sector transformation, revenue generation and mobilisation of funding to deliver sustainable Social Infrastructure (both capital and maintenance to replace ageing infrastructure).

Integrated Planning and Coordination

The new role of public infrastructure development and coordination bestowed to NDPWI and subsequently to the ECDPWI through the Proclamation's, broadened the mandate of the Public Works Sector to play a huge transversal role of coordinating public (social and economic) infrastructure alongside with other institutions of government. The ultimate aim is to improve the infrastructure development regime through undertaking the following functions:

- Coordinating integrated infrastructure planning, implementation, operations and maintenance of the enabling public infrastructure network;
- Improving infrastructure spatial and lifecycle management capability in the Province;
- Ensuring a transformed, integrated and innovative infrastructure service delivery;
- Ensuring functional governance arrangements that improve intergovernmental and partnership relations, incorporating the new District Delivery Model; and
- Coordinating effective government-wide socio-economic infrastructure investment.

Dignified User Experience

Department has two different client sectors namely the user department and the services recipient client. Each client has different needs and so the department will shape the service delivery accordingly to:

- Ensure best practice for each of the client sectors and delivery of public services in a dignified manner that focuses on equal access, good quality, adequate quantity, safety of beneficiaries, timeliness, value for money and fit for purpose; and
- Ensure accessible state facilities and public infrastructure in general to persons living with disabilities.

Transformed Built Environment

The department will radically pursue its third broad mandate of being a "Driver of Socio-Economic Transformation", through utilising infrastructure, properties and general procurement processes. All three programmes of the department contribute to this outcome of a transformed and inclusive property and construction industry through:

- Optimising entrepreneurship and job opportunities for socio-economic transformation of emerging SMMEs (Cooperatives, emerging contractors, town and village economies) and HDIs in general;
- Robust skills development for quality, efficient and sustainable infrastructure delivery, employability and / or active participation in the economic activities;
- Utilisation of government land and buildings in urban and rural areas as a catalyst for spatially balanced economy that facilitates socio-economic transformation and progressively changes the spatial disparities that are symbolic of apartheid geography of the province;
- Promoting Local Economic Development through procurement processes;
- Targeted youth employment and Broad-Based Black economic empowerment for designated groups;
 and
- Re-looking at the professional services within the built environment with the intention to address skills
 required within the various sectors and address skewed patterns of professional representations in the
 built environment professional councils.

Programme 3 with a budget of R136.862 million in 2023/24 addresses the United Nations and African Union priorities stated in SDG 8: Decent Work and Economic growth; SDG 4: Quality Education to ensure inclusive and equitable education and promote lifelong learning opportunities for all; P-MTSF Priority 2: Economic Transformation and Job Creation, P-MTSF Priority 3: Education, Skills and Health, PDP Goal 1: Innovative and inclusive growing economy, PDP Goal 2: An enabling infrastructure network, PDP Goal 4: Human development, and the EC 5 Point Recovery Plan- Equitable and Inclusive Transformation. These priorities will be implemented through the 2 sector-aligned departmental outcomes of "Transformed Built Environment and Optimised job Opportunities".

Optimised Work Opportunities

This outcome focuses on the restructuring some of the programmes of the department to optimise the creation of work opportunities in the delivery of infrastructure and through the Expanded Public Works Programme (EPWP) to create more decent and sustainable jobs. Furthermore, the department will coordinate the reporting of jobs created by all public bodies through EPWP and all Public Infrastructure including Strategic Infrastructure Projects (SIPs) and Provincial Strategic projects (PSPs), thereby contributing towards poverty alleviation and the reduction of unemployment.

Programme 1 with a budget of R482.806 million in 2023/24, focuses on ensuring that the department is capacitated to become a capable, ethical and developmental institution of the state. It means that, this programme should configure the technical functioning and day-to-day operations to meet the requirements of a technically efficient, strategically capable and ethically sound developmental institution that will ultimately address the legitimate needs and expectations of the people for a better quality of life and a decent standard of living.

This is in line with National Priority No. 1: Building a Capable, Ethical and Developmental State, aligned with the Provincial Goal No. 6 that talks to the establishment and strengthening of capable democratic institutions, which emanates from the African Union (AU) Agenda 2063. The department has also linked the AU agenda with the Sustainable Developmental goals SDG No. 16 that talks to Peace, Justice and Strong Institutions.

In creating an enabling environment and supporting all programmes to be capable of efficiently driving the developmental agenda of the country within the ambit of the department's mandate. The programme will focus on the following outcomes:

 Building a resilient and capacitated Public Works and Infrastructure by focusing on ensuring skilled and capable departmental workforce including, technical, leadership and management staff; prudent and sustainable management of departmental financial resources including implementation of a Local Economic Development Framework; improved governance and accountability; transformed, integrated and innovative service delivery; and agile technology and enabling systems.

- Responsive and citizen centric Public Works and Infrastructure: As an institution of a democratic
 government of the people, the department will focus on promoting an active, responsible citizenry
 through various democratic processes including, amongst others:
 - Engagement with citizens ensuring that they are listened to, taken into confidence in the capability
 of Public Works and Infrastructure to respond accordingly and serve them in line with its mandate;
 - Building a positive Public Works and Infrastructure brand;
 - Improved intergovernmental relations; and
 - Gender mainstreaming, empowerment and equality including development of youth and persons living with disability.

2. Review of the current financial year (2022/23)

2.1 Key achievements

Progress has been recorded by the department as at end of the 3rd quarter against its plans. The department continues to prioritise and focus on improving provision of its core services in an efficient, economical and effective manner focusing on the following strategic focus areas in line with its outcomes:

Resilient and capacitated Public Works and Infrastructure

As part of departments strengthening efforts of building institutional capability, not to only be a capable, developmental and ethical institution of government but also to gradually assume the expanded mandate of provincial infrastructure coordination, the department managed to register 27 candidates as professionals in different built environment disciplines against the annual target of 20. This contributes towards building human resource capacity in relation to the demands by public infrastructure sector and to close the skills gap in the built environment. However, the skills pipeline framework is still being developed at a national level and once rolled-out, the department will internalise the framework.

