Department of Public Works and Infrastructure

To be appropriated by Vote in 2023/24	R1 751 317 000
Responsible MEC	MEC of Public Works and Infrastructure
Administrating Department	Department of Public Works and Infrastructure
Accounting Officer	Head Department of Public Works and Infrastructure

1. Overview

1.1 Vision

A prosperous Free State through facilitation of sustainable built infrastructure.

1.2 Mission

Coordination, provision, promotion of built infrastructure and sound management of assets.

1.3 Core function and responsibilities

- Public Works and Infrastructure, maintenance and construction as well as property management including the provision of office accommodation, utility and rental payments and provisioning of security services;
- Coordination and monitoring of the implementation of Expanded Public Works Programmes.

Main services

The Department of Public Works and Infrastructure remains the implementing agent for client Departments with regard to construction and maintenance of provincial infrastructure.

Acts, rules and regulations

Amongst the generic provincial and national Acts and policies, the following legislation and directives are key to the functioning of the Department:

- Constitution of the Republic of South Africa (Act 108 of 1996)
- Public Finance Management Act, 1999 (Act No. 1 of 1999) as amended by Public Finance Management Amendment Act, 1999 (Act No. 29 of 1999) and the related Treasury Regulations
- Public Service Act,1994 (as amended)
- Public Service Regulations, 2016
- Public Administration Management Act (Act 11 of 2014)
- Annual Division of Revenue Act
- Promotion of Access to Information Act, 2000 (Act No. 2 of 2000)
- Promotion of Administrative Justice Act, 2000 (Act No. 3 of 2000)
- Skills Development Act, 2003 (Act No. 31 of 2003)
- Local Government Demarcation Act, 1998 (Act No. 27 of 1998)
- Local Government Municipal Structures Act, 1998 (Act No. 117 of 1998)
- Occupational Health and Safety Act, 1993 (Act No. 85 of 1983)
- Free State Land Administration Act, 1998 (Act No. 1 of 1998)

- Construction Industry Development Board (CIDB) Act, 2000 (Act No. 38 of 2000)
- Compensation for Occupational Injuries and Disease Act, 1993 (Act No. 130 of 1993)
- Preferential Procurement Policy Framework Act (PPPFA), 2000 (Act No. 5 of 2000)
- Broad Based Black Economic Empowerment Act 2003, (Act No. 53 of 2003)
- State Information Technology Agency (Act No. 88 of 1998)
- The Expropriation Act, 1975 (Act No. 63 of 1975)
- The Mineral Act, 1991 (Act No. 50 of 1991)
- The National Veld and Forest Fire Act, 1998 (Act No. 101 of 1998)
- Policy document on the Statutory Regulation of the Built Environment Professionals, 1999
- White Paper: Public Works towards the 21st Century, 1997
- Control of Access to Public Premises and Vehicles Act, 1985 (Act No. 53 of 1985)
- Government Immovable Asset Management Act, 2007 (Act No. 19 of 2007)
- Government Notice number 2721 dated 4 November 2022 regarding amendments to the Preferential Procurement Policy framework act, 2000: Preferential Procurement Regulations

Activities and events relevant to budget decisions

The Free State Provincial Growth and Development Strategy is still used as the key guide to achieve growth and development through further enhancement of National Youth Service Programme, Contractor Development Strategy, Broad Based Black Economic Empowerment and development of Small, Medium and Micro Enterprises. The infrastructure budgets of all client Departments are shown at the relevant Departmental votes and therefore their budgets and projects are not included in the further discussion of this Department's budget.

Aligning departmental budgets to achieve government's prescribed outcomes

Public Works and Infrastructure's budget has been aligned to enhance linkage with the governments seven priorities derived from National Government as well as provincial priorities.

2. Review of the current financial year (2022/23)

2.1 Maintenance

The total of R13.6 million has been spent on scheduled maintenance and minor maintenance projects. A further R36.7 million has been spent on rehabilitation and refurbishment projects and R45.9 million was spent on additions and upgrades. Upgrades included the much-needed electronic security with major expenditure going to Thusanong and Tshireletsong projects.

2.2 Rentals, municipal services, rates & taxes

The rental budget for properties addresses current lease contracts, however, there is an estimated shortfall of R87.5 million for Bophelo House in the current financial year.

