## 1. INTRODUCTION

The modernisation of government systems is based on principles of simplification, standardisation and automation of as many business processes as possible. The Office of the Chief Procurement Officer (OCPO) embarked on a project of modernizing public sector supply chain management and is in the process of developing an eProcurement system to address inefficiency. The Central Supplier Database (CSD) was introduced as the precursor to eProcurement implementation and as a means of simplifying supplier record management, compliance and policy implementation.

## 2. BACKGROUND INFORMATION

There has been significant compliance burden on Government Departments, Municipalities, Public Entities, State Owned Enterprises and Constitutional Bodies when procuring goods, services and works to execute Government's mandate.

The Office of the Chief Procurement Officer (OCPO) is currently delivering on its commitment to improving transparency, efficiency and effectiveness of Supply Chain Management (SCM) by simplifying the process of doing business with state in the SCM environment. The Central Supplier Database (CSD) is the first step in this journey and is seen as the precursor to eProcurement in government.

The key benefits of the CSD include the following:

- a. The CSD is the source of all supplier information for all organs of state;
- b. The CSD aims to reduce duplication of effort and cost for both business and government while enabling electronic procurement processes, as suppliers will only be required to register one time when doing business with the State;
- c. Suppliers that are in good standing on the various compliance requirements of Government, will experience a reduction in red tape and administrative burden when doing business with government;
- d. Standardised and electronic verification of supplier information, will lead to reduced fraud;
- e. Significant reduction in compliance audit effort and cost will be achieved across all spheres of government; and
- f. The CSD allow Government to more effectively implement SCM policies and practices applicable to suppliers (e.g. locating businesses run by youth, women, cooperatives and people with disabilities).

Suppliers are able to self-register on the CSD website [www.csd.gov.za](http://www.csd.gov.za). The CSD interfaces to South African Revenue Service (SARS) to enable Tax Clearance Certificate verification and the Companies and Intellectual Property Commission (CIPC) for verification of business registration and business ownership information. The CSD furthermore verifies supplier information with the register for tender defaulters and database of restricted suppliers, and verifies South African identification numbers with the Department of Home Affairs (DHA). Directors and owners information is also verified against government employee data for identifying state employees doing business with the state. Integrity of accreditation information is also strengthened, first step by integrating with CIDB for contractor grading and level verification. The CSD also verifies bank accounts of suppliers by integrating with the National Treasury Safetyweb application which facilitates bank account verification.

There are over 500 000 suppliers registered on the CSD and 700 000 users in total. The CSD is used by over 800 organs of state to identify suppliers and for verification of supplier compliance information. This results in a number of enhancement requests coming from suppliers and organs of state users.

The CSD solution is made up of the following functions:

- User access management – managing CSD user details

- Reporting functionality (supplier registration reports, usage statistics, etc)
- Supplier registration process
  - Supplier identification

## 11. FRONTING

- a. The National Treasury supports the spirit of broad based black economic empowerment and recognizes that real empowerment can only be achieved through individuals and businesses conducting themselves in accordance with the Constitution and in an honest, fair, equitable, transparent and legally compliant manner. Against this background the National Treasury condemns any form of fronting.
- b. The National Treasury, in ensuring that bidders conduct themselves in an honest manner will, as part of the bid evaluation processes, conduct or initiate the necessary enquiries/investigations to determine the accuracy of the representation made in bid documents. Should any of the fronting indicators as contained in the Guidelines on Complex Structures and Transactions and Fronting issued by the Department of Trade and Industry, established during such enquiry/investigation, the onus will be on the bidder contractor to prove that fronting does not exist. Failure to do so within a period of 14 days from date of notification may invalidate the bid/contract and may also result in the restriction of the bidder/contractor to conduct business with the public sector for a period not exceeding ten years, in addition to any other remedies the National Treasury may have against the bidder/contractor concerned.

## CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids<sup>1</sup> invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).<sup>2</sup> Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
  - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
  - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

<sup>1</sup> Includes price quotations, advertised competitive bids, limited bids and proposals.

<sup>2</sup> Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