The department followed these steps in implementing the approved organisational structure: (Finalisation and endorsement of Migration Guidelines; Employee profiling; Person to post matching; Placement of employees into the new structure; and Filling of critical vacant posts). To date, all SMS staff were migrated as part of phase 1 and 18 SMS critical vacant posts were advertised, of which 16 appointments were made with different commencement dates from January to March 2023. Phase 2 involved finalisation of migration processes from level 2 to 12 staff, resulting in 47 critical funded positions identified as phase 2 of Annual Recruitment Plan (ARP), which was advertised in December 2022. These posts are currently at different stages of selection process with an aim to get them finalised by 31 March 2023.

The Provincial Infrastructure Governance Model was approved by the EXCO on 25 April 2022 and as a result, governance structures were set up as per the approved model.

The department is working in close collaboration with Provincial Infrastructure Management Office (PIMO) and other stakeholders (IDT, COEGA, etc.) to strengthen strategic alliances or collaboration relationships with partners that will assist with enhanced efficiency and effectiveness of the department's service delivery.

With regard to the Business Architecture modernisation, core district services have been mapped, Standard Operating Procedure's (SOP's) document and service standards developed. These process have been earmarked for automation in order to streamline them and make them more efficient. The User Requirements to inform system development have been gathered for the Maintenance Services; Condition Assessment; Quality Control; Income Lease Management; Construction Project Management; and Subsistence and Travel Claim. Furthermore, the three E-government solutions are currently under way namely: E-leave and E-submission are at an advanced stage with training and rollout being outstanding, while E-recruitment is successfully rolled-out and currently in use.

Responsive and citizen centric Public Works and Infrastructure

The department continues to focus on building a DPWI brand through ensuring that it has its ears on the ground, engages and serve the citizens of the province and cooperates with other institutions through strong intergovernmental relations (IGR). To this end, 95 per cent of resolutions from IGR structures were implemented.

Productive Assets

As part of productive use and management of state-owned immovable assets for provision of fit-for-purpose accommodation that will facilitate improved service delivery by client departments, the department continues to maintain the state facilities and providing a conducive working environment for government employees. As a result, a total of 250 facilities/buildings were provided to the users/client departments against the annual target of 350. To date, 127 utilisation inspections were concluded for office accommodation against the annual target of 150. In terms of the condition assessments on state-owned buildings, 242 were conducted against the target of 350.

In respect of the Provincial Office Accommodation Plan, the process has been completed after consultations with all user departments confirming their needs and requirements. The draft plan is based on 4 principles being: Adherence to average $15m^2$ per person estimated space utilisation; Consolidation into fewer buildings; Provision of more efficient, effective and sustainable workplaces; and Transformation of the property sector to increase black participation and new entrants into property market. Furthermore, the Provincial Infrastructure Working Group (PIWG) has established the Provincial Infrastructure Steering Committee (PISC) specifically for Office Accommodation. This structure will reconfirm the user department needs in compliance with the OHS and other legislations including the development of a long term maintenance plan.

DPWI's professional team has developed a master plan for the construction of office precincts and adapted a 2 phased approached for construction of office precinct at the Emaxesibeni Cluster, with phase 1 – Civil Works under construction and Phase 2 – Construction of 5 office blocks for 10 government departments (Block 1 procurement concluded, Block 2-5 in the design development stage). With regard to the Addo Office precinct, the site has been identified in Sarah Baartman and fenced in while the department is still consolidating the office needs of the sector departments. However, DPWI office needs has been concluded, the concept finalised and approved by the municipality. The department is still looking for the best suitable site for the development for Port St Johns, while continuing to consolidate the office needs of the sector departments. The Bhisho Office Precinct is under adjudication stage and will be going to IBAC in March 2023.

The department remains committed to implement and adhere to the Facilities Maintenance and Operations service standards and as a result, a service provider has been appointed to develop and implement a comprehensive Facilities Management model. Phase 1 is the establishment of a call centre that will deal with all maintenance related matters experienced by user departments in all state-owned and leased facilities.

Transformed Built Environment

The department continues to drive the radical socio-economic transformation agenda especially in transforming the built environment. For the period under review, 86 per cent of goods and services against the annual target of 95 per cent, while 68 per cent of infrastructure capital expenditure to annual target of 45 per cent, were sourced from local suppliers. The department remains committed to set aside 20 per cent of infrastructure budget for direct contracting Integrated Contractor Development Programme SMMEs (Exempted Micro Enterprises & Qualifying Small Enterprises). The implementation of the Transformation programme has resulted in more leases concluded with Black Landlords participating in the Property market. To date, 72 per cent of leases have been concluded with black landlords against the annual target of 60 per cent.

To this end, 106 contractors against the annual target of 100 emerging contractors were supported through various interventions. Through implementing various Enterprise Development Programmes including incubator programmes, 65 contractors in the Contractor Development Programme (ICDP) have been supported against the annual target of 160, with 41 contractors upgraded in the Construction Industry Development Board (CIDB) grading against the annual target of 80. The department has revised its strategy of property incubator programme and implementation of 50 enterprises will be fast tracked in quarter 4.

Sustainable Infrastructure Investment

In an effort to contribute towards economic growth and recovery of the province, the department continues to optimally utilize the provincial immovable asset portfolio to increase investment though interventions that facilitate revenue generation as well as mobilization of public investment as a lever for growth (i.e. investor mobilization). In this regard, an amount of R13.772 million has been collected against the annual target of R54.382 million. Various strategies were implemented in an effort to reduce utility bill, which resulted in 35 office buildings retrofitted with energy efficient lighting against the against the annual target of 50.

All planned 41 projects under construction are progressing according to schedule for client departments (Education, COGTA, Social Development and DSRAC) of which 1 is a new facility. There are 9 new facilities that have been renovated to date, against the annual target of 20.

Integrated Planning and Coordination

In improving the infrastructure development and delivery regime in the province, the department has contracted with Coega Development Cooperation (CDC) to drive the investment portfolio planning for the Province together with Khawuleza PMO. This is an effort to ensure the integrated coordination of planning, delivery, operation and maintenance of infrastructure throughout its lifecycle across all spheres of government.