The increase implemented by municipalities on municipal services, especially electricity, is also much higher than the growth of the Department's budget and this had a snowball effect over the last 10 years. The Department verified ownership of 4 893 properties on the asset register of the Department. The Department projects a shortfall of R922.3 million on municipal services and R246.4 million for rates and taxes based on the devolved list and physical verification of properties. The general escalation of property services, water and electricity tariff is estimated at 15 percent.

2.3 Inflation and other related costs

The Department is contractually bound to pay escalation in rental contracts and increases on municipal services by municipalities. However, with the high increases in electricity and rental amounts, the Department cannot afford the full basket of services and will therefore not be able to meet its future financial and contracted obligations.

2.4 Expanded Public Works Programme

The Expanded Public Works Programme (EPWP) as one of Government's medium to long term strategies to reduce unemployment and alleviate poverty through the creation of work opportunities using labour-intensive methods will continue to receive attention from the Executive Council to reduce unemployment scourge in the province. The Objective of EPWP Phase IV covering 2019/20 – 2023/24 is: "To provide work opportunities and income support to poor and unemployed people through the delivery of public and community assets and services, thereby contributing to development".

The Programme consists of the following Sub-Programmes:

- Community Development Sub Programme.
- Innovation and Empowerment Sub Programme.
- Coordination and Compliance Monitoring Sub Programme. Several Community Development initiatives such as Cash for Waste, Community Work Programme, Cleaning and Greening Programme and National Youth Service Programme are key towards income and livelihoods support for vulnerable communities through job creation.

3. Outlook for the coming financial year (2023/24)

3.1 New policy priorities

The Department of Public Works and Infrastructure will continue to focus on the following National, Provincial and Departmental priorities:

- Promoting economic growth and development through national youth programme as well as infrastructure programmes.
- Accelerating delivery of infrastructure through fast tracking projects in an attempt to save on the total cost of delivery.
- Coordination and massification of EPWP in the province amongst all Departments and spheres of Government.
- Support and active utilization of National Youth Services programme

3.2 Challenges

- Information and Communication Technology (ICT) experience challenges with upgrading the ICT Network and infrastructure in all the offices.
- Ineffective procurement processes at SITA make implementation of ICT projects very slow. The Department should have quarterly meetings with SITA Provincial Office to ventilate these challenges and should further have bi annual engagements with all suppliers allocated for the province.
- Tariff increases for municipal services and leased property contracts in making provision for additional needs of client departments.
- The Department projects that the shortfall for municipal services and rates & taxes will increase due to accruals from the previous financial year, new properties identified and updated municipal valuation rolls.

- Custodian Asset Management plan is submitted annually to Provincial Treasury for Budget purpose but still no additional funds were received from Provincial Treasury.
- The budget for private security needs to be increased to strengthen safety in relation to staff, assets and abandant sites.
- No electronic system for the hosting of the Immovable Asset register as it is still on an Excel Spread Sheet.
- The process of implementing new contracts for expired leases is lengthily and the property market is unpredictable.
- Long disposal and acquisition processes that hampers Performance and Revenue enhancement.

3.3 Personnel

Skilled, healthy, ethical, diverse, and competent staff geared towards the achievement of departmental outcomes and the provision and effective management of provincial government land and buildings is key. The Department has not leveraged on its immoveable asset portfolio sufficiently for the economic development of the Free State Province, who has due to inter alia the depressed economic outlook and unacceptable high unemployment rate of almost 33.8 percent.

Furthermore, the availability of real time data and computing power is key whilst security protocols have become more sophisticated. Data coupled with key and new skills currently not on the staff establishment can contribute to creating alignment between the Department, financiers necessary for PPP and the citizens of the Free State who are the beneficiaries of infrastructure development. The energy crisis requires the department to explore and initiate green technology across its existing property and future infrastructure in a cost-effective manner.

The department will during the period under review align its skills development initiatives with the National Skills Development Plan, 2030, which highlights various desired outcomes inclusive of the following:

- Increase access to programmes leading to intermediate and high-level learning;
- Increase access to occupationally directed programmes in needed areas and thereby expand the availability of intermediate level skills;
- Increase access to high level occupationally directed programmes in needed areas; and
- Research, development, and innovation in human capital for a growing knowledge economy.

