1. Overview

Vision

A government that people trust.

Mission

To enable and lead a capable Western Cape Government (WCG) by institutionalising a culture of innovation and collaboration for improved services for the people of the Western Cape.

Values

Competence

Accountability

Integrity

Responsiveness

Caring

Innovation

Main services

As the Department of the Premier performs a strategic leading role in implementing the 2025 - 2030 Provincial Strategic Plan (PSP), primarily through the Innovation, Culture and Governance priority, it will focus on the following main services:

Through rendering relevant and timeous executive governance support services to the Executive and the Director-General the Department will:

Provide operational support to the Premier;

Provide Cabinet secretariat and protocol support services to the top management of the WCG and the departmental executive committee;

Provide departmental strategic management services and compliance monitoring of programme performance;

Provide and ensure strategic leadership and good corporate governance in the Department;

Provide departmental financial management and administrative support services;

Coordinate external communication and public participation to ensure that the WCG communicates the delivery intents and outcomes of the PSP to the people of the Western Cape; and

Improve public service perception by promoting and protecting the WCG brand and coordinating communication messaging to ensure that the vision-inspired priorities of the WCG are communicated effectively to the people of the Western Cape.

Through professionally supporting the Premier and Cabinet to effectively exercise their executive authority responsibilities in respect of provincial strategic and stakeholder management, the Department will:

Support the executive in the development and implementation of provincial strategic policy priorities;

Lead and coordinate data and evidence ecosystems across and within the WCG; and

Facilitate strategic linkages and engagements which support delivery on government's priorities and performance for sustainable development of the Western Cape, with local and international stakeholders.

Through rendering effective, efficient and professional transversal corporate services with excellent people, processes and technology in order to optimise service delivery by the WCG, the Department will:

Provide a highly capable workforce, create an enabling workplace and develop leadership that enables employee engagement and optimal service delivery;

Optimise service delivery in the WCG through the coordinated implementation of innovative information and communication technologies;

Transform governance resulting in improved service delivery; and

Enable legally sound decision-making by the WCG in the attainment of provincial strategic priorities and delivery of services, by providing legal governance and advisory, litigation and legislative drafting services.

Core functions and responsibilities

The main role and function of the Department of the Premier is to enable the implementation of the WCG 2025 - 2030 PSP, through the provision of strategic and operational support to the Premier and the Provincial Cabinet to exercise their provincial executive authority in accordance with the Constitution of the Republic of South Africa, 1996, and the Constitution of the Western Cape, 1997. This entails coordinating the functions of the provincial administration and its departments through the development and implementation of legislation and policy. In support of the role and functions of the provincial Director-General, as reflected in section 7(3)(c) of the Public Service Act, the Department of the Premier will therefore provide the following core functions:

Executive governance and integration, providing executive governance support and corporate communication services;

Provincial strategic management, lead and coordinate provincial strategic management through policy and strategy support, leveraging data and evidence and institutionalising strategic programmes across the WCG;

People management, rendering a transversal people management service;

Centre for e-Innovation (Ce-I), enabling service excellence to the people of the Western Cape through Information and Communication Technologies;

Corporate assurance, rendering enterprise risk management, internal audit and provincial forensic services; and

Legal services, rendering a comprehensive legal support service to the WCG.

Performance environment

The Department achieved 100 per cent of its performance targets, as specified in its 2023/24 Annual Performance Plan.

The Department managed its financial affairs well. A clean audit outcome was received for the past ten financial years (2014/15 to 2023/24). It further improved on budget spent from 94.4 per cent in 2015/16, to 98.8 per cent in the 2023/24 financial year.

The **Programme: Executive Governance and Integration** enables good governance by the executive and top management of the WCG, in order to deliver on its strategic mandate. A financial management capacitation plan has been implemented to build capacity within the Department to strengthen internal controls and elevate good governance across the various programmes.

The Programme's Annual Performance Plan Indicator Monitoring system enabled management to easily track non-financial performance and to identify and mitigate performance risk timeously. Knowledge retention improvements and improved collaboration between staff members were enabled through the use of the Enterprise Content Management (ECM) system.

Corporate Communication is centrally positioned to ensure the development and consistent application of the WCG corporate identity, messaging, and brand. It continues to provide an oversight and governance role and the necessary support to all departments, as well as to the Provincial Executive, on how to deliver the WCG Integrated brand strategy. Corporate Communication coordinates communication messaging to ensure that the provincial strategic priorities of the WCG are communicated effectively to the WCG staff and citizens of the Western Cape.

The **Programme: Provincial Strategic Management** is central in directing and coordinating the provincial strategic policy priorities across portfolios over the next five years enabling enhanced service delivery for the people of the Western Cape; enabled by evidence-informed policy, strategic programmes and data governance services. The Programme has a strategic and focal role in leading a coordinated and integrative approach to the provincial policy direction and periodic reviews as well as the overall performance of Western Cape Government in collaboration with Provincial Treasury.

The Programme supports Provincial Cabinet in the development of the five-year Provincial Strategic Plan. Similarly, support is provided to line function departments in gearing the implementation of portfolios via clusters on transversal programmes and within policy domains toward achieving long-term impact and outcomes.

The performance environment of the Programme is geared to strategically lead key service integration areas for collaboration and optimisation towards evidence-informed decision-making. This includes the coordination of strategy, planning and performance; policy priorities for budgeting, measurement, data and evidence services through streamlining advocacy, communication, partnerships (foreign and local) and capacity building with improved access to data and evidence for further application.

The **Programme: People Management** seeks to enable service excellence through the provision of highly capable people, a performance-conducive workplace and leadership that drives employee engagement. The Programme provides transversal people management services across the WCG departments, which range from high-volume transactional to expert advice and consultancy services and include day-to-day operational activities, as well as an array of different initiatives, programmes, interventions, and projects. The aim of the Programme is to contribute to the achievement of the strategic goals of the Department and the WCG. The strategic objective is aligned with the National Development Plan, specifically the achievement of a capable state.

In alignment with the 2025 - 2030 PSP, the Programme will support the Innovation, Culture, and Governance (ICG) priority, with a specific focus on: Culture and People-Centred Delivery, Futures Thinking and Evidence-Informed Decision-Making, Integration and Collaboration as well as Ease of doing government.

By driving changes in organisational culture and capacity, the Programme aims to foster values-driven, people-centric leadership excellence and cultivate a mindset suited to the demands of new ways of working.

The **Programme: Centre for e-Innovation (Ce-I)**, through the WCG's Digital Transformation Plan (DTP), drives the integration, optimisation and transformation of the WCG Service Delivery ecosystem. The DTP encompasses the Technology and Information capacities of the WCG's Institutional Review Programme, which together with transforming the People, Processes and Funds Capacities, aim to optimise the WCG's service delivery ecosystem.

To achieve the goals and objectives of the DTP, the Programme will have to maintain and enhance an enabling environment for innovation. This includes implementing the next iteration of the WCG Broadband network (known as Broadband 2.0), which is pivotal to the future of connectivity in the WCG. The strengthening of our information security posture, refreshing ageing infrastructure, exploiting Cloud platforms for rapid applications development, enhancing citizens' digital communications platforms, and maintaining the internal messaging, communication, and collaboration environments underpinned by strong IT Governance are also included here.

The Programme will specifically play a strong role in enabling the WCG strategic priorities which is gathered through the IT Planning process giving effect to its applications development, data hosting, systems integration and contact centre capability development. In terms of the new way of work it also has a key role in enabling remote working and the digitalisation of citizen-facing services.

With Artificial Intelligence (AI) changing the nature of selected operations, it is incumbent on the Department to explore the extent to which AI can best be used to improve service delivery and effect efficiencies within the public sector.

To ensure that our citizens' data is secured, and the risk of data-loss is minimised, the Department will continue to strengthen its cyber security posture.

The **Programme: Corporate Assurance** supported departments to identify and mitigate their key business risks to ultimately enable the achievement of strategies, goals and objectives. The effort to identify and mitigate provincial risks matured further and these provincial risks are encapsulated in the Provincial Strategic Plan. Internal Audit continued to provide assurance to departmental management that their risks are adequately managed and provided recommendations where relevant. Provincial Forensic Services (PFS) ensured that all allegations of economic crimes were dealt with swiftly and decisively and increased their focus on awareness.

The **Programme: Legal Services** enables legally sound decisions and actions by the WCG in the attainment of strategic and operational goals and objectives in delivering services to the residents of the Western Cape.

By collating comments on draft national Bills, Legal Services will continue to enable departments to contribute to the national legislative programme, from a policy and legal technical perspective.