Adequate data and information to confirm current performance against Immovable Asset Management objective (Basic Level)" has been planned by the department for the year under review, in order to improve the immovable asset management maturity index for asset register data. One acquisition was received i.e. ERF 26886EL with 5 vesting certificates. The total land parcels recorded in the asset register is 5 577.

To date, there are no state land surveys against the planned annual target of 450 surveys as a result of the late appointment of service providers. However, two service providers have been appointed and are currently on site.

Optimised work opportunities

The Department continues to focus on the restructuring of some of its programmes to amass the creation of work opportunities through the delivery of infrastructure through the Expanded Public Works Programme (EPWP), thereby contributing towards poverty alleviation and the reduction of unemployment.

To date, 3 507 work opportunities were created out of the annual target of 4 000. Furthermore, all of the planned 97 764 work opportunities through EPWP by all public bodies in the province.

2.2 Key challenges

The department faces a number of challenges and these include:

- Infrastructure budget placed under the responsibility of User/Client Departments that is often making it difficult to issue Works Orders in time and delays payments of Consultants/Contractors;
- Non-responsiveness / Poor response of the market which results in few awards made for long-term leasing and development of advertised state-owned sites in an effort to collect revenue; and
- Limited funding on Maintenance for state-owned facilities.

3. Outlook for the coming financial year (2023/24)

For the 2023/24 financial year, the department will continue to prioritise improving provision of its core services in an efficient, economical and effective manner. Changes in the demand for services compel the department to respond by focusing its attention on continuing to strengthen the efficiency of its normal operations, as well as the effectiveness of implementing the transformation agenda.

Focus will still be embedded on the identified strategic focus areas, in line with the following outcomes:

Resilient and capacitated Public Works and Infrastructure:

This focus area entails strengthening efforts of building institutional capability, not only be a capable, developmental and ethical institution of government, but also to gradually assume the expanded mandate of Provincial Infrastructure coordination through:

- Building human resource capacity in relation to the demands by public infrastructure sector and to close the skills gap in the property and built environment. Various initiatives will be undertaken aimed at providing single skills pipeline (Professional, Technical, Artisan and Managerial skills) for all public infrastructure institutions in the Province;
- Due to high demand for filling of operational posts, the department will consider possibilities of reducing
 development programmes intake, in order to come up reasonable Annual Recruitment Plan to be ready
 for advertisement in 2023. The focus will be on technical and professional posts (Engineers production,
 Architects, Quantity Surveyors, Works Inspectors, Environmental and Building specialists as well as
 Artisans in different trades). This will be done as part of the implementation of the new organisational
 structure that will contribute towards building institutional capability and also beefing up internal
 capacity;
- The department will continue with the implementation of the EXCO approved Provincial Infrastructure Governance Model. Focus for the 2023/24 financial year will be reviewing the model approved by EXCO on 25 April 2022 governance structures with the aim in ensuring functionality of the model;
- Implementation of the Stakeholder Management Strategy that will strengthen strategic alliances and forge collaborative relationships with partners/stakeholders that will assist to enhance efficiency and effectiveness of DPWI service delivery;
- The department has adopted a two-pronged approach in relation to Business Architecture modernisation. It started by modernising critical business processes in 2022/23, such as the maintenance process, lease management process, condition assessment process, as well as infrastructure coordination capability and project management processes that informed System Development requirements for the Electronic Document and Records Management as well as the Integrated Portfolio Management System. In 2023/24, the focus will be on the second leg of the modernisation process to drive the operational effectiveness, efficiencies and productivity. It shall be a collaborative approach by Organizational Development (OD), Information and Communication Technology (ICT) and Strategy and Systems (SS) to commence the process of automating these processes; and
- The modernisation process also inter-links with the drafting of the District Operating Model and its implementation is in place. The implementation plan is targeting 7 interventions for implementation in the 2023/24, which are the following:
 - Ideal Depot refurbishment of maintenance depots as per Ideal Depot Concept;
 - Income Lease Management Process Automation;
 - Electronic Construction Project Management System;
 - Implementing the new APTCOD Standard Operating Procedure;
 - Human Resource Capacitation of critical posts;
 - Implementation of the Electronic Visual Management; and
 - o Implementation of ICT infrastructure and systems in Depots.

Responsive and citizen centric Public Works and Infrastructure:

Focusing on building a DPWI brand through ensuring a strong relationship with Client departments, in order to effectively engage and serve the citizens of the Province. The Inter-Governmental Relations (IGR) office shall continue to track and report on resolutions affecting infrastructure taken at the Provincial sphere (such as in Clusters, Provincial Management, Premier's Coordinating Forum, and Cabinet Committees), as well as tracking of implementation of IGR resolutions taken at National and Local spheres of Government, such as MINMEC and Executive Council Resolutions from IGR structure at Local Level: DIMAFO.

Productive Assets:

The department shall continue to ensure productive use and management of state-owned immovable assets, which shall be outlined in the Provincial Accommodation Plan that will be approved in 2023/24. The plan seeks to align the overall portfolio with the service delivery objectives and mandate of the Eastern Cape Provincial Government. The objectives of the Provincial Office Accommodation Masterplan are as follows:

- Support government service delivery through:
 - Improved community access to government departments;
 - Enhanced departmental collaboration; and
 - o Provision of more efficient, effective and sustainable workplaces.
- Reduce the overall ongoing cost of government office accommodation through:
 - o Consolidation into fewer buildings;
 - o Adherence to policy of 15 square meter of floor space per person; and
 - New fit-out standards.
- Support future machinery of government reforms through:
 - More efficient and cost effective department restructuring and associated office relocations; and
 - Office accommodation shall be 100 per cent state-owned and District Office accommodation shall be 60 per cent state-owned accommodation.

Furthermore, the department has appointed a service provider to hand-hold the rolling out of an overall Facilities and Operations Management Framework, which will ensure collating of conditional assessment reports, as well as calculating cost estimates for renovation of current state-owned buildings and 10-year maintenance plans.