The workplace skills plan for the 2023/24 financial year will cater for key skills requirements of the various occupations on the establishment of the Department of Public Works and Infrastructure with emphasis on Property Management, Construction, OHS, Continued Professional Development, DPSA Compulsory Training and other work-related generic and line management interventions to address skills gaps of staff. Part time bursaries have also been awarded in accordance with developmental requirements geared towards increasing the NQF levels of staff.

During the 2023/24 financial year the Department will conclude the interventions identified during a skills audit of the Supply Chain Management environment. These interventions directly address competency requirements. Furthermore, the Department will embark upon an intervention to up-skill and professionalise the staff within the works inspector occupation. Said intervention will enable them to register as professionals within in the discipline of professional building inspector as provided for by the SA Council for the Construction Project Management Professions.

The Department will complement its existing professional portfolio that already has /registered professionals in Civil Engineering, Mechanical Engineering, Electrical Engineering, Construction Project Management, Construction Management, Quantity Surveying and Architecture with inter alia registered professionals in Energy Transition (Green Technology), Construction OHS, GIS, Property Valuation as well as functions related to efficient and effective construction procurement and those

required to enhance departmental revenue generation. The enhancement of warehousing and capacitation thereof in regions will also receive due attention. Aforesaid will contribute to achieving departmental objectives bearing in mind occupational health and safety of employees, citizens and the sustainability of the environment and general risks associated with the departmental role as custodian of infrastructure.

3.4 Rates & taxes, municipal services and landlords

The Department will pay R480.6 million on rates & taxes as earmarked in the allocation letter of the Department. The Department will pay R172.3 million on municipal services as per the centralized budget for the province as reflected within the Department of Public Works and Infrastructure's allocation. An amount of R324.9 million will be paid towards landlords for lease office accommodation.

3.5 Information and Communication Technology

Information Technology

The Department is in the process of upgrading the Information and Communication Technology networks in the regional offices, upgrade old hardware and to implement software solutions to support the mandate of the Department.

Communication and Media Liaison

Effective government communication requires excellent coordination and integration of messages, campaigns, and programmes. It also requires the effective implementation of the Department's Communication Strategy. Therefore, priority is placed on crafting and implementing a development-communication approach that is responsive, relies on feedback, is creative and innovative and is about continuity and sustainability. A key outcome of this is consistent facilitation of and participation in Citizen Fora.

3.6 Internal Audit

The Department's Internal Audit unit is due to undergo an external Quality Assurance Review as required by the mandated by the International Professional Practices Framework for Internal Audit. The review has an estimated cost of R0.300 million.

3.7 Grant and earmarked allocations

The Department received an allocation of R5.9 million for the EPWP Integrated Grant to Provinces. Infrastructure Enhancement Allocation (Equitable Share earmarked for Infrastructure) of R39.3 million was received which will be utilized for infrastructure upgrading. Property Rates and Taxes Enhancement Allocation of R480.6 million will be utilized for the payment of rates and taxes.

4. Reprioritisation

The Department has reprioritised non-core items to fund the needs of the core priorities within the Department.

5. Procurement

The Department's procurement plan is in line with the Supply Chain Management prescripts and legislation inclusive of Construction Procurement as outlined in the IDMS.

Planned major procurement

- Installation of warehouse (stores) facilities in Phuthaditjhaba for housekeeping cleaning material and general maintenance supplies. Department of Public Works and Infrastructure has four (4) Inventory Warehouses that are operational. There are two (2) warehouses in Bloemfontein, one (1) for cleaning material and one (1) for Maintenance (Works) material. Two other warehouses are in QwaQwa, one (1) for cleaning material and one (1) for maintenance (Works) material.
- SCM is working with Works component on the conversion of offices into warehouses in Kroonstad, Welkom and Thaba Nchu.

Initiatives to improve Supply Chain Management

The following initiatives are being implemented to improve Supply Chain Management:

- Implementation and monitoring of the Treasury Regulations, Circulars, Instruction Notes, the Departmental SCM policies and delegations of authorities.
- Regular meetings of all Bid Committees to ensure timely award of contracts.
- Timely signing of contracts and service level agreements (SLA's).
- Utilisation of suppliers on the Central Supplier Database and Free State Supplier Management System.
- Application of the CIDB register of contractors for infrastructure related projects.
- Regular training programmes arranged through HRD and National School of Government to improvement the SCM related skills levels of all SCM officials.