Working in collaboration with the Department of Local Government and the Provincial Treasury, Legal Services will, continue to prioritise supporting municipalities in the Western Cape by, amongst others, expanding the scope of legal training offered to municipal officials, and providing legal advisory services in promoting good governance and supporting interventions in terms of the Constitution and applicable legislation, thereby promoting the provision of adequate municipal services to communities.

Organisational environment

The budget programme structure of the Department of the Premier deviates from the uniform budget programme structures as communicated by the National and/or Provincial Treasury. The reason for this can be found in operating efficiencies brought about by rendering transversal corporate services to the WCG from a central point in the Department of the Premier. This frees up resources in departments to enable improved service delivery. The Department received approval from the Provincial Treasury for the deviation from the uniform budget programme structure.

The **Programme: Executive Governance and Integration** has remained well organised to execute its governance support role. To deal with reducing staffing numbers, various processes and procedures have been redesigned and effectively implemented to achieve the required efficiencies and ensure optimal usage of transversal systems as per initial intent. Automated systems, digitisation, collaborative and integrative operational solutions are being applied across Financial Management to build on gains made and bring about further efficiencies.

The further development of the WCG Brand will impact on how Corporate Communication renders services, particularly in giving effect to the delivery agenda as set out in the 2025 - 2030 PSP.

The **Programme: Provincial Strategic Management** has remained steadfast in its strategic support to the Executive despite operating in a resource and fiscally constrained environment. The evidence generated and lessons learned from the End of Term Review, evaluation findings on the policy, planning and budgeting process, and audit actions, guided actionable insights to optimise policy, planning, and data practices across WCG. Further to this, the programme maximised benefits via intra and inter- organisational engagements towards uptake and use of data evidence to influence evidence-based behaviour choices.

The Programme has embraced a partnership and a co-creation model with academia and practice specialists complementing public sector resourcing to stay abreast with global trends giving effect to a highend policy, data and technology value chain for an improved service delivery environment.

The collaboration with key national departments such as Statistics South Africa, multi-national organisations and Non-Governmental Organisations has spearheaded and grounded a co-product and capability ownership model where this approach ensured responsiveness to the organisation's business strategy and evolving business needs.

Within the **Programme: People Management**, the organisational environment remained relatively stable in its structure and strategic direction, enabling a focus on improving business processes, enhancing efficiencies, and strengthening integration between business units. However, ongoing austerity measures and budget constraints placed increasing pressure on employees, who had to manage heavier workloads due to vacancies. Despite an 8.3 per cent decline in PMP's workforce (200 to 184) from 2014 to 2024, demand for People Management services surged. Client departments saw a modest 4.1 per cent decrease in headcount

(9 486 to 9 099), yet PMP's contact centre handled 84 per cent more queries (19 492 in 2013 to 35 887 in 2023). In 2023 alone, 1 154 posts were advertised, over 111 000 leave applications processed, and nearly 13 000 overtime payments managed. This growing demand, alongside a shrinking PMP workforce, highlights the urgent need for sustainable resourcing, inclusive of AI capabilities.

Significant progress has been made in advancing the WCG Culture Journey and embedding its values into daily work practices. As a result, the WCG has been recognised as a Top Employer, a testament to the institutionalisation of strong people management practices. Additionally, a key focus is the transformation of the Provincial Training Institute (PTI) into a future-fit training, learning, and development academy and an innovation hub to better support workforce development.

The **Programme: Centre for e-Innovation** restructured the four Chief Directorates to align to the new digital service delivery demands. The focus areas are Digital Experience and Strategy, Transversal Applications Services, Broadband and ICT Infrastructure and ICT Service Management. These units work in an integrated manner and, through strong collaboration with client departments and other spheres of government, pursue the achievement of the provincial DTP deliverables.

To ensure efficient use of ICT in delivering services to citizens, the programme will continue to focus on key programmes towards integration, optimisation and transformation of services through digitalisation of processes and information. Key enabling programmes include, amongst others, applications development, cloud services, refreshing our ICT infrastructure, ensuring systems and network uptime, enhancing our digital experience platforms and maintaining a strong Information Security posture.

The demand for services in the **Programme: Corporate Assurance** is determined by the risk profile of departments and cannot be predicted. In periods of uncertainty and change the risk profiles of organisations change and we anticipate the same for the WCG. There has been a growing demand for risk management services, and with that a change in the expectations of the level of service to be delivered, which we do not have the resources for. Over the past 3 years there was a growing assurance gap in all WCG departments, evident in the reduction of the number of projects included in the Internal Audit Coverage Plans for WCG Departments. This indicates that we do not have enough resources to provide assurance on priority risk mitigations in departments. Furthermore, the average days of forensic cases (i.e. time taken to conclude the investigations) have increased drastically over the past two financial years, again indicating that we do not have enough resources to conclude these investigations in an acceptable timeframe.

Demand for the services of **Programme: Legal Services** remains high; however, strategic and operational capability has been enhanced through the funding of key professional posts to enable the programme to meet demand and render legal services within stipulated or agreed timeframes.

Acts, rules and regulations

The legislation applicable to the Department is:

Basic Conditions of Employment Act, 1997 (Act 75 of 1997)

Broad-Based Black Economic Empowerment Act, 2003 (Act 53 of 2003)

Cape Town International Convention Centre Company Act, 2000 (Act 8 of 2000)

Compensation for Occupational Injuries and Diseases Act, 1993 (Act 130 of 1993)

Constitution of the Republic of South Africa, 1996

Constitution of the Western Cape, 1997

Consumer Protection Act, 2008 (Act 68 of 2008)

Disaster Management Act, 2002 (Act 57 of 2002) Division of Revenue Act (annually) Electronic Communications and Transactions Act, 2002 (Act 25 of 2002) Employment Equity Act, 1998 (Act 55 of 1998) Employment Service Act, 2014 (Act 4 of 2014) Financial Intelligence Centre Act, 2001 (Act 38 of 2001) Geomatics Profession Act, 2013 (Act 19 of 2013) Government Employees Pension Law, 1996 (Proclamation 21 of 1996) Government Immovable Asset Management Act, 2007 (Act 19 of 2007) Income Tax Act, 1962 (Act 58 of 1962) Intergovernmental Relations Framework Act, 2005 (Act 13 of 2005) Labour Relations Act, 1995 (Act 66 of 1995) Local Government: Municipal System Act, 2000 (Act 32 of 2000) National Archives and Record Service of South Africa Act, 1996 (Act 43 of 1996) National Qualifications Framework Act, 2008 (Act 67 of 2008) National Treasury Regulations, 2005 Occupational Health and Safety Act, 1993 (Act 85 of 1993) Pensions Fund Act, 1956 (Act 24 of 1956) Preferential Procurement Policy Framework Act, 2000 (Act 5 of 2000) Preferential Procurement Regulations, 2022 Prescription Act, 1969 (Act 68 of 1969) Prevention and Combating of Corrupt Activities Act, 2004 (Act 12 of 2004) Prevention of Organised Crime Act, 1998 (Act 121 of 1998) Promotion of Access to Information Act, 2000 (Act 2 of 2000) Promotion of Administrative Justice Act, 2000 (Act 3 of 2000) Promotion of Equality and Prevention of Unfair Discrimination Act, 2000 (Act 4 of 2000) Protected Disclosures Act, 2000 (Act 26 of 2000) Protection of Personal Information Act, 2013 (Act 4 of 2013) Provincial Archives and Records Service of the Western Cape Act, 2005 (Act 3 of 2005) Provincial Treasury Instructions, 2012 Provincial Treasury Instructions, 2019 (Chapter 16A) Public Administration Management Act, 2014 (Act 11 of 2014) Public Audit Act, 2004 (Act 25 of 2004) Public Finance Management Act, 1999 (Act 1 of 1999)

Public Holidays Act, 1994 (Act 36 of 1994)

Public Service Act, 1994 (Proclamation 103 of 1994)

Public Service Regulations, 2016

Regulation of Interception of Communications and Provision of Communication-related Information Act, 2002 (Act 70 of 2002)

Skills Development Act, 1998 (Act 97 of 1998)

Skills Development Levies Act, 1999 (Act 9 of 1999)

Spatial Data Infrastructure Act, 2003 (Act 54 of 2003)

State Information Technology Agency Act, 1998 (Act 88 of 1998)

National Treasury Framework for Managing Programme Performance Information (2007)

National Youth Policy (2009 – 2014) of the National Youth Development Agency

Policy Framework for a Government Wide Monitoring and Evaluation System (2007)

Policy Frameworks of the National Department of Public Service and Administration on Gender Equality, Disability and Youth in the Public Service

Revised Framework for Strategic Plans and Annual Performance Plans (2019)

South Africa Connect: South Africa's Broadband Strategy

- Specific National Policy Frameworks on Gender and Women's Empowerment, Disability and Children
- The White Paper on a New Employment Policy for the Public Service (1997)
- The White Paper on Human Resource Management in the Public Service
- The White Paper on Public Service Training and Education (1997)
- The White Paper on the Transformation of the Public Service (1995)
- The White Paper on Transforming Public Service Delivery [Batho Pele] (1997)

Aligning departmental budgets to achieve government's prescribed outcomes

The Department's planning is aligned to national planning instruments such as the National Development Plan (NDP) and its five-year implementation plan, the Medium-term Development Plan (MTDP), which will serve as the five-year medium-term plan for the Seventh Administration of Government. It also serves as the implementation framework for the National Development Plan (NDP): Vision 2030, the existing long-term plan for South Africa towards 2030.