These interventions for the creation of value through productive use and management of state-owed assets is as follows:

- Provision of 250 facilities that are fit for purpose;
- Conducting 300 utilisation inspections for office accommodation;
- Conducting 300 condition assessments on state-owned buildings; and
- Implementing Facilities Maintenance and Operations (FM&O) service standards to ensure efficient, effective, professional provision of services especially for the Prestige Portfolio.

Transformed Built Environment:

The department will continue to drive its radical socio-economic transformation agenda especially in transforming the property and built environment in 2023/24 through:

- Sourcing 100 per cent of goods and services from local suppliers, manufacturers and / or contractors (Exempted Micro Enterprises (EMEs) and Qualifying Small Enterprises (QSEs)) targeting designated groups;
- Sourcing 60 per cent of infrastructure capital expenditure items from local suppliers, manufacturers and contractors (including EMEs and QSEs) targeting designated groups;

- Concluding 65 per cent of leases focusing on black developers;
- Supporting 100 emerging contractors; and
- Implementing various Enterprise Development programmes including incubator programmes (ICDP and Property Development Incubator Programmes) through:
 - Supporting 160 contractors from the ICDP, and
 - Supporting 30 enterprises in the Property Incubator Programme.

Sustainable Infrastructure Investment:

The department will contribute towards economic growth and recovery in the province, by optimally utilising the provincial immovable asset portfolio to increase investment though interventions that facilitate revenue generation, retention, district development, addressing spatial justice, small town revitalisation as well as mobilisation of public investment as a lever for growth (i.e. investor mobilisation). The interventions on the optimal utilisation of the provincial immovable asset portfolio shall be provided and updated in these categories:

- a) Nature and extent of the immovable property portfolio;
- b) Revenue streams and current status;
- c) Catalytic projects as well as their direct and indirect impact in the Province; and
- d) An update on the proceedings of the annual Property Development and Investment conference and key considerations.

Therefore, the following will be undertaken in 2023/24:

- Revenue to be generated is estimated at R79.157 million, whilst savings made through retention strategies are estimated at R20 million. Various cost reduction mechanisms include retrofitting of 30 buildings thus reducing utility bills, utilisation of internal instead of external services at 30/70 thus reducing consultant fees as well as continuous termination of leases due to relocating User departments in Office precincts;
- Continue to release property portfolio that has been selected and included in a provincial Bid Book for
 advertisement on open tender to attract investors (domestic and foreign) for long-term leasing for
 development and revenue generation. These properties include inter alia, vacant provincial state land,
 existing buildings, which can be used for commercial, industrial and various other uses. The project is
 aimed at benefiting mainly black-owned developers;
- Planning, designing, and implementing 105 infrastructure projects on behalf of client departments like Education, Health and Other (COGTA, Social Development, DSRAC, etc.) of which:
 - o 60 projects under construction;
 - o 20 projects planned for completion; and
 - 25 projects planned for maintenance (refurbished / renovation).

Integrated Planning and Coordination:

This entails improving the infrastructure development and delivery regime in the Province by ensuring integrated coordination of planning, delivery, operation and maintenance of infrastructure throughout its lifecycle across all spheres of government. This includes, amongst others:

- Embarking on coordinating integrated infrastructure investment portfolio planning including identification, ranking, prioritisation and packaging Public sector infrastructure in collaboration with the department's PIMO; and
- Surveying 150 un-surveyed State Land parcels.

Optimised work opportunities:

Through this outcome, the department will focus on the restructuring some of its programmes to amass the creation of work opportunities through the delivery of infrastructure using the Expanded Public Works Programme (EPWP), thereby contributing towards poverty alleviation and the reduction of unemployment.

In 2023/24, the department will create 4 000 EPWP work opportunities and continue to coordinate and report progress on the targeted 97 764 work opportunities created through EPWP by all public bodies in the province. Additionally, the department will continue to change the nature of jobs created through EPWP, by not only increasing the number but also the duration of work opportunities to ensure more decent and sustainable jobs.

4. Reprioritisation

In budgeting for non-core items all relevant cost-cutting circulars / practice notes continued to inform how the department allocates its budget. Funds were reprioritised from non-core items towards priority areas such as provision of consultants for electronic document management system, PIMO to compensate for the implementation for the new organogram migration process that took longer than anticipated, energy efficient or cost saving on municipal services, facilities management services and completion of land surveys and land audits. Furthermore, for the communication services contract, computer services, purchasing of office furniture and laptops for the projected incoming incumbents as well as operational activities and security services.

There were cost pressures on travelling and subsistence for the existing programmes of NYS and APTCoD flagship training needs, projects site visits and municipal visits for which the department reprioritised. In addition, the department reprioritisation for machinery and equipment made to top up on the white fleet functions regarding rental of vehicles (Government Fleet Management Services (GFMS)), maintenance of buildings.

5. Procurement

The department will procure a number of projects through the bidding process (90/10 thresholds). A number of projects will also be procured through the quotation process (80/20 thresholds). The method of procurement will be determined through discussions with the project leaders and will be in line with current Supply Chain Management Regulations including the Framework for Infrastructure Procurement and Delivery Management (FIPDM), which covers the supply chain management for infrastructure delivery. The procurement processes will be aligned according to the implementation date of the project as listed on the department's procurement plan.

6. Receipts and financing

6.1 Summary of receipts

Table 2: Summary of departmental receipts

| | | Outcome | | Main appropriation | Adjusted appropriation | Revised estimate | Medi | um-term estimat | es | % change from 2022/23 |

| Departmental receipts | 32 940 | 17 325 | 14 776 | 54 382 | 54 382 | 54 383 | 79 157 | 92 778 | 95 510 | 45.6 |

Table 2 shows the source of funding for the department from 2019/20 to 2025/26. The main source of funding is the equitable share. In 2023/24 the equitable share allocation decreases by 5.9 per cent to R2.493 billion from the 2022/23 revised estimate of R2.650 billion. Conditional grant allocation decreases by 22.3 per cent from revised estimate of R13.502 million due to reduced number of work opportunities created in 2022/23.