6.3. Donor funding

The Department did not receive any Donor funding.

7. Payment summary

7.1 Key assumptions

The following key assumptions underlay the current proposals for the budget of 2020/21:

- An anticipated inflation rate of 5.1 percent;
- Emphasis is placed on the rehabilitation of infrastructure, which has deteriorated to the extent that most buildings are now in a bad state / condition. The day-to-day maintenance is still done by Departmental staff.

1. Total provincial infrastructure is the sum of "Capital" plus "Recurrent maintenance". This includes non infrastructure items.

7.4.2 Non- infrastructure items

The Department is in the process to undertake condition assessments to inform User Asset Management Plans (U-AMPS) and general maintenance with a view of developing a comprehensive maintenance plan for the province in the current financial year. The Department will perform scheduled maintenance to the value of R18 million to various government facilities within the province in the financial year as the need arises.

9. Programme description

9.1 Description and objectives

9.1.1 Programme 1: Administration

Description and Objectives

The aim of this programme is to provide the Department with administrative, strategic, financial and corporate support services in order to ensure that it delivers on its mandate in an integrated, efficient, effective and sustainable manner. This includes publicly funded goods and services utilized for governance, management, research and administration, as well as general office services. Included in Administration are services such as Human Resource Management, Information and Communication Technology, Organizational Development, Internal Audit, Legal Services and Research Development.

Sub-programmes

Office of the MEC:

The office deals with the rendering of administrative support, public relations / communication support and parliamentary support services.

Management / Head of Department:

The sub-programme deals with the overall management of the Department and project monitoring.

Corporate support:

The sub-programme deals with operational support in terms of strategic management, research and development, financial management, logistics, transport, procurement, human resource management, legal issues, information technology, communication as well as auxiliary services.

Service delivery plans:

These services are continuous by nature.

- Implementation and adherence to policies;
- Retraining and development of personnel where utilization can be improved;
- Allocation of bursaries to address shortage of critical occupations;
- Develop learnerships that would meet the needs of the Department;
- Refinement of retention strategy for critical occupations;
- Provision and development of human capital to assist departmental needs;
- Address shortcomings as identified by Internal Audit and the Auditor-General South Africa;
- Customize Information Technology to meet Departmental needs;
- Improve internal and external communication;
- Perform research and develop strategies;
- Practice financial management and internal control;
- Shortening of the payment cycle;

- · Develop and implement audit plans; and
- Implement / Apply Corporate Governance Principles.

9.1.2 Programme 2: Public Works Infrastructure

Description and Objectives

To provide accommodation for all provincial Departments, manage the provincial property and asset portfolio for the optimum benefit of government; render professional and technical services to client Departments in respect of buildings and related infrastructure and to ensure that physical and electronic security at political office bearers is in place. The budgets of client Departments for delivery of infrastructure are not included in this programme.

Sub-programmes

Programme support:

The sub-programme is responsible for the overall management and support of the programme. It manages the activities of the professional components strategically; to render an administrative support service to the professional components with regard to provincial government building infrastructure and property management, administration, financial matters and supply chain management.

Planning:

Planning sub-programme is responsible for management of demand for infrastructure development, monitoring and enforcement of built sector and property management norms and standards.

- Assist in development of User Asset Management Plans.
- Development of a Custodian Asset Management Plan.
- Development of Infrastructure Plans.
- Development of Infrastructure Implementation Plans.

Design:

Design of new public infrastructure and upgrading building infrastructure; the intention is that plans should be ready for funding.

Construction:

New construction, refurbishment and upgrade of immoveable assets.

Maintenance:

Sub-sub-programmes:

- Routine Maintenance.
- Schedule Maintenance.
- Condition Assessments of all buildings.
- Alterations.

Alterations refer to changes that are required for reasons other than maintaining the asset, e.g. changes to interior walls.

Immoveable Asset Management:

Sub-sub-Programmes

- Dir: House Keeping.
- Dir: Property Portfolio.
- Dir: Strategic Asset Management.

