NT015-1-2016

APPOINTMENT OF A SERVICE PROVIDER(S) FOR THE DEVELOPMENT AND EVALUATION OF POLICY OPTIONS RELATED TO FINANCING INFRASTRUCTURE AND SERVICE DELIVERY IN SMALL AND RURAL MUNICIPALITIES FOR A PERIOD OF 10 MONTHS.

CLOSING DATE: 6 July 2018

**BID NUMBER: NT015-1-2016****APPOINTMENT OF A SERVICE PROVIDER(S) FOR THE DEVELOPMENT AND EVALUATION OF POLICY OPTIONS RELATED TO FINANCING INFRASTRUCTURE AND SERVICE DELIVERY IN SMALL AND RURAL MUNICIPALITIES FOR A PERIOD OF 10 MONTHS****1. BACKGROUND**

Cabinet adopted South Africa's Policy Framework for Municipal Borrowing and Financial Emergencies in 2000. It was based on Government's 1998 White Paper on Local Government. The policies set forth in the Policy Framework were incorporated in to the Municipal Finance Management Act, No. 56 of 2003.

In the intervening years, municipal infrastructure needs have evolved, and South African municipalities have gained additional experience with service delivery and its challenges. South Africa's metropolitan and local municipalities can be grouped into three categories: Group 1: this group consists of the 8 metropolitan municipalities and 19 secondary cities (the metros are also known as the category A municipalities and the secondary cities as the category B1 municipalities).

Group 2: this group consists of some 125 local municipalities with larger or smaller towns (also known as the category B2 and B3 municipalities), together with their corresponding district municipalities.

Group 3: this group consists of some 61 mostly rural local municipalities (also known as the category B4 municipalities), together with their corresponding district municipalities.

The municipalities in Group 1 are home to more than 80% of the nation's economic activity, and more than half of its population. In general, they have the potential to raise the revenue they need to deliver services and invest in infrastructure. Many or most are creditworthy and have the ability to borrow from the private sector to finance infrastructure. These municipalities' investment needs are dominated by the need for rehabilitation and refurbishment of existing infrastructure, and by investment to accommodate population growth and economic growth. These municipalities have a chronic backlog of formal housing, but most have made good progress in supplying most residents with refuse collection, water, sanitation, and electricity. These municipalities are not the subjects of this Terms of Reference.

Although they are more numerous, and cover more than 90% of the nation's land area, the Group 2 and Group 3 municipalities have far less own-source revenue potential because the people are generally poorer, and the taxable property values are generally lower, in comparison to the Group 1 municipalities. These are the municipalities for who the constitutionally mandated equitable share of national revenues is a critical element of the overall revenue picture. Many of these municipalities also receive conditional grants from the National Treasury for a variety of purposes. Many of these municipalities, particularly the rural municipalities, continue to face challenges in delivering services such as refuse collection, water, sanitation, and electricity.

2. CONSULTANCY OBJECTIVES

The overall objective of the work to be performed under this consultancy is to assist the National Treasury team by undertaking research and analytical work as described below, to support the identification and evaluation of policy options for financing infrastructure and service delivery in the small and rural municipalities, defined as the Group 2 and Group 3 municipalities described above. The output of this assignment will be used for the update the

Policy Framework for Municipal Borrowing and Financial Emergencies that the Urban Finance Working Group is currently undertaking.

3. SCOPE OF WORK, SKILLS AND QUALIFICATION REQUIRED

For each of the 10 municipalities, the consultant will combine available secondary sources with primary research including interviews, surveys, recommendations of the Financial and Fiscal Commission to the Annual Division of Revenue, and focus groups with councillors, officials and residents, to answer the following questions:

1. To what extent councillors, officials and residents are satisfied or dissatisfied with access and quality of basic services (i.e water, electricity, refuse removal)?
2. How satisfied are councillors, officials and residents with the delivery of municipal services such as refuse collection, water, sanitation, and electricity? With the condition of municipal infrastructure?
3. To what degree is satisfaction correlated with per capita municipal operating expenditure? With per capita municipal capital expenditure?
4. To what degree is dissatisfaction correlated with per capita revenue or expenditure levels?
5. To what degree is satisfaction or dissatisfaction associated with other identifiable factors, such as perceptions of administrative capacity, perceptions of honest and fair conduct by municipal officials and councillors, and perceptions of effective local governance?
6. To what degree would it be likely that a modest amount of additional annual financial resources would change any of these perceptions? A large amount of additional annual financial resources?
7. To what degree would it be likely that improved access to long-term lending for infrastructure investment would change any of these perceptions? Do councillors, officials and residents believe that long-term borrowing is a wise course of action for their municipality?
8. To what degree is the satisfaction or dissatisfaction associated with the quality and relevance of existing technical and financial support tools from development agencies such as development finance institutions? Do councillors, officials believe that the support provided by these institutions improve the infrastructure delivery in their municipality?
9. Other than financial resources, what resources, reforms, or programs do councillors, officials and residents believe would lead to significant improvements in service delivery? In the condition of municipal infrastructure?
10. Among councillors, officials and residents, how much support, if any, is there for introducing alternative institutional models? Such models might include a different or stronger role for local or district municipalities, for provinces, for national institutions, for the private sector, or for civil society.

The consultant will prepare a draft written report and a PowerPoint presentation, to be delivered and discussed with the National Treasury Team. Thereafter, the consultant will prepare and submit a final report that must take into account inputs and comments by National Treasury.

After receiving and examining the final report, National Treasury may authorise the consultant to proceed with Task 3 as described below. In other words, there is no guarantee or promise that Task 3 will be authorized. This depends on whether the consultant has satisfactory completed Task 1 as expected in these terms of reference.

Task 3: Synthesis and integration

Upon satisfactory completion of Task 2, the Consultant will prepare a report, not to exceed 20 pages in length, which will identify and evaluate policy and implementation options to improve service delivery and municipal infrastructure in Group 2 and Group 3 municipalities. Such options may include, but are not necessarily limited to:

- Improvements within the constitutional competence and mandate of municipalities
- Adjustments to the equitable share or conditional transfers
- Implementation support from national or provincial authorities

12. FRONTING

- a. The National Treasury supports the spirit of broad based black economic empowerment and recognizes that real empowerment can only be achieved through individuals and businesses conducting themselves in accordance with the Constitution and in an honest, fair, equitable, transparent and legally compliant manner. - b. The National Treasury, in ensuring that bidders conduct themselves in an honest manner will, as part of the bid evaluation processes, conduct or initiate the necessary enquiries/investigations to determine the accuracy of the representation made in bid documents. Should any of the fronting indicators as contained in the Guidelines on Complex Structures and Transactions and Fronting, issued by the Department of Trade and Industry be established during such enquiry/investigation, the onus will be on the bidder / contractor to prove that fronting does not exist. Failure to do so within a period of 14 days from date of notification may invalidate the bid/contract and may also result in the restriction of the bidder/contractor to conduct business with the public sector for a period not exceeding ten years, in addition to any other remedies the National Treasury may have against the bidder/contractor concerned.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
