1. Overview

Vision

Quality education for every child, in every classroom, in every school in the province.

Mission

The mission of the WCED is to ensure that:

Every child has quality learning opportunities
in a functional and enabling environment
to acquire knowledge, competencies, skills and values
to succeed in a changing world.

Policy Priorities

The WCED remains committed to supporting the WCG priorities of Jobs, Safety and Wellbeing.

The WCED's five-year strategic policy priorities are coming into stark focus and demand acceleration. These include:

Strengthen and expand learning opportunities for enhanced performance;
Enhance and expand enabling learning environments;
Strengthen functionality and accountability; and
Strengthen and enhance innovative adaptability and preparedness for a changing context.

In addition, the WCED has identified Foundation phase learning as a key focus area covering focussed training on numeracy and literacy, reading and other support materials.

Main services and core functions

The Western Cape Education Department (WCED), as an organ of state, fulfils the obligations conferred by the Constitution on parliament and provincial legislatures to regulate education at all levels. Tertiary education is excluded.

By 2023/24, the department had a total of 1 537 public ordinary and public special schools, with approximately 1.2 million learners. The WCED has also had a steady stream of learners from other provinces and countries, totalling almost 105 000 learners from 2019 – 2023.

Demands and changes in services

The ability of the Department to deliver against its vision has been placed under strain over the last five-year period, with unprecedented growth in learner numbers, the advent and after-effects of COVID-19, and budgetary constraints. The losses in learning continues to unfold, revealing itself in the academic performance of learners across all grades.

In order to deliver on its mandate, the Department will intensify its focus on:

STEAMAC, which is to address technical and vocational skills

Strengthened Mathematics strategy 2022 - 2027

The Western Cape Reading strategy (2020 - 2025)

Alleviating administrative burden

Evaluations of effective teaching and learning and school administration

Building Relationships

Online Blended Learning

Foundation Phase learning (Language + Mathematics)

Budget decisions

The expenditure on education in the Province has grown on average by 4.86 per cent per annum in nominal terms for the period 2020/21 to 2026/27. Education receives the largest share of the provincial budget. The majority of the increased funding provides for increased demand and learner growth as well as National Education sector priorities.

Non-conditional, non-capital and non-personnel expenditure represents 18.31 per cent of total expenditure for the 2024/25 financial year. Non-personnel expenditure includes norms and standards funding for public ordinary primary and secondary schools and learner transport schemes, as well as for transfer payments to independent schools, public special schools as well as Grade R and Early Childhood Development (ECD) schools and sites. The Department's expenses for Information Communication Technology (ICT) equipment and infrastructure are, to a large extent, subject to changes in the exchange rate.

The composition of the capital expenditure has increased from 2.68 per cent in 2020/21 to 4.51 per cent of the estimated expenditure for 2024/25. This includes mainly provision for infrastructure projects as well as for computers and equipment. The reason for the increase is due to the additional funding provided for expanding the Build programme.

Aligning departmental budgets to achieve government's prescribed outcomes

The 2024/25 financial year will cover the final year of the Department's Strategic Plan (SP) for the period 2020/21 to 2024/25. The South African Constitution provides for the right to basic education for every citizen in the country (South Africa, 1996).

The Sustainable Development Goals (SDGs), were approved by the United Nations in 2015 as a worldwide request to action the end of poverty, guard the planet, and safeguard people for all persons to enjoy peace and prosperity. Education as a sector, contributes to Sustainable Development Goal (SDG) 4 and through its implementation of its plans, contribute in some way albeit not directly, to many of the SDG indicators. Similarly, when crafting the WCED's strategic plan and subsequent Annual Performance Plan, the goals contained in the National Development Plan (NDP) as well as the indicators reflected in the Medium-Term Strategic Framework (MTSF), are considered.

To further embed the practice of data driven planning, the WCED incorporates the themes of the SDGs, National Development Plan (NDP) and MTSF in its performance reporting and steers away from compliance driven adoption of indicators as a means to work toward our vision for education in the Western Cape to achieve quality education for every child, in every classroom, in every school in the province.