The Medium-term Development Plan proposes three high-level strategic priorities: (1) inclusive growth and job creation; (2) reduce poverty and tackle the high cost of living; and (3) a capable, ethical and developmental state.

The Department contributes directly to the realisation of the third strategic priority which aims to institutionalise a capable, ethical and developmental state, particularly through its policy and governance roles. The Department drives alignment of provincial and national priorities and plans as part of its transversal provincial coordination role. It also performs a monitoring function to ensure that agreed provincial interventions are on track for delivery, thus contributing to the national strategic imperatives. The work of Provincial Forensic Services aimed at the prevention of and responding to fraud and corruption makes a significant contribution to ensuring that the WCG remains an ethical state, the cornerstone of building trust between Government and citizens.

Demands and changes in services

The **Programme: Provincial Strategic Management's** adoption of a United Change Strategy Integration Framework for the PSP is grounded in a systems thinking approach, which facilitates a holistic understanding of the interdependencies among various policy initiatives.

To meet the increased demand and supply of data and evidence services, the Provincial Data Office (PDO) has refined its portfolio management approach by focusing on high-priority policy initiatives with high-end value and data and evidence products and service congruent to global and government-wide initiatives over the next five years. Operationally, resourcing associated to data and evidence product groups with Catalytic Enhancements as key levers serve to accelerate the use of the data and evidence for change.

In line with evidence-informed policy-making, capabilities such as Futures Planning, and shaping a Responsive Evidence Service will scope targeted programmes for co-created learning to equip departments to proactively address evidence-informed service delivery challenges. The demand to have delivered on integrated quarterly performance data has expanded and shifted to a culture where digitally transformed performance tracking and reporting functions reinforce evidence-based performance for actionable insights. Over the past five years, the PDO has established itself as a trusted partner and this trajectory has expanded to building a responsive data ecosystem aligned with policy priority data requirements. The optimising of the Data Governance Maturity Assessment (DGMA) enables departments to focus on maturing the right data practices that best enable shared and common policy needs.

The strengthening of cooperative partnerships across government spheres enhances the value from international relations and developed focused data governance initiatives. Engagement with international bodies and inter-governmental initiatives on national, provincial and local level enables WCG to address matters such as policy priorities, population data, and gender budgeting in being responsive to critical service delivery needs, thereby aligning efforts with national priorities and Sustainable Development Goals.

One of the key responsibilities of the **Programme: People Management** is to provide integrated and innovative people solutions that contribute to improved organisational performance and good governance for service delivery. By its nature there is a co-dependency between the people manager and the people professional in fulfilling this mandate. There is a continuing increase in the level of people management services required from client departments which is juxtaposed against budget reductions and a less-than full staff complement. This has necessitated engagement with client departments on the Annual People Management Planner that both Departments and the Programme: People Management can use for more effective planning. Closer alignment of the Chief Directorates within the Programme: People Management, with regard to demand planning, is continuing and set the foundation for greater synergies regarding integrated management. The ICT Plan of the Programme also seeks, within budgetary constraints, to use innovative ways and technology to improve the provision of people practices. In line with its new vision to become a world-leading hub for public sector learning, development, and innovation, the PTI is actively pursuing to address the future-oriented learning and development needs of its extended client base, incorporating innovative and citizen-centric interventions. The reconfiguration of the Institute is a multi-year programme and will continue during the next financial year.

Client demand for the Value-based leadership development programme coordinated by Organisation Development has shown significant increases over the past year and will require additional capacity to sustain demand. The competency framework of the WCG needs to be refined and technical competencies defined to enable effective competency-based development, performance management and recruitment. The capacity model is being applied in the PTI reconfiguration to illustrate how capacity data can influence broader planning and resource allocation across the WCG.

The **Programme: Centre for e-Innovation** is charged with enhancing, maintaining and protecting an evergrowing digital footprint of the WCG. In an increasing mobile society, the technology, business models, and the overall landscape have evolved. The way people work has changed as they no longer expect to access the myriad of corporate resources solely from the office and on business-owned devices. In many ways, every company is now a technology company, providing services for citizens, partners and employees. Data and information are the lifeblood of the transformation, but they also increasingly attract cybercriminal activity. The increased dependence on ICT in the province has led to the increased risk of security breaches and targeted cybercrimes. To provide a high level of protection of the information and data assets, the WCG continues to make investments in specialised security technologies to further strengthen the security posture and safeguard the ICT infrastructure, data and information systems against unauthorized access and data loss.

The current Broadband service is being migrated to the new Broadband 2.0 contract. With Broadband being firmly embedded in the WCG corporate environment, school, libraries and e-Centres, the business requirement specifications for Broadband 2.0, were built off extensive planning and coordination across all Departments and informed by their service needs and the WCG Digital Transformation Plan. The new

Broadband 2.0 contract has been signed, with the bulk of the site migrations from BB1.0 to BB2.0 planned for the 2025/26 financial year.

While there is a high demand for new WCG e-Centres, the department's focus will be to maintain and enhance the portfolio of the current e-Centres as well as finding ways of extending the reach of the e-Centre services. This includes enhancing and digitising services, as well as repurposing our bricks and mortar facilities – to also serve as e-service delivery points.

The rapid proliferation of AI technologies has the potential to have a significant influence on the strategies and operations of the WCG departments. It is therefore important that the potential benefits be explored while mitigating the risks that this potentially disruptive technology might pose.

The **Programme: Corporate Assurance**, delivers mostly assurance services to all departments of the WCG, including risk management, internal audit and forensic services and is CoE dependent. Available productive hours continue to decline year-on-year, which impacts the level of assurance being provided by Internal Audit Services and an increase in the turnaround time of forensic investigations. There are also some services that are demand driven that cannot be predicted accurately. We accommodate additional requests as far as possible within available resources as we believe it enables departments to serve the residents of the Western Cape. We must indicate that we experienced a gradual reduction in resources as a result of the CoE management programme in the public service, and that all sub-programmes are below the critical mass levels as determined.

The **Programme: Legal Services** will continue to make the best use of available resources to meet demand for legal services, and will, in particular, and in collaboration with the Department of Local Government and Provincial Treasury prioritise both pro-active (training and awareness) and re-active (legal advisory) services to promote governance and service delivery in the local sphere of government.

Legal Services will also continue to use analytical information sourced from services provided, to not only achieve internal integration, but to also offer solutions to address identified trends and risks at a strategic and/or transversal level through translating identified risks and patterns into training opportunities and proactive transversal advisory guidance.

In the 2025/26 financial year the programme will increase the number of strategic engagements with clients to keep them up to date on important legal matters and obtain clear direction and instructions on such matters going forward.

Budget decisions

In light of the current fiscal environment, the Department's manoeuvrability in the use of discretionary funds is constrained as it focuses on maintaining the credibility and sustainability of its budget over the 2025 MTEF period. The impact of the Rand/Dollar exchange rate on licencing and capital expenditure in Ce-I remains a risk, as is inflation on the base licenses.

Services delivered by the Department are Compensation of Employees (CoE) intensive and a number of posts were not funded due to budget constraints, however, the Department plans to efficiently manage this expenditure item over the medium term. The 2025 MTEF budget for Broadband has been broadly aligned to Broadband 2.0 migration efforts. Funding was allocated to deal with the energy crisis. To ease the burden of loadshedding on our citizens, various demand and supply interventions will be undertaken.