6.2 Departmental receipts collection

Table 3: Summary of departmental receipts and collection

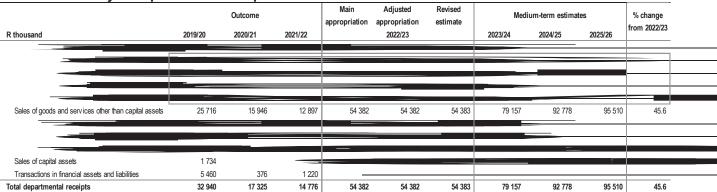

Table 3 above shows that the department collected R32.940 million in 2019/20 which increased to a revised estimate of R54.383 million in 2022/23. In 2023/24, own receipts increase by 45.6 per cent to R79.157 million from the 2022/23 revised estimate. The increase is due to the planned implementation of the revenue strategy initiatives, which includes the collection of rental from the identified various revenue streams that are part of the revenue strategies.

7. Payment summary

7.1 Key assumptions

The following assumptions were taken into consideration when this budget was formulated:

- National and Provincial Treasury Instructions on cost containment measures;
- Personnel related adjustments have been taken into account in line with adjustments contained in the Budget Guidelines; and
- The CPI inflation projections have been taken into account for non-personnel budgets.

Tables 4 and 5 show the summary of payments and estimates for the department per programme and economic classification. The total payments grew from R2.429 billion in 2019/20 to a revised estimate of R2.664 billion in 2022/23. The increase is attributable to normal inflationary adjustments. In 2023/24, the budget decreases by 6 per cent to R2.503 billion when compared to the 2022/23 revised estimate due to once off allocation for the municipal rates and taxes accruals during the 2022/23 Adjustments Budget.

Compensation of Employees expenditure decreased from R873.722 million in 2019/20 to a revised estimate of R818.106 million in 2022/23. The decrease is due to the budget reclassification for both NYS & APTCoD learners to Goods and Services. In 2023/24, the budget increases by 6.0 per cent to R867.598 million when compared to the 2022/23 revised estimate due to the provision to fill critical posts as well as the additional allocation for the wage agreement.

Expenditure on Goods and Services increased from R770.771 million in 2019/20 to a revised estimate of R947.935 million in 2022/23. The increase is due to the escalating demand for office space and the improvement in the property management portfolio as well as the reclassification of the NYS & APTCoD learners. In 2023/24, the budget decreases by 11.8 per cent to R836.427 million when compared to the 2022/23 revised estimate as a result of the project management unit scope coming to an end; once off allocation for maintenance to deal with the prestige portfolio backlog as well as reduced number of land audits and surveys. Furthermore, the Eastern Cape Provincial Government decided to consolidate all Microsoft Enterprise Agreements into one provincial Enterprise Agreement (EA) managed centrally to the Office of the Premier (OTP) with effective date of 1 April 2023. This resulted in the Microsoft licenses function shift from the department to Office of the Premier.

Transfers and Subsidies increased from R529.916 million in 2019/20 to a revised estimate of R687.438 million in 2022/23. This increase is attributable to the impact of higher municipal valuations that increases the property rates and taxes as well as the broadening of the property portfolio owned by the province. In 2023/24, the budget decreases by 19.1 per cent to R556.044 million when compared to the 2022/23 revised estimate due to once off allocation for the municipal rates and taxes accruals during the 2022/23 Adjustments Budget and the department decision to focus on internal staff capacitation and non-renewal of the departmental early retirement policy, which decreased leave gratuities under Households significantly.

Payments for Capital Assets decreased from R254.932 million in 2019/20 to a revised estimate of R210.937 million in 2022/23. The decrease is as a result of the once off allocations for acquiring and building of properties over the years. In 2023/24, the budget increases by 15.6 per cent to R243.806 million when compared to the 2022/23 revised estimate due to the department's focus on the district development through office complexes.

Table 6 above provides the summary of expenditure by the department in each of the benefiting municipalities and the two metros. Expenditure in the municipalities accommodates key projects (i.e. office accommodation, security services, payment of rates and taxes, district development and maintenance) as well as empowerment of communities through interventions such as EPWP programmes. Over the 2023 MTEF, the bulk of the department's service delivery spending is concentrated in mainly the two metros and district municipality area of OR Tambo receiving the most followed by Amatole and Alfred Nzo.

7.5 Infrastructure payments

7.5.1 Departmental infrastructure payments

^{1.} Total provincial infrastructure is the sum of "Capital" plus "Recurrent maintenance". This includes non infrastructure items.

Table 7 above presents a summary of infrastructure payments and its estimates by category. A more detailed listing of infrastructure projects to be undertaken by the department can be found under Annexure B5 of this chapter.

The total departmental infrastructure spending decrease marginally from R266.002 million in 2019/20 to a revised estimate of R260.972 million in 2022/23. In 2023/24, the budget increases by 5 per cent from to R274.139 million when compared to the 2022/23 revised estimate due to the departments focus on the district development through office complexes where new offices will be constructed.

7.5.2 Maintenance

Maintenance and repairs increased from R40.113 million in 2019/20 to a revised estimate of R70.166 million in 2022/23 due to fast tracked maintenance to deal with the prestige portfolio backlog. In 2023/24, the budget decreases by 26.7 per cent to R51.464 million when compared to the 2022/23 revised estimate due to key maintenance backlog performed in 2022/23.

7.5.3 Upgrades and additions

Upgrades and additions decreased from R159.254 million to a revised estimate of R85.258 million in 2022/23. In 2023/24, the budget increases by 16.4 per cent to R99.200 million when compared to the 2022/23 revised estimate due to the department preserving its infrastructure assets.

7.5.4 New infrastructure assets

The new infrastructure assets increase from R66.635 million to a revised estimate of R105.548 million. In 2023/24, the budget increases by 17 per cent to R123.475 million when compared to the 2022/23 revised estimate due to the departments focus on District Development Programme of providing office accommodation.

