

NATIONAL ASSEMBLY
QUESTION FOR WRITTEN REPLY
QUESTION NUMBER: 1124 [NW1217E]
DATE OF PUBLICATION: 20 APRIL 2018

1124. Mr R A Lees (DA) to ask the Minister of Finance:

Whether SA Airways Technical purchases (a) parts and (b) other technical components for aircraft they service, directly from the (i) manufacturers of the items and/or (ii) aircraft manufacturers; if not, what are the details of the (aa) names of suppliers, (bb) contracts concluded with each supplier, (cc) additional costs incurred by not purchasing directly from manufacturers and/or other aircraft manufacturers and (dd) reasons for not procuring parts and technical components directly from manufacturers of the items and aircraft manufacturers in each case?

NW1217E

REPLY:

(a) and (b) (i) and (ii) SA Airways Technical (SAAT) does not only procure parts and technical components from Original Equipment Manufacturers (OEMs). In instances where parts, components and technical equipment are available from accredited resellers, channel partners, accepted suppliers or if refurbished, overhauled or serviced parts/components/equipment are available and acceptable, quotations are invited on a competitive basis from suppliers other than OEMs. The procurement process is in accordance with the South African Airways Global Supply Chain Policy which was approved by the Board of Directors of SAA in 2016.

(ii) (aa) The names of Suppliers are as per the Approved List of Suppliers attached as Annexure A.

(ii) (bb) Annexure B contains the list of contracts which are in place with various suppliers.

(ii) (cc) SAAT's financial systems do not provide functionality to provide the price difference between OEMs and other suppliers for the approximate 18 000 orders processed per annum.

(ii) (dd) Parts and technical components are procured from suppliers other than OEMs when stock is not available, if an acceptable serviced component/part is available from channel partners, agents with proprietary rights associated with OEMs.

Annexure A: SAAT Spares and Components Suppliers