2. Review of the current financial year (2024/25)

Programme: Executive Governance and Integration (Administration)

The Department received a clean audit outcome for the 2023/24 financial year and spent 98.8 per cent of its appropriated funds.

The Department continued its Financial Management Capacity building training initiatives for staff members to prevent non-compliance and at the same time strengthen the control environment in and across financial and accounting related processes, and in so doing elevated good governance across the various programmes within the department.

The Department is on track to achieve most, if not all, of its performance targets for the 2024/25 financial year.

Analysis of departmental communication plans to identify areas of collaboration and to ensure high impact remained the focus of the Directorate: Corporate Communication. The continual maintenance of the WCG Brand and communication strategy remained a priority.

The Directorate continued its external communication polling research surveys on citizen media behaviour. The polling research enabled us to modulate and adjust our entire communication response based on objective data and behaviour allowing us to pinpoint issues in advance, respond to problems and shift behaviour. This allowed for credible analysis in understanding what is happening on the ground.

Programme: Provincial Strategic Management

The Programme emphasised coherence in provincial policy planning by positioning a policy portfolio approach with policy integration areas in landing a PSP for the WCG. The integrated performance monitoring made substantial strides in embedding an Integrated Indicator Framework, Data Management Plans and evidence maps as tools to strengthen the policy and data value chain thereby enhancing WCG's efforts to manage data as a strategic asset within a broader data ecosystem.

The Programme continued to support the Energy Council, Safety policy priorities and various WCG departments such as Health and Wellness and Social Development in strengthening the evidence base for programme interventions relating to vulnerable communities, mental health and families. Advancements in data governance maturity and innovative data and evidence methods further embedded the culture of data and evidence-informed decision-making. Meanwhile, international engagements focused on bolstering global partnerships and trade. Collectively, these initiatives highlight the Programme's commitment to proactive governance, societal wellbeing, and strategic international engagement.

Policy and Strategy

The End of Term Review informed alignment to social economic priorities and provided an evidence base for the PSP Framework that laid the groundwork for strategic discussions and collaboration efforts across WCG departments. The policy direction focused on investing in promoting integrated planning aligned with budgeting processes towards enhancing service delivery and accountability. In addition, the scope on the Growth for Jobs Strategy, focused on medium term outcomes and socio-economic and human development priorities.

Policy analysis work within the Unified Change Strategy Integration Framework addressed key areas like Growth for Jobs, Safety, and Educated, Healthy & Caring Society, thereby promoting a transversal approach to service delivery challenges. Capability development and megatrend workshops relating to Futures Planning evolved to facilitating stakeholder engagements with strategic service providers ensuring evidencebased insights informed long-term planning. Strengthening early childhood health and family support initiatives integrated digital malnutrition interventions aligned with parenting programmes across Non-Profit Organisations (NPOs) and departments. The Innovation for Impact Knowledge Exchange engaged over 200 participants, sharing methodologies that enhanced public services and fostered collaborative improvement.

Engagements with the WCG's Innovation Champions emphasised innovations and methodologies such as LEAN Management and Design Thinking.

Strategic Management Information (Provincial Data Office)

In line with Flagship Initiatives identified for data governance, the Sub-programme highlights amongst others: the Provincial Data Forum (PDF) anchored the implementation of the Data Governance Policy Framework (DGPF), transversal data collaborative initiatives and explored emerging data themes towards a WCG Data Strategy. The drafting of the Data Governance Policy Framework for Artificial Intelligence (DGPF4AI) informed by extensive research grounds the ethical, transparent, and accountable use of AI technologies within the WCG ensuring that AI is effectively integrated with data governance practices to enhance public service delivery while managing associated risks.

The "Time to Talk Data" series involved a calendar of global, regional and local data and evidence events like the Transform Evidence Network Event, Local Evaluation week, the 2024 Africa Evidence Week and collaboration with the Development Bank of Southern Africa (DBSA). Partnerships such as the Responsive Evidence System for African Policy needs (REAP) initiative advanced evidence-informed decision-making by onboarding a social learning platform. Capabilities across departments were transformed in areas such as performance data, evaluation practices, and evidence methods.

Socio-economic and population data analysis in policy matters such as the government-wide 30-Year Review and Provincial Strategic Plan (PSP) is supported with a sound indicator base with metadata standards giving credibility to the administrative data generated by the department. The year-on-year measurement of residents' opinion of service delivery and experience in the province through a perception survey informed the construction of the third wave of the Service Delivery Index (SDI).

Data visualisation included dashboards on vulnerability indices, service delivery indicators, safety and energy measurements, together with its expanded dataset accessible via Western Cape Data Portal (WCDP) and WCG Open Data Portal. The digital enablement of performance tracking delivered a foundation release laying the groundwork for automated indicator data management.

As a trusted data partner, the PDO continues to drive advocacy and dialogues with Data Champions and Heads of Departments (HoDs) on improved coordination of core data and evidence sources to reduce duplication.

In line with the performance targets, quarterly releases present a trajectory of the institutionalisation of data governance in line with four outcomes highlighting lessons learned. A series of publications produced year-on-year outcome indicator and data trends, gave insights to socio-economic, service delivery and geographical context linking to developmental goals. On performance data, quarterly reports integrated with financial data are disseminated to Cabinet and the Budget Committee. Over the past five years the department generated evaluative evidence by conducting sixteen responsive evaluations with the latest insights into improving municipal performance reporting, and synthesising evidence on economic data sources through the lens of data governance.

Strategic Programmes

International Relations has enhanced the Western Cape's global presence and utilised strategic partnerships with other regions abroad to pursue the province's key strategic priorities including trade, tourism, and investment promotion, safety and climate change, to mention but a few. Highlights included the Western Cape's participation in the 11th Regional Leaders' Summit in China (during which the province assumed the chairmanship of the Regional Leaders' Forum), the International Relations Strategy provided a clear direction for future engagements, Premier's participation in the 2024 New York Climate Week Conference (as African co-chair of the Under2 Coalition) held alongside the United Nations General Assembly, and stronger collaboration with sector departments. In line with the Human Rights mainstreaming, Cabinet has been kept abreast through a reporting programme.

The sub-programme via the Problem-Driven Iterative Adaptation approach is at different stages working on safety, local economic development and procurement initiatives. The rolling out of an online course in partnership with PTI has the potential to be embedded to be a core part of the WCG Innovation and Culture conversations.

The Energy Resilience project included resourcing the core energy team and a portfolio of initiatives on a provincial municipal level. These included Loadshedding Packs, Demand-Side Management advisory services, Municipal Pooled Buying, Western Cape Integrated Resource Plan and the Western Cape Independent Power Producer Auction projects.

The Western Cape Commissioner for Children executed activities such as workshops with Child Government Monitors, advocacy material, monitoring visits and research with international partners such as the International and Canadian Child Right Partnership.

Programme: People Management

The Programme provides transversal services across the WCG departments and seeks to enable service excellence with people through the provision of highly capable people, a performance-conducive workplace and leadership that drives employee engagement.

The Programme ensures that people management contributes to the achievement of the strategic goals of the Department and the WCG. The People Strategy of the WCG had been implemented to provide a clear understanding of the current people management context and the desired people state.

The role of the Chief Directorate: Organisation Development, is to enable improvements in organisational effectiveness through planned interventions with departments and thereby contributing to improving the service delivery capacity of the WCG. Services are rendered to all 13 provincial departments and fulfils the provincial coordination role by representing the Province at national level, dealing with function-related initiatives, amongst other generic organisation design and job evaluation initiatives. Furthermore, the unit also leads transversal and departmental organisation design and business process improvement projects, Employee Health and Wellness services, the Provincial Assessment services, Culture and Change enablement, as well as the implementation of the Leadership Development Framework through the Value-based leadership development programme and associated development interventions.

The Chief Directorate: People Training and Empowerment (PTE), under which the PTI resorts, designs and delivers learning programmes, working closely with the National School of Government as well as Higher Education Institutions within the Province. As part of its responsibility to people empowerment, it is also responsible for skills facilitation, management and leadership development, innovation facilitation towards co-creating service delivery solutions, quality assuring and assessing training interventions to monitor and evaluate impact, as well as for facilitating the administrative processes of bursaries awarded to employees.

It coordinates learnerships and administers the placement of interns which includes the Premier's Advancement of Youth (PAY) project. The PAY project is one of the initiatives by the WCG to address the growing youth unemployment and skills challenge in South Africa, more specifically in the Western Cape. It does this by providing several matriculants with experiential learning within the 13 provincial departments. Since its inception in 2012, the PAY Project has provided about 5 000 internship opportunities.

