## 1. INTRODUCTION

The National Treasury fulfils a pivotal role in the implementation of both the Public Finance Management Act (PFMA) and the Municipal Finance Management Act. These Acts advocate an effective and efficient management of all revenues, expenditures, assets and liabilities in the public sector.

The South African government has prioritised the transformation of the public sector to enable it to meet the needs of the people and its policy objectives. The National Development Plan 2030 requires the country to “build the capacity of the state” in order for the state to effectively respond to service delivery challenges and efficiently manage public resources. Given the enormous and incessant demand for services and the limited resources available to satisfy that demand, all available resources are to be used as effectively and efficiently as possible.

For this reason, this TOR’s sole objective seeks to solicit Public Finance Management [PFM] experts as well as African Thought Leadership experts to share their expertise with the MECs and HODs as part of improving and strengthening public finance management within the context of building the capacity of the state.

## 2. SPECIFIC BACKGROUND

The fulfilment of the duties of Accounting Officers [AOs] and those of Executive Authorities [EAs], is critical for a functional organization which is supported by sound PFM system and effective leadership for effective service delivery. There are numerous pieces of legislation, regulations and case law that have a direct impact on accountability in South Africa. The duties of Accounting Officers and MECs are guided by the provisions of the Constitution and subsequent enabling legislation, regulations, policy frameworks, guidelines, practices and principles of co-operative governance and intergovernmental relations.

The overall objective of the induction workshop is geared towards promoting and improving PFM in the changing world and the realization of the aspirations of African people for creating the leadership the continent wants. Some of the issues that must be covered in the workshop series should include, but not limited to:

1. Constitutional and legislative basis for public sector financial management and budget process in South Africa.
2. Paradigm shifts in understanding of PFM landscape in a changing world and for a developmental and transformational Agenda.
3. Managing public sector: Managing fiscal puzzles for effective and efficient service delivery.
4. Role and Responsibilities of EAs and AOs.
5. Management of Political and Administrative Interface as required in the NDP.
6. Pondering the pursuit of NDP Vision as African Thought Leaders and African aspirations as espoused in Agenda 2063. Embedded herein should be Case Studies on African Thought Leadership perspectives.
7. Global, regional integration, and public - private partnerships for the realization of the Africa we want.

The challenge is to institute a convincing and logical, mental leadership model that will make sense to public service leaders taking into consideration the fiscal constraints, but inspiring them to exhibit the kind of leadership behaviour that is required by, and is in line with, the strategic objectives of government to deliver for its people whilst fostering an ethos for the renewal of African mind.

In future, we anticipate that this project will interface and be sustained through academic partnerships for implementation once every electoral year to support the incoming politico-administrative echelon to understand PFM imperatives and their leadership obligations to South Africa and the continent for the renewal thereof.

- 1 This Standard Bidding Document (SBD) must form part of all bids<sup>1</sup> invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).<sup>2</sup> Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:

Bid rigging is, therefore, an agreement between competitors not to compete.