Furthermore, the Department of Basic Education (DBE) developed an Action Plan: towards the realisation of schooling 2030 as an approach to take forward the Education sectors commitments contained within the NDP. The intention of the Action Plan is to support Chapter 9 of the NDP, and guide the education system, clarifying where the problems are experienced, while reflecting how solutions can be interrelated and interlinked. The Action Plan is moreover aligned with the 2019 to 2024 Medium Term Strategic Framework (MTSF) of the Presidency. Alignment between the sector plans of the DBE and the national plans of the Presidency is prevalent. This alignment is embedded into the actions of the WCED to ensure the department contributes to the outcomes and goals contained in the said plans and frameworks.

Further details per programme can be found in the Department's 2024/25 Annual Performance Plan.

2. Review of the current financial year (2023/24)

WCED was confronted with unprecedented in-year budget cuts during 2023/24 and adopted a risk-led approach to expenditure adjustments to respond responsibly to the fiscal crisis. WCED implemented a combination of measures in response to the required cost reductions but did so responsibly to minimise the destabilisation of schools to the minimum.

The foundation phase learning programme strengthened the existing Language and Mathematics strategies and provided support to educators to improve pedagogy. The programme nurtured and developed learners' language development needs and improved the acquisition of reading as a foundational requirement for all subsequent learning.

The Early Childhood Development (age 0-4) programme also recorded successes for the first two years since the function shifted from the Department of Social Development to the WCED. This includes the number of ECD facilities receiving support for at-risk children as well as improved support provided to unregistered ECD facilities by providing Health and Safety equipment to get them closer to registration.

The Curriculum Programme enrolled vulnerable learners across Grades 4, 7, 8, 10 and 12 for tutoring sessions across selected subjects in the 2023 school year, focussed on the recovering of learning losses through addressing academic gaps, inequality and achievement gaps as well as social and emotional challenges.

The WCED continued to provide education infrastructure that is conducive to the delivery of quality teaching and learning through its school build programme, amidst the enormous challenges faced. This programme also provided additional access for autism learners and improved support to learners with profound intellectual disabilities.

3. Outlook for the coming financial year (2024/25)

The Western Cape Education Department (WCED) is committed to providing quality education for every child, in every classroom, and in every school in the Western Cape. Every decision taken in relation to education in the Western Cape will continue to be informed by the need to improve learner outcomes, and to provide greater and more equitable access to quality education across the province. This entails stabilising our schools, recovering from the learning losses experienced over the past few years and creating a conducive environment for teaching and learning which should translate to systemic, sustainable, and long-term improvement across all layers of the education system.

4. Service delivery risks

The WCED budget was created to be responsive to the immediate educational needs that prioritise core and fundamental programmes, supply teachers and Infrastructure through various modalities for more efficiencies to meet the increasing demand that has placed the WCED under severe strain due to the unprecedented growth in learner numbers, as well as the continued poor fiscal outlook.

5. Reprioritisation

The Department continues to reprioritise funds to augment allocations toward national and provincial priorities and core spending activities.

The Department continues its commitment to providing an affordable post allocation to schools and by finding economically viable and sustainable solutions to infrastructure needs to accommodate all learners in the system.

6. Procurement

In line with the Approved Procurement Plan, the WCED has made provision for the following major projects to take place during the 2024/25 financial year, mainly:

Curriculum Assessment Policy Statements (CAPS) textbooks, including Foundation Phase graded readers, Learner Transport Schemes and the National School Nutrition Programme.

e-Learning rollout which includes the provision for Local Area Network (LAN), Curriculum delivery of Computer Applications Technologies (CAT)/Information Technology (IT)/Engineering, Graphics and Design (EGD) refresh and Classroom technology: learner devices and Slim labs, the Annual Corporate Refresh to bring all end-user corporate machines to WCG standards, that includes the Annual School's e-Admin Refresh Telecommunication - ensuring ICT equipment at schools are up to standard with regards to providing WCED with data for Central Education Management Information System (CEMIS) and People Management Practice System (PMPS) as well as the Microsoft School's Agreement.

In addition to this, the procurement plan also makes provision for the hiring of printing machines for reprographic services, non-section 21 schools' stationery and cleaning, as well as non-section 21 schools' LTSM top-ups.