7.6 Conditional grant payments

7.6.1 Conditional grant payments by grant

Table 8: Summary of departmental conditional grants by grant

| | | Outcome | | Main appropriation | Adjusted appropriation | Revised estimate | Medium | -term estimat | es | % change |
|---|---------|---------|---------|--------------------|------------------------|------------------|---------|---------------|---------|--------------|
| R thousand | 2019/20 | 2020/21 | 2021/22 | | 2022/23 | | 2023/24 | 2024/25 | 2025/26 | from 2022/23 |
| Expanded Public Works Programme Intergrated Grant for Provinces | 6 814 | 8 644 | 10 272 | 13 502 | 13 502 | 13 502 | 10 485 | - | - | (22.3) |
| Total | 6 814 | 8 644 | 10 272 | 13 502 | 13 502 | 13 502 | 10 485 | | | (22.3) |

Conditional grant payments by economic classification

Table 9: Summary of departmental conditional grants by economic classification

| | | | Main appropriation | Adjusted appropriation | Revised estimate | Medium | -term estimat | es | % change from 2022/23 |
|---|------------|-------------|-----------------------|------------------------|------------------|-------------|---------------|---------|--------------------------|
| R thousand | 2020/21 | 2021/22 | | 2022/23 | | 2023/24 | 2024/25 | 2025/26 | |
| Current payments | 8 644 | 10 272 | 13 502 | 13 502 | 13 502 | 10 485 | | | (22.3) |
| Compensation of employees Goods and services | - 8 644 | - 10 272 | - 13 502 | - 13 502 | - 13 502 | - 10 485 | - | - | (22.3) |
| Interest and rent on land Transfers and subsidies | - | - | - | - | - | - | - | | |
| Provinces and municipalities Households | - | - | - | - | - | | - | - | |
| Payments for capital assets | - | | - | | | | | | |
| Buildings and other fixed structures Machinery and equipment | - | - | - | - | - | - | - | - | |
| Software and other intangible assets | - | - | - | - | - | - | - | - | |
| Payments for financial assets | - | - | - | | | - | | | |
| Total economic classification | 8 644 | 10 272 | 13 502 | 13 502 | 13 502 | 10 485 | | | (22.3) |

The grant is the department's share of the Expanded Public Works Incentive grant to provinces based on the Full Time Equivalent (FTEs) job opportunities created by the department. This conditional grant increased from R6.814 million in 2019/20 to a revised estimate of R13.502 million. In 2023/24, the budget decreases by 22.3 per cent to R10.485 million when compared to the 2022/23 revised estimate due to the reduced number of work opportunities created in 2022/23.

7.7 Transfers

7.7.1 Transfers to local government by category

Table 10: Transfers to municipalities by transfer type and category

| | | Outcome | | Main appropriation | Adjusted appropriation | Revised estimate | Medi | um-term estimat | es | % change from 2022/23 |
|------------------------------|---------|---------|---------|--------------------|------------------------|------------------|---------|-----------------|---------|--------------------------|
| R thousand | 2019/20 | 2020/21 | 2021/22 | | 2022/23 | | 2023/24 | 2024/25 | 2025/26 | 110111 2022/23 |
| Category A | 229 505 | 255 723 | 285 022 | 258 584 | 292 875 | 292 875 | 232 238 | 277 766 | 250 791 | (20.7) |
| Category B | 273 526 | 280 630 | 312 838 | 332 045 | 371 938 | 371 938 | 307 888 | 326 360 | 358 996 | (17.2) |
| Category C | 4 308 | 6 471 | 3 999 | 5 373 | 1 189 | 1 189 | 4 482 | 4 683 | 5 152 | 277.0 |
| | | | | | | | | | | |
| Total departmental transfers | 507 339 | 542 824 | 601 859 | 596 002 | 666 002 | 666 002 | 544 608 | 608 809 | 614 939 | (18.2) |

Table 10 above shows the summary of transfers in respect of payment of property rates and taxes for provincial owned properties. Transfers to municipalities increased from R507.339 million in 2019/20 to a revised estimate of R666.002 million. This increase is attributable to the broadening of the property portfolio owned by the province as well as the impact of higher municipal valuations that increases the property rates and taxes. In 2023/24, the budget decreases by 18.2 per cent to R544.608 million when compared to the 2022/23 revised estimate due to once off allocation for the settlement of municipal rates and taxes accruals.

8. Programme description

8.1 Programme 1: Administration

Objectives: Provides administrative strategic financial and corporate support services in order to ensure that it delivers on its mandate in an integrated efficient effective and sustainable manner. The programme is divided into 3 sub-programmes as follows:

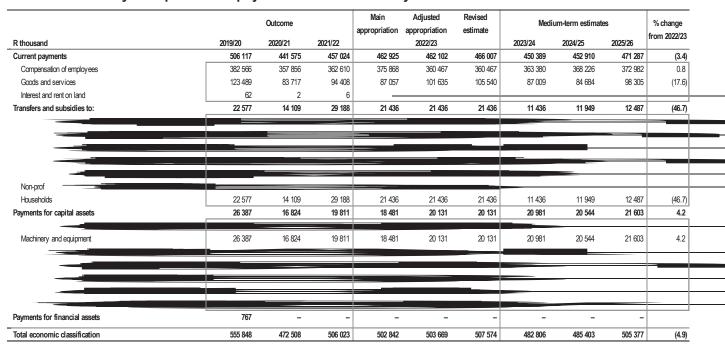

• Office of the MEC: To render advisory, secretarial, administrative and office support service;

- Management of the Department: Overall management and support of the department; and
- **Corporate Support:** Manages personnel, procurement, finance administration and related support services.

