1. INTRODUCTION

The Supply Chain Management (SCM) in government is currently at the low level of competence with the lack of standardized SCM processes across all government departments. The Office of the Chief Procurement Officer (OCPO) within National Treasury (NT) was established to lead SCM reforms. This will entail a significant change in how the government is doing business and optimise engagement with the private sector. OCPO requires support in the change management and communication of SCM reforms.

2. BACKGROUND INFORMATION

A paradigm shift is required to ensure that SCM transforms while creating value for its activities. In order to optimise the impact of the SCM reforms, change management expertise is required to enhance the OCPO's initiatives. Two resources will be required to commence in March 2016 or later, the service is estimated to last for 1 year.

Furthermore, in order to avoid uncertainty it is imperative to communicate what is coming well in advance. This will require a dedicated resource to communicate, disseminate, market and promote anticipated SCM reforms in various media platforms. The National Treasury is looking for services of one Stakeholder liaison to perform communication services for the period of 1 year starting from March 2016.

3. PURPOSE, OBJECTIVE & EXPECTED DELIVERABLES

3.1 Purpose

The main objective of the OCPO is to ensure that all stakeholders are informed of the changes that will be brought by the improved government procurement practices.

3.2 Key Deliverables

3.2.1 Change Manager (s)

The two (2) resources are expected to assist with change management implementation and monitoring. The following will be expected from the resources:

- i. Coordinate and Control Change activities;
- ii. Assess Change;
- iii. Initiate Change;
- iv. Test Change;
- v. Schedule Change;
- vi. Implement Change;
- vii. Review Change;

viii. Close Change

The change interventions must mobilise SCM practitioners, heads of SCM, HODs and DGs, Executive authorities and Provincial Treasuries to adopt the modernisation agenda proposed in the IFMS business processes. Change management will focus on the adoption of a single Central Supplier Database, publishing bids and awards on e-tenders portal and making use of the gCommerce portal for common goods and services. It is envisaged that a long term change approach will be adopted for SCM with controlled interventions as a first step towards the modernised state. The change will be towards adopting the modernised business processes rather than adopting the supporting technology in Oracle.

3.2.2 Communication Officer

The resource is expected to assist with stakeholder engagement and will be expected to fulfil the following roles:

- i. Provide communication support;
- ii. Manage day-to-day media and public relations activities
- iii. Marketing Activities
- iv. Develop Stakeholder Engagement
- v. Manage Publicity Initiatives

SCM Communication interventions will be holistic in nature and focus on modernisation of business processes. The OCPO anticipates that the communication strategy will focus on optimising SCM immediately (there is aspects that can be adopted without technology or within the current legacy systems). The communication expert will be expected to establish systems of communication and a strategy that will provide a vehicle for transmitting key information to different stakeholders regarding the SCM reform, optimisation through the CSD, e-Tenders portal, gCommerce and IFMS business processes.

4. ASSUMPTIONS & RISKS

4.1 Assumptions underlying the project intervention

It is assumed that the resources will provide expert service in the required fields namely change management and stakeholder engagement.

4.2 Risks

Changes will also impact the current SCM policies and practices and that creates uncertainty on the side of parties involved. It is our aim to give direction and support all stakeholders to adapt and easily clear confusion that may come with the change.

5.2 Specific Activities in Change Management

The resources will have to perform the following activities in order to deliver on the required deliverables or outputs:

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
