TERMS OF REFERENCE

NT015-2019: APPOINTMENT OF SERVICE PROVIDER TO CONDUCT AN ASSESSMENT OF DIFFERENT CATEGORIES OF MUNICIPALITIES' CAPACITY TO IMPLEMENT DEVELOPMENT CHARGES FOR A PERIOD OF SIX MONTHS

1. Purpose

The purpose of the terms of reference is to appoint a service provider to undertake a comprehensive assessment of different categories of municipalities' capacity to implement development charges.

2. Background

- 2.1** The local government sphere plays an important role in the transformation of our country. It is accordingly important that this sphere of government is appropriately capacitated to fulfil its service delivery and developmental mandates. A developmental local government requires municipalities to focus their energies on (a) the provision of household infrastructure and services; (b) the creation of liveable, integrated cities, and rural areas; (c) local economic development; and (d) community empowerment and redistribution.
- 2.2** Many South African municipalities face fast-growing needs for investment in infrastructure to deliver municipal services. These investments are required to ensure access to basic services, to meet the needs of growing populations and economies, as well as to renew existing assets. Yet, according to a study compiled by the National Treasury in 2015, municipalities significantly under-invest in infrastructure networks by approximately R15 billion per annum. This is increasingly problematic as both public and private sector developments, including state-subsidised housing projects, are routinely delayed due to a lack of financial resources for infrastructure investment. The same study estimated that roughly half of that amount could be recovered from developers through a system of development charges. However, only a fraction of this capital revenue potential is currently being recovered.

- 2.3** Development charges are important components of a sustainable municipal infrastructure financing system. They can be used by municipalities alongside own revenue and long term borrowing to finance strategic infrastructure capable of unlocking development. Proceeds from development charges can be used for leveraging municipal debt and for servicing municipal debt.
- 2.4** Development charges are an existing once-off charge levied by a municipality on the developer to recover costs that a municipality incurs when installing new infrastructure or upgrading an existing infrastructure to service a proposed land development. They are currently regulated through various pieces of legislation, such as the Municipal Finance Management Act, Municipal Systems Act, Municipal Fiscal Powers and Functions Act, various Provincial Land Use Ordinances and Spatial Planning and Land Use Management Act. This has created confusion, scope for extensive litigation, conflicting legal perspectives and a general resistance by municipalities to impose the charge.
- 2.5** The National Treasury is amending the Municipal Fiscal Powers and Functions Act to provide clarity on how development charges should be levied. The amendment seeks to create legal certainty for municipalities to impose development charges, regulate the applicability of the development charges and create a more standardised, equitable and sustainable framework for development charges.
- 2.6** The new legislation will set new rules to be applied when levying development charges. The successful implementation of the proposed legislation will largely depend on the capacity and skills of municipalities to implement the development charges. To ensure that municipalities are ready to implement the proposed framework on development charges, National Treasury therefore intends to provide technical support to municipalities. The content of the support should be informed by the needs of municipalities as it relates to levying of development charges. It is on this basis that the services of a service provider are required to conduct the capacity assessment of municipalities to identify gaps/areas on which municipalities require technical support in order to successfully levy the development charges. Based on the findings of the assessment, the service provider will also be required to develop a manual on development charges that will be used by National Treasury to provide support to municipalities.

3. Scope of work

- 3.1** The scope of work to be undertaken by the service provider (s) is as follows:
- a) Develop an assessment tool/s to be used to collect information from municipalities (e.g. excel spread sheet or any other form of tool);
 - b) A maximum of three nominees from the services provider will together with NT conduct provincial pre-assessment meetings with municipalities to explain and clarify the process that will be followed to conduct the assessment and assessment tool/s. Number of provincial meetings are estimated as follows (based on the number of municipalities within each province and the vastness of the province):

- (i) Eastern Cape- 2 workshops
 - (ii) Free State- 1 workshop
 - (iii) Gauteng- 1 workshop
 - (iv) Kwa Zulu Natal- 2 workshops
 - (v) Limpopo- 1 workshop
 - (vi) Mpumalanga- 1 workshop
 - (vii) Northern Cape- 2 workshops
 - (viii) North West- 1 workshop; and
 - (ix) Western Cape- 1 workshop
- c) Based on the information received from municipalities, conduct analysis on the actual capacity (both functional and technical capacities assessment identified and captured on the assessment tools) of different municipalities to implement development charges;
 - d) Identify areas that require capacity building and, based on these, identify preliminary steps to be undertaken by municipalities to establish proper development charges systems that are in compliance with the provisions of the proposed development charges framework;
 - e) Draft and design a manual to build and/or improve municipal capacity to implement development charges;
 - f) Prepare and capacitate National Treasury officials on the tools designed in order to enable them to provide support to municipalities; and
 - g) Design a monitoring and evaluation tool (e.g. workshop evaluation questionnaire) which National Treasury will use to assess the usefulness and impact of the support and to determine future assistance or support to municipalities.

4. Project costing

The service providers should note that the overall project cost are inclusive of the disbursement costs (including travelling). 13. FRONTING

- a. The National Treasury supports the spirit of broad based black economic empowerment and recognizes that real empowerment can only be achieved through individuals and businesses conducting themselves in accordance with the Constitution and in an honest, fair, equitable, transparent and legally compliant manner. - b. The National Treasury, in ensuring that bidders conduct themselves in an honest manner will, as part of the bid evaluation processes, conduct or initiate the necessary enquiries/investigations to determine the accuracy of the representation made in bid documents. Should any of the fronting indicators as contained in the Guidelines on Complex Structures and Transactions and Fronting issued by the Department of Trade and Industry, established during such enquiry/investigation, the onus will be on the bidder contractor to prove that fronting does not exist. Failure to do so within a period of 14 days from date of notification may invalidate the bid/contract and may also result in the restriction of the bidder/contractor to conduct business with the public sector for a period not exceeding ten years, in addition to any other remedies the National Treasury may have against the bidder/contractor concerned.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