Table 11: Summary of departmental payments and estimates sub-programme: P1 - Administration

| | | Outcome | | Main appropriation | Adjusted appropriation | Revised estimate | Med | dium-term estimates | | % change from |
|---------------------------------|---------|---------|---------|--------------------|------------------------|------------------|---------|---------------------|---------|---------------|
| R thousand | 2019/20 | 2020/21 | 2021/22 | | 2022/23 | | 2023/24 | 2024/25 | 2025/26 | 2022/23 |
| 1. Office of the MEC | 10 807 | 9 821 | 10 116 | 11 255 | 10 999 | 10 999 | 9 889 | 10 088 | 10 277 | (10.1) |

| 3. Corporate Support | 526 082 | 446 734 | 477 165 | 469 484 | 472 687 | 476 592 | 443 274 | 444 944 | 463 960 | (7.0) |

Table 12: Summary of departmental payments and estimates by economic classification:

Tables 11 and 12 above summarise the expenditure and budgeted estimates relating to programme over the period 2019/20 to 2025/26 per sub-programme and economic classification. Expenditure decreases from R558.848 million in 2019/20 to a revised estimate of R507.574 million due to decrease in goods and services. In 2023/24, the budget decreases by 4.9 per cent to R482.806 million when compared to the 2022/23 revised estimate. The decreases are as a result of reprioritisation from non-core items to the service delivery programmes as well as focus on capacitating core programmes.

Compensation of Employees expenditure decreased from R382.566 million in 2019/20 to a revised estimate of R360.467 million. In 2023/24, the budget increases marginally by 0.8 per cent to R363.380 million from the 2022/23 revised estimate due to the additional allocation for the wage agreement as well as the implementation of the alignment of personnel as a result of the newly approved organisational structure on Persal.

Goods and Services decreased from R123.489 million in 2019/20 to a revised estimate of R105.540 million in 2022/23. In 2023/24, the budget decreases by 17.6 per cent to R87.009 million when compared to the 2022/23 revised estimate. The decrease is attributed to the reduction of audit fees due to finalisation of the COVID-19 audit, reduction in consultants as well as the shifting of cleaning services to Facilities Management in Programme 2 as per the new organogram.

Transfers and Subsidies decreased from R22.577 million in 2019/20 to a revised estimate of R21.436 million in 2022/23. In 2023/24, the budget further decreases by 46.7 per cent to R11.436 million when compared to the 2022/23 revised estimate due to the focus on internal staff capacitation and non-renewal of the departmental early retirement policy.

Payment for Capital Assets decreased from R26.387 million in 2019/20 to a revised estimate of R20.131 million. In 2023/24, budget increases by 4.2 per cent to R20.981 million when compared to the 2022/23 revised estimate due to continued provision to replace the ageing ICT equipment.

8.2 Programme 2: Public Works Infrastructure

Objectives: To provide a balanced and equitable provincial government building infrastructure by promoting accessibility that is sustainable integrated and environmentally sensitive, which supports economic development and social empowerment. The programme is divided into 7 sub-programmes as follows:

- **Programme support:** To manage the activities of the professional components strategically as well as to render an administrative support services to the professional components with regard to finance matters and supply chain management;
- **Planning:** Manages the demand for infrastructure development monitoring and enforcement of the built sector as well as property management norms and standards;
- **Design:** Designs new and upgrade building infrastructure with the intention to ensure that plans are ready for funding and will include only 4 of the 6 procab stages (namely stages 1 to 4 of project inception, concept design, development and projects documentation, respectively);
- **Construction:** Responsible for new construction upgrading and refurbishment and it entails 2 of the procab stages (namely stage 5 of construction period and contract administration and stage 6 of project close out and debriefing);
- **Maintenance:** Responsible mainly for four maintenance activities namely: routine maintenance, scheduled maintenance, alterations and conditions assessment of all buildings;
- **Immovable Asset Management:** Manages the property portfolio of the province by establishing and managing the provincial strategic and infrastructure plan to provide accommodation for all provincial departments and other institutions as well as acquire and dispose of accommodation in terms of the plans; and
- **Facility Operations:** Manages the operations of buildings (including facilities management, cleaning, greening, beautification, interior decoration and designs, and day to day preventative maintenance of electronic, electrical and mechanical equipment) and all services related to managing a building.

| Software and other intangible assets | | | | | | | | | | |
| Payments for financial assets | - | - | - | - | - | - | - | - | - | |
| Total economic classification | 1 756 297 | 1 750 053 | 1 855 492 | 1 933 105 | 2 022 651 | 2 019 399 | 1 884 207 | 1 971 413 | 2 009 406 | (6.7) |

Tables 13 and 14 above show that expenditure increased from R1.756 billion in 2019/20 to a revised estimate of R2.019 billion. In 2023/24, the budget decreases by 6.7 per cent to R1.884 billion when compared to the 2022/23 revised estimate due to the limited funding for the rates and taxes portfolio and the project management unit scope coming to an end.

Compensation of Employees decreased from R414.108 million in 2019/20 to a revised estimate of R404.143 million in 2022/23. The decrease is attributable to the prolonged processes on the implementation of the new approved organisation. In 2023/24, the budget increases by 10.8 per cent from to R447.886 million when compared to the 2022/23 revised estimate. The increase is due to the provision of the vacant critical positions to build capacity within the property portfolio and buildings infrastructure as well as the allocation of the wage agreement.

Goods and Services spending increased from R606.158 million in 2019/20 to a revised estimate of R762.948 million in 2022/23 due to the increased office space demand, increased rates for the security services industry, focus on land audits and surveys as well as the support provided by the project management unit in the management of Provincial Infrastructure delivery. In 2023/24, the budget decreases by 12.0 per cent to R671.388 million when compared to the 2022/23 revised estimate due to the project management unit scope coming to an end, once off allocation for maintenance to deal with the prestige portfolio backlog as well as reduced number land audits and surveys.

Transfers and Subsidies increased from R507.339 million in 2019/20 to a revised estimate of R666.002 million in 2022/23. This increase is attributable to the impact of higher municipal valuations that increases the property rates and taxes as well as the broadening of property portfolio owned by the province. In 2023/24, the budget decreases by 18.2 per cent to R544.608 million when compared to the 2022/23 revised estimate due to the once off allocation for the municipal rates and taxes accruals during the 2022/23 Adjustments Budget.

Payment for Capital Assets decreased from R228.516 million in 2019/20 to the revised estimate of R186.306 million in 2022/23 due to once off acquisition of properties/buildings in the previous years. In 2023/24, the budget increases by 18.3 per cent to R220.325 million when compared to the 2022/23 revised estimate as a result of the departments focus on the district development through office complexes.