The Chief Directorate: People Management Practices ensures that people policies are unambiguous, clear, and legally sound, and provides people metrics and intelligence that timeously inform Futures thinking and evidence-informed decision-making. It also provides strategic workforce planning services to ensure that the WCG has the right people, skills, and tools to meet future needs through the right tools and innovations. This involves integrating workforce forecasting, capacity assessments, and targeted strategies, while utilising systems and innovation to equip people professionals and managers with the tools they need to lead effectively with people.

It is also responsible for effective and efficient collective bargaining based on the principles of mutual interest and ensuring the constitutional rights and obligations of employees and the organisation are upheld. There is also the managing of a multitude of service benefits transactions and interventions as well as performance management that drives a high-performance culture. The Chief Directorate liaises with the Auditor-General of South Africa (AGSA) in line with the agreed CSC Audit Protocol and has contributed to 11 departments receiving clean people practice audits in the previous financial year.

Programme: Centre for e-Innovation

The branch has overseen the roll-out of high-speed broadband connectivity to more than 2 000 WCG sites, of which 1 600 sites offer a Public Wi-Fi hotspot service that enables our citizens to access 6GB of free data per device per month.

The Western Cape Broadband initiative is based on the WCG Broadband Strategic Framework, and the vision of "a Western Cape where every citizen in every town and village has access to a modern, robust and affordable high speed broadband environment that connects government, citizens and the economy to improve productivity and access to new markets". Following extensive planning, preparation and coordination involving all WCG Departments, the Department of the Premier initiated the procurement process (through SITA) for Broadband 2.0 on 31 March 2023. The procurement process of Broadband 2.0 has been concluded by the State Information Technology Agency (SITA) and a new contract has been signed. The Department continued to strengthen its cyber security posture through implementing various actions contained in its Cyber Security Strategy as well as implementing management action plans emanating from the AGSA and our internal audit unit report.

Citizens can access government information and services through 15 citizen access channels managed by the Department. These include the traditional modes of the WCG walk-in-centre, WCG contact centres, and e-mail and social media channels such as You-tube, Twitter and Facebook.

The branch continued maintaining and supporting our current corporate installed base which comprise 28 600 users; 30 550 computers in the WCG Domain; 461 Applications; 977 Servers in operation; and broadband connectivity and Local Area Network at 430 corporate sites. In addition, 1 281 schools are supported with Local Area Networks and 1 104 schools are connected to the broadband network for schools.

Over the last two financial years, the Department collaborated with client departments on key projects which include, amongst many others:

Strengthening the DoH&W Telehealth services that started during the COVID-19 pandemic. This service had now been extended to Tuberculosis patients.

Successfully migrated Department of Agriculture from the Elsenburg.com to the westerncape.gov domain.

Successfully completed the migration of the Oracle on-prem servers from SITA to the Oracle Cloud Infrastructure (OCI).

Together with the Chief Directorate: Organisation Development collaborated with Western Cape Education Department on a project to reduce the administrative burden in schools.

Leading the cross-departmental team of DoH&W to land a new Emergency Medical Services' Call Dispatch service.

Programme: Corporate Assurance

The criteria for provincial risks were reviewed and amended in this financial year and resulted in a reduction of the number of provincial risks. A provincial risk profile remains relevant as it enhances the WCG's analysis and decision-making related to priority setting and resource allocation (especially under the current challenging economic climate).

The Chief Directorate: Internal Audit follows an intensive planning process at the start of a financial year, based on its available resources and continues to deliver an integrated quality internal audit service, compliant to the International Standard for Professional Practice of Internal Auditing (now being referred to as the Global Internal Audit Standards). This ultimately entails developing internal audit plans aligned to departmental strategies and issuing reports that contain value add recommendations. The Transversal Internal Audit plan matured due to the improvements in the provincial risk process. Further inroads were made with operationalising Combined Assurance in the WCG.

PFS rendered reactive and proactive forensic services to all departments in the WCG. It aims to create a zero tolerant environment towards fraud, theft and corruption by means of its proactive programmes agreed upon with each department annually. PFS also contributed to creating awareness among all employees of economic crime and inculcating a culture of responsible whistleblowing.

Programme: Legal Services

Legal Services rendered advice in the form of legal opinions to the Provincial Executive, provincial departments, and provincial public entities, and attended to the vetting of contracts with financial implications, prior to their conclusion by provincial departments.

Legal governance assessments were conducted in support of decision-making to ensure compliance with the provisions of the Promotion of Administrative Justice Act (PAJA) and other relevant legislation.

Litigation instituted by or against the WCG was managed in consultation with the Office of the State Attorney, whilst the Legislation Directorate attended to provincial legislative and subordinate legislative projects. The Legislation Directorate also collated comments on draft national Bills that have been published for comment since 1 April 2023.

Legal training was provided to provincial departments and municipalities, and ongoing support rendered to enable departments to comply with the Protection of Personal Information Act (POPIA).

3. Outlook for the coming financial year (2025/26)

Programme: Executive Governance and Integration

The Financial Management sub-programme will continue to provide a financial management and supply chain support function to the Director-General, the Premier and enable programmes within the Department to deliver on their respective mandates. The sub-programme contributes to good governance transformation through executing the approved Financial Management Capacitation Plan, which is designed to enhance the financial management capability in the Department. This involves pro-active initiatives, training collaborative, and integrated financial assurance processes as well as a stronger client focus with the objective to strengthen governance and accountability.

The Directorate: Corporate Communication will make every effort to deliver on its main objective, which is to ensure the consistent application of the WCG's brand identity, messaging and to deliver on the brand promise, through rendering professional corporate communication services, which support the priorities of the WCG. The Directorate strives to achieve its objective with several continual engagements with communication teams from all WCG departments and its partners.

In addition, the Corporate Communication Directorate will execute the following communications campaigns and projects with the aim of listening more effectively and responding to our citizen and residents' needs:

Social media monitoring of all WCG departments.

Tracking poll of citizens' perceptions and experience of WCG.

Programme: Provincial Strategic Management

Provincial Strategic Management, in line with the implementation of the PSP, will coordinate the provincial strategic policy priorities for transversal implementation across the legislative mandates, using a coherent and integrated approach to planning and performance processes. In line with the Programme's strategic outcomes for the next five years, coherence in data use and production across departments, and increased use of evidence-informed policy-making and implementation, the programme will embark on strengthening the policy-data value chain across strategic priorities.

In line with the MTEF Budget considerations, the Programme will progressively continue with the trajectory of the high-end value policy imperatives attracting foreign investment boosting the tourism sector, enhancing the Western Cape and South Africa's international reputation and influencing global policy discussions. Further policy imperatives and data governance initiatives; in tandem, be responsive to new demand linked to innovation, culture and governance. These include amongst others:

Provincial Strategic Plan (PSP) implementation

Provincial Data Strategy development

Policy framework reviews such as youth development

Data evidence capabilities

Artificial Intelligence (AI) Policy and Governance Framework for responsible use

Futures mapping and long-term planning

Digitally enabled performance tracking

WCG Open Data Portal for increased transparency and accountability

International Relations initiatives such as hosting the Business 20 and Regional Leaders Summit where priority areas include trade and investment, infrastructure and development, education, and climate change.

Energy Resilience programme

In response to the evolved demand, Programme 2 has positioned itself to strategically lead key service integration areas of collaboration and optimisation towards evidence-informed decision-making across WCG, supporting the innovation, culture and governance journey. This includes partnerships within and across departments to strategically coordinate strategy, planning and performance, policy priorities for budgeting, measurement, and data and evidence services. This is further embedded by streamlining advocacy, communication, partnerships and capacity building with the intent of making data and evidence accessible for further application.

Programme: People Management

The Programme will continue to examine its ability to respond to challenges of the modern workplace and the overall agility of people management to make use of opportunities to improve the operational efficiency and effectiveness of departments.

People Management seeks to enable service excellence with people through the provision of highly capable people, a performance-conducive workplace and leadership that drives employee engagement. This strategic objective is aligned with the National Development Plan, specifically with Priority 1 of the 2019 – 2024 MTSF for the achievement of a capable, ethical and developmental state.