To manage the property portfolio of the province, to provide accommodation for all provincial Departments and other institutions and to acquire / dispose of accommodation:

- Acquisition and disposal of properties.
- Manage leasing in of properties and leasing out of government properties.
- Collection of revenue and revenue generation.
- Management of the Immovable Asset Register.
- Monitor the utilisation of provincial government facilities.
- Management and payment of municipal services and rates & taxes.

Facility Operations:

Sub-sub programmes:

- Dir: House Keeping.
- Dir: Security Services.

To manage the operations of buildings including facilities management, cleaning, greening and beautification of all provincial government properties.

Focus Areas / Priority Areas:

Construction and Maintenance

- Enhance and accelerate infrastructure delivery to meet client needs.
- Transformation of the construction industry.
- Develop required capacity within the build environment.
- Register technical employees in training professionally.
- Address the backlog in infrastructure maintenance.
- Reclaim the Public Works mandate.

Property Management

- Transformation of the Property Industry through the implementation of the Property Management Empowerment Policy.
- Acquisition of strategic assets for government use.
- Disposal of non-strategic properties.
- Implementation of the Government wide Immovable Asset Management Act.
 - User Asset Management Plan.
 - Custodian Asset Management Plan.
- Facilitating the maintenance of property portfolio for both leased and state-owned properties.
- Maintain and update the Immovable Asset Register.
- Allocate accommodation (offices and houses).
- Render management services in relation to payment of municipal services and rates and taxes.
- Manage rental payments.
- Maximise revenue collection through leasing of State-owned properties, parking and disposal of nonstrategic properties.
- Improve cleanliness and garden maintenance in government properties.

Security Administration

- Reduce the number of incidents of theft.
- Electronic Security System at all government buildings.
- Improve safety in relation to staff and assets.

9.1.3 Programme 3: Expanded Public Works Programme

Description and Objective

The objective of EPWP is to provide work opportunities and income support to poor and unemployed people through the labour-intensive delivery of public and community assets and services, thereby contributing towards elimination of poverty, reduction of inequality and creation of employment. To manage the implementation of programmes and strategies that lead to the development and empowerment of communities and contractors. This includes the provincial management and co-ordination of the Expanded Public Works Programme.

Programme consists of the following Sub-Programmes:

- Community Development Sub-Programme.
- Innovation and Empowerment Sub-Programme.
- Coordination and Compliance Monitoring Sub-Programme.

Table 9.16 : Summary of payments and estimates by sub-programme: Programme 3: Expanded Public Works Programme

Sub-programmes

Programme support:

Overall management and support of the programme.

Community Development:

This sub-programme aims to provide income support to poor people and communities through participatory public employment approaches by creating assets and services that can have transformative impact on socio economic development. The sub-programme is also responsible for the development and empowerment of impoverished communities. Promote and create decent work opportunities through the provision of accredited training and implementation of community development initiatives.

Innovation and empowerment:

This sub-programme creates an enabling environment for emerging enterprises and address skills shortage in the construction industry through development of emerging contractors and youth and ensuring that EPWP responds to government's priorities of creating decent jobs, enterprise development and increase artisan base. The sub-programme is responsible to oversee contractor empowerment, training and development including learnerships, and providing SMME support and development.

Co-ordination and Compliance Monitoring:

This sub-programme is responsible for coordination, monitoring EPWP implementation and the management of Incentive Grant Expenditure to all public bodies implementing EPWP in the province.

NB. This sub-Programme is entrusted with the provincial management and coordination of all stakeholders towards the successful implementation of the EPWP targets within the Province in relation to the creation of work opportunities. The projects/initiatives and budgets are controlled by the public bodies (provincial departments and municipalities).

Focus Areas/Priority Areas

- Creation of work opportunities through implementation of community development initiatives;
- Massification of the Expanded Public Works Programme;
- Intensifying National Youth Service Programme;
- Skills training Initiatives
- Coordination and monitoring of all initiatives for compliance with EPWP guidelines.
- Promotion of exit opportunities for National Youth Service

9.2 Service delivery measures

The Department is responsible for infrastructure development, whilst simultaneously a dedicated focus and attention is placed amongst others on maintenance and construction of Provincial Government buildings; property management, co-ordination, monitoring and implementation of the Expanded Public Works Programme (EPWP). The recruitment strategy in the Department considers core skills needed.