8.2.1 Service Delivery Measures

Table 15: Selected service delivery measures for the programme:

| % of leases concluded with Black Developers | 60%* | 65%* | 40%* | 20%* |
| Number of utilisation inspections conducted for office accommodation | 295 | 300 | | |
| Number of condition assessments conducted on state-owned buildings | 300 | 300 | 300 | 300 |
| Number of energy efficient DPW buildings | 50 | 30 | 35 | 40 |

Table 15 above shows the planned service delivery measures for the 2023 MTEF period for the Public Works Infrastructure programme. The department has endeavoured to prioritise resource towards the attainment of these key service delivery measures.

8.3 Programme 3: Expanded Public Works Programme

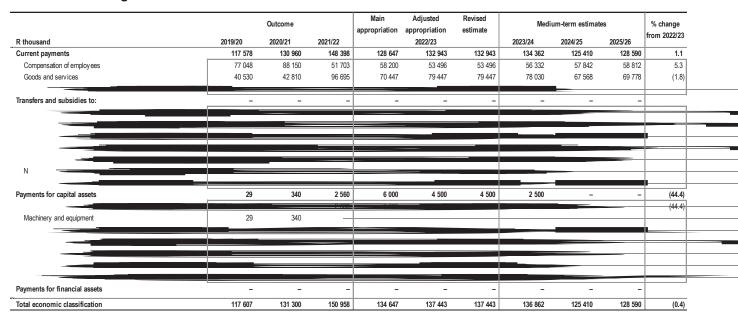

Objectives: To manage the implementation of programmes and strategies that lead to the development and empowerment of communities and contractors. This includes the provincial management and coordination of the Expanded Public Works Programme. The programme is divided into 4 subprogrammes:

- Programme Support: Overall management and support of the branch including provision of back
 office technical administration provision of built sector knowledge, management services, finance, built
 sector supply chain management and management of stores telecommunications as well as serving
 as the coordinating division of the branch;
- **Community Development:** Programmes to bring about the development and empowerment of impoverished communities;
- **Innovation and Empowerment:** To facilitate contractor development, empowerment and training including Learnerships; and
- **Co-ordination and monitoring:** To manage and coordinate the implementation of EPWP projects and programmes as well as monitor compliance to EPWP guidelines by all sectors.

Table 16: Summary of departmental payments and estimates sub-programme: P3 – Expanded Public Works Programme

Table 17: Summary of departmental payments and estimates by economic classification: P3 – Expanded Public Works Programme

Tables 16 and 17 show that expenditure increased from R117.607 million in 2019/20 to a revised estimate of R137.443 million in 2022/23. In 2023/24, the programme's budget decreases marginally by 0.4 per cent to R136.862 million due to the reduced EPWP Incentive conditional grant.

Compensation of Employees decreased from R77.048 million in 2019/20 to a revised estimate of R53.496 million in 2022/23 due to budget reclassification for both NYS & APTCoD learners to Goods and Services. In 2023/24, the budget increases by 5.3 per cent to R56.332 million when compared to the 2022/23 revised estimate due to the provision of the salary agreement as well as the filling of the vacant critical posts.

Goods and Services increased from R40.530 million in 2019/20 to a revised estimate of R79.447 million. The increase is attributable to budget reclassification for both NYS & APTCoD learners to Goods and Services as well as increase in the grant allocation. In 2023/24, the budget decreases marginally by 1.8 per cent to R78.030 million when compared to the 2022/23 revised estimate due to reduced allocation of the EPWP Incentive grant as a result of reduced number of work opportunities created in 2022/23.

Payments for Capital Assets increased from R29 thousand in 2019/20 to a revised estimate of R4.500 million due to the provision for the Training Centre Support Programme. In 2023/24, the budget decreases by 44.4 per cent to R2.500 million when compared to the 2022/23 revised estimate. However, the department will continue with the implementation of the Training Centre Support Programme.

8.3.1 Service Delivery Measures

Table 18: Selected service delivery measures for the programme:

| | Estimated performance | Med | lium-term estimates | i |
|---|-----------------------|---------|---------------------|---------|
| Programme performance measures | 2022/23 | 2023/24 | 2024/25 | 2025/26 |
| Number of interventions implemented to support Public Bodies | 7 | 7 | 7 | 7 |
| Number of work opportunities created by Provincial Public Works and Infrastructure | 4 000 | 4 000 | 4 040 | 4 100 |
| Number of ICDP contractors supported | 160 | 160 | 160 | 160 |
| Number of emerging contractors supported | 100 | 100 | 100 | 100 |
| Number of ICDP contractors upgraded in Construction Industry Development Board (CIDB) grading | 50 | 20 | 60 | 80 |
| Number of SMME Development Strategy activities implemented | 4 | 1 | 1 | 1 |
| Number of enterprises supported in the Property Incubator Programme | 50 | 20 | 60 | 80 |
| Number of small speciality contractors established | 4 | 1 | 1 | 1 |
| Number of participants in the APTCoD programme | 1 000 | 1 060 | 1 060 | 1 100 |
| Number of APTCoD learners passed trade test | 50 | 100 | 110 | 150 |
| Number of NYS learners trained | 150 | 150 | 150 | 150 |
| Number of NYS learners passed RPL | 50 | 50 | 60 | 70 |
| Number of Public Bodies reporting on EPWP targets in the Province | 50 | 50 | 50 | 50 |

Table 18 above reflects the service delivery measures in respect of EPWP Programme for the 2023 MTEF period. Key will be the continuation of job creation skills development and support to public bodies.

1. Personnel numbers includes all filled posts together with those posts additional to the approved establishment

Table 19 above shows that personnel number decreased from 3 052 at a cost of R873.722 million in 2019/20 to a revised estimate of 1 856 at cost of R818.106 million in 2022/23 revised estimate. In 2023/24, the personnel number increases to 2 000 at a cost of R867.598 million as the department plans to build its internal capacity to be the nerve centre of infrastructure in the province.

9.2 Training