The Programme will play a key role in fostering a people-centric culture, with interventions aimed at developing leaders who can nurture this culture and empowering all employees to embody its norms and values. By incorporating engagement and feedback mechanisms from both residents and employees, the Programme will assess the impact of these changes, ensuring they contribute to a Positive Employee Experience and drive the desired cultural shift. Aligned with fiscal constraints, the focus will be on refining Service Delivery Models across departments and the WCG as a whole, while also coordinating optimisation initiatives that drive Innovative People Practices enhancing efficiency and effectiveness. The focus on a Healthy and Productive Workplace will remain with a continued focus on pro-active wellness approaches. The competency framework of the WCG needs to be refined to facilitate competency-based people practices. In line with the focus on being a Talent-Driven Organisation, the reconfiguration of the PTI seeks to reposition it into a provincial learning and innovation centre that will continue to provide for the delivery of transversal learning programmes and the review of curriculum design and quality assurance, ensuring that it lands future skilling and new training methodologies and technology as well as provide an innovation facilitation hub to stimulate innovative solutions to service delivery challenges. It will also provide for the identification of future skills, and training methodologies and mechanisms in partnership with key stakeholders.

Programme: Centre for e-Innovation

The exponential increase in demand for digitalisation, coupled with the rapid switch to remote working have made the IT service delivery and risk landscape more complex.

Our security and risk management team will continue to implement effective risk prevention and mitigation actions during this time, when ransomware attacks have become more complex and occur at a higher frequency. Increased sources of threats concerning the health and safety of citizens and disruption to business operations have put the need for more predictive hazard and threat intelligence services front and centre amid efforts to create situational awareness and proactive risk treatment.

The current Drupal Platform on which our Province's website operates has been redeveloped to a new public facing WCG portal platform. During 2025/26 the new platform will be consolidated and enhanced subject to availability of funds.

Within Programme 4, the demand for digitalisation of processes is increasing at an exponential rate. Digital transformation and data are enablers of the province's Growth for Jobs Strategy and as a result great reliance is placed on Ce-I to provide responsive and professional support to all departments.

The Ce-I will therefore focus on the following interventions that will be either initiated or upscaled for greater impact:

Migrating broadband services running under the Broadband 1.0 contract to the Broadband 2.0 contract with minimal disruption to these services.

Further strengthening our WCG Cyber security posture.

Maintaining the current portfolio of WCG e-centres and the mobile e-centre.

Consolidating and enhancing the new Digital Experience platform (DXP) to replace the current WCG Portal.

Expanding and optimising our Cloud services.

Continuing to enable, implement and support Digital Transformation Plan (DTP) initiatives.

People and process optimisation within the Branch.

Application Portfolio Rationalisation.

Enabling citizen engagement mechanisms to allow for participation and co-creation through outreach and other initiatives.

Improving IT Services Management to all departments.

Programme: Corporate Assurance

Having due regard for the need to demonstrate citizen impact and taking account of the current evolving strategic environment in the WCG, the Branch has defined its strategic framework in line with the Department's role to "Guide, Enable, Direct". The framework centres around two strategic themes i.e. "client benefit and satisfaction" and "delivering agile, proactive and innovative assurance and advisory services of the highest quality".

The Branch plays a role in changing the culture relating to governance and hope to, through its work that focusses on value creation for the people of the Western Cape and especially through partnerships with the client departments, change the compliance mindset over time. This requires an integrated approach to change the culture and mind-set to step up from "malicious compliance" toward governance processes that are ethically executed to guarantee public value, allowing innovation to drive new ideas and ways of doing things and allowing failure in some instances and collaboration with all relevant stakeholders, including the residency. Continuous engagements with other parties, including the Auditor-General of South Africa, Provincial Treasury and other business units in the Department, is part of the approach to achieve this.

Programme: Legal Services

Legal Services will continue to render advice in the form of legal opinions to the Provincial Executive, provincial departments, and provincial public entities. It is anticipated that approximately 2 400 requests for legal services will be received and actioned during the 2025/26 financial year.

Legal Services will also continue to use analytical data sourced from the programme's activities, which will be taken up in reports to the Provincial Cabinet and Provincial Top Management to demonstrate patterns, trends, weaknesses, and risks that could be addressed strategically with provincial departments. These reports will include summaries of relevant judgments handed down by the superior courts to highlight new developments in the law, aimed at deepening decision-makers' understanding of the requirements for legally sound actions and decisions.

4. Service delivery risks

The Department will continue with efforts to manage a very tight fiscal envelope with the emphasis on the management of Compensation of Employees without compromising services with a direct impact on residents. The connectivity through Broadband and free Wi-Fi flagships will remain fully funded.

Microsoft Licences remain a key service delivery risk and budget pressure for the Department, which impacts on other WCG departments, particularly as it relates to the Rand/Dollar exchange rate, user base and ensuring an optimal level of end-user security.

In line with the risk to manage data as a strategic asset towards continuously maturing into a data-driven organisation, the migration factors are centred around data technology:

Western Cape Data Portal as a central pathway for data access and evidence sharing.

Advocacy initiatives promoting data use, governance, and evidence-based decision-making.

WCG Performance Tracker as a lens into service delivery and outcome performance.

In our rapidly evolving and connected world, digital technologies have a major impact on the public sector and governments that are using digital tools to improve their interactions with residents and businesses. Residents and communities are exposed to and are rapidly adopting digital technologies, broadband connectivity and expect companies and governments to provide relevant services and capabilities. By digitising processes, governments aim to enhance services and improve the residents' experiences. Consequently, privacy and data security concerns have become critical issues to manage with potential risk of financial loss, disruption or damage to the reputation of people or organisations due to failure to protect information and information technology systems.

Ongoing management of information and cyber risks is critical for executive management to discharge its duties, and the treatment of cyber security risk is regarded as paramount for future success. The operational complexity of the modern cyber security stack place efficient cyber security out of reach for most organisations. The WCG has opted for technologies that consolidate security functions, thereby enhancing our cyber security posture.

5. Reprioritisation

The Department has a fully operational Budget Committee in place. This Committee makes recommendations with regard to the filling of critical posts, based on agreed criteria.

To deal effectively with the constrained Goods and Services budgets over the 2025 MTEF, allocations are considered over the MTEF and in the Adjustments Budget and funding is prioritised among various programmes in the Department.

6. Procurement

The Department will continue with its structured procurement planning process. This process consists of dedicated procurement planning meetings which focus on:

- a) analysis of past procurement expenditure (which is used to inform future trends); and
- b) scheduling of procurement tasks for timeous procurement and delivery of goods and services.

The Procurement Plan will be finalised by the end of March 2025. A major portion of the Goods and Services budget allocation will be spent on Computer Services/IT-related services.

7. Receipts and financing

Summary of receipts

Table 7.1 hereunder gives the sources of funding for the vote.

Table 7.1 Summary of receipts

| | | Outcome | | | | | | Medium-ter | m estimate | |
|---|--------------------|--------------------|--------------------|---------------------------------------|---|--------------------------------|-----------|--|------------|-----------|
| Receipts R'000 | Audited 2021/22 | Audited 2022/23 | Audited 2023/24 | Main appro- priation 2024/25 | Adjusted appro- priation 2024/25 | Revised estimate 2024/25 | 2025/26 | % Change from Revised estimate 2024/25 | 2026/27 | 2027/28 |

| Departmental receipts | | | | | | | | | | |
| Sales of goods and services other than capital assets | 1 001 | 1 033 | 1 129 | 1 852 | 852 | 852 | 935 | 9.74 | 1 022 | 1 113 |
| Interest, dividends and rent on land | 29 | 5 | 14 | 17 | 17 | 17 | 18 | 5.88 | 19 | 20 |
| Sales of capital assets | 5 | 1 | | | | | | | | |
| Financial transactions in assets and liabilities | 3 424 | 1 547 | 1 746 | | | | | | | |
| Total departmental receipts | 4 459 | 2 586 | 2 889 | 1 869 | 869 | 869 | 953 | 9.67 | 1 041 | 1 133 |
| Total receipts | 1 719 608 | 1 799 312 | 2 006 063 | 2 008 035 | 2 103 045 | 2 103 045 | 2 012 784 | (4.29) | 2 007 058 | 2 091 413 |

Summary of receipts:

Total receipts decreased by R90.261 million or 4.29 per cent from R2.103 billion (2024/25 revised estimate) to R2.013 billion in 2025/26.

Treasury funding:

Equitable share funding increased by R80.489 million or 4.38 per cent from R1.838 billion (2024/25 revised estimate) to R1.918 billion in 2025/26.

Financing:

Provincial Revenue Fund financing decreased by R170.834 million or 64.55 per cent from R264.637 million (2024/25 revised estimate) to R93.803 million in 2025/26.

Departmental receipts:

Departmental own receipts for 2025/26 are estimated at R953 000 of which R580 000 is attributed to the sale of Provincial Government Gazettes.

