1 BACKGROUND

The National Treasury fulfils a pivotal role in the implementation and management of the Public Finance Management Act (PFMA) No 1 of 1999, as well as the Municipal Finance Management Act (MFMA) No 56 of 2003. The essence of both these Acts is to regulate Financial Management in the Public Sector across all spheres of government. The PFMA as well as the MFMA are intended to ensure that all revenue, assets, liabilities and expenditures are managed efficiently and that the responsible officials are equipped with appropriate and necessary knowledge to adhere and comply with the respective Acts.

The Local Government Infrastructure Unit (LGI) which is located within the Intergovernmental Relations Division of the National Treasury requires augmentation of its capacity and capability to be able to fully undertake its legislated mandates on local government infrastructure delivery, monitoring, oversight and reporting functions.

The envisaged building of capability and capacity of LGI Unit is to be premised on the emerging Local Government Infrastructure Delivery Management System Toolkit (LG IDMS Toolkit) currently being developed to assist local government towards effective and efficient infrastructure delivery.

The LG IDMS Toolkit is being developed through the programme called Procurement, Infrastructure and Knowledge (PINK) Management. - iii. ***The Local Government Infrastructure Reporting Model*** which is currently being designed to be the local government infrastructure reporting tool based on the LG IDMS Toolkit.
- iv. ***Local Government Framework for Infrastructure Delivery and Procurement Management*** which primarily focus on infrastructure procurement and project management processes. This Framework was jointly created by IGR and OCPO and issued by the MFMA Unit.