Donor funding (excluded from vote appropriation)

None.

8. Payment summary

Key assumptions

Provision for Compensation of Employees are made on the assumption that ICS increases over the 2025 MTEF period should be linked to CPI as a guide and that normal attrition should occur. Pay progression has been provided for. It is also assumed that the Rand to the Dollar exchange rate would not weaken significantly over the medium term.

Programme summary

Table 8.1 below shows the budget or estimated expenditure per programme and Table 8.2 per economic classification (in summary). Details of the Government Financial Statistics (GFS) economic classifications are attached as an annexure to this vote.

| | | | Outcome | | | | | | Medium-terr | n estimate | |

Table 8.1 Summary of payments and estimates

Note: Programme 1: Premier's total remuneration package: R2 531 760 with effect from 1 April 2024.

The budget structure of this Department deviates from the national sectoral (generic) structure due to a modernisation process whereby the organogram was revised, and the programme structure was brought in line with the organisational design of the Department.

Summary by economic classification

| Public Corporations: Communication: Licenses | 63 | 63 | 66 | 66 | 66 | 66 | 70 | 6.06 | 70 | 70 |
| Total departmental transfers to other entities | 63 | 63 | 66 | 66 | 66 | 66 | 70 | 6.06 | 70 | 70 |

Note: With the change in the Standard Chart of Accounts with effect from 1 April 2025, the item Communication: Licenses has been removed from the **Departmental agencies and accounts** category and shifted to **Public corporations and private enterprises**, Other transfers to public corporations. This shift includes previous expenditure such as payments to the South African Broadcasting Corporation (SABC) for the payment of television and radio licenses.

Transfers to local government

None.

9. Programme description

Programme 1: Executive Governance and Integration (Administration)

Purpose: To provide executive governance support services.

Analysis per sub-programme

Sub-programme 1.1: Programme Support

to provide administrative support to the management of this Programme

Sub-programme 1.2: Office of the Premier

to provide operational support to the Premier

Sub-programme 1.3: Executive Council Support

to manage the provision of secretariat, logistical and decision support services to the Cabinet, the Premier's intergovernmental relations forums, the provincial top management and the Department of the Premier's executive committee, and further deals with provincial protocol matters and administers the provincial honours

Sub-programme 1.4: Departmental Strategy

to provide strategic management, coordination and governance support services by facilitating the departmental strategic management processes, and the safety and security arrangements for the Department

Sub-programme 1.5: Office of the Director-General

to provide operational support to the Director-General

Sub-programme 1.6: Financial Management

to ensure effective budget management, financial accounting services and the application of internal control measures, as well as the management of provisioning, assets, procurement and the departmental records and general support services

Sub-programme 1.7: Strategic Communication

to coordinate external communication and public engagement in order to ensure that the Western Cape Government communicates its strategic goals and service delivery outcomes to the people of the Western Cape

Sub-programme 1.8: Corporate Communication

to coordinate communication messaging to ensure that the strategic goals of the WCG are communicated to the people of the Western Cape

Policy developments

None.

Changes: Policy, structure, service establishment, geographic distribution of services, etc.

The sub-programme: Corporate Communication has been shifted from Programme 5: Corporate Assurance to Programme 1: Executive Governance and Integration. There is acknowledgement that communication is not an assurance function and should be strategically managed within Programme 1.

Expenditure trends analysis

The Programme's budget shows a decrease of 0.38 per cent between 2024/25 and 2025/26. This is due to no allocation for the Strategic communications, Social Media Monitoring and Citizen Perception Surveys project that was funded in the 2024/25 financial year.

Outcome as per Strategic Plan

Programme 1: Executive Governance and Integration (Administration)

Healthy and Productive workforce.

Improved quality, efficiency and effectiveness of departmental performance.

Improved perception of trust in the WCG to deliver on promises through strengthened strategic communications.

Improved awareness of WCG brand purpose amongst employees towards internal cultural change.

Outputs as per Annual Performance Plan

Frontline service delivery improvement reports.

Accounting Officer Governance Reports on the performance of the Vote.

Digitisation of Financial Management processes.

Management of media risks and opportunities.

Providing a review and improving on transversal compliance of brand and brand concept by WCG departments.

Providing research on the perception of trust in the WCG to deliver on its promises to enable the assessment of strategic communications efforts.

Providing research on the ability of staff to articulate the WCG brand purpose to enable an improved assessment of internal culture change efforts.

Providing awareness of the WCG brand purpose in support of the WCG Vision-Inspired Priorities and to build a single, strong organisational brand identity.

Note: With the change in the Standard Chart of Accounts with effect from 1 April 2025, the item Communication: Licenses has been removed from the **Departmental agencies and accounts** category and shifted to **Public corporations and private enterprises**, Other transfers to public corporations. This shift includes previous expenditure such as payments to the South African Broadcasting Corporation (SABC) for the payment of television and radio licenses.

Programme 2: Provincial Strategic Management

Purpose: To direct and coordinate provincial strategic policy priorities to enhance service delivery for the people of the Western Cape enabled by evidence informed policy, strategic programmes and data governance services.

Analysis per sub-programme

Sub-programme 2.1: Programme Support

to provide administrative support to the management of this Programme

Sub-programme 2.2: Policy and Strategy

to coordinate, support and promote innovative and evidence-based policy and strategy development, planning, implementation, and review

Sub-programme 2.3: Strategic Management Information

within the role of a Provincial Data Office, the Sub-programme leads in institutionalising province-wide management of data governance in the WCG by directing, establishing and maintaining the production and utilisation of data as a strategic asset within the broader provincial data ecosystem

Sub-programme 2.4: Strategic Programmes

to lead and coordinate the institutionalisation of strategic programmes in support of key Provincial strategic priority areas such as energy, safety, jobs and educated, healthy & caring society.

Policy developments

The PSP 2025 - 2030 was developed with all provincial departments, in consultation with municipalities and other external stakeholders and was approved by Cabinet. Owing to the significant impact of COVID-19, a Recovery Plan was developed in 2021 and this was later updated to the PSIP.

Changes: Policy, structure, service establishment, geographic distribution of services, etc.

This Programme provides professional support to the Provincial Executive and departments to implement the 2025 - 2030 PSP, 2025 - 2030 Medium Term Strategic Framework, WC Recovery Plan and PSIP. Provision is made for the management, implementation of performance review of provincial strategic priorities. Responsibility for the EDP has shifted from DEDAT to DotP as from 1 April 2024.

Expenditure trends analysis

The Programme's budget shows a decrease of 0.79 per cent from 2024/25 to 2025/26. The decrease is due to funding allocated for Energy projects in 2024/25.

Outcomes as per Strategic Plan

Programme 2: Provincial Strategic Management

Evidence-informed policy-making and coherent strategic implementation.

Coherence in data use and production across departments.

Improved evidence-based policy, planning and implementation

Outputs as per Annual Performance Plan

Knowledge products which support evidence-informed policy making.

Initiatives which drive coherent strategic implementation.

A set of publications and releases on indicators and data towards data insights.

A set of data portals to support an interconnected data ecosystem.

Data and evidence capabilities advanced.

Strategic partnerships created as a result of international relations engagements.

Human Rights-based transversal programmes institutionalised across WCG in respect of priority groups.

Priority Programmes Coordinated.

Established Office of the Commissioner for Children.

Note: The responsibility for the Western Cape Economic Development Partnership (EDP) was shifted from Vote 12: Economic Development and Tourism to Vote 1: Department of the Premier as per the proclamation by the Premier dated 14 February 2024 effected in 2024/25. The historical financial information has been included in the sub programme 2.2: Policy and Strategy.

Earmarked allocation

Included in the Programme are earmarked allocations for the following:

Commissioner for Children – R10.009 million (2025/26); R5.955 million (2026/27) and R6.205 million (2027/28).

Energy - R36.799 million (2025/26).

Strategic Events including Regional Leaders Summit, G20 and B20 Summits – R24 million (2025/26).

Note: With the change in the Standard Chart of Accounts with effect from 1 April 2025, the item Communication: Licenses has been removed from the **Departmental agencies and accounts** category and shifted to **Public corporations and private enterprises**, Other transfers to public corporations. This shift includes previous expenditure such as payments to the South African Broadcasting Corporation (SABC) for the payment of television and radio licenses.

Programme 3: People Management

Purpose: To render an integrated transversal people management service, that includes organisational development, training and development, and people practices.

Analysis per sub-programme

Sub-programme 3.1: Programme Support

to provide administrative support to the management of this Programme

Sub-programme 3.2: Organisation Development

to coordinate the development of the required level of organisational capacity to enhance peoplecentric delivery

Sub-programme 3.3: People Training and Empowerment

to provide impactful, relevant and responsive training and development

Sub-programme 3.4: People Management Practices

to provide effective, efficient and professional people management practices through strategic business partnerships and transactional excellence

Policy developments

None.

Changes: Policy, structure, service establishment, geographic distribution of services, etc.

None.

Expenditure trends analysis

The Programme's budget shows an increase of 9.85 per cent from 2024/25 to 2025/26 which is due to funding allocated for the PTI Reconfiguration project.

Outcomes as per Strategic Plan

Programme 3: People Management

Healthy and Productive Workplace

Talent-Driven organization.

Innovative People Practices.

Positive Employee Experience.

Outputs as per Annual Performance Plan

People-centric culture experience

Adaptive WCG Business Architecture

Frontline service delivery improvements

Health Risk Profile Improvement

Improved employee satisfaction with educated, healthy & caring society initiatives delivered

Holistic Implementation and Optimisation of the Talent Lifecycle

Effective implementation of Advancement of Talent Acquisition Practices

Strategic Business Partnerships Strengthening Talent Excellence

People analytics and intelligence

Empowering and enabling People Management Framework

Policy Enabled Environment

Transactional excellence

Programme 4: Centre for e-Innovation

Purpose: To enable service excellence to the people of the Western Cape through Information and Communication Technology.

Analysis per sub-programme

Sub-programme 4.1: Programme Support

to provide administrative support to the Programme

Sub-programme 4.2: Strategic ICT Services

to render strategic ICT services to the WCG, focusing on IT planning and development, digital technology research and innovation, the coordination of the Corporate Governance of ICTs as well as the Digital Government agenda which includes rendering WCG services and information digitally via 15 citizen facing channels, the enhancing of the citizen's experience of the platforms on which the WCG provides online alternatives and citizen ICT skills development to address the digital divide.

Sub-programme 4.3: GITO Management Services

to provide client IT services to the WCG, which includes the management of the IT service desk as well as IT service management to the Ce-I client departments. This sub-programme is also responsible for the distributed computing environment as well as for IT Security

Sub-programme 4.4: Connected Government and Infrastructure Services

to provide connectivity to WCG sites through the Broadband initiative; provide free internet connectivity to citizens through Public Wi-Fi Hotspots and managing the WCG's transversal ICT infrastructure

Sub-programme 4.5: Transversal Applications Services

to provide central application development and cloud hosting services to the WCG

Policy developments

None.

Changes: Policy, structure, service establishment, geographic distribution of services, etc. None.

Expenditure trends analysis

The Programme's budget shows a decrease of 8.21 per cent from 2024/25 to 2025/26. The decrease is due to the funding allocated for Broadband 1.0 and Microsoft Licensing software in 2024/25.

Outcomes as per Strategic Plan

Programme 4: Centre for e-Innovation

Digitally empowered and enabled WCG.

Outputs as per Annual Performance Plan

Provide public ICT access facilities where citizens have free access to ICT facilities and skills development opportunities

Contact Centre services that is responsive and ensures accountability

Development of a Provincial DTP IT Operational Plan to align IT activities to the DGS

Conduct research and provide exposure to emerging technologies and innovation practices

Level of IT Governance improved

Ensure employees IT services are restored to facilitate optimal service delivery

Improved Information Technology Security

Provide stable high speed broadband connectivity to all WCG government sites

Provide free access to the internet to public through public Wi-Fi Hotspots

Ensure a reliable IT network which ensures employees are able to perform WCG services efficiently

Enables access to new/enhanced digital services that contributes to business process optimisation and efficiency

Systems' hosting infrastructure will ensure access to critical IT systems and applications

Note: With the change in the Standard Chart of Accounts with effect from 1 April 2025, the item Communication: Licenses has been removed from the **Departmental agencies and accounts** category and shifted to **Public corporations and private enterprises**, Other transfers to public corporations. This shift includes previous expenditure such as payments to the South African Broadcasting Corporation (SABC) for the payment of television and radio licenses.

Programme 5: Corporate Assurance

Purpose: To render enterprise risk management, internal audit and provincial forensic services.

Analysis per sub-programme

Sub-programme 5.1: Programme Support

to provide administrative support to the management of this Programme

Sub-programme 5.2: Enterprise Risk Management

to improve WCG governance through embedded risk management

Sub-programme 5.3: Internal Audit

to improve WCG governance through improved business processes

Sub-programme 5.4: Provincial Forensic Services

to improve WCG governance through the prevention of and responding to fraud and corruption

Policy developments

None.

Changes: Policy, structure, service establishment, geographic distribution of services, etc.

In the context of the weak economic outlook, additional funding is not foreseen in the medium term, and in line with departmental planning processes, certain posts are not funded and all sub-programmes are below the identified critical mass. Where required and within the available budget, the Chief Directorate: Internal Audit outsources some engagement to strengthen independence of such engagements. There are some areas where it is not viable to create permanent posts in the approved structures due to the specific specialism. These skills will be insourced as and when required.
Expenditure trends analysis

The Programme's budget shows an increase of 6.27 per cent from 2024/25 to 2025/26 which is chiefly due to funds allocated for Improvement in Conditions of Service (ICS)

Outcomes as per Strategic Plan

Programme 5: Corporate Assurance

Transformed governance through proactive agile and innovative assurance and advisory services anticipating need of client departments and value to residents.

Outputs as per Annual Performance Plan

Approved provincial and departmental enterprise risk management strategies and implementation plans.

Actual ERM deliverables delivered against all deliverables agreed on.

Strategic risks identified that relate to the citizen and core service delivery.

Internal Audit reports completed.

Action plans followed-up and implemented.

Citizen-focussed Internal Audit engagement conducted.

Facilitate anti-fraud and corruption awareness sessions/engagements.

Implement fraud prevention activities.

Conduct forensic investigations on allegations.

Follow-up on recommendations made in forensic reports.

Note: With the change in the Standard Chart of Accounts with effect from 1 April 2025, the item Communication: Licenses has been removed from the **Departmental agencies and accounts** category and shifted to **Public corporations and private enterprises**, Other transfers to public corporations. This shift includes previous expenditure such as payments to the South African Broadcasting Corporation (SABC) for the payment of television and radio licenses.

Programme 6: Legal Services

Purpose: To render a comprehensive legal support service to the Western Cape Government.

Analysis per sub-programme

Sub-programme 6.1: Programme Support

to provide administrative support to the management of this Programme

Sub-programme 6.2: Legal Advisory and Governance Services

to provide corporate legal advisory and governance services to Members of the Executive and provincial departments

Sub-programme 6.3: Legislation

to support the Provincial Executive and WCG in fulfilling their constitutional legislative mandate by meeting the necessary legislative drafting requirements.

Sub-programme 6.4: Litigation

to provide a legal support service in respect of litigation, working in conjunction with the Office of the State Attorney

Policy developments

Legal Services will consolidate the partnerships that it has built with its clients and adopt a pro-active and strategic approach by placing reliance on analytical information to detect trends and risks, which will enable Legal Services to work with its clients to address matters pro-actively to improve decision-making and fiscal efficiency and avoid litigation and wasted costs.

The programme also intends increasing the number of strategic engagements with Members of the Provincial Executive and their respective departments and developing a system for pro-actively reaching out to clients when, pursuant to a court judgement, media article or other information, there is or might be a need for legal support in implementing the judgment or dealing with the matter in question.

Legal support in areas that demand priority, such as medico-legal claims, local government service delivery and governance, and procurement will be prioritised.

Changes: Policy, structure, service establishment, geographic distribution of services, etc.

Demand for services is not expected to decline in the 2025/26 financial year, however, with the funding of a number of structural enhancements, the unit is well-placed to better meet demand for services and, where possible, expand its service offering to include more pro-active and preventative initiatives and services. When necessary, available resources will be optimised and matters prioritised to make sure that the quality of services and agreed turn-around times are not compromised.

Expenditure trends analysis

The Programme's budget shows an increase of 8 per cent from 2024/25 to 2025/26 which is due to funds allocated for augmentation to strengthen Legal Services, particularly for Local Government.

Outcomes as per Strategic Plan

Programme 6: Legal Services

Enabled legally sound decision-making by the Western Cape Government in the attainment of provincial strategic priorities and the delivery of services.

Outputs as per Annual Performance Plan

Providing legal services to enable legally sound executive and administrative actions and decisions.
